Columbus State Community College

Board Action

SUBJECT:

Capital Improvement Allocation - Union Hall Renovation

BACKGROUND INFORMATION

In May 2008, the Board of Trustees delegated authority to the President to authorize release of funds from the Capital Improvement and Land Acquisition account for capital improvements necessary to maintain the college's facilities. Given the nature of this release relative to the College's request for State capital funds for this specific project, the President seeks the Board's authorization for the release of the requested funds.

Union Hall was dedicated in 1975. Within its 100,000 gross square feet the college offers its health programs, and houses faculty and IT offices, and a cafeteria. Several academic and office spaces have been updated in recent years with funds allocated by the Board in FY2002. A feasibility study was recently completed through which the building's infrastructure was assessed, as was the feasibility of a renovation while continuing its use as an academic building. In addition to upgrading the building's ability to serve students in a more organized and technologically updated manner, the mechanical, electrical and life safety infrastructure will be updated, and the building's capacity will be increased by a 17,600 square foot addition which will be constructed first, and then used as swing space as each floor is renovated in successive fashion.

Of the original allocations for Union Hall renovations, approximately \$6.5 million is available. For the addition, a complete renovation, related upgrades that include new windows, an upgraded main entrance, and fire system updates, the total project budget is \$15.2 million. Additional funds of \$8.7 million are necessary to complete planning for and implement the project. Columbus State has requested in its FY2011-2016 Capital plan submitted earlier this year to the Ohio Board of Regents an \$8.0 million allocation for this project. Should these funds become available during the course of the Union Hall Renovation, they shall be used first to pay for project costs. If state funds are not secured, the project will continue without interruption.

RECOMMENDATION:

That the Board of Trustees affirms the President's release of \$8.7 million from the Capital Improvement and Land Acquisition Account for the renovation of Union Hall. Should State capital appropriations become available for this renovation, State funds shall be used to pay for project costs before local funds are expended.

BOARD ACTION

SUBJECT:

New position of Vice President of Student Affairs

BACKGROUND INFORMATION:

In order to most effectively address the current and future challenges/goals of Columbus State Community College regarding student success, Title III, switch to semesters, and the University System of Ohio (to name a few), the President challenged the college to benchmark numerous other similarly situated community colleges. From that review it is apparent based on our size, complexity, growth and direction there is a need to appropriately focus our resources in a more strategic manner and we are proposing the need for a new position. The Vice President of Student Affairs in tandem with reclassifying the position of Provost to a Senior Vice President of Academic Affairs is a more effective structure/model to address the college's needs and more carefully focuses the work.

The cost for the new position:

Salary range begins at \$95,000 Benefits (16.9%) \$16,055

Healthcare \$ 6,000

Total \$117,055

RECOMMENDATION:

The Board of Trustees approves the position as proposed.

Columbus State Community College

Date		

Board Action

SUBJECT:

Semester Conversion

BACKGROUND INFORMATION:

In May 2009, the Board of Trustees authorized the conversion from quarters to semesters by Autumn 2012. Additionally, the Board authorized an initial \$1.0 million allocation for this conversion. To date, approximately \$500,000 of the initial allocation has been spent to plan and prepare for the conversion.

A project plan has been developed and will be managed by a project manager and a core implementation team. A brief overview of the project plan is attached. The project involves converting the curriculum from quarters to semesters, including substantive review of and revision to the curriculum; advising students in preparation for the transition to semesters; and adjusting technological and other systems as necessary.

The total budget to implement the Semester Conversion will not exceed \$6.0 million. The \$500,000 balance of the initial allocation will be used to begin the implementation. Additional resources will be allocated from the current year operating budget and unallocated reserves, if necessary. A budget plan for the Semester Conversion implementation will be presented to the Board of Trustees for review and approval in January 2011 as part of the Revised FY11 Operating Budget.

RECOMMENDATION:

That the Board of Trustees authorizes a project budget for the implementation of the Semester Conversion project in an amount not to exceed \$6.0 million. A specific spending plan will be included in the revised budget that will be presented to the Board of Trustees at its meeting in January 2011.

switch semesters autumn 2012

Summary

A key component of the University System of Ohio's Strategic Plan is to have all public institutions of higher education on the same academic calendar. Currently some colleges and universities are on a quarter calendar, and others are on a semester calendar. Having a common statewide calendar is a more student-centered approach to the pursuit of a higher education, facilitating transfer and curriculum alignment.

In May 2009, the Board of Trustees authorized the President to convert Columbus State Community College from quarters to semesters starting with Autumn Semester 2012. In order to accomplish a calendar conversion by the beginning of Autumn 2012, the Board authorized an initial allocation of \$1.0 million to begin planning the work.

A proposed academic calendar for semesters was shared with the Board in November 2009, and an update on the organization of the quarters to semesters planning process was shared with the Board in March 2010. In recent months significant planning and work has occurred, including a detailed implementation plan and the preparation of a budget for the conversion.

The college has chosen to use this conversion as an opportunity to make qualitative and value-added academic and operational improvements in concert with critical quantitative conversion requirements to enhance a student's educational experience. The following are a few examples:

- A comprehensive review and update of academic programs will include the most relevant courses moving forward into semesters, including online and hybrid versions.
- All programs and courses will be evaluated and, when appropriate, updated and improved using the established college guidelines and conversion processes.
- All Transfer Assurance Guide (TAG) courses will be submitted to statewide Board of Regents for review and approval.
- An electronic course and program approval workflow tool will be implemented to more effectively manage curriculum across the divisions and departments.
- Practices, policies, and procedures will be redesigned to support an improved enrollment process for students.
- Systems testing approaches will be strengthened, developing important college capabilities that will benefit future college-wide projects.
- Advising will be expanded during the lead-up to the conversion to ensure no loss
 of credit or time to degree for students.

switch semesters autumn 2012

- Consulting expertise will be retained to ensure compatibility with multiple systems interfaces.
- Communication with students is an explicit phase of the project. It has already begun and will increase as the project proceeds.
- Given the scope and complexity of the project, focused project management is critical. Key employees will be assigned full-time or near full-time during certain phases of the project. Replacing these individuals is required to ensure effective college operations as the project proceeds.

Columbus State Community College

Board Action

SUBJECT:

Construction Contracts- Parking Lots

BACKGROUND INFORMATION:

State law requires the Board of Trustees to authorize the award of construction contracts that exceed \$50,000.

On May 28, 2009, the Board of Trustees approved an allocation of \$400,000 for the purpose of creating additional parking spaces on the Columbus campus by constructing two new surface parking lots. Additionally, on May 27, 2010, in order to expedite the award of contracts for the construction of the new lots, the Board of Trustees authorized the President and the Chair of the Board to sign any construction contract over \$50,000 with the understanding that those contracts would be presented to the Board at its next meeting for ratification.

On June 1, 2010, construction bids for two new surface parking lots were opened, and on July 15, 2010 the contracts were executed by the President and the Chair of the Board of Trustees.

RECOMMENDATION:

That the Board of Trustees affirm the following contracts with the lowest responsive and responsible bidders:

Contract	Company	<u>Amount</u>
General Trades	WB Republic Builders	\$320,000
Electrical	Hi-Tech Electrical	\$ 72,398

BOARD ACTION	

SUBJECT:

Financial Statements as of and for the two months ended, August 31, 2010.

BACKGROUND INFORMATION:

Columbus State Community College policy requires that monthly the President provide each Board of Trustees member a copy of the college's financial statements.

RECOMMENDATION:

That the financial statements as of and for the two months ended, August 31, 2010, be accepted as presented.

550 East Spring Street P.O. Box 1609 Columbus, Ohio 43216-1609 614/287-2400

TO:

Board of Trustees

FROM:

Dr. David T. Harrison, President

DATE:

September 9, 2010

SUBJECT:

Financial Statements as of August 31, 2010

Attached are the financial statements of Columbus State Community College District, the Foundation, and the President's Discretionary Fund for the period ended August 31, 2010.

1. General Fund

These financial statements include the first full-year Delaware Campus budget approved by the Board in May 2010. See specifically Exhibit B which includes the "transfer in" of revenues for the Delaware Campus from funds allocated for start-up operations (the first year yields no subsidy revenues). Tuition and expenses are included in the consolidated district totals.

• Enrollment

			Actual	Actual		
	Budgeted		Increase/	FY 10	FY 11	%
<u>Quarter</u>	Headcount	Headcount	Decrease	FTEs	FTEs	Variance
Summer 2010*	16,845	18,444	9.5%	9,533	10,781	13.1%
Autumn 2010						
Winter 2011						
Spring 2011						

^{*}Preliminary headcounts and FTEs

• Revenues (Exhibit B)

Total operating revenues through August 2010 are \$21,173,455, 13.2% higher than the same period last year. This is due mainly to the ARRA stimulus portion of state subsidy that we received in arrears last year as well as increased tuition revenue for summer quarter due to higher-than—budgeted enrollment.

• Expenditures (Exhibit B)

Total operating expenditures (before transfers) are \$19,060,640 for the period, or 13.6% higher than the same period last year. These expenditures are consistent with increased expenses budgeted for new faculty and staff at both the Columbus and the Delaware campuses, and operating and marketing costs associated with the Delaware Campus. Because we are just two months into the new fiscal year, our projected year-end numbers at this time equal budget.

Board of Trustees Financial Statements as of August 31, 2010 Page 2

2. Auxiliary Fund (Exhibit D)

For the period ending August 2010, the Auxiliary Fund's operating loss increased by 103% when compared to the same time period last year, due in large part to more summer quarter sales for the bookstore being realized in June this year. Additionally, enrollment at the CDC is down, as is common during the summer and as pre-school children leave to start kindergarten. Additionally, grant funds that previously provided CDC scholarships have been exhausted and the federal grant was not available to be renewed. Overall, Auxiliary expenditures are higher by 7% this year primarily due to salary increases and the subsequent benefit increases for the year.

3. President's Discretionary Fund (Exhibit F)

The President's Discretionary Fund has a cash balance of \$4,254 at August 31, after disbursements of \$557. This account will be replenished to an annual budget of \$20,000 in September.

4. **Foundation** (Exhibits G and H)

Foundation contributions through August were \$300,973 compared to \$90,826 through August of last year. Additional royalties received by the Biological Sciences Department in August, and two large donations account for most of the increase in the revenue for the first two months of the year. Expenditures were \$23,119 compared to \$54,315 during the same period last year. Summer quarter scholarship payments to students were made in June this year but in July last year. Additionally, both the timing of Taste the Future expenditures and cutting back on related expenditures account for the decrease through August.

5. Investments

The College's portfolio is invested consistent with its investment policy, with 31.9% currently invested in STAROhio and other money markets, with the balance in federal agencies.

These two projects were funded from both the General Fund and the Bond Proceeds.
 As approved by the Board of Trustees on January 26, 2006, available balances in projects funded by the 2003 bond proceeds were reallocated to the Bookstore/Retail Complex.
 As approved by the Board of Trustees on September 28, 2006, certain Columbus Campus Facility Projects may be funded by unspent balances from 2003 bond proceeds.

NOTE:

The President's Discretionary fund is a separate fund from the operating and capital funds of the college. The source of funds is from other-than-public (governmental) monies or student fees, as specified by the Board of Trustees.

The purpose of the fund is to enhance the mission of the college. Expenditures are to promote or enhance the image of the college, the college educational programs, operations, entertainment, contributions, and other appropriate expenditures not provided for in the college operating budget.

Portfolio Composition	Type	% of Total
	STAR Ohio	30.65%
	Agencies	68.10%
	Cash & Equivalents	1.26%
Inventories	-	100.00%

2) Inventories

Bookstore inventories at year-end are stated at actual cost. At or near year-end a complete physical inventory is taken and adjustments, if any, are recorded.

3) Plant Funds

Physical plant and equipment are stated at cost at date of acquisition or fair value at date of donation in case of gifts. Depreciation of physical plant and equipment is recorded.

4) Long-term debt

Long-term debt consists of bonds payable in annual installments varying from \$545,000 to \$1,120,000 with interest at rates varying from 2.00% to 4.50%, the final installment being due in 2023, collateralized by a gross pledge basis, of the general receipts of the college, which include the full of every type and character of receipts, excepting only those specifically excluded which are primarily those that are appropriated from the State of Ohio.

Debt service for this long-term debt is paid from an annual allocation in the College's Operating fund, the Auxiliary Services fund, and from the State's Capital Component Program.

5) Interfund Accounts

All interfund borrowings have been made from current funds and amounts are due currently without interest.
