The Columbus State Community College Catalog contains current information regarding the school calendar, admission, degree requirements, fees, regulations, and course offerings. Columbus State Community College reserves the right to make changes in any material contained herein, as deemed necessary.

For specific information on any changes, please contact Columbus State at (614) 287-2453 or 1-800-621-6407 if calling long distance.

Nondiscrimination Policy

It is the established policy of Columbus State Community College not to discriminate against any individual or group of individuals for reasons of race, color, religion, ancestry, national origin, sex, disability or veteran status. The College is fully committed to providing equal opportunities in all employment-related activities, educational programs, and other activities of the College. The College promotes equal opportunities through a positive and continuing Affirmative Action Program. Columbus State Community College will fully comply with all federal, state, and local laws and regulations to guarantee equal opportunities.

Reasonable Accommodations

It is the Columbus State Community College policy to provide reasonable accommodation to students with disabilities. If you would like to request such accommodations because of a physical, mental, or learning disability, please contact the Department of Disability Services, Franklin Hall, Room 228.

Accreditation

Columbus State Community College is accredited by the North Central Association of Colleges and Schools. (North Central Association of Colleges & Schools, 30 N. LaSalle Street - Suite 2400, Chicago, Illinois 60602-2504, (312) 263-0456 or (800) 621-7440.)

Message from the President

Dear Student-

Welcome to Columbus State Community College. I am pleased that you have chosen to come to Columbus State to pursue your educational goals.

Whether you are just beginning your academic career, or are returning to college to update your skills, I hope your experience with us is a positive one. The faculty and staff here at Columbus State are dedicated to providing you with the best educational experiences possible. Many of our faculty and staff are recognized both statewide and nationally for their professional expertise.

As your community college, we are dedicated to providing access to higher education to everyone in our community. We also work hard to meet the job-training needs and work-place skills demanded by employers in Central Ohio.

Whether you are here to earn a degree or just to take one class, we welcome you as a member of the Columbus State family.

Sincerely,

A handwritten signature in black ink that reads "M. Valeriana Moeller". The signature is written in a cursive, flowing style.

Val Moeller
President

Columbus State in Brief

For more than thirty-eight years, Columbus State Community College has been meeting the diverse educational needs of the community and is proud to be an important contributor to the growth and change of Columbus and central Ohio.

In 1963, the Columbus Board of Education created the Columbus Area Technician School, and the Board designated an area of Central High School to house this new school for two-year, post-secondary technical programs.

Rapid growth in enrollment during the initial two years caused the Board of Education to purchase the Columbus Aquinas Parochial High School property and move the Technician School to a permanent campus. On May 25, 1965, the Ohio Board of Regents gave approval to a proposal from the Columbus Board of Education to create the Columbus Technical Institute District, and the Columbus Technical Institute was granted a charter effective July 1, 1967.

As a state-assisted college, Columbus Technical Institute provided technical programs that prepared students for immediate employment. From the first graduating class in 1965 through today, more than 28,000 students have earned associate degrees in 50 technical fields and transfer programs. The success of the College is reflected in the many accomplishments of these graduates and the many other students who have completed courses to improve and enhance their skills.

On July 1, 1987, Columbus Technical Institute was rechartered as Columbus State Community College by action of the Ohio Board of Regents. This significant change was a result of careful study of the educational needs of Columbus and central Ohio. The resulting findings supported the establishment of a comprehensive community college to provide additional educational opportunities to area residents.

As a comprehensive community college, Columbus State has a strong commitment to technical education, offering the Associate of Applied Science and the Associate of Technical Studies degree programs in Business, Health, Human Service, Public Service, and Engineering Technologies to prepare graduates for immediate employment. The transfer programs, Associate of Arts and Associate of Science, meet the majority of freshman and sophomore course requirements of bachelor's degree programs offered by four-year colleges and universities in central Ohio and throughout the state. Specific transfer agreements with area colleges and universities have also been developed.

In addition to courses offered on the main campus, classes are offered at seven off-campus locations throughout central Ohio. The College's Business and Industry Training Department also offers customized training programs for local employers on campus or at the business site.

Columbus State's main campus is centrally located on approximately 80 acres near downtown Columbus. The campus currently has more than 20 buildings that house classrooms, labora-

tories, and offices of the College. Also part of the College's main campus is the Educational Resources Center which provides materials and resources for students. In addition to the main campus, the College operates a facility for the Aviation Maintenance Technology at Bolton Field Airport.

Columbus State Community College serves Franklin, Delaware, Madison, and Union Counties. A nine-member Board of Trustees is appointed by the Governor. Columbus State is accredited by The Higher Learning Commission: Member North Central Association (NCA), and many of the College's degree programs are accredited by professional associations and agencies.

Campus Tours

Arrangements for campus tours may be made by calling (614) 287-2669 or toll-free at 1(800) 621-6407. Please make an appointment at least two weeks in advance.

Welcome Center

New students are invited to begin the enrollment process at the Welcome Center located on the lower level of Madison Hall. Enrollment Advisors in the Welcome Center provide information on applying to the College, placement testing, transcript evaluation, course selection, class registration, financial aid, career services, and fee payment. For more information, call (614) 287-2669 (toll free 1-800-621-6407, ext. 2669) or visit our web site at www.csc.edu. The following services are available in the Welcome Center:

- Admissions/Enrollment Advising
- International Admissions/Enrollment Advising
- Career Advising and Counseling
- Placement Testing
- Financial Aid Advising
- Registration for Courses
- Fee Payment

ENROLLMENT SERVICES

ENROLLMENT SERVICES

Enrollment Services

Admission Policy

Columbus State Community College is committed to the principle of providing each student the maximum opportunity to develop and learn. Regular admission to the College is offered to applicants who are high school graduates or possess G.E.D. equivalency. Other applicants over 18 years of age may be admitted as a regular or conditional status student based upon placement test results.

Admission to the College does not assure admission to a particular program of study. Many technologies, including Nursing, have established additional requirements that must be fulfilled prior to acceptance. All prospective applicants are encouraged to contact the Welcome Center for specific information (614-287-2669).

For some students additional (prerequisite) coursework in science, mathematics and English may be needed prior to enrollment in certain courses and programs. While all degree programs can be completed in two years of full-time study, it may take longer for some students. This is particularly true if the student is attending on a part-time basis, if the student needs to take developmental courses, or if the student is also working.

Application Procedure

High school graduates:

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Submit to the Records and Registration office a final official high school transcript verifying graduation, if required for admission to your chosen program of study, (check the Specific Program Admissions Information in the Programs of Study section of this catalog for further details).
- Complete placement tests.

G.E.D. recipients:

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Submit a copy of your G.E.D. scores to the Records and Registration Office.
- Complete placement tests.

Home schooled students who have completed all coursework (conditional admission):

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Complete placement tests. The test results will be used to determine admission status. Students admitted conditionally may be required to complete selected courses during their first term of enrollment.

Applicants over 18 who possess neither a high school diploma nor certificate of G.E.D. equivalency (conditional admission):

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Complete placement tests. The test results will be used to determine admission status. Students admitted conditionally may be required to complete selected courses during their first term of enrollment.

Applicants who have attended another college:

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Submit a final official high school transcript or G.E.D. scores if applicable, to the Records and Registration Office, 201 Madison Hall.
- Submit an official transcript of prior college work from each previous institution attended. (The College reserves the right to request that official copies be mailed directly from the former college.)
- Complete placement tests. Students with transfer credit in college-level composition and algebra may not need to complete the entire placement test.

Transient students: (students attending another college who plan to enroll for one or two quarters and transfer the credits back to the other college)

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Submit a final official transcript of prior college work to the Records and Registration Office.
- Complete placement tests. Students with transfer credit in college-level composition and algebra may not need to complete the entire placement test.

Non-Post Secondary Enrollment Option, (Non-PSEO) applicants who are still attending high school may receive provisional admission for college classes.

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Submit written permission from the principal or counselor.
- Complete placement testing.
- Will be responsible for all fees including tuition, lab fees, books and supplies.
- Contact the K through 12 Initiatives Department at (614) 287-5961.

Applicants who are being home schooled within the age of compulsory high school attendance may receive provisional admission for college classes.

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Submit written permission from a parent or guardian.
- Complete placement testing.
- Will be responsible for all fees including tuition, lab fees, books and supplies.

- Contact the K through 12 Initiatives Department at (614) 287-5961.

High school students interested in the Post-Secondary Enrollment Options (PSEO) Program (concurrent enrollment in college classes while still in high school):

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Contact the K-12 Initiatives Department (295 Cleveland Avenue, (614) 287-5961, for a Post Secondary Enrollment Options Program (PSEO) packet. Complete the student section and submit the application to the high school counselor. The high school counselor will complete the rest of the PSEO application and will send it to Columbus State with the high school transcript.
- Students meeting preliminary criteria must complete placement testing.
- Students meeting the placement test score requirements will be offered admission into the PSEO program.

International (foreign) students:

Immigrant/Refugee

- Complete the application for admission and pay the \$10 non-refundable application fee.
- Attach a photocopy of the documentation verifying immigration status to the application.
- Submit original or certified photocopies of secondary school records showing graduation in original language and translated into English.
- Complete English as a Second Language placement test. Students with transfer credit in college-level English composition and math may not need to complete the entire placement test.

Non-Immigrant status/visa holders other than F-1

- All required documents must be received in the International Admissions Office area by the following dates:
 - Spring Quarter – FEBRUARY 15
 - Summer Quarter—MAY 15
 - Autumn Quarter – AUGUST 15
 - Winter Quarter – NOVEMBER 15
- Complete the Non-Immigrant visa holders' application (obtained from the International Admission Office) and pay the \$10 non-refundable application fee.
- Submit photocopies of both sides of your I-94 card, passport picture, and Visa stamp.
- Submit original or certified photocopies of secondary school records showing graduation in original language and translated into English.
- Complete a health check.
- Complete English as a Second Language placement test. Students with transfer credit in college-level English composition and algebra may not need to complete the entire placement test.

Additional documents may be requested by Columbus State before final admission is granted.

International students (F-1 Status)

- All required documents must be received in the International Admissions Office area by the following dates:
 - Students coming from abroad:
 - Spring Quarter – JANUARY 15
 - Summer Quarter—APRIL 15
 - Autumn Quarter – JULY 15
 - Winter Quarter – OCTOBER 15

F-1 students applying from other U.S. colleges/universities

- Spring Quarter – FEBRUARY 15
- Summer Quarter—MAY 15
- Autumn Quarter – AUGUST 15
- Winter Quarter – NOVEMBER 15
- Complete the International Student application for admission and pay the \$10 non-refundable application fee.
- Submit original or certified photocopies of secondary school records showing graduation in original language and translated into English.
- If English is not your first language, submit Test of English as a Foreign Language (TOEFL) score of 157 or higher (computer based) or 480 or higher (written) or a Michigan English Language Assessment Battery (MELAB) score of 78 or higher. If you have completed a college level, non-ESL English course at another U.S. college, the TOEFL and MELAB requirement may be waived.
- Submit the affidavit of support and the financial statement (both found in the application), and an original bank statement.
- If transferring from another U.S. college or university, submit the International Student Advisor Report.
- Complete a health check.

F-1 Transient

- Complete the F-1 Transient application for admission and pay the \$10 non-refundable application fee.
- Submit photocopies of the following documents: both sides of your I-94 card, picture page of your visa stamp, front and back of your I-20 from the college you attend full-time, your transcript showing completion of college level, non-ESL English at your current college or a copy of your TOEFL or MELAB score.
- Submit the International Student Advisor Report completed by your advisor at your home school. (Continuing F-1 transient students must submit this form every quarter).
- Complete a health check.

Returning Students

Students who have not taken classes at Columbus State for more than two years, and would like to return to the College, should contact the Records and Registration Office at least one week before the quarter begins to update their academic record. The student should also request official transcripts from any other college they attended during their absence from Columbus State be forwarded to the Records and Registration Office.

Senior Citizens “Good as Gold Educational Program”

As a community service, Columbus State offers senior citizens who are 60 years old or older and fully retired, the opportunity to enroll in credit courses, tuition free, on a space-available basis. To register for credit courses applicable to an Associate Degree, senior citizens pay an application fee of \$10, course lab fees, and the cost of books.

Senior citizens are also admitted to special courses on a tuition-free, space-available basis once the course is financially self-supporting. Lab fees, books and instructional supplies are assessed to senior citizens as required by other students. Courtesy parking permits are provided at no cost to senior citizens. Student rates to concerts and student activities are available to enrolled senior citizens. A “Good as Gold Educational Program” identification card is issued to all enrolled senior citizens upon request.

For information regarding programs and services, please call 287-2453 (or 1-800-621-6407 if calling long distance).

General Admission Information

High School Transcript /G.E.D scores

All students should provide the College with a final official copy of their high school transcript, if required for admission to their chosen program of study, and/or a copy of their official G.E.D. scores. Please check the Specific Program Admissions Information in the Programs of Study section of this catalog to determine if your high school transcript is required for admission to a particular program of study.

The official transcript and/or G.E.D. scores are to be mailed to Columbus State Community College, Student Records and Registration, 550 East Spring Street, P. O. Box 1609, Columbus, Ohio 43216-1609. All information submitted to the College relative to admission and academic status becomes and remains the property of the College.

Previous College Transcript

An official college transcript is requested of applicants who have attended other colleges and/or universities. An official transcript from each college attended is required of all who are seeking transfer credit or who have completed prerequisite coursework at another institution. The transcript is to be mailed from the other college(s) to Columbus State Community College, Student Records and Registration, 550 East Spring Street, P. O. Box 1609, Columbus, Ohio 43216-1609. All information submitted to the College relative to admission and academic status becomes and remains the property of the College.

Identification Number

The College uses the social security number as the student identification number. The College does not release this number to anyone. (Please see the Family Education Rights and Privacy Act information on pages 28-30 of the *Catalog* for further information on the release of student records).

Students who have not been issued a social security number or would prefer not to have the College use this number as an identifier, may request a student identification number be assigned. This request must be made in writing to the Director of Records and Registration. The student identification number must be obtained in person with a picture identification card (to maintain the confidentiality of the number).

Health Statement

Each student accepted for the following technologies or programs must submit a statement of health prior to registering for or attending technical classes: Dental Hygiene, Dietetic Technician Program, Early Childhood Development, Emergency Medical Services Technology, Health Information Management Technology, Histology, Massage Therapy Program, Medical Assisting Technology, Medical Laboratory Technology, Multi-Competency Health, Nursing, Phlebotomy, Radiography, Respiratory Care, Sports and Fitness Management, Surgical Technology and Veterinary Technology. A health statement form will be provided from the College Health Office or from the department chair or coordinator. Specific requirements vary by technology, but could include a physician’s examination, immunizations, and screenings.

All international students are required to complete a health statement in the College Health Office prior to scheduling their first quarter of classes.

Placement Tests

The COMPASS Placement Testing Lab offers computerized placement testing for new students to identify the appropriate starting level for reading, writing, and math courses. Developmental education courses may be required to maximize the student's opportunity for academic and personal success. After a student completes the COMPASS test, an advisor will assist them in first quarter course selection.

Placement testing is required for the following students:

- All students who plan to register for a course with established reading, writing, and math prerequisites;
- All students who register for 12 or more credit hours during their initial quarter at the College;
- All part-time students who will register for their 12th accumulative credit hour; and
- All high school students intending to take classes.

Students with transfer credit in college-level composition and algebra from an accredited institution may not need to complete the entire placement test. These students should contact an Enrollment Advisor in the Welcome Center (Madison Hall Lower Level, (614) 287-2669) for course selection and registration information.

COMPASS testing is done on a walk-in basis; appointments are not needed. A photo ID is required. For more information, contact the COMPASS Placement Testing Lab in Madison Hall, Room 225, (614) 287-3602, or visit our web site at www.csc.edu (click on "New Students" and "Placement Testing"). Sample test items are available on this web site.

Scheduling

Approximately seven weeks prior to the start of classes, both continuing and new students will be informed of the dates and times for scheduling. Advisors and counselors will be available to assist students with course selection.

All student schedule changes are to be processed by CATS (Computer Automated Touchtone System) at (614) 287-3900, through the SITE (Student Information Terminal) system, by telephone with a representative at (614) 287-2666, by the Records and Registration Office, or at one of the off-campus centers. Course additions or section changes beginning eight calendar days after the start of the quarter will be permitted only with the instructor's approval.

Students who wish to register for 22 or more credit hours in a quarter must have the permission of their academic advisor.

Cross-Registration at Other Institutions

The Higher Education Council of Columbus (HECC) is an association of colleges and universities in Central Ohio, established to develop programs which benefit its member institutions and the community at large.

As a service to students, HECC member institutions have approved a system of cross-registration for regularly enrolled, full-time undergraduate students at the following colleges and universities:

Capital University
Central Ohio Technical College
The Columbus College of Art and Design
Columbus State Community College
DeVry Institute of Technology
Franklin University
Mount Carmel College of Nursing
Ohio Dominican College
The Ohio State University
Otterbein College
Pontifical College Josephinum

Cross-registration is limited to one course per term (Autumn, Winter and/or Spring only), with a maximum of three cross-registered courses during a student's academic experience. The course taken must be an enrichment class to the student's program of study at Columbus State. To participate in cross-registration, a Columbus State Community College student must be in good academic standing, and maintain full-time status during the quarter he or she is requesting permission to participate in cross-registration. The course section requested for cross-registration must have space available as determined by the host institution. The Columbus State student does not pay tuition to the host institution, but may be charged other enrollment-related fees, such as laboratory or parking fees. A grade for the course taken at a host institution will be posted only on the student's Columbus State transcript.

A Columbus State student interested in cross-registering for a course must obtain approval from the Records and Registration Office, and from the host institution's registrar. It is the student's responsibility to make certain that the host institution's calendar, course schedule, course content, and credit are compatible with his/her goals and Columbus State Community College requirements. Each institution has established cross-registration deadlines which must be met to participate.

For more information, please contact the Records and Registration Office.

Selective Service System Registration

Under the provisions of Section 3345.32 of the Ohio Revised Code, a male student born after December 31, 1959, who is at least 18 years of age and who is classified as an Ohio resident for fee

purposes by the state-assisted college or university he is attending, is required to be registered with the Selective Service System or be charged a tuition surcharge equal to that charged a non-resident student.

Students are exempt from registration with the Selective Service System on the basis of one of the following criteria:

- Female;
- Under 18 years of age;
- 26 years of age or older;
- Currently on active duty in the Armed Forces of the United States. NOTE: Training in a Reserve or National Guard unit does not constitute active duty;
- A non-immigrant alien lawfully in the United States in accordance with Section 101 (a) (15) of the Immigration and Nationality Act, U.S.C. 1101, as amended; or
- A permanent resident of the Federated States of Micronesia, the Marshall Islands or the Republic of Palau.

Note that Selective Service System registration compliance must take place before disbursement of any federal financial aid funds, or the Ohio Instructional Grant, or before the institutional section of a Guaranteed Student Loan or PLUS application will be certified.

If you are a male who is within 30 days of becoming 18 years of age or between 18 and 26 years of age and have never applied for a Selective Service number, registration may be processed on-line at www.sss.gov or through a local post office. You may also contact the Selective Service System at (847) 688-6888 to retrieve your Selective Service number. When you receive your Selective Service number, please report your number to Telephone Registration at (614) 287-2666.

Change of Name/Address/ Phone Number/ Program of Study

Any change in your name, address, phone number, or program of study must be reported to the Records and Registration Office so the academic record may be updated.

Name changes require submission of official documentation such as a marriage license, court decree, etc.

Address and phone number changes may be made on the SITE system or by calling Telephone Registration at (614) 287-2666 as well as in the Records and Registration Office. Each student is responsible for complying with any official communication sent to the last reported address.

Program of study changes may be made in the Records and Registration Office. Students may also call the Telephone Information Center, at (614) 287-5353, to change their program of study if the new program of study does not have a separate application procedure (such as many of the health related fields).

Army Reserve Officers Training Corps (ROTC)

Qualified students interested in obtaining an officer's commission in the United States Army, Ohio National Guard, or Army Reserve may enroll in Army ROTC classes through a contracted agreement between Columbus State Community College and the United States Army.

Training consists of a combination of classroom and outdoor instruction. Freshman and sophomore students may enroll in the four-year program consisting of the two-year general military course and the two-year professional officer course. There is no military obligation for students in the first two years of the program.

Students with a minimum of 2.50 cumulative grade point average may apply for Army ROTC scholarships. Applications for scholarships are normally made during the fall semester and must be completed by January 30.

Additional information may be obtained by contacting the Program Chairperson for Military Science, (614)236-7101 or 236-7114.

Career Services

Career Planning Assistance

Career Services assists students through graduation with their questions about selecting majors and making career transitions. An overview of our services to assist students with their career development activities follows:

- Assessing skills and interests and relating them to college majors and careers.
- Developing a plan to explore careers.
- Making career and educational decisions.
- Creating a career portfolio and building credentials.
- Preparing a resume for career employment opportunities.
- Planning for the next career and educational transition.

Register for Career Services

We encourage you to register for career services in your first or second quarter of enrollment at Columbus State to discuss your career plans and begin your exploration of our resources. You can register by visiting us on the Internet at www.csc.edu and select the Student Services link, or by visiting our Career Resource Room, which is located in the Welcome Center, Madison Hall, Room 131. Call (614) 287-5450 or (614) 287-2669 for further information.

- **Career Resource Room Helps Students Get Started**
The Career Resource Room, located in the Welcome Center, Madison Hall, Room 131, offers computer-based and paper-and-pencil career interest tests, career guides, and videotapes to assist students with career decision-making and career exploration activities. These activities may be entirely self-paced

or assisted by staff in individual or small group meetings. For your convenience, Internet links to other effective career interest tests can be found on our website.

• **Discover Career Planning System**

Discover, a computer-based career planning system, is available to students in the Career Resource Room, located in the Welcome Center, Madison Hall, Room 131, and the ERC (Columbus State's Library), located in the computer lab on the top floor of Columbus Hall.

• **Career Fairs and Seminars**

Career information seminars and events are offered throughout the year. Special activities include the National Career Development Event, held every November, and the Collegiate Job Fair of Greater Columbus, a major employment event sponsored by a consortium of area colleges and universities, held every Spring.

Career Services Office Hours

Our regular office hours for appointments and walk-ins are Monday to Thursday, 8 a.m. to 7:30 p.m., and Friday, 9:30 a.m. to 4:30 p.m. To set up an appointment during these hours or to arrange an alternate time, contact our office at (614) 287-2660 or (614) 287-2664. Please let us know how we can assist with accommodations.

Employment and Placement Assistance

- **Build Career Experience with Internships and Co-ops**
Many opportunities exist for students to participate in internships and cooperative work experiences. Many academic departments provide academic credit for these experiences towards degree completion. If you are interested in an internship or co-op opportunity please contact your academic department. The Cooperative Education Office, located in 259 Delaware Hall, also maintains a master list of all internship

requests that are available for your review. The Cooperative Education Office can be reached at (614) 287-5303 for further information.

The Career Placement Center Helps Students and Alumni to Find Jobs

The Career Placement Center assists students and alumni with obtaining career, part-time, temporary, temp-to-hire, and short-term positions. The center is managed by Adecco, a major employment services firm with a number of divisions and offices worldwide. The services include the following:

- Career and job postings
- Job search materials
- Resume matching
- Message center
- On-site interviewing
- Negotiating
- Liaison to employers

The Career Placement Center is located in Nestor Hall, Room 119. The center is open Monday to Friday, 9:00 a.m. to 6:00 p.m. Walk-ins and appointments are welcome. An Adecco employment kiosk is located next to the Cafeteria in Delaware Hall. Contact the Career Placement Center at (614) 287-5905 to register for services and for further information. Please let us know how we can assist with accommodations.

Financial Aid

Financial Aid is available in four forms: grants, scholarships, loans, and part-time employment. The chart entitled "Financial Aid Programs" (FAP) indicates the major types of financial aid that are available from the usual state and federally subsidized

sources. Scholarships are much more specialized and are applied for separately from the types of aid appearing on the “FAP” chart. In general, the amount of assistance that a student may receive depends upon the established financial need of the student. This need is determined through the Central Processing Service and is based on the information submitted in the Free Application for Federal Student Aid (FAFSA). Financial Aid is to be used for tuition, fees, room, board, books, and commuting expenses. For more information please see the *High Finance Publication* (available from the Financial Aid Office), or online at www.csc.edu.

For all federal financial aid programs, regular admission status to the college and U.S. citizenship (or permanent residence status) is required. Only those who have declared an intent to pursue a degree and are taking related courses are eligible. Persons with bachelor’s degrees are not eligible for grants, but may apply for loans and work study.

Application Procedures

Application materials are available in the Financial Aid Office, Rhodes Hall, Lower Level. Students can apply electronically through the Internet at www.fafsa.ed.gov. Students may also request information by calling (614) 287-2648. You must apply for financial aid each year, after January 1. Applications are accepted throughout the academic year. Campus-based funding is awarded on a first-come, first-awarded basis.

How Do I Apply?

1. Complete the application for admission to Columbus State Community College.
2. Complete the Free Application for Federal Student Aid (FAFSA) paper application, two months prior to the start of the quarter you wish to enroll, and mail to the processing agency. To complete the process more quickly, students can apply on line at the address listed above. Computers can be accessed in the Financial Aid Office Lobby or in any Computer Lab at CSCC. (Be sure to list Columbus State as the school you plan to attend by denoting school code 006867 on Question #83 in the FAFSA.)
 - You will receive a Student Aid Report (SAR) as a result of your FAFSA application in 4-6 weeks, if you apply by paper application or 7-14 days if you apply electronically. Be sure to review these results. If corrections are necessary, you may bring them to the Financial Aid Office and corrections may be made electronically.
3. Once the Financial Aid Office has received the above materials, we will review your file. Once your file is complete, you will be sent a Financial Aid Award letter that explains what financial aid you are eligible to receive.

Basic Eligibility Requirements

Eligibility for most federal student aid programs is based on financial need. In addition, the federal student aid programs require that the student recipient:

- Not possess a bachelor’s degree (for Pell and Supplemental Grant only);
- Be a United States citizen, eligible non-citizen, U.S. National, or permanent resident;
- Have a valid social security number;
- Have a high school diploma, G.E.D., or recognized equivalent. Proof of passing G.E.D. scores MUST be on file with the Office of Records and Registration before your application can be processed. Students without a high school diploma or G.E.D. may establish eligibility under the Ability-to-Benefit regulations by passing a test approved by the U.S. Department of Education. The Compass placement test is the approved test available at Columbus State through the COMPASS Lab, Madison Hall 225. To qualify for consideration students must have the following minimum scores:
Writing Skills - 31; Reading - 60; Math (Pre-Algebra) -21.
- Have complied with current selective service registration regulations. For more information on selective service requirements, contact the Financial Aid Office or our web page;
- Be a regularly admitted student, enrolled in an eligible program, working toward a degree or certificate;
- Not be in default, or owe a refund on any type of federal financial aid.

Maintain satisfactory academic progress as defined by the Financial Aid Standards Policy.

Verification

Verification is the process through which the federal government requires confirmation of the accuracy of the information reported on the Free Application for Federal Student Aid (FAFSA). If you are selected for verification, you must provide clear evidence that the information you reported on your FAFSA is true and correct. The Financial Aid Office will contact you regarding specific requirements pertaining to your application if you are selected. Generally, signed IRS Income Tax Returns, W-2’s, Verification Worksheets, and documentation of Untaxed Income received are required.

Satisfactory Academic Progress

Federal regulations require that Columbus State Community College monitor the academic progress of students who apply for and/or receive federal financial aid. These regulations apply to each financial aid applicant, regardless of whether a student has ever previously applied for or received financial aid. To receive any form of federal financial aid, students must maintain satisfactory academic progress toward a degree or certificate. For additional information refer to the *High Finance Publication* available from the Financial Aid Office. Failure to maintain satisfactory academic progress will result in funds either being terminated or withheld until eligibility is regained.

Transfer Students and Financial Aid Transcripts (FATs)

Students who have attended other colleges, universities, business colleges, or other post-secondary institutions during the current academic year (July 1, 2000 – June 30, 2001) are required to have Financial Aid Transcripts on file from the institution attended, whether or not financial aid was received from that institution. Federal regulations require Columbus State to receive and review those FATs prior to processing your financial aid application.

Scholarships

A scholarship is financial assistance awarded primarily on the basis of scholastic achievement. Like grants, they generally do not have to be repaid.

The Columbus State Community College Development Foundation, Inc., provides scholarships based upon availability of funding. These scholarships are established by private donors, professional organizations, and the College. Eligibility varies for each scholarship program. Students may apply for these scholarships by completing the Application for Development Foundation Scholarships available in the Financial Aid Office. In general, these scholarships are based on variable criteria including, but not limited to, technology, financial need, credit hours earned, and academic and individual achievement. Scholarship applications are available in the spring for the upcoming fall quarter.

Additionally, the Financial Aid Office has scholarship resource texts available which students may review to locate sources for additional consideration outside the College. Students can view scholarships electronically at www.fastweb.com, this site can be visited from CougarNet, any CSCC Lab or the Financial Aid Office Computer Lab.

If you have been awarded a scholarship from an outside agency or organization, you will be responsible for notifying the Financial Aid Office of this award. The organizations from which the award was made will need to provide, in writing, verification of what school-related expenses may be covered, and/or any requirements for the scholarship. This information is required prior to the release of any scholarship award.

Return of Unearned Title IV Funds Policy:

Effective June 26, 2000, financial aid students who completely withdraw from all classes during a given quarter may be subject to owing federal funds back to the Department of Education. The new policy states that a student must attend through the 60 percent point of the quarter in order to earn their federal financial aid. For more information on this policy please refer to the issued with the award letter.

Veterans Services

Columbus State Community College is approved for the training of veterans and other eligible persons. Students eligible to receive VA educational benefits must register with the Veterans Services Office in order to receive their benefits.

To apply for VA educational benefits, students must have completed the College Admissions Application and paid the application fee. Students should contact the VA Coordinator at least six weeks before they plan to attend to start applying for the benefits.

Each applicant will be provided with a copy of the Standards of Satisfactory Academic Progress for VA Recipients, current VA guidelines, and pay scales.

To request an application or to receive more information about VA benefits, contact the VA Coordinator at (614) 287-2644 or in the Financial Aid Office, lower level, Rhodes Hall.

Information and Services

The Financial Aid Office is located in Rhodes Hall, Lower Level. Our Financial Aid Representatives are available in person, over the phone, or through email to answer your questions and direct you to the appropriate resources. Financial Aid Customer Service is located on the lower level of Rhodes Hall or call 614-287-2648 for assistance.

- Social and Behavioral Sciences Scholarship
- State Auto Insurance Companies Scholarship in Computer Programming
- State Auto Insurance Companies Scholarship in Microcomputing
- Student Ambassador Scholarship
- Travel/Tourism/Hotel Mgmt. Student Scholarship
- Union Tools Scholarship Endowment
- R. Reid Vance Memorial/Printing Industry of Central Ohio
- Carol Watkins Medical Laboratory Internship Award
- Marybelle Williams Adult Student Scholarship
- Stephen H. Wilson Mental Health/Chemical Dependency/Mental Retardation Endowed Scholarship
- Wolfe Associates Endowed Scholarship in Technical Communication
- Worthington Industries, Inc., Work-Study Scholarship

FEES

FEES

Fees

One-Time-Fees

Application Fee (non-refundable)	\$10
Matriculation Fee (non-refundable)	\$35
(Payable when the 12th hour of credit is scheduled)	

Matriculation Fee

The one-time non-refundable \$35 matriculation fee covers the cost for establishing and maintaining a perpetual student record. The matriculation fee will appear and be due for payment on the schedule and fee statement for the academic quarter in which the student schedules his/her 12th hour of credit course work.

Instructional and General Fees

The resident credit hour fee of \$57.95 is based on a \$49.95 instructional fee and a \$8 general fee. The general fee covers expenses for registration, counseling, placement, graduation, health services and other activities and services. Fees for non-Ohio residents and international students reflect a similar prorated instructional and general fee amount. All fees are subject to change.

Quarterly Academic Fees

Ohio Residents

Ohio residents are charged a combined instructional and general fee of \$57.95 per credit hour to a maximum of \$695.40 per quarter for students scheduling 12 through 18 credit hours. Students scheduling more than 18 credit hours will be charged an additional \$57.95 per credit hour.

Non-Ohio, US Residents

Non-Ohio, U.S. residents are charged a combined instructional and general fee of \$134 per credit hour up to a maximum of \$1,608 per quarter for students scheduling 12 through 18 credit hours. Students scheduling more than 18 credit hours will be charged an additional \$134 per credit hour.

International Students

International students are charged a fee of \$162 per credit hour up to a maximum of \$1,944 per quarter for students scheduling 12 through 18 credit hours. Students scheduling more than 18 credit hours will be charged an additional \$162 per credit hour.

Lab Fees

Lab fees are charged to cover the cost of consumable materials used by the student. The cost of student liability insurance, required in certain health technologies, will be included in the lab fee.

Fee Payment

At the time of registering for classes, the student will be given or mailed a combination class schedule and fee statement. Fee payment deadlines are included on this schedule. Fees will not be accepted after the deadline date. Upon payment of fees, the cashier will issue a PAID fee receipt which is the student's verification of having paid fees and permission to enter scheduled classes.

Late Payment of Fees

Students who have not paid their fees before the first day of the quarter are subject to being charged a late payment penalty. Fees, including any late fees, must be paid in full within the first eight calendar days of the quarter.

Student Health Insurance

Columbus State Community College offers low-cost group accident and sickness insurance. All full-time students are eligible for the plan. Coverage is world-wide, 24 hours a day, at home, at school or while traveling. The fee provides coverage for the entire 12-month period. Extended coverage for family and dependents is also available at an additional cost. For more details, request a student insurance program brochure from the Cashier's Office in Rhodes Hall or the College Health Office, 007 Union Hall.

Student Identification Card

Upon enrolling at Columbus State, students should obtain a student identification (ID) card. To purchase an ID card, pay a one-time fee of \$4 when paying quarterly fees at the Cashier's Office. Take the paid receipt to the Public Safety Department where the ID card will be processed.

ID cards are required to check out materials from the Educational Resource Center, to use recreation equipment and facilities, to obtain a transcript, and for many other campus activities and services. At the start of each quarter, the student ID card must be validated by the Cashier's Office or the Public Safety Department. A paid fee receipt must be presented to the Public Safety Department for a student ID card to be validated for the following quarter.

Non-Traditional Credit Fee

Students with documented life experiences through prior learning that are equated to learning outcomes in a similar academic course may request a review of those documented experiences by the appropriate academic department chairperson. A non-refundable \$50 fee is charged to review of a learning portfolio and/or information.

Proficiency Examination Fee

Students who believe they possess the knowledge contained in a course may request of the academic department to take a proficiency examination. A non-refundable \$50 fee is charged for each proficiency examination to be taken and is payable to the Cashier's Office prior to taking the exam. Information concerning proficiency examinations may be obtained by contacting the chairperson of the department offering the course for which the exam is to be taken.

Transient Student Fees

Transient students (those who are taking one or more courses to transfer back to another college or university) complete a regular application and pay the one-time \$10 application fee. The regular instructional, general, lab and appropriate residency status fees shall be charged for courses taken. A \$35 matriculation fee will be charged upon scheduling the 12th credit hour. It is recommended that transient students receive approval from their home institution to take specific Columbus State Community College courses to assure transferability/applicability of the credit at their home institution.

Release of Records and Transcripts

Columbus State Community College will not release a copy of the student's official records to individuals and organizations outside of the College without the student's written permission, except when required by law. Students may request that a copy of their official Columbus State transcript be sent to organizations and individuals outside of the College by completing the transcript request form available in the Records and Registration Office or by sending a written request with signature to that office. Students wishing to take a copy of their transcript with them will be required to present a picture identification card.

The Family Education Rights and Privacy Act of 1974, as amended, governs the maintenance and release of records. A copy of the regulations is available in the Records and Registration Office, or by sending a written request, including the student's signature to that office. There is no charge for an official transcript. (See pages 28-30 of the Catalog for a summary of the Act.)

Refunds

The quarterly instructional, general and lab fees are refundable for student-initiated withdrawals in accordance with the following schedule:

- The first through the eighth calendar days of the quarter - 100%
- The ninth through the fifteenth calendar days of the quarter - 50%

- The sixteenth through the twenty-second calendar days of the quarter - 25%
- The twenty-third calendar day through the end of the quarter - 0% (no refund)

Short term and flexibly scheduled course fees and laboratory fees are refundable on a prorated basis. Please check with the Records and Registration Office for these deadlines, or refer to published refund dates published in the quarterly class schedule.

A total refund of quarterly fees is made when a program is cancelled or closed and the student does not elect or is not permitted to enroll in another program.

Resident, Non-Resident, and International Student Status for Tuition Purposes

A resident of Ohio "for all other legal purposes" shall mean any person who maintains a 12-month place or places of residence in Ohio, who is qualified as a resident to vote in Ohio and receive state welfare benefits, and who may be subjected to tax liability; provided such person has not, within the time prescribed by this rule, declared himself or herself to be, or allowed himself or herself to remain, a resident of any other state or nation for any of these or other purposes.

In determining whether an enrolled student is an Ohio resident, the College shall make a determination of fact in accordance with the above standards.

General Residency for Tuition Surcharge Purposes

The following persons will be classified as residents of the State of Ohio for tuition surcharge purposes:

- A. Dependent students, at least one of whose parents or legal guardians has been a resident of the State of Ohio for 12 consecutive months or more immediately **preceding** the enrollment of such student in an institution of higher education;
- B. Persons who have resided in Ohio for all other legal purposes for at least 12 consecutive months immediately preceding their enrollment in an institution of higher education and who are not receiving and have not directly or indirectly received in the **preceding** 12 consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.
- C. A dependent child of a parent or legal guardian, or the spouse of a person who, as of the first day of a term of enrollment, has accepted full-time employment and established domicile in the State of Ohio for reasons other than gaining the benefit of favorable tuition rates.

Documentation of full-time employment and domicile shall include both of the following documents:

- I. A sworn statement from the employer or the employer's representative on the letterhead of the employer or the employer's representative certifying that the parent or spouse of the student is employed full time in Ohio.
 - II. A copy of the lease under which the parent or spouse is the lessee and occupant of rented residential property in the state; a copy of the closing statement on residential real property located in Ohio of which the parent or spouse is the owner and occupant; or if the parent or spouse is not the lessee or owner of the residence in which he or she has established domicile, a letter from the owner of the residence certifying that the parent or spouse resides at that residence.
- D. Persons who live and are gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who are pursuing a part-time program of instruction at an institution of higher education.

Specific Exceptions and Circumstances

1. A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents will be considered residents of Ohio for these purposes.
2. A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.
3. Any alien holding an immigration visa or classified as a political refugee shall be considered a resident of the State of Ohio for state subsidy and tuition surcharge purposes in the same manner as any other student. (See C.I. and C.II. above.)
4. No persons holding a student or other temporary visa shall be eligible for Ohio residency for these purposes.
5. A dependent person classified as a resident of Ohio for these purposes shall continue to be considered a resident during continuous full-time enrollment and until his or her completion of one academic degree program.
6. In determining residency of a dependent student, removal of the student's parents or legal guardian from Ohio shall not, during a period of 12 months following such removal, constitute relinquishment of Ohio residency status otherwise established under item (C).
7. Any person once classified as a non-resident, upon the completion of 12 consecutive months of residency in Ohio for all other legal purposes, may request reclassification as a resident of Ohio for these purposes. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding 12 consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident (exceptions: non-immigrants.) Evidentiary determinations under this rule shall be made by the College, which may require, among other things, the submission of information regarding the sources of a student's actual financial support to that end.

8. Any reclassification of a person who was once classified as a non-resident for these purposes shall have prospective application only from the date of such reclassification.
9. A person who is transferred by his employer beyond the territorial limits of the fifty states of the United States and the District of Columbia while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.
10. A person who has been employed as a migrant worker in the State of Ohio and his or her dependents shall be considered a resident for these purposes provided such person has worked in Ohio at least four months during each of the three years preceding the proposed enrollment.

For further information on residency for tuition purposes, please contact the Records and Registration Office.

Parking Regulations

All motor vehicles including motorcycles, parked on campus must be registered with the Public Safety Department. Permits can be purchased from the Cashier's Office located on the Upper level of Rhodes Hall. Hours are Monday – Thursday 8 a.m. – 7:30 p.m.; Friday 8 a.m. – 4:30 p.m, and Saturday 9:00 a.m. to 12:00 noon. To purchase a permit you must have:

- Paid your tuition fees
- Know your license plate number

Parking fee for one vehicle is \$15.00 per quarter. You must purchase parking **each quarter**. Additional vehicles can be registered for \$15.00 per quarter.

Parking Permit Location

1. Parking permit must be affixed to the outside of vehicle on the right rear (passenger) side of the rear window or bumper.
2. Permits are to be displayed so all information including permit number is clearly visible.

Temporary Permits

1. Temporary permits are available to those who need to park an unregistered vehicle on campus. Temporary permits may also be issued for special needs such as temporary handicap parking with a doctor's letter.
2. Temporary permits are available from the Public Safety Department at no cost. The temporary permit will be issued for up to 2 weeks, providing verification of the purchase of a regular permit.

Replacement Permits

Replacement permits can be purchased from the Cashier's Office for a \$15.00 fee. To prevent unauthorized use, the replaced permit will be invalidated and placed on a tow list.

Misuse of Permits

All parking permits are nontransferable. Any person who gives, sells, lends, or otherwise transfers a permit to another will forfeit their campus parking rights.

GRADING AND ACADEMIC PROCEDURES

Grading and Academic Procedures

Grades

At the close of the term and upon the completion of a course the instructor reports a letter grade indicating the quality of a student's work. Points for each quarter hour of credit attempted are assigned according to the following system:

Quality		Value	Credit Awarded
Excellent	A	4	Yes
Good	B	3	Yes
Average	C	2	Yes
Poor	D	1	Yes
Failing	E	0	No
Satisfactory	S	0	Yes
Unsatisfactory	U	0	No

Other Marks

INCOMPLETE (I) - When circumstances beyond the control of a student or a faculty member prevent the completion of course requirements during the quarter, an "I" (Incomplete) may be recorded until the final grade is established. An Incomplete is indicated only when the student has arranged for that grade with the faculty member and specific arrangements have been made for fulfilling the course requirements. Coursework must be completed within six weeks after the beginning of the next quarter. If a new grade is not submitted by the faculty member by that time, a grade of "E" is automatically recorded.

TRANSFER CREDIT (K) - To receive credit for a course taken at another college or university, a student must request an official copy of the transcript from each previous institution attended, be mailed to the Records and Registration Office. The official transcript copy becomes and remains the property of the College. In general, all college-level courses from regionally accredited institutions of higher education with a minimum grade of "C" will be considered for transfer credit. Please see page 63 for information on the Ohio Transfer Policy. Transfer credit does not apply to meeting residency credit hour requirements.

EXAMINATION/PROFICIENCY CREDIT (X) - A student may, upon the department chairperson's approval of the student's petition, be permitted to take a proficiency examination for credit. Permission is given only in cases when it is evident that previous experience or study warrants. A \$50 non-refundable fee will be charged for each proficiency examination. Nursing students may take proficiency examinations only after they have been accepted

into the Nursing Technology. Examination/proficiency credit does not apply to meeting residency credit hour requirements.

AUDIT (R) - A student may audit a course for information instruction only and with the understanding that credit may not be granted or later claimed as a result for the audited course. The course may be taken at a later date for credit. Neither proficiency, non-traditional, transfer or waiver credit will be given for a course that has been audited. Audit status is declared at the time of registration and no later than the fourteenth calendar day of the quarter. A change to or from audit status will not be permitted after classes begin. The student's specific involvement in class shall be determined by the instructor. Any student wishing to audit a course is required to register for the course in the same manner as all other students and pay regular fees. The instructor will record a grade of "R" for the audited course.

NON-TRADITIONAL CREDIT (N) - Non-traditional credit may be awarded by the appropriate department chairperson for a student's learning portfolio of documented life learning experiences. Evidence of prior learning provided in the portfolio must be evaluated as being equivalent to a course's learning outcomes. A non-refundable learning portfolio fee of \$50.00 will be charged for the portfolio evaluation. Non-traditional credit does not apply to meeting residency requirements. Approved non-traditional credit will be posted to the transcript after the student has successfully completed a Columbus State course.

WITHDRAWAL (W) - Withdrawals during the first 15 calendar days of the quarter are not recorded on the permanent grade transcript. Withdrawals after the 15th calendar day of the quarter through the 63rd calendar day of the quarter (32nd calendar day of first-term courses) are recorded as "W" on permanent grade transcripts. Withdrawal periods for terms of fewer than five weeks are of similar ratio to full-term withdrawal periods. See "Course Drop/Withdrawal Procedure" in this section of the Catalog.

NO GRADE REPORTED (*) - The instructor did not report a grade. The instructor must report a grade within six weeks after the beginning of the next quarter, otherwise a final grade of "E" is automatically recorded. A student receiving an "*" should contact his/her instructor.

INCORRECT GRADE REPORTED - A student who believes a grade reported is incorrect, should contact his/her instructor. If the grade is determined to have been incorrectly reported, the instructor must submit a Grade Change form to the Records and Registration Office to update the student's transcript.

Grade Report

Grades are reported to the student at the current address on file with the Records and Registration Office at the end of each term. The Business Office will hold the grades of any student who has not cleared all financial obligations to the College.

Calculating Grade Point Average

The basis for determining scholastic standing is the accumulative grade point average (GPA). The College uses a 4.0 scale (A=4.0, B=3.0, C=2.0, D=1.0, E=0.0). The grade point average is calculated by first multiplying credit hours for each course by the grade point value earned for the course. See the example in the following chart (credit hours x grade point value = total grade points earned for a course). Divide the total grade points earned for all courses attempted by the total credit hours for all courses attempted to determine accumulative grade point average.

EXAMPLE

Course	Credit Hours	Course Grade Received	Grade Point Value (Credits x Pt. Value)	Course Grade Points
Beg Comp (ENGL 101)	3	B	3	3x3 = 9
Med Term (MULT 101)	2	B	3	2x3 = 6
Physiology (BIO 169)	5	C	2	5x2 = 10
Hematology (MLT 141)	6	A	4	6x4 = 24
Emergencies (MULT 103)	2	B	3	2x3 = 6
Total Credit Hours =	18		Total Grade Points =55	
Total Grade Points		55		
GPA =		= 3.055		
Total Credit Hours		18		

Academic Standing

Each active student’s record is reviewed at the close of each quarter. If a student’s cumulative record (all courses attempted with a grade received) shows that they do not meet the standards of satisfactory Academic Performance (see next page), the student is subject to being placed on academic warning, academic probation or academic dismissal. The entire record, including each grade in each credit course attempted, is used to determine academic standing.

Dean’s List

To recognize outstanding scholastic achievement, a Dean’s List is compiled each quarter. To qualify for the Dean’s List, a student must complete a minimum of 6 credit hours and earn a grade point average (GPA) of 3.5 or higher in that quarter. All credits must be in courses included in the calculation of the GPA. No student is eligible for the Dean’s List who has a grade of “I”.

Academic Honors

An Academic Honors List is compiled at the end of spring quarter to recognize students who are not eligible for the Dean’s List, but who have achieved outstanding scholastic success over an academic year. Part-time students who have earned 12 or more hours of credit in any academic year (summer, autumn, winter, and spring quarters) with a GPA of 3.5 or above will be recognized on the Academic Honors List at the end of spring quarter.

Class Attendance

Students are expected to attend all classes. A student who has excessive unexcused absences during the quarter, and has not officially withdrawn, will receive an “E” in that course. Additional attendance policies may be defined by each technology chairperson, department coordinator, or instructor.

Satisfactory Academic Progress

Satisfactory Academic Progress is defined as progress in credit courses taken at the college that result in the credit hour to grade point average (GPA) ratio as specified by the Standards of Satisfactory Academic Performance. For the purpose of graduation, a candidate for an Associate of Arts or Associate of Science degree must have a minimum 2.000 cumulative grade point average (GPA). A candidate for an Associate of Applied Science or Associate of Technical Studies degree must have a minimum 2.000 cumulative grade point average (GPA) in all required technical course work and a minimum 2.000 cumulative grade point average (GPA) in all non-technical course work.

Academic Warning

Any quarter in which a student’s grade point average (GPA) for the term drops below 2.000, he/she will be placed on Academic Warning and “WARNING” is printed on the student’s grade report and transcript.

Academic Warning, First Term Only Rule

A student who is enrolled in his/her first term and is placed on academic warning will be restricted from registering for classes until he/she meets with an academic advisor or counselor in Counseling and Advising Services (Union Hall, Room 048) for advising assistance. This restriction also applies to first term students on academic warning who attempt to add or drop a class. During the meeting, an Academic Warning form will be completed to designate what difficulties led the student to be placed on academic warning and to provide recommendations for improved grades the next quarter and for academic success at the college.

Academic Warning and Students Beyond the First Term

Students who are beyond their first term of enrollment and receive a grade point average (GPA) of less than 2.000 for ANY term will be strongly recommended to meet with an academic advisor or counselor.

Academic Warning and Financial Aid Warning

Academic Warning does not restrict students from receiving financial aid; however a student who is in his/her first term and whose grade point average (GPA) is below that designated by the Standards of Academic Performance may be placed on financial aid warning.

Academic Probation

A student who is beyond his/her first term is placed on academic probation when his/her cumulative grade point average (GPA) is below that designated by the Standards of Satisfactory Academic Performance and "PROBATION" is printed on the student's grade report and transcript.

The student will be restricted from registering for classes until he/she meets with an academic advisor or counselor in Counseling and Advising Services (Union Hall, Room 048) for advising assistance. This restriction also applies to students on academic probation who attempt to add or drop a class. During the meeting an Academic Probation form will be completed to designate what difficulties led the student to be placed on academic probation and to provide recommendations for improved grades the next quarter and for academic success at the college. A student who has been placed on academic probation will have 24 additional credit hours (over 2 or more terms) to raise his/her cumulative grade point average (GPA) to that designated by the Standards of Academic Performance.

Academic Dismissal

A student will be academically dismissed from the college if after being placed on probation and registering for 24 additional credit hours (over 2 or more quarters), the student's cumulative grade point average (GPA) remains less than that designated by the Standards of Satisfactory Academic Performance. "DISMISSAL" will be printed on the student's grade report and transcript.

A student who is academically dismissed will be sent a letter notifying him/her of dismissal status and explaining the procedure for readmission. A student who is academically dismissed from the college WILL NOT BE PERMITTED TO ENROLL THE FOLLOWING QUARTER. If the student has already registered for the next quarter, his/her COURSES WILL BE DROPPED AND THE STUDENT WILL NOT BE PERMITTED TO ATTEND. This procedure is done within one week of processing the quarterly grade report/transcript.

Petition for Readmission

Any student petitioning for readmission must submit a Petition for Academic Readmission form, and meet with at least two college reviewers, at least one of whom is in Counseling and Advising Services (to determine conditions under which the student may return). The second reviewer must be the student's academic department chairperson. For undeclared, transient, transfer and pre-health students, the second reviewer may also be from Counseling and Advising Services. If both college reviewers do not grant approval, the Director of Records and Registration will determine final disposition. The entire readmission process (including all needed signatures) must be completed 30 calendar days prior to the beginning of the quarter for which the student seeks readmission. If a student is readmitted to the college, the student is then able to schedule classes and pay fees. The readmitted student must make satisfactory progress in accordance with the Standards of Satisfactory Academic Performance, and meet the conditions as specified on the Petition for Academic Readmission form including receiving a 2.000 term grade point average (GPA) in order to be eligible for continued enrollment.

Petition for Academic Review

Upon a second or any subsequent dismissal, the student who does not meet conditions must appeal for readmission to the Academic Review Board. The student must submit a Petition for Academic Review form to the Coordinating Director of Student Life (Union Hall, Room 048). Petition for Academic Review forms will be available from the Records and Registration Office and from Counseling and Advising Services. The Coordinating Director of Student Life will chair and convene a board comprised of six members in addition to herself/himself. This Academic Review Board will review the petition (explaining the situation leading to the additional dismissal), as well as supporting documentation and the student's verbal explanation. Following its review and consideration of this information, the board will determine whether another readmission is warranted. The decision of the Academic Review Board will be final. Meeting with the Academic Review Board does not guarantee readmission.

Standards of Satisfactory Academic Performance

TOTAL CREDIT HOURS ATTEMPTED	GPA
1-9	1.0
10-19	1.4
20-29	1.5
30-39	1.6
40-49	1.7
50-64	1.8
65-84	1.9
85+	2.0

Fresh Start Rule

The Fresh Start Rule is intended to help students who were unsuccessful in their previous academic attempts at the College because of immaturity or not being ready for college, and who voluntarily left the College and later returned after a substantial period of time and considerable personal change. In general, a student with courses in which grades of “D”, “E” or “U” were earned, may be eligible to have the grades expunged from the student’s record; the course(s) remain on the transcript. To be eligible for the Fresh Start Rule the basic requirements include, but are not limited to, the following:

- the student must have been away from the College for at least three consecutive years (12 consecutive quarters)
- the student has earned at least 12 credit hours meeting degree requirements with grades of “C” or better since returning to the College following the minimum three year absence

A student may use the rule one time. An information sheet providing the complete requirements of the Fresh Start Rule and petition are available from the Records and Registration Office.

Course Drop/ Withdrawal Procedure

Students may withdraw from full-quarter and second-term courses through the 63rd calendar day of the quarter and from first-term courses through the 32nd calendar day of the quarter (including Saturdays, Sundays, and holidays). Please see the Records and Registration Office for deadlines for other short-term courses. To withdraw from a class, it is necessary for the student to notify the College by using CATS (Computer Automated Touchtone System) registration at (614) 287-3900; using the SITE (Student Information Terminal) system; calling telephone registration, (614) 287-2666, submitting a completed Scheduling Form to the Records and Registration Office or an Off-Campus Center during business hours. Receipt of the revised schedule, either in person or by mail, is the student’s verification of completed registration transactions. Failure on the part of a student to follow withdrawal procedures will result in an “E” (failing grade) being recorded for the course or courses on the grade report.

Retroactive Academic Withdrawal Policy

A student who received failing grades as the result of documentable extenuating circumstances which prevented the student from following academic withdrawal procedures may be eligible to petition to retroactively withdraw from courses and have those grades changed to “W.” Students must provide adequate third-party documentation that explains the extenuating circumstances. More information is available from the Records and Registration Office.

Repeating Courses

A student may repeat a course. Only the repeated course grade received will be used to compute the overall grade point average. However, both grades shall remain a part of the student’s permanent record. Veterans and other financial aid recipients should check with the Financial Aid Office before repeating a course for which credit has been earned.

Program of Study Change

Students may request a Program of Study change in the Records and Registration Office. Students may also call the Telephone Information Center, at (614) 287-5353, to change their program of study if the new program of study does not have a separate application procedure (such as many of the health related fields). Students transferring from one technical program to another shall not be required to carry the technical grade point average of the previous technical courses as a part of the technical grade point average of the new technical program. However, the grade point average of all courses taken shall remain as part of the official transcript record. Only those courses comprising the curriculum of the new technology will be considered when calculating the technical and non-technical grade point averages for determining eligibility to graduate.

Degree Audit Report

The Degree Audit Report System (DARS) is an important advising tool that helps students determine progress toward completion of their program or degree requirements. DARS provides a written report of courses in progress, courses completed and courses remaining for completion of program or degree requirements. It also reflects technical and non-technical grade point averages (for technical programs) and the overall grade point average (all programs). Your advisor can help you interpret this report. Regular use of the DARS report will assist the student in making prudent course selections. Students may request copies of their DARS at the Records and Registration Office or view and request their report on-line from one of the SITE terminals located on campus.

Student Status

Students are considered first-year status when they have successfully completed 47 or fewer credit hours as recognized by the College. A student shall be considered second-year after having satisfactorily completed a minimum of 48 credit hours of coursework as recognized by the College.

A full-time student is one who is registered for twelve or more credit hours during a quarter. A half-time student is one who is registered for six to eleven credit hours during a quarter. A less-than-half-time student is one who is registered for five or fewer credit hours during a quarter.

Petition to Graduate

Each student who wishes to graduate must obtain a “Petition to Graduate” form and Degree Audit Report from the Records and Registration Office at the beginning of the quarter prior to the one in which the student intends to graduate. The student is to meet with his or her advisor for the evaluation of all course work completed, review of cumulative grade point averages, and review of courses for which he or she is registered the current quarter to determine eligibility for graduation. The petition to graduate must be filed with the Records and Registration Office by the published deadline date for the intended quarter of graduation. The student will then be notified of graduation eligibility pending receipt of final grades.

Graduation Requirements

Graduation requirements for technical and transfer programs are listed in the “Programs of Study” section in this Catalog.

Graduation Honors

Grade calculations through the quarter of graduation determine the appropriateness of posting HONORS on the graduate’s transcript and Summa Cum Laude, Magna Cum Laude, or Cum Laude on the diploma. Graduates’ grade point averages and honors designations printed in the graduation program are based on calculations of all grades through the quarter prior to their graduation quarter. Honors categories are as follows:

- *** Summa Cum Laude (With Greatest Praise) 4.000 GPA
- ** Magna Cum Laude (With Great Praise) 3.999-3.850 GPA
- * Cum Laude (With Praise) 3.849-3.500 GPA

Commencement

A formal graduation ceremony is held at the end of each quarter. Caps and gowns, furnished by the College, are standard attire for the ceremony. Students graduating with honors are distinguished by wearing gold honor cords. Summa Cum Laude graduates are further distinguished by wearing engraved honor medallions. Class remarks are offered by the graduate attending the ceremony who has maintained a 4.0 accumulative grade point average (GPA) with the largest number of credit hours. The 4.0 graduate with the second largest number of credit hours leads the pledge of allegiance.

Replacement Diplomas

To obtain a replacement diploma, submit a written request attesting that the original diploma has been lost or destroyed. Include your name, social security number, degree earned, quarter and year of graduation, and your current address. Send the request along with a \$15 replacement fee to: Office of Records and Registra-

tion, 550 E. Spring Street, Columbus, Ohio 43216. The replacement diploma will be sent to your current address by certified mail. Please allow six weeks for delivery.

Student Rights Under the Family Education Rights and Privacy Act of 1974 as Amended

1. Definition of Education Record

Under the Act, “education records” mean, with certain exemptions as listed below, those records, files, documents, and other materials which contain information directly related to a student and are maintained by any unit of the College. The following categories of information are exempted and are not considered to be “education records”:

- a. Records made by College personnel which are in the sole possession of the maker and are not accessible or revealed to any other person.
- b. Records maintained by the College Public Safety Department.
- c. Medical and counseling records used solely for treatment. Medical records may be personally reviewed by a physician of the student’s choice.

2. Right to Inspect and Review

Each student is granted the right to inspect and review all his or her education records except the following:

- a. Financial records of parents.
- b. Confidential letters and statement of recommendations for admission, employment or honorary recognition placed in education records after January 1, 1975, for which a student has signed a waiver of his or her right of access recorded by the Act.

3. Waiver of Rights of Access

The Act provides that a student may waive his or her right of access to confidential letters and statements of recommendation. If the student signs a waiver, he or she shall be notified, upon request, of the names of all persons making confidential recommendations. Waivers are valid only so long as they are made for the purposes stated in Paragraph 2b. The College may not require a student to waive his or her right of access accorded by the Act for receipt of College benefits or services.

4. Location of Educational Records

Columbus State Community College does not maintain education records in any one central office. Academic education records are maintained in the Admissions Office, Financial Aid/Veteran Services Office, the College Health Office, and the Records and Registration Office. Questions regarding the

location of individual student records should be directed to the Records and Registration Office.

5. Procedures for Inspection and Review

- a. Requests to review records and/or to obtain copies of such records (a charge of 10 cents per copy shall be paid by the student) must be made separately to each office maintaining records.
- b. If any material or document in the education record of a student includes information on more than one student, the right extends to inspect and review only such part of such material or document as relates to such students or to be informed of the specific information contained in such part of such material.
- c. Periodically, student records are reviewed and expunged and only records which are necessary to determine education status and demography are maintained indefinitely. Transcripts, and other pertinent documents of Columbus State Community College students will be microfilmed periodically and the originals destroyed.

6. Right to Challenge Information in Records

Students have the right under the Act to a hearing to challenge the content of their records on the grounds the information contained therein is inaccurate, misleading, inappropriate or in violation of their privacy or other rights. The hearing process includes an opportunity for the correction or deletion of such information and to insert into such records written explanations by the student regarding the content of such records.

NOTE: The right to challenge grades does not apply under the Act unless the grade assigned was inaccurately recorded.

7. Procedures for Hearings to Challenge Records

Students challenging information in their records must submit in writing a request for a hearing to the appropriate office maintaining the records, listing the specific information in question and the reasons for the challenge. Hearings shall be conducted and decided and a decision rendered in writing within a reasonable period of time after the challenge is filed.

Hearings will be conducted and a decision rendered by a College official who does not have a direct interest in the outcome of the hearing. Students shall be afforded a full and fair opportunity to present evidence relevant to the reasons for the challenge as referenced in paragraph 6. It shall be the responsibility of the office maintaining the record in question to insure the hearing is conducted in accordance with the provisions of the Act and within applicable Columbus State Community College procedures. Students may appeal the decision of the hearing officer. Appeals shall be in writing and submitted to the Associate Provost within 10 days of the student's notification of the decision of the hearing officer. The appeal shall be heard and decided, and a decision rendered in writing within a reasonable period of time.

8. Consent for Release

In accordance with the Act, written consent must be obtained from students for the release of education records or information that makes it possible to identify the student with reasonable certainty. The consent statement shall specify which records are to be released, the reasons for release, and to whom they are released. A copy of the release record shall be made available to the student if he or she so requests. The requirement for written consent does not apply to the following:

- a. Requests from faculty and staff of Columbus State Community College who have a legitimate educational interest on a "need to know" basis;
- b. Requests in compliance with a lawful subpoena or judicial order. Students shall be notified of all such subpoenas or orders in advance of compliance;
- c. Requests in connection with a student's application for, or receipt of, financial aid;
- d. Request by State or Federal authorities and agencies specifically exempted from the prior consent requirements by the Act—organizations conducting studies on behalf of the College if such studies do not permit the personal identification of students to any persons other than to representatives of such organizations and if the personal identification is destroyed when no longer needed;
- e. Information submitted to accrediting organizations;
- f. In the case of emergencies, the College may release information from education records to appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons;
- g. Requests for "directory information." (See item 9)

NOTE: The College will not unilaterally send student records to other educational institutions. Students transferring from the College or making application to other educational institutions must notify the Records and Registration Office in writing to release official transcripts to other institutions. A student may request official transcripts for his or her own use (issued to student) by completing the form available from the Records and Registration Office.

9. Directory Information

Columbus State Community College, in accordance with the Act, has designated the following categories of information about students as public information.

- a. Name
- b. Address(es) (local and home)
- c. Telephone (local and home)
- d. Program/Technology
- e. Participation in officially recognized activities and sports
- f. Weight and height of members of athletic teams
- g. Inclusive dates of enrollment
- h. Degrees and awards received (to include honor rolls)
- i. Most recent previous educational agency or institution attended

NOTE: Students have the right to have this directory information withheld from the public if they so desire. Each student who desires that any or all directory information be withheld shall so indicate by completing a form available from the Records and Registration Office. During the quarter, students may request directory information be withheld or released by using the Change of Information Form (obtained from the Records and Registration Office). However, at least 10 days should be allowed for processing of these requests by the Records and Registration Office through the student information system and back to the academic program/technology offices.

10. Inquiries “Outside” Columbus State Community College

The College receives many inquiries for “directory information” from a variety of sources, including friends, spouses, parents, other relatives, prospective employers, other institutions of higher education, honor societies, licensing agencies, government agencies, and the news media. Each student is advised to carefully consider the consequences of a decision to withhold “directory information.” Columbus State Community College, in all good faith, will not release directory information requested to be withheld and any request from non-college persons or organizations will be refused.

11. Record of Access

- a. Each office maintaining and releasing student records shall maintain a record, kept with the education records of each student, which will indicate all parties, other than those specified in paragraph 8 above, who have requested or obtained access to the records and specifically the legitimate interest that each such party has in obtaining this information.
- b. Columbus State Community College will not release personal information about students except on the condition the party to which the information is being transferred will not permit access by a third party without the consent of the student.

12. Complaints

Any student who has reason to believe the College is not complying with the Act should inform the Associate Provost and the U.S. Department of Education in writing. The Associate Provost shall promptly review all such allegations.

13. Questions

Direct questions concerning your understanding of the Act to the Associate Provost.

ADDITIONAL SERVICES TO STUDENTS

Additional Services to Students

Bookstore

The Columbus State Bookstore provides service to students, faculty, staff and alumni of the College. Available in the bookstore are new and used textbooks and supplies required by the academic departments for use in the classroom and laboratory. Students may also purchase software, calculators, clothing, *New York Times* Best Sellers, trade books, reference books, school supplies, greeting cards, candy and gift items. The Bookstore also buys back used textbooks, sells class rings, orders special books, sells gift certificates and does copying. Students are encouraged to pick up the free *Bookstore Information Handbook* to familiarize themselves with the store's policies. The bookstore, located on the ground floor of Delaware Hall, is open Monday - Thursday from 8 a.m. - 7:30 p.m., Friday from 8 a.m. - 4:30 p.m., and Saturday from 9 a.m. - 12 noon. For more information call (614) 287-2427.

Center for New Directions

Center for New Directions, a not-for-profit organization and a United Way agency, is on campus providing services to women who are planning changes in their work life, and to families in transition due to divorce. Their services may be of interest to Columbus State students or to people you know. Call (614) 287-5333 for information about Center for New Directions, or look for their literature at distribution sites across campus.

Cashier's Office

The Cashier's office is located on the second floor of Rhodes Hall. Hours of operation are as follows: Monday-Thursday 8:00 a.m. - 7:30 p.m., Friday 8:00 a.m. - 4:30 p.m. and Saturday 9:00 a.m.-12 noon.

The Cashier's Office handles all fee payments including application fee payments (\$10), parking validation stickers (\$15), and identification cards (\$4). Amusement park tickets (King's Island, Cedar Point, The Beach, Jet Express), bus passes, and postage stamps can be purchased at the Cashier's Office.

For additional information, contact the Cashier's Office at (614) 287-5073.

Child Development Center

The Columbus State Child Development Center is a year-round facility open to the public. It serves families with children from ages six weeks to five years, and adds a school-age summer program for six and seven year-olds each year. The Center accepts

both full-time and part-time enrollments and have developed the reputation as a quality center in the Columbus community. For further information, call (614) 287-3600.

College Health Office

The College Health Office provides health care by professional nurses for illnesses and injuries, and nursing consultation for health problems and lifestyle changes. Students do not need an appointment and most services are free. Health education programs are offered throughout the year, including an annual health fair, flu shots, and mammograms, and the quarterly Bloodmobile. The College Health Office also promotes healthy lifestyles through seminars, workshops, and individual counseling. Health records for students in the health care technologies are collected, reviewed, and maintained in the Health Office. Office hours are Monday through Thursday 8:00 a.m. to 4:30 p.m. and Friday 9:30 a.m. to 4:30 p.m.

For more information, please visit the College Health Office in Union Hall, Room 007, or phone (614) 287-2450.

CougarMail

Don't start the quarter without your free e-mail account! Columbus State Community College offers CougarMail: your own e-mail account, to all currently enrolled students. CougarMail is accessible using any web browser such as the Netscape Navigator or Microsoft's Internet Explorer at the website: www.Cougarmail.com

All currently enrolled students will receive a letter in the mail notifying you of your account and instructions. Information and instruction booklets are available at the IT Learner Support Center and at the CougarMail website.

Support - IT Learner Support Center: Call (614) 287-3660 from off campus - Located on the ground floor of the Library, Columbus Hall.

Lab assistants are available in PC labs to answer questions regarding your CougarMail account.

CougarNet

Sign up for CougarNet! CougarNet is Columbus State Community College's Internet access solution for currently enrolled students who do not have home dial up access to the Internet. You can purchase CougarNet at the Cashier's window for only \$35 a quarter. You will be able to dial in from your home computer and receive unlimited access to the Internet. CougarNet allows you to create your own homepage, search on the Internet for information on class assignments and download free software from various

shareware sites. Access to CougarNet is provided by NetExpress a Columbus based Internet provider.

Support - IT Learner Support Center: Call (614) 287-3660 - Located on the ground floor of the Library, Columbus Hall.

Counseling and Advising Services

The Counseling and Advising Center offers the following services and programs to assist Columbus State learners:

- academic and career advising
- new student orientation
- college visitation
- college transfer fair
- educational workshops and programs
- counseling for personal concerns
- alcohol and drug prevention programming
- student support groups (e.g. SisterFriends, Adult Learners)
- advising and assistance if you are in academic difficulty (academic warning, probation, dismissal, and petitions for readmission and academic review)

Academic Advising

When a student first applies to Columbus State, an Enrollment Advisor in the Welcome Center or the COMPASS Placement Testing lab provides “one-stop” assistance with the enrollment process, including some initial course recommendations for the student’s program of study and first quarter of classes. Programs of study for all degrees and certificates are in the Columbus State catalog. Once a student is enrolled and taking their first quarter of classes, they should begin to plan their second quarter of classes and contact the Counseling and Advising Center early in the registration process for continued academic advising. The center provides academic advising for:

- transfer students seeking the Associate of Arts (AA) or Associate of Science (AS) degrees
- transient students from other institutions taking classes at Columbus State
- undecided students who are still exploring their educational and career goals
- technical program students in their first quarter of classes and not yet assigned to their faculty advisor, in business and related programs or one of the engineering technologies
- technical program students in one of the health, human and public services programs, including pre-nursing, who have not yet been accepted into the program
- advising referral information for technical program students who have been assigned a faculty advisor, including students going into their third quarter of classes or more in one of the business or engineering programs or technologies
- Associate of Technical Studies (ATS) degree program students

Contacting An Academic Advisor

To contact the right academic advisor for your program of study, or if you are unsure of who is your advisor or how to reach them, stop by the main Counseling and Advising Services office located in 048 Union Hall, call 287-2668, or go to our web site at www.csc.edu, Student Services, Counseling and Advising Services, to contact your academic advisor by e-mail and for other helpful advising information and resources.

Why is academic advising important? Academic advising can assist you in selecting the right courses for your major or career goal and help you in developing a quarter-by-quarter plan for your academic program. Help with choosing a major or finding a career direction is also available, along with a wide range of educational and career-related information, including transfer opportunities and transfer guide information. This information is also available on the Internet. Students can access much of this information directly by exploring our web site. Phone and video-conferencing advising services are convenient options for students at the off-campus sites and for our distance learners.

New Student Orientation

New student orientation sessions are offered for all students just before the start of each quarter, including a returning adult student orientation session designed to address the unique concerns of adults returning to school. Students also meet with academic advisors and receive information about majors, services, policies and procedures, and other academic and social resources needed to be successful at Columbus State. Campus tours are provided after each orientation. Invitations to attend orientation are sent to all new students, or you can call 287-2446 to register. For those students unable to attend a session, check out our web-based new student orientation at www.csc.edu, Student Services, Counseling and Advising Services.

Personal Counseling

Confidential, personal counseling and consultation services are available at the center, for up to six visits, at no charge. Issues include:

- adjustment to college and improving study skills
- stress and time management
- coping with testing difficulties or test anxiety
- managing personal or family relationships
- self-esteem, depression, anxiety, or managing anger
- alcohol and other drug use/abuse concerns

Information and referral to community resources and long-term assistance are also available. Appointments are recommended; call or stop by the center for more information and assistance.

Educational Workshops

The center provides educational workshops and programs on many different topics designed to enhance the social, educational, and personal well-being of students. Topics vary by quarter but have included stress/time management, choosing a major, career/life

planning, test-taking and college study skills, self-esteem, learning styles, wellness and body image, and many others. This information is offered in a variety of formats to accommodate students' different lifestyles and needs, including in-class presentations, "Drop-In" workshops, and our popular "Unworkshops" series, available in racks located throughout main campus and at Dublin and Westerville off-campus sites.

To Contact Us

Our main office is located in Union Hall, Room 048. Customer service hours are Monday through Thursday, 8 a.m. - 7:30 p.m., Fridays 9:30 a.m. - 4:30 p.m., and Saturdays, 9 a.m. - 12 noon (closed holiday weekends). Advising walk-in services are available daily. Some advisor offices are located in other building locations on campus. For more information on any of our advising, counseling or other services, or to arrange an appointment, please call (614) 287-2668. To locate our web site and access e-mail contact with an advisor and other information, go to www.csc.edu, Student Services, Counseling and Advising Services.

Disability Services

Columbus State Community College offers a wide range of support services to encourage the enrollment of persons with disabilities. Through the Department of Disability Services, support services are made available to qualified students with a documented disability. Eligibility for support services is based on disability documentation received by the Department of Disability Services. These services include, but are not limited to, adapted testing procedures, materials in alternate media, textbooks on tape, note taker notebooks and counseling. In addition, qualified sign language interpreters are available for students who are deaf or hard of hearing. Adaptive and state-of-the-art equipment is available on campus for student training and use in completing course requirements. Students may also meet with counselors and learning specialists to develop an individual plan for support services. The department consults with students, consumers and professionals in the field of rehabilitation and education, as well as state and federal resources in the continued development of program accessibility. For further information or to arrange for support services, please call (614) 287-2570 (VOICE/TTY). The Department of Disability Services is located in Franklin Hall, Rooms 223 and 228.

Educational Resources Center (Library)

The Educational Resources Center in Columbus Hall houses the Library and Media Services, providing a multimedia environment to support a wide range of learning experiences. The Library's collection includes print, audio-visual and electronic materials. In addition to the collection in the main stacks, there are collections of reference, reserve materials, periodicals (magazines, journals and newspapers), pamphlets and video-based courses. The Library catalog can be accessed through the ERC's web page (www.csc.edu/docs/erc/libweb/), which serves as a gateway to

the Library's electronic resources. Through Columbus State's membership in the OhioLINK network, library users have access to materials which may be requested online from the libraries of more than seventy Ohio colleges and universities. A valid Columbus State ID is required to request and check out materials.

In addition to the library's collection of over 500 print periodical titles, users may search over 100 online research databases available through the OhioLINK network. Many of these databases provide links to full-text articles and may be accessed from home computers. Also available through the ERC web site, the Electronic Journal Center provides access to over one million full-text articles from scholarly journals. Reference assistance is available on the main floor of the ERC, and students are encouraged to ask for help in starting their research or in using a particular resource.

A forty-station computer lab, copiers, and typewriters are available for general use and there is a dedicated computer lab for library instruction classes. The Media Production Center, located on the ground floor of the ERC, offers display and presentation development assistance. Their services, which include image scanning, transparencies, dry mounting and lamination, and audio/video duplication, are free with a valid Columbus State ID. For more information about the ERC and the Library, call the Circulation Desk at 287-2465 or Reference Services at 287-2460.

Food Service

Located in Union Hall and operated by Aramark Corporation, the cafeteria is open Monday through Thursday, 7 a.m. - 7 p.m., Friday, 7 a.m. - 2 p.m. and Saturday, 8 a.m. - 1 p.m. (Autumn, Winter and Spring Quarters). The cafeteria is not open on Saturdays during Summer Quarter. Breakfast foods are served until 10:30 a.m. The cafeteria has a wide variety of delicious foods to choose from: The Market offers rotisserie chicken meals, hot carved sub sandwiches, chicken pot pie and many side dishes; Center Stage features chicken salad, pitas, and stir fry dishes; Grille Works is a full grill featuring combo meals with fries and a drink, seasoned twist fries and more; The Salad Bar features the freshest mixed greens, your favorite toppings, soups and a fruit bar; World's Fare is a hot, top-your-own food bar where you create your own hot meal and top it off your way; Easy Goes is take-out food for when you're in a big hurry; and don't forget Taco Bell, DC Subs and pizza by the slice are also on site. Call (614) 287-2483 for more information.

Grievance Procedure

A grievance procedure has been established to help students resolve non-academic and non-disciplinary problems they may encounter on campus. A copy of the Columbus State Community College Student Grievance Procedure is published in the *Columbus State Student Handbook* or the Columbus State Policy & Procedures Manual. The Student Handbook is available in the Counseling Center, in Union Hall and the Associate Provost office in Davidson Hall.

Housing

Opportunities for student housing including information on apartments, home-sharing, and roommate matching are available through Student Activities and Athletics. Out-of-town students are encouraged to stop by the Student Activities Office, Nestor Hall 116, or call (614) 287-2637 for current housing information.

International Initiatives

The Office of International Initiatives is responsible for the development and implementation of programs and long range plans for Columbus State's international students, visitors, exchange students and scholars, and curriculum. The office serves as the liaison and support to faculty, college departments, and staff regarding all of Columbus State's global initiatives work.

The office works closely with the Global Initiatives Committee, and the Provost Council to internationalize the curriculum.

Additionally, the office works closely with community service agencies, high schools, professional organizations and other institutions on matters related to community outreach; and aids in the planning and implementation of community service projects relating to international students and employers.

Intramural Sports

The intramural sports program is an integral part of campus life. Intramurals provide opportunities for individuals to enjoy participation in their favorite sports against fair and equal competition. Both team and individual sports are offered to meet the interests and needs of all students, faculty and staff in their pursuit of leisure-time recreational opportunities. Intramural sports include basketball, billiards, euchre, chess, volleyball, football, softball, ping-pong, and soccer. For more information call (614) 287-5348 between the hours of 8 a.m. - 4:30 p.m.

Multicultural Affairs

The Office of Multicultural Affairs is responsible for the leadership of all programs and activities of the College which act to increase minority student access and retention within established policies and procedures of the College. Several goals of the Office are to:

- Implement orientation and professional development programs related to minority affairs, for administrative, instructional, professional, and support personnel of the College;
- Increase the employment of minority staff, faculty and administrators;

- Promote activities and programs that will result in increased retention and graduation rates of minority students; and
- Market Columbus State Community College as an attractive institution of higher education for minorities to pursue their career goals.

The accomplishment of these goals are pursued in collaboration with appropriate offices and departments of the College.

The Office is involved in outreach in the Columbus community. Working relationships have been developed with middle and high school principals, counselors, teachers, ministers, civic and community leaders and government officials to increase minority student enrollment and retention. Through campus visitations and enrollment in college credit articulation programs, minority students gain exposure to the College.

Quarterly workshops, seminars, and forums are conducted by the Office. For more information contact the Office of Multicultural Affairs at (614) 287-2426.

Peer Tutoring Program

The Campus-wide Peer Tutoring program offers individual or group tutoring to eligible learners through the Student Success Center. The purpose of the program is to supplement learners' academic performance to improve or enhance their grade(s). Tutoring service is based on tutors' availability. Learners are not guaranteed a peer tutor. Walk-in service is available for learners who need minimal assistance. Learners are encouraged to request a tutor the second or third week of each quarter.

For more information, please call (614) 287-2474.

Publications

The Columbus Statement, a weekly newsletter for students, is published by Student Activities and Athletics. It provides a calendar of events for the upcoming weeks, and furnishes important information about campus clubs, organizations and activities.

Public Safety/Police

The College's Police officers are commissioned by the State of Ohio and meet all standards of the Ohio Peace Officers Training Council. The officers provide the following services:

- Patrol of campus lots and buildings;
- Investigation of threats, harassment, disruptive or offensive actions and disorder;
- Investigation of forced entry, theft or vandalism;
- Escort service;
- First aid to injured or ill people;
- Enforce Ohio laws, College policy and rules.

The department works closely with the State Highway Patrol, the Franklin County Sheriff and the Columbus Police. The department also has a working relationship with other university police departments.

The Public Safety department has 23 officers and 4 full-time support staff members to serve the Columbus State campus community 24 hours a day, 7 days a week. Many of the officers are also trained as bike patrol officers, increasing visibility and improving student assistance. The Public Safety Office is located in Aquinas Hall, Room 026, and can be reached by telephone at 614-287-2525.

Recreational Facilities

A Study Lounge and a Recreation Lounge are located in Nestor Hall. The Recreation Lounge has pool tables and a large screen TV. Movies are offered daily in the Nestor Hall Recreation Lounge.

Student Activities

The Department of Student Activities and Athletics (Student Activities Office, Nestor Hall 116 and Athletics Office, Delaware Hall 134) offers a variety of co-curricular activities which enhance the student's educational experience and aid in the development of lifelong skills. Students are also offered a wide range of opportunities to improve their general leadership skills while on campus.

Student Ambassador Program

The Student Ambassador Program was developed to allow students the opportunity to participate in various public relations and recruiting activities at Columbus State. The primary objectives of the program are to provide students with some basic leadership training and to allow students the opportunity to work in a number of departments on campus.

IMPACT Program

IMPACT is a series of workshops designed to help individuals make a greater impact in their personal and professional lives. The program is open to all Columbus State students and others interested in enhancing their personal growth and career development.

Special Events and Activities

Student Activities and Athletics offer a number of special events and activities such as Welcome Back Day (Autumn), Spring Fling (Spring), and Jazz in July (Summer). In addition, Earth Day, Black History Month, Women's History Month as well as other special interest activities are celebrated.

Student Athletics

Columbus State currently offers the following varsity sports.

Men's Basketball	Men's Soccer	Men's Golf
Women's Basketball	Women's Volleyball	Men's Track and Field
Men's Baseball	Men's Cross Country	Equestrian
Women's Track and Field	Women's Softball	Cheerleading
	Women's Cross Country	

Each of the above athletic teams holds open tryouts prior to the beginning of the season. Tryouts are held during autumn quarter, with the exception of men's soccer, men's cross country, women's cross country and women's volleyball, which are held during summer quarter.

Students who intend to participate in athletics must be full-time, registered in a minimum of 12 credit hours of coursework (although some part-time students may be eligible) and maintain a 2.0 GPA for the privilege to participate. The College adheres to the guidelines established by, and is a member of, the National Junior College Athletic Association (NJCAA). Athletic scholarships are available for student athletes playing Men's and Women's basketball. All other sports are non-scholarship. Columbus State is a member of the Ohio Community College Athletic Conference (OCCAC). This conference status allows our students to compete against other two-year colleges as well as other four-year institutions in athletics.

Any questions or concerns pertaining to athletic programs may be addressed by calling (614) 287-2445 or by stopping by the Athletics Office located in Delaware Hall. GO COUGARS!!

Student Organizations

In order to be recognized by Columbus State Community College, and be eligible for benefits of that recognition, student clubs and organizations must register as a new club or organization and annually renew the registration of an existing club or organization with Student Activities and Athletics, Nestor Hall 116. Registration signifies that the club or organization will comply with the rules, regulations and guidelines of the College. A current list of clubs and organizations as of December, 2000 include:

- Accounting Honorary Society
- African American Women's Support Group "Sister Friends"
- Alpha Phi Omega
- Changed Lives
- Cougar Chess Club
- Columbus State Architecture Association
- Columbus State Computer Club
- Columbus State Drama Club
- Columbus State Film Club
- Columbus State Landscape Association
- Columbus State Student Member Organization of the American Dental Hygienists' Association
- Columbus State Student Nurses' Association
- Columbus State Roller Hockey Club

Columbus State Running Club
 Columbus State TaeKwonDo Club
 Crimestoppers
 El Club de Espanol de Columbus State
 Eta Sigma Delta
 For a Better Ohio
 GABLE Cougars
 International Student Association
 Liberian Students Association
 Logos Bible Study Club
 Muslim Student Association
 Pathways 2 Medicine
 Phi Theta Kappa
 Project Brotherhood
 Silent Connection
 Society of Manufacturing Engineers
 Student Advisory Association
 Student Chapter of the North American Veterinary
 Technicians Association
 Student Organization for Adult Reentry
 Student Organization of Legal Assistants

To learn more about our clubs and organizations, please stop by the Student Activities Office, Nestor Hall 116, or call (614) 287-2637.

Student Rights and Responsibilities

Student Conduct

The general policy of the Columbus State Community College favors as few rules and regulations as are necessary to be consistent with its educational purposes. Students are expected to act as responsible adults at all times. This expectation includes the honest performance of all work, regular class attendance, proper respect for others, prompt payment of debts, observance of law, and respect for property.

Any student violating Columbus State Community College policies or rules may be placed on disciplinary probation or dismissed. Disorderly, dishonest, and/or immoral conduct are grounds for probation or immediate dismissal. In technologies that include internship employment or clinical experiences, good standing with the cooperating employer or clinical affiliate is expected and is essential to continuation in the program. A copy of the Student Conduct Code and procedures is published in the Student Handbook. The Student Handbook is available through the Counseling and Advising Services Department, Union 048, and the Office of the Associate Provost located in Davidson Hall.

Student Handbook

The Student Handbook is a useful guide to many of the campus resources available to students. The handbook provides information on student rights and responsibilities, policies, procedures, activities, services, and extracurricular opportunities at Columbus State. The Student Handbook is available through the Counseling and Advising Services Department, Union 048, and the Office of the Associate Provost located in Davidson Hall.

Sexual Harassment Policy

Columbus State Community College believes that all employees and students should be able to work and learn in an environment free of all discrimination and any form of harassment. To help ensure that employees and students are not subjected to illegal harassment, and in order to create a comfortable work and learning environment, the College strongly opposes and prohibits any offensive physical, written, spoken or nonverbal conduct as defined and otherwise prohibited by state and federal law.

Further, College policy defines sexual harassment by a student as an example of general misconduct, which may result in penalties up to and including dismissal from the College. For more information, or if you or someone you know is being sexually harassed, contact the College's EEO officer in the Office of Multicultural Affairs and Community Outreach, Franklin 138, 614/287-2426. In emergency cases or after business hours, immediately contact the Public Safety Department, Aquinas 026, 614/287-2525.

Student Problem Resolution

A student problem resolution procedure has been established to help students resolve non-academic and non-disciplinary problems they may encounter on campus. A copy of the Columbus State Community College Student Problem Resolution Procedure is published in the Columbus State Student Handbook or the Columbus State Policy & Procedures Manual. The Student Handbook is available in the Counseling and Advising Services Department, Union 048, and the Office of the Associate Provost in Davidson Hall.

Student Right to Know

Under the terms of the Student Right to Know Act, the College must maintain and report statistics on the number of students receiving aid related to athletics reported by race and sex, the graduation rate for athletes participating in specific sports reported by race and sex, the graduation rate for students in general reported by race and sex, and other relevant statistics. To obtain copies of these reports, contact the Office of the Associate Provost, Davidson Hall, or access www.csc.edu/InstDisclosure/

Crime Awareness and Campus Security Act

Federal legislation requires Columbus State Community College to maintain data on the types and number of crimes on college property as well as policies dealing with campus security. To obtain additional information, contact the Public Safety Department, Aquinas 026, or access www.csc.edu/InstDisclosure/

Student Success Testing Center (SSTC)

The Student Success Testing Center (SSTC) is a central testing facility that provides a safe, fair, and secure environment for learners. The Center offers instructional make-up, developmental education re-takes and distance learning (web-based and video-based) testing. The Testing Center is a service for faculty and a partnership between learners, faculty and the Center's staff. In addition, the SSTC will provide proctoring services for individual student's

exams as requested by other academic institutions. Hours of operation are designed to serve the needs of the general student population and do not reflect specific testing deadlines. Therefore, it is the learner's responsibility to meet his/her individual course testing deadlines.

Distance Learning tests may be taken any time during hours of operation. However, tests must be completed by the closing time of the SSTC. Extension of time will not be given, so learners should plan sufficient time for taking Distance Learning tests.

The Testing Center is located in Franklin Hall, Room 251. A picture ID is required. Children are not allowed in the Student Success Testing Center.

For more information, please call (614) 287-2478.

Tutoring Services

Learning Skills Center (LSC)

The Learning Skills Center offers tutorial assistance from professional tutors in the following areas: Developmental Education math, reading and writing courses; Communication Skills course; and some Biological and Physical Science courses. To ensure an appointment with a Communication Skills tutor, learners should sign-up in advance, or they can receive walk-in assistance if a tutor has an open appointment. The LSC also houses computers for learners' use and offers VCRs for developmental math learners who wish to view lecture tapes after class. Students are encouraged to visit the LSC to enhance their academic success. The Learning Skills Center is located in Franklin Hall, Room 245.

For more information, please call (614) 287-2478.

Math Tutors

Faculty tutors are available on a walk-in basis for most math courses beginning with MATH 102 through MATH 104 and other selected courses in room 313, Davidson Hall.

For more information, please call (614) 287-5313.

Upward Bound

As a unit of the office of Multicultural Affairs, Upward Bound is a federally funded pre-college program designed to increase the academic skills and motivation of program participants to ensure their high school graduation and success in a post-secondary educational program. Participants come from a low-income family and/or are potentially a first generation college student in addition to being a citizen or permanent resident of the United States.

The expected outcome of the program is that participants will be

in a position to successfully choose and complete a college preparatory curriculum leading to enrollment and achievement in a college, university or other post-secondary institution. This will be accomplished through a well-rounded yearlong program designed to address the multiple needs of program participants.

During the School Year:

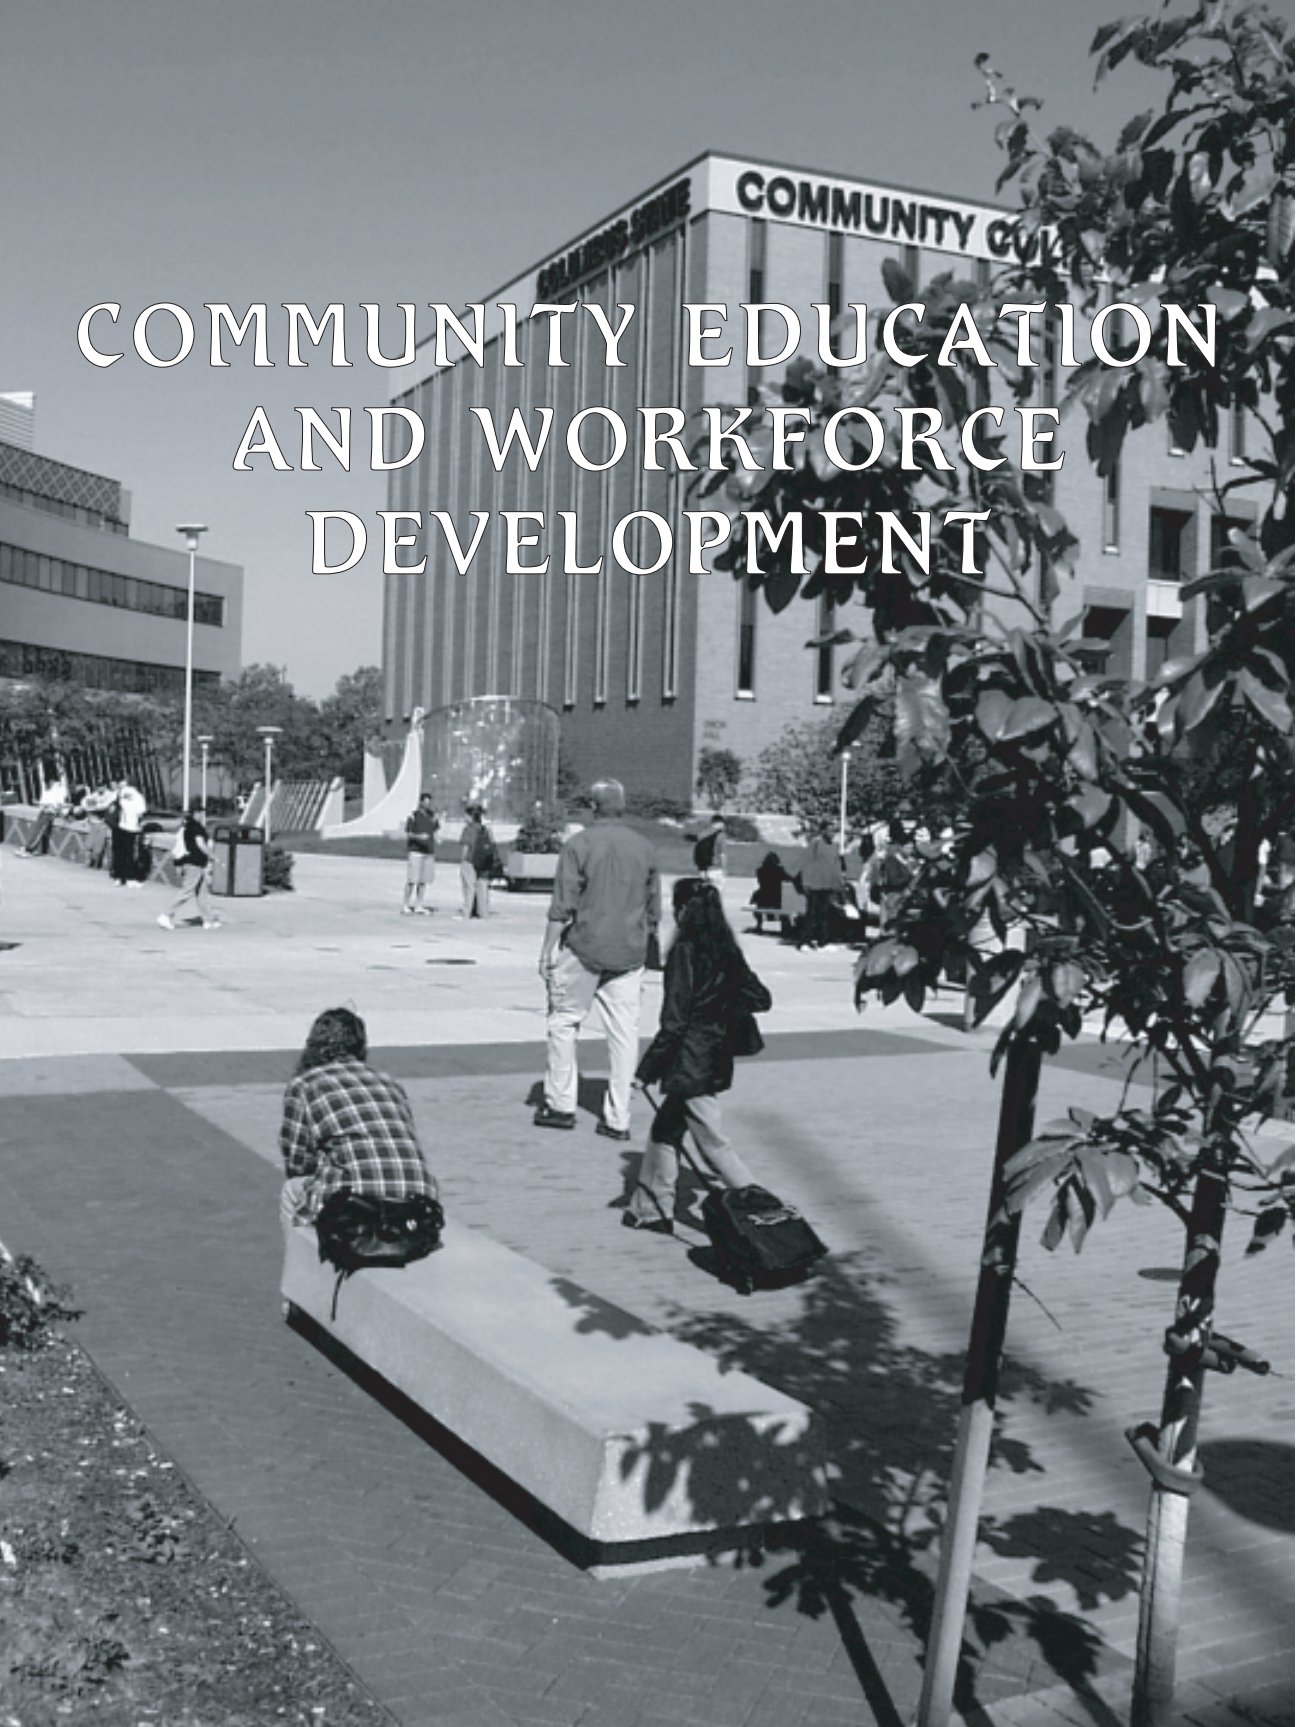

- Weekly academic enrichment and tutoring sessions to assist students in the basic academic areas of math, science, writing and reading. Upward Bound also provides individual academic, career and personal advising.
- Monthly Saturday Seminars: Guest speakers are invited to discuss special topics, students participate in team building and leadership activities, and special events are planned.

During the Summer:

- A six-week nonresidential academic program. Participants attend Upward Bound academic enrichment classes five days per week, on the campus of Columbus State Community College. Students participate in cultural, social and recreational activities.

Wellness Program

Student Activities and Athletics sponsor a wellness program for students, faculty, and staff of the College. The Wellness Program offers lectures, demonstrations, and group activities in an effort to balance the spiritual, emotional, physical, occupational, and intellectual aspects of life. Examples would include Yoga, Tai Chi, spirituality discussions, massage, and self defense to mention a few. For more information, call (614) 287-5348.

COMMUNITY EDUCATION AND WORKFORCE DEVELOPMENT

COMMUNITY EDUCATION AND WORKFORCE DEVELOPMENT

Community Education and Workforce Development

Community Education and Workforce Development

Dr. Janet Wagner, Dean

(614) 287-2511

There is an ever-increasing need for meaningful, life-long learning for many people; those preparing to go to college, to get their first job, to advance in their current job or change careers. The Community Education and Workforce Development Division, headed by Dr. Janet Wagner, Dean, provides opportunities for these students in traditional and non-traditional settings.

Each department in Community Education and Workforce Development is designed for students of varying ages, professional experience and education levels to assist in learning new skills, or enhancing existing skills. Today's competitive labor market demands that employees are up to date on the latest business equipment, computer software, management techniques, professional trends, market information, computer networking, customer service, and office operations. Through Columbus State's Community Education and Workforce Development departments, students, business professionals, and new or first-time employees have the opportunity to learn many of these work-related skills at convenient times.

Language Institute

The Language Institute, which began in January 2000, presents specialized noncredit and credit language courses in conjunction with the Continuing Professional Education, Transitional Workforce, Business and Industry Training and Modern Languages departments. We present both open-enrollment classes and courses by contract. Contracted courses can be customized to meet the vocabulary or cultural awareness needs of the client. For information, contact Tara Narcross, at (614) 287-5448.

Department of Continuing Professional Education

Fred Baker, Administrator

(614) 287-5997

Continuing Professional Education provides a variety of professionals with continuing education through non-credit courses and seminars designed to meet their licensing and certification needs. The department also offers a variety of seminars and courses for those who need continuing education credits (CEUs) to stay current in their field, and for those seeking personal enrichment through life-long learning. All courses and seminars offered by

C.P.E. are open to anyone who has an interest in the program. To access the department website, visit www.csc.edu, click on *Community Education and Workforce Development*, then *Continuing Professional Education*.

The Columbus State ACT Center for Community Education and Workforce Development

The ACT Centers are partnerships with community colleges throughout the United States. Continuing Professional Education houses the Columbus State ACT Center for Community Education and Workforce Development on campus. The center provides ACT services including testing, assessment and distance training. The center and ACT offers as many as 3000 titles, 80% of which are delivered over the web and 20% via servers located at the center. Some of these publishers are Active Education, ITC Learning Corporation, NIIT (USA), Inc., Test Out!, SkillSoft, and the American Management Association. These titles provide facilitated or unfacilitated training opportunities in 7 different categories:

- Adult Literacy
- Computer Basics
- Industrial/Tech Safety Skills
- Information Technology (Intermediate and Advanced Computer Skills)
- Management/Leadership
- Personal Development
- ESL

Users of on-line training can access courses by clicking on the ACT Center logo on the Columbus State home page (www.csc.edu). Instructions for purchasing courses are on the ACT website.

Server based courses are provided at the CSCC ACT Center and can be delivered to the individual or on an instructor facilitated basis.

Both web based and server based courses can be delivered on a contract basis either facilitated or unfacilitated. Contracted web based courses can be delivered on site or in the ACT Center facility. Server based courses must be delivered in the facility.

Additionally, a variety of assessments are offered, including WorkKeys, Discover, DISC, and SHR. These assessments can be given either by individual appointment, or on a contract basis at the ACT Center or on site, depending on the assessment tool requested.

The Columbus State ACT Center for Community Education and Workforce Development is a testing site for various skill, certifi-

ation and proficiency testing such as the ACT high school assessment, GRE, MCAT, CISCO, MOUS, MCSE, CLEP, NET, etc. These tests are given on an appointment basis.

Costs for these courses and services vary. Contact the Columbus State Community College ACT Center for Community Education and Workforce Development at (614) 287-ACT1 or e-mail the Center at ACT1@csc.edu.

Continuing Professional Education Course Descriptions

With the rapid changes in technology and work methods, many employers and employees seek continuing education classes to stay current in careers and job skills. Continuing Professional Education has several groupings of courses identified as the Continuing Professional Education CERTIFICATE SERIES. The department is a CISCO Networking Academy, offering courses in the CCNA Certificate process, and delivering courses in C-Tech copper, fiber and telecommunications cabling. We are a member of the SHRM Learning System and the American Payroll Association PPS system. C.P.E. is also a provider of continuing education in a variety of health care professions including the Ohio Social Worker and Counselor Board.

If you are interested in completing a series for a certificate, contact Frederick L. Baker, Administrator, Continuing Professional Education at (614) 287-5997.

LEGAL CERTIFICATE SERIES Real Estate Specialist

CPEL 101 The Real Estate Title

The Real Estate Title consists of an examination of the components of negotiation and development of a contract resulting in the transfer of title to real estate. Interests in, and types of title and ownership will be discussed as well as the process of the transfer of title. Title search and closing is introduced in this course.

CPEL 102 Title Insurance for Real Property

Title Insurance for Real Property examines the process of protecting the ownership interest and title through real estate title insurance. Both commercial and residential binders will be discussed along with the impact of continuations of abstracts of title as an

alternative to title insurance. The liability of title insurers relative to local zoning ordinances, commercial and residential development, quiet title actions and other title issues will be evaluated.

CPEL 103 Real Estate Civil Litigation

Civil litigation relating to real estate transactions has a wide range of causes of action ranging from title and ownership issues to landlord/tenant matters. Real Estate Civil Litigation will identify various causes of action, demonstrate the development of prima facie cases and defenses, and examine the practice and procedure to complete the cause. ADR will also be discussed as a method of disposing of real estate cases.

CPEL 104 Real Estate Title Searching and Closing

Real Estate Title Searching and Closing is a course designed to give the student the tools necessary to successfully complete on-site as well as computer accessed real estate title searches and complete the documentation required for the issuance of title insurance or continuation of abstract. Additionally, this course will prepare the student to evaluate the results of real estate title searches, and to incorporate those results into a title closing. Finally, this course will provide the student with the skills required to prepare documents, perform and complete commercial and residential real estate title closings.

Credit Specialist

CPEL 106 Legal Relationship of Debtors and Creditors

Legal Relationship of Debtors and Creditors an examination and dissection of the various relationships created and developed by debtors and creditors when negotiating and entering into loan and other types of credit agreements. Among other contracts, secured and unsecured debts, mortgages, credit reporting, and the rights and obligations of each under state and federal law and common law will be investigated so that the student will have a working knowledge of the expectations of creditors and debtors that arise out of the credit agreement.

CPEL 107 The Process of Debt Collection

The Process of Debt Collection examines various methods appropriate and available to creditors to successfully collect pre-judgment delinquent and defaulted obligations or accounts as well as satisfying judgments. Both formal and informal processes will be explored. Pre-judgment resolution, which is mutually beneficial to debtor and creditor, is emphasized. Development of records, pleadings, discovery, motions and entries filed in appropriate jurisdictions, the effect of bankruptcy and alternatives to bankruptcy will be discussed, including Consumer Credit Counseling.

CPEL 108 Regulation of the Debtor/Creditor Relationship

Regulation of the Debtor/Creditor Relationship will explore various state and federal statutes and regulations that govern the relationship of debtor and creditor. Protection of the rights and obligations of both parties will be examined as well as legal tools that are available to debtors and creditors to avoid potential abuses of credit instruments. Statutes discussed include the Fair Debt Collection Act, Uniform Consumer Credit Code (UCCC) and Article 9 of the Uniform Commercial Code (UCC).

Alternative Dispute Resolution Specialist

CPEL 109 Trends in Alternate Dispute Resolution

The purpose of Trends in Alternate Dispute Resolution is to examine the history of dispute resolution and the statutory/judicial establishment of alternative dispute resolution as a method used for disposal of civil disagreements. The evolution and development of ADR and the growth and impact of the alternative system on American jurisprudence and everyday society is evaluated. As this is an introductory course, the student will examine process of ADR, current trends of ADR; its acceptance by the legal environment, business, society; and its use in the global economy.

CPEL 110 The Arbitration Process

The Arbitration Process is an intensive examination of arbitration and the process for accomplishing dispute resolution through this forum. Students will explore both court annexed arbitration and private arbitration processes. Researching arbitration decisions and the use of legal resources in the arbitration process will be explored. Use of databases and the Internet will be included in the development of research techniques. Students will be able to conduct an arbitration at the completion of the course.

CPEL 111 The Process of Mediation

The Process of Mediation is an overview of the mediation principles and process. Students will explore statutory and private mediation procedures. The course will concentrate on mediation domestic relations; employment practices; and labor mediation. Additionally, the student will be exposed to different models of mediation with particular emphasis on the Seven Step model. Methods of researching decisions and various legal resources utilized in mediation procedures are examined including computer databases and the Internet. Students will be able to conduct a mediation at the completion of the course.

CPEL 112 ADR Methods of Negotiation and Resolution

The purpose of ADR – Methods of Negotiation and Resolution is to introduce the student to techniques used to achieve successful negotiation of disputes. Students will be introduced to principles of negotiation and will learn how to properly and effectively use the mechanics of client interviewing; recognize non-verbal cues; and define and analyze descriptions of conflicts. Methods of resolving conflicts through an evaluation of various successful negotiation strategies will be explored and applied.

CPEL 113 Alternative ADR Procedures

ADR methods and procedures, other than arbitration and mediation, which are statutorily created and privately contracted in the resolution of business disputes is the focus of Alternative ADR Procedures. Hire-A0Judge, Summary Jury Trial, mini-trials and international ADR methods will be explored for appropriateness of use in a given conflict. Students will be able to prepare forms and summaries required to complete these various ADR processes. Bankruptcy Specialist

CPEL 114 Survey of Bankruptcy Law and Practice

Survey of Bankruptcy Law and Practice is an overview of the law of bankruptcy designed to familiarize the student with the statutory and regulatory structure of bankruptcy; the process and procedure of completing the bankruptcy process; location and juris-

dition of bankruptcy courts and their non-judicial officers. Parties involved in a bankruptcy petition as well as judicial and non-judicial proceedings will be through an examination of the bankruptcy chapters.

CPEL 115 Chapter 7 Bankruptcy: Liquidation

Chapter 7 Bankruptcy: Liquidation is a concentrated examination of Chapter 7 of the Bankruptcy Code and the proceedings for liquidation of a debtors' assets pursuant to Chapter 7. The role of creditors and trustees will be discussed in the liquidation process. The student will prepare a packet for Chapter 7 and will be able to apply the practical skills and concepts necessary to complete a Chapter 7 bankruptcy.

CPEL 116 Chapter 11 Bankruptcy: Reorganization

Chapter 11 Bankruptcy: Reorganization examines the requirements to complete a Chapter 11 (Reorganization Process) bankruptcy. The course is designed to provide the student with the practical skills to understand and complete the forms necessary to comply with and achieve the statutory requirements of this legal action. A comparison of Chapter 11 with Chapters 7 and 13 and the advantages and disadvantages of each is addressed. Negotiation strategies to work with creditors will be explored. Students will write reorganization plans for submission to the bankruptcy court as well as research and draft appropriate responses to motions.

CPEL 117 Chapter 13 Bankruptcy: Adjustment of Debts

Chapter 13 Bankruptcy: Adjustment of Debts is an examination of Chapter 13 of the Bankruptcy Code and the proceedings required to achieve the reorganization of debt pursuant to Chapter 13. Students will explore the differences between Chapter 13 and Chapters 7 and 11 and build the skills necessary to complete a Chapter 13 petition. The role of trustees and creditors in the development of a reorganization plan will be discussed. The student will develop reorganization plans and complete forms and documents necessary to effect a Chapter 13 Petition.

CPEL 118 Bankruptcy Alternatives

Bankruptcy Alternatives is an examination of workouts and other alternatives to bankruptcy to accomplish mutually beneficial resolution to bankruptcy to accomplish mutually beneficial resolution to bankruptcy issues to the debtor and creditor. Successful negotiating strategies and other methods of credit resolution are discussed. Federal and Ohio Consumer Protection Statutes are explored with an emphasis on the Fair Debt Collection Practices Act. Students will research and draft documents necessary to complete a workout. Legal issues regarding consumer rights and protection are addressed and legislative updates are reviewed.

Elder Law Specialist

CPEL 119 Survey of Elder Law

Survey of Elder Law provides the student with an overview of social and legal issues relevant to the elder person. Common legal issues are identified and methods available to assist such persons to resolve these concerns are examined. Medicare/Medicaid/state and federal benefits estate planning, living wills and P.O.A.s are addressed as well as health care and general legal concerns, e.g. asset protection, confronted elders are discussed. Ethical considerations relevant to working with the elder person are explored.

CPEL 120 Survey of Social Security

Survey of Social Security is designed to provide the student with an overview of the Social Security Administration. The historical and statutory origin of Social Security; jurisdiction and regulation; and practice and procedure within the Social Security Administration is examined with an emphasis on S.S. claims and dispute resolution.

CPEL 121 Survey of Medicare/Medicaid

Survey of Medicare/Medicaid is an overview of the Medicare system. The statutory origin of Medicare will be explored as well as the jurisdiction and regulation of the system. The differences in application of Medicare and Medicaid will be defined. Claims practice, asset protection, and procedures for the resolution of Medicare and Medicaid issues will be reviewed. At the completion of the course, students will be able to identify Medicare/Medicaid issues and complete Medicare/Medicaid matters.

CPEL 122 Asset Preservation for the Elder Person

Asset Preservation for the Elder Person addresses concerns that all persons entering into an independent living, assisted care, or nursing care facilities, as well as the family or other guardians involved. That is how to preserve part or all of the estate of the person entering the facility. The course examines the methods available and appropriate for developing and implementing plans to protect and preserve assets of the elder person as they encounter the need for care due to catastrophe or other voluntary or involuntary long term assisted, medical or nursing care.

Probate Specialist**CPEL 123 Administration of the Probate Estate**

Administration of the Probate Estate is designed to acquaint the student with methods of estate administration. The course addresses the jurisdiction, completion of forms, and the procedures for completing a full administration of a testate and intestate estate, and the process and procedure for seeking relief from the administration of an estate. The law of intestate succession will be examined as well as an introduction to estate tax and estate tax forms. At the completion of the course the student will be able to complete forms required to initiate and conclude both full and no administrations of estates.

CPEL 124 Guardianship

Guardianship is a course that introduces students to the law of guardianship and that guardianship is petitioned for and awarded by a probate court. Jurisdiction issues are examined and the process and procedures through which guardianships are requested, obtained, and accounted are discussed. At the completion of the course the student will be able to initiate and conclude all necessary requirements to seek and finish a guardianship under the jurisdiction of the probate court.

CPEL 125 Wills, Trusts and P.O.A.

Wills, Trusts and P.O.A. is a course designed to provide the student with an in-depth examination of the law relating to wills, trusts and various forms of power of attorney. Jurisdiction and requirements necessary for the development and execution of wills, living wills, durable and revocable powers of attorney and trusts are examined. The purposes and application of these probate tools

are discussed relative to the development and protection of estates.

CPEL 126 Survey of Civil Issues in Probate

Survey of Civil Issues in Probate is designed to introduce the student to the variety of matters within the jurisdiction of the Probate Court. The jurisdiction, process and procedures for concluding name changes, legitimation, marriages, ancillary administration, adoptions, land sale proceedings, and the involvement of the Probate Court in wrongful death actions are some of the issues included in this course.

CPEL 127 Estate Taxation

Estate Taxation is an in-depth examination of the aspects of state and federal taxation as the law applies to estates. At the conclusion of this course, the student will examine the state and federal tax codes, conduct relevant legal research and complete applicable state and federal tax forms necessary to report the tax status of an estate and be able to calculate the appropriate state and federal tax for an estate.

Worker's Compensation Specialist**CPEL 128 The Process of BWC Claims**

The Process of BWC Claims is designed to acquaint the student with how the Bureau of Workers' Compensation processes claims, including how the Bureau works with companies that are self-insured, the calculation of wages and compensation, payment of medical bills, authorization of medical treatment, determination of disability, as well as how the Bureau addresses appeals of decisions, applications to reactivate, and permanent partial disability settlements in the resolution process.

CPEL 130 The Workers' Compensation Adjudication Process

The Workers' Compensation Adjudication Process is designed to acquaint the student with how the Bureau of workers' Compensation works with contested claims. The course will examine the adjudication of claims process from the claimant position, as well as that of the employer and the Bureau. The emphasis of this course is how to conduct discovery and acquire information available through state files and computer systems, and procedure for adjudicating a claim through an administrative hearing. Violations of specific safety requirements, applications for permanent total disability, the hearing and appeals process will be addressed.

CPEL 131 Rating the Workers' Compensation Risk

Rating the Workers' Compensation Risk is a course designed to acquaint the student with how the Bureau determines a premium based on an employers risk factors. Different rating plans available through the Bureau of Workers' Compensation to establish appropriate premiums are discussed, as well as appeals available to an employer who contests a rating assigned. The emphasis is on the underwriting process of the Bureau, however, the self-insured options available are addressed.

CPEL 132 BWC Practice and Procedure

BWC Practice and Procedure is an in-depth examination of the procedures necessary to request and complete the hearing process in a claim made to the Bureau of Workers' Compensation. The

practice and procedures are examined from both the Bureau (internal) and claimant or employer (external) perspective. At the completion of the course, the student will be familiar with the procedures required to practice in the BWC and will further be able to initiate and conclude, or defend a claim made to the Bureau.

Health Care

CPEH 106 Medical Terminology

Medical Terminology is a basic medical vocabulary course designed for the student who has little or no health care experience. Students will become acquainted with medical terms commonly used by health care professionals when discussing health issues with patients and in health records.

CPEH 107 Critical Thinking Skills for Health Professionals

Critical Thinking Skills for Health Professionals teaches basic critical thinking skills and concepts for health professionals who work with patients in a clinical environment.

LEGAL

CPEL 105 Technology in Professional Research

Technology in Professional Research will introduce the student to the concepts of and use of technology in professional research. Designed to be discipline specific, the student will use various resources to research and retrieve information relevant to their specific professional arena. Remote databases, CD-ROM, Internet will be addressed as well as a review of basic computer literacy. The course will be delivered in computer labs providing each student with a computer station to use in each session, as well as, instruction through local and remote connections using LCD overhead projection. The student will be acquainted with Internet user groups where questions are asked and answered via email and listservs. The goals of the course are to provide the student with computer competencies that exceed the basics with confidence to be pro-active in the use of technology within the profession and to develop creative thinking skills.

CPEL 140 Basics of Legal Research

Basics of Legal Research is an overview of the tools used by legal professionals to research statutes and case law. The course is designed for both persons who have little or no experience in the law or legal related fields as well as those who are employed in a legal environment.

CPEL 141 Employment Law for Managers

Employment Law for Managers is an overview of employment law. Emphasis is on legal rights of employees relating to privacy issues, harassment, substance abuse, trends in employment law, and general liability of both employers and employees.

CPEL 142 Legal Terminology

Legal Terminology is a basic legal vocabulary course designed to acquaint persons with little or no experience in the legal environment to "legal ease" commonly used by legal professionals.

CPEL 143 Computer Literacy for Legal Professionals

Computer Literacy for Legal Professionals acquaints the student with computer applications commonly used in legal research. A basic understanding of legal research material and traditional legal research methods is necessary.

CPEL 145 ADA Compliance

Is your office in compliance with the requirements of the Americans with Disabilities Act? If you are unsure or want to learn what is "compliance" with the ADA, this course will give you the information you need to know, what to do if your office is not compliant, and what causes of action and remedies are available to persons affected by ADA.

Grant Writing

CPEG 114 Beginning Grant Writing

Beginning Grant Writing shows how to find grants to fund your project: how to determine the most appropriate funding source; and how to write a basic response to requests for proposals for funding.

CPEG 115 Advanced Grant Writing

Advanced Grant Writing examines how to draft responses to proposals for funding projects so that your document will provide the best chances for you to receive the grant you are seeking. This course builds upon the basics of grant writing discussed in Beginning Grant Writing, with hands on experience and expert feedback. A variety of methods used to draft RFP's will be explored.

Employment Relations

CPES 101 Basics of EEO

This class provides the student with an overview of EEO act and regulations and how they are incorporated into the office environment. The responsibilities of the EEO officer, organizations and employees, as well as remedies available will be discussed.

CPES 102 Sexual Harassment

What is sexual harassment and have you been a victim? What are the remedies available to persons who have been harassed? What are the responsibilities of the company and the employee? How do you recognize and avoid sexual harassment in the workplace? These and many other questions are answered in Sexual Harassment.

Sign Language

CPEG 102 Basic Sign Language – The ABC's

Learn how to communicate effectively with the hearing impaired. Basic Sign Language – The ABC's is an overview of the fundamentals of ASL and will give you the basic skills needed to communicate using sign language.

CPEG 103 Intermediate Sign Language

Intermediate Sign Language is the second course in the ASL series and builds on the skills developed in Basic Sign Language. Increase your effectiveness in communicating with the hearing impaired by further developing your signing abilities with the interactive skill building class.

Computer Skills

CPEC 101 Introduction to PCs

Introduction to PCs is an introduction to PCs for the end user. No knowledge of computers is needed at all. This class will take you from turning on the computer to using basic word processing, the Internet and email. Offered in general and senior sessions.

CPEC 109 Introduction to the Internet

Have you ever wanted to “surf the net,” do research, use email, or just experience the Internet? Introduction to the Internet is an overview of the Internet that will give you the skills to navigate along the information super highway.

CPEC 110 Intermediate Internet

Intermediate Internet builds on the skills acquired in Introduction to the Internet and develops techniques for the effective, efficient use of the Internet.

CPEC 111 Advanced Internet

Advanced Internet teaches the student to become an expert in the use of the information super highway. The newest technology will be explored and the basics of building web sites will be discussed.

C-Tech Cabling

C-Tech is a company that provides a curriculum teaching the basics in network and fiber optic cabling. It is an academy that teaches students two skills 1) to physically connect copper cables to connectors and test the end product to determine that a proper connection was made that will transmit information through the cable, and 2) placing connectors on the ends on fiber optics tubes and testing them to ensure that there are no rough edges on the ends of the tubes and that there is a clear path for the light to travel. The copper network cabling course is a 35 clock hour course while the fiber optics curriculum is completed in 16 hours. The curriculum requires that a student pass the copper cable portion of the course before entering the fiber optics segment, so there is a one week gap between the two instructional units. Testing and certification is completed by C-Tech with C-Tech certificates awarded.

CPEC 208 Network Cabling - Copper

CPEC 209 Network Cabling – Fiber Optics

CISCO Academy

The Cisco Academy for CCNA (Cisco Certified Network Assistant) consists of a 4 course curriculum designed to teach the student the basics of computer network systems, and to prepare them to sit for the Cisco Certification Exam for CCNA status. At the completion of the academy the student will be able to assist network engineers in the design, development, installation and implementation of a variety of network systems. Each class is 70 clock hours in length for a total of 280 clock hours of a combination of lecture and lab. The curriculum is available for either credit or non-credit.

The Cisco Networking Academy Program officially launched its Cisco Certified Network Professional (CCNP) curriculum on May 15, 2000. The CCNP curriculum will include Semesters 5-8 of the Academy program and will prepare students for the Cisco Certified Network Professional (CCNP) certification exam. This curriculum represents an advanced networking course that teaches skills associated with the Cisco Certified Network Professional (CCNP) certification exam. It is divided into four, 70-hour semesters - 50 percent instructor-facilitated online learning and 50 percent laboratory work.

The Cisco Certified Network Professional certification (CCNP) indicates advanced or journeyman knowledge of networks. With a CCNP, a network professional can install, configure, and operate LAN, WAN, and dial access services for organizations with networks from 100 to more than 500 nodes, including but not limited to these protocols: IP, IGRP, IPX, Async Routing, AppleTalk, Extended Access Lists, IP RIP, Route Redistribution, RIP, Route Summarization, OSPF, VLSM, BGP, Serial, Frame Relay, ISDN, ISL, X.25, DDR, PSTN, PPP, VLANs, Ethernet, Access Lists, 802.10, FDDI, Transparent and Translational Bridging.

CPEC 210 Intro to Networking

Intro to Networking is an overview of networking theory and hardware. The student will learn about Network, Devices, IP Addressing, ARP/RARP, Media and Design, Topology, Structured Cabling, Electronics, and Management.

CPEC 211 Routers & IOS

Routers & IOS expand on the introduction to the student to Routers and IOS. The following are discussed: OSI and the OSI Model, Layers 1 –7, WANs, Routing, Using the Router, Router Components and Router Protocols, Startup and Setup, Configuration, IOS, TCP/IP, and IP Addressing.

CPEC 212 LANs and Design

In LANs and Design, the student will learn the concepts of LANs and the design of LANs to meet a variety of needs in the market, including: LAN Switching, VLANs, LAN Design, IGRP, Access List, and Novell IPX

CPEC 213 WANs and Design

In WANs and Design, the student will learn the concepts of WANs and the design of WANs to meet a variety of needs in the market, including: WAN and WAN Design, PPP, ISDN, and Frame Relay.

CPEC 214 Advanced Routing Configuration

Overview of Scalable Internetworks, Introduction to Managing Traffic and Access, Managing IP Traffic, Configuring Queuing to Manage Traffic, Routing Protocols Overview, Extending IP Addresses Using VLSMs, Configuring OSPF in a Single Area, Interconnecting Multiple OSPF Areas, Configuring Enhanced IGRP, Optimizing Routing Update Operation, Configuring BGP, Quality of Service.

CPEC 215 Remote Access Networks

Selecting Cisco Products for Remote Connections, Assembling and Cabling the WAN Components, Configuring Asynchronous Connections with Modems, Accessing the Central Site with Windows 95, Configuring PPP and Controlling Network Access with

PAP or CHAP, Using ISDN and DDR to Enhance Remote Connectivity, Optimizing Use of DDR Interfaces, Configuring a Cisco 700 Series Router, Establishing a Backup to the Permanent Connection, Optimizing Traffic on Demand WAN Connections, Scaling IP Addresses with PAT and NAT, Troubleshooting the Remote Access Network.

CPEC 216 Multi-Layer Switching

Introduction to Switching Concepts, Virtual LANs, Placing Catalyst Switches in your Network, Catalyst Switch Overview, Catalyst Switch Architecture, Catalyst Switch Hardware, Configuring the Supervisor Module and Fast Ethernet, Catalyst Switch Software, Managing the Catalyst Switch, Troubleshooting the Catalyst Switch, Catalyst 2900 Series Features, Configuring Catalyst 2900 Series Switches.

CPEC 217 Network Troubleshooting

Support Resources for Troubleshooting, Using Troubleshooting Methods, Identifying Troubleshooting Targets, Applying Cisco Troubleshooting Tools, Workgroup Discovery Lab and CCO, Using a Troubleshooting Method, Documenting Symptoms, Actions and Results, Tracking Log-ins and Connections, Using Cisco Show and Debug Commands, Diagnosing and Correcting Campus TCP/IP Problems, Diagnosing and Correcting Catalyst Problems, Troubleshooting VLANs on Routers and Switches, Diagnosing and Correcting Frame Relay Problems, Diagnosing and Correcting ISDN BRI Problems.

Business/Office Assistant/ Administrative Assistant

American Payroll Professional (Series)

CPEB 104 Primary Skills (APA Payroll Series)

Payroll Primary Skills introduces the student to the basics of payroll. This class is a survey class exploring the payroll profession. Basic payroll terminology, law and procedure will be addressed.

CPEB 105 Essential Skills (APA Payroll Series)

Essential Skills of payroll is the second and intermediate course in the payroll series. This class is a procedures class building on the skills acquired in the Primary Skills class.

CPEB 106 Advanced Skills (APA Payroll Series)

This class is the final class in the APA payroll series. Advanced topics in payroll are explored such as tax and benefits calculations and other topics that appear in the CPP examination.

Online Courses

Columbus State's Global Campus offers a series of non-credit courses online for convenient continuing education, anytime, anywhere. Many of the courses are Microsoft approved study guides which can lead to Microsoft Certification. Visit the College's web site at www.csc.edu, click on Global Campus, then Continuing Education for a complete course listing. The courses are offered in cooperation with Mind Leaders, a Columbus computer training company.

CPEC 112 Online Professional Series

User-paced professional development online courses and certificates.

CPEC 113 Online Technical Series

Technical, self-paced, online courses and certificates.

Columbus State ACT Center for Community Education and Workforce Development

Modern Languages

CPEM 101 Introduction to the French-Speaking World

CPEM 102 Introduction to the Italian-Speaking World

CPEM 103 Introduction to the German-Speaking World

CPEM 104 Introduction to the Arabic-Speaking World

CPEM 105 Introduction to the Spanish-Speaking World

CPEM 106 Introduction to the Japanese-Speaking World

CPEM 107 Spanish for Health Care Workers

CPEM 108 Spanish for Landscaping

Business and Industry Training Department

(614) 287-5000

This department was created to assist local businesses with on-site or on-campus consulting services and training programs that improve organizational and/or individual performance. These services are coordinated by experienced representatives who assist local employers in identifying and meeting their company's needs. In addition to these services, the department provides one day courses and seminars.

Course Offerings and One-Day Seminars

Competency Builders

Career Development

This course is designed to help participants identify career options related to their life goals, and that are consistent with their interests and abilities. Participants will learn how to develop a career plan that is based on their unique interests and aptitudes.

Managing Time and Work

This course is designed to introduce participants to the tools and techniques necessary to manage their time. The course covers phone time, procrastination, managing time with co-workers and protecting time through appropriate delegation of tasks. Participants will learn how to plan and analyze time utilization to maximize their personal effectiveness.

Office Organizational Skills

This course presents proven organizational techniques to help tackle the endless flow of paperwork. These techniques include filing tips, clutter-busters and workable action plans. Participants will learn how to increase their organizational skills for improved efficiency in the work place.

Stress Management

Stress Management is designed to provide participants with a series of tools and techniques to better enable them not only to cope with the stress in their lives, but also turn those stress initiators into powerful drivers for change and accomplishment. Participants will learn strategies to revitalize motivation on the job. Participants will learn how to respond appropriately to stressful events.

Project Planning and Management

This introductory course is designed to teach the basics of project management with special emphasis on the nature of projects; general strategies and techniques for planning and implementing project; and major functions of an affective project manager. Participants will learn how to apply project management tools and techniques in planning and managing projects.

Train-the-Trainer

This course is designed for the non-professional trainer who must occasionally develop or deliver training. Participants will be introduced to a series of tools and techniques designed to provide them with the opportunity to build the skills commonly needed by trainers. Participants will learn the basic skills necessary for conducting effective training.

Effective Presentations

Effective Presentations teaches participants everything they need to know about delivering a solid presentation with clarity, persuasiveness and confidence. It covers organizing thoughts and data for maximum impact, developing eye-catching visual aids, and using effective body language. Participants also will benefit from learning how to conduct good question and answer sessions. Participants will develop the skills necessary to deliver an effective presentation.

Goal Setting

Goal Setting is designed to teach the rationale and process for goal setting. This course covers goals and goal setting, how goals are set, and strategies for goal achievement. Participants will learn how to set goals, create an action plan for goal achievement and adjust plans over time.

Decision Making and Problem Solving

This course introduces participants to a variety of decision-making and problem-solving tools. It also presents a logical problem-solving process that has application in any setting. Participants will learn how to define a problem or situation, generate alternative solutions, evaluate alternatives, make informed decisions, implement a solution, and follow-up with results.

Computer User Programs

Keyboarding

This course is designed to teach basic keyboarding skills. Emphasis is on lines of timed drills and timed paragraphs. Participants will learn how to key alphabetic and numeric characters on a computer keyboard.

Computer Literacy: Introduction to the PC

This introductory course gives an overview of computing for the beginning PC user. No knowledge, of or experience with, com-

puters is required. Participants will develop an understanding of personal computers and their use.

Introduction to Windows 95

This course is designed to teach basics of Windows 95. Participants will access Windows features, work with Windows using buttons and dragging techniques, create shortcuts, and learn to share data between programs. Participants also will learn to use Windows Explorer and additional document management techniques. Participants will learn how to set priorities, manage seemingly complex tasks, and apply a variety of techniques to increase their effectiveness.

Basic Internet

This course explores the basic technologies of the Internet and the World Wide Web and shows participants how to explore Internet resources. Participants will learn how to use various browsers and engines to find resources on the Internet.

Advanced Internet

This course builds on the skills acquired in Basic Internet and strengthens the use of e-mail, images, audio, video and multimedia and other Internet resources.

Introduction to FrontPage and Web Page Design

This course is designed to help participants learn basic HTML coding and use of Microsoft FrontPage for web page design. Basic knowledge of HTML coding will be coupled with the ease of MS FrontPage to quickly learn web page design. This course will also assist in preparation for the MOUS Office Integration Expert test.

Intermediate FrontPage and Web Page Design

This course is designed to build on the design skills learned in the introductory course. Participants will learn additional web page design techniques and features using Microsoft FrontPage. To assist in the preparation for the MOUS Office Integration Expert test.

Introduction to Microsoft Outlook 97

An introduction to the hands-on experience and skills development necessary to perform complex tasks in Microsoft Outlook. Participants will learn MS Outlook 97's computer-based mail service, appointment book, and address book features, and assist in preparation for the MOUS Office Integration Expert test.

Introduction to Microsoft Project 98

Project is a project management application that allows you to monitor the progression of projects, so that you can make the best use of your time. It helps you organize the tasks involved in the completion of a project, schedule your resources to complete the projects efficiently, and maintain information about the project during its progression.

Intermediate Microsoft Project 98

A continuation of learning the powerful features of this information and project management application. A review of the basic concepts and features covered in the Introduction to Project 98 class. Learning the more advanced application features in creating and managing a project. This course will also assist in preparation for the MOUS Office Integration Expert test.

Introduction to Office for Windows 97

This course introduces the basic concepts, skills and techniques presented in Microsoft Office, Professional Edition. Participants will learn how to get started with Office, customize the Office shortcut bar, link and embed objects, share data between programs, use Binder and use Schedule+ with Word and Excel.

Introduction to Word for Windows 95: Version 7.0

This course presents an introduction to basic word processing techniques. Participants will learn basic word processing techniques and skills.

Introduction to Word 97

This course is designed to present and practice the basic topics of Word '97 word processing applications. Participants will learn the techniques of creating and editing documents, and many other automatic text features.

Intermediate Word for Windows 95: Version 7.0

This course reviews the basic concepts and features of Word and teaches intermediate word processing skills. Participants use headers and footers; create, use and format tables; and work with columns. They also use pictures, graphic elements, worksheets, and charts in documents and work with envelopes and labels. Participants will learn intermediate word processing skills and additional features of Word.

Intermediate Word 97

This course is designed to cover intermediate Word concepts and skills. Participants will use advanced techniques of the Word 97 system to create templates, documents, and a wide variety of other items.

Advanced Word 97

This course is designed to gain a mastery of Word 97 and should be taken by those already completing Intermediate Word 97 or already possess significant experience in Word 97. Participants will quickly review intermediate features and gain mastery of advanced functions, features, and shortcuts.

Introduction to Excel for Windows 95: Version 7.0

This course introduces participants to basic spreadsheet concepts and uses. Participants create worksheets, work with basic formulas and functions, explore formatting techniques, and explore time saving features such as styles, AutoFormats, and the Find and Replace commands. Participants will learn basic spreadsheet techniques and skills.

Introduction to Excel 97

This course introduces participants to basic spreadsheet concepts and uses of Excel 97. Participants create worksheets, work with basic formulas and functions, explore formatting techniques, and explore time saving features such as styles, AutoFormats, and the Find and Replace commands. Participants will create, modify, print, and learn formatting on Excel worksheets.

Intermediate Excel for Windows 95: Version 7.0

This course presents intermediate Excel skills that can help participants use many of the software's timesaving and enhancement features. Participants use names, work with advanced functions

and formatting features, and use special format and print options. Participants also explore timesaving techniques and features such as consolidating and linking information from multiple workbooks, using templates and macros automate tasks, and importing and exporting data. Participants also use protection features and work with charts. Participants will learn intermediate spreadsheet techniques, features, and skills using Excel.

Intermediate Excel 97

This course is designed to teach use of Excel '97 through working with advanced functions and changing data. Participants will learn to work with advanced Excel functions, formatting features, changing and updating data, and using special format and print options.

Advanced Excel 97

This course is designed to gain a mastery of Excel 97 and should be taken by those already completing Intermediate Excel 97 or already have significant experience in Excel 97. Participants will quickly review Intermediate features and gain mastery of advanced functions, features, and shortcuts.

Introduction to PowerPoint for Windows 95: Version 7.0

This course reviews the basic concepts and features of PowerPoint and teaches advanced slide presentation skills. Participants will create graphs and organization charts and enhance presentations by using color features, scaling objects, and enhancing placeholders. Participants also will use advanced slide show effects to create professional quality presentations.

Intermediate PowerPoint 97

This course is designed to gain a mastery of PowerPoint 97 and should be taken by those already completing Intermediate PowerPoint 97, or already possess significant experience in PowerPoint 97. Participants will quickly review Intermediate features and gain mastery of advanced functions, features, and shortcuts.

Introduction to Access for Windows 95: Version 7.0

This course teaches basic database concepts and reviews the features of Access. Participants will get started with Access, and create databases. Participants will also work with Access tables, set field properties, and change and customize tables. Finally, participants will create and work with queries, create reports, and import data into Access. Participants will learn how to design and create databases, query databases, and generate reports using Access.

Introduction to Access 97

This course teaches basic database concepts, and reviews features of Access '97. Participants will learn how to design databases, work with Access objects, and create and work with tables and forms.

Intermediate Access for Windows 95: Version 7.0

This course reviews basic database concepts and teaches intermediate database skills. Participants will work with forms, enhance forms and reports, and insert objects into forms and reports. Participants also will locate data, use macros, and use criteria in queries. Finally, participants will work with values in queries, use calculations in queries, and work with charts. Participants will learn intermediate database skills.

Intermediate Access 97

This course reviews basic database concepts and teaches intermediate database skills. Participants will work with charts, filters, and relationships. Additionally, they will use advanced form features, macros and advanced report and query features.

Advanced Access 97

This course is designed to gain a mastery of Access 97 and should be taken by those already completing Intermediate Access 97 or already have significant experience in Access 97. Participants will quickly review Intermediate features and gain mastery of advanced functions, features, and shortcuts.

Introduction to Desktop Publishing

This course is designed to teach the basics of desktop publishing. Participants will learn how to layout a page, use desktop publishing tools, import text and graphics, manipulate files, and create a variety of publications.

Intermediate Desktop Publishing

This course reviews basic concepts and intermediate designing skills. Participants will learn project skills related to stories, scripts, and envelopes.

Microcomputer Certification Programs

General Skills Certifications

A+ Certification

The A+ Certification course is a hands-on entry-level 5- to 7-week course teaching basic PC hardware and Windows software support including installing memory, swapping hard drives, and troubleshooting the Windows operating system. Earning A+ Certification opens the door to the IT field and helps to qualify the participant for positions such as PC/LAN Technician, Help Desk, and Support Technician.

Network+ Certification

Network+™ is a hands-on entry-level networking course designed to follow the A+ Certification course. Network+ provides technicians with training in installing and configuring TCP/IP clients in a variety of environments. It includes topics such as the 7-layer OSI protocol model, network topologies, networking practices, security, and network troubleshooting.

Windows NT 4.0 Microsoft Certified Systems Engineer (MCSE) Program

Administering Windows NT

Students will learn how to create and administer user and group accounts; manage network resources, set up and administer permissions for files and folders, set up a printing environment and administer printers, and administer the Windows NT Server and Windows NT Workstation operating systems in real-world situations.

Implementing and Supporting Windows NT

Students will learn to provide technical support for Microsoft Windows NT Server and Windows NT Workstation 4.0, and they will be able to implement, administer, and troubleshoot information systems that incorporate Microsoft Windows NT Server and Workstation 4.0 in a simple computing environment.

Implementing and Supporting Windows NT in the Enterprise

Students will learn to define Windows NT Server Directory Services and plan a Directory Services structure; analyze, predict, and optimize network traffic; and isolate problems to specific components in the architecture using Windows NT Server 4.0 tools.

Implementing and Supporting Internet Information Server 4.0

Students will learn to install IIS on an Intel-based computer platform running NT Server 4.0, configure IIS using the Internet Service Manager snap-in for Microsoft Management Console and hypertext markup language (HTML)-based administration tools, and enhance a Web site hosted on IIS with active server pages.

Implementing and Supporting Microsoft Exchange Server 5.5

Students will learn to install and configure Exchange Server 5.5 on an Intel-based computer platform running NT Server 4.0; install and configure Exchange Server clients; manage users, site security, distribution lists, and the Exchange directory; and develop long-term administration strategies.

Windows 2000 Microsoft Certified Systems Engineer (MCSE) Program

Since the Windows 2000 product and its corresponding courses are not yet available in their final versions, details on the Windows 2000 curriculum are not yet available. Courses offered will prepare students for a selection of the following certification exams:

Exam 70-222: Upgrading from Microsoft Windows NT 4.0 to Microsoft Windows 2000

Exam 70-219: Designing a Microsoft Windows 2000 Directory Services Infrastructure

Exam 70-220: Designing Security for a Microsoft Windows 2000 Network

Exam 70-221: Designing a Microsoft Windows 2000 Network Infrastructure

As they are published, the Business and Industry Training Division office will make more details available.

General Knowledge

Basic Statistics

Basic Statistics is an introductory course designed to teach the fundamentals of descriptive statistics. It covers measures of central tendency and measures of variation, and gives special emphasis to the development and interpretation of graphs. Special Note: Participants should bring a basic calculator to the class. Participants will learn how to collect, organize, analyze and interpret numerical information.

Accounting and Bookkeeping

This introductory course emphasizes the accounting cycle, recording of financial transactions through use of special journals and the nature and content of financial statements. Participants will learn the “why” along with the “how” of accounting and bookkeeping procedures. Special Note: Participants should bring a basic calculator to the class. Participants will learn the skills necessary for understanding accounting principles, interpreting financial statements, and the fair presentation of financial affairs.

Writing Skills Workshop

This workshop is designed to provide participants with an overview of the basic skills necessary to compose and edit documents such as letters and memos. Participants will learn conceptualization, critical thinking, outlining and documentation skills. Participants will learn how to compose basic business documents clearly and concisely.

Report and Proposal Writing

This course is designed to provide participants with the skills necessary to effectively and efficiently prepare proposals and reports. The techniques presented will help stimulate positive responses in the reader, enhance readability, and provide clarity of message conveyed. Participants will learn how to analyze report or proposal requirements and prepare reports that demonstrate an understanding of the reader’s needs regarding content and writing style.

Technical and Procedural Writing

This course is designed to provide participants with the organizational and logical thinking necessary to successfully convey a message, using a minimum of words and images. Participants will learn how to provide a clear, concise message in a step-by-step manner.

Grants Writing

This course is designed to provide participants with an overview of the grants writing process. The steps from visioning through actual submission will be reviewed and discussed. Participants will learn how to find grant opportunities, analyze the grant application submission guidelines, and prepare a winning proposal.

Proofreading and Editing Techniques

Proofreading and Editing Techniques is designed to provide participants with an understanding of proofreading and the use of effective editing techniques. The course includes basic rules regarding grammar usage and aspects of style. Participants will learn how to proofread and edit a variety of documents.

Interpersonal Communications Techniques

This course is designed to provide participants with the knowledge and skills necessary to communicate effectively in an organizational setting. Various forms of interpersonal communications will be reviewed, discussed and applied. Participants will learn how to apply a variety of effective interpersonal communications techniques appropriate for the organizational setting.

Listening and Memory Development

This course is designed to help participants improve their listening and memory skills. Participants will leave this course with a greater appreciation of the importance of listening and techniques for an improved memory. Participants will learn how to improve their listening effectiveness and ability to remember information.

Communications Techniques for Customer Service

This course is designed to provide participants with the knowledge and skills necessary to communicate effectively in an organizational setting, with emphasis on telephone techniques. Participants will learn how to apply a variety of effective interpersonal communications techniques.

Pharmacy Technician Training Program

Pharmacy Technician Training

This fifty-hour non-credit course is designed to prepare the student to enter the pharmacy field in hospitals, home infusion pharmacies, community pharmacies and mail-order pharmacies as an ancillary working under the supervision of a registered pharmacist. This popular course is taught by registered pharmacists practicing in Columbus.

Workforce Development

SSRV 104 CHAP Basic Core Course (A,W,SP,SU) 7 credits

This is a workforce training program for employees of the Community Health Access Project. Students will be trained as community health advisors. Emphasis is placed on communication and documentation skills, confidentiality, agency protocols, basic knowledge of health and social service care, community health education, client advocacy, and home visiting.

Lecture: 7 hours – Lab: 0 hours

Prerequisite: CHAP employee or permission of instructor

Lab fee: \$20.00

SSRV106 CHAP Special Topics Course (A,W,SP,SU)

7 credits

This is a workforce training program for employees of the Community Health Access Project. Students will have an opportunity to expand their knowledge and/or skills in specialized areas relating to community health. Emphasis will be on mother-infant care.

Lecture: 7 hours – Lab: 0 hours

Prerequisite: CHAP employee and MULT 292 or permission of instructor

Lab fee: \$3.00

SSRV108 CHAP Field Experience/Seminar (A, W, SP, SU)

7 credits

This course provides the student with work experience and discussion so learned concepts from MULT 292 and MULT 293 can be applied to practical situations in the community.

Lecture: 4 hours – Field Experience 33 clock hours for 3 credit hours

Prerequisite: CHAP employee and MULT 292 and MULT 293 or permission of instructor

Lab fee: \$3.00

K-12 Initiatives

Laurie Johns, Administrator

(614) 287-5961

The mission of the K-12 Initiatives department is to enhance the educational opportunities of the youth in Columbus State's service area, while fostering the development of life-long learning. The department provides facilitation, support, assistance and programming for students, faculty, and staff to accomplish this mission. This department is directly responsible for the following programs at Columbus State:

Post Secondary Enrollment Option Program – which allows students in high school to attend college and apply the college credit to their high school graduation requirements.

Tech Prep Program – Pathways for current high school tech prep students to enter into articulated two-year associate degree technical programs with advance placement.

Cougar Crew Reading Literacy Tutor Program – Columbus State students and employees serve as reading literacy tutors in area elementary schools during school and after school.

Enrichment Programs – Outreach for individuals and families regarding academic enrichment. Some of our programs include Kids In College, Youth In College, Summer Youth, and Literacy Festivals.

Linkages for Professionals in Primary and Secondary Education – Opportunities for training & development to enhance knowledge, experiences and practice regarding college and life long learning options for the professional or their students.

Off-Campus Programs

Joan Freeman, Director

(614) 287-2696

Columbus State's Off-Campus Centers, located throughout the college's four-county service district, provide educational opportunities for more than 10,000 students each year with day, evening

and weekend classes. Suburban centers offer courses in general education, computer skills and technical areas, and are equipped for telecourse and distance learning delivery. A year-round schedule allows students to plan their educational programs several quarters in advance.

Transitional Workforce Department

Julie Maurer, Administrator

(614) 287-5620

Your source for career and life skills training, basic education, and GED preparation.

The Transitional Workforce Department provides services and courses for individuals not eligible for the programs listed below who wish to pursue their career and educational goals via non-credit course options. Additional programs offered by this department include family literacy, community outreach, and pre-release prison programs.

The following programs and courses are designed to provide individuals with the opportunity to gain the skills needed to enter, reenter or advance in the workforce:

NON-CREDIT CERTIFICATE JOB TRAINING \ PROGRAMS

Orientation to Non-traditional Occupations for Women (ONOW) and Basic Industrial Trade Skills (BITS) for Men:

This is a free eight-week job readiness training program, funded by the Franklin County Department of Job and Family Services and the Ohio Department of Education, that provides individuals with an introduction to employment in a variety of career areas, including construction, equipment operations, and welding. Students will have the opportunity to acquire skills necessary to succeed, including blueprint reading, power tools, and fitness.

Ameritech Workforce +:

This is a free eight-week job readiness training program designed to meet the unique needs of individuals receiving public assistance in Franklin County to make a transition into full time employment. The Ameritech Foundation, the Ohio Board of Regents, and Franklin County Department of Job and Family Services funds this program that provides specialized skills training in customer service, nurse aide preparation, and warehouse/distribution training.

Introduction to Basic Office Skills Training:

This is a free eight-week job readiness training program funded by the Franklin County Department of Job and Family Services. It prepares participants with the skills and experience required to gain employment in a professional office setting. Typing, word processing, computer software, data entry, telephone etiquette, filing, and other related topics.

BRIDGES Program:

Building Resilient Individual Development Goals with Education and Support (BRIDGES) is a job retention/career advancement program created by the Transitional Workforce Department, made possible through a Prevention, Retention, and Contingency Development Reserve Fund (PRC-DR) contract with the Franklin County Department of Job and Family Services. Its purpose is to

enable low-income working adults to obtain experience and training that fulfills their individual career plan, thereby increasing their opportunities for career advancement.

NON-CREDIT COURSES

Transitional Workforce Academic Enhancement – TWAE
Transitional Workforce Personal Enrichment – TWPE
Transitional Workforce Career Advancement – TWCA
Transitional Workforce Workplace - TWWP

TWAE 102 - Reading Enhancement

This course is designed to focus on improving individual reading skills so students can progress into Academic Enrichment I (GED I class).

TWAE 104 - Academic Enrichment I (GED I)

Self-paced, individualized course in basic reading, writing, and mathematics planned to meet individual educational needs and provide better preparation to Academic Enrichment II (GED II) class.

TWAE 105 - Academic Enrichment II (GED II)

Designed to help prepare individuals for the State GED Examination. Strong emphasis placed on English grammar, essay writing, and math word problems. Upon successful completion individuals will receive a fee waiver from the department to take the State GED Examination.

TWAE 110 - Basic English I

Students will be introduced to English pronunciation, the alphabet, numbers, and basic literacy (reading and writing), as well as American culture as relates to life skills.

TWAE 111 - Basic English II

This is a continuation of the Basic English I course. Students will expand their abilities and knowledge in written and spoken vocabulary, questions and answers, and descriptions, using present and past tenses. Also includes a secondary emphasis on life skills, culture and reading comprehension.

TWAE 112 - Basic English III

Designed to increase participants' working knowledge of English vocabulary through oral and written practice, while improving their reading comprehension and understanding of English structure and usage. Focus on expanding each individual's passive and active English vocabulary skills in order to improve their ability to communicate effectively in both academic and practical settings.

TWAE 200 - NET Preparation

This course is designed to improve reading comprehension skills, thereby preparing students for success with the Nurse Entrance Test (NET).

TWPE 100 - Lifestyle Management Seminar

This course will discuss topics such as self-empowerment, time management, stress/anger management, assertive communications, and personal health issues.

TWPE 109-01 - Money Management I

This course will provide an introduction to financial planning, important principles of personal finance, and the specifics of managing expenditures.

TWPE 109-02 - Money Management II

This course will emphasize income and asset protection, investment fundamentals, portfolio management, stocks, bonds, mutual funds, buying and selling securities, and real estate and advanced portfolio management.

TWCA 100 - Career Development

Emphasizes the principles of career enhancement, including resume writing, cover letters, and thank you letter techniques. Effective interviewing techniques and dress for success skills also covered. Internet job search and other employment strategies included.

TWCA 101 - Team Building

Designed to provide individuals with the skills necessary to focus on long-term team development, mission and visions clarification, group problem solving and goal setting.

TWWP 202 - Nurses Aide Preparation

The state tested nursing aide training (STNA) program places emphasis on long term patient care in preparation for State of Ohio certification testing. The STNA course includes 60 hours of classroom instruction and 16 hours of clinicals.

TWWP 102 - Service Relations Methods

Provides adequate preparation to interact effectively with consumers by phone or in person. Preparation consists of increase understanding of the consumer service industry, current trends, and fundamental skills needed to achieve excellence.

TWWP 154 - Introductory to Office Skills

This course will focus on topics such as identifying correct keying methods, telephone usage, office equipment usage, word-processing, mail distributions, office etiquette, and computer skills needed to work in an office setting.

Entrepreneur Workforce and Real Estate Programs

Carl Hemmeler, Administrator

(614) 287-2447 or (614) 287-5948

This department provides courses that meet the needs of the self-employed: the small business owner, the micro-enterprise owner, or the entrepreneur and their employees. Central Ohio business owners and educators join forces to package the latest technology into non-credit classes and seminars designed to fit into your schedule. We keep pace with the needs of the self-employed to create and implement classes rich in practical information and technical training. Classes are open to anyone seeking greater expertise in business related arenas.

The surest way to advancement or success is through education. We can help you achieve your personal and professional goals through quality educational enrichment. To access the department website, visit www.csc.edu, click on Community Education and Workforce Development, then Entrepreneur Workforce and Real Estate Programs.

The following is a sampling of classes offered through this department.

ENW101

Exploring Small Business is a one-day, non-credit seminar providing an overview of business planning and start-up issues essential to the effective management and development of a business. Issues include an entrepreneurial self-assessment, market research, financial projections, and budgeting. Bring your business idea to this seminar and test its feasibility and your qualifications.

ENW106

Micro-Enterprise Business Plan Development is a comprehensive, 15-week course that guides the potential business-owner through a useable business plan. The business plan is the backbone of a new business. Investors will automatically ask for yours—is it ready? Design your winning business plan and explore self-employment. Rely on the experience and advice of mentors and micro-enterprise counselors throughout this course.

ENW 107

Micro-Enterprise Business Start-ups is a dynamic 12-week course providing a practical, hands-on approach to developing your small business idea. Students will confront issues such as what it takes to be a successful entrepreneur, how to select the best business entry strategy, how to research and market your business, how to understand financial needs and how to get funding for your business idea while developing a working business plan.

ENW110

Got Web? is a nine-hour course designed to familiarize students with Internet terms, laws of internet marketing, establishing a Web presence, web site page elements, search engines, using HTML, and Front Page 2000. Students use a Columbus State computer lab and internet hookup. Establish your company's image on the Web.

ENW140

Frannet Franchising Seminar answers important questions for those considering purchasing a franchise. Objective, professional advice from experienced franchise experts and lenders regarding your financial safety and professional success. This free seminar is open to the public. Call (614) 287-5948 to register.

ENW150

Home Inspection Course provides everything you need to know to become a home inspector. Students use their accumulated skills, experience and knowledge to reinvent themselves as home inspectors. Learn what it takes to start your new home inspection business as you network with other students, perform actual inspections, and submit inspection reports.

Real Estate Programs

Carl Hemmeler, Administrator

(614) 287-2447 or (614) 287-5397

Established with a private donation, the Mary Jo and A. Robert Kent Real Estate Resource Center is home to students interested in learning about the business of real estate. Many go on to become licensed real estate agents or brokers. Students may choose pre-licensing classes or degree programs in real estate or related fields. In addition to pre-licensing classes, Columbus State offers real estate continuing education classes and:

REAL 290

Real Estate Sales Post-License Course fulfills the 10-hour requirement by the State of Ohio and covers the following topics: the housing market today, future trends impacting real estate markets, license law matters, legal matters, environmental concerns, real estate specialties, the image of real estate licensees, finance, taxes, and legislation.

REAL 291

Real Estate Broker Post-License Course fulfills the 10-hour requirement by the State of Ohio and covers the following topics: the housing market today, future trends impacting real estate markets, license law matters, legal matters, environmental concerns, real estate specialties, the image of real estate licensees, finance, taxes, and legislation.

Tech Prep/Heart of Ohio Consortium

Connie Faddis, Director

(614) 287-2452

Administered by Learning Systems, Columbus State houses the Tech Prep/Heart of Ohio Consortium's central office and acts as fiscal agent. Columbus State is a founding member of the Heart of Ohio Tech Prep Consortium. Since 1992, the college and its consortium partners – 33 high schools, two regional campuses of Ohio University, and central and southern Ohio businesses, industries and labor organizations – have worked together to offer high quality Tech Prep programs.

Students who choose Tech Prep in 11th grade enter a seamless curriculum for two years of high school, moving directly into an advanced skills Associate Degree program at Columbus State. Tech Prep college programs are currently available in architecture, automotive technology, business management, civil engineering technology, construction management, electronic engineering technology, environmental technology, graphic communications, heating, ventilation and air conditioning, landscape design/build, mechanical engineering technology, medical assisting, microcomputing, multi-competency health and office administration.

DISTANCE LEARNING/ GLOBAL CAMPUS

Distance Learning/Global Campus

Distance Learning at Columbus State “Learning Anytime, Anywhere”

Now you can take your courses over the Web, on video tape, and via interactive television.

“**Global Campus - Distance Learning at Columbus State**” is the name of Columbus State’s distance education program. Distance Learning through Columbus State’s Global Campus is a unique alternative to traditional on-campus courses. It utilizes a variety of technologies, including the Internet and electronic communications, computer technologies, and video-based programming. Students enrolled in a Global Campus course are able to interact with the class instructor and classmates through Internet-based communications. Intended to provide greater access and flexibility to college coursework, this method of delivery allows students from around the city, to around the globe, the capability of learning together without the limits of place and time. Visit the Global Campus Website (<http://global.csc.edu>) for additional information regarding courses and degree options via distance learning, or consult the Quarterly Schedule of Classes.

Video-based courses (television and videotape courses) offer access to learning via television and videotape. Assignments are based on televised programs, accompanying textbooks and provided course materials. Students communicate with the instructor in one or more of the following ways: campus meeting, office hours, telephone, fax, and e-mail. Most tests are administered on campus. These courses are televised on WOSU-TV and Educable, over the Columbus area cable systems. They are also available on videotape for viewing or renting at Columbus State’s Library (Columbus Hall) or you can rent your tapes on the Web at <http://bookstore.csc.edu>.

Web-based courses (online courses) allow students to take credit classes at their convenience to meet degree or certificate requirements, or increase workplace skills and knowledge. All classes are taught using the Internet and e-mail. Students need a computer, modem, and an Internet Service Provider, like CougarNet, Columbus State’s Internet access solution for students. Students without their own computers can use selected computer labs around campus or at the off-campus centers. In addition to our college credit coursework, Global Campus offers web-based continuing education in many professional and technical skill areas. Visit the Global Campus and click on Skills for a Changing World for more information.

Video Conferencing Courses (Courses over interactive television, where the instructor is at one site and connected to one or more additional sites) give learners a chance to take courses at the most convenient location. This dynamic technology takes learning into the 21st century. You will be in a class of other learners and will interact with your instructor over a live television connection.

“**Going the Distance**” - Degrees offered through distance learning are available for Associate of Arts degree and the Associate of Applied Science in Business Management. For course curriculum and requirements, visit the Global Campus Website.

Regional Learning Network

The Regional Learning Network is an agreement between Columbus State Community College, Edison Community College, Clark State Community College and Southern State Community College to share curriculum between these institutions giving you access to their Distance Learning courses and degree programs. For more information contact anyone of the colleges listed or go to <http://global.csc.edu> click on Distance Learning then RLN.

Ohio Learning Network

The Ohio Learning Network is a partnership of Ohio’s colleges and universities using technology to enhance distance learning. It offers access to distance education through the OhioLEARNS! Catalog. The Ohio Learning Network can be found on line at www.olin.org

Who should take a distance learning course?

Distance learning courses require a high degree of commitment on the part of the learner. Because there are no structured meeting times, and no regular instructor contact, distance learning means the student must be independent and self-motivated.

A calendar of deadlines and due dates has been established for Global Campus courses. If you follow these dates closely, completing assignments and required readings, your level of success in a distance course will increase. If you tend to wait until the last minute to complete projects - or prefer learning where there are more opportunities for personal interaction - this may not be the best approach to completing college-level coursework.

Global Campus Courses

The following is a list of credit courses. Please consult the *Quarterly Schedule of Classes* for additional distance learning courses added throughout the year.

ACCT 106	Introduction to Accounting I	HIMT 270	Certified Case Manager
ACCT 107	Introduction to Accounting II	HOSP 107	Food Principles
ANTH 200	Introduction to Anthropology	HOSP 121	Hospitality Industry Computer Applications
AVI 115	Aircraft Maintenance	HOSP 143	Hospitality and Travel Law
BIO 100	Introduction to Biological Sciences	HOSP 145	Lodging Operations

Baccalaureate Degree Completion Programs via Distance Learning

These programs allow students who have completed their Associate Degree at Columbus State, to complete a related Bachelor degree via distance learning from the following universities:

Franklin University

- Bachelor of Science in Business Administration
- Bachelor of Science in Technical Administration
- Bachelor of Science in Computer Science
- Bachelor of Science in Management of Information Systems
- Bachelor of Science in Health Services Administration

University of Cincinnati

- Bachelor in Liberal Arts and Social Sciences-Addiction Studies

Miami University

- Bachelor in Applied Science/Major Electro-Mechanical Engineering

Toledo University

- Bachelor of Science in Electronic Engineering and Computer Science

PROGRAMS OF STUDY & COURSE DESCRIPTIONS

Programs of Study & Course Descriptions

Career & Technical Programs

Associate of Applied Science
Associate of Technical Studies
Certificate Programs

Technical degree programs are designed to prepare students for immediate employment upon graduation. Programs of Study can be completed within two years for students enrolled full-time. Agreements have been made with Ashland University, Capital University, DeVry Institute of Technology, Franklin University, Ohio Dominican College, Otterbein College, Shawnee State University, the University of Akron and Wilberforce University which enable technology students to complete baccalaureate degrees within two years of full-time study at those institutions. Technology Specific 2+2 Agreements for the Associate of Applied Science to the BA/BS degrees have been developed with Circleville Bible College, DeVry Institute of Technology, Embry-Riddle Aeronautical University, Florida International University, Miami University of Ohio, Mount Carmel College of Nursing, Mount St. Joseph College, Ohio University, University of Rio Grande, the University of Cincinnati, The Ohio State University and the University of Toledo. Bachelor degree completion information is available from the academic departments and the Counseling Center.

Within many of the technologies, short-term certificate programs are offered which qualified students can complete in less than two years.

General Education

Central to the mission of Columbus State Community College is the provision of general education studies as an integral part of all degree programs. General education refers to the measurable knowledge and skills that serve as the foundation to success within all programs of study and throughout life. General education is not an end in itself, but a means to continuing and enhancing education throughout life by enabling the students to:

- Think critically
- Solve problems
- Communicate effectively
- Recognize the value of human diversity
- Demonstrate interpersonal skills
- Demonstrate life management skills

Computational and computer literacy skills appropriate to the program of study are included in the degree requirements for program. Student competence in these areas is assessed throughout the curriculum and at the end of the student's academic program.

Arts and Sciences/ Transfer Programs

Associate of Arts
Associate of Science

The Ohio Transfer Module

The Associate of Arts and Associate of Science degrees are specifically designed to allow for the transfer and application of all credits earned at Columbus State to the bachelor degree requirements of most colleges and universities. Specific agreements have been made with colleges at The Ohio State University, Antioch College, Ashland University, Capital University, Central State University, Franklin University, Mount Carmel College of Nursing, Ohio Dominican College, Otterbein College, Shawnee State University, the University of Akron, the University of Toledo, and Wilberforce University which guarantee admission and the application of all courses taken in the Associate of Arts and Associate of Science degree programs at Columbus State to the bachelor degree requirements at those institutions. Guides for course selection to meet specific requirements at these schools are available in the Columbus State Counseling and Advising Center or from the Dean of Arts and Sciences.

Completion of the Associate of Arts and Associate of Science degrees at Columbus State ensures completion of the Ohio Transfer Module. This guarantees the application of a minimum of 60 quarter hours to the general education requirements of all state supported institutions in Ohio. Those students who complete the AA or AS degree are to be given preferential consideration for admission to Ohio public colleges.

The Associate of Science Degree is different from the Associate of Arts Degree primarily in the level of mathematics required. The Associate of Science Degree requires completion of Calculus and Analytical Geometry II, which is the foundation for further study in advanced physics, chemistry, mathematics and engineering. Careers in the biological and health sciences may not require this level of mathematics.

Upon completion of the Associate of Arts or Associate of Science degree, the graduate will be able to:

- Read and listen critically and with understanding.
- Write and speak clearly and effectively in standard English.
- Analyze ethical issues and value conflicts and adopt a defensible resolution to those issues.
- Discuss current social and political problems in their cultural and historical contexts and suggests remedies to such problems.
- Critically review works of art and music in the context of the society which produced them.

- Discuss the nature, role, and impact of technology on the environment and society.
- Apply mathematics and reasoning skills to solve problems.
- Explain public policy issues from the viewpoints of psychology, economics, sociology, and potential science.
- Apply the scientific method to examine nature and interpret everyday experiences.

Graduation Requirements: Catalog Rights

In order for a student to be considered a candidate for an associate degree, he/she must have completed all the requirements for that degree as described in the college Catalog in effect at the time the student enrolled in the program leading to that degree. If the requirements for the degree change while the student is enrolled in a degree program, the original requirements will apply to the student until he/she earns the degree or for a period of twelve quarters from the time the student initially enrolled in the program. If the student does not receive a degree within twelve quarters of initial enrollment, and there is a change in the degree requirements, the Provost for Learning Systems shall decide what requirements the student shall meet in order to be awarded a degree.

Graduation Requirements: Associate of Arts and Associate of Science Degrees

1. All students must satisfactorily complete at least 92 credit hours of approved courses, a minimum of 35 hours of which must be completed at Columbus State. Approved courses are designated below. Satisfactory completion requires a final grade of A, B, C, or D. Transfer credit may be awarded for courses in which a "C" or better has been earned at other accredited institutions if the course level equivalencies have been approved by the Dean of Arts and Sciences. Courses listed in the "Transfer Module" of an Ohio college, have been pre-approved for credit toward a Columbus State degree. Credits by examination, proficiency credit, non-traditional credit, and transfer credit do not apply toward meeting residency credit hour requirements.
2. All students must attain an overall grade point average of 2.0 or better for all credit courses at the 100 level or above taken at Columbus State. Grade point averages are calculated on the following scale: A=4, B=3, C=2, D=1, E=0. Number equivalencies are not assigned for grades other than these.
3. All students must complete the following General Education Requirements for the Associate of Arts or the Associate of Science degrees.
4. All students must file a "Petition to Graduation" during the quarter preceding their graduation quarter. Refer to page 28 of this Catalog for complete details.

ENGL 190 Freshman Seminar – 2 hours Required for all new degree seeking students or students new to Columbus State with less than 15 applicable hours of transfer credit from their previous

college. Students are to take this course in conjunction with ENGL 101 or ENGL 111. Topics should be chosen according to the student's interest.

Communication Skills-12 quarter hours minimum

College Composition - (5-6 hours required)

ENGL 101	Beginning Composition (3 hours) and
ENGL 102	Essay and Research (3 hours) or
ENGL 111	English Composition (5 hours)

(Students who place into ENGL 111 may take ENGL 111 instead of ENGL 101 and ENGL 102.)

Composition and Literature (3-5 hours required)

Students who complete ENGL 111 must take a five-hour Composition and Literature course. Additional courses in this category may not be taken as elective hours.

ENGL 220	Introduction to Literature (3 hours)
ENGL 250	Writing About the Amer. Exp. (5 hours)
ENGL 251	The American Identity (5 hours)
ENGL 252	Images of Men & Women in Amer. (5 hours)
ENGL 253	American Regional Writing (5 hours)

Oral Communication (3 hours required)

COMM 105	Speech (3 hours)
COMM 110	Conference and Group Discussion (3 hours)
COMM 115	Oral Interpretation (3 hours)

Mathematical and Logical Analysis - Associate of Arts Degree requires 10 quarter hours, 5 must be in mathematics. The remaining 5 hours may be from mathematics, statistics, logic, or computer programming. The Associate of Science Degree requires completion of MATH 152.

Mathematics

MATH 125	Mathematics in the Modern World (5 hours)
MATH 148	College Algebra (5 hours)
MATH 150	Precalculus (5 hours)
MATH 151	Calculus and Analytical Geometry I (5 hrs)
MATH 152	Calculus and Analytical Geometry II (5 hrs)
MATH 153	Calculus and Analytical Geometry III (5 hrs)
MATH 254	Multivariable Calculus (5 hours)
MATH 255	Elementary Differential Equations I (5 hrs)
MATH 268	Elementary Linear Algebra (5 hours)
MATH 285	Ordinary and Partial Differential Equations (6 hrs)
MATH 130	Mathematical Analysis for Business I (5 hours)
MATH 131	Mathematical Analysis for Business II (5 hours)
MATH 132	Business Calculus (5 hours)

Statistics

MATH 135	Elementary Statistics (5 hours)
MATH 233	Statistics for Business (5 hours)
MATH 277	Probability and Statistics I (5 hours)
MATH 278	Probability and Statistics II (5 hours)

Formal Logic

PHIL 150	Introduction to Logic (5 hours)
PHIL 250	Symbolic Logic (5 hours)

Computer Programming

CPT 111	Programming 1 (5 hours)
CPT 112	Programming 2 (5 hours)
CPT 201	Cobol I (5 hours)
CPT 202	Cobol II (5 hours)
CPT 205	Interactive Cobol (5 hours)
CPT 221	Database Programming (3 hours)
CPT 225	Database Systems (3 hours)
CPT 251	Intro. to C++ Programming (5 hours)
CPT 252	Advanced C++ Programming (5 hours)

Biological and Physical Sciences

Associate of Arts - 15-20 hours

Option 1: (15 hours) NSCI 101, NSCI 102, and NSCI 103.

Option 2: 20 hours from the following approved lists. At least one course must be from the Biological Sciences and at least one course must be from the Physical Sciences.

Associate of Science - 25 hours

Option 1: NSCI 101, NSCI 102, and NSCI 103, and 10 additional hours of mathematics above the level of MATH 152 Calculus and Analytic Geometry II or 10 additional hours of laboratory science from the following approved lists.

Option 2: 25 hours of laboratory science from the following approved lists, including one approved 10-hour sequence. At least one course must be taken from the Biological Sciences and at least one course must be from the Physical Sciences.

Option 3: 15 hours of laboratory science from the approved lists and **10 hours** of mathematics above the level of MATH 152 Calculus and Analytic Geometry II.

Approved 10-hour Sequences

Physical Sciences

CHEM 111 & 112
CHEM 171 & 172
PHYS 117 & 118
PHYS 177 & 178

Biological Sciences

BIO 111 & BIO 112
BIO 111 & BIO 115
BIO 111 & BIO 126
BIO 111 & BIO 127
BIO 111 & ANTH 200
BIO 161 & BIO 169
BIO 174 & BIO 175

Approved Individual Courses

Physical Sciences

CHEM 113 (5 hours)
CHEM 173 (5 hours)
CHEM 251 (5 hours)
CHEM 252 (5 hours)
CHEM 253 (5 hours)
CHEM 261 (5 hours)
GEOL 101 (5 hours)
GEOL 121 (5 hours)
PHYS 119 (5 hours)
PHYS 179 (5 hours)

Biological Sciences

ANTH 200 (5 hours)*
ANTH 240 (5 hours)*
BIO 104 & 105 (5 hours)
BIO 115 (5 hours)
BIO 125 (5 hours)
BIO 126 (5 hours)
BIO 127 (5 hours)
BIO 161 (5 hours)
BIO 169 (5 hours)
BIO 170 (5 hours)
BIO 201 (5 hours)
BIO 205 & 206 (6 hours)

*Note: Students may not use ANTH 200 and ANTH 240 to satisfy both Biological Science and Social Science Requirements.

Social and Behavioral Sciences – 15-20 hours

Option I: 15 quarter hours - choose three from:

SSCI 101 Cultural Diversity (5 hours)
SSCI 102 America in Transition (5 hours)
SSCI 103 Social Problems (5 hours)
SSCI 104 World Economic Geography (5 hours)

Option II: 20 quarter hours from at least two areas:

Integrated/Interdisciplinary

SSCI 101 Cultural Diversity (5 hours)
SSCI 102 America in Transition (5 hours)
SSCI 103 Social Problems (5 hours)
SSCI 104 World Economic Geography (5 hours)

Economic/Geography

ECON 100 Introduction to Economics (5 hours)
ECON 200 Principles of Microeconomics (5 hours)
ECON 240 Principles of Macroeconomics (5 hours)
GEOG 200 World Regional Geography (5 hours)
GEOG 207 Intro to Geographic Info Systems (5 hours)

Political Science

POLS 101 Intro to American Government (5 hours)
POLS 165 Intro to Politics (5 hours)
PSY 100 Introduction to Psychology (5 hours)
PSY 200 Educational Psychology (5 hours)
PSY 230 Abnormal Psychology (3 hours)
PSY 235 Psychology of Adjustment (3 hours)
PSY 240 Human Growth and Development (4 hours)
PSY 261 Introduction to Child Development (5 hours)
PSY 267 Social Psychology (5 hours)

Sociology/Anthropology

ANTH 200 Intro to Physical Anthropology (5 hours)*
ANTH 201 World Prehistory (5 hours)
ANTH 202 Intro to Cultural Anthropology (5 hours)
ANTH 240 Intro to Forensic Anthropology (5 hours)*
SOC 101 Introduction to Sociology (5 hours)
SOC 210 Sociology of Deviance (5 hours)
SOC 230 Marriage and Family Relations (5 hours)
SOC 280 American Race and Ethnic Relations (5 hours)

*Note: Students may not use ANTH 200 and ANTH 240 to satisfy both Biological Science and Social Science Requirements.

Humanities- 15 quarter hours -

Option I:

HUM 111 Civilization I (5 hours)
HUM 112 Civilization II (5 hours)
HUM 113 Civilization III (5 hours)

Option II:

HUM 111 Civilization I (5 hours)
HUM 151 American Civilization to 1877 (5 hours)
HUM 152 American Civilization since 1877 (5 hours)

4. Elective Requirements – 15-20 hours

Associate of Arts students select a minimum of 20 elective hours. Associate of Science students select a minimum of 15 hours. Students may complete their degree requirements from any of the courses listed above, or below in the Transfer Module. In addition students may select electives from the following:

Business Related: ACCT 106 & 107, BMGT 111, BMGT 219, LEGL 261, 262, & 264.

Foreign Languages: Arabic, French, German, Italian, Japanese, Latin, or Spanish,

Creative Writing: ENGL 281 through ENGL 285,

Humanities and Fine Arts: Any courses listed under ART, COMMUNICATIONS, DANCE, HISTORY, HUMANITIES, MUSIC, THEATER, or ENGL 208 through 215, ENGL 225 through 245, ENGL 260 through 278, ARCH 100, MECH 120, and MECH 251.

Mathematics: MATH 105 & 106

Other elective options may be chosen from pre-approved lists available from the Counseling Center or the Dean of Arts and Sciences. Careful selection of Columbus State “elective” courses can ensure the greatest applicability of Columbus State credits to the requirements for a baccalaureate degree. Students should consult a specific college transfer guide or University Parallel Guide available from the Counseling Center or the Dean of Arts and Sciences. On-line advising support is available at csc.edu. Go to Arts and Sciences Home Page, Course Applicability System (CAS).

5. A&S 290 Capstone Experience - 3 hours. Within the last 2 quarters prior to graduation, students must complete a “Capstone” course in the discipline of their intended major at a baccalaureate institution, e.g., BIO 290, ENGL 290, etc.

6. Complete a Petition to Graduate the Quarter prior to Graduation.

Ohio Transfer Policy

The Ohio Board of Regents has established the Transfer Module, which is a specific set of courses from a college or university's general education requirements. The Transfer Module contains 54-60 quarter hours (or 36-40 semester hours) of course credits in English composition, mathematics, fine arts, humanities, social science, behavioral science, natural science, physical science and interdisciplinary courses.

A Transfer Module completed at one public college or university will automatically meet the requirements of the Transfer Module at the receiving institution, after the student has been accepted. Students may be required to meet additional general education requirements that are not included in the Transfer Module. Since private colleges and universities in Ohio may or may not be participating in the Transfer Module policy, students are encouraged to check with the college of their choice regarding their transfer agreements.

Students who complete Columbus State's degree requirements in Communication Skills, Mathematics, Humanities, Biological and Physical Sciences, and Social and Behavioral Sciences will automatically have completed the Transfer Module.

Transfer Module

English Composition -

College Composition - 5 - 6 hours required

ENGL 101	Beginning Composition (3) and
ENGL 102	Essay and Research (3) or
ENGL 111	English Composition (5)

Literature-based Composition - select one course (students with credit for ENGL 111 must take a 5 hour course).

ENGL 220	Introduction to Literature (3)
ENGL 250	Writing About the American Experience (5)
ENGL 251	The American Identity (5)
ENGL 252	Images of Men and Women in America (5)
ENGL 253	Regional American Writing (5)

Mathematics and Logical Analysis - select a minimum of one course

Mathematics - 5 hours required

MATH 125	Mathematics in the Modern World (5)
MATH 130	Mathematical Analysis for Business I (5)
MATH 131	Mathematical Analysis for Business II (5)
MATH 132	Business Calculus (5)
MATH 148	College Algebra (5)
MATH 150	Precalculus (5)
MATH 151	Calculus and Analytic Geometry I (5)
MATH 152	Calculus and Analytic Geometry II (5)
MATH 153	Calculus and Analytic Geometry III (5)
MATH 254	Multivariable Calculus (5)
MATH 255	Elementary Differential Equations (5)
MATH 266	Discrete Mathematical Structures (5)
MATH 268	Elementary Linear Algebra (5)
MATH 285	Ordinary and Partial Differential Equations (6)

Biological and Physical Sciences - select Option I or Option II

OPTION I:

Integrated/Interdisciplinary

NSCI 101	Natural Science I (5)
NSCI 102	Natural Science II (5)
NSCI 103	Natural Science III (5)

OPTION II: select three courses from at least two areas

Biological Sciences

BIO 111	Introductory Biology I (5)
BIO 112	Introductory Biology II (5)
BIO 115	General Microbiology (5)
BIO 125	General Botany (5)
BIO 126	Introduction to Ecology (5)
BIO 161	Human Anatomy (5)
BIO 169	Human Physiology (5)
BIO 174	Biological Sciences I (5)
BIO 175	Biological Sciences II (5)
BIO 201	Animal Diversity and Systemics (5)

Physical Sciences

CHEM 111	Elementary Chemistry I (5)
CHEM 112	Elementary Chemistry II (5)
CHEM 113	General and Biological Chemistry (5)
CHEM 171	General Chemistry I (5)
CHEM 172	General Chemistry II (5)
CHEM 173	General Chemistry III (5)
GEOL 121	Physical Geology (5)
PHYS 117	College Physics - Mechanics and Heat (5)
PHYS 118	College Physics - Elect, Magnetism & Light (5)
PHYS 119	College Physics - Modern Physics (5)
PHYS 177	General Physics I (5)
PHYS 178	General Physics II (5)
PHYS 179	General Physics III (5)

Arts/Humanities - select Option I or Option II

OPTION I: select one of the Civilization sequences

Integrated/Interdisciplinary

HUM 111	Civilization I (5) and
HUM 112	Civilization II (5) and
HUM 113	Civilization III (5) or
HUM 111	Civilization I (5) and
HUM 151	American Civilization to 1877 (5) and
HUM 152	American Civilization since 1877 (5)

OPTION II: select three courses from at least two areas

Interdisciplinary

HUM 205	Medicine and the Humanities (5)
HUM 222	Classical Mythology (5)
HUM 245	Music and Art Since 1945 (5)

Western Arts

ART 101	History of Western Art (5)
MUS 101	History of Western Music (5)
THEA 100	Introduction to the Theater (5)

Philosophy

PHIL 101	Introduction to Philosophy (5)
PHIL 130	Ethics (5)
PHIL 270	Philosophy of Religion (5)

World/Non-Western Cultures

HUM 251	History of Latin America (5)
HUM 252	The Islamic World and the Middle East (5)
HUM 253	History of China and Japan (5)
HUM 254	Introduction to African Literature (5)
HUM 270	Comparative Religions (5)

Literature

ENGL 230	Introduction to Dramatic Literature (5)
ENGL 235	Introduction to Poetry (5)
ENGL 240	Introduction to Science Fiction (3)
ENGL 262	Survey of British Literature (5)
ENGL 264	Introduction to Shakespeare (5)
ENGL 265	Modern European Lit. in Translation (5)
ENGL 270	Black American Writers (5)
ENGL 272	Introduction to Folklore (5)
ENGL 276	Women in Literature (5)
ENGL 274	Introduction to Non-Western Literature (5)

Social and Behavioral Sciences - select Option I or Option II

OPTION I: select three courses from the following

Integrated/Interdisciplinary

SSCI 101	Cultural Diversity (5)
SSCI 102	America in Transition (5)
SSCI 103	Social Problems (5)
SSCI 104	World Economic Geography (5)

OPTION II: select three courses from at least two areas

Economics/Geography

ECON 100	Introduction to Economics (5)
ECON 200	Principles of Microeconomics (5)
ECON 240	Principles of Macroeconomics (5)
GEOG 200	World Regional Geography (5)

Political Science

POLS 101	Introduction to American Government (5)
POLS 165	Introduction to Politics (5)

Psychology

PSY 100	Introduction to Psychology (5)
PSY 200	Educational Psychology (5)
PSY 230	Abnormal Psychology (3)
PSY 235	Psychology of Adjustment (3)
PSY 240	Human Growth and Development (4)
PSY 261	Introduction to Child Development (5)
PSY 267	Social Psychology (5)

Sociology/Anthropology

ANTH 200	Introduction to Physical Anthropology (5)
ANTH 201	World Prehistory (5)
ANTH 202	Introduction to Cultural Anthropology (5)
ANTH 240	Forensic Anthropology (5)
SOC 101	Introduction to Sociology (5)
SOC 210	Sociology of Deviance (5)
SOC 230	Marriage and Family Relations (5)
SOC 280	American Race and Ethnic Relations (5)

Conditions for Transfer Admission

Students who meet the Transfer Module requirements are subject to the following conditions:

1. The policy encourages receiving institutions to give preferential consideration for admission to students who complete the Transfer Module and either the Associate of Arts or the Associate of Science degrees. These students will be able to transfer all courses in which they received a passing grade of "D" or better. Students must have an overall grade point average of 2.0 to be given credit for the Transfer Module.
2. The policy also encourages receiving institutions to give preferential consideration for admission to students who complete the Transfer Module with a grade of "C" or better in each course and 90 quarter hours or 60 semester hours. Students

must have an overall grade point average of 2.0 to be given credit for the Transfer Module. For individual courses, only those in which a "C" or better has been earned will transfer.

3. The policy encourages receiving institutions to admit on a non-preferential consideration basis, students who complete the Transfer Module with a grade of "C" or better in each course, and less than 90 quarter hours or 60 semester hours. These students will be able to transfer all courses in which they received a grade of "C" or better.

Admission to a given institution does not guarantee that a transfer student will be automatically admitted to any major, minor or field of study offered at that institution. Once admitted, transfer students will be subject to the same catalog requirements as all other students. Transfer students will be accorded the same class standing and other privileges as all other students based on the number of credits earned. All residency requirements must be successfully completed at the receiving institution prior to the granting of a degree.

Responsibility of Students

Early in their college career, students should identify the major and the university they wish to transfer into from Columbus State. They should plan their course of study to meet the requirements of the degree program they wish to pursue at the receiving four-year institution. Students should determine if there are foreign language or special course requirements that can be completed in the freshman or sophomore year. Students are encouraged to consult with an academic advisor to determine their specific transfer requirements.

Appeals Process

An appeals process is required at each institution, which allows students who disagree with application of transfer credits to file an appeal. If a transfer student's appeal is denied by the institution, the student must be advised in writing how to appeal at the state level Articulation and Transfer Appeals Review Committee. This committee will recommend a resolution to each case.

The appeals process begins after the student receives a copy of the Transfer of Credit form, which indicates that some previous coursework may not be applicable to the student's new degree. The student may then appeal by asking the Director of Records and Registration for an explanation of the appeals process. The Director of Records and Registration will provide the student with additional information regarding the appeals process.

FULFILLMENT OF THE ASSOCIATE OF ARTS OR ASSOCIATE OF SCIENCE DEGREE REQUIREMENTS ASSURES FULFILLMENT OF TRANSFER MODULE REQUIREMENTS.

Columbus State Community College Transfer Agreements

Columbus State Community College has established transfer agreements with the following institutions. Please see your academic advisor for specific transfer course information.

Associate of Arts and Associate of Science Degrees to B.A. and B.S. Degrees

Antioch College
Ashland University
Capital University
Central State University
Franklin University
Mount Carmel College of Nursing
Ohio Dominican College
The Ohio State University - All Colleges
Otterbein College
Shawnee State University
University of Akron
University of Cincinnati- School of Planning, College of Design, Art, Architecture and Planning
University of Toledo
Wilberforce College

2 + 2 Agreements for all Degree Programs

Ashland University
Capital University
Central State University
Devry Institute of Technology
Franklin University
Ohio Dominican College
Otterbein College
The University of Akron
Wilberforce University
Shawnee State University

Guaranteed Admission to all Graduates of Columbus State (AA,AS, or AAS)

Ashland University
Central State University
Ohio Dominican College
Otterbein College
Shawnee State University
The University of Akron
Wilberforce University

Technology Specific Agreements for Associate of Applied Science Degrees

Circleville Bible College:

Accounting Technology
Business Management Technology
Early Childhood Development Technology
Nursing Technology

Devry Institute of Technology:

Accounting Technology
Business Management Technology
Computer Programming Technology
Electronic Engineering Technology

Embry-Riddle Aeronautical University:

Aviation Maintenance Technology

Florida International University:

Hospitality Management to Hotel and Food Service Mgmt.

Miami University:

Electronic Engineering Technology
Electro-Mechanical Engineering Technology
Mechanical Engineering Technology

Mount Carmel College of Nursing

A.A.S. in Nursing to B.S. in Nursing

Mount St. Joseph College:

All A.A.S. degrees in Health, Human and Public Services

Ohio University:

Hospitality Management to Hotel and Food Service Mgmt.

University of Cincinnati

Chemical Dependency to Addictions Major, Sociology

University of Rio Grande:

Associate of Science Degree to B.S. in Mathematics

University of Toledo

Electronics Engineering Technology to Computer and Information Science Technology

The Ohio State University:

Mechanical Engineering to Industrial Tech. Education
Mechanical Engineering to Welding Engineering

Graduation Requirements: Associate of Applied Science Degree

Requirements of All Graduates

1. The satisfactory completion of 90-110 quarter credit hours as required by the particular program.
2. The attainment of a "C" (2.00) average in all technical courses and a "C" (2.00) average in all non-technical courses.
3. The completion of no fewer than 35 of the required credit hours, including no fewer than 20 credit hours in technical courses approved by the department chairperson, while in attendance at Columbus State Community College. Credits by examination/proficiency, non-traditional credit, and transfer credit do not apply toward meeting residency credit hour requirements.
4. All students must file a "Petition to Graduation" during the quarter preceding their graduation quarter. Refer to page 28 of this Catalog for complete details.

General Education Requirements

1. 12 credit hours in English/Communication Skills : ENGL 101, ENGL 102 (students placing into ENGL 111 can take ENGL 111 instead of ENGL 101 AND ENGL 102), COMM 105, COMM 110 or COMM 115 (depending on the technology requirement), and one of the following three courses: ENGL 204, ENGL 202, or ENGL 200.
2. Five credit hours in Humanities: HUM 111, HUM 112, HUM 113, HUM 151, HUM 152, or HUM 224.

3. Five credit hours in Social and Behavioral Sciences for students in Engineering and Health and Human Services degree programs: SSCI 101, SSCI 102, SSCI 103 or SSCI 104.
Five credit hours in Biological and Physical Sciences for students in the Business and Public Services degree programs: NSCI 101 or BIO 104 & 105.
Following are exceptions to this requirement:
 - a. Mental Health/Chemical Dependency/Mental Retardation students must take BIO 112 to fulfill the requirement.
 - b. Early Childhood Development, and Interpreting/Transliterating students must take NSCI 101 or BIO 104 & 105 to fulfill the requirement.
 - c. Computer Programming, Microcomputing, Dietetic Technician Major, EDP Auditing and Medical Office Administration students must take SSCI 101, SSCI 102, SSCI 103 or SSCI 104 to fulfill the requirements.

Basic Studies Requirements

Each technical program requires completion of at least 21 credit hours in basic studies. Basic studies are those that provide students with the scientific and theoretical foundations of their technology, or those that provide students with an understanding of the legal, social, economic, or political environments within which they will practice their technology. Courses that fulfill the basic studies requirements vary from program to program. They are listed in the following section, with the listings of technical program requirements.

Technical Studies Requirements

Each technical program requires completion of 45 to 67 credit hours in courses clearly identifiable with the technical skills, proficiency, and knowledge required for career competency. Technical studies requirements also vary from program to program; they are also listed in the following section, by program.

Students need to work closely with an assigned advisor to assure they meet all requirements for graduation. The student is responsible for meeting all requirements.

Graduation Requirements: Associate of Technical Studies Degree— “Designing Your Own Degree”

Application Procedures

The Associate of Technical Studies Degree program enables a student to design an individualized program of study to fulfill a unique career goal that cannot be met through the completion of any one of the College’s technical programs. This is accomplished by selecting courses from up to four different technical disciplines, thereby fashioning a coherent technical program. In order to be considered for admission to this program, an applicant must:

1. Demonstrate a level of maturity and motivation which gives promise of successfully handling the responsibilities inherent in this program.

2. Satisfy the general admission requirements of Columbus State Community College.
3. Prepare and submit the Associate of Technical Studies application which includes the proposed program of study. The Associate of Technical Studies Coordinator will assist the student in planning an Associate of Technical Studies Degree program.
4. To obtain the Associate of Technical Study application, contact Counseling and Advising Services at (614) 287-2668 or stop by the office in Union Hall, Room 048.

Graduation Requirements of all ATS Graduates

1. The satisfactory completion of 90-110 credit hours.
2. The attainment of a “C” (2.00) average in all technical courses, and a “C” (2.00) average in all non-technical courses.
3. The completion of no fewer than 35 of the required credit hours, including no fewer than 20 credit hours in technical courses approved by the department chairperson(s), while in attendance at Columbus State Community College. Credit by examination/proficiency, non-traditional credit, and transfer credit do not apply toward meeting residency credit hour requirements.
4. All students must file a “Petition to Graduate” during the quarter preceding their graduation quarter. Refer to page 28 of this Catalog for complete details.

Specific Program Requirements

In this section, the requirements for Columbus State’s programs of study are listed alphabetically by department or technology. After you have located the program you are interested in, you will find a listing of the courses to be taken. The first three or four alpha identifiers of each course number indicate which department offers the course. For example, course numbers beginning with EET are all from the Electronic Engineering Technology and VET indicates Veterinary Technician Technology. A chart in the Course Description Section shows all the departments and their corresponding numbers.

Course descriptions can be found in the next section of the Catalog listed alphabetically by department.

Honors Program

Columbus State offers an honors program for eligible students. Honor courses offer students more challenging, faster-paced coursework. Courses in English, humanities, and social sciences will be open to students who have completed or placed into ENGL 111, and have received permission from the Director of the Honors Program. Please see the quarterly list of course offerings for the complete listing of honors courses. For more information on the honors program, please call (614) 287-5368.

Academic Programs

Columbus State's technical degree programs are offered in more than 50 career fields in the areas of business, health, engineering, human service, and public service. These programs are grouped under the heading of Career and Technical Programs. Students enrolled in these programs can attend classes on either a full- or part-time basis. Graduates receive the Associate of Applied Science or Associate of Technical Studies degree. Upon successful completion of these programs, the graduate can work as a technician or paraprofessional in his/her field.

Each of the College's career and technical programs is developed in response to needs of local employers. Many of them serve on our professional advisory committees.

Listed below (in bold) are the degree programs leading to the Associate of Applied Science. Also listed are all the majors, tracks and short-term certificate programs in each field of study.

ARTS AND SCIENCES DIVISION

Technical Communication

CAREER AND TECHNICAL PROGRAMS

Accounting

- EDP Auditing Major
- Bookkeeping Certificate
- Certificate of Accounting Concentration

Aging Services (formerly Gerontology)

- Aging Services Certificate (Business Emphasis)
- Aging Services Certificate (Human Services Emphasis)

Architecture

Automotive Technology

- Automotive Service Management Major
- Ford ASSET Program
- TechLINK Program

Aviation Maintenance Technology

- Airframe Certificate
- Powerplant Certificate

Business Management

- Business Management Major
- Small Business Management Major
- Training and Development Certificate

Civil Engineering Technology

- Surveying Certificate

Computer Programming Technology

- AS/400 Program Language Certificate
- AS/400 Operations Certificate
- Networking and Distributed Systems Certificate
- Object-Oriented Programming Certificate

Construction Management

- Estimating/Bidding Certificate
- Field Supervision Certificate
- Residential Construction Management Certificate

Dental Hygiene

Dental Laboratory Technology/Small Business Management

(Associate of Technical Studies)

- Dental Laboratory Technology Certificate

Early Childhood Development

- Child Care Administration Certificate

Electro-Mechanical Engineering Technology

Electronic Engineering Technology

- Computer Electronics Major

Emergency Medical Services Technology

- EMT-Basic Certificate
- EMT-Intermediate Certificate
- EMT-Paramedic Certificate
- EMS Administration Certificate
- EMS Rescue Certificate

EMS/Fire Science (Associate of Technical Studies)

Environmental Technology

- Health and Safety for Hazardous Waste Operations Training Program Certificate
- Water/Wastewater Technology Certificate

Facility Management

Finance

Fire Science

Gerontology (now Aging Services)

Graphic Communication Technology

- Desktop Publishing Certificate
- Graphic Communication Design Certificate

Health Information Management Technology

- Medical Coding Specialist Certificate
- Medical Transcription Certificate

Heating, Ventilating and Air Conditioning Technology

- High Pressure Boiler License Training Program Commercial Certificate
- Residential/Light Commercial Certificate

Hospitality Management

- Chef Apprenticeship Major
- Dietetic Technician Major
- Food Service/Restaurant Management Major
- Travel/Tourism/Hotel Management Major
- Dietary Manager Certificate
- Lodging Management Certificate
- Travel Industry Certificate

Human Resources Management Technology

Interactive Multimedia Production Technology

- Macromedia Web Design Series I Certificate

Interpreting/American Sign Language Education

- American Sign Language/Deaf Studies Certificate

Landscape Design/Build

Law Enforcement

- Corrections Major
- Law Enforcement Major
- Law Enforcement Management Major
- Law Enforcement Major - Academy Track

Legal Assisting

- Legal Assisting Certificate (Post Baccalaureate Option)
- Workers' Compensation Certificate

Logistics

- Purchasing Major

Marketing

- Customer Service Major
- Direct Marketing Major
- Direct Marketing Certificate
- E-Commerce Certificate

Massage Therapy

- Massage Therapy Certificate

Mechanical Engineering Technology

Medical Assisting Technology

Medical Laboratory Technology

Medical Legal Assisting (Associate of Technical Studies)

Mental Health/Chemical Dependency/Mental Retardation

- Mental Health Track
- Chemical Dependency Track
- Mental Retardation Track
- Advanced Level Chemical Dependency Certificate
- Community Living Specialist Certificate
- Entry Level Chemical Dependency Certificate
- Foster Parent Treatment Specialist Certificate

Microcomputing Technology

- Networking Technician
- PC Technician
- Web Technician
- PC Specialist Certificate

Multi-Competency Health

- EMT- Paramedic Degree Track
- Histology Degree Track
- Patient Care Degree Track
- Animal Assisted Therapy in Education Certificate
- Basic Electrocardiography Certificate
- Health Care Manager Certificate
- Histology Certificate
- Nurse Aide Training Program Certificate
- Phlebotomy Certificate
- Registered Nurse First Assistant Certificate
- Respiratory Care Rehabilitation/Home Care Certificate
- Train the Trainer Certificate

Nursing

Office Administration

- Administrative Assistant Major
- Administrative Assistant Legal Cognate
- Administrative Assistant Medical Cognate
- Word Processing Certificate

Quality Assurance Technology

Radiography

Real Estate

Respiratory Care

- Registered Respiratory Therapist Program
- Sleep Studies Certificate

Retail Management

Sports & Fitness Management

- Exercise Specialist Certificate

Surgical Technology

Technical Communication

Veterinary Technology

Accounting

Accounting Associate Degree EDP Auditing Major Certificate of Accounting Concentration Bookkeeping Certificate

Accountants, and or theoretical principles they use in their work, stand at the very center of our financial and economic activities. Economists, investors, business executives, labor leaders, bankers, and government officials all rely upon financial statements and other reports prepared by accountants to summarize and interpret the multitude of financial transactions that comprise day-to-day economic activity. The true value of an accountant is measured by his or her ability to develop and present understandable, reliable analyses of financial positions and the results of operations upon which business decisions are based.

The Accounting Associate Degree program prepares graduates for employment as accountants in business, industry, and government. Many experienced accountants become owners/operators of their own public accounting firms. The program emphasizes the use of personal computers along with manual procedures of accounting. The Accounting Associate Degree program is ideally suited to the needs of those who wish to take the Ohio CPA Examination with qualifying examinations upon graduation.

The Associate Degree major in EDP Auditing serves many student and employer requests for accounting training that emphasizes systems analysis and programming. This major fills a gap for those trained in accounting or computer science who do not have the opportunity to gain expertise in both areas without on-the-job training or pursuit of advanced degrees. Job opportunities for EDP auditing specialists exist in public accounting firms, industrial-commercial accounting departments (particularly internal auditing), and with governmental accounting employers. The program's diversity also enables graduates to seek employment in data processing management, systems analysis, programming, controlling, cost accounting, and general accounting. Graduates of this program may also qualify to take the Ohio CPA Examination through qualifying equivalency examinations.

The Certificate of Accounting Concentration is intended for individuals that currently possess a bachelor's, master's or Ph.D. in an area other than accounting and want to qualify under Ohio law to sit for the Ohio CPA exam. The 54 hours of course work recommended would provide candidates with the broadest possible knowledge of all four parts of the Ohio exam.

The one-year Bookkeeping Certificate program develops the competencies needed for success as a full-charge bookkeeper. Credits earned in the Certificate program may be applied to an Associate Degree in Accounting, EDP Auditing, or other business technologies.

Columbus State Community College is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) for the offering of its business programs that culminate in the Associate of Arts, Associate of Science, and Associate of

Applied Science Degrees.

Upon completion of the Associate Degree in Accounting, the graduate will be able to:

- Apply generally accepted accounting principles to measure, process, and communicate financial information about a business entity.
- Use accounting computer software to maintain accounting records and prepare financial statements.
- Apply theory and practical applications of job order, process, and activity based cost systems including the evaluation of actual to standard costs.
- Prepare systems flowcharts and evaluate the internal control of a business system.
- Compare and use financial statements for decision making purposes.
- Explain the purpose and standards for an independent audit.
- Explain the procedures used in applying auditing standards in conducting an independent audit.
- Prepare budgets and forecasts for financial decisions.
- Identify and describe each of the rules contained in the AICPA Code of Professional Conduct.
- Prepare individual income tax returns and research tax questions.
- Prepare federal, state, and local payroll tax returns as well as franchise and personal property tax returns.
- Demonstrate knowledge of business law as it applies to the accounting profession with an emphasis on those topics relating to the law section of the Certified Public Accountants Examination, including the professional responsibility of the C.P.A.

EDP Auditing Major

In addition to many of the Accounting competencies, a graduate majoring in EDP Auditing will be able to:

- Write, debug, test, maintain and document programs, according to a program specification, in IBM mainframe Assembly Language or Structured ANSI COBOL.
- Use an on-line editor for program development.
- Analyze an existing internal control system and reconfigure its specifications to conform to auditing software.
- Perform system analysis to improve accountability of system results.

Accounting Associate Degree

Aging Services (Gerontology)

Aging Services Associate Degree Aging Services Certificate (Human Services Emphasis)

Aging Services Certificate (Business Emphasis)

Aging Studies is the study of the process and interrelationships of physical, psychological, and social aging. This field of study emphasizes the promotion of independence and self-reliance and attempts to improve social functioning and to foster satisfying relationships between older adults and their environments.

The older population is the fastest growing age group in the nation. Steady growth is expected to continue, and by the year 2000, older persons will represent 12.6% of Ohio's total population. This increased older population has created a need for graduates trained in Aging.

In addition to the Associate Degree, the Aging Services program offers an Aging Services Certificate. This certificate is designed for individuals with previous degrees or professional credentials from accredited institutions who wish to work with older adults. The Certificate consists of 2 parts: 1) required core courses and 2) an emphasis in either Human Services or Business. Life experience credit for emphasis area courses will be evaluated on an individual basis by the program coordinator.

Graduates are prepared to work with seniors in community mental health centers, recreation centers, social service agencies, home health programs, nutrition projects, retirement communities, and Senior Housing.. The student is trained to link the elderly with community resources, assist in finding housing and case management.

Upon completion of the Associate Degree in Aging Services, the graduate will be able to:

- Recognize biological, psychological, social, and psychosexual aspects of aging.
- Acknowledge the later years as a time of growth and development.
- Assess adaptations to aging in terms of interpersonal relationships and personality.
- Support clients and families in the grieving process.
- Address the psychosocial, biological and economic needs of older women in our culture.
- Relate the demographics of a target population to program planning needs.
- Adapt interpersonal communication skills to the needs of older adults.
- Use appropriate interventions to facilitate problem solving: information and referral, advocacy, data gathering, problem identification, and care management.
- Demonstrate an understanding of legal rights of older adults related to income sources, medical services, discrimination, housing, and community services.

- Assist older adults in selecting appropriate housing environments.
- Demonstrate knowledge of diagnostic and assessment processes for organic and functional mental illness that may affect older adults.
- Demonstrate an understanding of the effects of social policy on organizational and operational structures as related to older adults.
- Use appropriate physical, social, and mental health interventions along the continuum of well-elderly to frail-elderly.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Aging Services Program:

- High school graduate or G.E.D. equivalency
- Placement into ENGL 101 - Beginning Composition
- Completion of GER 101 - Social Gerontology with a grade of "C" or above
- Completion of DEV 031- Pre-Algebra with a grade of "C" or above

Architecture

Architecture graduates assist architects and others in preparing plans and specifications. They also work for builders and contractors, land developers, remodelers, facility and property managers, and with building product manufacturers and retailers. The Columbus job market for architecture graduates is remaining strong as Columbus continues to grow.

Columbus State’s Associate Degree program in Architecture teaches manual and CAD drafting, product selection and specification, and code evaluation skills used daily in the occupation. Students in the program share common courses in materials, structures, blueprint reading and co-op work experiences with other programs in the Construction Sciences Department. This provides architecture students with a strong foundation of technical skills and a sense of teamwork required in the construction industry.

The Architecture program provides students with a solid educational background in communication skills, math, computer literacy and operations, and humanities and behavioral sciences.

Upon completion of the Associate Degree in Architecture, the graduate will be able to:

- Work with one- and two-point perspectives, shades and shadows, and free-hand drawing techniques to express relevant ideas graphically.
- Generate and organize a complete set of architectural working drawings.
- Research materials, consult with industry experts, and use CSI standards to create specifications to support the architectural drawings.
- Read and interpret information from architectural and engineering drawings for material quantity determination and estimating.
- Use building codes and standards to ensure that architectural drawings and specifications comply with legal and safety requirements.
- Utilize wood, steel, and concrete information and handbooks to detail building structures.
- Create isometric layouts of basic mechanical systems employed in commercial buildings.

Automotive Technology

Automotive Technology Associate Degree TECHLINK Program Automotive Service Management Major Ford ASSET Program

Graduates of the Associate Degree program in Automotive Technology are qualified for entry-level positions as automotive service technicians, service writers, and entry-level managers. Many persons already employed in the field use the program to progress to advanced technical or management positions, and to prepare for Automotive Service Excellence (ASE) certification examinations.

The Automotive Technology Program at Columbus State is Master Certified by NATEF, the educational branch of ASE. To receive this certification, the program was evaluated against industry standards of quality. To earn an Associate Degree, students complete 60 credit hours in automotive technical courses. These courses cover all aspects of mechanical and electrical automotive systems. Students are able to specialize by selecting courses focused on their specialty areas. These specialty areas include the eight basic areas of ASE, alternative fuels, plus service and parts department management. To earn the degree, students must complete 46 credit hours of related coursework (including communication skills, math, management skills, and computer literacy).

The program is designed to allow students to enter at the level most appropriate for their present knowledge and skills. Students with experience and/or prior training may enroll in technical courses to update and improve their knowledge and skills. Courses AUTO 061 and AUTO 062 are designed to prepare students with little experience for other technical courses. Students may receive credit in these courses by satisfactorily completing the courses, by passing proficiency exams, or by presenting evidence of ASE certification. Students who have completed a high school vocational program in Automotive Technology may also receive advanced placement through our articulation agreements with area schools. ASE certification may also be used to earn credit for additional technical courses.

Upon completion of the Associate Degree in Automotive Technology, the graduate will be able to:

- Solve automotive problems in a systematic, logical, and efficient manner.
- Diagnose and repair driveability problems on early and current car models, including those with fuel injection and computerized engine controls.
- Diagnose and repair simple and complex electrical problems.
- Diagnose and repair engine mechanical problems.
- Diagnose and repair automatic transmissions and transaxles, including total rebuilding of units.
- Diagnose and repair manual transmissions and transaxles, as well as other driveline components such as driveshafts, drive axles, and differentials.

- Precisely measure engine and other automotive parts, using the appropriate measuring instruments.
- Diagnose brake system problems and perform a complete brake service (including necessary machining).
- Diagnose and repair steering and suspension problems and properly align the suspension of all types of automobiles and light trucks, using either two- or four-wheel alignment machines.
- Diagnose and repair automotive air-conditioning systems.
- Demonstrate an understanding of basic principles needed for understanding of new technologies as they become incorporated into automobile designs.
- Make repair estimates and complete the necessary paperwork for customer service and warranty repairs.
- Apply basic business practices, including cultivation of good customer and employee relations.

TECHLINK

TECHLink is a cooperative learning program co-sponsored by the Columbus Automobile Dealers Association and the Automotive Technology Department at Columbus State. The total length of the program is 10 quarters (2 1/2 years). This includes an initial two quarters as a full-time student on campus followed by two years working at the sponsoring dealer's site under the guidance of a master technician while completing the remaining coursework at the college. This paid work experience provides students the opportunity to apply what they have learned on campus in a real-world environment and earn an income in the automotive industry while completing their college degree. The program follows the same curriculum as the Automotive Technology program. However, since students are working in dealerships as well as taking coursework on campus, the scheduling of courses is arranged to coordinate with the students' work schedule. See Mark Mitchell (287-3612), the department TechLINK advisor, for further information on course scheduling.

Graduates of the TECHLINK program meet all of the objectives of the Automotive Technology Program (listed above). In addition, the program is designed to:

- Fill the local shortage of qualified, entry-level technicians needed by area new car dealership service departments.
- Provide interested students with the skills and knowledge necessary to prepare them for a successful career in automotive repair and prepare them for A.S.E. certification.
- Provide participating students with paid industry work experience to enhance the learning experience and to enable them to successfully transition from the classroom to the workplace.
- Provide a course of study that will enable successful graduates to have the knowledge and skills necessary to develop an upward career path in automotive repair.

Automotive Service Management Major

The program is designed to prepare students for entry-level management positions in automotive service operations. Students will attain a sound foundation in the technical systems of the automobile as well as a broad spectrum of principles and practices needed in managing a repair operation. Students with experience and/or prior training may enroll in technical courses to update and improve their knowledge and skills.

Upon completion of the program students earn an Associate Degree of Applied Science in Automotive Technology. The program is designed to:

- Provide students with fundamental knowledge of the theory and operation of all automotive systems
- Provide students with a broad-based background in general business management principles and practices
- Provide students with knowledge of a wide range of current automotive-specific management practices and principles
- Prepare students for entry-level management-track positions in the automotive repair industry

Ford ASSET

The Automotive Technology Department also offers a two-year cooperative training program sponsored by Ford Motor Company. This program, called ASSET, covers the same subject areas as the Automotive Technology two-year program but is unique in two ways: (1) all lecture and lab exercises are specific to Ford Motor Company products; and (2) ASSET is eight quarters in length with students attending classes for 4 quarters and working at a dealership the remaining 4 quarters. For specific information on the Ford ASSET program, contact the Ford ASSET Coordinator. Graduates of this program receive an Associate's degree in Automotive Technology and have the opportunity to earn ASE certifications and advanced Ford certifications.

Aviation Maintenance Technology

Aviation Maintenance Technology Associate Degree Airframe Certificate Powerplant Certificate

Aviation maintenance technicians find many job opportunities with airlines, airport operators, companies with aircraft, oil companies, the space program, and manufacturers. Industry studies predict a shortage of these mechanics during the next 10 years. Many industries not associated with aviation also recognize the skills of these technicians and hire them for non-aviation jobs.

Students in the Aviation Maintenance Technology program may pursue technical training for the Airframe Certificate, the Powerplant Certificate, both certificates, or the Associate Degree. The Airframe Certificate program covers the structure as well as mechanical, electrical, and hydraulic systems of airplanes. The Powerplant Certificate program covers the engine and its accessories. Students who complete both Certificate programs may take additional course work to receive an Associate Degree. The Associate Degree or both of the certificate programs may be completed in eight quarters.

The Aviation Maintenance facility is located at the Columbus State Southwest Center at Bolton Field Airport southwest of Columbus. The 10,000 square foot hangar houses the College's fleet of single- and multi-engine, reciprocating and jet engine aircraft. Well-equipped classrooms and laboratories provide students with hands-on experience in an airport environment.

The Aviation Maintenance Technology program is approved by the Federal Aviation Administration (FAA Certificate No. DL9T090R) and meets the requirements of FAA Regulation Part 147. Students successfully completing the appropriate technical studies are qualified to take the exam for the FAA Airframe and/or Powerplant certificate rating.

Upon completion of the Associate Degree or both Certificate programs in Aviation Maintenance Technology, the graduate will be able to:

- Use precision measuring tools to work on airframes and aviation powerplants.
- Perform nondestructive inspection and test procedures.
- Identify and select aviation industry hardware.
- Demonstrate knowledge of correctly evaluating the quality of aircraft welds.
- Read and use blueprints for fabrication and repair procedures.
- Identify aircraft materials and their structural properties.
- Inspect, check, service, troubleshoot, and repair aircraft hydraulic systems; electrical systems; fuel systems; pneumatic vacuum systems; heating, cooling, and pressurization systems; and control systems.
- Perform structural repairs for both metal and composite airframe structures.

- Use corrosion control materials and procedures correctly and safely.
- Identify and select aircraft finishing material.
- Inspect, check, service, troubleshoot and repair landing gear and related systems.
- Inspect, check, service, troubleshoot and repair turbine engines and related systems.
- Inspect, check, service, troubleshoot and repair propellers and related systems.
- Meet FAA certification requirements for the Airframe and Powerplant certificates.

Business Management

Business Management Associate Degree

Business Management Major

Small Business Management Major

Training and Development Certificate

In order to compete effectively in the 21st Century successful managers and entrepreneurs will need a complex set of interpersonal, communication, analytical and decision-making skills. Columbus State's Business Management program focuses on meeting these requirements for students who wish to attain a two-year degree in business management or who wish to upgrade current job performance skills. The emphasis in the program is on skill applications through the latest teaching techniques and technologies available. An electronic classroom is available on main campus for selected topical presentations, tutorials and group study. Included in the program are opportunities for the student to elect to take a hands-on internship experience with a local company or government agency, or to pursue independent research projects. The program is also available to students via distance learning, through the medium of television and computer-based instruction (See "Going the Distance" in the Programs of Study section).

To meet the demands of students desiring to own or operate a small business, the program includes a Small Business Management Major described below.

The Business Management Department also offers a Training and Development Certificate, intended to provide a unique opportunity to build your training and development skills, even if you are not working in human resources or training departments of your company. Professionals in all areas, such as managers who train, can benefit from skills and knowledge gained in these courses. This is a three-course certificate program available to degree as well as non-degree seeking students interested in improving training and development skills.

Columbus State Community College's degree granting business programs are nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP).

Upon completion of the Associate Degree program in Business Management, the graduate will be able to:

- Demonstrate knowledge of management theory, function, and skills.
- Apply knowledge of current computer technology and computational skills to business activities.
- Demonstrate a working knowledge of current legal, ethical, social, financial and economic environmental factors as they apply to business.
- Prepare and present written and oral business related reports for a variety of audiences at a generally accepted level of business English.
- Work effectively as a member of a team.
- Compile, analyze, and synthesize information to solve business problems.

- Apply the principles of the strategic planning process to a business simulation and case studies.

In addition to the Business Management core outcomes, a graduate pursuing the Business Management degree on-campus will be able to:

- Assess their own communication, leadership, and team building styles.
- Recognize the communication, leadership, and team building styles of others.
- Apply the skills of creative thinking, communication, adapting to change, motivation, and teamwork to business simulations, and selected projects.

Small Business Management Major

In addition to the Business Management core outcomes, a graduate pursuing the Small Business Management degree will be able to:

- Demonstrate knowledge of the skills needed to start a new business.
- Demonstrate knowledge of the methods used to conduct research into selecting an established business for purchase.
- List and explain the major factors influencing the success or failure of a small business.
- Develop a business plan.
- Demonstrate knowledge of the management skills needed to operate a small business.
- Demonstrate knowledge of the necessary accounting principles and records to operate a small business.
- Demonstrate knowledge of marketing and customer service principles as they apply to small business operations.

Civil Engineering Technology

Civil Engineering Technology Associate Degree Surveying Certificate

The Associate of Applied Science Degree in Civil Engineering Technology provides a basis for entry-level careers in all phases of the construction continuum; planning, design, construction and operations. The Associate of Applied Science is designed as a terminal degree providing those skills necessary for immediate employment. Graduates of the program are prepared to work for either private or governmental segments of the construction industry requiring civil engineering technicians. Specific employment positions include manual or computer assisted (CAD) construction drawing and contract document preparation for commercial, heavy and industrial/institutional projects, construction inspection, survey crew operations, and construction material quality control and quality assurance.

In addition to providing entry-level positions, the degree provides opportunities for individuals seeking career changes, continuing education and skills enhancement. The Civil Engineering Technology Degree is preparation for immediate, productive employment.

The Civil Engineering Technology Surveying Certificate is a one-year, three-quarter program, which provides a basis for entry-level careers in survey field and office operations. The one-year certificate is a directed focus program which empowers students with those skills necessary for construction layout of buildings and roadways and, working under the direction of a Registered Surveyor, in land surveying and subdivision of land. Specific employment positions include instrument person, field crew chief and drafter/designer.

The Surveying Certificate encompasses those surveying courses, which when coupled with a Bachelor of Science in Civil Engineering fulfills the State of Ohio Board of Registration for Engineers and Surveyors Education Requirements toward registration as a Professional Surveyor.

Upon completion of the Associate Degree in Civil Engineering Technology, the graduate will be able to:

- Manually or with the assistance of computer aided drafting (CAD) prepare engineering drawings for public and private work projects.
- Apply appropriate proportioning, mixing, placing, curing and admixtures to ensure quality structural concrete structures.
- Perform appropriate testing of soils, aggregates, asphalt and portland cement concrete, masonry, steel and wood in accordance with American Society of Testing Methods (ASTM) procedures.
- Correctly apply regulatory and industry standards to design stormwater management systems.
- Correctly apply regulatory and industry standards to design sanitary wastewater collection systems.

- Perform all field operations to determine preliminary route alignment, prepare centerline and offset staking notes and stake a proposed project for finish grade complete with cut sheet.
- Correctly apply Ohio Department of Transportation (ODOT), Federal Highway Administration (FHWA) and industry design standards to plan, design and detail a simulated highway including drainage structures.
- Apply subdivision regulations and surveying laws in the preparation of preliminary sketch, preliminary plat and final plat for a major private land subdivision.
- Perform preliminary site investigations, research infrastructure records, secure appropriate codes and regulations and prepare a set of preliminary drawings of an urban redevelopment site.
- Perform quantity takeoffs for bid preparation.

AS/400 Operations Certificate

Object-Oriented Programming Certificate

Also see: EDP Auditing Major (Accounting)

Also see: Computer Electronics Major (Electronic Engineering Technology)

Also see: Microcomputing Technology

Society's increasing dependence on computers ensures a growing demand for qualified computer programming graduates. To meet this demand, Columbus State's Associate of Applied Science Degree program in Computer Programming Technology provides students with the technical skills required for entry-level programming and related positions in business. Students learn to write programs and use commercially available software on mainframe, mini and microcomputers. Laboratory exercises using up-to date equipment are an integral part of the program.

Columbus State Community College is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) for the offering of its business programs that culminate in the Associate of Arts, Associate of Science, and Associate of Applied Science Degrees.

Upon completion of the Associate of Applied Science Degree in Computer Programming Technology, the graduate will be able to:

- Write, debug, test, maintain, and document programs, according to a program specification, in ANSI COBOL, Interactive COBOL, IBM mainframe Assembly Language, ORACLE and some of the following languages: RPG, C++ VISUAL BASIC and Java.
- Write procedures to execute typical business applications on various computer platforms.
- Use new program languages, application software or command languages, given the appropriate reference manuals.
- Use PC based word processing, spreadsheet, database and other application software.
- Design, normalize and develop a corporate database using a relational Database Management System (DBMS).
- Understand the fundamental concepts of data communications applicable to business systems.
- Write program specifications for a typical business application using an appropriate system specification.
- Work effectively as part of a project or system team.

In addition to many of the Computer Programming Technology competencies, a graduate with a Certificate in Networking and Distributed Systems will be able to:

- Describe the various types of distributed processing systems and operating systems.
- Design, create, and operate a distributed DBMS.

- Use at least one major LAN operating system.
- Sit for an industry standard network system examination.
- Design, create, and implement a distributed processing system to support the information processing requirements for a large information management organization to include installing a DBMS.

In addition to many of the Computer Programming Technology competencies, a graduate with a Certificate in AS/400 Program Language will be able to:

- Use the basic features of the AS/400 including, handling messages, running programs, memory allocation, job types; starting and terminating jobs, controlling the printer output, the menu system, the help feature, the concepts of objects and libraries, the command language, and the Program Development Manager.
- Use programming constructs needed to develop CL programs and commands.
- Write batch RPG/400 programs utilizing structured code, create physical and logical files, define and access externally described files, and compile and debug RPG/400 programs for business applications.
- Write interactive programs utilizing subfiles.
- Write report programs utilizing external printer files.

In addition to many of the Computer Programming Technology competencies, a graduate with a Certificate in Object-Oriented Programming will be able to:

- Demonstrate techniques of Object Analysis and Object Design.
- Design, code and process ANSI Standard C++ programs.
- Design, code and process ANSI Standard Object-Oriented COBOL programs.
- Design objects and classes associated with Object Technology.
- Develop Windows programs using Object Technology.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Computer Programming Technology and following Certificate programs.

Computer Programming Technology

Placement into MATH 121 - Mathematics for Computer Technology, or complete MATH 103 Beginning Algebra II

Placement into ENGL101 or 111

Networking and Distributed Systems Certificate

Complete MCT 221 - Local Area Networks

Complete AAS degree in Computer Programming, Microcomputing or the equivalent

AS/400 Program Language Certificate

CPT 101 - PC Applications 1
CPT 111 - Assembly Language I

AS/400 Operations Certificate

CPT 101 - PC Applications 1

Object-Oriented Programming Certificate

CPT 111 - Assembly Language 1
CPT 201 - COBOL I
Associate of Applied Science Degree in Computer Programming Technology or
Equivalent work experience approved by the Department Chair of Computer Science.

Construction Management

Field Supervision Certificate

Estimating/Bidding Certificate

Residential Construction Management Certificate

The Construction Management program prepares graduates for entry-level employment with all types of construction companies. Inside positions include work assignments in marketing, sales, estimating and purchasing; field assignments include those in scheduling, cost control, quality assurance, assisting field superintendents, and monitoring safety programs. The local job market for these graduates is expected to continue to grow as the Columbus construction industry steadily expands.

In addition to technical and management courses taught at the College, Associate Degree students have the opportunity to work directly with employers through a summer quarter cooperative job program that fulfills part of the degree program requirements. Students in the program share a course core curriculum with other programs in the Construction Sciences Department. This core provides students with a strong foundation of technical skills as well as a sense of the teamwork needed in the construction field. Students also complete courses in communication skills, technical math and computer literacy.

Upon completion of the Associate Degree in Construction Management, the graduate will be able to:

- Analyze and interpret all types of construction drawings and documents.
- Calculate quantities of material, labor, and equipment needed for a project.
- Analyze financial data relative to construction work in the field and office.
- Control field operations through cost analysis and productivity analysis.
- Apply data analysis to identify construction problems, specify goals, and execute projects.
- Utilize the critical path and Gantt bar chart methods to organize complex construction projects.
- Identify and understand the major elements in construction labor and contract law.
- Operate and use microcomputers, pre-packaged project management software, and scan machine.
- Stake out control points for projects using modern laser surveying equipment.
- Assist in developing marketing tools and objectives to increase the sales of no-bid jobs for their employers.
- Assist in purchasing or safety/loss control of equipment and materials.
- Apply bid strategies to marketing proposals for building and heavy construction type projects.
- Assist in resolving construction disputes, claims and arbitration/litigations.

Dental Hygiene

The Dental Hygiene program at Columbus State Community College prepares the student to work as a dental hygienist in dental offices or clinics. This program is fully accredited by the American Dental Association's Commission on Dental Education.

The dental hygienist is responsible for providing quality oral hygiene services to all types of patients including adult, handicapped, and pediatric patients. The hygienist also provides patients with education in oral hygiene and disease prevention. Graduates of the program are eligible to take state, regional and national examinations.

Upon completion of the Associate Degree in Dental Hygiene, the graduate will be able to:

- Demonstrate an awareness of their roles and responsibilities within the community.
- Understand their roles as a dental health care provider.
- Demonstrate appropriate concern for the total well-being of their patients.
- Educate patients in oral hygiene and disease prevention.
- Demonstrate the knowledge and skills necessary to provide quality dental hygiene services to their patients.
- Eligible to sit for national and regional board examinations.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Dental Hygiene program. The application deadline is December 23, yearly. The last mandatory information session is held before November 15 of each year. Students are advised to arrange their schedules so that they attend an information session by November 15.

Students may obtain an information packet by calling the Allied Health Office at 287-2521 OR by sending an email with your name and complete mailing address to: akisner@csc.edu.

- High school Biology (or college equivalent)—grade “C” or better
- High school Chemistry (or college equivalent)—grade “C” or better
- Placement into MATH 103 or completion of MATH 102
- Placement into ENGL 101
- Placement into “No Reading Required”
- BIO 121 Human Anatomy, Physiology and Pathophysiology, with grade “C” or better
- MULT 102 with grade “C” or better OR completion of American Red Cross or American Heart Association CPR/Basic Life Support Course (completed after admission into the program)
- Dental hygienist observation or experience working in a dental office or clinic in a patient-care related position. Further specific information is given during the information sessions.
- Attend one mandatory Dental Hygiene Information Session within 12 months BEFORE applying to the program.
- Students applying to the Dental Hygiene Program must submit their official high school and official college transcripts

to Columbus State Community College, Records and Registration Office, by November 30 of the year of application so that transcripts may be evaluated and posted.

- International students or students who have international transcripts must submit their official transcripts to Records and Registration NO LATER THAN August 30 of the year they plan to apply to the Dental Hygiene Program. Records and Registration may have further requirements for International students, thus international students should contact them before August 30 of the year they wish to apply.
- ALL admission criteria MUST be met by December 23 of the application year.

Visit or contact the Allied Health Office, UN 407, 287-2521 to obtain a dental hygiene information packet. Information packets are also available from the health advisors.

Statement Regarding Infectious Diseases:

Students in any of the Allied Health programs, including Dental Hygiene, perform their clinical work on real people. Columbus State does not discriminate against students, faculty, or patients in any way, or based on color, creed, national origin, gender, disability or sexual preference. The patient populations with whom we work come from all walks of life, and the students may therefore be exposed to many types of communicable diseases. These are not limited to but may include: Hepatitis (A, B, C or D), HIV/AIDS, TB, measles, mumps, Rubella, rubeola, etc.

ALL students are required to have appropriate immunizations after they are admitted to the program (information is given to all admitted students). Additionally, although all precautions are taken to minimize exposure and risk, there is always a slight possibility that precautions may fail or that a student may accidentally expose him/herself. All students entering the Dental Hygiene program must be aware of this slight, but real, potential.

Dental Laboratory Technology/ Small Business Management

(Associate of Technical Studies Degree) Dental Laboratory Certificate Program

Dental laboratory technicians are skilled artisans and small business managers. They create the appliances that restore or replace oral tissues or structures. They fabricate complete dentures, removable partial dentures, crowns and bridges and may become owners and/or managers of a dental laboratory facility.

The Dental Laboratory Technology four quarter,(one year) certificate program provides students with experience in fabricating a wide variety of dental appliances, using state-of-the art materials and equipment. The program develops skill, not only in proper construction, but also in attractive appearance and accuracy of fit for patient comfort. Because workers in the dental lab area may be exposed to infectious materials and communicable diseases, the programs emphasizes safety and infection control. The Dental Laboratory Technology/Small Business Management seven quarter Associate of Technical Studies Degree Program provides knowledge and skills of small business management that will enable a graduate to own and/or manage a dental laboratory, as well as providing all the competencies of the certificate program.

New students enter the program in the Autumn quarter, but applications to the program may be submitted at anytime.

Upon completion of the Dental Laboratory Technology certificate program, the graduate will be able to:

- Design and fabricate complete dentures, removable partial dentures, crowns and bridges to a clinically acceptable degree.
- Apply learned theories to problem cases involving all dental laboratory procedures.
- Identify acceptable dental impressions submitted from clients.
- Read and accurately interpret dental laboratory prescriptions.
- Select and safely use the proper materials and equipment for a given case.
- Recognize specific landmarks of the oral cavity associated with a given case.
- Install, adjust, and store equipment and supplies.
- Demonstrate the attitude, abilities, and professionalism essential for the welfare of the patient.
- Practice safety and health regulations as established by the state and federal government.

In addition to the certificate program competencies the graduate of the Dental Laboratory/Small Business Management ATS Program will be able to:

- Identify the fundamentals in planning and executing the start up of a new small business.
- Describe the necessary competence in managing a small business enterprise, including effective operation of an established business, strategic planning, market analysis, pricing, inventory control, and credit collection.

Early Childhood Development

Early Childhood Development Associate Degree Child Care Administration Certificate

With the increase of both the two income family and the single parent household, there is a great demand for qualified professionals trained in early childhood education. Early childhood professionals are responsible for planning daily activities, developing educational practices, and utilizing community resources to enrich programs and to support the needs of children and their families. The graduate is employed as a pre-kindergarten teacher, or Head Start preschool/childcare administrator, nanny, infant/toddler care-giver or family childcare provider.

The Early Childhood Development (ECD) program is approved by the Ohio Department of Education for the Pre -Kindergarten Associate Teaching license. This license qualifies holders for pre-kindergarten positions in a variety of early childhood settings, including Head Start, public school preschool, inclusive settings with children with special needs, as well as part-day and full day child care programs. The Early Childhood course of study exceeds the requirements for staff as outlined in the revised Ohio Child Day Care Licensing Rules.

Upon completion of the Associate Degree in Early Childhood Development, the graduate will be able to:

- Apply principles of human growth, development, and learning to the teaching of young children., in inclusive settings.
- Plan appropriate learning experiences for individuals as well as groups of young children, birth to age 8.
- Demonstrate a respectful and nurturing teaching style.
- Develop appropriate educational practices for young children that foster the growth of skills in problem solving, decision-making, critical thinking , communication and literacy..
- Recognize individual needs and use appropriate teaching strategies including identify , select and prepare materials and methods to address children’s individual differences in developmental levels, culture, learning styles and activities.
- Recognize and respect unique characteristics of families and use appropriate strategies to address family needs.
- Demonstrate a variety of strategies to evaluate children’s growth and development with parents and related professionals.
- Design a physically safe environment to facilitate children’s independence and competence through constructive experiences.
- Evaluate professional role as teacher, life long learner and advocate for children and families.

Specific Program Admissions Information

Listed below are additional requirements for formal admission to Early Childhood Development.

- High school graduate or G.E.D. equivalency
- Placement into Beginning Composition - ENGL 101

- Completion of the following five courses with a grade of “C” or above:
 - ECD 105 - Self Concept
 - ECD 106 Observing and Recording
 - ECD 107 - Curriculum Planning
 - ECD 203 - Creative Curriculum
 - PSY 261 - Introduction to Child Development
- Medical Statement and 3 References on file

Electro-Mechanical Engineering Technology

With the rapid growth occurring in automation, robotics, computer integration, product development, and all new processes for manufacturing, research, material movement, and equipment maintenance support, there is an increased demand for individuals who can apply and perform problem-solving duties associated with the integration of electrical and mechanical devices.

The objective of the Electro-Mechanical Engineering Technology program is to educate and prepare students for career opportunities in manufacturing environments where automated and semi-automated machines and processes are used.

Electro-Mechanical Engineering Technicians perform both preventive and corrective maintenance on electro-mechanical systems as well as aiding in the design of such systems.

Upon completion of the Associate Degree in Electro-Mechanical Engineering Technology, the graduate will be able to:

- Read and interpret engineering drawings.
- Select an appropriate electric motor and control based on known functional requirements.
- Identify and troubleshoot hydraulic and pneumatic systems.
- Troubleshoot electric motors.
- Identify and select electro-mechanical components for typical industrial requirements.
- Select and use appropriate power control devices, timers, transducers and sensors.
- Apply servo-mechanisms with regard to accuracy, overshoot, and stability of automated equipment.
- Identify closed-loop and open-loop systems and select the type of control required to achieve a given system response.
- Demonstrate skill in applying programmable controllers to operate simple processes.
- Perform preventive and corrective maintenance on electro-mechanical automated systems.

The Electro-Mechanical Engineering Technology also shares related courses with the Electronic Engineering Technology, Mechanical Engineering Technology and Quality Assurance Technology. For additional information refer to those section(s) of the Catalog.

Electronic Engineering Technology

Electronic Engineering Technology Associate Degree Computer Electronics Major

The Electronic Engineering Technology opens numerous doors of opportunity for its graduates. Employment in fields as diverse as avionics, banking, biomedicine, distribution, telecommunications, manufacturing, servicing, radio/TV and audio production await today's graduate. Growth in both the number of positions and variety of opportunities is expected to expand well into the 21st century.

Course work covers the basics of electronics with technical electives available for specialization in computer repair, digital and fiber optic communication, computer aided drafting and control.

Columbus State's Electronic Engineering Technology program is accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (TAC of ABET). For further information regarding accreditation, contact: Accreditation Director for Engineering Technology, Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202.

Graduates who wish to continue their education may transfer their Associate Degree credits to a number of four-year institutions that offer baccalaureate degrees in engineering technology.

Upon completion of the Associate Degree in Electronic Engineering Technology, the graduate will be able to:

- Apply technical terms in their proper context when writing or speaking.
- Analyze and locate problems in basic electronic circuits.
- Demonstrate knowledge of a basic approach to troubleshooting.
- Read and interpret engineering specifications.
- Measure electrical quantities (e.g., voltage, current, resistance, frequency, etc.) accurately and draw conclusions.
- Collect, compile, and graph experimental data.
- Write technical reports.
- Use calculators and/or computers for analysis and technical problem solving.
- Prepare electronic schematics using manual and computer-aided systems.
- Analyze and interpret circuit diagrams.
- Apply knowledge of the basics of electronics to a variety of applications the graduates will see as they work in the profession.

The Electronic Engineering Technology also shares related coursework with the Electro-Mechanical Engineering and Quality Assurance Technologies. For additional information refer to those sections of the Catalog.

Computer Electronics Major

Students interested in combining electronics with computer programming should consider the Computer Electronics Major. This program enables the student to enroll in courses on how to use computers as well as the electronics of the computer. Please contact the chairperson of either the Electronic Engineering Technology or Computer Programming Technology for more information.

In addition to the general Electronic Engineering Technology competencies, a graduate majoring in Computer Electronics will be able to:

- Write, debug, test, maintain and document programs in Assembly, and C++ language programs.
- Write Job Control Language (JCL) necessary to execute typical business applications on an IBM mainframe computer using DOS/VSE.
- Use a terminal in an on-line environment (ADR/VOLLIE).
- Use word processing, spreadsheet, and graphic software available for the IBM PC and local area networks.
- Use flowcharting.

Specific Program Admission Information

Listed below are additional requirements for admission to the Computer Electronics Major.

Complete CPT 101 - PC Applications I or equivalent approved by the Chairperson of Computer Programming Technology

Emergency Medical Services

Emergency Medical Services Associate Degree

EMT-Basic Certificate

EMT-Intermediate Certificate

EMT-Paramedic Certificate

EMS Administration Certificate

EMS Rescue Certificate

Emergency Medical Technicians work under the direction of a physician to act as the primary pre-hospital care provider in the health care system. They must first make a comprehensive evaluation of the patient's condition and the overall situation. They may then need to provide immediate life-saving care. Technicians must demonstrate a high degree of technical skill, calmness, and professionalism, even under the most adverse conditions.

Columbus State's Associate Degree program in Emergency Medical Services exposes students to a wide variety of victim care situations, including direct patient care in local hospitals and on emergency vehicles. Instructors are highly experienced and active in the field of emergency medicine.

In addition to the Associate Degree, the Emergency Medical Services program offers the EMT- Basic Certificate, the EMT -Intermediate Certificate and the EMT-Paramedic Certificate accredited by the Ohio Department of Public Safety, Division of EMS (certificate # 311) The EMT-Paramedic Certificate program is also nationally accredited through the Committee on Accreditation of Educational Programs for the EMS Professions.. For information on additional certificates see the Emergency Medical Services Technology Coordinator.

Students in the EMT-Basic Certificate program must first complete the EMT-Basic course, and then pass the State/National EMT-B Certification written and practical exams. By state law, a student must be a certified EMT-Basic before enrolling in the EMT-Intermediate or the EMT-Paramedic Certificate programs.

Good mental and physical healthcare is critical in emergency medical services. Students must have a physical examination and must meet program health requirements before they may participate in clinical laboratory experiences. Because students and workers in the health care field may be exposed to infectious materials and communicable diseases, the program emphasizes safety and prevention. In addition, all students must be covered by EMT-student liability insurance while enrolled in the certificate courses.

Upon completion of the Associate Degree requirements in Emergency Medical Services Technology, the graduate will be able to:

- Perform all of the duties included in EMT-Basic and EMT-Paramedic training, after successfully completing State of Ohio/National certification exams in these two areas.
- Demonstrate knowledge of the legal aspects of emergency medical service.
- Prepare for and deal with disasters, including those involving hazardous materials.
- Explain the complexity of emergency medical service.

EMT-Basic Certificate

Students completing the EMT-Basic Certificate will be able to:

- Meet State of Ohio/National requirements to take the EMT-Basic certification examination.
- Evaluate the nature and seriousness of a patient's condition or the state of the patient's injuries and assess requirements for emergency care.
- Administer appropriate emergency care to stabilize the patient's condition, including tracheal intubation and automated external defibrillation.
- Lift, move, position, and otherwise handle the patient in such a way as to minimize discomfort and further injury.

EMT-Intermediate Certificate

Students completing the EMT-Intermediate Certificate will be able to:

- Meet State of Ohio/National requirements to take the EMT-Intermediate certification examination.
- Perform all duties of an EMT-Basic.
- Initiate appropriate intravenous procedures as specifically authorized by medical authority.

EMT-Paramedic Certificate

Students completing the EMT-Paramedic Certificate will be able to:

- Meet State of Ohio/National requirements to take the EMT-Paramedic certification examination.
- Perform all duties of the EMT-Basic.
- Initiate appropriate intravenous procedures as specifically authorized by medical authority.
- Initiate and continue emergency medical care under medical control, including recognizing presenting conditions and initiating appropriate invasive and noninvasive therapies (e.g., surgical and medical emergencies, airway and respiratory problems, cardiac dysrhythmias, cardio pulmonary arrest, and psychological crisis), and assessing the response of the patient to that therapy.

For information on additional certificates see the Emergency Medical Services Technology Coordinator.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Emergency Medical Services Technology.

- High school graduate or G.E.D. equivalency
- 18 years of age or older (contact EMS Coordinator)
- Completed health statement
- Contact EMS Technology Coordinator for additional requirements

Emergency Medical Service/Fire Science

(Associate of Technical Studies Degree)

In many areas emergency medical services are provided through the fire service agencies. This unique Associate of Technical Studies degree provides the student with the opportunity to combine these two programs into a degree with specific preparation for entering or advancing in such agencies.

The Associate of Technical Studies degree offers the EMT-Basic Certificate and the EMT -Paramedic Certificate accredited by the Ohio Department of Public Safety, Division of EMS (certificate # 311). The EMT-Paramedic Certificate is also nationally accredited through the Committee on Accreditation of Educational Programs for the EMS Professions.

Students must first complete the EMT-Basic course and then pass the State/National EMT-B Certificate written and practical exams. By state law a student must be certified EMT-Basic before enrolling in the EMT-Paramedic Certificate programs.

Good mental and physical health are critical in emergency services; therefore students must have a physical examination, meet the program health requirements and be covered by the EMT-student liability insurance.

Upon completion of the Associate of Technical Studies in Emergency Medical/Fire Science, the graduate will be able to:

- Prepare for and deal with disasters, including those involving hazardous materials.
- Perform all duties included in the EMT-Basic and EMT-Paramedic training after successfully completing the Ohio / National certification exams in these two areas.
- Demonstrate knowledge of the legal aspects of the fire and emergency services.
- Demonstrate the basic knowledge for fire investigation and hazardous materials.
- Prepare themselves for a promotional exam.

For student outcomes for EMT-Basic Certificate and EMT-Paramedic Certificate see Emergency Medical Services.

NOTE: If you currently have EMT-Basic, Paramedic, Firefighter I & II and/or Journeyman certification, you may qualify for non-traditional credit which may apply toward the degree. Contact the EMS/Fire Science Technology Coordinator to determine your individual status.

Environmental Technology

Health & Safety Training for Hazardous Waste Operations Certificate Water/Wastewater Technology Certificate

Environmental technicians work in a wide variety of entry-level positions for environmental engineering consulting firms, environmental laboratories, wastewater and water treatment facilities, lead and asbestos abatement contractors, manufacturing facilities, governmental agencies, and other organizations requiring individuals to work in environmentally related positions. The demand for technicians capable of performing tasks such as sample collection, monitoring, data management, and instrumentation calibration, operation, and maintenance continues to increase. According to recent surveys, and current job placement rates, the job market for environmental technicians in Central Ohio is very strong.

Columbus State's Associate Degree program in Environmental Technology has a diverse curriculum which includes many basic science courses, as well as courses offered by other engineering technologies. This curriculum provides students with a strong foundation of technical skills necessary for careers in the environmental industry. A summer quarter internship program also offers students hands-on experience in a real work setting.

In addition to providing environmental technicians with entry-level training, the degree provides opportunities for individuals seeking career changes, continuing education and skills enhancement.

The Water/Wastewater Technology Certificate is designed to serve the educational needs of employees that work in water and/or wastewater treatment, such as those who work for municipalities or industry. This certificate will also provide a strong educational foundation for those students that have an interest in entering an occupation in either water or wastewater treatment. Individuals who complete the coursework in this program will be much better prepared to take the state water or wastewater treatment operator's exams. Most courses in this certificate will also apply towards the Associate of Applied Science Degree in either Environmental Technology or Civil Engineering Technology.

For additional information on the Health and Safety Training for Hazardous Waste Operations Certificate, or other OSHA training opportunities, see the Environmental Technology Advisor.

Upon completion of the Associate Degree in Environmental Technology, the graduate will be able to:

- Collect air, water, waste, and soil samples for routine monitoring as required by regulatory agencies.
- Conduct field investigations using environmental instrumentation.
- Assist in the operation and maintenance of systems used to control pollution at the source as required by environmental laws.

- Perform duties related to the management, storage, disposal, and emergency response to spills of hazardous materials and toxic substances in accordance with OSHA health and safety requirements.
- Collect and compile data necessary for an environmental site assessment.
- Utilize basic concepts of geology and hydrology in summarizing data to be used in analyzing the environmental fate and transport of hazardous substances.
- Review toxic or hazardous waste studies to provide information for compliance with environmental standards.
- Understand basic risk assessment and toxic substances exposure analysis techniques.
- Understands duties requiring knowledge of industrial hygiene in hazardous materials, including OSHA legislation.
- Assist the engineer in preparing reports using technical writing skills.
- Compile data and perform data manipulation and reporting tasks using a word processor, spreadsheet and graphics.

Facility Management

The types of facilities and range of responsibilities fulfilled by facility managers are staggering in their scope. Facility managers ensure the smooth operation of thousands of residential, commercial, and industrial properties throughout Central Ohio everyday.

The knowledge and expertise required of competent facility managers ranges from understanding the basics of a building's heating, air conditioning, electrical, plumbing and communications systems, to utilizing critical business concepts in accounting, finance and human resources. Facility managers work with hotels, office buildings, convention centers, sports arenas, shopping malls and college campuses. Columbus' thriving economy and the current anticipated boom in capital development will increase the need for skilled facility managers for years to come.

Upon completion of the Associate Degree in Facility Management, the graduate will be able to:

- Conduct presentations that demonstrate his/her understanding of the basic facility management functions and the organizational framework for the delivery of facility management services.
- Apply current management techniques and principles to real life facility management situations.
- Assist with facility financial forecasting and budgeting.
- Assist with real estate procurement, leasing and disposal.
- Competently communicate his/her understanding of the impact of facilities on individual and group performance orally and/or in writing.
- Act in accordance with relevant regulatory codes in addressing health, safety and security issues in facility management.
- Aid in procurement of furnishings, equipment and outside facility services.
- Competently communicate his/her understanding of basic building operations, including utilities and mechanical systems, telecommunications, waste management and general maintenance orally and/or in writing.
- Competently read and prepare architectural and engineering documents.

Certificate of Facility Management Concentration

Completion of the six basic courses comprising the Certificate is intended to relay to the potential Facility Management (FM) employer that the student has acquired an awareness of Facility Management, is seriously focused on it as a profession, is equipped with many of the basic tools of that profession and is set apart from the applicant who has no background in FM. Five of the courses are a part of the core curriculum, and the sixth is selected from a list of four, representing one from each of the four specialty areas within the curriculum.

This certificate is not to be confused with the phrase "Certified Facility Manager" (CFM), as established by the International Facility Managers Association (IFMA), which carries with it an implication of extensive experience and testing.

Finance

Today's banking, consumer credit, and commercial credit industries offer outstanding career opportunities for community college graduates. The Associate Degree program in Finance gives students the knowledge and skills they need to succeed in entry-level and management training positions. These may be in finance departments of corporations, government agencies, and departments of banks, savings and loans, mortgage companies, and insurance companies. Examples of these positions include loan processor, loan officer, mortgage banking trainee, credit analyst, insurance analyst, financial planner, collections manager, stockbroker trainee, and financial analyst.

Columbus State is nationally accredited as an associate degree granting institution offering business programs by the Association of Collegiate Business Schools and Programs (ACBSP).

Upon completion of the Associate Degree in Finance, the graduate will be able to:

- Explain the key concepts of financial transactions.
- Explain operational methods of various financial institutions.
- Plan credit investigations and make credit granting decisions for both commercial and consumer credit.
- Analyze financial statements.
- Analyze stocks, bonds, and mutual funds and the interrelationship between them.
- Analyze financial problems with spread sheet software.
- Apply capital budgeting techniques for valuing business investments.
- Write financial plans for business entities and individuals.
- Produce research reports on current topical issues relevant to financial markets and the business environment.

The approved elective may be selected from courses in Math, Microcomputing, Finance, Retail, Real Estate, Accounting, Business Management, and Marketing. Discuss these courses with your faculty advisor.

Fire Science

Technological advancements and increasing sophistication in fire fighting and prevention have made the role of the professional in this field more complex, requiring advanced preparation. This program is designed for firefighters and persons in related fields such as construction engineering, insurance investigation and corporate safety.

The program emphasizes fire-fighting techniques, fire prevention, fire protection systems and customer service. Combining these subjects with advanced hazardous material response, building construction and hydraulics gives the student a firm foundation in fire protection and prevention.

Upon completion of the Associate Degree in Fire Science, the graduate will be able to:

- Demonstrate effective communication and interpersonal skills with management, other firefighters and the public.
- Explain the history and basic principles of the fire service to recruits and the public.
- Determine the potential for collapse of and fire spread in structures.
- Demonstrate knowledge of the legal aspects of the fire service.
- Perform all duties of incident command.
- Calculate necessary fire-ground pump, nozzle and sprinkler pressures.
- Prepare for a promotional exam.

Graphic Communications Technology

Desktop Publishing Certificate

Graphic Communication Design Certificate

Graphic communications is the transmission of ideas, concepts, and information by word, picture, or symbol from one person to another. New materials, techniques, and processes make graphic communications an ever expanding, challenging technology. Because the demand for advertising, printing, publishing, packaging, storage and retrieval of information is so high, the communication industry ranks fifth in total income and employment opportunities.

Students enrolled in the Associate of Applied Science degree program in the Graphic Communications Technology receive practical training in all types of print production operations. They also take technical electives in such areas as color photography and advanced publishing. Graduates of the program are qualified to work in any industry where the transmission of ideas, concepts, and information is essential.

Upon completion of the Associate Degree in Graphic Communications Technology, the graduate will be able to:

- Specify type styles and sizes, coordinate colors, and employ the elements of design to communicate effectively.
- Be able to handle in prepress jobs with bleeds, traps, overprints, reverses, and screen tints.
- Prepare film for single and multi-color presswork that are properly imposed for platemaking.
- Demonstrate an awareness of the effect of actinic light on a light-sensitive emulsion.
- Use a densitometer to monitor film density, dot grain, solid ink density, hue error, and grayness.
- Utilize QuarkXPress and Adobe PhotoShop to generate images consistent with computer-supplied layouts or to correct customer-supplied files.
- Use Adobe Illustrator to generate art or to correct customer-supplied files.
- Effectively operate single and multicolor sheet-fed offset presses.
- Estimate the production cost for printing a job from customer-supplied specifications.
- Be familiar with the classifications of paper and ink, their ingredients, and the problems that can arise from using them inappropriately
- Use communication skills (verbal, written, and graphic) to interact effectively with both internal and external customers.
- Be familiar with hiring and other supervisory practices, job scheduling, inventory control procedures, equipment and materials purchasing, plant layout, and the development of budgeted hourly rates.
- Be familiar with the application of statistical process control techniques to reduce waste, and downtime, while increasing customer satisfaction, productivity, and profits.

Certificates are also available in Design and Desktop Publishing

Health Information Management Technology

Health Information Management Technology

Associate Degree

Medical Coding Specialist Certificate

Medical Transcription Certificate

The Health Information Management Technology prepares the student to become a professional responsible for maintaining components of health information systems consistent with the medical, administrative, ethical, legal, accreditation, and regulatory requirements of the health care delivery system. In all types of health care facilities, the health information management technician possesses the technical knowledge and skills necessary to process, maintain, compile, and report health information data for reimbursement, facility planning, marketing, risk management, utilization management, quality assessment and research; abstract and code clinical data using appropriate classification systems; and analyze health records according to standards. The health information management technician may also be responsible for functional supervision of the various components of the health information system.

The Medical Coding Certificate program prepares students with entry-level skills needed to code, classify, and index diagnoses and procedures for the purpose of reimbursement, standardization, retrieval and statistical analysis. Principles in ICD-9-CM coding, CPT coding, and third-party reimbursement will be emphasized.

The Medical Transcriptionist Certificate program prepares students for entry-level skills needed to become a medical transcriptionist. Certificate completion provides an individual with a basic knowledge in medical science, English and skills in computers, and transcribing medical dictation. Accuracy, clarity, timeliness and displaying professional and ethical conduct are qualities required by employers of medical transcriptionists.

Health Information Management Technology

Upon completion of the Associate Degree in the Health Information Management Technology, the graduate will be able to:

- Review health records for completeness and accuracy.
- Verify components necessary to ensure appropriateness and adequacy of health care documentation.
- Maintain and compile secondary health information.
- Apply legal principles, policies, regulations, and standards for the control, use, and dissemination of health information.
- Collect, compute, analyze, interpret, and present statistical data related to health care services.
- Code, classify, and index diagnoses and procedures for the purpose of reimbursement, standardization, retrieval and statistical analysis.
- Review, retrieve, and compile health data for reimbursement, quality assessment, patient care research, clinical registers, and other identified informational needs.

- Apply principles of supervision and leadership and the tools used to effectively manage human resources.

Completion of the Associate Degree in Health Information Management Technology will permit graduates to transfer to The Ohio State University for a Bachelor of Science Degree majoring in Health Information Management and Systems.

Medical Coding Specialist Certificate

Upon completion of the Medical Coding Certificate, the student will be able to:

- Review health records for completeness and accuracy.
- Identify components of appropriate and adequate documentation of health care.
- Code, classify, and index diagnosis and procedures for the purposes of reimbursement.
- Abstract information from patient records to complete a claim properly.

Medical Transcription Certificate

Upon completion of the Medical Transcription Certificate, the student will be able to:

- Demonstrate a knowledge and usage of medical terminology as it relates to the science of medicine.
- Demonstrate a knowledge of the diagnostic techniques, indications, values and significant results used in clinical diagnosis and treatment of patients.
- Demonstrate a knowledge of surgery, radiology and pathology procedures.
- Demonstrate proper English usage, grammar, spelling, punctuation and sentence structure.
- Demonstrate a knowledge of the equipment used in transcribing dictation and the ability to use it.
- Recognize, discriminate, and clarify inconsistencies and appropriately edit while transcribing.
- Demonstrate accuracy and productivity in transcribing dictation.
- Demonstrate an understanding of medical ethics and medical legal responsibilities of a transcriptionist.
- Demonstrate an awareness of the environment in which the transcriptionist is employed.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Health Information Management Technology.

- High school graduate or G.E.D. equivalency
- Required high school (or equivalent) courses:
 - Algebra, with a grade of “C” or above
 - Biology, with a grade of “C” or above
 - Chemistry, with a grade of “C” or above
- Placement into ENGL 101 - Beginning Composition
- Placement into MATH 102 - Beginning Algebra I
- Completion of CPT 101 – Computer Literacy I

Heating, Ventilating and Air Conditioning Technology

Heating, Ventilating and Air Conditioning Technology Associate Degree High Pressure Boiler License Training Program Commercial Certificate Residential/Light Commercial Certificate

The Heating, Ventilating and Air Conditioning Technology prepares graduates for a wide variety of occupations in the 150 billion dollar mechanical environment sciences field. Graduates find employment with large commercial heating and air conditioning contractors, residential mechanical contractors, parts and equipment distributors, large commercial and industrial facility maintenance departments, hospital facilities maintenance departments, custom design or new construction markets.

The large increase in new high rise buildings and real estate development within all major cities is a clear indication of the rapid increase in job market opportunities available. Also many of our graduates find employment with equipment manufacturers in research and development. Today's society is demanding more emphasis on the ethical, legal and regulatory requirements relating to environmental concerns that are facing the HVAC industry today and in the future.

The degree program offers the training needed to develop a high degree of technical skill, as well as the ability to work with minimal supervision and a strong sense of personal responsibility. Graduates with field experience and further experience in business management can look to ownership of their own HVAC companies.

The four course High Pressure Boiler License Training program prepares students to take the State of Ohio High Pressure Boiler Operators License examination. Students will still be required to establish actual work experience around high pressure boilers in accordance with State of Ohio requirements. This boiler license program gives technicians the opportunity to progress from licensed boiler operator through many more responsible jobs in industry and commercial applications.

Upon completion of the Associate Degree in Heating, Ventilating and Air Conditioning Technology, the graduate will be able to:

- Create manual and computer graphic representations of HVAC projects.
- Select piping materials and design piping systems.
- Be able to perform designs for commercial and industrial piping systems, including water, steam and refrigeration piping.
- Calculate heat loss and heat gain loads for residential and commercial structures, using National ACCA manuals and computer software.
- Use testing and analyzing instruments, calculate combustion process for various fuels (e.g., natural gas, coal, and fuel oil) to ensure proper operation for the most efficient operation of boilers and furnaces.

- Assist in the selection and application of various residential and commercial HVAC equipment to solve environmental problems.
- Assist in the design of automatic control circuits using electromechanical and electronic control devices.
- Assist in designing preventative maintenance programs for various HVAC systems.
- Research and apply local, state and national codes to various environmental systems.
- Assist in conducting energy audits of residential and commercial structures.
- Test and calculate air flow through system equipment.
- Read control schematics and test control circuits for malfunctions.
- Troubleshoot and repair gas/electric furnaces, fuel oil furnaces, split system air conditioners and heat pumps, humidifiers and electronic air cleaners.

Residential/Light Commercial Certificate

This certificate is designed to provide heating, ventilating and air conditioning professionals specific knowledge and hands-on experience of HVAC equipment and controls. It is recommended that students pursuing this certificate have some experience installing, maintaining and servicing fossil fuel furnaces, heat pumps and air conditioning systems in the residential community.

Upon completion of this certificate, the student will be able to:

- Sit for the federal EPA refrigerant recovery certification examination.
- Service refrigeration systems per federal EPA guidelines.
- Read, interpret and troubleshoot residential HVAC equipment using industry standard wiring diagrams.
- Calculate combustion efficiencies for category I, category IV and fuel oil furnaces.

Commercial Certificate

This certificate is designed to provide heating, ventilating and air conditioning professionals the competencies and hands-on experience needed to properly maintain and service commercial and industrial HVAC equipment to include boilers, chillers, air handlers along with the controls needed to operate this equipment. It is recommended that students pursuing this certificate work in large office and apartment buildings, hospitals and industrial plants.

Upon completion of this certificate the student will be able to:

- Maintain and service commercial and industrial boiler systems using hot water and steam.
- Maintain and service central station refrigeration systems which include centrifugals, screws and reciprocating compressors.
- Operate, calibrate and program existing building automation systems which include pneumatic and direct digital controls.

Hospitality Management

- Hospitality Management Associate Degree**
- Chef Apprenticeship Major**
- Dietetic Technician Major**
- Foodservice/Restaurant Management Major**
- Travel/Tourism/Hotel Management Major**
- Dietary Manager Certificate**
- Lodging Management Certificate**
- Travel Industry Certificate**

The Hospitality Management programs provide quality learning experiences to enhance initial employment opportunities and to improve technical and supervisory skills for career advancement in foodservice, lodging and tourism. Several majors leading to Associate Degrees are available for Chef Apprenticeship, Dietetic Technician, Foodservice/Restaurant Management, and Travel/Tourism/Hotel Management. The programs are accredited by the Commission on Accreditation for Hospitality Management (CAHM). In addition, Dietary Manager, Travel Industry, and Lodging Management Certificates are available.

The Chef Apprenticeship Major is offered in cooperation with the American Culinary Federation Columbus Chapter. It includes the theory-related classroom instruction and on-the-job training required for the National Apprenticeship Training Program of the American Culinary Federation (ACF). Chef apprentices are placed for employment for three years of on-the job training under a professional chef in a restaurant, club, or hotel. At the same time, the apprentices attend classes at Columbus State one full day each week to work toward the Associate in Applied Science Degree. The Columbus State program is accredited by the American Culinary Federation Accrediting Commission. Program graduates qualify as Certified Culinarians through the ACF and as Journeyman Chefs through the U.S. Department of Labor Bureau of Apprenticeship and Training.

The Dietetic Technician Major is currently granted approval status by the Commission on Accreditation/Approval for Dietetics Education of The American Dietetic Association. The seven-quarter program provides practicums coordinated with classroom instruction. Graduates are eligible for technician membership in the American Dietetic Association and qualify to take the national registration exam to be credentialed as a Dietetic Technician Registered (DTR).

The Foodservice/Restaurant Management Major combines classroom instruction, laboratory experience, and hospitality industry work experiences. The Associate Degree program prepares graduates for supervisory positions in a variety of foodservice operations. Certificate-bearing courses leading to the completion of the National Restaurant Association Professional Management Development Program are included. This major is accredited by the American Culinary Federation Accrediting Commission, and graduates can qualify as Certified Culinarians through the American Culinary Federation.

The Travel/Tourism/Hotel Management Major prepares students for a wide variety of positions in travel agencies, hotels, attractions, and related tourism organizations. Required cooperative work experiences and hands-on instruction in computer reservations systems are included in a course of study appropriate for individual growth and advancement in hospitality and tourism.

The 18-credit Dietary Manager Certificate is approved by the Dietary Managers Association. It is open to persons working in the foodservice operation of a healthcare facility that employs a Registered Dietitian (who serves as the preceptor to the student). Persons completing the program are eligible to take the national certification exam to become a Certified Dietary Manager (CDM). Credit hours earned may be applied to an Associate in Applied Science Degree in the Dietetic Technician major or in Multi-Competency Health Technology.

The Lodging Management Certificate program is targeted to individuals already employed in the hospitality industry without formal education in the field, and to those with previous general college coursework who wish to obtain specific education and training to better prepare themselves for entry into the lodging industry. The 15 credit hour program is available totally in web-based distance learning format or in a standard classroom setting, scheduled as day and/or evening classes. Students who successfully complete all courses in the web-based format will also receive a Certificate of Specialization in Rooms Division Management from the Educational Institute of the American Hotel and Lodging Association. All credits can be applied toward the Associate in Applied Science Degree in Hospitality Management at Columbus State.

The Travel Industry Certificate program consists of four courses that gives students a fundamental core knowledge of the travel industry. It prepares students for entry into travel industry positions such as travel agencies, tour companies, airlines, car rental or other travel organizations. Courses satisfactorily completed can be applied to the Associate in Applied Science Degree in the Travel/Tourism/Hotel Management major at Columbus State.

Upon completion of the Associate Degree in Hospitality Management, the graduate will be able to:

- Maintain appropriate standards of professionalism, including ethical behavior and adherence to dress and grooming codes required for the industry.
- Set and maintain high quality service standards for satisfying diverse customers.
- Demonstrate effective communication and interpersonal skills with management, employees and customers.
- Demonstrate skills in training, coaching, team-building, staffing, motivating and supervising employees.
- Perform basic math skills necessary for the industry.
- Utilize computers, on-line resources, and software appropriate to the industry.
- Demonstrate problem solving and critical thinking skills.
- Analyze financial reports and determine appropriate operational procedures.
- Establish and maintain sanitation and safety standards.

Chef Apprenticeship Major

In addition to the general Hospitality Management competencies, a graduate majoring in the Chef Apprenticeship program will be able to:

- Produce high quality food products using appropriate ingredients and equipment.
- Apply nutrition principles to menu planning and food production for a variety of customers.
- Define concepts and procedures for purchasing, receiving, storage, and inventory; and develop specifications for purchase of food and non-food items.
- Demonstrate knowledge of and an ability to comply with laws, rules, and regulations governing foodservice operations.
- Identify methods for controlling bar/lounge operations including beverage identification and responsible legal beverage service.
- Demonstrate a basic knowledge of meeting planning and catering services.
- Plan, organize, and supervise the production and service of food and beverage to customers.
- Demonstrate proficiency in all food production departments in a commercial kitchen.
- Work effectively as a first-line supervisor and trainer in food production.

Dietetic Technician Major

In addition to the general Hospitality Management competencies, a graduate majoring in the Dietetic Technician program will be able to:

- Apply nutrition principles to menu planning and food production for a variety of customers.
- Modify diets and menus to meet the needs of persons requiring texture, energy and nutrient modifications.
- Gather and analyze diet history data and apply this information to nutrition care planning for persons on normal and modified diets.
- Provide basic nutrition education for individuals and groups.
- Plan, organize, and supervise the production and service of food and beverage to customers.
- Define concepts and procedures for purchasing, receiving, storage and inventory; and develop specifications for purchase of food and non-food items.
- Produce high quality food products using appropriate ingredients and equipment.
- Demonstrate knowledge of and an ability to comply with laws, rules and regulations governing foodservice and healthcare operations.
- Monitor and analyze quality of patient care and foodservice operations.

Foodservice/Restaurant Management Major

In addition to the general Hospitality Management competencies, a graduate majoring in Foodservice/Restaurant Management will be able to:

- Produce high quality food products using appropriate ingredients and equipment.
- Apply nutrition principles to menu planning and food production for a variety of customers.
- Define concepts and procedures for purchasing, receiving, storage and inventory; and develop specifications for purchase of food and non-food items.
- Demonstrate knowledge of and an ability to comply with current laws, rules and regulations governing foodservice operations.
- Demonstrate the ability to market and sell foodservice products and services.
- Identify methods for controlling bar/lounge operations including beverage identification and responsible legal beverage service.
- Plan, organize, and supervise the production and service of food and beverage to customers.
- Demonstrate a basic knowledge of meeting planning and catering services.

Travel/Tourism/Hotel Management Major

In addition to the general Hospitality Management competencies, a graduate majoring in Travel/Tourism/Hotel Management will be able to:

- Apply destination geography knowledge as required in hotels and tourism.
- Utilize travel industry reference materials and internet sites.
- Complete detailed customer travel itineraries for individuals and group tours.
- Demonstrate a working knowledge of lodging operations.
- Market and sell hospitality or tourism products and services.
- Demonstrate knowledge of and an ability to comply with laws, rules and regulations governing hospitality/tourism.
- Demonstrate a basic knowledge of meeting planning and catering services.

Specific Program Admissions Information

Listed are additional requirements for admission to the Chef Apprenticeship Major and the Dietetic Technician Major.

Chef Apprenticeship Major

- High school graduate or G.E.D. equivalency
- Placement into ENGL 101 - Beginning Composition
- Placement into MATH 101 - Business Mathematics
- Supplemental application required by the department (May 15 and November 15 deadlines)
- Interview with the Apprenticeship Committee

Dietetic Technician Major

- High school graduate or G.E.D. equivalency
- Recommended high school or equivalent courses: Algebra, Chemistry and Biology

- Completed health statement (see Program Coordinator)
- Placement into DEV 031 or higher
- Placement into ENGL 100 or higher

Human Resources Management Technology

Over the last four decades the human resource (personnel) function has evolved from a “hiring/firing paper processing” job to an extremely complex profession. Human resources management requires the ability to understand how all the facets of human resources management impact on one another and on the organization as a whole. The myriad federal and state laws regulating virtually all aspects of the employee/employer relationship, compounded by conflicting judicial interpretations, requires professionals skilled in understanding and applying these laws to day-to-day management decisions. Wrong decisions, by any representative of the organization, in hiring, discipline, termination, or the way employees are treated may result in a multimillion dollar lawsuit; and, these decisions may cripple a company by costing thousands of dollars even if they win.

In the last two decades senior management has begun to recognize that human resource management professionals, skilled in technical areas such as human resource and labor law, labor relations, policy development and administration, compensation and benefits, and employee counseling, are no longer a cost “drag” on the organization, but make a positive impact on the bottom line. Management has also come to realize that the human resource management professional is everyone in the human resources department, from the secretary, to the benefits administrator, to the employment interviewer, to the director or manager of the department.

Larger companies have human resources management staffs of 5 to 35 people, small and mid-sized companies often have only 1 or 2 people to provide human resources management services; both need skilled human resources professionals to comply with the governmental aspect of the relationship and to minimize the potential for crippling lawsuits.

The purpose of the Human Resources Management Technology is to provide a program that will teach human resources management skills and provide hands-on application in a learning environment that bridges the necessity of academic theory with human resources management in “the real world.” Throughout, the program provides for a strong legal foundation in each area of human resources management; then provides for application of that foundation to the human resources management functions.

Upon completion of the Associate Degree in Human Resources Management Technology, the graduate will be able to:

- Demonstrate in-depth knowledge of the laws governing the employment process and apply these laws to employment related decisions; write a legal employment policy and procedure.
- Research human resources laws, cases, and issues using the Internet and other sources.
- Demonstrate knowledge of manual and automated records and information management systems; design systems that meet industry and professional standards, support the key tasks of the human resources department, and meet the legislative requirements with which the organization must comply.

Interactive Multimedia Technology

Interactive Multimedia Technology Associate Degree

Macromedia Web Design Series I Certificate

The Interactive Multimedia Technology program provides the community with skilled professionals who can create and assemble multimedia products for corporate interactive training, advertising, and marketing purposes. Graduates are able to develop and produce scripts and computer animation, and apply multimedia technology to assemble graphics, text, sound, and video into meaningful productions..

The program supports an industry need to provide multimedia professionals to work in the ever-expanding market of integrated and interactive media communications, with a growing emphasis in Internet World Wide Web page production.

The Interactive Multimedia Technology is designed to impart four critical skills to its graduates:

- Design
- Scripting (source code and application). The types of scripting include: HTML, XML, DHTML, ASP, Cold Fusion, CSS, Java and Javascript
- Familiarity with various design-oriented application programs including: Adobe Photoshop, ImageReady, Premiere, Macromedia Freehand, Flash, Dreamweaver, Director, and Metacreations Infini-3D.
- Experience in both the Macintosh and Windows platforms

By mastering these four disciplines, program graduates will be able to go beyond basic design and layout to complete the “big picture” regarding hierarchical site structure and flowcharting. As a result, program graduates are ready to become innovative professionals who can cross cultural, aesthetic and technical boundaries.

The jobs available in interactive multimedia are varied. Typical job possibilities for program graduates include: multimedia technician; multimedia specialist; multimedia developer; media specialist; instructional design technician; computer graphic artist; 3D computer animator; multimedia illustrator; desktop media publisher; interface designer; animator; script integrator; digital journalist; and presentation artist.

Upon completion of the Associate Degree program in Interactive Multimedia Technology, the graduate will be able to:

- Explain the use and function of various multimedia components.
- Define and implement hypertext and hyperlinks.
- Create navigation controls.
- Edit audio and video digital media.
- Formulate electronic imaging and image processing solutions.

- Develop interactive multimedia presentations for distributions on CD-ROM disks.
- Produce multimedia authoring, bringing together text, graphic animation, screen images, video, and audio.
- Plan and implement an interactive multimedia project.

The Macromedia Web Design Series I Certificate includes a series of industry-specific “skill-builder” courses targeted for the multimedia professional. These courses parallel the manufacturers’ “Authorized Training” curricula, utilizing their instructional design and learning materials (instructor and/or student guides).

Interpreting/American Sign Language Education Program

Interpreting/American Sign Language Education Associate Degree American Sign Language/Deaf Studies Certificate

The Interpreting/ASL Education Associate Degree program prepares graduates for entry-level interpreting/ASL positions where persons who are deaf or hard of hearing and hearing persons must communicate with each other. The Associate Degree program offers extensive course work in American Sign Language. A language lab helps students develop their skills during six core skill-building courses. A two-quarter practicum gives students opportunities to gain first-hand experience applying their interpreting/transliterating skills and knowledge of professional ethics under the supervision of an agency interpreter.

To qualify for admission to the Associate Degree program, students must (1) have a good command of spoken English; (2) agree to adhere to the Code of Ethics established by the Registry of Interpreters for the Deaf, Inc.; (3) attend a Mandatory Information Session conducted by the coordinator to complete an application form for the program; and (4) agree to complete a minimum number of ITT courses each quarter.

Upon completion of the Associate Degree in Interpreting/ASL Education, the graduate will be able to:

- Demonstrate a grasp of the unique skills required for interpreting in specialized settings (e.g., oral, medical, mental health, deaf-blind, etc.).
- Demonstrate an understanding of the interpreting/transliterating Code of Ethics
- Demonstrate basic competency with American Sign Language (ASL) as well as a basic understanding of signed English.
- Put signed ASL messages accurately into spoken English, and put spoken English messages accurately into ASL.
- Put signed English messages accurately into spoken English, and put spoken English messages accurately into signed English.
- Explain the role of the interpreter/transliterating to both deaf and hearing consumers.
- Demonstrate knowledge of the Deaf Community and sensitivity toward the cultural traditions of the community.
- Assess the deaf consumer's preferred mode of communication.
- Analyze and adapt the physical aspects of the interpreting setting or be able to adapt to physical aspects that cannot be changed.
- Demonstrate knowledge of the various agencies/organizations serving the Deaf Community.

The CSCC Interpreting/American Sign Language Education Program is approved by the Ohio State Department of Education. Students who successfully complete the Interpreting/American Sign Language Education Associate Degree are eligible to receive their Educational Interpreting License from the Ohio State Department of Education.

Specific Program Admissions Information

Listed below are additional requirements for admission to Interpreting/ASL Education Program.

- Placement into ENGL 101 - Beginning Composition or above, DEV 044, and MATH 102 via Compass Test
- Complete the form "Application to Become an Interpreting/ASL Education Major". This form can ONLY be obtained from the coordinator during a Mandatory Information Session. These sessions are held twice during winter, spring, and summer quarters. Contact the Coordinator of the Interpreting/ASL Education program for dates and times of the next Mandatory Information Session.
- Submit all college transcripts to the Registrar's Office

Note: American Sign Language/Deaf Studies Certificate candidates do not need to interview with the Interpreting /ASL Education Program Coordinator.

American Sign Language/Deaf Studies Certificate

For those individuals wanting to learn about people who are Deaf, their unique culture and community, and be able to converse with them via American Sign Language (ASL), we offer a certificate program. This program does not prepare individuals to become interpreters; it is strictly a program to enhance/establish communication skills and to learn about deafness. An interview with the Coordinator is **NOT** required. Learners simply register for the courses. Once all courses have been successfully completed, learners will out a form to receive their certificate.

Individuals successfully completing the following seven courses (33 credit hours) will be issued a certificate.

For additional information about the American Sign Language/Deaf Studies Certificate, please see the Interpreting/ASL Education Program Coordinator.

* Registration for the following 7 courses may be restricted to Interpreting/ASL Education majors for the first two weeks of registration. Seats not taken by majors will be released to any non-major students meeting the prerequisites 14 days after the first day of registration. Contact the Coordinator for registration dates for non-majors.

Landscape Design/Build

The Landscape Design/Build program prepares graduates for a wide range of jobs with landscape design firms, materials wholesalers and retailers, commercial and private landscape facilities departments, and with landscape contractors. Landscape Design/Build students learn plant selection, materials specification, landscape design, landscape construction estimating and landscape maintenance procedures. Students in the program share common courses in surveying, construction materials, and drafting with other Construction Sciences Department students, giving the students a strong sense of the construction industry.

The Landscape Design/Build program provides students with a solid educational background in communication skills, math, computer literacy and operations, and humanities and behavioral sciences.

Upon completion of the Associate Degree in Landscape Design/Build, the graduate will be able to:

- Assist in the preparation of contract/design documents and construction specifications.
- Assist landscape professionals in managing and implementing the construction process.
- Select suitable herbaceous and woody plants and properly install these plants.
- Estimate landscape project costs by utilizing take-off and costing methods.
- Be able to read and interpret plans and drawings.
- Assist in the survey and stake out of the job site.
- Create manual and/or computer generated drawings of landscape projects.
- Prepare presentation drawings using a variety of graphic techniques.
- Maintain both commercial and residential landscapes.
- Construct landscapes and outdoor environments.
- Design and install irrigation systems.
- Identify pests and diseases and recommend their controls as they relate to the landscape.

Law Enforcement

Law Enforcement Associate Degree

Corrections Major

Law Enforcement Major

Law Enforcement Management Major

Law Enforcement Major - Academy Track

Persons trained for the law enforcement field are in high demand in many public and private organizations.

Columbus State's Law Enforcement program teaches students the technical skills they need to enter or advance in a wide variety of positions in criminal justice. Four Associate Degree majors give students a range of options to meet their personal career goals.

The Law Enforcement major prepares students for a variety of careers in federal, state, or local law enforcement agencies. The Law Enforcement Major - Academy Track offers additional training required by the Ohio Peace Officers Training Council (OPOTC) for certified peace officers. Graduates of the Academy track are eligible to take the OPOTC certification exam.

The Law Enforcement Management Major is intended for students who currently possess Ohio Peace Officer Certification or an Associate Degree or higher. At least one year of law enforcement work experience is highly recommended before entering. This major is designed to prepare in-service officers to assume managerial positions within law enforcement agencies.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Academy Track Program.

- Have a high school diploma or GED certificate
- Pass a physical
- Take a personality factor inventory
- Submit to a criminal history check (students with prior felony convictions may be excluded from the program; contact the department chairperson for more information)
- Possess a valid Ohio drivers license
- Complete a supplemental application required by the department

The Corrections major trains students for careers in probation, parole, correctional institutions, community-based correctional programs, and social service agencies.

Upon completion of the Associate Degree in Law Enforcement, the graduate will be able to:

- Locate and apply criminal law correctly.
- Prepare required reports accurately and in a concise, readable style.
- Prepare cases for trial and professionally testify in a court of law.

Corrections Major

In addition to the general Law Enforcement competencies, a graduate majoring in Corrections will be able to:

- Prepare presentence reports and other required reports accurately.
- Demonstrate knowledge of effective correctional institution security measures.

Law Enforcement Major

In addition to the general Law Enforcement competencies, a graduate majoring in Law Enforcement will be able to:

- Demonstrate proper arrest procedures.
- Locate applicable case law.
- Process information at an accident scene and correctly complete required reports.
- Identify hazardous materials and initiate proper response.

Law Enforcement Management Major

In addition to the general Law Enforcement competencies, a graduate majoring in Law Enforcement Management will be able to:

- Develop contingency plans for emergencies or other events requiring rapid and/or extensive deployment of police resources.
- Effectively utilize research in reaching managerial decisions.
- Prepare a community policing strategy to meet the needs of a specific neighborhood.
- Participate in a collective bargaining process.
- Recognize areas of potential legal liability and prepare policies, directives and training programs to minimize exposure to litigation.
- Demonstrate effective managerial decision-making skills.

Law Enforcement Major - Academy Track

In addition to the general Law Enforcement competencies, and the Law Enforcement major competencies, a graduate majoring in Law Enforcement - Academy Track will be able to:

- Understand and handle safely the double action revolver, the semi-automatic pistol, and the shotgun.
- Demonstrate proficiency with the handgun and shotgun to current Ohio Peace Officer Training Council (OPOTC) standards for qualification.
- Perform safe and effective driving maneuvers to current OPOTC standards.
- Demonstrate basic crowd control techniques and riot formations.
- Demonstrate recommended self-defense techniques.

PROGRAMS OF STUDY

Legal Assisting

Legal Assisting Associate Degree Legal Assisting Certificate (Post Baccalaureate Option) Workers' Compensation Certificate

Due to the explosive growth of legal services now being requested in all sectors of our economy, there is a continuous demand for well trained personnel in all facets of the legal assisting process. The need for legal assistants is so great that it is estimated that one paralegal will assist every three or four attorneys and in some areas of practice, such as corporate legal departments, there will be one legal assistant hired for every attorney.

The nature of the Legal Assistants position in the legal community requires individuals with a well rounded educational background. Critical thinking and excellent communication skills are essential competencies of a Legal Assistant and are included in courses in English, Mathematics, Humanities, Social Science and Basic Science.

The technical curriculum has been designed to provide students with knowledge and skills in the areas of: the role of a legal assistant, ethical requirements, legal research, analysis, the preparation of legal documents, litigation practice and procedure, real estate transactions, family law, administrative law, criminal law, and probate law and practice.

The Legal Assisting Certificate (Post Baccalaureate Option) is designed for persons who currently possess a Bachelors, Masters or P.H.D. degree, students with an associate degree and work experience in a legal environment will be considered after an interview with the department chairperson.

Legal assistants have traditionally been utilized in legal environments that are intensive in both client contact and document preparation. Workers' compensation is an example of a legal arena that has a history of legal assistant employment. The workers' compensation system processes and adjudicates claims, as well as investigates abuses in the system, establishes premiums, and works with self-insured and state fund employers. The Columbus State Community College Legal Studies Department offers a Departmental Certificate designed to teach legal assistants the skills they need to obtain employment from state agencies, third party administrators, attorneys, and employers. In order to enroll for the Workers' Compensation Certificate, the student must have completed an Associate or Bachelor Degree in Legal Assisting, or apply to the Legal Studies Department Chairperson for permission to take courses based on legal assisting work experience.

Upon completion of the Associate Degree in Legal Assisting, the graduate will be able to:

- Demonstrate proficiency in manual and computer assisted research of legal questions and incorporate the same into properly cited memoranda of law.
- Demonstrate an understanding of the legal and ethical responsibilities of a legal assistant.

- Demonstrate an ability to use municipal, county, state, and federal clerks of court and other recording offices.
- Prepare deeds, notes, and other documents for residential real estate transfer.
- Draft documents required to complete family law matters.
- Draft pleadings, motions and other documents within the applicable rules of evidence and procedure to prepare and complete civil and criminal litigation.
- Prepare documents for use in corporate, partnership and other business related matters.
- Draft wills, trusts, and other documents necessary for estate administration.
- Describe the legislative and judicial functions of administrative agencies.

NOTE: Legal assistants may not sign legal documents, appear in court or give legal advice. All activities in legal matters must be supervised by a licensed attorney.

Logistics

Logistics Associate Degree Purchasing Major

Logistics (or distribution) is the term used to describe all of the activities related to the movement of materials from the time they're manufactured to when they reach their ultimate consumer. Logistics professionals manage all aspects of the "pipeline" that keeps goods and services moving. Columbus' central location has seen its development as a strategic distribution hub. The greater Columbus metropolitan area is home to many distribution operations including centers for The Limited Inc., Spiegel, Eddie Bauer, JCPenney, Consolidated Stores Corporation and McGraw-Hill Companies.

The Purchasing Major is designed to provide focused skills in purchasing and negotiation to students interested in this field. This major is built upon a solid foundation in current logistics management theory and practice.

Logistics graduates may expect entry-level, first-line management positions as supervisors and managers in such areas as traffic and transportation, inventory control, warehousing, purchasing, materials control, traffic and operations management.

Columbus State Community College is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) for the offering of its business programs that culminate in the Associate of Arts, Associate of Science, and Associate of Applied Science degrees.

Upon completion of the Associate of Applied Science Degree in Logistics, the graduate will be able to:

- Describe the various functions that comprise logistics and describe the interrelationship between them and other functional areas within a company.
- Be able to make channel-related decisions to satisfy industrial and consumer wants in both domestic and international markets.
- Demonstrate knowledge of logistics terminology and technologies including inventory techniques, bar-coding systems, picking and delivery processes, and storage and sorting systems.
- Demonstrate knowledge of the function and operation of warehouses and distribution facilities.
- Explain the role of inventory and production control.
- Describe the traffic management function and its role in carrier selection and rate determination and negotiation.
- Demonstrate knowledge of state and federal laws that impact the distribution function, including knowledge of common carrier obligations.
- Participate in the development of an integrated plan of action consistent with established logistics goals.
- Understand the analytical tools useful in logistics and describe the relationship between them and other functional areas within a company.

PROGRAMS OF STUDY

Purchasing Major

In addition to the Logistics competencies, a graduate with a Purchasing major will be able to:

- Explain and implement a “Lowest Total Cost” plan
- Explain and develop purchasing objectives
- Explain how Policies and Procedures are utilized to affect purchasing plans
- Explain how Purchasing Organizations should be utilized
- Explain how use of specifications, descriptions and standards are utilized to help determine “right quality”
- Explain how the industrial purchasing function operates
- Explain how the “not for profit” purchasing function operates
- Explain how and why “make vs buy” and “outsourcing” decision are made
- Develop a supplier management plan that ensures development of, evaluation of, and selection of “right supplier”
- Explain pricing principles and what methods are best utilized for determining the “right price”
- Explain the different types of contracts and under what conditions and situations each works best
- Explain how negotiations can help resolve non-price issues that help support the “lowest total cost” principle
- Explain how, why and when international purchasing is best
- Develop and present a purchasing strategic and tactical plan
- Develop and present a buying plan and inventory management plan that ensures both “right quantity” and “right time”
- Explain the ethical and legal issues that effect purchasing
- Explain the “what”, “why” and “how” of negotiation
- To explain and develop negotiation “strategies”, “tactics” and “objectives”

Marketing

Marketing Associate Degree Customer Service Major Direct Marketing Major Direct Marketing Certificate E-Commerce Certificate

Marketing is at the heart of what every business must do to be successful: get and keep customers.

Marketing professionals are responsible for knowing how to produce, price, promote and distribute goods and services. Program graduates enjoy tremendous career opportunities in such diverse areas as product management, advertising, market research, public relations, customer service and sales.

The Marketing program provides a strong foundation in fundamental marketing concepts and principles. The advanced courses provide the opportunity for studying topics of particular interest to the student in such areas as consumer behavior, public relations, and advanced sales techniques.

The Customer Service and Direct Marketing majors build on a solid foundation in marketing to provide advanced skills in these specialized areas. The Customer Service major focuses on customer retention, call center supervision, and customer loyalty and the specific financial impact of these areas on corporate profitability. The Direct Marketing major provides graduates a survey of the major components of direct marketing including creative design, list selection, database management and financial evaluation of direct marketing programs. Particular emphasis is placed on interactive technologies and their impact on direct marketing.

Columbus State Community College is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) for the offering of its business programs that culminate in the Associate of Arts, Associate of Science, and Associate of Applied Science Degrees.

Upon completion of the Associate Degree in Marketing, the graduate will be able to:

- Demonstrate knowledge of the issues involved in making marketing decisions and the environmental forces that impact these decisions.
- Demonstrate knowledge of the major marketing communications functions (e.g. advertising, public relations).
- Understand the major components of the marketing mix: price, product, promotion and distribution.
- Understand the market research process and be able to use market research results to effect market decisions.
- Demonstrate knowledge of how consumer behavior impacts overall marketing strategy.
- Comprehend the sales process and know how to prepare effective sales presentations.
- Identify issues that arise in global marketing and describe the basic mechanisms for entering foreign markets.
- Understand various consumer and industrial systems of distribution.

PROGRAMS OF STUDY

- Understand the basics of customer service for both internal and external customers.
- Participate in the development of an integrated plan of action that is consistent with established marketing goals and strategies.

Customer Service Major

In addition to the Marketing competencies, a graduate with a Customer Service major will be able to:

- Analyze customer requirements.
- Handle problem transactions and difficult customers.
- Apply oral and written communication skills to problem solving.
- Describe the elements of effective customer service as they relate to customer acquisition, growth and retention.
- Understand the basic operations of a telephone call center.
- Demonstrate the interpersonal and supervisory skills necessary for successful communication among employees and between customer service and customers.
- Be able to lead, motivate and empower teams of call service representatives.

Direct Marketing Major

In addition to the Marketing competencies, a graduate with a Direct Marketing major will be able to:

- Define and develop a target market and select the most appropriate methods to reach it.
- Select and use the appropriate methodology to assess the costs of direct marketing efforts.
- Understand and be able to utilize interactive direct marketing media.
- Plan and implement telemarketing campaigns for purposes of direct selling, fund-raising, and business-to-business sales.
- Integrate creative activities and outcomes with appropriate direct marketing techniques.

E-Commerce Certificate

This certificate is designed to provide marketing professionals a broad-based understanding of the various components of e-commerce including consumer behavior, electronic payment systems, elements of multimedia design, interactive marketing communications and intellectual property law. It is recommended that students pursuing this certificate have significant educational background and/or work experience in general marketing principles, retailing, finance and accounting.

Massage Therapy

Massage Therapy Associate Degree Massage Therapy Certificate

The Massage Therapy program meets all requirements to sit for the State of Ohio Medical Board examination for Massage Therapy. It prepares the students to work in the massage therapy field. From health and fitness environment, salon and day spas, medical offices, private practice and the many other opportunities available to licensed massage therapist.

Upon completion of the Associate Degree in Massage Therapy, the graduate will be able to:

- Be able to perform appropriate touch therapy.
- Effectively communicate the beneficial effects of massage to their patients.
- Assess and appropriately treat disorders of the human body which may benefit from massage.
- Establish and maintain appropriate patient and business records.
- Establish and operate their own massage therapy practice, or integrate into a multidisciplinary environment.
- Communicate effectively with other health care providers as to the advisability of massage.
- Make effective use of complimentary therapeutic modalities in the treatment of ailments of the human body.
- Inform patients in the proper care and prevention of musculoskeletal injuries.
- Provide ethical care for their patients.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Massage Therapy program:

- High school graduate or G.E.D. equivalency
- Placement into ENGL 101 - Beginning Composition
- Placement into MATH 101 - Business Math
- Student must obtain a Certificate of Preliminary Education from the State Medical Board of Ohio

Mechanical Engineering Technology

The Mechanical Engineering Technology program is designed to train students in technology based, entry-level, occupations related to the mechanical and manufacturing engineering fields. Many diverse occupations find their origins in the mechanical field. These occupations include a variety of titles in the areas of drafting, production, testing, design, and analysis, to name but a few. Students graduating with an Associate of Applied Science Degree in the Mechanical Engineering Technology are qualified to play a support role in engineering professions in the industrial, consulting, scientific research, and manufacturing communities.

Upon completion of the Associate Degree in Mechanical Engineering Technology, the graduate will be able to:

- Apply basic knowledge of manufacturing and engineering technology, procedures, symbols, and graphics skills to the reading and production of sketches, drawings, blueprints and specifications, assist in establishing tolerances related to production, by utilizing manual and/or computerized methods.
- Make significant contributions to the production of manufactured goods by utilizing skills and knowledge of: drafting, computers and automation technology, sound manufacturing practices, quality measures, machine capabilities/limitations, and assist in the selection of product equipment.
- Contribute to the solution of engineering and design problems involving mechanical systems, by utilizing knowledge and skills in electrical and mechanical principles, material performance and selection, basic machine elements, sound design and engineering practices. Apply computers and computer language to the solution of engineering problems.
- Utilize various quality tools and techniques such as SPC and TQM to support production in the manufacturing area and other applicable work situations to improve any and all quality measures.

Medical Assisting

The Medical Assisting program prepares graduates to work as medical assistants primarily in ambulatory settings such as medical offices and clinics. Medical assistants are multi-skilled professionals who assist in patient care management. They perform a broad range of clinical and administrative duties, including scheduling and receiving patients, establishing and maintaining medical records, performing secretarial skills, handling telephone calls, writing correspondence and managing finances. Medical assistants are a valuable member of the health-care team, and job opportunities are numerous in central Ohio and nationwide. Graduates of the program are eligible to take the National Certification examination which is administered twice yearly.

Upon completion of the Associate Degree in Medical Assisting, the graduate will be able to:

- Prepare and maintain records.
- Apply computer concepts for office procedures.
- Perform medical transcription.
- Take vital signs.
- Perform first aid and CPR.
- Interview, take patient histories and prepare patients for procedures.
- Assist the physician with examinations and treatments.
- Use quality control procedures.
- Perform selected tests that assist with diagnosis and treatment.
- Screen and follow up patient test results.
- Prepare and administer medication as directed by the physician.
- Dispose of controlled substances in compliance with government regulations.
- Take Inventory of equipment and supplies.
- Instruct patients with special needs.
- Teach patients methods of health promotion and disease prevention.
- Implement Current Procedural Terminology and ICD-9 coding.
- Analyze and use current third-party guidelines for insurance and third-party reimbursement.
- Provide necessary leadership, direction and documentation to effectively supervise people.
- Understand the medical-legal aspects of the practice of medicine

Specific Program Admissions Information

Students who wish to be admitted to the Medical Assisting Program must contact a health advisor for pre-program advising. Students who wish to attend school part-time must complete non-Medical Assisting courses prior to entering the program and are expected to stay on schedule with their program of study requirements. Currently, admission is open to all interested students. Students are admitted during the summer and winter quarters of each year for the spring and autumn quarters.

Listed below are additional requirements for admission to the Medical Assisting program.

- High school graduate or G.E.D. equivalency
- Placement into MATH 101 – Business Mathematics
- Placement into ENGL 101 - Beginning Composition
- High school Biology with a “C” or better or college equivalent
- Placement out of reading requirements
- Attend Medical Assisting program information session

Medical Laboratory Technology

Medical laboratory technicians play an important role in the diagnosis and treatment of disease. They perform a variety of laboratory tests, such as chemical analysis of body fluids, classification of blood cells, identification of disease producing microorganisms, and the selection of compatible donor blood for transfusion. The Medical Laboratory Technology Associate Degree program prepares students to work in a variety of laboratory settings. Graduates are employed in hospitals, independent laboratories, and clinics, as well as veterinary, research, environmental science and quality assurance laboratories. They also pursue careers in technical consultation, customer service, marketing and sales.

The first six quarters of the Medical Laboratory program provide the students with entry-level knowledge and skills in clinical chemistry, clinical microbiology, hematology, immunohematology, immunology, and phlebotomy in a classroom laboratory setting. This training is enriched during the seventh quarter of the program when the students have the opportunity to apply their previously acquired knowledge and skills in an actual working environment. Affiliated hospital and private laboratories in and surrounding Columbus within an approximate sixty-mile radius will be utilized for this ten-week clinical practicum. Because of the nature of the work, the program emphasizes safety and accident prevention.

Graduates are eligible to take the American Society of Clinical Pathologists Board of Registry Medical Laboratory Technician Examination, and the National Certification Agency for Clinical Laboratory Technology Registry Examination. Graduates may also advance in the field to become a technologist or specialist by pursuing additional education or technical experience.

The Medical Laboratory Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). The program has produced over 700 graduates in the past 25 years who have consistently met or exceeded the national average on credentialing examinations. It is recognized as a "Program of Excellence" by the Ohio Board of Regents.

Upon completion of the Associate Degree in Medical Laboratory Technology, the graduate will be able to:

- Perform routine collection and processing procedures for biological specimens.
- Perform routine analytical techniques on body fluids using automated equipment and/or manual methods with accuracy and precision.
- Follow prescribed strategies to recognize technical or instrumental problems, identify direct causes, and make simple corrections when they are indicated.
- Perform and monitor quality control to evaluate analytical procedures within predetermined parameters.
- Perform preventive maintenance of laboratory instruments by referring to appropriate sources/reference materials.
- Relate laboratory findings to common disease processes.
- Log in specimens, keep accurate records, prepare reports, and transmit reports clearly and completely.

- Follow prescribed safety procedures in all areas of laboratory work.
- Meet requirements to take a national certifying examination for medical laboratory technicians.
- Apply basic scientific principles in learning new techniques and procedures.
- Demonstrate professional conduct and interpersonal communication skills with patients, co-workers, and other health care professionals. Recognize and act upon one's need for continuing education as a function of growth and maintenance of professional competence.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Medical Laboratory Technology.

- High school graduate or G.E.D. equivalency
- Required high school (or equivalent) courses:
Algebra, grade of "C" or above
Biology, grade of "C" or above
Chemistry, grade of "C" or above
- Placement into ENGL 101, Beginning Composition
- Placement into MATH 103 - Beginning Algebra II
- Completed health statement

Medical Legal Assisting

(Associate of Technical Studies Degree)

Many changes are occurring within the health care industry resulting in the need to expand the skills necessary to be a productive health care professional. An integration of legal and medical training gives either the legal assistant or health care professional the skills necessary to broaden the opportunities for medicolegal employment. A medical legal assistant is a professional with sufficient legal and medical knowledge to understand both the legal and medical implications of health related issues. Insurance underwriters, personal injury attorneys, workers' compensation and social security administrators, and hospital risk managers are only a few of the employment possibilities for a student graduating with a degree in Medical Legal Assisting. The combination of the legal assisting and health information management curriculum provides the basic proficiencies the student will need to be successful in this profession.

The nature of the medical legal assistant's position in the medicolegal community requires individuals with a well-rounded educational background. Critical thinking and excellent communication skills are essential competencies of a legal medical consultant and are included in courses in English, mathematics, humanities, social science and basic science.

The technical curriculum has been designed to provide students with knowledge and skills in the area of: the role of a medical legal consultant, ethical requirements, legal research, analysis, the preparation of legal documents, litigation practice and procedure.

Upon completion of the Associate Degree in Medical Legal Assisting the graduate will be able to:

- Demonstrate proficiency in manual and computer-assisted research of legal questions and incorporate the same into properly cited memoranda of law.
- Demonstrate an understanding of the legal and ethical responsibilities of a legal medical consultant.
- Demonstrate an ability to use municipal, county, state, and federal clerks of court and other recording offices.
- Draft pleadings, motions, and other documents within the applicable rules of evidence and procedure to prepare and complete civil litigation.
- Describe the legislative and judicial functions of administrative agencies.
- Review health records for completeness and accuracy.
- File, maintain, and compile primary and secondary health information.
- Apply legal principles, policies, regulation, and standards for the control and use of health information.
- Collect, compute, analyze, interpret, and present statistical data related to health care services.
- Review, retrieve, and compile health data for reimbursement, quality assessment, patient care research, clinical registers, and other identified informational needs.

NOTE: Medical Legal Assisting may not give any legal advice. All activities in legal matters must be supervised by a licensed attorney.

Mental Health/Chemical Dependency/ Mental Retardation

Mental Health Track

Chemical Dependency Track

Mental Retardation Track

Advanced Level Chemical Dependency Certificate

Community Living Specialist Certificate

Entry Level Chemical Dependency Certificate

Foster Parent Treatment Specialist Certificate

With social, economic, and moral issues constantly changing, society is faced with increasingly complex problems which require professional, caring helpers. This has created a high demand for Human Service specialists. These Human Service specialists have a professionally and personally challenging role in providing services to both children and adults with a variety of problems and/or disabilities. Graduates work with persons with mental retardation and/or developmental disabilities, emotional/mental difficulties, and chemical dependency. Specialists also work in consultation with psychologists, educators, psychiatrists, and social workers.

Innovative educational approaches, including videotaping, simulated situations, role-playing and discussion in small group seminars, are used to help students develop the knowledge, therapeutic skills and necessary attitudes to succeed in this profession. The program stresses the characteristics graduates will need to be effective helpers.

The Associate Degree program enables students to specialize in one of the following educational tracks during their second year: Mental Health, Chemical Dependency, and Mental Retardation. The six-quarter, three-track program includes 560 hours of hands-on experience under the direct supervision of professionals in local agencies. Internships include the following community placements: mental health centers, group homes, state psychiatric hospitals, schools, workshops, private hospitals, rehabilitation facilities and drug and alcohol treatment centers.

Graduates who complete the Associate Degree program are eligible to apply for a Certificate of Registration as a social worker assistant with the State of Ohio Counselor and Social Worker Board. The Mental Health/Chemical Dependency and Mental Retardation program is accredited by the Council for Standards in Human Service Education.

The program also offers the following certificate programs:

Advanced Level Chemical Dependency Certificate

Forty-nine (49) credit hour program for students with an associate, bachelor or master degree in a related field. Completion of this certificate will meet 270 hours of acceptable chemical dependency training for CCDC II and CCDC III. Students will have three supervised clinical placements including one with dual-diagnosed client population.

Community Living Specialist Certificate

A thirty-nine to forty-one (39-41) credit hour program for students who have, in the past, struggled with their own severe mental illness. Students will make use of their coping skills to work effectively with persons with severe mental illness. Students will do two clinical placements on a mental health community treatment team.

Entry Level Chemical Dependency Certificate

A forty-five (45) credit hour program for students who are currently employed as a primary counselor in the chemical dependency field, with no prior college degree. Completion of this certificate will meet acceptable chemical dependency training for CCDC I and CCDC II levels. Students will have two supervised clinical placements with clients who are chemically dependent.

Foster Parent Treatment Specialist Certificate

A fifty-six (56) credit hour program for students who desire to be a foster parent to youths who have special needs. Students will have a supervised practicum experience in a community agency that serves the needs of youths. Students must be 21 years of age, have space in their home for a young person, and meet additional licensing requirements of the Ohio Department of Human Services.

COURSES MHCR 112 , MHCR 115, MHCR 135 , MHCR 191, MHCR 241 , MHCR 247, MHCR 258, MHCR 291 AND MHCR 298 ARE APPROVED BY OHIO DEPARTMENT OF MENTAL RETARDATION AND DEVELOPMENTAL DISABILITIES IN OBTAINING ADULT SERVICE CERTIFICATION.

ALL TECHNICAL COURSES IN THE CHEMICAL DEPENDENCY TRACK ARE ACCEPTED BY THE OHIO CHEMICAL DEPENDENCY COUNSELOR'S CREDENTIALING BOARD AND FOR RENEWAL OF SOCIAL WORK LICENSURE.

Upon completion of the Associate Degree in Mental Health/Chemical Dependency/Mental Retardation, the graduate will be able to:

- Gather client data using observation, interviewing, standardized assessment tools, activities, and/or record review.
- Keep data and monitor progress.
- Formulate client assessments using an adaptive or social functional skill model
- Develop treatment programs and discharge plans based on assessments of client needs.
- Teach clients to perform and utilize a variety of activities.
- Use counseling skills (including reflection of feelings, encouraging, paraphrasing, summarizing, reflection of meaning, interpretation, directives, logical sequences, self-disclosure, information/advice, feedback, confrontation, immediacy and concreteness).
- Write progress reports, social histories, transfer/closing summaries, and documentation forms.
- Make client referrals to and follow up on appropriate resources in the community.
- Systematically train clients in job skills.

- Use anger management skills.
- Use service coordination/case management skills.
- Co-lead educational, support, activity and substance abuse groups in a variety of settings.
- Assemble and complete a portfolio.

In addition to the general Mental Health/Chemical Dependency/Mental Retardation competencies, a graduate in the Mental Health/Mental Retardation Tracks to provide supported employment to persons with MR/DD and/or severely mentally disabled persons will be able to:

- Utilize job development and job coaching skills to provide support employment to persons with MR/DD and / or severely mentally disabled persons.
- Develop and implement activities to utilize as a tool in helping relationships.
- Plan for, co-lead, and process therapeutic groups.
- Teach/train severely mentally disabled persons and or persons with MR/DD to perform activities of daily living.

In addition to the general Mental Health/Chemical Dependency/Mental Retardation competencies, a graduate in the Chemical Dependency Track will be able to:

- Recognize and identify significant signs and symptoms of chemical dependency using a variety of assessment tools.
- Identify varying levels of care for chemical dependency treatment and common criteria for appropriate referral.
- Identify relapse dynamics/triggers and utilize a variety of intervention strategies.
- Describe the philosophy and benefits of 12-step support groups in the recovery process.
- Plan for, co-lead, and process therapeutic groups.

MH/CD/MR has articulation agreements with the following four year colleges/universities: Ohio Dominican College, Otterbein College, Capital University, Franklin University, and University of Cincinnati.

Because students and workers in the health care field may be exposed to infectious materials and communicable diseases, the program emphasizes safety and prevention.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Mental Health/Chemical Dependency/Mental Retardation program.

- High school graduate or G.E.D. equivalency
- Completion of the following five courses with a grade of "C" or above:
 - MHCR 111 - Introduction to Mental Health
 - MHCR 112 - Introduction to MR/DD
 - MHCR 114 - Introduction to Chemical Dependency
 - MHCR 115 - Interviewing in Human Services
 - MHCR 117 - Documentation Skills

- Must meet requirements as outlined in the program Admissions Policy
- Interview with the Mental Health/Chemical Dependency/Mental Retardation Admissions Coordinator, following satisfactory completion of all of the above.

Core curriculum for Mental Health/Chemical Dependency/ Mental Retardation

Mental Health and Mental Retardation Tracks

COURSE	CR
Quarter 1	
ENGL 101	Beginning Composition 3
PSY 100	Introduction to Psychology 5
MHCR 111	Introduction to Mental Health 4
MHCR 112	Introduction. to Mental Retardation 3
MHCR 114	Introduction. to Chemical Dependency 4

Microcomputing Technology

Networking Technician

PC Technician

Web Technician

PC Specialist Certificate

Also see: Computer Programming Technology

Revolutionary new computer hardware and software programs have created a growing demand for computer-literate administrative assistants and microcomputer support professionals. Many businesses, especially smaller companies, are looking for individuals who have the computer skills and knowledge to increase the productivity and efficiency of the organization.

Columbus State Community College offers a two-year Associate of Applied Science degree in Microcomputing Technology in three specific areas. The six-quarter programs are designed to provide students with the opportunity to develop increased skills in a variety of business-related applications including word processing, spreadsheets, database, graphics, communications, networking, information presentation, and Web concepts.

Columbus State Community College is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) for the offering of its business programs that culminate in the Associate of Arts, Associate of Science, and Associate of Applied Science Degrees.

Upon completion of the Associate Degree in Microcomputing Technology – Networking Technician, the graduate will be able to:

- Use the basic terms and concepts of information systems for business applications.
- Prepare letters, reports, tabulations, and business forms using Word.
- Create and modify spreadsheets, including graphics, database, and export/import functions in Excel.
- Create and modify database files, select and sort data, and produce reports using Access.
- Create and modify presentations
- Use DOS and Windows operating system commands to perform basic system operations, such as: formatting disks; copying, moving, deleting, and renaming files; creating and changing file directories; backing up and restoring system files; creating and modifying Configuration Files.
- Participate as a part of a group on a typical business system project.
- Identify the fundamentals of data communications and computer networks.
- Identify the basic communication theory as applied to both digital and analog communication networks.
- Identify the characteristics of the OSI layered network model, characteristics of wide area and local area data communication networks.
- Complete a series of exercises to prepare for a popular vendor certification program.

- Perform essential network administration tasks in MS Windows 2000.
- Design and develop relational databases including recursive relationships, transferability, referential integrity, and the components of an entity relationship diagram.
- Install, configure, manage, and support a network infrastructure using Windows 2000 Server.
- Select (with justification), install, configure, operate, and provide operational maintenance of a personal computer system (including hardware and software) for business applications.
- Specify the requirements for a personal computer system, including hardware, software, data management, data processing policies and procedures, training, operation, and maintenance.

Upon completion of the Associate Degree in Microcomputing Technology – PC Technician, the graduate will be able to:

- Use the basic terms and concepts of information systems for business applications.
- Prepare letters, reports, tabulations, and business forms using Word.
- Create and modify spreadsheets, including graphics, database, and export/import functions in Excel.
- Create and modify database files, select and sort data, and produce reports using Access.
- Create and modify presentations
- Develop and maintain a web page.
- Use DOS and Windows operating system commands to perform basic system operations, such as: formatting disks; copying, moving, deleting, and renaming files; creating and changing file directories; backing up and restoring system files; creating and modifying Configuration Files.
- Participate as a part of a group on a typical business system project.
- Identify the basic principles of Local Area Networks, including various topologies, types of communications, security operations, and available diagnostics.
- Perform essential network administration tasks in MS Windows 2000.
- Select (with justification), install, configure, operate, and provide operational maintenance of a personal computer system (including hardware and software) for business applications.
- Specify the requirements for a personal computer system, including hardware, software, data management, data processing policies and procedures, training, operation, and maintenance.
- Identify the fundamental elements and terminology used in desktop publishing applications.
- Analyze the needs of the web page users, translate information into a text and page structure, and develop a capability for page layout and multimedia selection.
- Identify the basic concepts of systems analysis and design.
- Design and develop appropriate forms, presentations, data entry and retrieval procedures using various mediums for a typical small business system.

Upon completion of the Associate Degree in Microcomputing Technology –Web Technician, the graduate will be able to:

- Use the basic terms and concepts of information systems for business applications.
- Prepare letters, reports, tabulations, and business forms using Word.
- Create and modify spreadsheets, including graphics, database, and export/import functions in Excel.
- Create and modify database files, select and sort data, and produce reports using Access.
- Create and modify presentations.
- Develop and maintain a multiple page, multiple presentation Web site.
- Use DOS and Windows operating system commands to perform basic system operations, such as: formatting disks; copying, moving, deleting, and renaming files; creating and changing file directories; backing up and restoring system files; creating and modifying Configuration Files.
- Participate as a part of a group on a typical business system project.
- Explain the basic principles of Local Area Networks, including various topologies, types of communications, security operations, and available diagnostics.
- Select (with justification), install, configure, operate, and provide operational maintenance of a personal computer system (including hardware and software) for business applications.
- Specify the requirements for a personal computer system, including hardware, software, data management, data processing policies and procedures, training, operation, and maintenance.
- Apply the fundamental elements and terminology used in desktop publishing applications.
- Analyze the needs of the web page users, translate information into a text and page structure, and develop a capability for page layout and multimedia selection.
- Describe the basic concepts of systems analysis and design.
- Design and develop appropriate forms, presentations, data entry and retrieval procedures using various mediums for a typical small business system.
- Apply the basics of JavaScript programming, including objects, methods, statements, functions, and variables.
- Construct Java Applets, Java Applications, control structures, methods, arrays, character and string manipulation, graphics, and object-oriented programming.
- Write key object-oriented programming concepts such as classes and packages, class hierarchy and inheritance, encapsulation, methods, properties, and interfaces.
- Identify the fundamentals of data communications and computer networks.
- Describe the basic communication theory as applied to both digital and analog communication networks.
- Complete a series of exercises to prepare for a popular vendor certification program.

Upon completion of the PC Specialist Certificate the graduate will be able to:

- Identify the basic terms and concepts of information systems for business applications.
- Prepare letters, reports, tabulations, and business forms using Word.

- Create and modify spreadsheets, including graphics, database, and export/import functions in Excel.
- Create and modify database files, select and sort data, and produce reports using Access.
- Create and modify presentations.
- Develop and maintain a web page.
- Use DOS and Windows operating system commands to perform basic system operations, such as: formatting disks; copying, moving, deleting, and renaming files; creating and changing file directories; backing up and restoring system files; creating and modifying Configuration Files.
- Participate as a part of a group on a typical business system project.
- Identify the basic principles of Local Area Networks, including various topologies, types of communications, security operations, and available diagnostics.
- Perform essential network administration tasks in MS Windows 2000.
- Explain networking protocols and network configurations, circuit analysis of high-speed modems, packet-switching techniques, pulse code and pulse-width modulation techniques.

Multi-Competency Health

EMT-Paramedic Degree Track

Histology Degree Track

Patient Care Degree Track

Animal Assisted Therapy in Education Certificate

Basic Electrocardiography Certificate

Health Care Manager Certificate

Histology Certificate

Nurse Aide Training Program Certificate

Phlebotomy Certificate

Registered Nurse First Assistant Certificate

Respiratory Care Rehab/Home Care Certificate

Train the Trainer Certificate

Many health care facilities have reorganized. The job roles within these systems have adjusted to provide care and services based on patient needs. Many employment opportunities have been created for the individual who has documented competencies in a variety of health care skills. Multi-Competency Health provides the flexibility for students to gain these important skills in health care. The student has many options from which to choose in Multi-Competency Health.

Option 1 Associate Degree

An Associate Degree in Multi-Competency Health can be obtained by:

a) Completing one of three established tracks, Histology or Emergency Medical Technician/Paramedic. The Histology Program is accredited by the National Accrediting Agency for Clinical Laboratory Services. The Emergency Medical/Paramedic Program is accredited by the Commission on Accreditation of Allied Health Programs. Along with the identified technical courses, the student must complete the required general education courses, the required basic related courses, the technical core courses and at least 6 hours of technical options courses.

b) A student may also choose the Patient Care Track. This track was designed to allow the student to build a degree by choosing two or more Multi-Competency certificate programs and at least 6 hours of technical options courses for a minimum of 49 technical hours. The student also completes the required general education courses, the required basic related courses and the required technical core courses. This track allows the student to choose the multi-skill grouping of certificates and courses that best suits his/her interest or employer needs.

Upon completion of the Associate Degree requirements in Multi-Competency Health, the graduate will be able to:

- Use medical terminology correctly.
- Recognize life-threatening situations and administer necessary first aid and/or CPR.

- Demonstrate an understanding of medical ethics, medical legal responsibilities, and safety procedures, as well as professional attitudes.
- Demonstrate entry level competence in a major and a technical elective.

***Curriculum plans are available in the Multi-Competency Health office.**

Option 2 Certificate Programs

Many certificate programs are offered through Multi-Competency Health. These are focused technical programs that result in a certificate of completion. The certificate programs range from those designed for anyone interested to those that require completion of a health care program or specific licensure. Many area health care employers are interested in students who have successfully completed one or more of these certificates.

Option 3 Enhance or Complement Primary Skills in Nursing or Allied Health

There are many courses within Multi-Competency Health that can be taken in association with the degree option, as a complement to a certificate program or as stand-alone courses that meet a professional need or personal interest.

*The requirements for each course vary. Many of these courses are open to all students and have no prerequisites. Others require completion of a health record.

For information on additional certificates see the Multi-Competency Health Coordinator.

EMT-Paramedic Degree Track

A student completing the EMT-Paramedic Degree Track will be able to:

- Meet the requirements for the Associate Degree in Multi-Competency Health
- Meet State of Ohio requirements to take the EMT-Paramedic certification examination.
- Perform all duties of the EMT-Basic.
- Initiate appropriate intravenous procedures as specifically authorized by medical authority in advance. Initiate and continue emergency medical care under medical control, including recognizing presenting conditions and initiating appropriate invasive and noninvasive therapies (e.g., surgical and medical emergencies, airway and respiratory problems, cardiac dysrhythmias, cardiac pulmonary arrest, and psychological crisis), and assessing the response of the patient to that therapy.

Histology Degree Track

A student completing the Histology Degree Track will be able to:

- Meet the requirements for the Associate Degree in Multi-Competency Health
- Meet the specific Histology Certificate requirements

Patient Care Degree Track

A student completing the Patient Care Degree Track will be able to:

- Meet the requirements for the Associate Degree in Multi-Competency Health
- Work in a health care organization under professional supervision in the role of a PCA or technician. Understand and work with various patient populations.
- Practice multiple patient skills, interpersonal communications and infection control.

Animal Assisted Therapy in Education Certificate

A student completing the Animal Assisted Therapy in Education Certificate will be able to:

- Promote understanding of the mutually nurturing relationship between people and animals and to explore services by animals to aid people with physical, cognitive, and emotional challenges.
- Complete the Delta Society's Pet Partners introductory animal handler skills course.
- Explore the techniques for the therapeutic use of companion animals and the conduct of Animal Assisted therapist in a variety of settings.

Basic Electrocardiography (EKG) Certificate

A student completing the EKG Certificate will be able to:

- Position leads and use electrocardiographic equipment correctly.
- Obtain and prepare an electrocardiography recording for analysis by a physician.
- Recognize and correct technical errors in an electrocardiography recording.
- Recognize and call attention to life-threatening abnormalities of an electrocardiograph.
- Provide safe, professional direct patient contact, specifically in the areas of infection control, electrical safety, privacy and environmental safety.

Health Care Manager Certificate

A student completing the Health Care Manager Certificate will be able to:

- Apply theories and principles of human resource management to real life health care situations.
- Generate action plans, implementation activities, and evaluation processes to assure continuous quality improvement in health care institutions.
- Apply strategies, processes and current trends in health care management.
- Understand risk management and the underlying legal principles inherent in the health care system.

Histology Certificate

A student completing the Histology Certificate will be able to:

- Identify the source of the tissue and correlate tissue identification with function.
- Prepare stain solutions and fix tissue while utilizing universal precautions and following OSHA and CDC guidelines.
- Prepare and stain slides of organs and tissues safely and appropriately for the accurate examination by a pathologist.
- Identify inadequate staining preparations and make corrections to improve quality of slides to the satisfaction of the pathologist.
- Complete eligibility requirements to sit for American Society of Clinical Pathologists certification exam.

Nurse Aide Training Program Certificate

A student completing the Nurse Aide Certificate will be able to:

- Effectively communicate in the health care setting.
- State and demonstrate principles of medical asepsis and universal precautions.
- Identify and demonstrate the principles of safe resident care.
- Discuss and demonstrate correct basic nursing skills.
- Meet the requirements set forth in the Omnibus Budget Reconciliation Act of 1987.
- Meet the eligibility requirements needed to apply to take the state test for nurse aides.

Phlebotomy Certificate

A student completing the Phlebotomy certificate will be able to:

- Collect a quality blood specimen by venipuncture and capillary puncture using the appropriate collection equipment with minimum trauma to the patient.
- Demonstrate professional conduct and interpersonal communication skills with patients, laboratory personnel and other health care professionals.
- Identify problems which may occur during blood collection and handle them effectively and correctly in a professional manner.
- Perform all duties utilizing standard precautions while conforming to current OSHA, CDC and NCCLS guidelines.

Registered Nurse First Assistant Certificate

A student completing the Registered Nurse First Assistant Certificate will be able to:

- Act effectively and safely as a first assistant in surgery.
- Meet eligibility requirements to take the RNFA certificate examination.

Respiratory Care Rehabilitation/Home Care Certificate

A student completing the Respiratory Care Rehabilitation/Home Care Certificate will be able to:

- Educate patient and caregiver in disease process, medications, equipment care, and available resources.
- Monitor patient's equipment needs.
- Establish and maintain records as required for patient care, billing records, and governmental records.

Train the Trainer

A student completing the Train the Trainer Certificate will be able to:

- Teach, coordinate and supervise a Nurse Aide Training Program.
- Meet the requirements established by the Ohio Department of Health.

Specific Program Admissions Information

Listed below are additional requirements for admission to the degree programs in Multi-Competency Health Technology.

- High school graduate or G.E.D. equivalency
- Recommended high school (or equivalent) courses:
Algebra, grade of "C" or better
Biology, grade of "C" or better
Chemistry, grade of "C" or better
- Completed health statement (See Coordinator for detailed requirements)

Nursing

Columbus State's Associate Degree Program in Nursing prepares graduates to provide health care services to clients of all ages located in a variety of settings in the community and home.

The seven quarter program integrates theory from biological and social sciences with reasoning and communication skills to develop a graduate who can think critically, solve problems, and communicate effectively. Nursing classes are structured to promote student participation and learning through seminar, laboratory practice, and clinical experiences. These learning opportunities are designed to encourage the student to apply concepts and utilize critical thinking skills in the promotion, maintenance, and restoration of health of clients. Students learn to work collaboratively with other health team members within the health care delivery system.

Students take 53 credit hours of nursing courses and 56 credit hours in the arts and sciences. An elective of at least 2 credit hours is a requirement. They participate in 4-16 hours of clinical experience each week in a variety of health care settings under the direction of a registered nurse. Two nursing outcome exams are given during this nursing program. Students must achieve a minimum percentile score on these exams in order to continue to the next course or to graduate.

Students who successfully complete the Associate Degree program are qualified to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). The Nursing program at Columbus State is accredited by the National League for Nursing Accrediting Commission at 61 Broadway New York, N.Y. 10006, telephone (212)363-5555 and the North Central Association of Colleges, and is approved by the Ohio Board of Nursing.

Upon completion of the Associate Degree in Nursing, the graduate will be able to:

- Value the role of the Associate Degree nurse.
- Plan care for persons of all ages using the nursing process.
- Demonstrate safe, competent, nurturing care in the practice of nursing.
- Communicate effectively, including the use of teaching and counseling techniques, in the promotion, maintenance, and restoration of health.
- Manage nursing care for a diverse population of clients in a variety of practice settings.
- Synthesize knowledge from nursing and related disciplines using critical thinking skills.
- Analyze legal, ethical, and economic concepts that influence nursing practice.
- Account for competence and personal growth.

Program Admissions Information

Listed below are general requirements for admission to Nursing. For specific directions see Nursing Admission requirements available in Nursing, Records and Registration, Counseling and Ad-

vising Services and Admissions Offices. Advisors are available to help guide new students through the admission process.

- A separate application is required for nursing and is available in Records and Registration
- High school graduate or G.E.D. equivalency
- Required high school (or equivalent) courses:
 - Biology, grade of “C” or better
 - Chemistry, grade of “C” or better
- Placement into ENGL 101 - Beginning Composition or ENGL 111 - English Composition or completion of ENGL 100 - Language Development with a grade of “C” or better
- Placement above Math 103 Beginning Algebra II or completion of MATH 103 - Beginning Algebra II, with a grade of “C” or better
- Placement out of reading course requirement or completion of DEV 044 Critical Thinking and Reading with a grade of “C” or better
- Completion of the following college courses:
 - MULT 120 - Nurse Aide Training Program, MULT 126 - Patient Care Skills, CHEM 113 - General and Biological Chemistry
- Submit a copy of current Ohio Nurse Aide Registry Certificate and remain on active status with the Nurse Aide Registry
- Completion of Nurse Entrance Test (NET) with a reading comprehension score of 50% or above
- Attend Nursing Information session
- Complete health statement
- Grade point average of 2.0 or better through most recently completed course work

Office Administration

Office Administration Associate Degree Administrative Assistant Major Administrative Assistant Medical Cognate Administrative Assistant Legal Cognate Word Processing Certificate

The Occupational Outlook Handbook printed by the United States Government, Department of Labor, has forecast that there will be a shortage of office workers well into the new millennium. This handbook indicates that these office workers will need technical skills as well as management skills in order to be successful. The Business Management/Office Administration Department is now offering an Associate Degree in Office Administration with an Administrative Assistant Major that would enable students to have not only keyboarding skills and software knowledge but also management and team-building skills. Students also receive instruction in personalized/interpersonal skills so that they may become an integral part of any management team. These skills will enable an employee to assume responsibility without direct supervision, display initiative, exercise judgment, and prepare written/oral presentations.

Students may wish to select the Legal Cognate which prepares students to work in law offices, various courts or the legal departments of corporations, by providing specialized knowledge of legal procedures and court structure. Or students may select the Medical Cognate which prepares students to work in medical settings such as hospitals, physician offices, nursing homes, clinics, dental offices, and insurance companies.

A Word Processing Certificate program is also available. The four-quarter Word Processing Certificate program prepares students for entry-level positions in word processing centers and general offices. Students develop skills and knowledge in keyboarding, word processing basics, information management, and accounting.

Columbus State is accredited as an associate degree granting institution offering business programs by the Association of Collegiate Business Schools and Programs (ACBSP).

Upon completion of the Associate Degree in Office Administration, the graduate will be able to:

- Maintain a filing system (alphabetic, numeric, geographic, and/or by subject).
- Write or draft responses to routine correspondence, use correct grammar, and use punctuation rules accurately.
- Perform basic accounting tasks.
- Prepare written and oral presentations using currently accepted presentation software.
- Demonstrate knowledge of management theory, function, and skills
- Demonstrate a working knowledge of current legal, ethical, social, financial, and economic environmental factors as they apply to business
- Work effectively as a member of a team

Administrative Assistant Major

In addition to the general Office Administration competencies, a graduate in the Administrative Assistant Major will be able to:

- Understand and use Excel for Windows to create and revise spreadsheets.
- Use Windows commands to operate microcomputers effectively.
- Prepare graphics and present information.
- Research information using a variety of resources including the Internet.
- Use computers to integrate graphics into documents.
- Transcribe a variety of documents accurately and at an acceptable production rate.
- Use Microsoft Office software efficiently.

Administrative Assistant Legal Cognate

In addition to the general competencies, a graduate choosing the Legal Cognate will be able to:

- Demonstrate a basic knowledge of court structure and court proceedings at the federal, state, and local levels.
- Demonstrate knowledge of law office procedures and management.
- Demonstrate an understanding of the rules and documents involved in litigation.
- Demonstrate an understanding of criminal law OR the basics of legal research, depending on which additional class the student chooses.

Administrative Assistant Medical Cognate

In addition to the general competencies, a graduate choosing the Medical Cognate will be able to:

- Demonstrate an understanding of the structure and organization of current health care systems.
- Demonstrate the ability to spell, pronounce, and define basic medical terminology.

(Non-traditional credit may be given to any Columbus State Community College student, enrolled as an Office Administration Major, with submission of appropriate documentation / evidence demonstration successful completion of the Certificate Professional Secretaries Exam.)

Quality Assurance Technology

Increasing requirements for quality in the goods and services consumers buy has created additional demand for trained technicians and supervisors who are responsible for monitoring, testing, and continuously improving the quality of those goods and services. Individuals entering the field of quality assurance must be skilled in the areas of quality transformation, teamwork, statistical process control, product and service improvement, cost reduction, reliability development, and quality planning and management.

This program is designed to meet the employment needs of business and industry. Students work on quality improvement projects for local organizations as part of their course work. They apply the techniques being studied in class, and practice teamwork and communications skills in real life settings while developing a portfolio to demonstrate their expertise. Graduates are qualified for a wide range of positions such as quality control technician, inspector, quality/reliability analyst, value engineering analyst, cost improvement or statistical process control coordinator, or methods planner.

The Quality Assurance program was originally designed to meet increasing needs for quality assurance personnel in manufacturing. Many courses in the program, however, address quality needs of the service industries. Students and prospective students interested in pursuing a quality assurance program in any of the following options: banking, insurance, food processing, chemical processing, or another option not listed are encouraged to contact the Chairperson to set up an individual program which meets their specific needs.

Upon completion of the Associate of Applied Science Degree in Quality Assurance Technology, the graduate will be able to:

- Improve products, processes, and systems in manufacturing and service environments by applying statistical and quality improvement tools according to the Shewhart cycle.
- Apply a variety of teamwork, leadership, and communication skills (verbal, written, and graphic) to communicate effectively with clients, suppliers, co-workers and others in the work environment.
- Apply fundamental principles of project management.
- Read and interpret engineering blueprints, drawings, specifications and quality charts.
- Apply a basic knowledge of physics, electronics, manufacturing processes, metrology, and materials testing and analysis to improving, and/or designing new products and processes.
- Apply knowledge of specifications, sampling plans and testing techniques to the analysis of materials, components and systems.
- Apply cost estimating techniques and cost containment procedures to new and existing products and systems, while maintaining or improving quality.

The Quality Assurance Technology also shares related courses with the Electronic Engineering Technology and the Mechanical Engineering Technology. For additional information refer to Electronic Engineering Technology and Mechanical Engineering Technology which are listed in this section of the Catalog.

Radiography

Radiographers are highly skilled professionals qualified by education to perform imaging examinations and accompanying responsibilities at the request of a physician. A radiographer is able to perform diagnostic imaging, fluoroscopy, trauma, surgical, and portable radiography. Specialized areas in the curriculum include: Computed tomography, vascular and digital imaging and magnetic resonance imaging.

Technology classes begin in the summer quarter. Admission to the program is competitive with completed applications received annually. Because students and health care workers in the health care field may be exposed to infectious materials and communicable diseases, the program emphasizes safety and prevention.

Upon completion of the Associate Degree in Radiography, the graduate will be able to:

- Apply knowledge of anatomy, physiology, positioning, and radiographic techniques to accurately show anatomical structures on an image.
- Determine exposures that achieve optimum images with minimum radiation to the patient.
- Act as an agent through observation and communication to obtain pertinent information for the physician to aid in the diagnosis and treatment management of the patient.
- Evaluate radiographic images for appropriate positioning and image quality.
- Apply the principles of radiation protection for the patient, staff and others.
- Provide patient care and comfort during procedures.
- Recognize emergency patient conditions and initiate lifesaving first aid and basic life-support procedures. •Evaluate the performance of radiologic systems, know the safe limits of equipment operation, and report malfunctions to the proper authority.
- Exercise independent judgment and discretion in the performance of medical imaging procedures.
- Participate in radiologic quality assurance programs.

Specific Program Admissions Information

Prospective students are required to attend an advising session to learn detailed program requirements and career opportunities. These sessions are held several times each quarter and are very helpful in answering students' questions.

The yearly deadline for application to the Radiography program is January 15 for admission beginning the following summer. Applications are available in an information packet which may be obtained by calling the Allied Health Office at 287-2521 OR by sending an email with your name and complete mailing address to: akisner@cscc.edu.

Listed below are additional requirements for admission to the Radiography program.

- High school graduate or G.E.D. equivalency
- Required high school (or equivalent) courses:
 - Algebra, grade of "C" or better
 - Biology, grade of "C" or better
 - Chemistry, grade of "C" or better
 - Physics, grade of "C" or better
- Placement into ENGL 101 - Beginning Composition
- Placement into MATH 135/148 - College Algebra
- Placement into "No Reading Required"
- Written statement relevant to interest and intent in Radiography
- Health care experience or volunteer service
- Completed health statement
- Attend radiography advising session

Real Estate

The Associate Degree program in Real Estate offers the course work that meets the standards of professionalism in the real estate industry. The program follows a “blueprint” for real estate education developed by the Ohio Association of Realtors. Courses meet the educational requirements for real estate licensure in the State of Ohio.

The program meets the career objective of persons interested in real estate sales or other allied professional opportunities in real estate. For students seeking to enter the real estate field, it offers formal education that meets the industry’s goals of professionalism. For licensed real estate brokers and sales associates, it provides training to upgrade their professional competence and to meet future educational requirements of the profession. For students who plan to continue their education beyond the Associate Degree, it offers credit courses that transfer to some four-year colleges and universities.

Prospective real estate students who plan to take the real estate licensing exam are more successful when they take courses as shown in the plan of study.

Only courses approved by the Ohio Division of Real Estate qualify for *continuing education credit* for licensed professionals. Please check for course approval before enrolling. Courses required for licensing do not qualify for continuing education credit. Before students schedule classes, they should contact their advisor if they are interested in taking (1) only the sequence of courses to prepare for specific real estate licensing exams, (2) only selected courses to meet continuing education requirements of the Ohio Division of Real Estate or courses to meet the various appraisal classifications.

Upon completion of the Associate Degree in Real Estate, the graduate will be able to:

- Demonstrate understanding of key principles and concepts involved in a real estate transaction.
- Prepare and present correctly all forms necessary to complete a real estate transaction.
- Create effective promotional plans to market property.
- Identify and explain different types of construction materials.
- Apply one of three appraisal techniques to the evaluation of a residential or commercial property.
- Utilize current industry techniques, conduct an investment analysis of a selected property.
- Manage a real estate property sales force effectively.
- Apply relevant formulas and microcomputer applications to the practice of real estate.
- Effectively apply current technology to daily real estate activity

Respiratory Care

Registered Respiratory Therapist Program

Graduates are eligible to sit for the Certification Examination for Entry-Level Respiratory Therapists and the Registry Examination for Advanced Respiratory Therapy Practitioners offered by the National Board for Respiratory Care, Inc. Graduates are also eligible to apply to become licensed as Respiratory Care Professionals by the Respiratory Care Board.

Respiratory therapists are life support specialists concerned with managing, controlling, and treating problems related to the cardiopulmonary system. Respiratory care practitioners serve beside the physician, nurse, and other health care personnel.

The complexity of the respiratory care worker's responsibility requires extensive training, dedication, and professionalism. Respiratory care takes place in such settings as the newborn nursery, surgical and medical units, emergency rooms, outpatient departments, and intensive care units of hospitals.

In addition to their classroom learning, students enrolled in the Respiratory Care program gain hands-on experience while working in area health care facilities, under the supervision of qualified instructors. These clinical experiences teach students to apply their knowledge and skills in actual work environments. Because students and workers in the health care field may be exposed to infectious materials and communicable diseases, the program emphasizes safety and prevention.

Columbus State's program is accredited by the Committee on Accreditation for Respiratory Care.

Upon completion of the Associate Degree in Respiratory Care, the graduate will be able to:

- Review existing data in patient medical record and recommend diagnostic procedures based on available patient information.
- Collect and evaluate pertinent clinical information.
- Perform diagnostic procedures and interpret results.
- Determine appropriateness of prescribed respiratory care plan, recommend modifications where indicated, and participate in the development of respiratory care plan.
- Select and obtain equipment, and assure cleanliness of equipment appropriate to the respiratory care plan.
- Assemble, check for proper function, identify malfunctions of equipment, and take action to correct malfunctions of equipment.
- Explain planned therapy and goals to patient, maintain records and communication; and protect against patient nosocomial infections.
- Conduct therapeutic procedures to achieve maintenance of a patient airway, including the care of artificial airways; to achieve the removal of secretions.
- Conduct therapeutic procedures to achieve adequate spontaneous and artificial ventilation.

- Conduct therapeutic procedures to achieve adequate arterial and tissue oxygenation.
- Evaluate and monitor patient’s response to respiratory care.
- Make necessary modifications in therapeutic procedures, and recommend respiratory care plan modifications based on patient response.
- Initiate and conduct, or modify respiratory care techniques in an emergency setting.
- Demonstrate personal and professional behaviors required for successful employment.
- Apply the principles of continuous quality improvement and quality assurance to work situations.

Specific Program Admissions Information

(*Advanced standing credit may be awarded for previous health care training and/or experience. Please contact the Respiratory Care program director for further information.)

Listed below are additional requirements for admission to the Respiratory Care program.

- High school graduate or G.E.D. equivalency
- Placement into MATH 135 - Elementary Statistics
- Placement into ENGL 101 - Beginning Composition
- High school Biology with a “C” or better
- CHEM 113 with a “C” or better
- MULT 120 with a “C” or better
- MULT 126 with a “C” or better
- Completed health statement

Statement Regarding Infectious Diseases:

Students in this program, including perform their clinical work on real people. Columbus State does not discriminate against students, faculty, or patients in any way, or based on color, creed, national origin, gender, disability or sexual preference. The patient populations with whom we work come from all walks of life, and the students may therefore be exposed to many types of communicable diseases. These are not limited to but may include: Hepatitis (A, B, C or D), HIV/AIDS, TB, measles, mumps, Rubella, rubeola, etc.

ALL students are required to have appropriate immunizations after they are admitted to the program (information is given to all admitted students). Additionally, although all precautions are taken to minimize exposure and risk, there is always a slight possibility that precautions may fail or that a student may accidentally expose him/herself. All students entering the program must be aware of this slight, but real, potential. All students are encouraged to have personal health insurance in effect by the first day of class.

Retail Management

Retailing is the final link in the chain that reaches from producer to the customer. One of every five American workers is involved in the retailing field. Department of Labor statistics indicate that by the year 2005 retail employment will increase to 24 million workers, offering motivated individuals significant career opportunities.

Students in Columbus State's two-year Associate Degree program in Retail Management begin with a strong foundation in basic business principles as well as in-depth exposure to retail management principles. An internship program supported by many of the city's leading retail operations provides students the opportunity to put classroom knowledge to work.

Columbus State Community College is nationally accredited by the Association of Collegiate Business Schools and Programs (ACBSP) for the offering of its business programs that culminate in the Associate of Arts, Associate of Science, and Associate of Applied Science Degrees.

Upon completion of the Associate Degree in Retail Management, the graduate will be able to:

- Explain all facets of the buying and selling of merchandise.
- Exhibit a knowledge of merchandise management including planning, control, and evaluation of the merchandise mix.
- Identify the various types of stock control systems.
- Perform the various functions of store operations.
- Develop and execute sales promotional activities including merchandise presentations.
- Describe the logistics of dealing with suppliers, merchandise handling, receiving and stocking. Demonstrate an understanding of all phases of basic store operations.
- Demonstrate an understanding of consumer buying behavior and the psychological factors influencing a customer's decision as to where to shop.
- Comprehend retail information systems and demonstrate the ability to use the data productively in problem solving and decision making.
- Demonstrate an understanding of mathematical tools that aid in merchandise planning, selection and pricing.

Sports & Fitness Management

Exercise Specialist Certificate

The Sports and Fitness Management prepares students to work in health and/or fitness centers. From private clubs to public facilities, trained managers are needed to develop, train, staff, and implement programming to address the needs of the general public or specific clients, in compliance with state and federal guidelines. Risk management, anatomy, physiology, exercise science, and sport business courses will develop the skills necessary to gain a managerial or technical position within the sport and fitness field.

Upon completion of the Associate Degree in Sports & Fitness Management, the graduate will be able to:

- Effectively communicate current information on exercise, nutrition, and health promotion.
- Facilitate effective recreational, fitness, and health activities in the community.
- Assess fitness levels by evaluating and monitoring client physiological responses and adaptations in the apparently healthy.
- Design sports and fitness programs for individuals and/or groups by utilizing appropriate assessment data.
- Assess and maximize potential for behavioral change to enhance fitness level.
- Instruct individual(s) in a variety of activities by describing and demonstrating acceptable and proper usage and techniques in the industry, modifying activity when indicated.
- Possess the ability to prevent and manage emergency situations by applying safety procedures in accordance with federal, state, and local guidelines.
- Exhibit organizational and administrative leadership in delivery of sports and fitness programs by establishing program direction, serving as a role model, and maintaining professional ethics.
- Embrace diversity with the ability to work with persons of diverse needs and modeling nondiscriminatory behaviors.

Specific Program Admissions Information

Listed below are additional requirements for admission to the Sport & Fitness Management.

- High school graduate or G.E.D. equivalency
- Placement into ENGL 101 - Beginning Composition
- Placement into MATH 101 - Business Math

Surgical Technology

In order to meet the high technical skill levels placed on health care organizations offering surgical services throughout the country; hospitals, medical centers, and ambulatory surgery centers have responded by employing additional Allied Health professionals. The surgical services areas have reacted to the need of providing patients safe and effective technical support staff for surgical interventions by attempting to employ an increased number of Nursing Assistants, Patient Care Assistants, Instrument Technicians, and Surgical Technologists who have the knowledge and skills to meet the critical demands of surgical health care.

Columbus State Community College offers a six (6) academic/ laboratory/clinical quarter Associate of Applied Science Degree program with direct patient care focus on needed skills for immediate application, competency, and employment as a Surgical Technologist. This six-quarter program provides students with coursework that includes General, Basic Science, and Technical related health-oriented courses which encompass lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based and outpatient ambulatory care surgery units. Throughout each quarter of the program, students will gain from educational experiences in direct patient care instruction under the supervision of the programs faculty and our clinical affiliate preceptors.

Graduates of the program are eligible to take the national certification examination administered by the Liaison Council on Certification for the Surgical Technologist (LCC-5T).

Upon completion of the Associate Degree in Surgical Technology, the graduate will be able to:

- Apply the Principles of Asepsis in a knowledgeable manner to provide optimum patient care.
- Apply basic scientific principles related to anatomy, physiology, and pathophysiology for safe transfer, positioning, prepping, and draping for surgical patients.
- Identify emergency situations and exercise sound clinical judgment in instituting established procedures.
- Demonstrate respect for the patient's inherent right of privacy, dignity, and safety.
- Recognize the safety of patients, self, and others while practicing within the legal and ethical parameters of the Surgical Technology profession.
- Describe the actions and use of Anesthetic and Pharmacological agents in the care of surgical patients.
- Perform surgical skills by assembling and preparing common equipment, supplies, and instrumentation used in surgical procedures.
- Differentiate and perform Sterilization and Disinfection methods for special equipment and instruments necessary for surgery.
- Demonstrate surgical skill dexterity development that use economy in time, motion, and materials when performing in the role of "scrub" and "circulator" as a Surgical Technologist.

- Explain the goals and surgical sequence of specific procedures across a variety of surgical service areas.
- Anticipate the needs of the surgery team while performing in the role of the “scrub” Surgical Technologist throughout surgical interventions.
- Realize the importance of teamwork with a surgical patient centered focus.

Specific Program Admission Information

Listed below are additional requirements for admission to the Surgical Technology Program.

- Submission of official high school transcript verifying graduation or General Education Development (G.E.D.) equivalency transcripts
- Completion of high school algebra, grade of “C” or better, or MATH 103 Beginning Algebra II, or equivalent college credit
- Completion of high school biology, grade of “C” or better, or BIO 100 Introduction to Biological Sciences or equivalent college credit
- Completion of high school chemistry, grade of “C” or better within the past three years, or CHEM 100 Introduction to Chemistry or equivalent college credit
- College writing placement testing into ENGL 101 Beginning Composition or ENGL 111 English Composition . Completion of ENGL 100 or completion of ENGL 101 and COMM 105 is acceptable if the student is enrolled in or has completed ESL 099-100 series. Students who have credit for ENGL 101 by way of transfer credit with a grade of “C”
- College reading placement testing above DEV 040 Reading Improvement or completion of DEV 044 Critical Reading and Thinking. Students who have credit for ENGL 101 by way of transfer credit with a grade of “C” or better are not required to take the reading skills placement test
- Math placement testing into MATH 104 Intermediate Algebra or completion of MATH 103 Beginning Algebra II with a grade of “C” or better or equivalent college credit
- College course completion, or successful completion of equivalent approved training with an academic grade of “C” or better and “satisfactory” laboratory / clinical skill development for the following: MULT 120 Nurse Aide Training Program or Nurse Aide Registry Certificate. MULT 102 Cardiopulmonary Resuscitation or equivalent certificate. HIMT 121 Advanced Medical Terminology.
- Completion of College Health records requirements for the Surgical Technology Program
- Attendance at one of the Surgical Technology Program Information Sessions or scheduled appointment quarterly.

Technical Communication

In the areas of business, industry, government, healthcare, and technology, there is a need to communicate information of a technical nature to different audiences. Technical Communication is the process of translating technical information into forms that different audiences can understand and use. Technical communicators are the translators. They, write, edit, and perform page layout and design on user manuals, textbooks, training materials, press releases, memos, environmental impact statements, video scripts, and online help files. They design Web pages, develop computer-based training (CBT) modules, prepare multimedia presentations, and develop material for delivery on CD-ROM.

The Associate of Applied Science Degree in Technical Communication at Columbus State Community College is the only technical communication degree program in Central Ohio. The program provides students with the practical, specific skills and technical knowledge needed to get entry-level jobs as technical communicators. All the courses are taught in a state-of-the-art computer classroom, so students become familiar with a variety of computer applications.

The program is designed to be completed within six quarters of full-time study. Students are required to take eleven courses in Technical Communication (TCO courses) and an additional 15-25 credits in a single cognate (specialization) area. The choice of the cognate area is up to the student in consultation with the Technical Communication advisor and the advisor in the cognate area. Currently there are over 20 approved cognates in areas such as accounting, aviation maintenance, computer programming, marketing, microcomputing, and graphic communications. For a complete listing, contact the Technical Communication Program Coordinator.

A technical communicator should be able to discuss projects with a technical expert and know the best way to translate information so the targeted audience will understand it. The cognate area enhances the knowledge and skills of the technical communicator and provides vocabulary and basic knowledge about the chosen field.

Upon completion of the Associate of Applied Science Degree in the Technical Communication, the graduate will be able to:

- Write in the forms most often required of a Technical Communicator (e.g., processes and procedures, reports, manuals, etc.).
- Translate complex material into clear, concise and easy-to-use terms for specific targeted audiences. Participate in the entire technical writing cycle both individually and collaboratively — planning, researching, and coordinating projects, writing, revising, and editing documents; designing and placing graphics; and producing a final product.
- Prepare and deliver oral presentations both in formal and informal settings.
- Develop basic graphics and integrate them into text.
- Apply the principles learned in technical cognates to technical communication.

- Critically evaluate existing documentation for clarity, completeness, and general effectiveness.
- Operate the word processors and desktop design packages that are most widely used in the technical communication field.
- Incorporate the basic concepts of multimedia production into professional technical presentations.
- Edit documents individually and collaboratively using both hard copy and online methods.
- Carry out, prepare, and produce documented primary or secondary research.
- Demonstrate an understanding of concepts of time/project management both in individual and team projects.

Veterinary Technology

Veterinary technicians are registered and/or licensed members of the veterinary health care team. They play an integral role in many areas of veterinary clinical practice, including medical, surgical, laboratory, and office procedures. All tasks are performed under the supervision of a veterinarian. Compassion for animals is essential, because the main focus of individuals employed as veterinary technicians is the treatment and nursing of sick animals.

The American Veterinary Medical Association accredits Columbus State's Veterinary Technology program. The Associate Degree program provides students with both classroom and clinical experiences. Students have the opportunity to intern at The Ohio State University Veterinary Teaching Hospital. Students will also spend a portion of their clinical experience in various veterinary settings, including research centers, private clinical practices, veterinary emergency hospitals, veterinary diagnostic laboratories, and zoos. Columbus State Community College emphasizes safety and disease prevention because students and employees in health care professions may be exposed to infectious materials and communicable diseases.

Columbus State Community College also offers an evening Veterinary Technology program designed for the working student. The evening program can be completed in nine quarters with courses starting no earlier than 5:00 p.m.

For students interested in equine health, a joint program has been developed between Columbus State's Veterinary Technology and Otterbein College's Equine Health Technology. For students interested in Health Services Administration, a joint program has been developed between Columbus State's Veterinary Technology and Franklin University. For students interested in a Bachelor of Science degree in Veterinary Technology, a joint program has been developed between Columbus State's Veterinary Technology and Purdue University. Special advising is necessary for students who wish to participate in these joint programs. Contact the Program Coordinator for more information.

Upon completion of the Associate Degree in Veterinary Technology, the graduate will be able to:

- Perform physical examinations and maintain records for patient animals in a veterinary health care setting.
- Explain preventative medicine, treatment protocols, and medical and surgical procedures to veterinary clients.
- Prepare and dispense medications according to a prescription.
- Administer treatments and/or medications either orally or parenterally.
- Apply wound dressings.
- Collect patient specimens for clinical laboratory procedures including blood samples, urine samples and skin scrapings.
- Perform clinical laboratory procedures, including complete blood counts, serum chemistries, microbiology, immunologic testing, urinalysis, and cytology.
- Identify internal, external, and blood parasites of dogs, cats, horses, and food animals.

- Perform routine procedures on laboratory animals (rats, mice, guinea pigs, rabbits).
- Prepare equipment, instruments, animals and medications for surgical procedures.
- Administer and monitor anesthesia, including anesthetic induction, maintenance and recovery by inhalation and/or parenteral injection.
- Assist in diagnostic, medical and surgical procedures.
- Perform dental prophylaxis.
- Administer and monitor intensive nursing care.
- Position animals for radiographic procedures. Expose and develop radiographs using safe and proper technique.

Graduates register with the Ohio Veterinary Medical Licensing Board to become Registered Veterinary Technicians in the State of Ohio. Graduates are eligible to take the Veterinary Technician National Exam (VTNE) that is recognized in more than 40 states to certify veterinary technicians.

Specific Program Admissions Information

Prospective students are required to attend an information session where they will receive the *separate admission application* for the Veterinary Technology program. Detailed admission criteria, plans of study and career opportunities are also discussed. These sessions are held periodically throughout the year, and are very helpful in answering the prospective students' questions. General information packets and information session dates and times may be obtained by contacting the Program Coordinator, Dr. Brenda Johnson, at (614) 287-3685, or by sending an E-mail request to bjohnson@csc.edu.

The yearly deadline for application to the day Veterinary Technology program is June 15, for admission beginning the following Fall Quarter. The deadline for application to the evening Veterinary Technology program is March 15, for admission beginning the following Summer Quarter.

Listed below are additional requirements for admission to the Veterinary Technology.

- High school graduate or G.E.D. equivalency
- Required high school (or equivalent) courses:
 - Algebra, grade of "C" or better, or MATH 102, grade of "C" or better
 - Biology, grade of "C" or better, or BIO 100/101, grade of "C" or better
 - Chemistry, grade of "C" or better within the past three (3) years, or CHEM 100, grade of "C" or better within the past three (3) years
- Placement into ENGL 101 - Beginning Composition
- Placement out of reading requirement
- Placement into MATH 103 - Beginning Algebra II, or completion of MATH 102 - Beginning Algebra I
- Attend Veterinary Technology Mandatory Information Session
- Completed health statement
- Health insurance
- Computer literacy or completion of CPT 101
- Grade point average of 2.0 or better

Explanation of Course Description Codes

Course Number - the three or four letter alpha identifier indicates the department; the three numbers that follow identify the specific course. Three of four letters followed by xxx indicate an elective requirement for which only the department is specified; here the student may choose the specific course, subject to approval of his/her advisor. Where no alphabetical or numerical characters appear, the elective may come from more than one department.

Quarter Offered - indicates which quarter or quarters the course is offered during the year. A- Autumn; W - Winter; SP - Spring; SU - Summer.

Prerequisites - any coursework that must be completed before the student is eligible to enroll for the course. For example, if ENGL 101 were listed as a prerequisite for a course, then only students who have completed ENGL 101 would be eligible to register for the course.

Concurrent Courses - any coursework that must be completed during the same quarter as the course in which you are enrolling. For example, if course ACCT 271 is concurrent with course ACCT 272, both courses must be taken during the same quarter.

Class Hours - the number of hours per week a particular course meets in a lecture classroom.

Lab Hours - the number of hours per week a particular class meets in a laboratory situation. This is usually in addition to class hours.

Credits - the number of credits to be awarded to students who successfully complete the course.

Distance Learning - designates course is also available in a distance learning format. Courses taken in the distance learning format may be subject to a different lab fee.

Lab Fee - a fee required of students, registering in certain courses, that is used to offset the cost of consumable materials, technology, and printing in classrooms or laboratory situations.

Accounting (ACCT)

ACCT 101 Financial Accounting (A,W,SP,SU) 4 credits

The first of a two-quarter sequence introducing financial accounting to non-accounting majors. The course is a fundamental study of the principles and procedures of double-entry accounting as applied to sole proprietorships. Concepts of this first course are continued and applied in the second course, Managerial Accounting. Students are advised to avoid any time lapse between these courses.

Lecture: 4 hours – Lab: 0 hours

Lab fee: \$2.00

ACCT 102 Managerial Accounting (A,W,SP,SU) 3 credits

An extension of financial accounting applying introductory accounting techniques to business situations. It is designed to acquaint the student with the use of accounting information in the control of a business operation and the interpretation of such information for management's use. This course is an overview of the analysis of financial statements, cost and responsibility accounting, budgeting, cost volume profit analysis and decision-making.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ACCT 101 or ACCT 111

Lab fee: \$2.00

ACCT 104 Small Business Accounting (W,SP) 5 credits

An introductory course for small business management majors with no bookkeeping or accounting background. The emphasis is on the study of the fundamental principles and procedures of double-entry accounting, preparation of financial statements using manual and/or PC systems.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: MCT 106

Lab fee: \$5.00

ACCT 106 Introduction to Accounting I (A,W,SP,SU -DL) 5 credits

The uses of accounting reports for business entities; focus on the uses of accounting for external reporting, emphasizing accounting as a provider of financial information. This course is intended for students who plan to transfer to a four-year college or university to complete a Bachelor's Degree. This course is also offered in a distance learning mode. Not open to Accounting majors.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$2.00

ACCT 107 Introduction to Accounting II (A,W,SP,SU -DL) 5 credits

A continuation of ACCT 106 with special emphasis on the uses of accounting reports in management decisions and in control of business operations; focus is on the internal use of accounting information. This course is also offered in a distance learning mode. Not open to Accounting majors.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ACCT 106

Lab fee: \$2.00

ACCT 111 Principles of Accounting I (A,W,SP,SU) 5 credits

An introductory course in accounting with emphasis on 1) the accounting cycle as applied to a service organization 2) adaptations in accounting for a merchandising concern, and 3) recording through the use of specialized journals. Not recommended for Associate of Arts or Associate of Science degree seeking students.

Lecture: 5 hours – Lab: 0 hours

Prerequisites: Placement into ENGL 101 and MATH 102

Lab fee: \$6.00

ACCT 112 Principles of Accounting II (A,W,SP,SU) 5 credits

A continuation of ACCT 111 will specifically emphasize the major types of assets, as well as the category of current liabilities, and payroll accounting, with particular emphasis on the effect of their measurement on net income and their presentation in the financial statements. The course is rounded out with a discussion of corporate equity and the Statement of Retained Earnings.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ACCT 111 with a "C" or better

Lab fee: \$4.00

ACCT 113 Principles of Accounting III (A,W,SP,SU) 5 credits

A continuation of ACCT 112 with special emphasis on accounting problems peculiar to corporations (focusing on long-term liabilities and corporate earnings). A major portion of this course is devoted to the analysis and interpretation of accounting information enabling management to plan their organization's financial destiny. Lastly, the students will be expected to apply their accumulated knowledge of ACCT 111, ACCT 112 and ACCT 113 to a computerized practice set for a merchandising corporate entity.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ACCT 112 with a "C" or better

Lab fee: \$4.00

ACCT 121 Data Processing for Accountants (W,SP) 4 credits

As applied to the accounting world, in-depth practice in the varied practical applications of Microsoft Excel and Lotus 1-2-3 electronic spreadsheets.

Lecture: 2 hours – Lab: 4 hours

Prerequisite: CPT 101 and ACCT 111

Lab fee: \$12.00

ACCT 126 Accounting Systems (SP,SU) 5 credits

An introduction to systems fundamentals including flowcharting and internal control. A comprehensive application of accounting principles studied in ACCT 111 and ACCT 112 using microcomputers.

Lecture: 2 hours – Lab: 5 hours

Prerequisite: ACCT 121 and ACCT 112

Lab fee: \$8.00

ACCT 201 Intermediate Accounting I (A) 5 credits

A continuation of accounting theory. An in-depth study of the accounting process and accounting records; the nature and content of accounting statements: balance sheet, income statement, and retained earnings statement; analysis of working capital; analysis and methods of valuation and statement presentation of the following items: cash and receivables, inventories and property, plant and equipment.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: ACCT 113 with a "C" or better

Lab fee: \$1.00

ACCT 202 Intermediate Accounting II (W) 5 credits

A continuation of ACCT 201 including analysis and methods of valuation and statement presentation of the following items: current liabilities - contractual and contingent items; intangible assets; deferred charges and long-term liabilities, investments, leases, equity transactions, earnings per share, statement of cash flow.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: ACCT 201 with a "C" or better

Lab fee: \$1.00

ACCT 206 Advanced Accounting (SP) 4 credits

Covers series of advanced topics such as partnership accounting, branch accounting, consolidations and installment sale accounting. These topics are such that they round out the student's knowledge of accounting for

the most common organizational types.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: ACCT 202

ACCT 211 Cost Accounting (A) 5 credits

A study of the field of job order cost accounting; the cost cycle methods of handling materials, labor costs, and manufacturing overhead expenditures (controllable and uncontrollable); process cost accounting; byproducts and joint products; fundamental cost-volume-profit relationships (break-even analysis); flexible budgeting and standard costs.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: ACCT 113

Lab fee: \$3.00

ACCT 221 Financial Statement Analysis I (A,SU) 3 credits

A study of forms of business organization; source and management of working capital; financial statement presentation; tools of analysis; percentages, comparisons to past performance industry standards, and basic ratios including working capital.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: ACCT 113

Lab fee: \$1.00

ACCT 222 Financial Statement Analysis II (W,SU) 3 credits

A continuation of course ACCT 221; ratios of equity, return on equity and return on assets; corporate securities; financing through securities; sources and management of long-term assets, debt, and equity including capital budgeting; expansion and combinations, reorganization, receivership, and dissolution. (Open to Finance Majors as elective).

Lecture: 2 hours – Lab: 3 hours

Prerequisite: ACCT 221 for Accounting Students; & for Finance Students the prerequisite is FMGT 201

Lab fee: \$2.00

ACCT 231 State and Local Taxation (SP,SU) 3 credits

Payroll taxes (withholding and reports), unemployment taxes, workmen's compensation, franchise taxes, personal property taxes (classified and intangible), city income taxes, Ohio personal taxes, sales and use taxes, real estate taxes, and vehicle and other taxes.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: ACCT 113

Lab fee: \$5.00

ACCT 232 Federal Taxation (W,SU) 5 credits

Individual income taxes; returns, income exemptions, deductions, gains and losses, rates, adjustments. Problems of proprietorship, partnerships, corporations, inventories, depreciation accounting, installment and deferred sales treatment. Filing requirements, payments, refunds, claims. Tax planning techniques.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: ACCT 113

Lab fee: \$5.00

ACCT 236 Advanced Taxation (SP) 4 credits

A continuation of ACCT 232, including non-liquidating distributions, accumulated earnings, and undistributed income. Sub-chapter S corporations, stock redemption and partial liquidations, corporate reorganization, and estate and gift taxation.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: ACCT 232

Lab fee: \$2.00

ACCT 241 Auditing I, Principles (W, SU) 3 credits

A course concerned with identification of professional qualifications and responsibilities of an auditor and study of auditing concepts utilized in the investigation and appraisal of economic information. Topics of study will include the role of the auditor in society, professional ethics, auditing

standards, professional liability, audit objectives, relationship of risk and materiality to audit strategies, planning and accepting an engagement, audit sampling, and an auditor's concern with internal control.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: ACCT 113

Lab fee: \$3.00

ACCT 242 Auditing II, Applications (SP, SU) 3 credits

A course concerned with practical application of professional qualifications and responsibilities of an auditor utilized in the investigation and appraisal of economic information. Topics of study include how to audit each of the following transaction cycles: revenue, expenditure, personnel services, productive, investing, and financing and cash. The audit report and other special reports will also be studied.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: ACCT 241

Lab fee: \$3.00

ACCT 251 Accounting Practice (SP) 4 credits

A capstone course in the technology intended to tie course material presented throughout the Accounting Technology curriculum to a single practical application - herein students form simulated accounting firms to maintain accounting records for an on-going enterprise. A secondary thrust is intended to assist students in post-graduation pursuits of employment and continuing education.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: ACCT 202

Lab fee: \$10.00

ACCT 256 Final Project (SP) 5 credits

A capstone course for students who are enrolled in the EDP Auditing Major. The course integrates materials presented throughout the curriculum through use of a simulated accounting engagement. Students will design appropriate software in conjunction with both systems analysis and design and apply it to a period of transactions of a hypothetical business enterprise.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: ACCT 202

ACCT 261 Controllership/CPA Review (SP) 4 credits

The emphasis of this course is the practical accounting problems and questions on accounting theory as presented in the C.P.A. examination which students have not had in other Columbus State classes such as: fund accounting, consolidated financial statements, foreign currency transactions, and partnership accounting (including liquidations). Other emphasis will include test taking strategies, Geometry in the G.R.E., statement of cash flow, review of intermediate accounting.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: ACCT 202

Lab fee: \$4.00

ACCT 266 Public Administration/Fund Accounting (SP,SU) 4 credits

A course dealing with the principles and applications of fund accounting as it relates to state and local governments. It includes budgeting, accounting, reporting, and auditing for federal government, colleges, universities, and hospitals.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: ACCT 201

ACCT 271 Accounting Internship (A,W,SP,SU) 2 credits

A structured employment situation in which the student is introduced into an actual accounting office. The student is expected to perform many of the accounting procedures studied in conjunction with their other classes (i.e., bank reconciliations, payroll, journal entries, etc.) and to gain relevant experience and a limited work record. Weekly supervision of the intern is used to solve any job-related problems and to attempt to develop

a sense of responsibility and a professional attitude within the student/intern.

Lecture: 0 hours – Lab: 20 hours

Prerequisite: ACCT 201

Concurrent: ACCT 272

ACCT 272 Internship Seminar (A,W,SP,SU) 2 credits

A practical work experience in which the student is expected to perform several operational auditing procedures (i.e., flowcharts, organization charts, analysis of existing internal control, recommendations, etc.) related to an accounting internship position. Emphasis is placed upon analyzing and further understanding the student's working environment.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: ACCT 201

Concurrent: ACCT 271

Aging Services (GERONTOLOGY)

AGE 101 Social Gerontology (A,SP) 3 credits

This course offers the student an overview of the social, psychological and physical aspects of aging. Visits with a senior friend provide an opportunity to establish a relationship with an older adult.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 100

Concurrent: ENGL 100

Lab fee: \$3.00

AGE 103 Interpersonal Communication in Human Services (A,W,SP,SU) 4 credits

This course teaches principles of interpersonal communication for individuals working in Human Services. This course is structured on the premise that the most important resource individuals bring to an helping relationship is their ability to remain self-aware and to communicate honestly and directly. Also taught are managing anger, conflict resolution, and assertive behavior. This course is participatory and interactive.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: ENGL 101

Lab fee: \$4.00

AGE 105 Human Services for the Elderly (W) 4 credits

This course provides the student with an in-depth knowledge of the informal and formal community resource systems. Current concepts of service delivery, planning and evaluations are covered. Available housing is analyzed from the perspective of person-environment fit.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: GER 101

Lab fee: \$3.00

AGE 109 Social Work with the Elderly (SP) 5 credits

This course teaches a problem solving method of social work. The history of social work with the elderly is presented. Values and ethical dilemmas are explored. Principles of casework are presented and applied to the aging individual. Diversity within the aging population is emphasized.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: GER 101, GER 103, GER 105 and ENGL 102

Concurrent: GER 191, GER 192

Lab fee: \$3.00

AGE 191, 291, 293, 295 Seminar I, II, III, IV (A,W,SP,SU) 2 credits

Seminar provides students a forum for discussion of practicum experiences, integration of theory and practice, and discussion of current issues related to the elderly.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: GER 105, Seminars are sequential

Concurrent: GER 109, All Seminars are concurrent with practicums

Lab fee: \$3.00

AGE 192, 292, 294, 296 Practicum I, II, III, IV (A,W,SP,SU) 2 credits

Practicum offers the student opportunities to both observe and work with the elderly in supervised agency settings.

Lecture: 0 hours – Lab: 14 hours

Prerequisite: GER 105, all practicums are sequential

Concurrent: GER 109, all practicums are concurrent with Seminars

Lab fee: \$20.00

AGE 201 Social Policy and Aging (SP) 3 credits

A study of the origins of public policy, the legislative process, insurance, financial planning/retirement income, protective services and legal issues.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: GER 101, GER 103, GER 105, GER 293 and GER 294

Lab fee: \$3.00

AGE 203 Family Ecology (A,SU) 3 credits

Family ecology views the family as an ecosystem and examines its inter-relationships with the environment (biophysical, psychosocial, and technological) through processes of perceiving, valuing, spacing and deciding. Emphasis is placed on family organization, family members, and their roles.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$ 2.00

AGE 204 Death and Bereavement (SP) 3 credits

This course examines death and dying from social, cultural, and life span perspective. Medical ethics, suicide, legal issues, and the funeral industry are analyzed. The processes of bereavement and communicating with and about dying conclude the course.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: PSY 100, ENGL 102

AGE 206 Senior Center Management (A) 5 credits

This course is designed to provide the information necessary to manage a Senior Center. The student will develop an overall administrative plan reflecting the broad range of seniors' needs in our complex and changing environment.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$3.00

AGE 207 The Older Woman (W) 3 credits

This course presents the psychosocial, biological, and economic status of older women in our culture.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: GER 209 and GER 292

Lab fee: \$4.00

AGE 209 Aging and Mental Health (A) 3 credits

This course provides an overview of mental health issues affecting older adults, assessment techniques and diagnostics criteria will be reviewed. Topics include functional disorders, organic disorders and substance abuse.

Lecture: 3 hours – Lab: 0 hours

Prerequisites: GER 109, GER 192 and PSY 230

Lab fee: \$3.00

AGE 211 Counseling the Elderly (W) 3 credits

This course provides the student with an understanding of traditional counseling theories, theories specifically for the older adult, appropriate settings for counseling older adults, and the use of self within that relationship.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: GER 209, GER 292 and PSY 230

Lab fee: \$4.00

AGE 213 Aging and Physical Health (W) **3 credits**
This course provides the student with an understanding of the interactive effects of biological and psychological aging as they occur simultaneously in the human organism. Also included are the common disease processes associated with aging, and their social and emotional ramifications. General decline in functioning's, as well as, revention and wellness issues are addressed.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: BIO 101, GER 101 and GER 192
Lab fee: \$3.00

AGE 214 Aging, Fitness and Exercise (SP) **3 credits**
Physical activity can significantly improve the quality of one's life at all ages. The type and intensity of activity may change. This course will present the essential information needed to provide older adults with safe and effective fitness programming. The physiology of aging, and the techniques and tools for motivating older adults, Personal Fitness, Pre-Exercise Screening and Fitness Assessment are covered.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: GER 101 and GER 213
Lab fee: 10.00

AGE 298 Special Topics in Aging Studies (on demand) **1-4 credits**
This course is designed to meet specific needs for those who wish to pursue in-depth training in the gerontology field. Areas of study may include special problems of the elderly, special populations, specific age cohorts, specialized services, and skill development beyond current course offerings. The student, instructor and Aging Studies coordinator will develop instructional methods
Lecture: 1-4 hours – Lab 0 hours
Prerequisite: Permission of Coordinator

Anthropology (ANTH)

ANTH 200 Introduction to Physical Anthropology (A,W,SP,SU - DL) **5 credits**
This course introduces students to the field of physical anthropology. It covers the basic concepts of the field, discusses anthropology's relationship with other biological and social sciences, surveys non-human primates, examines some aspects and examples of non-human behavior in depth, covers topics in current human diversity, and looks at human evolutionary history.
A distance-learning version of Introduction to Physical Anthropology is available. Students taking the web-based version of the course must be familiar with computes, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$7.00

ANTH 201 World Prehistory (A,W,SP,SU) **5 credits**
This course is an overview of world prehistory. Since the majority of human existence occurred long before written records and historical documents were available, this course introduces students to the fundamentals of prehistoric archaeology. The course surveys human origins, investigates the emergence of domestication and agriculture, and explores the rise of settlements and civilization. A global perspective is taken in the study of the prehistoric human past.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$7.00

ANTH 202 Introduction to Cultural Anthropology (A,W,SP,SU) **5 credits**
Cultural anthropology focuses on understanding human cultural diversity, using research techniques such as participant observation to explore the lifeways of groups. Topics include cross-cultural treatments of social systems such as politics, economics, family and marriage, and kinship. General theories of cultural interpretation and change are discussed in a broad geographical context. Students apply concepts and complete a "mini-project" using anthropological research techniques.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$7.00

ANTH 240 Introduction to Forensic Anthropology (A,SP) **5 credits**
This course introduces students to the field of forensic anthropology. Forensic sciences use methods and applications from anthropology in the investigation and detection of crime, the processing of mass disasters, the recovery of war dead and missing persons, and in international human rights investigations. The course covers the development of forensic anthropology, examines the theoretical and methodological bases of forensic anthropology, and considers present applications as well as future directions in this relatively new subfield of anthropology.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: ANTH 200 or LEGL 210 or BIO 161 or LAW 111 and LAW 113
Lab fee: \$7.00

ANTH 290 Capstone Experience in Anthropology (On Demand) **3 credits**
This course is for students completing the two-year Associate of Arts or Associate of Science degree who have a special interest in continuing in a baccalaureate degree program in anthropology. Course requirements include the completion and presentation of a research project that relates to the students' academic interest after reviewing research methodologies and findings in anthropology; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: Completion of AA/AS core requirements and at least 75 hours toward the degree with five credit hours in anthropology
Lab fee: \$10.00

ANTH 293 Independent Study in Anthropology (On Demand) **1 - 5 credits**
An individual, student-structured course that examines a selected topic in anthropology through intensive reading or research. The independent study elective permits a student to pursue his/her interests within the context of a faculty-guided program.
Lecture: 1 to 5 hours – Lab: 0 hours
Prerequisite: Permission of the Instructor, the Chairperson, and one course in Anthropology
Lab fee: \$6.00

ANTH 299 Special Topics in Anthropology (On Demand) **1 – 5 credits**
A detailed examination of selected topics of interest in anthropology.
Lecture: 1 to 5 hours – Lab: 0 hours
Prerequisite: Vary
Lab fee: \$6.00

Arabic (ARAB)

ARAB 101 Elementary Arabic I (On Demand) 5 credits
Introduction to the fundamentals of the Arabic language with practice in listening, reading, speaking, and writing. Includes studies in Arabic culture. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00

ARAB 102 Elementary Arabic II (On Demand) 5 credits
Continuation of ARAB 101 with further development of listening, reading, speaking, and writing skills and further study of Arabic culture. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: ARAB 101 with a grade of “C” or better
Lab fee: \$6.00

Architecture (ARCH)

ARCH 100 Introduction to the History of Architecture (A,W,SP) 5 credits
A study of the fundamental elements of architecture, its development, and its meaning to various cultures throughout western history. Architecture is viewed from the perspectives of form, function, interior and exterior space, technological development, and landscape. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs.
Lecture: 5 hours – Lab: 0 hours
Lab fee: \$9.00

ARCH 111 Construction Drafting -Manual I (A,W,SP,SU) 4 credits
This is a basic drafting course using manual drafting. Areas covered include lettering, linework, layout, dimensioning, geometric construction and orthographic projection. Problems are drawn from throughout the construction industry.
Lecture: 2 hours – Lab: 6 hours
Lab fee: \$15.00

ARCH 112 Construction Drafting -CAD I (A,W,SP,SU) 3 credits
This course is an entry-level computer aided drafting class. Emphasis is placed on the basic drawing, editing, display, dimensioning and block commands. Several small projects will be created utilizing these features. Lectures, in-class demonstrations, and hands on work sessions are employed as teaching tools during the course. The course uses the current release of AutoCAD.
Lecture: 1 hour – Lab: 5 hours
Prerequisite: ARCH 111 or permission of instructor
Lab fee: \$15.00

ARCH 113 Construction Drafting -CAD II (A,W,SP,SU) 3 credits
This course builds upon the basics learned in ARCH 112. Emphasis is placed on advanced dimensioning features, hatching, attributes, external references and paper/model space. Several small projects will be created utilizing these features. The final project in the course will allow the student to pull together all of the features learned in ARCH 112 and during ARCH 113 to prepare a complete set of construction documents for a

residence. Lectures, in-class demonstrations, and hands on work sessions are employed as teaching tools during the course. The course uses current release of AutoCAD.
Lecture: 1 hour – Lab: 5 hours
Prerequisite: ARCH 112
Lab fee: \$15.00

ARCH 116 Piping Systems (A,W,SP,SU) 3 credits
A comprehensive study of the UPC, water supply, water treatment and distribution, to include waste water disposal and sanitation standards. Emphasis will be placed on mechanical piping design, nomenclature, the physics of metal, pipe, tubing, fittings, valves, joining methods, pumps, pump sizing, water flow principles, pressure loss, sizing and terminal units. Boilers, furnaces, chillers, and refrigeration systems will be discussed in detail.
Lecture: 1 hour – Lab: 5 hours
Prerequisite: for Architecture students: CMGT 121
Lab fee: \$12.00

ARCH 130 Introduction to Interior Design (A, SP) 4 credits
An introduction to the design process, focusing on space planning, through the use of project assignments in a design studio. Emphasis is on problem solving and the process of design, exploring the tools and resources available, and presentation. Several projects, small in scope, will be employed to give the student exposure to a wide variety of typical interior design problems. Lecture, discussion, and studio critiques will be employed as teaching methods during the course.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: ARCH 161 and ARCH 112
Lab fee: \$12.00

ARCH 155 Structures - Wood (A, SP) 3 credits
This course involves the structural design and detailing of various systems used in wood construction, including conventional light framing, post and beam, trusses, and various plywood panel systems. Additional topics discussed include installation, insulation and protection of wood structures
Lecture: 1 hour – Lab: 5 hours
Prerequisite: MATH 104 and ARCH 111
Lab fee: \$12.00

ARCH 161 Architectural Drafting -Manual II (W,SU) 4 credits
This course follows construction drafting - Manual I with the emphasis on advanced orthographic projection and basic descriptive geometry as found in the construction of buildings. Problems are designed to develop the student’s ability to think three dimensionally and solve problems involving the intersection of surfaces and lines. Basic perspective, planimetric, and isometric drawing are included
Lecture: 1 hour – Lab: 7 hours
Prerequisite: ARCH 111
Lab fee: \$15.00

ARCH 214 Electricity (A,SP) 2 credits
This course studies the electrical code, electrical systems, standards, conventional symbols, nomenclature, layouts and fixture and equipment schedules. Coordination of electrical work with the elements of the building is emphasized.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: CMGT 121
Lab fee: \$6.00

ARCH 215 Lighting (A, SP) 2 credits
This course deals with the fundamentals of lighting within buildings. The appropriate quantity of lighting is calculated and the appropriate selection and placement of lighting within a space is studied.
Lecture: 1 hour – Lab: 2 hours
Prerequisite or Concurrent: ARCH 214
Lab fee: \$6.00

ARCH 232 Building Construction Standards (A,SP) 3 credits
This course focuses primarily on building and zoning codes. Emphasis is placed on the OBBC (Ohio Basic Building Code) and the Columbus, Ohio zoning code. Other areas of study include: the influence of professional associations, manufacturers, and testing laboratories in design and construction documents; CSI specifications, their organization, content and relationship to other contract documents; and professional practice in architecture.

Lecture: 1 hour – Lab: 5 hours
Prerequisite: CMGT 121
Lab fee: \$12.00

ARCH 237 Structures-Steel & Concrete (W,SU) 4 credits
A study in the design and detailing of steel and concrete structural members. CAD applications in the production of drawings is emphasized. Structural plans, details and coordination of elements will be examined.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: CIVL 232 and ARCH 113
Lab fee: \$12.00

ARCH 250 Building Enclosure Materials (A,SP) 3 credits
This course is intended to follow CIVL 120 and expose the student to those materials which are specifically associated with the shell of buildings. Topics covered include interior finishes, window and door openings, moisture and thermal protection, acoustical treatments, and mechanical conveyance systems.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$12.00

ARCH 262 Presentation Drawings -CAD III (A,SP) 3 credits
An introduction to presentation drawing techniques using computer applications. The course will focus on three-dimensional modeling, rendering and other applications useful to the profession.
Lecture: 1 hour – Lab: 5 hours
Prerequisite: ARCH 113 and ARCH 161
Lab fee: \$15.00

ARCH 263 Working Drawings I (W,SU) 4 credits
This course introduces the student to the practice of working drawings, and deals with the generation of schedules, details, plans and other drawings necessary, and ADA requirements, with an emphasis on the organization and coordination necessary among the drawings.
Lecture: 1 hour – Lab: 7 hours
Prerequisite: ARCH 250 and ARCH 113
Lab fee: \$15.00

ARCH 264 Workings Drawings II (SP,A) 4 credits
This course uses all of the knowledge obtained from the previous architectural courses. A complete set of working drawings is created as a team effort. The student learns to incorporate consultant information in the final set of working drawings. Independent search for and use of information is encouraged.
Lecture: 1 hour – Lab: 7 hours
Prerequisite: ARCH 232 and ARCH 263
Lab fee: \$20.00

ARCH 291 Field Co-Op Experience (SU) 4 credits
Off-campus work experience in architecture, consulting engineering or construction related paid employment, that augments formal education received in the technology, with actual work conditions and job experience. "N" credit will not be allowed for this course.
Lecture: 0 hours – Lab: 40 hours
Prerequisite: CMGT 290 or permission of instructor
Lab fee: \$15.00

ARCH 299 Special Topics in Architecture (On Demand) 1-5 credits
Detailed examination of selected topics in Architecture.
Lecture and Lab hours vary dependent upon topic.
Prerequisite: varies based upon topic.
Lab fee: \$10.00

Art (ART)

ART 101 History of Western Art (A, W, SP, SU) 5 credits
A survey of artistic expression in the Western world from the earliest times to the present including the types of media used and their limitations, the role of patronage in artistic development, the relationship of art and the artist to developments in society, and a consideration of the attributes of "great" art in any time or age. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs and distributive transfer requirements in Humanities, and the Arts.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$5.00

ART 111 Fundamental Concepts of Art (W, SU) 5 credits
This is a course that specifically explores the principles of artistic communication through the structural devices of line, color, iconography, shape, perspective, collage, montage, etc. Selected major works of art and styles in the history of art, as well as the moving image, film and video will be analyzed in relation to what they were intended to communicate and how this communication is achieved.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00

ART 121 Beginning Drawing (A, W, SP, SU) 5 credits
An introduction to the basic techniques of freehand drawing. Emphasis is on media, concepts, drawing from observation and development of technique. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs and distributive transfer requirements in the Arts.
Lecture: 0 hours – Lab: 10 hours
Lab fee: \$8.00

ART 122 Two-Dimensional Design (A, W, SP, SU) 5 credits
An introduction to the basic concepts of 2-dimensional design: line, shape, space, hue, value and texture. Use of various media in a variety of problem-solving projects leading toward an awareness of the principles of visual organization.
Lecture: 0 hours – Lab: 10 hours
Lab fee: \$8.00

ART 123 Beginning Painting (On Demand) 5 credits
An introduction to studio painting fundamentals utilizing varied subject matter and media.
Lecture: 0 hours – Lab: 10 hours
Lab fee: \$8.00

ART 131 Three-Dimensional Design (On Demand) 5 credits
Design II is aimed at developing the student's basic understanding of three-dimensional visual communication through the exploration of three-dimensional principles. Students learn through the process of solving visual art problems. Solutions to these problems are achieved through the fabricating of three dimensional art objects. Various techniques and media are also systematically addressed that are common to this area of study.
Lecture: 0 hours – Lab: 10 hours
Prerequisite: ART 122 or permission of instructor.
Lab fee: \$10.00

ART 230 Color Composition (A, SP) 5 credits
This course examines the theory and artistic application of basic color principles through student projects and lecture. Such topics as color mixing, interaction, and organization are presented.
Lecture: 0 hours – Lab: 10 hours
Prerequisite: ART 122 or permission of instructor
Lab fee: \$10.00

ART 242 World Cinema (On Demand) 5 credits
A course exploring the history of world cinema through analysis of the content and structure of selected major historic examples in the genre from the beginnings of film in the late 19th century to the present. Special attention will be given to the work of important filmmakers from around the world, and the social and philosophical context in which they worked.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00

ART 290 Capstone Experience in Art (On Demand) 3 credits
A capstone course focusing on Art. Students will work on developing techniques and methodologies in the field of art. Students will apply these techniques to a project of their own design, complete a personal portfolio covering their studies at Columbus State, and participate in summative testing of their academic skills.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: Open only to AA and AS students preparing to graduate within 2 academic quarters.
Lab fee: \$10.00

ART 299 Special Topics in Art (On Demand) 1 to 5 credits
Detailed examination of selected topics of art.
Lecture: variable hours – Lab: hours
Prerequisite: Permission of Instructor.
Lab fee: \$2.00

Automotive (AUTO)

AUTO 061 Basic Automotive Systems & Theories of Operation (A,W,SP,SU) 4 credits
This course covers the basic systems of an automobile and their theory of operation. Includes the physical, hydraulic, and electrical theoretical basics, as applied to cars and light trucks. This course and AUTO 062 are prerequisites for all other automotive courses. Credit for this course can be obtained by satisfactory completion of the course, documented previous training and/or experience, or by satisfactory results of a proficiency exam administered by the department.
Lecture: 3 hours – Lab: 3 hours
Concurrent: Recommend concurrent with AUTO 062.
Lab fee: \$15.00

AUTO 062 Auto Shop Orientation & Service (A,W,SP,SU) 4 credits
This course covers the operation of an automotive shop. Includes use of hand and power tools and basic maintenance operations on cars and light trucks. This course and AUTO 061 are prerequisites for all other automotive courses. Credit for this course can be obtained by satisfactory completion of the course, documented previous training and/or experience, or by satisfactory results of a proficiency exam administered by the department.
Lecture: 3 hours – Lab: 3 hours
Prerequisite: AUTO 061
Concurrent: Recommended concurrent with AUTO 061.
Lab fee: \$15.00

AUTO 101 Autocare (On Demand) 3 credits
This course is designed for the non-automotive student who is interested in obtaining a familiarity with the fundamentals of automotive systems and preventative maintenance. Also included is information on choosing a repair shop, tips and techniques for dealing with minor breakdowns, and vehicle purchasing strategies.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$20.00

AUTO 110 Engine Operation & Overhaul (A,SU) 4 credits
A basic course in the theory of operation and automotive engines. All engine mechanical systems are explored during teardown and assembly of a current automotive engine. Common in-car repairs are covered. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: AUTO 061 and AUTO 062
Lab fee: \$20.00

AUTO 115 Engine Diagnosis & In-Car Repair (A,SU) 3 credits
An advanced engine course including minor cylinder head and valve machining, component service, and engine removal and installation. Prepares student to achieve national ASE certification in engine repair.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 110
Concurrent: AUTO 110
Lab fee: \$20.00

AUTO 120 Automatic Transmissions Operation & Overhaul (W,SP) 4 credits
A basic course in automatic transmission theory of operation. Hydraulic and electrical systems are emphasized during a complete teardown and assembly. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: AUTO 061 and AUTO 062
Lab fee: \$15.00

AUTO 125 Automatic Transmissions Diagnosis & In-Car Repair (W,SP) 3 credits
An advanced course in automatic transmission and transaxle service and diagnostics. Emphasis on field diagnostics and repairs. Prepares student to achieve national ASE certification in automatic transmissions.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 120
Concurrent: AUTO 120
Lab fee: \$15.00

AUTO 130 Manual Transmissions/Driveline Operation & Overhaul (A,SU) 3 credits
This course provides a working knowledge of manual transmissions, transaxles, and differentials. Repair and diagnostics are covered during complete teardown and assembly. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 061 and AUTO 062
Lab fee: \$15.00

AUTO 135 Manual Transmissions Diagnosis & In-Car Repair (A,SU) 3 credits
An advanced course in clutch, manual transmission, transaxle, and differential diagnostics. Includes clutch and transmission removal and in-

stallation. Prepares student to achieve national ASE certification in manual transmissions.

Lecture: 2 hours – Lab: 2 hours

Prerequisite or concurrent: AUTO 130

Lab fee: \$15.00

AUTO 140 Suspension and Steering System Theory & Operation (A,SU) 4 credits

This course provides a working knowledge of the diagnosis and repair of wheels, tires, suspension systems, steering systems, and wheel alignment diagnosis and adjustment. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.

Lecture: 2 hours – Lab: 4 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$15.00

AUTO 145 Suspension and Steering Diagnosis & Repair (A,W) 3 credits

An advanced course covering detailed diagnostics and service of suspension components. Includes instruction on both two-wheel and four-wheel alignment. Prepares student to achieve national ASE certification in suspension and steering.

Lecture: 2 hours – Lab: 2 hours

Prerequisite or concurrent: AUTO 140

Lab fee: \$15.00

AUTO 150 Brake Systems Theory & Operation (W,SP) 4 credits

This course provides a working knowledge of the diagnosis and repair of the hydraulic system, drum brake systems, disc brake systems, power assist units, and associated systems including wheel bearings, parking brakes and related electrical circuits. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.

Lecture: 2 hours – Lab: 4 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$20.00

AUTO 155 Brake Systems Diagnosis & Repair (W,SP) 3 credits

An advanced course covering detailed diagnostics and repair of automotive brake systems including anti-lock systems. Prepares student to achieve national ASE certification in brake systems.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: AUTO 150

Lab fee: \$15.00

AUTO 160 Electrical Systems Theory & Operation (W,SU) 4 credits

This course provides a working knowledge of the diagnosis and repair of general electrical systems: the battery, starting, charging, and lighting systems. Also included are gauges, warning devices, wiper systems, and other electrical accessories. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$15.00

AUTO 165 Electrical/Electronic Diagnosis & Repair (A,SP) 3 credits

An advanced course designed to provide students with a knowledge of electronic components, circuits and diagrams, and testing and service of automotive computer systems. Prepares student to achieve national ASE

certification in electrical systems.

Lecture: 2 hours – Lab: 2 hours

Prerequisite or concurrent: AUTO 160

Lab fee: \$15.00

AUTO 170 Heating and Air Conditioning Systems Theory & Operation (W, SP) 3 credits

This course provides a working knowledge of the diagnosis and repair of air conditioning systems, refrigeration systems, heating and engine cooling systems, and control units. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$15.00

AUTO 175 Heating and Air Conditioning Diagnosis & Repair (SP, SU) 3 credits

An advanced course designed to provide the knowledge necessary to diagnosis and repair automotive air conditioning systems, including the diagnosis and repair of automatic temperature controls and related electronic systems. Prepares student to achieve national ASE certification in heating and air conditioning systems.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: AUTO 170

Lab fee: \$20.00

AUTO 180 Engine Performance Theory & Operation (A, SP) 4 credits

This course provides the opportunity to gain a working knowledge of engine performance diagnostics. Includes diagnosis and repair of the ignition system, fuel and exhaust systems, emission control systems, and an introduction to engine electrical and computer control systems. Credit for this course can be obtained by satisfactory completion of the course, ASE certification in this area, or by satisfactory results of a proficiency exam administered by the department. It is recommended that students complete AUTO 160 prior to registering for this course

Lecture: 2 hours – Lab: 4 hours

Prerequisite: AUTO110 and AUTO160

Lab fee: \$15.00

AUTO 181 Fundamentals of Alternative Fuel Systems (On Demand) 3 credits

This course provides a working knowledge of the predominate alternate fuel systems currently in use in automotive applications. These include CNG, LNG, propane, ethanol, methanol, electric, oxygenated gasoline, and gasohol. The unique characteristics of each fuel along with the systems used to adapt automobiles to its use is explored along with the federal legislation that is mandating and controlling this technology.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: AUTO 180

Lab fee: \$20.00

AUTO 185 Computerized Engine Performance (W,SU) 3 credits

The course is designed to provide students with a working knowledge in the area of advanced engine diagnostics. Diagnosis and repair of fuel injection and computerized engine control systems are included. Prepares student to achieve national ASE certification in engine performance.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: AUTO 180

Lab fee: \$15.00

AUTO 186 Advanced Alternative Fuel Systems (On Demand) 3 credits

An advanced course designed to provide students with background knowledge and experience on current alternate fuel conversion systems and

proper installation procedures. Symptom analysis, diagnosis, and repair of alternate fuel related engine performance problems are covered. Prepares student to achieve national ASE certification in alternate fuels.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 181 and 185
Lab fee: \$20.00

AUTO 190 Automotive Business Management (On Demand) 3 credits
An introduction to automotive management principles. Topics covered include: A systems approach to management, management styles, financial measures, MBO and quality, time management, customer and employee relations, marketing and the legal environments.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 061 and AUTO 062
Lab fee: \$10.00

AUTO 191 Service Advising (On Demand) 3 credits
The primary responsibilities of a Service Advisor: Writing a proper repair order, scheduling, selling maintenance and customer relations are covered in depth in this course. Estimating, repair order tracking and time management skills are also presented.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 190
Lab fee: \$10.00

AUTO 192 Automotive Service Management (On Demand) 3 credits
This course covers the variety of duties of the service manager. Principles presented in AUTO 190 are further developed along with practical implementation strategies. Facilities and equipment planning and management along with financial management and analysis are covered.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 190
Lab fee: \$10.00

AUTO 193 Automotive Service Merchandising (On Demand) 3 credits
Principles of marketing, merchandising and advertising and their application in the automotive repair industry will be covered in this course. Upon completion of this course the student will be able to demonstrate the ability to develop specific merchandising and advertising items and to develop a departmental marketing plan.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 190
Lab fee: \$10.00

AUTO 195 Auto Parts - Sales (On Demand) 2 credits
The duties and responsibilities of a parts department counter-person are covered in this course. The use of catalogs and locator systems, as well as outside sales, are included.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 190
Lab fee: \$10.00

AUTO 196 Auto Parts - Inventory Control (On Demand) 2 credits
This course covers the various inventory control systems that are commonly used in automotive parts departments and stores. Determining inventory levels is an integral part of this course.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 190
Lab fee: \$10.00

AUTO 197 Auto Parts - Management (On Demand) 3 credits
This course covers the various management duties of a parts department manager. Pricing, inventory merchandising, forecasting, and purchasing

are included.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: AUTO 190
Lab fee: \$10.00

AUTO 210 Current Trends in Engine Repair (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in engine design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 115
Lab fee: \$15.00

AUTO 220 Current Trends in Automatic Transmissions (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in automatic transmission design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 125
Lab fee: \$15.00

AUTO 230 Current Trends in Manual Transmissions (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in manual transmission design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 135
Lab fee: \$15.00

AUTO 240 Current Trends in Suspension Steering (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in steering and suspension system design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 145
Lab fee: \$15.00

AUTO 250 Current Trends in Brake Systems (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in brake system design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 155
Lab fee: \$15.00

AUTO 260 Current Trends in Electrical Systems (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in electrical system design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 165
Lab fee: \$15.00

AUTO 270 Current Trends in A/C Systems (On Demand) 2 credits
The content of this course reflects recent technological advances and changes in heating air conditioning system design and repair made by the automobile industry during the current model year.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: AUTO 175
Lab fee: \$15.00

AUTO 280 Current Trends in Engine Systems**(On Demand) 2 credits**

The content of this course reflects recent technological advances and changes in engine control system design and repair made by the automobile industry during the current model year.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: AUTO 185

Lab fee: \$15.00

AUTO 297 Special Topics in Automotive Technology**(On Demand) 1 credit**

Advanced level course electives. This course will address current issues in the automotive industry.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$15.00

AUTO 298 Special Topics in Automotive Technology**(On Demand) 2 credits**

Advanced level course electives. This course will address current issues in the automotive industry.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$15.00

AUTO 299 Special Topics in Automotive Technology**(On Demand) 3 credits**

Advanced level course electives. This course will address current issues in the automotive industry.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: AUTO 061 and AUTO 062

Lab fee: \$15.00

AUTO 300 Shop Experience (SP)**4 credits**

This course is taken during a student's final quarter. It includes a final assessment of skills and knowledge. Skills are measured in a shop condition with the students performing diagnostics and repairs. A review of the eight ASE areas is also included.

Lecture: 1 hour – Lab: 8 hours

Prerequisite: Permission of instructor

Lab fee: \$25.00

Aviation Maintenance Technology (AVI)**AVI 111 Aviation Theory (A,SP)****5 credits**

Basic science for the aviation maintenance technician, including aerodynamics and flight stability, mathematics, physics, and weight and balance effects.

Lecture: 3 hours - Lab: 4 hours

Prerequisite: DEV 030 with a grade of "C" or better; or placement into DEV 031 or MATH 102.

Lab fee: \$16.00

AVI 115 Aircraft Maintenance Regulations, Pubs., and Records (A,SP)**2 credits**

Application of Federal Aviation Regulations to aircraft maintenance and the aircraft technician. The use of aircraft maintenance forms, records, publications, and other pertinent technical data.

Lecture: 1 hour – Lab: 3 hours

Lab fee: \$16.00

AVI 117 Basic Aviation Maintenance (A,SP)**6 credits**

Develop an understanding of basic aviation maintenance procedures and the tools used by the aircraft technician. Covers identification and selection of materials used in aircraft construction. Practice in fabricating and installing fluid lines and fittings. Select and perform non-destructive inspection processes.

Lecture: 4 hours – Lab: 4 hours

Prerequisite: DEV 030 with a grade of "C" or better, or placement into DEV 031 or MATH 102

Lab fee: \$20.00

AVI 119 Aircraft Drawings (A,SP)**2 credits**

Develop an understanding of the general language and symbolism of the aviation industry. Fundamentals of blueprint reading and interpretation of drawings and shop sketches for fabricating parts.

Lecture: 1 hour – Lab: 3 hours

Lab fee: \$16.00

AVI 121 Basic Electricity (W,SU)**9 credits**

Inspect and service batteries. Determine the relationship of voltage, current, and resistance in electrical circuits. Measure voltage, current, resistance, and continuity, calculate and measure power, read and interpret aircraft electrical circuit diagrams including solid state devices, and logic functions. Calculate and measure capacitance and inductance, and operating principles of generators, alternators, and motors.

Lecture: 5 hours – Lab: 11 hours

Prerequisite: Completion of AVI 111 or DEV 031 with a grade of "C" or better, or placement into MATH 102.

Lab fee: \$20.00

AVI1 121 Basic Electricity Part 1 (Night on Demand) 5 credits

Inspect and service batteries. Determine the relationship of voltage, current, and resistance in electrical circuits. Measure voltage, current; resistance, and continuity, calculate and measure power.

Lecture: 3 hours - Lab: 6 hours

Prerequisite: Completion of AVI 111 or DEV 031 with a grade of "C" or better, or placement into MATH 102.

Lab fee: \$ 16.00

AVI2 121 Basic Electricity Part 2 (Night on Demand)**4 credits**

Read and interpret aircraft electrical circuit diagrams including solid state devices, and logic functions. Calculate and measure capacitance and inductance, and operating principles of generators, alternators, and motors.

Lecture: 2 hours - Lab: 5 hours

Prerequisite: AVI 1121

Lab fee: \$16.00

AVI 125 Ground Operations and Cleaning (W,SU)**3 credits**

Ground operations and servicing of aircraft. Identify and select fuels. Identify and select cleaning materials. Identify, remove and treat aircraft corrosion and perform aircraft cleaning.

Lecture 2 hours – Lab: 2 hours

Lab fee: \$20.00

AVI 211 Aircraft Environmental Controls (A,SP)**3 credits**

This course includes aircraft oxygen and environmental control systems. The pressurization system, deicing and anti-icing systems, and fire detection and extinguishing systems are explored. Emphasis is placed on troubleshooting systems.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: AVI 117

Lab fee: \$20.00

AVI 213 Airframe Instruments and Electronics (A,SP) 6 credits

This course centers around aircraft instrument, navigation and communication systems, and the theory of operation and troubleshooting the systems.

Lecture: 4 hours – Lab: 6 hours

Prerequisite: AVI 121 or AVI2 121

Lab fee: \$20.00

AVI 215 Aircraft Electrical Systems (A,SP) 6 credits

This course deals with the operation and control of electrical generation and distributing systems. Included are the wiring procedure and operation principles of electrical appliances such as solenoids, diodes, transistors, motors and switches. Emphasis is placed on troubleshooting the systems.

Lecture 4 hours - Lab 6 hours

Prerequisite: AVI 121 or AVI2 121

Lab fee: \$20.00

AVI 221 Aircraft Structures I (W,SU) 4 credits

A study of aircraft wood and its defects. Selection, application, inspection, testing and repair of aircraft fabric materials. Selection, identification and application of finishing materials, trim, letters, and touch-up paint.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: AVI 117

Lab fee: \$20.00

AVI 223 Aircraft Structures II (W,SU) 9 credits

Identification of aircraft structural materials, properties of aircraft metals, and heat treatment. Inspection of welded assemblies. Layout from blueprints, bend allowances, forming and fabrication techniques. Installation and inspection of conventional and special rivets and fasteners. Construction techniques, inspection, repair and finishing of composite structures and components.

Lecture: 4 hours – Lab: 15 hours

Prerequisite: AVI 117

Lab fee: \$32.00

AVI 1 223 Aircraft Structures II Module 1 (Night on Demand) 5 credits

Identification of aircraft structural materials, properties of aircraft metals, and heat treatment. Inspection of welded assemblies. Layout from blueprints, bend allowances, forming and fabrication techniques. Installation and inspection of conventional and special rivets and fasteners.

Lecture: 2 hours Lab: 8 hours

Prerequisite: AVI 117

Lab fee: \$16.00

AVI2 223 Aircraft Structures II Module 2 (Night on Demand) 4 credits

Construction techniques, inspection, repair and finishing of composite structures and components. Fabrication and inspection of welded assemblies.

Lecture: 2 hours Lab: 7 hours

Prerequisite: AVI 117

Lab fee: \$16.00

AVI 246 Aircraft Landing Gear Systems (A,SP) 4 credits

The inspection, service, and repair of aircraft landing gear. Topics include proper jacking procedures, fixed and retractable landing gear, wheels, tires and brakes.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: AVI 117

Lab fee: \$20.00

AVI 244 Aircraft Fluid Systems (A, SP) 6 credits

This course covers the basic knowledge the aircraft mechanic needs to properly inspect, service, troubleshoot and repair aircraft hydraulic, pneu-

matic and fuel systems.

Lecture: 4 hours Lab: 4 hours

Prerequisite: AVI 117

Lab fee: \$ 20.00

AVI 249 Aircraft Inspection, Rigging, and Assembly (A, SP) 6 credits

Study of aircraft rigging and assembly. Inspection of the complete airframe and all its systems. Review of airframe topics via written examinations that present a comprehensive overview of all airframe training units.

Lecture: 3 hours – Lab: 7 hours

Prerequisites: AVI 211, AVI 213, AVI 215, AVI 221, and AVI 223 (or AVI1 223 & AVI2 223)

Lab fee: \$20.00

AVI 311 Reciprocating Engine Theory, Overhaul, and Repair (W,SU) 6 credits

Theory and operation of aircraft reciprocating engines. Study of the reciprocating engine construction and design. Reciprocating engine maintenance, inspection, repair, and troubleshooting. Procedures of engine removal, installation, rigging, and testing.

Lecture: 4 hours – Lab: 6 hours

Prerequisite: AVI 117

Lab fee: \$24.00

AVI 313 Reciprocating Engine Ignition and Fuel Systems (W,SU) 6 credits

Electrical principles of reciprocating ignition systems. Aircraft magneto inspection, repair and overhaul. Installation and adjustment of aircraft magnetos. Reciprocating engine ignition harness construction and repair. Aircraft spark plug inspection and servicing. Reciprocating engine ignition system troubleshooting. Theory of operation, maintenance, repair and troubleshooting of aircraft carburetors. Operation, maintenance, repair and troubleshooting of reciprocating engine fuel injection systems. Repair and maintenance of engine fuel systems.

Lecture: 4 hours – Lab: 6 hours

Prerequisite: AVI 117

Lab fee: \$20.00

AVI 315 Reciprocating Engine Cooling, Induction, and Exhaust Systems (W,SU) 3 credits

The theory, maintenance and repair of reciprocating aircraft engine cooling, induction and exhaust systems. Principles and maintenance of reciprocating aircraft engine superchargers and turbo-superchargers and related components.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: AVI 117

Lab fee: \$20.00

AVI 324 Turbine Engine Theory & Maintenance (A,SP)10 credits

Theory and operation of aircraft turbine engines. Study of the turbine engine construction and design. Principles of turbine engine induction, ice and rain, cooling, exhaust and thrust reverser systems. A study of turbine engine maintenance, inspection, repair, and troubleshooting techniques. Application of procedures to remove, install, rig, and operational test turbine engines. Identification and repair of lubrication systems and components.

Lecture: 7 hours - Lab: 8 hours

Prerequisites: AVI 111, AVI 117

Lab fee: \$24.00

AVI 1 324 Turbine Engine Theory & Maintenance Part 1 (Night on Demand) 6 credits

Theory and operation of aircraft turbine engines. Study of the turbine engine construction and design. Principles of turbine engine induction, ice and rain systems. A study of turbine engine compressor maintenance, inspection, repair and troubleshooting techniques.

Lecture: 5 hours Lab: 3
Prerequisites: AVI 111 and AVI 117
Lab fee: \$12.00

**AVI2 324 Turbine Engine Theory & Maintenance
Part 2 (Night on Demand) 4 credits**
Study of the turbine engine cooling, exhaust and thrust reverser systems. A study of turbine engine hot section maintenance, inspection, repair, and troubleshooting techniques. Application of procedures to remove, install, rig, and operational test turbine engines. Identification and repair of lubrication systems and components.
Lecture: 2 hours Lab: 5 hours
Prerequisite: AVI 1324
Lab fee: \$12.00

**AVI 325 Turbine Engine Fuel and Ignition Systems
(A,SP) 6 credits**
A study of operating principles, and theory of turbine engine fuel systems, fuel metering systems and subsystems. A study of applied techniques to inspect, maintain, troubleshoot, repair and adjust respective systems to industry standards. A study of electrical principles of turbine engine ignition systems. Principles of operating turbine engine starting systems of both electrical and pneumatic type. A study of applied techniques to inspect, service, troubleshoot and repair respective system components to industry standards.
Lecture: 4 hours – Lab: 6 hours
Prerequisite: AVI 117
Lab fee: \$20.00

AVI 331 Propellers (W,SU) 6 credits
Aerodynamic principles of propellers. Propeller types, construction and operation. Inspection, repair and troubleshooting. Installation, removal, tracking and balance. Controllable propellers. Constant speed governor control, operation and adjustment. Reversible propellers. Hazards of propeller operation.
Lecture: 4 hours – Lab: 6 hours
Prerequisite: AVI 117
Lab fee: \$20.00

**AVI 333 Engine Instruments and Electrical Systems
(W,SU) 3 credits**
Identify types of powerplant instrument and electrical systems, operating principles and procedures to inspect, check and troubleshoot temperature, pressure and RPM indicating systems.
Lecture: 2 hours – Lab: 1 hour
Prerequisite: AVI 121 or AVI2 121
Lab fee: \$20.00

**AVI 335 Powerplant Inspection and Fire Protection
(W,SU) 7 credits**
One hundred hour inspection of powerplants and systems. Use of inspection equipment and aids. Procedures for returning aircraft engines to service. FAA regulations and maintenance records. Theory, inspection, service and troubleshooting of engine fire protection and fire detection systems. Radial engine design, systems and differences. A summative evaluation course to determine, in a comprehensive manner, the competence necessary for certification testing.
Lecture: 4 hours – Lab: 8 hours
Prerequisites: AVI 311, AVI 313, AVI 315, AVI 324, and AVI 325
Lab fee: \$20.00

Biology (BIO)

A mandatory safety lesson (normally given in the laboratory) must be completed before the student is admitted to certain biology laboratory sessions. Approved safety glasses are required for some laboratory sessions and may be purchased through the Bookstore. Attendance during the first week of class is mandatory and may affect a student's continuation in these classes. Students must complete 60% of the laboratories in a course to receive credit. Courses in this area may require additional hours outside of the scheduled class times.

**BIO 100 Introduction to Biological Sciences
(A,W,SP,SU -DL) 4 credits**
A general biology course in which basic principles of the characteristics of life, biochemistry, cell reproduction and genetics are explored. Students who enroll in the distance version of this course will be required to come to campus for exams and orientation meetings.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: Placement into English 100 or higher. Not open to students with credit for Biology 111, Biology 112, Biology 125, Biology 126, Biology 121, Biology 161, Biology 174, Natural Science 101 or subsequent course that this list serves as course prerequisites.
Lab fee: \$3.00

**BIO 101 Introduction to Anatomy and Physiology
(A,W,SP,SU) 3 credits**
A general overview of normal human anatomy and physiology. Topics include the cell, tissues, musculo-skeletal, nervous, cardiovascular, genitourinary, digestive, respiratory, and endocrine systems.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Placement into English 100 or higher. Not open to students with credit for Biology 121, Biology 122, Biology 161, Biology 169, Biology 211 or Biology 212.
Lab fee: \$3.00

**BIO 104 Introduction to Marine Science
(SP, SU and On Demand) 4 credits**
An introductory course in the principles of Marine Science. This course is designed to introduce major concepts in physics, chemistry, geology and biology as they relate to the oceans and marine life. Shore and ocean environments as well as diversity of marine life will be emphasized. This course and Bio 105 fulfill the science requirement for the AAS degree where Natural Science 101 is required.
Lecture: 3 hours – Lab: 3 hours
Prerequisite: Placement into English 101
Lab fee: \$27.00

**BIO 105 Field Investigations in Marine Science
(S, SU and On Demand) 1 credit**
An introductory course-providing field experiences in marine science. This course will be instructed at a marine science laboratory such as Discovery Bay and Port Royal in Jamaica, West Indies. Students will spend 7 to 10 days at a marine laboratory engaged in an intense introduction to coral reefs, coastal environments and marine life. Course will be offered over quarter breaks. Cultural and ecological experiences of the region will be included. Students will be given both snorkeling and diving instruction and thus should be strong swimmers and comfortable in the ocean. Accommodation fees at the marine lab and travel expenses will vary.
Lecture: 0 hours – Lab: 10 hours
Concurrent: Bio 104
Lab fee: \$80.00

BIO 111 Introductory Biology I (A,W,SP,SU -DL) 5 credits
An introduction to the biological sciences for the non-major student. Topics included are cell structure and function, bioenergetics, DNA structure and function, cell reproduction, biodiversity, ecology, and evolution. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus. This course and BIO 112 or BIO 115 or BIO 125 or BIO 126 or BIO 127 provide a two-quarter sequence in biological science that will fulfill the elective requirement for the Associate of Science Degree. Lecture: 4 hours – Lab: 3 hours
Prerequisite: Placement into English 101. Not open to students with credit for Bio 174 or 175.
Lab fee: \$19.00

BIO 112 Introductory Biology II; Human Biology (A,W,SP,SU -DL) 5 credits
An introduction to the study of human biology. Topics included are human evolution, human reproduction, human growth and development, homeostasis, the human brain, and the environmental impact of humans on earth. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: High school biology or Biology 100 or Biology 111
Lab fee: \$19.00

BIO 115 General Microbiology (A,W,SP,SU -DL) 5 credits
A general microbiology course for biology majors (non-microbiology majors). Topics covered include taxonomy, morphology and staining, culture techniques, bacterial metabolism and physical and chemical methods for microbial control. General concepts in immunology, including host defense mechanisms and hypersensitivity, are also covered. Related laboratory is required, including identification of unknown bacteria. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: High school chemistry and biology, or Chemistry 100 and Biology 100 or Natural Science 103 and placement into English 101.
Lab fee: \$26.00

BIO 116 Microbial Diseases (On Demand) 3 credits
A basic study of the concepts of microbial disease. Topics covered are host-parasite interactions and resistance and immunity to disease, including the development of the immune system and mechanics of antigen-antibody reactions. Additional topics for detailed discussion are human airborne, foodborne and waterborne infections and human contact diseases.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Biology 115, English 101
Lab fee: \$ 3.00

BIO 121 Anatomy, Physiology and Pathology I (A,W,SP,SU) 5 credits
An integrated organ systems approach to the anatomy, physiology and pathology of the human body. Topics include cell biology, histology, and integumentary, skeletal, muscular and nervous systems. The cat and human cadavers are used for demonstrations in the laboratory.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: High school biology and chemistry or Biology 100 and Chemistry 100 or Natural Science 103 and placement into English 101. Not open to students with credit for Biology 161, Biology 169, Biology 211 or Biology 212
Lab fee: \$19.00

BIO 122 Anatomy, Physiology and Pathology II (A,W,SP,SU) 5 credits
A continuation of BIO 121. Topics include endocrinology, respiratory system hematology, cardiovascular system, metabolism, gastro-intestinal system, thermal regulation, and renal and reproductive systems. The cat and human cadavers are used for demonstrations in the laboratory.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: Biology 121.
Lab fee: \$19.00

BIO 124 Human Genetics (On Demand) 3 credits
Mendelian and classical genetics are presented. Emphasis is also placed on the discovery of the DNA molecule and its structure, genetic mutations and diseases as well as genetic engineering and its implications.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: High school biology or Biology 100 or Natural Science 103, and English 101.
Lab fee: \$3.00

BIO 125 General Botany (W) 5 credits
This course covers the biology of the major plant groups. Topics include diversity, physiology, reproduction, ecology, and economic significance.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: Placement into English 101; high school chemistry and biology, or Chemistry 100 and Biology 100, or Natural Science 103.
Lab fee: \$18.00

BIO 126 Introduction to Ecology (On Demand) 5 credits
This course provides an introduction to ecology. Topics include population dynamics, distribution of species, and energetics.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: BIO 111 or BIO 174, high school chemistry, CHEM 100, or NSCI 103
Lab fee: \$16.00

BIO 127 Environmental Science (On Demand) 5 credits
This course provides a survey of current issues in the study of environmental science. Topics include scientific principles and concepts, human population dynamics, resources and resource management, pollution, world problems, and environment and society. Emphasis will be placed on how individual actions, and economic and political policies can affect the environment. Proposed solutions to environmental problems will be considered.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: placement into ENGL 101
Lab fee: \$19.00

BIO 161 Human Anatomy (A,W,SP,SU -DL) 5 credits
The gross anatomy of the entire human body is presented in detail. The cat is used for laboratory dissection. Human cadavers are used for demonstrations. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on weekly basis on campus. This course and BIO 169 provide a two-quarter sequence in biological science that will fulfill the elective requirement for the Associate of Science Degree. Not open to students with credit for BIO 121.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: High school biology or Biology 100 or Biology 101 or Natural Science 103; placement into English 101
Lab fee: \$ 26.00

BIO 169 Human Physiology (A,W,SP,SU -DL) 5 credits
An introductory course in human physiology designed to cover the normal physiology of all organ systems. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are

generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: Biology 161 or equivalent, placement into English 101. Not open to students with credit for Biology 122 or Bio 211 or Bio 212.

Lab fee: \$13.00

BIO 170 Human Pathophysiology (A,W,SP,SU) 5 credits

This course deals with the disordered functioning of the human body due to disease. It is designed for students or practitioners in nursing or other allied health professions who wish to increase their understanding of the changes occurring in physiology due to an abnormality.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Biology 169 or Biology 211 and 212 or equivalent; Chemistry 112 or Chemistry 113 or equivalent or permission of instructor.

Lab fee: \$3.00

BIO 174 Biological Sciences I (A,W,SP,SU -DL) 5 credits

A biology course designed for biology majors that provides an in-depth coverage of cell biology, genetics and embryology. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on weekly basis on campus. This course and BIO 175 provide a two-quarter sequence in biological science that will fulfill the elective requirement for the Associate of Science Degree.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: High school chemistry or Chemistry 100, high school biology or Biology 100

Concurrent: Chemistry 111 or Chemistry 171

Lab fee: \$26.00.

BIO 175 Biological Sciences II (A,W,SP,SU) 5 credits

A continuation of BIO 174. A biology course designed for biology majors that provides an in-depth coverage of evolution, diversity of life, animal behavior, and ecology.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: Biology 174.

Lab fee: \$25.00

BIO 201 General Zoology: Animal Diversity and Systematics (On Demand) 5 credits

A survey of the diversity of organisms in the animal kingdom. Emphasis will be placed on evolutionary interrelationships, locomotory, nutritional, and reproductive strategies of the major groups. This course and BIO 174 provide a two-quarter sequence in biological science that will fulfill the elective requirement for the Associate of Science Degree.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: Biology 174

Lab fee: \$26.00

BIO 205 Introduction to Biotechnology (On Demand) 4 credits

A molecular biology course designed to introduce major concepts in: DNA structure and function, gene expression, recombinant DNA, biotechnology, techniques and applications of genetic engineering, medical biotechnology (gene therapy), forensics and DNA profiling, impact and potential of the human genome project.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: Biology 111 or Biology 115 or Biology 124 or Biology 174

Lab fee: \$5.00

BIO 206 Introduction to Biotechnology Lab (On Demand) 1 credit

A general laboratory course designed to introduce students to the principles of biotechnology. Topics include: sterile techniques; DNA isolation and purification; bacterial culture techniques, transformation, purification and isolation of plasmid DNA; DNA restriction analysis; Gel electrophoresis, PCR and RFLP analysis and animal cell and plant tissue cul-

ture techniques. This course may require additional hours outside of scheduled times.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: Biology 205

Lab fee: \$27.00

BIO 211 Principles of Human Physiology I (On Demand) 5 credits

First course of a two-quarter sequence offering a detailed, in-depth exploration of neuromuscular physiology, brain and special senses, and the cardiovascular/circulatory and respiratory systems. This class and BIO 212 are suitable as transfer prerequisites for BS Nursing/Allied Health and pre-professional programs.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Biology 161 or equivalent, Chemistry 111 and 112 and placement into English 101. Not open to students with credit for Biology 121 or Biology 169.

Lab fee: \$6.00

BIO 212 Principles of Human Physiology II (on Demand) 5 credits

Second course of a two-quarter sequence, continuation of Biology 211, offering a detailed, in-depth exploration of renal, endocrine, reproductive and digestive physiology, thermal regulation and metabolism.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Bio 211

Lab fee: \$6.00

BIO 250 General Genetics (On Demand) 5 credits

The principles of genetics, including molecular genetics, transmission genetics of prokaryotes and eukaryotes, developmental and non-chromosomal genetics, and the genetics and evolution of populations.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Chemistry 252 or equivalent and Biology 111 or Biology 174 plus 5 additional hours in biology.

Lab fee: \$5.00

BIO 290 Capstone Experience in Biology (A,W,SP,SU) 3 credits

An integrated science course blending elements of chemistry, physics and biology. Topics include the historical development of the sciences, ethical issues in science and how they affect the advancement of scientific thought, and the scientific method as it relates to experimental design and interpretation of scientific results. The laboratory utilizes an investigative approach taking students through the process of identifying a research problem, conducting a literature review, writing a research proposal, collecting and analyzing data, writing a scientific paper and presenting results. This course is required for all biological science majors seeking either the Associate of Arts or Associate of Science degree.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: 75 hours or more of course work completed with a minimum of 20 credit hours within the sciences.

Concurrent: none

Lab fee: \$19.00

BIO 293 Independent Study in Biology (On Demand) 1 to 5 credits

Detailed examination of selected topics of interest in Biology.

Lecture: 1 to 5 hours – Lab: 0 to 6 hours

Prerequisite: permission of instructor.

Concurrent: none

BIO 299 Special Topics in Biology (On Demand) 1 to 5 credits

Detailed examination of selected topics of interest in biology.

Lecture: 1 to 5 hours – Lab: 0 to 6 hours

Prerequisite: Permission of the instructor.

Concurrent: none

Business Management (BMGT)

BMGT 101 Principles of Business (A,W, SP, SU - DL) 5 credits

A discussion of all significant activities in the field of business including the interaction of business with internal and external forces, ownership, management, marketing, production, human resources, finance, and control. These areas are discussed as they relate to the basic principles of management and economics.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$5.00

BMGT 102 Managing Interpersonal Skills I (A, W, SP, SU) 3 credits

This course introduces the student to management themes and the five primary skill sets required to be a successful manager. The course provides opportunities for students to begin to learn, develop, and apply managerial skills through personal assessment and an introduction to various skill concepts and behavior models.

Lecture: 1 hour – Lab: 4 hours

Lab fee: \$25.00

BMGT 103 Managing Interpersonal Skills II (W, SP) 3 credits

This course builds upon BMGT 102 and expands the students understanding of Temperament and Type theory. Students also learn the basics of Emotional Intelligence and how to apply these management tools to motivate and improve performance.

Lecture: 2 hours – Lab: 2 hours

Lab fee: \$10.00

BMGT 111 Management (A, W, SP, SU - DL) 5 credits

The basic management functions of planning, organizing, leading, controlling and staffing business organizations are covered. The organization is viewed as a system of interdependent parts which interacts with the outside environment. Topics include leadership, motivation, communication and problem solving.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$5.00

BMGT 201 Creative Problem Solving; Applications in the Workplace (A,W, SP, SU) 3 credits

This course will provide an exploration of the foundations of creativity skills and methods for application in an organizational environment. The application to problem solving, decision-making, and planning will be taught through various models and best practices currently utilized in organizations. Case studies and various creativity methodologies will be explored and practiced during the class sessions.

Lecture: 1 hour – Lab: 4 hours

BMGT 202 Group Process and Facilitation Skills (A, W, SP, SU) 3 credits

This course introduces students to the concepts of group process and effective group facilitation skills. Course topics include the nature of groups; different types of groups and their purposes; roles and responsibilities of the group leader and members; and skills of group facilitation. Lab work will include the exploration and practice of facilitating different types of groups.

Lecture: 1 hours – Lab: 4 hours

BMGT 211 Organizational Behavior (A, W, SP, SU - DL) 4 credits

An introduction to fundamental concepts and applications of individual, group, and organizational behavior in the workplace. Topics include foundations of organizational behavior, perception and individual decision making, values, attitudes, the foundations of group behavior, understanding work teams, and organizational dynamics.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: BMGT 111

Lab fee: \$5.00

BMGT 212 Organization Communication (A, W, SP, SU) 3 credits

The organizational communication emphasis provides student with knowledge and skills necessary to pursue careers dependent on human interaction in business, industry, or government. Bridging the gap between the classroom and the workplace is an objective of the organizational communication course. Emphasis will be placed on communication structure and process within organizations and the need for individual and group communication skill development.

Lecture: 1 hour – Lab: 4 hours

BMGT 216 Business Ethics (A, W, SP, SU - DL) 3 credits

A comprehensive and practical study of ethical systems designed to explore, analyze and evaluate the organizational values, strategic policies and expected behaviors required to develop high ethical standards both on a personal and organizational level. Emphasis will be placed on case studies and exercises in ethical behaviors.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$5.00

BMGT 218 Management Training for Supervisors (A, W, SP, SU- DL) 5 credits

A comprehensive examination of management functions and techniques and of the role of a supervisor. This course will increase awareness of the role and present proven methods and techniques to do a better job. Major areas covered include: setting objectives, problem identification techniques, decision-making, time management, management styles, motivation, training subordinates, performance evaluation, verbal and non-verbal communications, interviewing techniques, and a look at the challenge of leadership in an organizational setting. Emphasis is placed on actual on-the-job problems.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$5.00

BMGT 219 International Business (A, W, SP, SU - DL) 3 credits

The course focuses on the economic, social and cultural considerations in doing business overseas. The globalization of markets and the growth of overseas business ventures is explored. The need to develop varied techniques for managing people from other cultural backgrounds, the means of minimizing risks in financial transactions, and development of systems for coordinating and controlling operations is stressed. Techniques to overcome international business barriers are examined.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$5.00

BMGT 220 Leadership Fundamentals (A,W, SP,SU-DL) 3 credits

This course provides an in-depth study of leadership styles, skills, roles, and the functions of leaders in organizations. The course integrates writings from the humanities, military leaders, political leaders, religious leaders, and business leaders with basic leadership principles. The course provides the opportunity for the student to explore the concept of leadership and to develop and improve his/her leadership skills.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: BMGT 102

Concurrent: Lab fee: \$5.00

BMGT 229 International Management (on Demand) 4 credits

This course focuses on the concepts and skills needed to achieve organizational goals, and achieve strategic initiatives in a multicultural environment as affected by political/legal, economic and technological issues. Strategic use of cultural and language diversity is stressed as a competitive advantage in achieving global organizational goals. The student will be introduced to a global business vocabulary or glossary to aid them in doing business overseas. Concepts are applied to not only those who go to another country to manage local citizens but also to those in this country who manage people from other countries. Emphasis is placed on the changing nature of the international management challenge. Em-

phasis will be placed on developing and managing various types of strategic alliances and or human resource management, as well as conflict resolution and negotiation techniques.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: BMGT 111, Management or BMGT 219, International Business.

Lab fee: \$5.00

**BMGT 231 Small Business Development
(A, W, SP, SU - DL)**

4 credits

First of a two-quarter sequence that introduces the fundamental considerations in planning and executing the start-up of a new small business venture. Concentrates on planning selected critical aspects of a business plan in the areas of: Orientation to Small Business, Strategic Planning, Financial Considerations, Location, Layout and Beginning Inventory.

Lecture: 4 hours – Lab: 0 hours

Lab fee: \$5.00

**BMGT 232 Small Business Operations
(A, W, SP, SU - DL)**

4 credits

This course is a sequel to BMGT 231 and completes the basic instruction necessary for competence in managing a small business enterprise. Topics covered will include effective operation of an established business with emphasis on strategic planning, market analysis, pricing, inventory control and credit collections.

Lecture: 4 hours – Lab: 0 hours

Lab fee: \$5.00

BMGT 234 Case Studies in Small Business (A, SP)

4 credits

Cases covering all functional areas of small business management are analyzed and presented. Emphasis is placed on the problem-solving process as a tool for developing and implementing small business management strategies and operational techniques.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: BMGT 231 and BMGT 232

Lab fee: \$5.00

BMGT 235 Strategic Business Planning (A, SP)

5 credits

Preparation and presentation of a formal business plan using the latest computer software. Presentation of the business plan is delivered to a team of observers, including local business people and faculty.

Lecture: 2 hours – Lab: 6 hours

Prerequisite: Open to graduating students only or through instructor approval.

Lab fee: \$10.00

BMGT 236 Franchising (A, SP)

3 credits

This course introduces the fundamentals of franchising from both the franchisee and the franchiser points of view. The focus of the course is the franchise as a tool for those buying a business and those wanting to expand an existing business. Contractual arrangements covering the establishment and the operation of a franchise as well as the relationship between the franchisee and the franchiser including the subjects of distributorships and licensing.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: BMGT 231 or permission of instructor

Lab fee: \$5.00

BMGT 237 Home Based Business (W,SU)

4 credits

This course is designed specifically for individuals who strive to commence their own business or have currently established a venture. The goal is to prepare students for the challenges of their business with full awareness of potential situations and to have the knowledge of how to handle them effectively. Focus is on the realities of beginning, growing, and leaving your business. This course also includes a student field study of an existing business or a concentration on an area of concern in the student's established business.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: BMGT 231 or permission of instructor

Lab fee: \$5.00

**BMGT 238 Small Business Management
Internship (A, W, SP, SU)**

4 credits

Supervised cooperative work experience with on-the-job application of knowledge and skills acquired in the classroom.

Lecture: 0 hours – Lab: 40 hours

Prerequisite: Instructor approval required the quarter BEFORE the student actually begins the internship.

Concurrent: BMGT 239

Lab fee: \$2.00

**BMGT 239 Small Business Management Seminar
(A, W, SP, SU)**

2 credits

On-campus seminar which allows students to report on small business management knowledge gained in specific areas of the internship. May include a market research survey, case reports or other special projects.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: Instructor approval required

Concurrent: BMGT 238

Lab fee: \$1.00

**BMGT 245 Introduction to Non-Profit Management
(On Demand)**

5 credits

The purpose of this course is to introduce students to the general characteristics, structures, and types of nonprofit organizations. Its purpose is to not only provide students with some background information on the number and nature of nonprofit organizations in the United States, but with a perspective on the specialized management control problems that these organizations face. Presented are in-depth examinations of the basic managerial functions and technical implication associated with organizing, planning, financing, marketing, leading, and managing nonprofit organizations. It provides the general knowledge required empowering the potential nonprofit management professional with the ability to make better informed business decisions. Students will learn to apply basic nonprofit management methodologies to real life issues. Utilizing the case studies and business simulation approach, the fundamentals of problem solving and decision making are applied in a variety of organizational situations. Critical thinking, teamwork, creativity, presentation skills, and informed decision making will be emphasized. Management control principles and systems will be instrumental in providing a thorough understanding of nonprofit organizational management.

Lecture: 5 hours – Lab 0 hours

Lab fee: \$5.00

BMGT 253 Negotiation Principles (A,SP)

4 credits

To provide an analytical context for the process of negotiation; the course will equip students with marketable skills in performing negotiations in a realistic setting, and to introduce students to the concepts of alternate dispute resolution and negotiation techniques.

Lecture: 3 hours – Lab: 2 hours

Lab fee: \$5.00

**BMGT 257 Project Management Principles
(A,W,SP,SU)**

3 credits

This course introduces students to the basic concepts of project management. Students learn to: define the scope of a project; minimize change of scope; establish goals; define dependency networks; communicate the project plan; use Program Evaluation and Review Techniques (PERT) charts and Critical Path Management; schedule projects; establish tasks, sub tasks, and milestones; and assign resources to tasks. Students use matrix management principles and tools, including Microsoft Project software, as a way to facilitate project planning and monitoring. Students are required to plan a project from inception to completion.

Lecture: 2 hours – Lab: 2 hours

Lab fee: \$15.00

BMGT 261 Business Management Internship I**(A, W, SP, SU)****4 credits**

Supervised on-the-job application of knowledge and skills acquired in the classroom. Prerequisite: Advisor approval required the quarter before the student actually begins the internship.

Lecture: 0 hours – Lab: 40 hours

Concurrent: BMGT 262

Lab fee: \$2.00

BMGT 262 Special Problems in Business**Management I (A, W, SP, SU)****2 credits**

Application of business management knowledge to specific areas of on-the-job internship visa a report.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: Instructor approval required.

Concurrent: BMGT 261.

Lab fee: \$1.00

BMGT 263 Business Management Internship II**(A, W, SP, SU)****4 credits**

Continuation of BMGT 261.

Lecture: 0 hours – Lab: 40 hours

Prerequisite: BMGT 261 and instructor approval required the quarter BEFORE the student actually begins the internship.

Concurrent: BMGT 264.

Lab fee: \$2.00

BMGT 264 Special Problems in Business**Management II (A, W, SP, SU)****2 credits**

Continuation of BMGT 262.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: Instructor approval required.

Concurrent: BMGT 263.

Lab fee: \$1.00

BMGT 271 Management Decisions**(A, W, SP, SU - DL)****2 credits**

A practical experience integrating the application of fundamental accounting, marketing, and operations management principles to the decision making process in business. The course is presented via computer simulation.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: Open to graduating student only or through instructor approval.

Lab fee: \$10.00

BMGT 272 Case Studies in Business Seminar**(A, W, SP, SU - DL)****3 credits**

As a part of the capstone experience this course requires the student to draw on and integrate knowledge learned in all previous classes. The fundamentals of problem solving and decision-making are applied using the case study approach in a variety of organizational situations.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Open to graduating student only or through department approval.

Lab fee: \$10.00

BMGT 273 Management Service Project**(A, W, SP, SU)****3 credits**

This course requires the student to serve in a leadership role as a member of an external team in a community-based project setting in a private industry, public sector agency, or not-for-profit organization; or to serve as a facilitator for a team in the Managing Interpersonal Skills course. In a community-based project setting the student will lead the team in the identification, analysis, and development of potential solutions to one or

more problem situations. As a team facilitator, the student will facilitate the team in developing and accomplishing assigned tasks.

Lecture: 1 hours – Lab: 4 hours

Lab fee: \$10.00

BMGT 276 Assessment, Analysis and Evaluation**Skills (A)****4 credits**

This course provides students with the opportunity to develop their knowledge and skills in the basics of training assessment and evaluation. Course topics include needs assessment, data collection, data analysis, performance assessment, levels of evaluation, testing, and evaluation methods. This course will emphasize application of assessment and evaluation techniques on projects from students' personal or work experiences.

Lecture: 3 hours – Lab: 2 hours

Lab fee: \$10.00

BMGT 277 Instructional Design and Development**Skills (W)****4 credits**

This course provides the basic knowledge and skills necessary for the systematic design, development and evaluation of instruction and training by focusing on the design of instruction/training programs, development of effective strategies and materials, and the evaluation of instruction/training. Emphasis is placed on application of instructional design methodology. Students will demonstrate skills through the development of and delivery of training materials related to their area of work or personal interest.

Lecture: 3 hours – Lab: 2 hours

Lab fee: \$10.00

BMGT 278 Training Delivery Skills (SP)**4 credits**

This course provides basic knowledge and skills required to conduct effective training. Topics include the training and development process, effective training competencies, adult learning practices, on-the-job training process, the learning environment, facilitation skills, presentation skills, feedback guidelines, visual aids, and reinforcement for transfer of learning to the workplace. Application of effective training delivery skills is emphasized. Students will demonstrate skills through the development and delivery of training materials related to their area of work or personal interest.

Lecture: 3 hours – Lab: 2 hours

Lab fee: \$10.00

BMGT 280 Business Etiquette (A, W, SP, SU)**3 credits**

Business Etiquette provides students with a competitive advantage in a variety of situations. Students learn to use business etiquette to improve communication through e-mail, letter writing, and on the telephone. Students learn how to improve relations with customers, employees, supervisors, and peers by learning how to accept gifts and compliments, and use social graces while eating or attending social activities. Students learn appropriate dress, posture, hand-shakes, and non-verbal communication. The course explores cultural differences in global etiquette.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$10.00

BMGT 281-285 Studies in Contemporary Business**(A, W, SP, SU)****1-5 credits**

Studies in Contemporary Business is a specially designed course offering to meet the needs of the constantly changing business community and student population.

Lecture hours: may vary – Lab hours: may vary

Prerequisite: Instructor approval required

Chemistry (CHEM)

A mandatory safety lesson must be completed before the student is admitted to any other chemistry laboratory sessions. Approved Chemical Splash Resistant goggles are required and may be purchased through the Bookstore. Certain clothing restrictions exist and will be explained by the instructor. Attendance during the first week of class is mandatory and may affect a student's continued enrollment in these classes. Students must complete 60% of the laboratories in a course to receive credit. Courses in this area may require additional hours outside of the scheduled class times.

CHEM 100 Introduction to Chemistry (A,W,SP,SU -DL)

4 credits

A preparatory chemistry course covering the basic concepts of chemistry with emphasis on the physical and chemical properties of matter, problem-solving, and an introduction to chemical reactions. Related laboratory work and demonstrations. Safety training and goggles are required for laboratory sessions. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MATH 102 or higher. Placement into ENGL 100 or higher. Not open to students with credit for CHEM 111, CHEM 112, CHEM 113, CHEM 171, CHEM 172, or CHEM 173

Lab fee: \$13.00

CHEM 111 Elementary Chemistry I (A,W,SP,SU) 5 credits

An introductory course in fundamental chemical concepts and laboratory techniques. Topics include atomic structure, periodic classification of elements, stoichiometry, solutions, acids and bases, pH and buffers, the gas laws, chemical equilibrium, and nuclear chemistry. Safety training and goggles are required for laboratory sessions. This course and CHEM 112 provide a two-quarter sequence in physical science that will fulfill the elective requirement for the Associate of Science Degree.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: High school chemistry or CHEM 100; MATH 102 or equivalent; placement into ENGL 101. Not open to students with credit for CHEM 171, CHEM 172, or CHEM 173

Lab fee: \$19.00

CHEM 112 Elementary Chemistry II (A,W,SP,SU) 5 credits

An introductory course in fundamental organic chemistry and laboratory techniques. The study of carbon compounds organized according to functional groups including carbohydrates, lipids, proteins, enzymes, and vitamins. Emphasis is placed on physiological function. Safety training and goggles are required for laboratory sessions.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: CHEM 111. Not open to students with credit for CHEM 171 or CHEM 251

Lab fee: \$19.00

CHEM 113 General and Biological Chemistry (A,W,SP,SU -DL)

5 credits

This is a course in elementary chemical concepts designed primarily for allied health students. It includes the study of principles of general chemistry as applied to physiological principles; basic organic chemistry, especially related to functional groups; and biochemistry including carbohydrates, lipids, proteins, enzymes and nucleic acids. Emphasis is placed on physiological function. Safety training and goggles are required for the laboratory session. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: High school chemistry completed within the last three years or CHEM 100 or successfully completing a chemistry placement exam; MATH 102 or equivalent, and placement into ENGL 101. Not open to students with credit for CHEM 112 or CHEM 251

Lab fee: \$19.00

CHEM 171 General Chemistry I (A,W,SP,SU-DL) 5 credits

A course in fundamental chemical principles for chemistry majors and pre-professionals. Topics include chemical calculations, the mole concept, atomic structure, periodic classification, bonding, and acid-base chemistry. Laboratory sessions provide bench experiences. Safety training and goggles are required for laboratory sessions. This course and CHEM 172 provide a two-quarter sequence in physical science that will fulfill the elective requirements for the Associate of Science Degree. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: High school chemistry or CHEM 100, MATH 148 or equivalent, and placement into ENGL 101

Lab fee: \$19.00

CHEM 172 General Chemistry II (A,W,SP,SU -DL) 5 credits

A continuation of CHEM 171. Topics include solutions, oxidation-reduction reactions, kinetics, gases and kinetic theory, thermodynamics, kinetics, and equilibrium. Laboratory sessions provide bench experiences. Safety training and goggles are required for laboratory sessions. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: CHEM 171

Lab fee: \$19.00

CHEM 173 General Chemistry III (A,W,SP,SU -DL) 5 credits

A continuation of CHEM 172. Topics include acid-base and solubility equilibrium, electrochemistry, nuclear chemistry, the representative and transition elements, and qualitative analysis. Laboratory sessions provide bench experiences. Safety training and goggles are required for laboratory sessions. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: CHEM 172

Lab fee: \$19.00

CHEM 251 Organic Chemistry I (A,W,SP,SU) 5 credits

The first course in a three-course sequence in organic chemistry. Structure, nomenclature, physical properties, bonding and reactions of alkanes, alkenes, and alkyl halides.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: CHEM 173

Lab fee: \$6.00

CHEM 252 Organic Chemistry II (A,W,SP,SU) 5 credits

The second course in a three-course sequence in organic chemistry. This course includes the study of physical and chemical properties of aromatic compounds, alcohols, thiols, ethers, epoxides, sulfides, carbonyl compounds, carboxylic acids and their derivatives, and carbohydrates.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: CHEM 251

Lab fee: \$6.00

CHEM 253 Organic Chemistry III (A,W,SP,SU) 5 credits
The third course in a three-course sequence in organic chemistry. This course includes the study of spectroscopic methods, molecular orbital theory, polymers, the chemical and physical properties of amines, amino acids, proteins, lipids, and nucleic acids.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: CHEM 252
Lab fee: \$6.00

CHEM 254 Organic Chemistry Laboratory I (A,W,SP,SU) 3 credits
The first course in a two-course sequence in organic chemistry laboratory. This course introduces the student to laboratory techniques of organic chemistry, including synthesis, isolation, purification, and identification of organic compounds.
Lecture: 1 hours – Lab: 8 hours
Prerequisite: CHEM 252
Lab fee: \$39.00

CHEM 255 Organic Chemistry Laboratory II (A,W,SP,SU) 3 credits
The second course in a two-course sequence in organic chemistry laboratory. This course includes further study of organic laboratory techniques including synthesis, isolation, purification, and identification of organic compounds.
Lecture: 1 hours – Lab: 8 hours
Prerequisite: CHEM 252 and CHEM 254
Lab fee: \$39.00

CHEM 261 Introduction to Biochemistry (A,W,SP,SU) 5 credits
This is an introductory course in biochemistry dealing with the molecular basis of structure and metabolism of plants, animals, and microorganisms.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: CHEM 252 and two quarters of biological science
Lab fee: \$5.00

CHEM 290 Capstone Experience in Chemistry (On Demand) 3 credits
An integrated science course blending elements of chemistry, physics and biology. Topics include the historical development of the sciences, ethical issues in science and how they affect the advancement of scientific thought, and the scientific method as it relates to experimental design and interpretation of scientific results. The laboratory utilizes an investigative approach taking students through the process of identifying a research problem, conducting a literature review, writing a research proposal, collecting and analyzing data, writing a scientific paper and presenting results. . This course is required for all science majors seeking either the Associate of Arts or Associate of Science degree.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: 75 hours or more of course work completed with a minimum of 20 credit hours within the sciences
Lab fee: \$18.00

CHEM 293 Independent Study in Chemistry (On Demand) 1 to 5 credits
Detailed examination of selected topics of interest in chemistry.
Prerequisite: Permission of instructor
Lab fee: varies

CHEM 299 Special Topics in Chemistry (On Demand) 1 to 5 credits
Detailed examination of selected topics of interest in chemistry. .
Lecture: 1 to 5 hours – Lab: 0 to 6 hours
Prerequisite: Permission of the instructor
Lab fee: varies

Civil Engineering Technology (CIVL)

Also see Surveying (SURV)

CIVL 112 MicroStation CAD Drafting I (A,W,SP,SU) 3 credits
This course is to provide training in the use of basic display, drawing, manipulation, dimensioning, text, cell, reference files and plotting commands required to the elementary use of Bentley MicroStation. After mastering system basics, students will be given individual projects.
Lecture: 1 hours – Lab: 5 hours
Prerequisite: ARCH 111 or permission of instructor
Lab fee: \$15.00

CIVL 120 Basic Construction Materials (A,W,SP,SU) 3 credits
A study of the properties, construction applications, standards, specifications and elementary material testing methods of soils, aggregates, asphalts, portland cement concrete, masonry, metals and woods. Laboratory exercises include basic common construction industry materials testing procedures and comparison of results to industry standards and specifications.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: MATH 102 or placement into a higher level mathematics course
Lab fee: \$15.00

CIVL 121 Heavy Construction Materials (A,W,SP) 3 credits
A comprehensive study and application of the material testing methods of soils, aggregates, asphalt and portland cement concrete required in the heavy construction industry. The laboratory exercises provide fundamental hands-on experience toward the American Concrete Institute (ACI) Grade 1 Concrete Field Technician.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CIVL 120
Lab fee: \$15.00

CIVL 221 Elementary Hydraulics (A,W) 3 credits
A study of liquids at rest and in motion in enclosed conduits and open channels. The effects of static head, velocity, pressure and friction in enclosed piping systems are analyzed. Principles of pump systems, pump station design and detailing are emphasized. Fundamentals of open channel flow, quantification of rainfall runoff and culvert design are introduced.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: MATH 104 or MATH 112
Lab fee: \$12.00

CIVL 223 Public Utility Systems (W,SU) 3 credits
A study of the principles of public utility theory, planning, design and detailing. Emphasis is placed on applying current design standards and local and state regulations to the planning, design and plan preparation for sanitary collection systems, storm water management systems and water distribution systems. Detail plan preparation using CAD systems is also emphasized.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CIVL 221 and CMGT 123
Lab fee: \$12.00

CIVL 232 Statics & Strength of Materials (A,W,SU) 3 credits
A study of the application of external loads on rigid bodies and analysis of the resulting forces and internal stresses in those bodies. The rigid bodies include beams, columns and truss systems. Topics covered include statics, shear, bending, properties of sections and stress and strain relationships.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: MATH 148
Lab fee: \$12.00

CIVL 291 Field Co-Op Experience (SU) **4 credits**
Off-campus work experience in construction, consulting engineering or construction related paid employment that augments formal education received in the technology, with actual work conditions and job experience. "N" credit will not be allowed for this course.
Lecture: 0 hours – Lab: 40 hours
Lab fee: \$15.00

Communication Skills (COMM)

(Also see English, Technical Communication, and Theater)

COMM 105 Speech (A,W,SP,SU-DL) **3 credits**
Emphasis is placed on both verbal and nonverbal communication techniques in public speaking. Individual presentations, including at least three major speeches, are required. The fundamental principles of interpersonal communications and small group discussion are introduced. Audio and/or video taping of selected projects will occur. This course, or its equivalent, is required for all degrees.
Lecture: 3 hours – Lab: 3 hours
Prerequisite: ENGL 101 or ENGL 111
Concurrent: ENGL 101 or ENGL 111
Lab fee: \$3.00

COMM 110 Conference and Group Discussion (A,W,SP,SU - DL) **3 credits**
Through role play, discussion, and participation, students will develop attitudes, skills, and knowledge of methods necessary to effectively participate in discussion at conferences, in committees, and in other small groups. This course is recommended as a substitute for COMM 105 in some technologies. Check with your academic advisor.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ENGL 101 or ENGL 111
Concurrent: ENGL 101 or ENGL 111
Lab fee: \$3.00

COMM 115 Oral Interpretation (A,W,SP,SU - DL) **3 credits**
Students will read literature orally and listen critically. They will then practice techniques for presenting literature dramatically. The cultural and social functions of oral literature will be discussed. Emphasis will be placed on analyzing literary works, recognizing their emotional and dramatic values, and projecting those qualities through oral presentations. Writing assignments include response journals and short critical papers. This course is recommended as a substitute for COMM 105 for all Associate of Arts and Associate of Science students.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Prerequisite: ENGL 101 or ENGL 111
Concurrent: ENGL 101 or ENGL 111.
Lab fee: \$3.00

COMM 210 Video Art Production (W,SU) **5 credits**
This course introduces students to the art of independent film and video through analysis of independent short films and through the production of digital video shorts. Students will research independent film sites and analyze independent films and videos to develop a descriptive definition of video as a collaborative art form. Students will learn digital video photography, conversion of VHS to digital form, script writing, editing, and post production in iMovies (Macintosh non-linear editing software for non professionals). Students will create short videos in selected genre,

such as biographical narrative, the parody, or the community-interest documentary.
Lecture: 4 hours-Lab: 2 hours
Prerequisite: ENGL 102 or equivalent with a grade of "C" or higher required; and ENGL 245 Introduction to Film is recommended.
Lab Fee: \$ 25.00

COMM 220 Introduction to Mass Communications (A - DL) **5 credits**
Students will become better consumers of news and other mass media through the study and discussion of the history, roles, and impact of mass media in American society. Principal ethical, policy, and legal questions confronting reporters and media are reviewed. Students are introduced to news writing, advertising, and public relations techniques.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: ENGL 102 or ENGL 111
Lab fee: \$3.00

COMM 297-298-299 Special Topics in Communications (On Demand) **1-5 credits**
Lecture hours: vary – Lab hours: vary
Prerequisite: vary

Computer Programming Technology (CPT)

CPT 101 PC Applications 1 (A,W,SP,SU- DL) **3 credits**
In this course, the student will learn introductory concepts and techniques used in word processing, spreadsheet, database, and presentation graphics software. Hands-on lab experience using the Windows operating system and Microsoft Office software is emphasized. This course is not designed for beginning computer users. Beginning computer users should take MCT 091, Computer Concepts before taking this course. Recommended: OADM 131.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: DEV 030 and completion of ENGL 100 or ESL 100 or placement into ENGL 101 or ENGL 111
Lab fee: \$10.00

CPT 108 CIS Concepts (A,W,SP,SU) **3 credits**
This course is an introduction to computer information systems, computer concepts, and programming techniques. The course will prepare students for programming along with providing an understanding of the development of applications and the control structures.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: MATH 103 and CPT 101
Lab fee: \$5.00

CPT 111 Programming 1 (A,W,SP) **5 credits**
Introduction to programming in Assembly Language. Students learn the basic principles of packed decimal arithmetic, editing numeric data and programming logic.. CPT 108 may be taken prior to or with CPT 111.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: MATH 121 and CPT 101
Lab fee: \$40.00

CPT 112 Programming 2 (W,SP,SU) **5 credits**
A continuation of CPT 111. Emphasizes the use of binary arithmetic, table handling, sequential disk files, and the external sort.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 111
Lab fee: \$40.00

CPT 131 Operating Systems (SP,SU) 3 credits
Selected topics of current interest will be presented, including a comparative discussion of operating systems, for micros (PC-DOS and Windows), and mini (OS/400) mainframe (DOS/VSE, OS/MVS, and UNIX). The student will code several JCL lab exercises.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 111 or CPT 112 or CPT 155 or CPT 245 or one quarter of a programming language.
Lab fee: \$10.00

CPT 151 BASIC Business Language (On Demand) 3 credits
Introduction to the BASIC programming language with business applications.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 111
Lab fee: \$25.00

CPT 155 Visual Basic (A,W,SP,SU - DL) 5 credits
Emphasizes the essential aspects of creating the graphical user interface of a Visual Basic Windows program. The student will also learn fundamental aspects of coding a Visual Basic program, along with more advanced topics such as manipulating MS Access databases, sequential file processing, error handling and data validation. Programs are run on IBM micro computers using the Windows operating system.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 111
Lab fee: \$40.00

CPT 156 Advanced Visual Basic (A, W, SP, SU -DL) 5 credits
A continuation of CPT 155. Emphasizes advanced topics in Visual Basic such as Database programming, including SQL, Active X controls, and object-oriented programming.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 155
Lab fee: \$40.00

CPT 201 COBOL 1 (A, W) 5 credits
Introduction to the concepts and techniques of batch COBOL programming using structured programming techniques. Sequential access methods are stressed. An introduction to alternate mediums will be used.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 111, or CPT 155 or CPT 245 or one quarter of a programming language
Lab fee: \$40.00

CPT 202 COBOL 2 (W, SP) 5 credits
A continuation of CPT 201. Sort procedures, random access through VSAM file structure and table handling are stressed. Alternate mediums will be used.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 201
Lab fee: \$40.00

CPT 205 Interactive COBOL (SU) 5 credits
Interactive programming using Micro Focus Cobol software. CPT 205 may be taken prior to or with CPT 281.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 202
Lab fee: \$40.00

CPT 206 Introduction to Object-Oriented COBOL (A,W,SP,SU) 5 credits
Introduction to OOCOBOL using classes and objects are discussed. Object Analysis and Object Design concepts are introduced for COBOL programming. Programs written are runnable on personal computers using and ANSI-standard COBOL-97 compiler.
Lecture: 2 hours – Lab: 8 hours
Prerequisite: CPT 201
Lab fee: \$40.00

CPT 211 Systems Analysis 1 (SP) 4 credits
An introduction to the science of systems analysis and design to include explanation of systems flowcharting, documentation and decision support systems. Students will work in groups to analyze existing systems.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: CPT 111, or CPT 155, or CPT 245, or one quarter of a programming language
Lab fee: \$15.00

CPT 212 Systems Analysis 2 (SU) 4 credits
A continuation of CPT 211. The student will learn to use system flowcharting techniques to design typical business systems. Additionally, the students will learn to apply the principles of systems analysis and design to manage and develop large data processing projects.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: CPT 211
Lab fee: \$15.00

CPT 221 Database Programming (A,W,SP,SU) 3 credits
This course presents an overview of Database Management Systems (DBMS) programming techniques and systems. The student will write programs using ORACLE.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 111
Lab fee: \$25.00

CPT 225 Database Systems (W,SU) 3 credits
An introduction to database systems in theory and application. Students will design and build a database on IBM personal computers using ORACLE.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 221
Lab fee: \$25.00

CPT 241 Introduction to AS/400 (A,W,SP,SU) 3 credits
Survey of IBM AS/400 computer system operation and use of application development tools. Topics include: Program Development Manager (PDM), Source Entry Utility (SEU), Data File Utility (DFU), Query/400, and Screen Design Aid (SDA).
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 101
Lab fee: \$25.00

CPT 243 Command Language/400 (A,W,SP,SU) 3 credits
Introduction to Control Language Programming on the AS/400 will stress the skills required to effectively use Control Language in the operations of an AS/400. Topics include: basic CL programming, input/output in CL programs, and advanced file techniques.
Lecture: 2 hours – Lab: 3 hours
Prerequisite CPT 241
Lab fee: \$25.00

CPT 244 AS/400 System Operations (A,SP) 3 credits
System Operations will be a continuation of CPT 241, Introduction to the AS/400, and will cover typical daily AS/400 operational duties as well as weekly and monthly tasks. Topics include: security, managing print functions, device configuration, backup, performance, and client access.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 241
Lab fee: \$25.00

CPT 245 Introduction to RPG (A,SP) 5 credits
Study of the fundamentals of Report Program Generator (RPG) programming language, particularly as it applies to an IBM AS/400 computer. Topics include: structured program design in both batch and interactive applications, file handling, arithmetic operations, externally defined files,

and table and array handling.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 243, CPT 244 and CPT 111

Lab fee: \$40.00

CPT 246 Advanced RPG (W,SU) 5 credits

A continuation of CPT 245. Advanced course in RPG programming using the IBM AS/400 computer. Topics include: structured RPG programming with interactive file processing (Subfiles), Command and System Application Program Interfaces (APIs), data structures, and other advanced topics.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 245

Lab fee: \$40.00

CPT 248 RPG IV (W,SU) 5 credits

A continuation of CPT 246, Advanced RPG. It will present the most suitable, modern techniques of RPG IV and ILE concepts. This is an advanced class concentrating on subfile applications on an AS/400.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 246

Lab fee: \$40.00

CPT 251 Introduction to C++ Programming (A,W,SP,SU) 5 credits

An introductory course in ANSI-Standard C++ Language Programming. Lab problems are targeted towards writing programs with business applications. Computer lab projects will provide hands-on experience in developing programs with an ANSI-Standard C++ compiler environment.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 111 or CPT 155 or CPT 201 or CPT 245

Lab fee: \$40.00

CPT 252 Advanced C++ Programming (A,W,SP,SU) 5 credits

An advanced course in ANSI-Standard C++ Language programming. Lab problems are targeted towards writing programs that explore data structures using object-oriented techniques. Computer lab projects will provide further hands-on experience in developing programs with an ANSI-Standard C++ compiler environment including debugging techniques.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 251

Lab fee: \$40.00

CPT 254 JAVA Programming for Programmers (A, W, SP, SU) 5 credits

This course provides programmers with the basics of Java programming language covering the concepts of designing with Java and an introduction to syntax and Java programming language. Additional, the course offers an understanding of the impact of Java programming language on web design and an understanding of individual Java components.

Lecture: 2 — Lab: 8 hours

Prerequisite: CPT 252

Lab fee: \$40.00

CPT 261 Network Communication Systems (A,W,SP,SU) 5 credits

Students will learn the fundamentals of data communication and computer networks. To include basic communication theory as applied to both digital and analog communication networks. Also students will learn the basics of the OSI layered network model and characteristics of the wide area, and local area data communication networks.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MCT 221

CPT 262 Client Server Systems (A,W,SP,SU) 3 credits

Students will learn the basic information about client/server computing and the operation of Local Area Networks (LAN). Students will create users, establish network security, share printers, and other network resources in a single server environment.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 221

Lab fee: \$25.00

CPT 263 Networking (A,W,SP,SU) 5 credits

A continuation of CPT 262. Students will learn advanced local area network concepts and how they can be applied to support enterprise-wide information management of a large organization. The student will learn to install and use a popular LAN operating system.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: MCT 221

Lab fee: \$40.00

CPT 264 Advanced Networking (A,W,SP,SU) 5 credits

A continuation of CPT 263. Students will learn to use Microsoft Windows NT software to support small and enterprise wide information management systems. Students will complete a series of laboratory assignments using Windows NT software.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 263

Lab fee: \$40.00

CPT 265 Distributed Database Management Systems (A,W,SP,SU) 5 credits

Students will learn the characteristics and types of distributed DBMS currently available for use on distributed data networks. Additionally, students will learn to design and create an enterprise wide database (ORACLE) that will be maintained on a distributive network system in a laboratory environment.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 264

Lab fee: \$40.00

CPT 266 Certification Test Review (A,W,SP,SU) 1 credit

Students will review the material necessary to become certified with a popular network operating systems software. Students will complete a series of practical exercises designed to enhance their ability to successfully complete a popular vendor certification program.

Lecture: 0 hours – Lab: 3 hours

Prerequisite: CPT 264

Lab fee: \$15.00

CPT 267 TCP/IP (A,W,SP,SU) 3 credits

This course demonstrates the concepts and analyzes the results using utilities provided by Windows NT. The course covers the aspects of TCP/IP such as history, client/server model/addressing/bridging and routing/DHCP, Windows NT domains and name services.

Lecture: 2 hours — Lab: 3 hours

Lab fee: \$40.00

CPT 281 Final Project (SP,SU) 5 credits

This is the capstone course for the Computer Programming Technology. Students will work in small groups to design, choose appropriate medium and program a typical business system.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: CPT 202 and CPT 212

Lab fee: \$40.00

CPT 289 ACP Examination (A,W,SP,SU) **1 credit**
Students will review topics covered in all previous technical courses. Students will be eligible to take general and COBOL areas of the Associate Computer Professional (ACP) examination administered by the Institute for the Certification of Computer Professionals (ICCP). All students in Computer Programming Technology will take CPT 289 during their graduating quarter.

Lecture: 0 hours – Lab: 3 hours
Lab fee: \$20.00

CPT 291 Special Topics in CS 1 (On Demand) **1-5 credits**

CPT 292 Special Topics in CS 2 (On Demand) **1-5 credits**

CPT 293 Special Topics in CS 3 (On Demand) **1-5 credits**

CPT 294 Special Topics in CS 4 (On Demand) **1-5 credits**

CPT 295 Special Topics in CS 5 (On Demand) **1-5 credits**

CPT 296 Special Topics in CS 6 (On Demand) **1-5 credits**

Special Topics in CS is a series of courses specifically designed to meet the needs of the constantly changing business community and student population. Courses will be designed with the advice of the particular group requesting the course and approval of the department chairperson.
Lecture: 0 hours – Lab: 1-5 hours
Lab fee: \$30.00

CPT 297 Computer Science Internship/Field Experience 1 (On Demand) **1 credit**

The student works 12 hours per week in an activity that relates to the students' occupational objective. A faculty member who aids in the students' growth and development coordinates the on-the-job experience.
Lecture: 0 hours – Lab: 12 hours

CPT 298 Computer Science Internship/Field Experience 2 (On Demand) **2 credits**

The student works 24 hours per week in an activity that relates to the students' occupational objective. A faculty member who aids in the students' growth and development coordinates the on-the-job experience.
Lecture: 0 hours – Lab: 24 hours

CPT 299 Computer Science Internship/Field Experience 3 (On Demand) **3 credits**

The student works 36 hours per week in an activity that relates to the students' occupational objective. A faculty member who aids in the students' growth and development coordinates the on-the-job experience.
Lecture: 0 hours – Lab: 36 hours

Construction Management (CMGT)

CMGT 101 Managing a Construction Company (A,W,SP) **3 credits**

An overview of the operations of a construction firm with a simulation of the management process by student teams demonstrating skills and competencies required.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$2.00

CMGT 105 Construction Contract Documents (A,W,SP,SU) **3 credits**

Intensive study of all documents related to a project with emphasis on the important legal aspects of each, and the role of the contractor in the final project.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$4.00

CMGT 106 Supervision of Field Operations (W,SP) **3 credits**

An overview of the principles of field supervision which includes leadership skill, problem solving, motivation techniques, problem solving processes, communication methods and useful supervisory aids for construction projects.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$4.00

CMGT 115 Building Construction Methods (A,W,SP,SU) **3 credits**

A study of the methods used in work-site preparation, materials handling systems, assembly of construction materials and systems as related to building projects such as offices, schools, stores, industrial buildings and hospitals, along with the strategies employed to control and coordinate these activities.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$3.00

CMGT 121 Building Construction Drawings (A,W,SP,SU) **3 credits**

Reading and interpretation of construction drawings and project manuals as related to residential, commercial, and industrial construction projects. Interpretation of the relationship between plans, elevations, sections, details, and the coordination of these drawings with materials specifications. The use of basic construction math will be explained along with the interpretation of construction terms and symbols. The Dodge SCAN microfilm readers and Sweets catalogues will be used in this course.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: MATH 103 or higher or permission of instructor
Lab fee: \$9.00

CMGT 123 Heavy Construction Drawings (A,W,SP) **3 credits**

Reading and interpretation of construction drawings as related to highway and public works construction projects. Interpretation of the relationships of plans, elevations, sections and details, and the coordination with published specifications. A basic method of material quantity take-off will be explained.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$5.00

CMGT 125 Heavy Construction Methods (A,W) **3 credits**

A study of methods used to build horizontal projects, such as highways, dams, airports, bridges and utility lines. The various pieces of equipment and materials used in these type projects will be explained as well as the processes used.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$5.00

CMGT 131 Construction Quantity Survey (A,W,SP,SU) **3 credits**

Development of the use of construction math relative to linear, square and cubic measures of common construction materials. The computation and organization of basic material quantities used in a typical building construction project including the site preparation.
Lecture: 1 hours – Lab: 4 hours
Prerequisite: CMGT 121
Concurrent: MATH 104
Lab fee: \$9.00

CMGT 135 Safety and Loss Prevention (SP) 3 credits
Identification of work hazards and unsafe practices, safety codes and standards, safety programs and training with the role of O.S.H.A. and insurance companies in safety programs. Basic first aid and CPR are included. How to develop theft reduction programs with the cooperation of local law enforcement departments and insurance companies will also be studied.

Lecture: 2 hours – Lab: 3 hours
Lab fee: \$7.00

CMGT 141 Building Estimating (W,SP,SU) 3 credits
Development of topics such as material price extensions, equipment requirements, labor requirements, and time requirements as related to building construction projects. Involving the take-off procedure used.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 131 and CMGT 115
Lab fee: \$9.00

CMGT 231 Computer Estimating Buildings (SU, W) 3 credits
A continuation of the study for the skills required to “take-off” the amount of materials from a set of construction plans in an orderly manner. The course will develop the general background information for the process of bidding a construction project utilizing computer software and discussing the most current software applications.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 141, CMGT 131 and MATH 104
Lab fee: \$20.00

CMGT 241 Planning and Scheduling (SU,A) 3 credits
A study of project control and coordination through systematic planning and scheduling, including operational adjustments for resource changes and alterations. Computer computation of critical path methods and analysis.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 115 or CMGT 131
Lab fee: \$10.00

CMGT 243 Construction Labor Law (A) 3 credits
Investigation of the legal areas of labor contracts, project contracts, NLRB regulations, insurance requirements, fringe benefit collection, dispute resolution, arbitration and litigation as related to construction labor disputes.

Lecture: 2 hours – Lab: 3 hours
Lab fee: \$3.00

CMGT 248 Heavy Construction Estimating (A,SU) 3 credits
A comprehensive study of the topics associated with and unique to heavy/highway construction estimating. The major focus of the course will involve determining the cost factors of the equipment intensive operations associated with heavy/highway construction. The secondary focus will be relating the equipment selection and cost factors to the labor requirements, materials price extensions, and time requirements as utilized in the model crew method of estimating.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 123, CMGT 125 and CMGT 131
Lab fee: \$9.00

CMGT 251 Construction Cost Controls (A,W) 3 credits
Methods and techniques of cost analysis used to develop skills in controlling construction computer computation of costs, budgets, and related critical path analysis and adjustment, operating costs and cost forecasting of completed production.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 141 or CMGT 248 and CMGT 241
Lab fee: \$10.00

CMGT 252 Construction Contract Law (W) 3 credits
Analysis of the special conditions of construction law as applied to contractual on-site conditions, document usage, negotiations of disputes, change orders and master contracts.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 105
Lab fee: \$1.00

CMGT 253 Residential Construction (A,SU) 3 credits
The basic construction of a single family residence from the ground up, emphasizing construction methods, equipment used, structural design theory, materials and terminology.

Lecture: 2 hours – Lab: 3 hours
Lab fee: \$2.00

CMGT 261 Project Management (W,SP) 3 credits
Tracking a project through a construction firm which includes job start, control assignments, control structures, organization, and move-out phases of the construction project. Computer simulation of project activities and management processes.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 251
Lab fee: \$10.00

CMGT 281 Computer Estimating Residential 3 credits
A comprehensive study of the skills required to “take-off” the amount of materials from a set of construction plans in an orderly manner. The course will develop the general background information for the process of bidding a residential construction project utilizing computer software.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 131, CMGT141 and MATH 104
Lab Fee: \$20.00

CMGT 288 Computer Estimating Heavy Highway 3 credits
Utilizing material price extensions, unit prices, equipment, labor and time required for heavy/ highway construction as has been covered in the prerequisites and relating that information to computer estimating software.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: CMGT 123, CMGT 125, CMGT 131 and CMGT 248
Lab Fee: \$20.00

CMGT 290 Work Experience Seminar (SP) 1 Credit
This class will prepare the student to work as a co-op student in a construction related position. Resumes, interviews, and job preparation will be discussed. The student taking this class should have been a student in one of the construction engineering technology programs for at least two previous quarters.

Lecture: 1 hours – Lab: 0 hours

CMGT 291 Construction Work Experience (SU) 4 credits
Off-campus work experience in construction, consulting engineering or construction related paid employment, that augments formal education received in the technology, with actual work conditions and job experience. “N” credit will not be allowed for this course.

Lecture: 0 hours – Lab: 40 hours
Prerequisite: CMGT 290 pr permission of instructor
Lab fee: \$15.00

CMGT 299 Special Topics in Construction Management 1 –5 credits
Course provides flexibility to allow for special topics in the Construction industry to be presented.

Lecture and Lab hours vary dependent upon topic
Prerequisite: varies upon topic.
Lab Fee: \$10.00

Dance (DANC)

All studio classes are held at Ballet Met, 322 Mount Vernon Ave.

DANC 101 Classical Ballet I (AU, WI, SP) 2 credits
Classical ballet at the beginning level. Fundamentals of classical ballet technique, coordination, strength and flexibility with an emphasis on proper execution and comprehension. Repeatable for up to 6 total credits.
Lecture: 1 hours – Lab: 2 hours
Lab fee: \$8.00

DANC 102 Classical Ballet II (AU, WI, SP) 2 credits
A continuation of Classical Ballet I, following through on the development of basic skills and their incorporation into combinations of movements. Repeatable for up to 6 total credits.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: 6 hours of Ballet I or Permission of Instructor.
Lab fee: \$8.00

DANC 121 Beginning Tap I (Au, W, Sp) 1 credit
Tap techniques at the beginning level. Tap classes emphasize precession in sound, rhythm, movement, gesture and expression.
Lecture: hours – Lab: 2 hours
Lab fee: \$8.00

DANC 122 Beginning Tap II (Au, W, Sp) 1 credit
Fundamentals of tap developed to include more complex movement combinations and interpretations. Emphasis on quick and efficient learning skills.
Lecture: hours – Lab: 2 hours
Prerequisite: 6 hours of Tap I or permission of instructor
Lab fee: \$8.00

DANC 131 Beginning Jazz I (Au, W, Sp) 1 credit
Jazz dance techniques at the beginning level. Jazz classes combine classic Broadway theatre dance with contemporary movement styles, elementary body part isolations and basic combinations.
Lab: 2 hours
Lab fee: \$8.00

DANC 132 Beginning Jazz II (Au, W, Sp) 1 credit
Fundamentals of Jazz dance developed to include more complex movements combinations and interpretations.
Lab: 2 hours
Prerequisite: 6 hours of Jazz I or permission of instructor.
Lab fee: \$8.00

DANC 150 Afro-Caribbean/Jazz Dance I (On Demand) 2 credits
Students will learn basic ethnic dance history and vocabulary in the context of the wider social and cultural movements, and will also learn and practice dance movements themselves in the studio.
Lecture: 1 hours – Lab: 2 hours
Lab fee: \$8.00

DANC 151 Afro-Caribbean/Jazz Dance II (On Demand) 1 credit
Continuation of the studio portion of DANC 150.
Lab: 2 hours
Prerequisite: DANC 150 or permission of instructor.
Lab fee: \$8.00

DANC 299 Special Topics in Dance (On Demand) 1-5 credits
Examination of types and styles of dance other than those regularly offered.
Lecture hours varies – Lab hours varies
Lab fee: \$8.00

Dental Hygiene (DHY)

DHY 110 Introduction to Dental Hygiene (A) 4 credits
This four-hour course is designed to acquaint the dental hygiene student with the role of the dental hygienist and provide background knowledge, information and the necessary foundation required for subsequent didactic and clinical dental hygiene course work. There are several observation sessions at The Ohio State University College of Dentistry to acquaint and orient the students to the clinical setting.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program
Concurrent: DHY 140, DHY 141
Lab fee: \$60.00

DHY 111 Dental Hygiene Techniques Seminar I (W) 2 credits
This two-credit course is designed to provide the student with knowledge of the basic principles of instrumentation, instrument design and fundamental skills necessary to perform in subsequent clinical dental hygiene courses.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 110
Concurrent: DHY 120.

DHY 112 Dental Hygiene Techniques Seminar II (SP) 1 credit
This one-hour lecture course is designed to expand the student's knowledge of dental hygiene practice including ultrasonic instrumentation, instrument sharpening, treatment planning, dental charting and care of the special needs patient.
Lecture: 1 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 111, DHY 120, DHY 130
Concurrent: DHY 121

DHY 120 Dental Hygiene Clinic I (Pre-Clinical) (W) 4 credits
This four-credit, 12-contact-hour clinical course is designed to apply the basic principles of instrumentation, instrument design, instrument utilization, and fundamental clinical dental hygiene skills. The method of evaluation is competency-based and guided by mastery of skills.
Lecture: 0 hours – Lab: 12 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 110, DHY 140, DHY 141
Concurrent: DHY 111, DHY 130, DHY 131.
Lab fee: \$200.00

DHY 121 Dental Hygiene Clinic II (SP) 4 credits
This four-credit, 12-contact-hour clinical course continues the clinical experience of total patient care emphasizing instrumentation skills, radiographic techniques, patient education charting and treatment planning.
Lecture: 0 hours – Lab: 12 hours
Prerequisite: DHY 120
Concurrent: DHY 112
Lab fee: \$225.00

DHY 130 Dental Radiography (W) 3 credits
This three hour lecture course provides the fundamental theory for safe and effective use of x-radiation as it relates to dentistry. It encompasses: history, production and uses of radiation; film exposure; operation techniques for exposure; and radiographic interpretation.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 110, DHY 140, DHY 141
Concurrent: DHY 111, DHY 120, DHY 131

DHY 131 Dental Radiography Laboratory (W) 1.5 credit
 This one credit, three contact hour laboratory course places emphasis on proficiency in exposing and developing diagnostically acceptable dental radiographs. The course provides experience in the use of x-ray equipment, exposure projections and techniques, processing, mounting and evaluation of radiographs.
 Lecture: 0 hours – Lab: 3 hours
 Prerequisite: Admission to Dental Hygiene Program, DHY 141, DHY 110, DHY 140
 Concurrent: DHY 130
 Lab fee: \$75.00

DHY 140 Head and Neck Anatomy/Tooth Morphology (A) 3 credits
 This three hour course includes the study of skeletal, muscular, circulatory, nervous and glandular structures of the head, neck and oral cavity. The study of anatomy and morphology of the head and soft tissues of the oral cavity will also be included in this course.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: Admission to Dental Hygiene program
 Concurrent: DHY 110, DHY 141
 Lab fee: \$3.00

DHY 141 Head and Neck Anatomy, Tooth Morphology Lab (A) 1.5 credit
 This one-credit, three contact-hour course involves the identification and reproduction of teeth and orofacial structures, morphology of hard and soft tissues of the oral cavity and head and neck with special emphasis on clinical application.
 Lecture: 0 hours – Lab: 3 hours
 Prerequisite: Admission to Dental Hygiene Program
 Concurrent: DHY 140, DHY 110
 Lab fee: \$30.00

DHY 210 Dental Hygiene Techniques Seminar III (SU) 1 credit
 This one hour lecture course is designed to introduce the foundational theories and clinical techniques of root planing, gingival curettage and pit and fissure sealants. In addition, instruction will be provided on the practical aspects of nutritional need of the dental patient and nutritional counseling.
 Lecture: 1 hours – Lab: 0 hours
 Prerequisite: Admission to Dental Hygiene Program, DHY 112, DHY 241
 Concurrent: DHY 250, DHY 260, DHY 220

DHY 211 Dental Hygiene Techniques Seminar IV (A) 1 credit
 This one hour lecture course is designed to provide knowledge and understanding regarding dental hygiene care and management for patients with special needs, including but not limited to, pediatrics, geriatrics and the handicapped.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: Admission to Dental Hygiene Program, DHY 210, DHY 220, DHY 260
 Concurrent: DHY 270, DHY 221

DHY 212 Dental Hygiene Techniques V (W) 1 credit
 This one hour course is designed to provide the student with the fundamental knowledge and theory to perform expanded function duties of the dental hygienist.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: Admission to Dental Hygiene Program, DHY 211, DHY 221, DHY 270
 Concurrent: DHY 222, DHY 280

DHY 213 Dental Hygiene Techniques Seminar VI (SP) 2 credits
 This two hour lecture course is designed to provide the student with knowledge of professional ethics, legal responsibilities of the dental hygienist, and the role of organized dental hygiene. In addition, office management skills, alternate practice settings and securing employment will be emphasized. The student will create a Dental Hygiene Portfolio including a prepared resume.
 Lecture: 2 hours – Lab: 0 hours
 Prerequisite: Prerequisite to Dental Hygiene Program, DHY 212, DHY 222, DHY 280
 Concurrent: DHY 223, DHY 281

DHY 220 Dental Hygiene Clinic III (SU) 4 credits
 This four-credit, 12-contact-hour clinical course continues clinical experience of total patient care, instrumentation skills, radiographic techniques, patient education, assessment and treatment planning. In addition, new treatment modes will include: sealant placement, impression making, nutritional counseling and the introduction to ultrasonic scaling, root planing and curettage.
 Lecture: 0 hours – Lab: 12 hours
 Prerequisite: DHY 121, DHY 240, DHY 241.
 Concurrent: DHY 250, DHY 260, DHY 210
 Lab fee: \$225.00

DHY 221 Dental Hygiene Clinic IV (A) 4 credits
 This four-credit, 12-contact-hour clinic course builds upon previous clinical course work involving dental hygiene total patient care. The course will expand student knowledge in instrumentation skills, radiographic techniques, patient education assessment and treatment planning, sealant placement, impression making, nutritional counseling and periodontal therapies.
 Lecture: 0 hours – Lab: 12 hours
 Prerequisite: DHY 220
 Concurrent: DHY 211, DHY 270
 Lab fee: \$225.00

DHY 222 Dental Hygiene Clinic V (W) 4 credits
 This four-credit, 12-contact-hour clinic course will provide ongoing experience in total patient care. Treatment parameters from previous clinic course work will be increased to include expanded function duties as well as intraoral imaging.
 Lecture: 0 hours – Lab: 12 hours
 Prerequisite: DHY 221
 Concurrent: DHY 212, DHY 280
 Lab fee: \$225.00

DHY 223 Dental Hygiene Clinic VI (SP) 5 credits
 This five credit, fifteen contact-hour clinical course is the final course in the clinical dental hygiene sequence. It is designed to enable the student to incorporate all the techniques and treatment modalities previously acquired involving total patient care. Emphasis will be placed on refinement of treatment, professional decision making and case study presentation.
 Lecture: 0 hours – Lab: 15 hours
 Prerequisite: DHY 222
 Concurrent: DHY 281, DHY 213.
 Lab fee: \$225.00

DHY 240 Dental Materials (SP) 2 credits
 This two hour course is designed to study the chemical, physical and biological properties of materials used in dentistry. Emphasis will be placed on the manipulation and utilization of materials that have application to the dental hygienist.
 Lecture: 2 hours – Lab: 0 hours
 Prerequisite: DHY 111, DHY 120
 Concurrent: DHY 241, 112, DHY 121

DHY 241 Dental Materials Laboratory (SU) **1.5 credit**
This three hour laboratory course places emphasis on the manipulative techniques and practical application of various materials used in the practice of dentistry.
Lecture: 0 hours – Lab: 3 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 111, DHY 120, DHY 130, DHY 131
Concurrent: DHY 240, DHY 112, DHY 121.
Lab fee: \$150.00

DHY 250 Oral Histology and Pathology (SU) **4 credits**
This four-credit hour course involves the study of tissues comprising the oral cavity along with the embryonic development of these tissue and facial structures. In addition, general and oral pathology will be covered with emphasis placed upon the recognition of normal and abnormal conditions.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 112, DHY 121, DHY 240, DHY 241
Concurrent: DHY 260, DHY 210, DHY 220.

DHY 260 Periodontology (SP) **3 credits**
This two-hour lecture course is designed to place emphasis on the etiology, assessment, evaluation, classification, treatment and maintenance of the periodontally involved dental patient.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 112, DHY 121, DHY 140, DHY 240, DHY 241
Concurrent: DHY 210, DHY 220, DHY 250

DHY 270 Dental Pharmacology (A) **2 credits**
This three hour course surveys the drugs commonly encountered in the dental office. Emphasis is given to drugs and drug actions which can affect dental treatment.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program, DHY 260, DHY 210, DHY 220, DHY 250
Concurrent: DHY 211, DHY 221

DHY 280 Community Dental Health (W) **3 credits**
This three hour lecture course introduces the philosophy, techniques, attitudes and behaviors necessary to promote dental disease prevention through organized community-based programs. The student will be responsible for assessing, planning, implementing and evaluating community oral health programs.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Admission to Dental Hygiene Program and DHY 211, DHY 221 DHY 250, DHY 270
Concurrent: DHY 212, DHY 222

DHY 281 Community Dental Health External Projects (SP) **1 credit**
This one credit, three-contact hour course provides the student with the opportunity to apply the principles of public and community dental health in a practical setting. Projects that include implementation and evaluation will be included.
Lecture: 0 hours – Lab: 2 hours
Prerequisite: DHY 221, and DHY 280
Concurrent: DHY 213, and 223
Lab fee: \$20.00

Dental Laboratory Technology (DENT)

DENT 101 Materials I (A) **3 credits**
This course involves a comprehensive study of the chemical and physical properties of materials used by the dental technician.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Acceptance into program.

DENT 111 Anatomy (A) **3 credits**
This course provides the student with an introduction to the masticatory system. The student will be exposed to the significant structures and landmarks of the oral cavity, with extensive study of the permanent dentition.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: Acceptance into program.

DENT 121 Complete Dentures I (A) **3 credits**
This course involves an introduction to complete dentures and includes a study of the procedures from preliminary impressions through wax contouring, with special emphasis upon artificial tooth arrangement.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: Acceptance into program.
Lab fee: \$65.00

DENT 122 Complete Dentures II (W) **2 credits**
This course is a continuation of the study of complete dentures and includes procedural material from flasking through patient remount and occlusal adjustments.
Lecture: 1 hours – Lab: 3 hours
Prerequisite: DENT 121

DENT 123 Complete Dentures III (SP) **3 credits**
This course involves a study of procedures required to solve specific postinsertion problems, e.g. repair, rebase, and relin. In addition, the student is introduced to the immediate denture technique.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 122

DENT 132 Occlusion (A) **3 credits**
This course will entail a study of occlusal morphology, the temporomandibular joint and mandibular movements.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 132

DENT 142 Removable Partial Dentures I (W) **3 credits**
This course is a basic study of removable partial dentures, and presents principles such as survey, design, and fabrication.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 121

DENT 143 Removable Partial Dentures II (SP) **2 credits**
This course will involve an intensification of the study of survey, design and fabrication of removable partial dentures.
Lecture: 1 hours – Lab: 3 hours
Prerequisite: DENT 142

DENT 153 Fixed Partial Dentures I (W) **3 credits**
This course will introduce the student to the fixed appliance. The content will be limited to the single unit crown.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 132
Lab fee: \$65.00

DENT 224 Complete Dentures IV (SU) **2 credits**
In this course, the student will fabricate an overdenture and will concentrate upon characterization of complete dentures.
Lecture: 1 hours – Lab: 3 hours
Prerequisite: DENT 123

DENT 244 Removable Partial Dentures III (SP) **3 credits**
During this course, the student will apply acquired knowledge and skills by fabrication of removable partial dentures. The didactic portion will encompass the specialized designs such as stressbreakers, precision attachments and the RPI technique.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 143

DENT 256 Fixed Partial Dentures IV (Sp) **3 credits**
This course will involve a study of crown and bridge cases not covered previously as well as the use of attachments. The student will construct multiple unit appliances and construct one piece castings.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 255

DENT 275 Ceramics I (W) **4 credits**
This course is an introduction to dental ceramics and will involve a study of porcelain fused to metal restorations. The students will construct porcelain veneers and full coverage single unit crowns.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: DENT 254

DENT 276 Ceramics II (SP) **3 credits**
This unit will entail a continuation of the study of the porcelain fused to metal restoration. It will also include the study of the Maryland bridge and the porcelain jacket crown and other multiple unit appliances.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: DENT 111

DENT 285 Orthodontics (SP) **2 credits**
This course provides a basic introduction to the laboratory skills necessary to provide services in the areas of orthodontics.
Lecture: 1 hours – Lab: 3 hours

DENT 296 Applied Laboratory I (SP) **3 credits**
This course consists of laboratory and is intended to simulate a working laboratory. The student will fabricate fixed and removable appliances.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: None
Lab fee: \$65.00

DENT 297 Applied Laboratory II (SU) **7 credits**
This course consists entirely of laboratory and is intended to stimulate a working laboratory situation with regard to work schedules, case flow, and coping with real problems.
Lecture: 1 hours – Lab: 18 hours
Prerequisite: None
Lab fee: \$75.00

Developmental Education Department (DEV)

DEV 006 Basic Grammar Skills (A,W,SP,SU) **2 credits**
This course covers grammar skills including the correct use of verb tenses and forms; simple, compound, and complex sentences; fragments, run-ons, and comma splices.
Lecture: 2 hours - Lab: 0 hours
Lab fee: \$2.00.

DEV 007 Basic Punctuation Skills (A,W,SP,SU) **2 credits**
This course covers punctuation skills including the correct use of commas, semicolons, quotation marks, apostrophes, and other marks.
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$2.00

DEV 015 Spelling and Vocabulary (A,W,SP,SU) **3 credits**
This course is designed to improve vocabulary and spelling skills through the use of memorization, phonics, the application of rules, and personal word lists.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$2.00

DEV 028 Algebra Foundations (A,W,SP,SU) **3 credits**
This course is designed for students who need special assistance in order to re-enter DEV 031, Pre-Algebra. The course is structured to develop students' critical thinking and problem solving in relation to basic algebra concepts. Methods of instruction will include collaborative activities, manipulatives, lecture, and writing activities involving simplifying expressions, solving equations, word problems, and signed number operations. The course is not open to students with credit for DEV 031 or MATH 102.
Lecture: 3 hours – Lab: 0 hours
Lab Fee: \$3.00

DEV 029 Math Foundations (A,W,SP,SU) **3 credits**
This course is designed for students who need special assistance with basic math in order to re-enter DEV 030, Basic Mathematics. This course includes whole number operations, problem-solving strategies, estimation and number sense, Order of Operations, math study skills, and an introduction to fractions and geometry. DEV 029 is taught through lectures, group activities, tutorial exercises, and small group instruction. This course is not open to students with credit for DEV 030 or higher.
Lecture: 3 hours – Lab: 0 hours
Lab Fee: \$3.00

DEV 030 Basic Mathematics (A,W,SP,SU) **5 credits**
Basic Mathematics offers a review of arithmetic concepts including whole numbers, fractions, decimals, percents, proportions, formulas, data interpretation, and basic geometry. The course is structured to develop students' critical thinking, problem solving, math and study skills through collaborative activities, writing assignments, real-life applications and the use of modern technology in the classroom. Traditional and computer-mediated sections available. This mastery learning course is not open to students with credit for DEV 031, MATH 101 or MATH 102.
Lecture: 5 hours – Lab: 0 hours
Lab fee: \$6.00 for traditional; \$65.00 for computer-mediated (includes software and textbooks.).

DEV 031 Pre-Algebra (A,W,SP,SU) **5 credits**
Pre-Algebra is designed for students who have no experience with algebra and for those who need to strengthen their abilities to work with algebraic mathematics. Topics in DEV 031 will include simplifying algebraic expressions, solving equations, working with exponents, formulas, signed number operations, monomial operations and application problems. This course will help to develop students' algebra and studying skills and help them to perform successfully in MATH 101, MATH 102, and in the workplace. Traditional, mastery, and computer-mediated sections available. This course is not open to students with credit for MATH 101 or MATH 102.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: By placement or minimum of "C" or above in DEV 030.
Lab fee: \$6.00 for traditional; \$65.00 for computer-mediated (includes software and textbooks).

DEV 040 Reading Improvement (A,W,SP,SU) **5 credits**
This course focuses on developing students' basic reading skills. Students will practice strategies for improving reading rate and comprehension. Critical reading skills will be introduced through reading and responding to essays, keeping a journal and vocabulary notebook, and doing workbook activities. This course is not open to students with credit for DEV 044.
Lecture: 4 hours – Lab: 2 hours
Lab fee: \$4.00.

DEV 041 Basic Communication Skills (A,W,SP,SU) 5 credits
This course combines elements of the writing process with the basic principles of writing clear, coherent, and well-developed paragraphs. Students will review rules of grammar usage and punctuation. Critical thinking skills will be developed through reading, class discussion, and journal writing. This course is open to students who place by writing test or placement score into DEV 041. It is not open to students with credit for any of the ENGL 100 series.
Lecture: 4 hours – Lab: 2 hours
Lab fee: \$5.00.

DEV 042 Principles of Writing (A,W,SP,SU) 5 credits
In this writing-intensive course, students will build on the composing, revising and editing strategies introduced in DEV 041. Through a review of individual DEV 041 writing portfolios, students' needs will be determined and instruction will address these needs. Students in this course will develop critical thinking skills through analyses of student and professional writings and through journal response to reading assignments.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: DEV 041 and permission of instructor.
Lab fee: \$5.00.

DEV 044 Critical Reading and Thinking (A,W, SP, SU) 3 credits
Critical Reading and Thinking is designed to help students develop higher-order reading skills that will help them become more effective and efficient readers. In this course, students will expand basic reading and critical thinking skills. A variety of reading disciplines will be used for discussion, reading and writing assignments, and projects that will allow students to critique their self-knowledge and evaluate ideas. The course is open to all Columbus State students..
Lecture: 3 hours – Lab 0 hours
Prerequisite: DEV 040 or by placement.
Lab fee: \$2.00

DEV 050 Career Life Planning (A,W,SP,SU) 3 credits
Career and Life Planning is designed to help students identify and examine their abilities, interests, values, and personality relative to educational and career choices. Upon completion of this course, a student will be able to develop a plan of action for gaining employment and/or pursuing a field of study that meets his or her personal needs.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$11.00.

DEV 090 College Success Skills (A,W,SP,SU) 2 credits
College Success provides students with skills necessary to be successful in their personal, academic, and career-related pursuits. The course focuses on an orientation to the College, study skills, note-taking, test-taking, and time management. This course is required of students who place in two Developmental Education courses.
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$6.00.

Early Childhood Development (ECD)

ECD 103 Cognitive Curriculum (W,SP,SU) 3 credits
Theoretical foundations for the child's cognitive development. Techniques for promoting concept development as well as focus on science, math and readiness skills. Emphasis on planning activities which encourage questioning, probing, and problem-solving skills appropriate to individual developmental levels and learning styles. Also includes effects and use of television, computers and technology in settings for young children.
Lecture: 3 hours - Lab: 0 hours
Prerequisite: ECD 105, 107, 203, PSY 261
Lab fee: \$12.00

ECD 105 Self-Concept (A,W,SP,SU) 3 credits
Focuses on the importance of individualizing an early childhood program to meet the needs of children in a manner which develops a positive self-image and individual competence. Explores impact of teacher's self-image, values and attitudes on preschool classroom. Includes dimensions of self, relationship of feelings to self-concept, and teaching to foster self-esteem. Examines use of positive communication skills and appropriate environments for guidance of young children.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Placement into ENGL101
Lab fee: \$12.00

ECD 106 Observing and Recording (A, WI, SP, SU) 1 credit
This course focuses on appropriate methods of observing young children in group settings. Objective methods for recording children's behavior will be included. Strategies for observing while filling the role of teacher will be addressed. (May be taken concurrently with ECD 105).
Lecture: 1 hour – Lab: 0 hours
Prerequisite: ECD 105
Concurrent: ECD 105 or ECD 107
Lab fee: \$4.00

ECD 107 Curriculum Planning (A,W,SP,SU) 3 credits
Focuses on strategies to facilitate classroom management and guidance. Emphasizes developing goals and objectives as basis for classroom activities. Includes preschool curriculum planning and fundamentals of developmentally appropriate practice. Deals with the organization of time and space as it impacts on group child care.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 105
Lab fee: \$12.00

ECD 109 Language Experiences in Early Childhood Programs (W, SP, SU) 3 credits
Theories and sequence of speech/language development, differentiating between normal and atypical language comprise this course. Focus is on teacher as facilitator of communication skill development; planning and implementing language arts activities; selecting and using literature to enhance language development and provide e emotional. . Includes reading readiness and literacy activities in terms of the play curriculum. Guidelines for setting up a literacy area in the classroom and working with parents will also be included.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 105, 107, 203, PSY 261
Lab fee: \$12.00

ECD 110 Infant - Toddler Curriculum (A,SP) 3 credits
Presents an overview of care giving for infants and toddlers in group care. Emphasizes programming for infants and toddlers across developmental areas through appropriate experiences routines, and environment. . The role of the caregiver in relation to parent and child is examined. Special issues of parent participation in infant and toddler care, Ohio Child Care Licensing Rules and advocacy are included.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 105, 107, 203, PSY 261
Lab fee: \$12.00

ECD 112 Physical Development Curriculum (A,SP) 3 credits
Theoretical foundations for the child's physical and motor development. Includes assessing individual child's motor skills, sequence for the development of motor skills, perceptual-motor development, as well as implementing small and large motor activities in both the indoor and the outdoor setting. Health and safety education activities as well as nutrition are included.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 105, 107, 203, PSY 261
Lab fee: \$12.00

ECD 115 School Age Child Care (on request) 3 credits
 This course will present principles that are important for developing and administering childcare programs for children in Kindergarten through Grade 5. Developmental characteristics of school aged children will be reviewed and appropriate care, education and guidance practices identified. Information regarding licensing regulations and parent involvement for school age childcare programs in Ohio will be disseminated.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: ECD 105, 107
 Lab fee: \$12.00

ECD 151 ECD Media Resource I (A,W,SP,SU) 1 credit
 This course will provide an overview and orientation to resources, equipment and materials available for creating learning activities for children. Students will have opportunities to practice safe, economical and appropriate skills in creative ways.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: ECD 105 or permission of ECD Coordinator
 Lab fee: \$12.00

ECD 152 ECD Media Resources II (A,W,SP,SU) 1 credit
 This course will expand students' opportunities to learn, implement, and evaluate appropriate materials and methods for creating learning activities for children. Emphasis will be on extensions of appropriate classroom activities and environments through the use of media materials.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: ECD 105 or permission of ECD Coordinator
 Lab fee: \$12.00

ECD 161 - 265 ECD Seminars I-V (A,W,SP,SU) 1 credit
 Group discussion of experience arising during ECD field placement; integration of theory and practice. Seminars are taken concurrently with ECD Field Experience I-V. Seminars focus on observing and recording children's play and interactions, basic principles of guidance, and application of knowledge. Expectations, objectives and requirements build with each successive experience.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: ECD 105, 107, 203, PSY 261
 Concurrent: ECD 171 - 275
 Lab fee: \$4.00 for each course

ECD 171 - 275 ECD Field Experiences I-V (A,W,SP,SU) 1 credit
 These courses are an integral part of the ECD program, providing students with the opportunity to apply theory and practice under the guidance of early childhood professionals. These professionals guide and assist in the evaluation of student performance.
 Lecture: 0 hours – Lab: 7 hours
 Prerequisite: Formal admission to ECD
 Concurrent: ECD 161 - 265
 Lab fee: \$20.00 for ECD 171; \$16.00 for ECD 172 - 275

ECD 190 Activity Plan Seminar (A,W,SP,SU) 1 credit
 This seminar is required for ECD students who have received Non-traditional credit for Field Experience and Seminars I & II. The class will focus on preparing written documentation of developmentally appropriate activities for preschool aged children. Students will learn to write concepts, objectives, and procedures for developmentally appropriate activities, consistent with ECD program outcomes.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: Credit for ECD 162, 172
 Lab fee: \$4.00

ECD 200 First Aid (A,W,SP, SU) 1 credit
 This course provides the student with training and practice in first aid for infants and young children. It meets requirements of Ohio Child Day

Care Licensing Rules for staff in early childhood settings.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: Placement into ENGL100
 Lab fee: \$4.00

ECD 201 Health and Safety (A,W,SP) 3 credits
 Course gives training and practice in first aid, in the recognition and management of communicable diseases, and in child abuse recognition and prevention. Meets requirements of Ohio Child Day Care Licensing Rules for staff in early childhood settings..
 Lecture: 3 hour – Lab: 0 hours
 Prerequisite: Placement into ENGL100
 Lab fee: \$12.00

ECD 202 Management of Communicable Disease (A,W,SP,SU) 1 credit
 A course designed to provide students with the knowledge and skills in recognition and management of communicable diseases. Meets requirements for Ohio Child Day Care Licensing Rules for staffs in early childhood settings.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: Placement into ENGL100
 Lab fee: \$4.00

ECD 203 Creative Curriculum (A,W,SP,SU) 3 credits
 Course deals with the principles of creativity and its importance in the life of the young child. Focus is on the sequence of development in child's use of creative materials. Techniques for creative arts and music will be explored, demonstrated and implemented. Students will develop and evaluate materials, objectives and activities in these areas.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: ECD 105, 107
 Lab fee: \$20.00

ECD 204 Recognition of Child Abuse & Neglect (AU,W,SP,SU) 1 credit
 A course designed to provide students with the knowledge and skills in child abuse recognition and prevention. Meets requirements for Ohio Child Day Care Licensing Rules for staff in early childhood settings.
 Lecture: 1 hour – Lab: 0 hours
 Prerequisite: Placement into ENGL100
 Lab fee: \$4.00

ECD 205 Parent Involvement - Early Childhood Programs (W,SU) 3 credits
 This course will present strategies for working effectively with parents of young children, and involving them in child care programs. Emphasis is on how to encourage active participation of parents in early childhood programs, including parent conferences and parent education. Family needs, similarities and differences will be discussed as they may affect the teacher's role, in building a partnership with parents.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: ECD 206
 Lab fee: \$12.00

ECD 206 Social Development Curriculum (A, SP, SU) 3 credits
 This course will include components of social development: recognition of family patterns and traditions, gender identity and sex roles, moral reasoning of young children, play theories and programming for classroom play, multicultural practices and diversity, and social studies for young children. The teacher's role as facilitator of social development will be defined.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: ECD 103, 112
 Lab fee: \$12.00

ECD 207 Guidance and Discipline in Early Childhood Programs (W,SP,SU) 3 credits
A study of guidance of young children and social learning theories. Focus is on preventing problem behaviors, and teaching desirable behavior through example, communication and setting limits. Issues of child behavior and analyzing discipline problems will be discussed. Focus is on resolving problem situations, changing behavior and development of moral reasoning. Includes helping children cope with stressful situations.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 205
Lab fee: \$12.00

ECD 208 Young Children With Special Needs (A,SP) 3 credits
This course presents the rationale and skills in educating and caring for young children with special needs in programs that are inclusive. It describes strategies for identifying and assessing children with special needs and appropriate adaptive activities and strategies useful in an integrated classroom. This course acknowledges the importance and necessity of collaboration with parents, community professionals and resources.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 205
Lab fee: \$12.00

ECD 209 Early Childhood Staff (W,SU) 3 credits
In-depth study of the dynamics of staff interaction in a setting for young children. Focus includes personnel rights and responsibilities, ethical implications of teaching, team functioning, professional growth and development, evaluation processes, as well as history, traditions and trends in the field.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ECD 206
Lab fee: \$12.00

ECD 211 Child Care Administration (W,SU) 3 credits
This course deals with the qualifications and roles required to administer a program for young children. Focus is on planning the philosophy of the program, planning to meet the needs of children, the staff, the parents and community involvement. Establishing and maintaining sound fiscal practices are given special emphasis. Includes legal requirements and responsibilities of Ohio licensing procedures.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Minimum of one year working in ECD setting and ECD 105 and 107
Lab fee: \$12.00

ECD 221- 230 Contemporary Issues in Early Childhood (SU and on demand) 1-5 credits
This course will facilitate offerings of special topics related to ECD, on an annual basis. Topics may include: Children's Literature, Diversity and Young Children, Intergenerational Care, Music & Movement, Fitness for Children, Nutrition, Sign Language, Leadership, Advocacy, etc. These topics may introduce individuals to ECD or meet requirements for Pre-K Associate Licensed teachers for renewal purposes.
Lecture: 1-5 hours – Lab: 0 hours
Prerequisite: Admission to ECD or permissions of ECD Coordinator
Lab fee: \$4.00 - 12.00

ECD 267 Student Teaching Seminar (A,W,SP,SU) 2 credits
Students have opportunities to discuss their interactions with young children, staff, and parents in their assigned early childhood settings. Students will analyze the components of the learning environment, and their inter-relationships in programs for young children and families. They will plan to integrate theory and practice for quality programming, guidance, health and safety of pre-kindergarten children.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: ECD 264, 209
Concurrent: ECD 277
Lab fee: \$12.00

ECD 277 Student Teaching Practicum (A,W,SP,SU) 3 credits
Provide students with opportunities to develop skills in working with young children (individually and in groups), and to integrate theories of child development with teaching practice. Students will work in assigned pre-kindergarten classrooms five days a week for a total of 21 hours weekly.
Lecture: 0 hours – Lab: 21 hours
Prerequisite: ECD 274, ECD 209
Concurrent: ECD 267
Lab fee: \$12.00

Economics (ECON)

ECON 100 Introduction to Economics (A,W,SP,SU) 5 credits
This course is an issues-based introduction to basic economic concepts. Students will relate principles such as scarcity, opportunity cost, and markets to current events, including changes in the minimum wage, environmental controversies, and the actions of the Federal Reserve.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 101, or REAL 104, or the equivalent and placement into ENGL 101
Lab fee: \$7.00

ECON 200 Principles of Microeconomics (A,W,SP,SU - DL) 5 credits
This course introduces students to the economic decision-making of individuals and firms. Topics include scarcity, opportunity cost, supply and demand, consumer choice, elasticity, market structure, profit maximization, resource markets, and international trade.
A distance-learning version of Principles of Microeconomics is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 101, or REAL 104, or the equivalent and placement into ENGL 101
Lab fee: \$7.00

ECON 240 Principles of Macroeconomics (A,W,SP,SU - DL) 5 credits
This course introduces students to economic decision-making at the aggregate level. Topics include national income analysis, the business cycle, inflation, unemployment, fiscal and monetary policies and objectives.
A distance-learning version of Principles of Macroeconomics is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: ECON 200 and MATH 101, or REAL 104, or the equivalent (successful completion of MATH 102 or its equivalent is strongly recommended) and placement into ENGL 101
Lab fee: \$7.00

ECON 290 Capstone Experience in Economics (On Demand) 3 credits
This course is for students completing the two-year Associate of Arts or Associate of Science degree who have a special interest in continuing a baccalaureate degree program in economics. Course requirements include the completion and presentation of a research project that relates to the

students' academic interests after reviewing research methodologies and findings in economics; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Completion of AA/AS core requirements and at least 75 hours toward the degree with five credit hours in economics

Lab fee: \$10.00

ECON 293 Independent Study in Economics (On Demand)

1 - 5 credits

An individual, student-structured course that examines a selected topic in economics through intensive reading or research. The independent study elective permits a student to pursue his/her interests within the context of a faculty-guided program.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Permission of the Instructor, the Chairperson, and one course in Economics

Lab fee: \$6.00

ECON 299 Special Topics in Economics (On Demand)

1 - 5 credits

A detailed examination of selected topics of interest in economics.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Vary

Lab fee: \$6.00

Electro-Mechanical Engineering Technology (EMEC)

For other related course descriptions, see Electronic Engineering Technology and Mechanical Engineering Technology.

EMEC 250 Motors and Controls (A,SP)

3 credits

A study in the basic elements of single phase and three phase AC motors and generators, DC motors and generators, transformers, motor controls, and motor protection (fuses and overloads). Students learn how to select, size and wire three phase motors and starters as well as do calculations related to sizing, horsepower, and efficiency.

Lecture: 2 hours – Lab: 3 hours

Lab fee: \$15.00

EMEC 251 Electro-Mechanical Controls I (W,SU)

4 credits

A study in the basic interface circuitry used in electro-mechanical controls. Students learn about solenoids, relays, ladder logic, ladder diagrams, and how to design and wire controls systems to meet a given set of criteria. Troubleshooting is emphasized at each step.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: EMEC 250

Lab fee: \$15.00

EMEC 260 Electro-Mechanical Controls II (AU,SP)

4 credits

An introduction to Programmable Logic Controllers (PLC's). Students gain knowledge and experience in programming the Allen-Bradley SLC 500 series of PLC's. Students are required to design, wire, and troubleshoot programs to meet a given set of criteria. Both discrete and analog devices are examined.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: EMEC 251

Lab fee: \$20.00

Electronic Engineering Technology (EET)

EET 101 Basic Electricity (W,SU)

3 credits

An introductory electrical applications course covering basic direct and alternating current concepts, measurements, circuit analysis, magnetism, electrical energy sources, and electrical energy conversion. This course is not required for students in the Electronic Engineering Technology.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MATH 103

Lab fee: \$4.00

EET 102 Electronics and Digital Fundamentals (A,SP)

3 credits

An introductory electronics and digital fundamentals course. Course content covers electronic basics, diodes, transistors, electronic power supplies, amplification, power control, and basic digital logic devices and systems. Circuit applications of electronic and digital devices are stressed. This course is not required for students in the Electronic Engineering Technology.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: EET 101

Lab fee: \$4.00

EET 110 Electronic Drafting (A,W,SP,SU)

2 credits

An introductory drawing course incorporating the use of instruments, instructions, and practice to produce quality schematics and pictorial diagrams using lettering, electronic, and electrical symbols. The student will be given an introduction to computer-aided drafting (CAD).

Lecture: 1 hour – Lab: 2 hours

Lab fee: \$4.00

EET 111 Direct Current Fundamentals (A,SP)

4 credits

An introduction to direct current fundamentals, electron physics, current and voltage, work, power, series and parallel resistances, network theorems, electrical measurement devices, circuit analysis. Microcomputers are introduced and used for problem-solving.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MATH 103 or placement into MATH 111

Concurrent: EET 112, MATH 111

EET 112 DC Laboratory (A,SP)

2 credits

This is an introductory course in the use of power supplies and measurement equipment commonly found in laboratories and industrial situations. The student will gain hands-on experience in the use of this equipment. A lab manual is used by the students as an aid to standardization of notation, reference data, and student reporting throughout the course.

Lecture: 0 hours – Lab: 6 hours

Concurrent: EET 111

Lab fee: \$9.00

EET 120 Alternating Current Fundamentals (W,SU)

4 credits

A detailed study of the principles of time varying electrical current and voltage relationships. The course includes an intensive application of vector analysis as applied to AC circuits, power applications, and the resonance phenomenon. Computer solutions are stressed when appropriate.

Lecture: 4 hours – Lab: 0 hours

Prerequisites: EET 111, and EET 112

Concurrent: EET 121, and MATH 112

EET 121 Alternating Current Laboratory (W,SU)

2 credits

Laboratory study of signal sources, oscilloscopes, reactance, inductance, AC networks, transformers and filter circuits.

Lecture: 0 hours – Lab: 6 hours

Prerequisites: EET 111, EET 112

Concurrent: EET 120

Lab fee: \$9.00

EET 122 CAD/Electronics (W,SU)**3 credits**

A follow-up to EET 110, this technical elective course will familiarize the student with the concept of computer aided drafting (CAD) systems as used by drafters in the electronics industry. Emphasis will be placed on the OrCAD™ system. A limited number of seats are available to students from outside the technology.

Lecture: 1 hour – Lab: 4 hours

Prerequisite: EET 110 or permission of the instructor

Lab fee: \$5.00

EET 130 Electronic Devices (A,SP)**4 credits**

An in-depth investigation of the operating characteristics of basic active devices. The course is designed to explain the approximate electrical equivalence and circuit analysis of devices to the basic AC, DC models, with sample applications of the most frequently used circuits.

Lecture: 4 hours – Lab: 0 hours

Prerequisites: EET 120, EET 121

Concurrent: EET 131

EET 131 Electronic Devices Laboratory (A,SP)**2 credits**

The lab exercises in this course closely follow the EET 130 lecture theory for reinforcement through experimentation and theoretical verification of results. All lab exercises use modern devices, planned experiments and industrial standard equipment.

Lecture: 0 hours – Lab: 6 hours

Prerequisites: EET 120, and EET 121

Concurrent: EET 130

Lab fee: \$9.00

EET 132 Digital Fundamentals (A,SP)**3 credits**

An introductory course in digital electronic fundamentals covering number systems, Boolean Algebra, truth tables, Karnaugh maps, basic gates, adders, (latches, flip-flops, and counters).

Lecture: 2 hours – Lab: 3 hours

Prerequisite: EET 111 or permission of instructor

Lab fee: 4.00

EET 144 PC Hardware (A,W,SP,SU)**3 credits**

Course provides instruction and hands on experience in upgrading, reconfiguring and adding boards and memory, use of modems and utilities, etc. Students will tear down and reassemble a PC. Meets degree requirements for MCT students.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: CPT 101 is recommended

Lab fee: \$12.00

EET 146 Computer Network Communications Systems (A,W,SP,SU)**3 credits**

This course is a computer networking course combining networking software and hardware. Topics include networking protocols and network configurations, circuit analysis of high-speed modems, packet-switching techniques, pulse code and pulse-width modulation techniques. Investigation of high-speed modern transmission lines, microwave transmission, and cellular radio are included. The lab emphasizes network component installations and making measurements on bit-error-rates, system noise, and analysis of error detection/correction codes, synchronous and asynchronous protocols.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: EET 144

Lab fee: \$40.00

EET 203 National Electrical Code (On Demand)**4 credits**

This course gives a brief description of each National Electrical Code article and discusses how to reference information in the code. Changes from the previous code and sample calculations are also covered. Not required for students in the Electronic Engineering Technology. Completion of this course does not guarantee eligibility to sit for any licensing

examinations and may not meet electrical contractor or Electrical Safety Inspector refresher course requirements. Check with the College or The Ohio Department of Industrial Relations.

Lecture: 3 hours – Lab: 3 hours

EET 240 Calculus for Electronics (A,SP)**5 credits**

Practical application of differential and integral calculus to electronics. Covers rates, limits, derivatives, differentials and differentiators, higher derivatives, maxima/minima, integrals and integrators, definite integrals, trigonometric and logarithmic functions, and selected advanced topics. Graphical methods calculators and computers will be used for problem solutions where appropriate.

Lecture: 5 hours – Lab: 0 hours

Prerequisites: EET 120 and either MATH 113 or MATH 150

EET 241 Electronic Devices Circuit Analysis (A,SPU)**4 credits**

This course covers the concepts of small signal voltage amplification of both low and high frequencies, the concepts of negative and positive feedback, integrated circuit (IC) differential and operational amplifiers, and IC voltage regulation with emphasis on circuit analysis techniques. Computer solution of problems is stressed where practical.

Lecture: 4 hours – Lab: 0 hours

Prerequisites: EET 130, EET 131

Concurrent: EET 242

EET 242 Electronic Devices Circuit Analysis Lab (A,SP)**2 credits**

This course is designed to compliment EET 241 by providing physical involvement with the various circuits studied therein. The student will construct the circuits presented in lecture, measure their parameters and compare experimental results with those computed from theory.

Lecture: 0 hours – Lab: 6 hours

Prerequisites: EET 130, and EET 131

Concurrent: EET 241

Lab fee: \$9.00

EET 243 Digital Devices (A,SP)**4 credits**

A continuation of the study of digital electronics covering waveforms, the generation of pulses and study of the related circuitry such as multivibrators and one shots. More complex and widely used digital devices such as counters, shift registers, memories, and multiplexers are also presented. The basic units of a computer (bus, ALU) are studied.

Lecture: 4 hours – Lab: 0 hours

Prerequisites: EET 132, and EET 130

Concurrent: EET 244

EET 244 Digital Devices Laboratory (A,SP)**2 credits**

This lab course, concurrent with the lecture course EET 243, gives the student an opportunity to learn and design complex and widely used digital devices. Switching and wave shaping circuits are built using IC chips. Different devices which are used in building a computer are introduced and used in experiments.

Lecture: 0 hours – Lab: 6 hours

Prerequisite: EET 132

Concurrent: EET 243

Lab fee: \$9.00

EET 250 Electronic Communications (W,SU)**4 credits**

The electronics communication course is an introductory systems course utilizing conventional modulation and demodulation theories. Particular emphasis is made on AM, FM, and video circuits. A survey of current trends in digital communication concepts, microwave principles, and fiber optics will be presented.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: EET 130

Concurrent: EET 251

EET 251 Communications Laboratory (W,SU) 2 credits
 Laboratory study of modern discrete, integrated circuit and modular circuit configurations to fabricate systems in AM, SSB, FM, video circuits and phase lock loop and pulse modulation.
 Lecture: 0 hours – Lab: 6 hours
 Prerequisite: EET 131
 Concurrent: EET 250
 Lab fee: \$9.00

EET 252 Microprocessors (W,SU) 4 credits
 Different building blocks of a microprocessor and their functions are introduced. Methods of data storage and programming of a microprocessor are studied. Use of a microprocessor as a controller and interfacing it to other devices are also studied. A Motorola 68HCII microprocessor is used throughout the course.
 Lecture: 4 hours – Lab: 0 hours
 Prerequisite: EET 243
 Concurrent: EET 253

EET 253 Microprocessor Lab (W,SU) 2 credits
 This lab course is the practical version of the concurrent lecture course EET 252. Different blocks of a microprocessor studied in lecture are used and experimented on in the lab course. Along with each lab, programming methods for different blocks of the microprocessor are introduced. The practical aspects of using the microprocessor as a controller for other devices are also explored. A 68HCII microprocessor is used.
 Lecture: 0 hours – Lab: 6 hours
 Prerequisite: EET 243
 Concurrent: EET 252
 Lab fee: \$9.00

EET 254 Electronic Fabrication (W,SU) 2 credits
 An introduction to the fabrication of electronic circuits from assembly through testing, to include soldering/desoldering, use of heat sinks, surface mount device technology testing, documentation and repair/replacement of parts. Credit can be earned by taking the course, life experience or proficiency testing. See your technology faculty advisor for details.
 Lecture: 1 hour – Lab: 3 hours
 Prerequisite: EET 120
 Lab fee: \$12.00

EET 255 Instrumentation and Controls (W) 3 credits
 This course presents the basic theories and specific methods of measurement of temperatures, pressure, liquid level, and other parameters which may be measured in industrial and scientific applications. The laboratory part of this course enables the student to gain experience with transducers. Major process control schemes as used in industry are covered along with conditions affecting response and stability of control systems
 Lecture: 2 hours – Lab: 3 hours
 Prerequisites: MATH 113, EET 130, EET 132
 Concurrent: PHYS 185
 Lab fee: \$10.00

EET 260 Industrial Electronics (A,SP) 4 credits
 A study of measurement and control circuits used in industry. A capstone course which explores the use of microprocessors and programmable logic controllers (PLCs) in control and measurement functions.
 Lecture: 4 hours – Lab: 0 hours
 Prerequisites: EET 241 and EET 252
 Concurrent: EET 261

EET 261 Industrial Laboratory (A,SP) 2 credits
 Paralleling the development of topics in EET 260, this course permits student evaluation of theoretical predictions pertaining to industrial systems and their control
 Lecture: 0 hours – Lab: 6 hours
 Prerequisite: EET 253
 Concurrent: EET 260
 Lab fee: \$9.00

EET 262 Digital Communications and Telecommunications (W,SP) 3 credits
 A study of the techniques, theory and devices used for communication in computer systems, networks and telecommunications. Modulation methods including PCM, MFM, NRZ, NRZI, and synchronous and asynchronous protocols are presented. Network standards such as token ring, ALOHA, Ethernet and LAN protocols are examined. This course also includes study of devices such as UARTS, MODEMS and CODECS as applied to the subject
 Lecture: 2 hours – Lab: 3 hours
 Prerequisites: EET 243 and EET 250
 Lab fee: \$4.00

EET 264 Fiber Optic Communications (A) 3 credits
 This is an introductory course on fiber optics. In it, various types of light sources, connectors, optics, fiber wave guides, detectors and distribution systems will be investigated, and the student will learn by laboratory experiment of the problems created by misalignment, attenuation, and lossy connectorization. Practical testing of fiber optic links using light sources and power meters will also be emphasized. Eye safety when working with dangerous power levels will be stressed.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: EET 250
 Lab fee: \$5.00

Emergency Medical Services (EMS)

EMS 100 Crash Injury Management, First Responder (SP) 2 credits
 This course is designed to teach the person (public safety officer or other), who arrives first at the scene of an accident, proper life saving procedures, in terms of emergency victim care, the first responder will provide what is needed until qualified emergency medical technicians arrive.
 Lecture: 1 hours – Lab: 3 hours
 Lab fee: \$ 5.00

EMS 110 EMT- Basic (A,W,SP,SU) 8 credits
 This course provides a first phase of training in the career structure of the Emergency Medical Technician (EMT); the course covers all the knowledge and skills required for the state certification examination. This course includes 12 clock hours of clinical experience.
 Lecture: 4 hours – Lab: 8 hours
 Prerequisite: Placement into ENGL 100 and permission of instructor
 Lab fee: \$75.00

EMS 111 EMT - Intermediate (A,W,SP,SU) 6 credits
 In depth study of patient assessment, shock physiology, fluid and intravenous therapy is the direction of this course, and covers the knowledge and skills required to take the state certification exam.
 Lecture: 4 hours – Lab: 4 hours
 Prerequisite: State Certified EMT Basic
 Lab fee: \$100.00

EMS 121 E.M.S. Systems (A) 3 credits
 This course deals with the history, development, organization, funding, and control of EMS. It will involve the student in current trends in EMS.
 Lecture: 3 hours – Lab: 0 hours
 Lab fee: \$12.00

EMS 122 Legal Principles for E.M.T. (A) 2 credits
 This course encompasses the laws and regulations which govern EMTs and their actions. The course also deals with the rights of the patient and professionalism of the EMT.
 Lecture: 2 hours – Lab: 0 hours
 Prerequisite: Permission of instructor
 Lab fee: \$8.00

EMS 123 Emergency Psychiatric Intervention (W) **3 credits**
This course deals with the EMT's approach to victims exhibiting abnormal behavior and provides an in-depth look into methods of evaluation and management of these people.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Permission of instructor
Lab fee: \$10.00

EMS 124 Public Health Education (W) **3 credits**
This course will involve the paramedic in the role of public health educator from needs assessment, organizations involved to implementation; the student will be required to do some practical public health education.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Must be CPR Certified
Lab fee: \$5.00

EMS 125 Disaster Aid (SP) **3 credits**
This course will familiarize the EMT with disaster planning, community needs assessment, organization and control of a community disaster plan, and in developing testing procedures for this plan.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Permission of instructor
Lab fee: \$5.00

EMS 127 Handling Hazardous Materials Situations (SU 1st Term) **2 credits**
This course encompasses the safety factors and care the paramedic must consider when dealing with victims exposed to hazardous materials, (i.e., toxic fumes, radioactive materials, electrical, explosive and flammable materials).
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Permission of instructor
Lab fee: \$3.00

EMS 128 Introduction to Rescue for the EMS Provider (SU 2nd Term) **3 credits**
This combination classroom and hands-on course provides a basic overview of the rescue process and the tools required for rescue as it relates to the EMS Provider. The student will learn to effectively manage the initial stages of a rescue incident without becoming a victim themselves.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: Permission of instructor
Lab fee: \$25.00

EMS 130 River Rescue (SU 1st Term) **3 credits**
This course deals with rescuing victims from the water. It will include, but not be limited to, self-rescue, rescue from shore, boat assisted rescues, rescue from boats and repelling.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: intermediate swimming ability
Lab fee: \$8.00

EMS 131 Special Topics for Paramedics (SU) **3 credits**
In this course, the paramedic will be required to develop and present an in-depth study in an area of their individual interest.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Permission of instructor
Lab fee: \$3.00

EMS 132 Emergency Medical Services Dispatcher (SP) **2 credits**
The EMS dispatcher course is designed to prepare EMS dispatcher personnel to receive requests for emergency medical services and allocate community resources in response to such request and give pre-arrival instruction.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: Permission of instructor
Lab fee: \$200.00 (includes book and certification fee)

EMS 133 Ice & Cold Water Rescue (W) **2 credits**
This course deals with rescuing victims from ice covered and cold water, hypothermia and other related medical concerns.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Permission of instructor
Lab fee: \$25.00

EMS 134 EMS Administration I (On Demand) **4 credits**
The first in a two course sequence designed to introduce the concepts of EMS Administration and its effect on patients, employees and themselves.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: EMS 121, EMS 122, BMGT 218 and HRM 121
Lab fee: \$5.00

EMS 135 EMS Administration II (On Demand) **3 credits**
The second in a two course sequence designed to introduce the concepts of EMS Administration and its effect on patients, employees and themselves.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: EMS 134
Lab fee: \$5.00

EMS142 Vertical Rescue (SP) **2 credits**
This course is designed to present the fundamentals of rope rescue, using up-to-date equipment and techniques with a major emphasis on safety. Terminology, selection of proper equipment, essential knots, and current standards will be presented, as well as rope rescue systems and litter packaging. Practical application evolutions will include solving rescue problems and evaluating rope rescue systems and/or techniques. Includes rescue of the injured and/or stranded from ledges, cliffs, elevator shafts, etc.
Lecture: 1 hours – Lab: 3 hours
Lab fee: \$20.00

EMS 143 Search and Rescue (A) **2 credits**
This course includes the introduction to job responsibilities, philosophy and concepts of effective search and rescue management. It describes preplanning, resources, investigation, interviewing, determining urgency, subject behaviors, search strategy, area probability, base camp set up and management, briefing and debriefing. The course also introduces map and compass reading.
Lecture: 1 hours – Lab: 3 hours
Prerequisite: Permission of instructor
Lab fee: \$20.00

EMS 144 Confined Space Rescue (SP) **2 credits**
This course is designed to present the learner with OSHA regulations, and requirements. Also confined space entry procedures to safely and properly perform a rescue from tanks, pipelines, manholes, cave-ins, etc. The course will address necessary rescue shoring and tunneling equipment required for a confined space rescue.
Lecture: 1 hours – Lab: 3 hours
Prerequisite: EMS 142
Lab fee: \$15.00

EMS 145 Vehicle Extrication (A) **2 credits**
This course is designed to prepare the learner for situations involving auto's, school buses, commercial buses, and trucks. Participants will be presented information on how to respond to incidents involving these types of vehicles, the methods used to construct the vehicles and how they are operated. Learner will be expected to apply classroom theory and hands-on application dealing with vehicle stabilization, patient handling and removal, extrication incident.
Lecture: 1 hours – Lab: 3 hours
Prerequisite: EMS 110
Lab fee: \$20.00

EMS 147 Farm/Agricultural Rescue (A) **2 credits**
This course will familiarize the learner with different types of farm/agricultural accidents, including machinery upsets/rollovers, grain bin entrapments, patients caught within large machinery, exposure to toxic chemistry/pesticide.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: EMS 110
Lab fee: \$5.00

EMS 211 EMT-Paramedic I (W,SU) **7 credits**
This course encompasses the training of the paramedic in the areas of their role, triage and assessment of victims, care of the victim in the areas of shock, respiratory system, intravenous therapy and trauma as well as principles of communications.
Lecture: 5 hours – Lab: 4 hours
Prerequisite: EMS 110; successful completion of the pre-testing process.
Concurrent: EMS 281 and EMS 291
Lab fee: \$85.00

EMS 212 EMT-Paramedic II (A,SP) **7 credits**
This course encompasses the training of the paramedic in the areas of: cardiovascular, anaphylaxis, and the endocrine and nervous systems.
Lecture: 5 hours – Lab: 4 hours
Prerequisite: EMS 211
Concurrent: EMS 282 and EMS 292
Lab fee: \$85.00

EMS 213 EMT-P III (W,SU) **6 credits**
This course encompasses the training of the paramedic in the areas of: central nervous system, musculoskeletal system, soft tissue injuries, obstetric and gynecologic emergencies, neonatal and pediatric emergencies, and rescue.
Lecture: 4 hours – Lab: 4 hours
Prerequisite: EMS 212
Concurrent: EMS 283 and EMS 293
Lab fee: \$85.00

EMS 214 EMT-P IV (SPA) **4 credit**
This course encompasses the training of the paramedic in the areas of: trauma life support and major incident response, and the continuation of training in ob/gyn/neonatal, behavioral emergencies and rescue.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: EMS 213
Concurrent: EMS 284 and EMS 294
Lab fee: \$85.00

EMS 281 Hospital Clinical I (W,SU) **2 credits**
Hospital clinical, observation and experience, encompassing the didactic areas covered in EMS 211.
Lecture: 0 hours – Lab: 6 hours
Concurrent: EMS 211 and EMS 291
Lab fee: \$22.00

EMS 282 Hospital Clinical II (A,SP) **2 credits**
Hospital clinical, observation and experience, encompassing the didactic areas covered in EMS 212.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: EMS 281
Concurrent: EMS 212 and EMS 292
Lab fee: \$22.00

EMS 283 Hospital Clinical III (W,SU) **2 credits**
Hospital clinical, observation and experience, encompassing the didactic areas covered in EMS 213.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: EMS 282
Concurrent: EMS 213 and EMS 293
Lab fee: \$22.00

EMS 284 Hospital Clinical IV (A,SP) **2 credits**
Hospital clinical, observation and supervised experience, encompassing the didactic areas covered in EMS 214.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: EMS 283
Concurrent: EMS 214 and EMS 294
Lab fee: \$22.00

EMS 291 Field Clinical I (W,SU) **1 credit**
Vehicle clinical, observation and experience.
Lecture: 0 hours – Lab: 5 hours
Prerequisite: or concurrent EMS 281
Concurrent: EMS 211
Lab fee: \$18.00

EMS 292 Field Clinical II (A,SP) **1 credit**
Vehicle clinical, observation and experience.
Lecture: 0 hours – Lab: 5 hours
Prerequisite: EMS 211, EMS 281 and EMS 291
Concurrent: EMS 212 and EMS 282
Lab fee: \$18.00

EMS 293 Field Clinical III (W,SU) **1 credit**
Vehicle clinical, observation and experience.
Lecture: 0 hours – Lab: 5 hours
Prerequisite: EMS 292
Concurrent: EMS 213 and EMS 283
Lab fee: \$18.00

EMS 294 Field Clinical IV (A,SP) **2 credits**
Vehicle clinical, observation and experience.
Lecture: 0 hours – Lab: 10 hours
Prerequisite: EMS 293
Concurrent: EMS 214 and EMS 284
Lab fee: \$18.00

English (ENGL)

(Also see **Communication Skills, Theater, and Technical Communication**)

ENGL 100 Language Development (A,W,SP,SU) **5 credits**
Students develop skills in reading and writing in preparation for ENGL 101 by analyzing the writing of students and professionals and by developing paragraphs and short essays using narration, description, and exemplification and/or illustration.
Lecture: 5 hours – Lab: 5 hours
Prerequisite: Prerequisite: DEV 041 with a grade of “C” or higher plus successful completion of the DEV 041 exit examination, or DEV 042 with a grade of “C” or higher, placement by test. Credit will not count toward graduation in any degree program.
Lab fee: \$3.00 except for specific sections of the course using Academic Systems software and taught in the computer lab. Computer-assisted sections using the Academic Systems software include the textbooks for the course and the course fee is \$65.00.

ENGL 101 Beginning Composition (A,W,SP,SU - DL) **3 credits**
Students compose clear, concise expository essays using various modes such as definition, exemplification, process, analysis, cause and effect, comparison and contrast. This course or its equivalent is required for all degrees.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ENGL 100 with a grade of “C” or higher or placement by test
Lab fee: \$3.00

ENGL 101 MLA/APA Documentation Module**(A,W,SP,SU)****1 credit**

Students develop skills in MLA/APA documentation format including quoting, paraphrasing, summarization, works cited, annotated bibliography, and electronic sources. Students will complete several documentation exercises and a final exam testing their knowledge of MLA/APA documentation style.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 101 or transfer credit for ENGL 101 from another school

Lab fee: \$2.00

ENGL 102 Essay and Research (A,W,SP,SU - DL)**3 credits**

This course is a continuation of ENGL 101 expanded to include argumentation, logic, and research techniques. Research papers using MLA documentation are written.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 101 with a grade of “C” or higher

Lab fee: \$3.00

ENGL 111 English Composition (A,W,SP,SU - DL)**5 credits**

This course is an accelerated combination of ENGL 101 and ENGL 102. Students receive training in the fundamentals of exposition and argumentation through using the writing process. The course stresses critical reading of the students’ own and professional writing. It includes units on library research and documentation.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement test score

Concurrent:

Lab fee: \$3.00

ENGL 119 Tutoring for Literacy (A,W,SP)**3 credits**

Tutoring for Literacy is a methods course that instructs students in basic techniques for teaching reading and writing in community agencies that host programs designed to improve literacy in their respective environments. Students in this course participate in classroom instruction two hours weekly and provide one-to-one tutoring with assigned agencies six hours per week.

Lecture: 2 hours – Lab: 6 hours

Prerequisites: ENGL 101, and either SSCI 101, SSCI 103, PSY 100, or SOC 101

ENGL 190 Freshman Experience in English**(A,W,SP,SU - DL)****2 credits**

The Freshman Experience Seminar is designed to familiarize first time Arts and Sciences students at Columbus State Community College with the academic environment. Students will use various on site support systems, set personal academic goals, and map their course of study at Columbus State to meet those goals. Optional for students having completed ESL 100; required for all Associate of Arts or Associate of Science degree seeking students.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: Concurrent: ENGL 101 or 111

Lab fee: \$4.00

ENGL 200 Business Communications**(A,W,SP,SU - DL)****3 credits**

Emphasis is placed on principles of effective business writing. Students practice writing business letters and memos. A problem-solving or technical report related to the student’s area of concentration is required. Resume preparation and job search techniques are covered.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher and at least two quarters or equivalent work experience in a technology

Lab fee: \$7.00

ENGL 202 Writing for Health and Human Services**(A,W,SP,SU)****3 credits**

Students specializing in human services and health care fields practice the kinds of writing essential to record keeping and research in their professions. Legal and ethical interdisciplinary communication is emphasized. Using practice and real-life cases, students write descriptions, summaries, and evaluations. Job search techniques and letter, memo and report formats are covered. A short research paper using APA documentation is required. This course may substitute for ENGL 200 or ENGL 204 in certain technologies; check with your academic advisor.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher, admittance to a technical program, and current clinical /field placement

Lab fee: \$7.00

ENGL 204 Technical Writing (A,W,SP,SU - DL)**3 credits**

Students learn the principles of technical writing and practice those types of writing required of technicians, including letters, memos, and reports as required in a student’s technology. A problem-solving report is written. Resume preparation and job search techniques are covered. Oral reports using visual aids are required.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher and at least two quarters or equivalent in the student’s technology

Lab fee: \$7.00

ENGL 206 Governmental Communications**(On Demand)****3 credits**

The course emphasizes the principles of effective writing done in government settings. The student learns to write various types of correspondence in a variety of formats in addition to researching and writing a report adhering to formatting guidelines. The student will also prepare selected components of a job application package.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or better

Lab fee: \$7.00

ENGL 208 Communication for the Mass Media**(W,SP)****3 credits**

This course prepares students to communicate effectively with the mass media including newspapers, magazines, radio, and television through press conferences, news releases, feature stories, research reports, and statements. Students will prepare and present a portfolio that may include news and feature stories, brochures, flyers, research and other assignments completed for the course.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 102 or ENGL 111

Concurrent: COMM 105 or equivalent is recommended

Lab fee: \$7.00

ENGL 210 Creative Writing (A,SP - DL)**3 credits**

Students are introduced to the fundamental techniques of creative writing. Using peer group analysis and workshop techniques, students will develop short pieces in a variety of genres.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 101 or ENGL 111

Lab fee: \$3.00

ENGL 215 Magazine Publication: Literary Criticism, Editing, and Design (W)**3 credits**

Through hands-on practice with Springstreet, students learn the processes and techniques involved in the production of a literary magazine.

Lecture: 1 hours – Lab: 4 hours

Prerequisite: ENGL 101 or ENGL 111 with a grade of “C” or higher and instructor’s permission.

Lab fee: \$3.00

ENGL 220 Introduction to Literature (A,W,SP,SU) 3 credits
 Students are introduced to the major forms of literature by reading and discussing poetry, drama, and short stories. Practical experience in the critical analysis of literature is acquired through the writing of essays and journals and through the presentation of short oral reports. This course, or its equivalent in the ENGL 250-253 series, is required for all Associate of Arts and Associate of Science degrees.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher
 Lab fee: \$3.00

ENGL 225 Introduction to Fiction (W,SU) 5 credits
 English 225 is an intensive study of selected short stories and novels. Through critical reading, discussion, and writing, students will become familiar with important themes and methodologies of fiction. In both short stories and novels, emphasis will be placed upon identifying and analyzing authors’ particular uses of the traditional elements of fiction (structure, setting, point of view, etc.) to develop plot and character.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or better
 Lab fee: \$1.00

ENGL 230 Introduction to Dramatic Literature (W,SU) 5 credits
 Students will study selected masterpieces of western drama and discuss their social, political, and cultural influences. Students will write critical analyses of drama and of plays attended.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or better
 Lab fee: \$1.00

ENGL 235 Introduction to Poetry (A,SP) 5 credits
 This course will introduce students to the critical process of reading and responding to poetry from historical, cultural, and gender-based perspectives. Emphasis will be upon traditional and nontraditional forms as well as mainstream and marginalized writers. Students will become familiar with appropriate terminology; however, they will also learn to encounter the poem as a whole piece of written discourse between poet and reader. Students will, therefore, conduct an on-going oral and written dialogue with the poet (who is the speaker? who is the audience?, what is the purpose?) and the poem (what is the message?). Students will articulate orally and in writing their own ideas of interpretation based upon a close reading of the text and an informed perspective concerning the historical and cultural circumstances of its origin.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or better
 Lab fee: \$1.00

ENGL 240 Introduction to Science Fiction (A) 3 credits
 The historical roots and literary forms of science fiction are introduced. From their readings and viewing of films, students will write critiques, reports, and research papers about science fiction as a literary genre.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher
 Lab fee: \$3.00

ENGL 245 Introduction to Film (W,SU) 5 credits
 This course introduces students to cinema by analyzing the elements of film technique: literature, story, drama, editing, movement, acting, sound, photography, staging, and theory. Film as a cultural product is also discussed. Class activities include critical viewing, discussion, and writing assignments.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher
 Lab fee: \$10.00

ENGL 250 Writing About the American Experience (A,W,SP,SU - DL) 5 credits
 Students will read selected pieces of American literature and writings about the American experience in order to explore the variety of conflicts within individuals and within society as values, principles, and beliefs are defined, established, challenged, and defended. Student writing assignments include response journals, documented critical papers, and essay examinations. The course may substitute for ENGL 220 or meet elective requirements in the Associate of Arts or Associate of Science degree programs and transfer requirements in composition or literature.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher. Not open to students who have credit for ENGL 251, ENGL 252, or ENGL 253.
 Lab fee: \$3.00

ENGL 251 The American Identity (A,W,SP,SU - DL) 5 credits
 Students will read selected American writings to explore the multicultural experiences that define the American nation. Discussion will focus on how individual experience shapes the national character. Student writing assignments include response journals, documented critical papers, and essay examinations. The course may substitute for ENGL 220 or meet elective requirements in the Associate of Arts or Associate of Science degree programs and transfer requirements in composition or literature.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher. Not open to students who have credit for ENGL 250, ENGL 252, or ENGL 253
 Lab fee: \$3.00

ENGL 252 Images of Men and Women (A,W,SP,SU - DL) 5 credits
 Students will read selected American writings to explore the perceptions of men and women of various racial and ethnic backgrounds in American society. Discussion will focus on gender issues and conflicts as they arise within the individual and between the individual and society. Student writing assignments include response journals, documented critical papers, and essay examinations. The course may substitute for ENGL 220 or meet elective requirements in the Associate of Arts or Associate of Science degree programs and transfer requirements in composition or literature.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher. Not open to students who have credit for ENGL 250, ENGL 251, or ENGL 253
 Lab fee: \$3.00

ENGL 253 Regional American Writing (A,W,SP,SU- DL) 5 credits
 Students will read selected American writings to explore the regional diversity that characterizes the American nation. Discussion will focus on how such regional differences as historic and ethnic backgrounds, social development, economics, politics, language and literary traditions are reflected in literature. Student writing assignments include response journals, documented critical papers, and essay examinations. The course may substitute for ENGL 220 or meet elective requirements in the Associate of Arts or Associate of Science degree programs and transfer requirements in composition or literature.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ENGL 102 or ENGL 111 with a grade of “C” or higher. Not open to students who have credit for ENGL 250, ENGL 251, or ENGL 252
 Lab fee: \$3.00

ENGL 260 Survey of Modern U.S. Literature (SU - DL) 5 credits

This course examines the works of major writers in U.S. literature from 1865 to the present with attention to revision of the canon. Genres include essays, short fiction, drama, poetry, and the novel. Course activities include reading, discussion, writing assignments, and audience participation.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 262 Survey of British Literature (SP - DL) 5 credits

Students will study selected master works of nineteenth and twentieth century British literature. The course activities will include reading, discussion, writing assignments, and audience participation.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 264 Introduction to Shakespeare (W,SU - DL) 5 credits

This course will examine representative works selected from Shakespeare's History Plays, Comedies, Romances, and Tragedies, concentrating on a critical/analytical approach to both the plays and Elizabethan dramaturgy. Emphasis, therefore, will be placed upon Renaissance/Elizabethan dramaturgy and conventions, upon language and style, upon the elements of History Plays, Comedies, Romances, and Tragedies, and upon analyses of fundamental human experience.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 265 European Literature in Translation (A - DL) 5 credits

The course will examine the works of representative European writers and cultures for the purpose of developing an appreciation of the international nature of literary subjects, themes, and movements. Emphasis will be placed upon developing an understanding of the historical, philosophical, and social contexts of the various cultures within which European Romanticism, Realism, Naturalism, Existentialism, and modern movements developed.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 270 African - American Writers (W,SU - DL) 5 credits

This course is a survey of Black American literature from the eighteenth-century beginnings to the present; it includes a study of slave narratives, folklore, drama, poetry, and short fiction. Activities include reading and writing assignments, oral presentations, special performances, guest speakers, and field trips.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 272 Introduction to Folklore (SU) 5 credits

This course is a study of folklore; it looks at 1) ORAL FOLKLORE (i.e., proverbs, riddles, myths, motifs, legends, folktales), 2) CUSTOMARY FOLKLORE (i.e., superstitions, folk customs, folk festivals), 3) MATERIAL AND FOLK TRADITIONS (i.e., folk foods, architecture, costumes). Course activities include field work, reading and writing assignments, and a special project.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 274 Introduction to Non-Western Literatures

(A,SP) 5 credits

This course introduces students to selected classic and modern literature of the non-Western world, including Asia, Africa, the Mid-East, and Latin America. Through several literary approaches, students will gain an understanding of the authors, the periods, and the cultures they represent and the various ways they have handled literary themes.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 276 Women in Literature (A,SP) 5 credits

This course will explore the history by and about women. The course uses a comparative approach to see how women have treated a variety of themes and how they have worked within the genres of fiction, poetry, and drama. Discussions will consider the literature from the perspectives of gender, history, politics, and culture. Writing assignments will include response journals, documented critical papers, and essay examinations.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$3.00

ENGL 278 The English Bible as Literature (W) 5 credits

This course offers a literary approach to the Bible in English. Students read, in a modern English translation, much of the Old Testament and the New, as well as parts of the Apocrypha. This is not a course in religion. The approach is literary, historical, cultural. The Bible is read as an anthology of writings composed, compiled, translated, and edited over several centuries by many individuals and as a book that has had an enormous effect on our culture, art, and civilization.

Lecture: 5 hours – Lab: 5 hours

Prerequisite: ENGL 220 or equivalent

Lab fee: \$ 3.00

ENGL 280 Publishing Practicum (SP) 2 credits

Students who have satisfactorily completed ENGL 215 or who have comparable training and experience from another context learn magazine production techniques using Springstreet or another college publication as a production laboratory. This practicum may be repeated once and normally taken immediately after completing ENGL 215.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: ENGL 215 or instructor's permission

Lab fee: \$3.00

ENGL 281 Writing Fiction (A) 5 credits

This course introduces students to the art and craft of writing fiction. Emphasis is on the student's own work; however, students will also be required to study the works and writing processes of established writers, male and female, traditional and nontraditional, ancient and modern, and from diverse cultures. Students will keep a writer's journal, respond critically to the works of other students, create and revise a final long work (or combination of shorter works) of at least 4,000 words by the end of the quarter. In addition, students will be required to participate in a public reading of their work at least once during the quarter. Course is repeatable to 10 credits.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 210 with a grade of "B" or better or permission of the instructor

Lab fee: \$5.00

ENGL 282 Writing Poetry (W) 5 credits

This course introduces students to the art and craft of writing poetry. Emphasis is on the student's own work; however, students will also be required to study the works, writing processes, critical commentary on, and oral delivery of established poets, male and female, traditional and nontraditional, ancient and modern, and from diverse cultures.

Students will keep a writer's journal, respond critically to me works of

other students, create and revise a chapbook of 8-10 finished poems (12-20) pages by the end of the quarter. Students will present selected poems from the chapbook at a public reading. Course is repeatable to 10 credits.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: ENGL 210 with a grade of “B” or better or permission of the instructor
Lab fee: \$5.00

ENGL 283 Writing Plays (SP) 5 credits

This course introduces students to the art and craft of writing plays. Emphasis is on the student’s own work; however, students will also be required to study the works and writing processes of established playwrights, male and female, traditional and non traditional, ancient and modern, and from diverse cultures. Students will keep a writer’s journal, respond critically to the works of other students, create and revise a short play (or an Act or Acts of a longer work) complete enough to be produced by the end of the quarter. Students will present a public reading or performance of their work. Course is repeatable to 10 credits.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: ENGL 210 with a grade of “B” or better or permission of instructor
Lab fee: \$5.00

ENGL 284 Writing Creative Nonfiction (SU) 5 credits

This course introduces students to the art and craft of writing creative nonfiction (feature writing, travel writing, memoirs, personal profiles, biographies, public relations, etc.). Emphasis is on the student’s own work; however, students will also be required to study the works, writing processes, critical commentary on, and oral delivery of established nonfiction writers, male and female, traditional and nontraditional, ancient and modern, and from diverse cultures. Students will keep a writer’s journal, respond critically to the works of other students, create and revise a complete longer work (or a combination of shorter pieces) of at least 3,000-4,000 words by the end of the quarter. Students will present a public reading of their work during the quarter. Course is repeatable to 10 credits.

Lecture: 5 hours – Lab: 5 hours
Prerequisite: ENGL 210 with a grade of “B” or better or permission of instructor
Lab fee: \$5.00

ENGL 285 Writing to Publish (SP) 5 credits

This course introduces students to procedures for preparing a manuscript for marketing and publication. Students select a work or works for publication from a genre (fiction, poetry, drama, literary nonfiction), submit manuscripts for peer review at least three times during the quarter, and revise and edit their work throughout the quarter. Students research a market for their work, write the appropriate query or cover letter, and prepare the manuscript for submission. Since length requirements for manuscripts vary according to genre and target market, the instructor will determine the length requirement for successful completion of the course. The final exam for the course is a completed and corrected manuscript package ready for mailing. Students will also have the opportunity to give a public performance of their work. Course is repeatable to 15 credits.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: ENGL 281, ENGL 282, ENGL 283, or ENGL 284 with a “B” or better or permission of the instructor
Lab fee: \$5.00

ENGL 290 Capstone Experience in English (On Demand) 3 credits

A capstone course focusing on English. Paradigms and their underlying assumptions will be explored. Students will work on developing research techniques and methodologies. Students will apply these techniques to a project of their own design, complete a personal portfolio covering their studies at Columbus State, and participate in a summative testing of their academic skills. Open only to Associate of Arts or Associate of Science

students preparing to graduate within two academic quarters.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: 75 hours completed toward the degree including 10 credits in ENGL courses beyond ENGL 220 or equivalent
Lab fee: \$10.00

ENGL 297 - 298 - 299 Special Topics in English (On Demand) 1-5 credits

Special topics in English language or literature designed to meet specific needs.
Lecture hours vary– Lab hours vary
Prerequisite: vary

English as a Second Language (ESL)

ESL 044 Fiction for Non-Native Readers 4 credits

This course gives ESL students an opportunity to read various authentic (unedited) literary works in English including short stories, plays and short novels. The students will explore the settings, structures, plot and character development. Students will build vocabulary as well as analyze cultural settings. Analysis will come through journals, presentations, group discussions and class discussions. Credit will not count toward graduation in any degree program.

Lecture: 4 hours – Lab: 0 hours
Prerequisite: ESL 099 or placement into ESL 100
Lab fee: \$4.00

ESL 090 Critical Skills for College Success 3 credits

This course prepares non-native students to achieve their academic goals at a US college or university. They will examine US classroom procedures, professor-student interaction, thinking styles and learning styles. They will also be trained in techniques for effective reading, writing and critical thinking in a variety of academic fields. Student will demonstrate these techniques through the completion of mini-projects derived from a variety of courses currently offered at CSCC. Students’ final project will be derived from an entrylevel course in their chosen field of study. Credit will not count toward graduation in any degree program.

Lecture: 2 hours – Lab: 2 hours
Prerequisite: ESL 099 or placement into ESL 100
Lab fee: \$3.00

ESL 092 Basic Oral Communication 3 credits

This course will introduce students to the American sound system and quickly expand their working oral vocabulary. It will also equip students to perform viral language-based functions on campus and in the community. The course will be based upon daily classroom participation and the satisfactory completion of each language function. Credit will not count toward graduation in any degree program.

Lecture: 2 hours – Lab: 2 hours
Prerequisite: placement into ESL 097.
Lab fee: \$3.00

ESL 093 Intermediate Oral Communication 3 credits

This course will help students to increase their effectiveness in social, academic and professional interactions in a U.S. setting. Students will expand their working oral vocabulary, master useful American idioms and improve their pronunciation. Students will examine and practice the conventions of contemporary American communication: both verbal and nonverbal. The course will be based upon daily class participation, oral presentations and also evidence of improvement found through a contrast of audiotaped readings. Credit will not count toward graduation in any degree program.

Lecture: 2 hours – Lab: 2 hours
Prerequisite: ESL 098 (may be taken concurrently) or placement into ESL 098
Lab fee: \$3.00

ESL 094 Advanced Oral Communication **3 credits**
Students will increase their awareness of the values and beliefs that underlie cultural norms in the U.S. Readings on various aspects of contemporary American culture will provide the springboards to information gathering outside of class (through additional reading and interviews with native speakers) in-class discussions and four required oral presentations. Students will practice standard American pronunciation and intonation and will master useful vocabulary and idiomatic expressions. Credit will not count toward graduation in any degree program.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: ESL 099 (may be taken concurrently) or placement into ESL 099
Lab fee: \$3.00

ESL 095 Public Speaking for Non-Natives (A,W,SP,SU) **3 credits**
This course will prepare students whose first language is not English to participate effectively in COMM 105, Speech. Students will study and practice public speaking techniques, with particular emphasis on native pronunciation, intonation and delivery. Students will be required to conduct interviews and research in preparation for demonstration and persuasive speeches, presented individually and in groups. Students will receive feedback on their oral production from their instructor and their classmates regularly and will be audio/video taped on occasion. Credit will not count toward graduation in any degree program.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: ESL 100 (may be taken concurrently) or placement into ESL 100
Lab fee: \$5.00

ESL 097 Basic English as a Second Language (A,W,SP,SU) **10 credits**
Students who already have limited command of the English language build upon their vocabulary and begin to eliminate errors through the study of basic grammar, readings, guided discussions, and written and oral exercises. Credit will not count toward graduation in any degree program.
Lecture: 10 hours – Lab: 0 hours
Prerequisite: Placement test
Lab fee: \$5.00

ESL 098 Developmental English as a Second Language (A,W,SP,SU) **10 credits**
Students will continue to develop their reading, writing, listening and speaking skills through the study of intermediate grammar, readings, guided discussions, and written and oral exercises. Credit will not count toward graduation in any degree program.
Lecture: 10 hours – Lab: 0 hours
Prerequisite: Prerequisite: “C” in ESL 097 or placement
Lab fee: \$5.00

ESL 099 ESL: Reading, Grammar, and Composition (A,W,SP,SU) **10 credits**
Students will prepare for academic course work through the study of advanced grammar, sentence structure, paragraph organization and pre-writing techniques and will respond to college level readings in guided discussions, oral presentations and paragraph length essays. Credit will not count toward graduation in any degree program.
Lecture: 10 hours – Lab: 0 hours
Prerequisite: “C” in ESL 098 or placement
Lab fee: \$5.00

ESL 100 English as a Second Language: Composition (A,W,SP,SU) **5 credits**
Students will polish their writing skill through grammar reviews, written exercises and the study of sentence structure, rhetoric and essay organization. Students will respond to both the content and technique of college level readings. Students will write essays using description, narration,

cause and effect and comparison/contrast. Credit will not count toward graduation in any degree program.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: “C” in ESL 099 or placement
Lab fee: \$5.00

Environmental Technology (ENVR)

ENVR 101 Introduction to Environmental Technology (A,SP) **3 credits**
An introduction and overview of the environmental technology field. This includes environmental problem discovery and definition, the effects on humans and the natural environment, environmental investigation and response, the regulatory structure that guides environmental projects, and worker health and safety.
Lecture: 3 hours – Lab: 0 hours

ENVR 110 Industrial/Municipal Pollution Control (W) **3 credits**
An overview of the management, treatment and disposal practices utilized for pollution control. This course covers the nature of pollution and provides an introduction to air pollution control devices, wastewater treatment techniques, solid and hazardous waste management, and treatment and disposal, recycling and pollution prevention.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$8.00

ENVR 111 Hazardous Materials Management (A,SP) **3 credits**
An overview of the management practices for hazardous materials and hazardous waste. This includes principles of science and technology, occupational health and safety concerns and regulatory compliance. An emphasis will be placed on DOT, OSHA and RCRA requirements.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$10.00

ENVR 112 Environmental Computer Applications (W) **3 credits**
Introductory course for Environmental Technology students. This course will provide basic information about computer hardware, software, data communications, operating systems, and popular application packages. Hands-on laboratory experience using the IBM PC and a popular integrated software package is emphasized in the course.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: MATH 102 and CPT 101 or permission of instructor
Lab fee: \$15.00

ENVR 120 Environmental Aspects of Soils (A,SP) **3 credits**
This course provides an introduction to the many important aspects of soils that pertain to the environmental industry. Topics include soil formation and development, classification systems, soil mechanics, soil chemistry and contamination, soil hydrology, agricultural aspects of soil, soil erosion and soil sampling techniques. Soil characteristics will be explored by means of laboratory examination and elementary testing techniques.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: GEOL 101 or GEOL 121
Lab fee: \$10.00

ENVR 130 Environmental Laws and Regulations (W,SU) **5 credits**
A study of American political institutions and a brief history of the American environmental movements and the resulting environmental regulations. A study of local, state, and federal codes and regulations as they apply to the handling, treatment, storage, and disposal of hazardous materials and wastes. Emphasis on NEPA, The Clean Water and Air Acts, the Resource Conservation and Recovery Act (RCRA), and the Compre-

hensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund).

Lecture: 4 hours – Lab: 2 hours

Lab fee: \$10.00

ENVR 158 Environmental Site Assessment (A,SP) 3 credits

A study of environmental site assessments, including Phase I ESAs for real estate transactions and environmental assessments for environmental impact statements. Environmental regulations and guidance documents will be applied in an analysis of a specific project site.

Lecture: 2 hours – Lab: 2 hours

Lab fee: \$12.00

ENVR 220 Environmental Chemistry (W,SU) 5 credits

Effective solutions to environmental problems require an understanding of the chemical processes that occur in the environment. This course provides a basic knowledge of environmental chemistry including water, soil and atmospheric chemistry. The chemistry of the transport and fate of pollutants in the environment, hazardous material chemistry and toxicology are covered. Related laboratory exercises will be performed including utilizing analytical techniques, instrumentation and quality assurance.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: CHEM 111 with a grade of “C” or higher

Lab fee: \$18.00

ENVR 222 Water Treatment Techniques (W,SU) 3 credits

This course is designed to permit the student to attempt the State of Ohio Class One Water Operator’s exam. The course will emphasize water quality criteria, reasons for water treatment, and laboratory processes. Practical experience will be emphasized.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: High school Chemistry or CHEM 100, MATH 102 or equivalent, or permission of instructor.

Lab fee: \$20.00

ENVR 223 Wastewater Treatment Techniques (W,SU) 3 credits

This course is designed to provide the training to permit the student to apply to the State of Ohio Class One Wastewater Operator exam. The course will emphasize types of treatment, equipment, hygiene and public health aspects, sewer systems, and laboratory processes. Practical experiences will be emphasized.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: High school Chemistry or CHEM 100, MATH 102 or equivalent, or by permission of instructor

Lab fee: \$20.00

ENVR 224 Environmental Hydrology (A,SP) 3 credits

Study of the occurrence, movement, and behavior of water in the hydrologic cycle. Introduction to the concepts of controlling the movement of surface water and ground water, and the ways in which these resources can be exploited and/or contaminated.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: MATH 102

Lab fee: \$15.00

ENVR 250 Subsurface Investigation Techniques (A,SP) 5 credits

A course covering the techniques and methods used in environmental field investigations. Topics include the environmental regulatory framework, project coordination, drilling techniques, soil sampling techniques, monitoring well installation, field instrument calibration and use, environmental sampling, supplemental techniques and decontamination of field equipment.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: GEOL 101 or GEOL 121

Lab fee: \$20.00

**ENVR 252 Health and Safety Training for Hazardous Waste Operations (W,SU) 3 credits
(40-Hour OSHA Training)**

Satisfies 29 CFR Part 1910.120(e) under OSHA. A health and safety training course for individuals who may be involved in the investigation, remediation and operation of hazardous waste sites. Topics include hazardous materials chemistry, toxicology, air monitoring instrumentation, air purifying respirators, self-contained breathing apparatus, supplied air respirator systems, protective clothing, decontamination, simulated hazardous materials response incidents, and appropriate problem sets.

Lecture: 2 hours – Lab: 3 hours

Lab fee: \$100.00

ENVR 253 Environmental Systems Analysis (A,SP) 3 credits

This course introduces engineered environmental systems and practical applications of their operation and maintenance. Topics include flow diagrams, schematics, plumbing and piping, pumps, blowers, electrical systems, instrumentation, flow measurements, process control, troubleshooting and safety for engineered systems.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: ENVR 110 with a grade of “C” or higher

Lab fee: \$18.00

ENVR 254 Subsurface Restoration Techniques (A,SP) 5 credits

This course will address subsurface remediation techniques and treatment technologies used at hazardous waste sites. Course topics include the regulatory framework for subsurface restoration, clean-up goals, basic contaminant chemistry and transport, supplemental subsurface investigative techniques, soil and groundwater remediation techniques and water and air treatment technologies.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: ENVR 250 with a grade of “C” or higher

Lab fee: \$20.00

ENVR 255 Air Monitoring (W) 3 credits

This course focuses on EPA methods for stack sampling of various air contaminants, operation and maintenance of contiguous emissions monitors, and industrial air pollution control options. An introduction to applicable permitting and reporting requirements will also be included.

Lecture: 2 hours – Lab: 2 hours

Lab fee: \$23.00

ENVR 256 Hazardous Materials Refresher Training (A,W,SP,SU) 1 credit

This course provides refresher training for site workers and emergency operators who have completed the 24 or 40-hour courses and complies with the 29 CFR 1910.120 refresher training requirements. Emphasis is placed on practical exercises and review of relevant changes in OSHA requirements. Successful completion of the course is based on classroom participation and completion of a written assignment. This is a repeatable course.

Lecture: 1 hours – Lab: 0 hours

Lab fee: \$50.00

ENVR 290 Work Experience Seminar (SP) 1 credit

This course will prepare students for the summer Field Co-op Experience (ENVR 291) and will address employment opportunities in the environmental field, resume writing, interviewing techniques, health and safety at the job site, environmental and work ethics, and conflict resolution. The student taking this class should have completed at least three quarters in the Environmental Technology program. This course is graded as Satisfactory/Unsatisfactory.

Lecture: 1 hours – Lab: 0 hours

ENVR 291 Field Co-Op Experience (SU) 4 credits
Off-campus work experience in environmental services related paid employment that augments formal education received in the technology with actual work conditions and job experience. "N" credit will not be allowed for this course.
Lecture: 0 hours – Lab: 40 hours
Prerequisite: ENVR 290

ENVR 297 Special Topics on Environmental Tech. (On Demand) 1 credit
Special topics from the environmental industry designed to meet specific needs.
Lecture: 1 hours – Lab: 0 hours

ENVR 298 Special Topics on Environmental Tech. (On Demand) 2 credits
Special topics from the environmental industry designed to meet specific needs.
Lecture: 1 hours – Lab: 2 hours

ENVR 299 Special Topics on Environmental Tech. (On Demand) 3 credits
Special topics from the environmental industry designed to meet specific needs.
Lecture: 2 hours – Lab: 2 hours

Facility Management (FAC)

FAC 111 Introduction to Facility Management (A,W,SP) 3 credits
A course designed to familiarize the student with the fundamental areas of knowledge comprising facility management, including ethical and legal responsibilities, the relationship of the facilities unit with other organizational units, and the history, concepts, standards and responsibilities of the profession.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$5.00

FAC 150 Operations & Maintenance (W,SP,SU) 3 credits
A course designed to convey to the student, an understanding of the importance, procedures, policies, and practices required to oversee acquisition, installation, operation, maintenance, and disposition of building systems, furniture, equipment, grounds, and other elements of a facility.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: FAC 111 or permission of instructor
Lab fee: \$10.00

FAC 240 Voice and Data Systems (A,SP) 3 credits
A study of the techniques, theory, and devices used for communication in computer systems, network, and telecommunications, with an emphasis on facility needs and problems arising with communications and management of the systems.
Lecture: 3 hours
Prerequisite: FAC 111 or permission of instructor

FAC 250 Computers in Facility Management (W,SU) 2 credits
A study of the computer programs and techniques in current use for Facility Management, including those used in Communication, Engineering and Management.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: CPT 101 or permission of instructor
Lab fee: \$15.00

FAC 260 Problems in Facility Management (W,SP) 4 credits
A comprehensive capstone course for the facility management student, blending academic theory with practical skills. Problem solving and team-work in reaching solutions to real problems is emphasized. Students will present their reports and findings to an academic panel and/or real clients.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: FAC 150 or permission of instructor
Lab fee: \$10.00

FAC 270 Project Planning and Management(W,SU) 3 credits
Students learn about planning projects, defining & translating business and physical needs into building area needs, developing alternative approaches, preparing schedules and estimates, coordinating construction, managing moves and closing projects. The course considers physical constraints, code implications, costs, bidding, construction sequencing and practices, procurement lead times, design goals, and hiring and working with consultants.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$10.00

Finance (FMGT)

FMGT 101 Personal Finance (A,W,SP,SU - DL) 4 credits
This course presents a lifetime program of money management for the individual. Such topics as: budgets, savings, job search, buying a house, insurance, mutual funds, stock market, real estate investments, taxes, and estate planning, are covered. Students will be able to write a basic personal financial plan.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$3.00

FMGT 105 Insurance Principles (On Demand) 3 credits
This course covers the evaluation of the financial impact of risk exposure and how to manage the risk exposure through the intelligent use of insurance products. Topics presented include: nature of risk, insurance contracts, life and health insurance, annuities, property and liability insurance, and government regulation of insurance.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: FMGT 101
Lab fee: \$3.00

FMGT 121 Introduction to Commercial Credit (A) 3 credits
A basic course in commercial credit and collections. Studies will be centered on the establishing of the credit department, nature and function of credit, various types of credit, sources of credit, sources of credit information, analysis of information, factors of risk. This course is offered by the National Association of Credit Management in cooperation with Columbus State Community College.
Lecture: 3 hours – Lab: 0 hours

FMGT 130 Small Business Finance (SP) 3 credits
A study of the financial aspects of small business entrepreneurship. Many of the techniques that are found in a traditional corporate finance course are applied in this course to the small business.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: This course is open to Small Business Management majors only.
Lab fee: \$3.00

FMGT 201 Business Finance (A,W,SP,SU - DL) 5 credits
An introduction to the principles of financial management of private business firms. Topics covered include: financial analysis, financial planning, working capital management, financial leverage, sources of financing, capital budgeting and capital markets.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: ACCT 101 or higher.
Lab fee: \$3.00

FMGT 202 Money and Banking (A,W) 5 credits
A study of the operation, organization, and economics of U.S. monetary and banking systems. Current trends and problems are also covered.
Lecture: 5 hours – Lab: 0 hours
Lab fee: \$3.00

FMGT 211 Investments (W,SP) 4 credits
This course examines the investments for the individual with emphasis on the securities markets. Topics presented include: risk and return trade-offs, sources of investment information, stocks, bonds, mutual funds, options, and tax considerations.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$3.00

FMGT 212 Advanced Credit Analysis (SP) 3 credits
This course is offered by the National Association of Credit Management and covers both commercial as well as consumer credit administration. This course is a continuation of FMGT 121.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: FMGT 121

FMGT 221 Credit Administration (W) 4 credits
Analytical study of credit control, and management of collections. Topics include; management and analysis of consumer credit, business credit, government credit, and foreign credit.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$3.00

FMGT 232 Principles of Banking 4 credits
Presents the fundamentals of bank functions in a descriptive fashion so that the beginning banker may acquire a broad and operational perspective. Banking is increasingly dependent upon personnel who have the broad perspective so necessary for career advancement. This course is offered by the American Institute of Banking and is open to Columbus State students for credit.
Lecture: 4 hours – Lab: 0 hours

FMGT 241 Estate Planning 3 credits
This course covers the procedures to transfer assets at death with the fewest complications, with the fewest taxes, and at the least cost to all parties. Topics presented include: estate taxes, avoiding probate, revocable living trusts, gifts, life insurance, annuities, short term trusts, and totten trusts.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: FMGT 101 or Advisor Approval
Lab fee: \$3.00

FMGT 251 Finance Research (A,) 2 credits
The student receives exposure to current developments in finance and economics through projects and research papers. Designed to serve as a capstone course for graduating students. Students can substitute BMGT 272 – Case Studies in Business Seminar for this course.
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$3.00

Fire Science (FIRE)

FIRE 102 Prevention Practices (On Demand) 3 credits
An overview of inspection programs, with emphasis on fire protection procedures and practices. Relationships of prevention programs with government, private sector, codes and arson is discussed.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: FIRE 117

FIRE 104 Fire Investigation Methods (AU, SU) 4 credits
A study of the principles of fire investigations including recognition, preservation, collection, and presentation of arson evidence. Arson laws, interrogation of witnesses, application of photography, preparation of reports and adjustment of insured losses. Estimation of loss due to fire, smoke and water.
Lecture: 3 hours – Lab: 2 hours
Lab fee: \$5.00

FIRE 106 Protection Systems (SU) 3 credits
The design and operation of fire protection systems, including water distribution, direction, alarm and watchman services and protection systems for special hazards. Carbon dioxide, dry chemical, foam and water spray systems studied in detail. Standpipes and sprinkler systems and methods of reestablishment after use.
Lecture: 2 hours – Lab: 2 hours

FIRE 108 Fire Fighting Command I (W) 4 credits
Group operations and command strategy for fireground operations. The training of companies and officers to operate as a team. Methods of implementing plans and strategy into tactical operations.
Lecture: 3 hours – Lab: 2 hours

FIRE 109 Fire Fighting Command II (SP) 3 credits
Group operations and command strategy at the chief officer level, Preplanning of fire fighting operations, employment of personnel and equipment. Specific tactical problems analyzed. Operations and tactics including mutual and outside aid in fire fighting.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: FIRE 108
Lab fee: \$3.00

FIRE 110 Fire Safety Education (On Demand) 3 credits
A course designed to generate methods and techniques for providing an education program in fire safety for a community, for a school, or for a municipality.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$5.00

FIRE 116 Personnel Training Methods (On Demand) 3 credits
Methods of instruction, application of audio visual equipment, testing and evaluation, and preparation of materials are introduced. Special emphasis is placed upon planning an organizational training program.
Lecture: 1 hours – Lab: 4 hours
Lab fee: \$3.00

FIRE 117 Firefighter I & II (SU) 12 credits
The course consist of all the performance and knowledge objectives in the current NFPA Standard 1001 for firefighter I and II including but not limited to: fire department organization, Safety, fire alarm, fire behavior, extinguishers, rope, ladders, hose streams, fire control, salvage and rescue. This course is required for full-time firefighters. The content of this course will enable students to obtain State of Ohio certification for Firefighter I & II levels (240 hour firefighter course).
Lecture: 8 hours – Lab: 14 hours
Lab Fee: \$90.00

FIRE 151 Fire Prevention Codes (On Demand) 4 credits
A study of important building construction and fire safety codes with emphasis on fire prevention and enforcement.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: FIRE 102, FIRE 117

FIRE 153 Fire Hydraulics (SP) 4 credits
An introduction to hydraulic theory. Drafting of water, velocity and discharge, friction loss, engine and nozzle pressure, fire streams, and pressure losses in flowing hydrants. Practice in application of hydraulic principles. Flow and pump testing as well as study of water distribution.
Lecture: 3 hours – Lab: 2 hours
Lab fee: \$2.00

FIRE 202 Hazardous Materials II (On Demand) 4 credits
A study of the properties and behavior of various hazardous chemicals in our environment. An overview of the physical and chemical characteristics of toxic, flammable, and reactive substances in the forms of solids, liquids, and gases combined with practical application of methods for responding to emergencies involving such materials. Emphasis will be placed on safe approach to incident scenes, positive identification of materials, and accurate analysis of the hazards presented by hazardous materials. Simulation and tabletop emergency exercises will be utilized throughout the course.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: LAWE 268
Lab fee: \$6.00

FIRE 203 Legal Aspects of Fire Protection (W) 3 credits
Introduction to law, civil and criminal actions, the judicial system. Municipal liability for acts of the fire department and its members. Pensions, salary and compensation and termination. Duty owed by the public to members of the fire department. The initiation, operation, and liability and legal aspects of mutual aid, primary response contracts, and private contracts.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$5.00

FIRE 204 Fire Service Rating System (Fire Insurance) (AU) 2 credits
The history of fire insurance. The principles and practices of inspections by the insurance services office. The rating system as used by I.S.O. to determine premium rates. Extensive study of methods used by I.S.O. to classify public protection and individual property fire suppression.
Lecture: 1 hour – Lab: 2 hours

FIRE 205 Fire Service Company Officer (Supervisory Methods) (AU) 3 credits
Supervision techniques applied to public service personnel. The study of the need for job descriptions and job procedures, reports, oral and written directions, work evaluation, meetings, discipline and conference leaders. Methods of instruction effective in teaching and motivating personnel.
Lecture: 3 hours – Lab: 0 hours

FIRE 206 Administration of a Fire Department (SP) 3 credits
The contemporary fire protection agency, its functions, structure, and operational techniques. Principles of organization, staffing, budgeting, controlling, coordinating, planning, research in fire protection. The development and maintenance of liaison and cooperation between fire and police departments.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: FIRE 107

FIRE 207 Customer Services for the Fire Services (Public Relations) (AU) 3 credits
The psychology of relations between public service employees and the general population. Policies and practices of community relations as they apply to public service agencies. Current national and local community problems.
Lecture: 3 hours – Lab: 0 hours

FIRE 209 Fire Fighting Problems (On Demand) 3 credits
Procedures of fighting aircraft fires. Procedures of fighting fires involving hydrocarbons, and lp gas. Hazards of electrical emergencies and proper procedures of handling them. Examples of disaster and stress involving emergency personnel.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: FIRE 117
Lab fee: \$3.00

FIRE 210 Building Construction (W) 4 credits
An introduction to the present and past practices of building construction. Tells of important standard elements of buildings, the hidden dangers of old and new buildings, what influences structural stability of walls in fires, and how to look for and judge hundreds of structural dangers. Relationships between construction materials and fire damage of a building.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$2.00

French (FREN)

FREN 101 Elementary French I (A,W,SP,SU - DL) 5 credits
Introduction to the fundamentals of the French language with practice in listening, reading, speaking, and writing. Includes selected studies in French culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

FREN 102 Elementary French II (A,W,SP,SU - DL) 5 credits
Continuation of FREN 101, with further development of listening, reading, speaking, and writing skills and further study of French culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: FREN 101 with a grade of “C” or better or by placement exam
Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

FREN 103 Intermediate French I (DL) 5 credits
Continued study of the French language and development of listening, reading, speaking, and writing skills. Readings from contemporary French culture and literature. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: FREN 102 with a grade of “C” or better or by placement exam
Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

FREN 104 Intermediate French II (DL) **5 credits**
Reading and discussion of French short stories, novels, plays, newspapers, and magazines, emphasizing literary appreciation and the development of French culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: FREN 103 with a grade of “C” or better or by placement exam
Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

FREN 290 Capstone Experience in French (On Demand) **3 credits**
A capstone course focusing on French. Paradigms and their underlying assumptions will be explored. Students will work on developing research techniques and methodologies. Students will apply these techniques to a project of their own design, complete a personal portfolio covering their studies at Columbus State, and participate in summative testing of their academic skills.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters
Lab fee: \$5.00

FREN 299 Special Topics in French (On Demand) **1-5 credits**
Detailed examination of selected topics in French.
Prerequisite: vary
Lab fee: \$2.00

Geography (GEOG)

GEOG 200 World Regional Geography (A,W,SP,SU - DL) **5 credits**
This course serves as an introduction to the study of regional geography at the global scale. Students will become familiar with the basic concepts in geography, the topic of uneven development, and the factors (landforms, climate, population, resources, culture, economic activity, and historical evolution) that affect uneven development within and among all the world’s major regions.
A distance-learning version of World Regional Geography is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$7.00

GEOG 207 Introduction to Geographic Information Systems (A,W,SP,SU) **5 credits**
This course introduces the fundamentals of Geographic Information Systems (GIS) including basic cartographic principles, map scales, coordinate systems, and map projections. The uses of hardware and software elements that emphasize vector-based data structures using ArcView Spatial Analysis extension are explored. Various applications of GIS technology used in science, business, and government are presented. Specific topics addressed include GIS terminology, raster and vector data structures, data sources and accuracy, methods of data conversion and input, requirements for metadata, working spatial databases (map features and attribute tables), spatial analysis (map overlays, buffers, networks). The above topics are reinforced in a laboratory with hands-on exercises on the use of map scales, coordinate systems, data sources and accuracy,

data structures, working with spatial data, map features and attributes, map overlays, manipulation of data bases, creation of charts and graphs, and presentation of data in map overlays.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: MCT 095 or the equivalent and placement into ENGL 101
Lab fee: \$7.00

GEOG 290 Capstone Experience in Geography (On Demand) **3 credits**
This course is for students completing the two-year Associate of Arts or Associate of Science degree who have a special interest in continuing a baccalaureate degree program in geography. Course requirements include the completion and presentation of a research project that relates to the students’ academic interests after reviewing research methodologies and findings in geography; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: Completion to AA/AS core requirements and at least 75 hours toward the degree with five credit hours in geography
Lab fee: \$10.00

GEOG 293 Independent Study in Geography (On Demand) **1 to 5 credits**
An individual, student-structured course that examines a selected topic in geography through intensive reading or research. The independent study elective permits a student to pursue his/her interests within the context of a faculty-guided program.
Lecture: 1 to 5 hours – Lab: 0 hours
Prerequisite: Permission of the Instructor, the Chairperson, and one course in Geography
Lab fee: \$6.00

GEOG 299 Special Topics in Geography (On Demand) **1 to 5 credits**
A detailed examination of selected topics of interest in geography.
Lecture: 1 to 5 hours – Lab: 0 hours
Prerequisite: Vary
Lab fee: \$6.00

Geology (GEOL)

Students must complete 60% of the laboratories in a course to receive credit. Courses in this area may require additional hours outside of the scheduled class times.

GEOL 101 Earth Systems I: Geologic Environment (A,W,SP,SU) **5 credits**
A general geology course covering the materials of the Earth’s crust, the processes that produce and modify them, and the development of the Earth and its life forms through time. Related laboratory and demonstrations.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: Placement into ENGL 101. Not open to students with credit for GEOL 121
Lab fee: \$21.00

GEOL 121 Physical Geology (A,W,SP,SU) **5 credits**
This course covers geologic processes and the development of land forms. Topics include the development of the Earth, the nature and origin of minerals and rocks, land forms and the agents that produce and modify them, structural features of the Earth’s crust, and the environmental ef-

fects of changes in the Earth. Related laboratory and demonstrations. .
Lecture: 4 hours – Lab: 3 hours
Prerequisite: MATH 103 and placement into ENGL 101
Lab fee: \$20.00

GEOL 293 Independent Study in Geology (On Demand) 1 to 5 credits
Detailed examination of selected topics of interest in geology.
Lecture: 1 to 5 hours – Lab: 0 to 6 hours
Prerequisite: Permission of instructor
Lab fee: varies

GEOL 299 Special Topics in Geology (On Demand) 1 to 5 credits
Detailed examination of selected topics of interest in geology.
Lecture: 1 to 5 hours – Lab: 0 to 6 hours
Prerequisite: Permission of the instructor
Lab fee: varies

German (GERM)

GERM 101 Elementary German I (A,W,SP,SU) 5 credits
Introduction to the fundamentals of the German language with practice in listening, reading, speaking and writing. Includes selected studies in German culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00

GERM 102 Elementary German II (A,W,SP,SU) 5 credits
Continuation of GER 101 with further development of listening, reading, speaking, and writing skills and further study of German culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: GERM 101 with a grade of “C” or better or by placement exam.
Lab fee: \$6.00

GERM 103 Intermediate German I (On Demand) 5 credits
Continued study of the German language and development of listening, reading, speaking, and writing skills. Readings from contemporary Germanic culture and literature. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: GERM 102 with a grade of “C” or better or by placement exam
Lab fee: \$6.00

GERM 104 Intermediate German II (On Demand) 5 credits
Reading and discussion of German short stories, novels, plays, newspapers, and magazines, emphasizing literary appreciation and the development of Germanic culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: GERM 103 with a grade of “C” or better or by placement exam
Lab fee: \$6.00

GERM 290 Capstone Experience in German (On Demand) 3 credits
A capstone focusing on German. Paradigms and their underlying assumptions will be explored. Students will work on developing research techniques and methodologies. Students will apply these techniques to a project of their own design, complete a personal portfolio covering their studies at Columbus State and participate in summative testing of their academic skills.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters
Lab fee: \$5.00

GERM 299 Special Topics in German (On Demand) 1-5 credits
Detailed examination of selected topics in German.
Prerequisite: vary
Lab fee: \$2.00

Graphic Communications Technology (GRPH)

GRPH 110 Survey of Graphic Communications (A,W) 4 credits
This course provides an overview of the graphic communications industry with an emphasis on the lithographic process. The student is introduced to the history and technological developments in printing, the basic printing processes (letterpress, gravure, lithography, screen, flexography, engraving), and key terminology used in the field. Basic skills are also developed during laboratory time.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$10.00

GRPH 111 Black and White Photography (A,W,SP,SU) 4 credits
An introduction to the principles of continuous-tone photography emphasizing composition, lighting, as well as manipulative functions, operative settings, and focus control of cameras and enlargers; students will also learn to develop their film and make prints.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$28.00

GRPH 112 Introduction to Computer Graphics (A,W,SP,SU) 4 credits
This course is designed to bring the non-computer user, or one with limited Macintosh experience, to a working level for future coursework in the Graphic Communications Technology curriculum. It enables students to improve their keyboard skills and knowledge of computer hardware, software and industry trends. Specific tasks using three software packages enable students to improve their knowledge and capabilities in a wide range of computer-related areas.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$15.00

GRPH 122 Electronic Publishing (W,SU) 5 credits
This course introduces students to electronic publishing software, specifically Quark XPress with typographical command sequences and manipulation applications. This package is the chosen software of most services bureaus when a high degree of accuracy is required on Macintosh hardware. Quark XPress, imaging and color controls for scanned photographs and drawings are reviewed.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: GRPH112
Lab fee: \$20.00

GRPH 125 Image Assembly (W) **5 credits**
 This course provides an understanding of the components and procedures involved in conventional pre-press, especially copy preparation and lithographic stripping. Emphasis is placed on concepts that are applicable to both conventional and electronic pre-press. Students will take lab projects through the copy preparation and stripping stages.
 Lecture: 3 hours – Lab: 4 hours
 Prerequisite: GRPH 110
 Lab fee: \$43.00

GRPH 130 Press Operations (SP) **4 credits**
 This course covers the lithographic process, press design, press function, press operations, and maintenance and repair. Environment and safety considerations are included. Laboratory work revolves around operations of a sheet-fed offset press. An overview of MSDS procedures is included.
 Lecture: 3 hours – Lab: 3 hours
 Prerequisite: GRPH 110 and GRPH 12
 Lab fee: \$23.00

GRPH 131 Design and Typography (SP) **4 credits**
 This course covers the interrelationship among such design elements as balance, proportion, color harmony and the fundamentals of typography and graphic design. Students translate these principles into effective design assignments that are then presented to and evaluated by the class.
 Lecture: 2 hours – Lab: 4 hours
 Lab fee: \$10.00

GRPH 132 Paper and Ink (SP) **4 credits**
 A study of the two primary materials used in the printing industry, the course examines the history and manufacture of paper and ink, their raw materials, physical characteristics, applications, and their relationships with one another. Also covered are the classifications of and the procedures for estimating and purchasing these materials. Writing a research paper is a required component of the course.
 Lecture: 4 hours – Lab: 0 hours
 Prerequisite: ENGL 102.

GRPH 225 Image Assembly II (SP) **4 credits**
 Teaches students to perform the same functions electronically that are performed in a computer-to-plate environment. Students will use TrapWise and PressWise software to prepare and impose images for presswork.
 Lecture: 2 hours – Lab: 4 hours
 Prerequisite: GRPH 125

GRPH 230 Press Operations II (On Demand) **4 credits**
 Provides an in-depth continuation of GRPH 130. Students will operate a multi-color offset press, a blanket-to-blanket perfecting offset press, and a four-color offset press simulator with the purpose of broadening operator capabilities.
 Lecture: 2 hours – Lab: 4 hours
 Prerequisite: GRPH 130

GRPH 241 Estimating (A) **4 credits**
 This course is a survey of the functions and role of printing estimators, followed by an in-depth study of estimating the costs of paper, ink, one-color sheet fed presswork and flat sheet bindery functions. Calculating wastage and preparing quotations will also be studied. Students will create an efficient production plan for printing a variety of finished products and will be able to estimate the materials and labor costs for performing the operation. Emphasis is on deriving prices from production standards and hourly rates.
 Lecture: 3 hours – Lab: 3 hours
 Prerequisite: GRPH 110, GRPH 125, GRPH 130, and MATH 102
 Lab fee: \$20.00

GRPH 242 Image Capture and Conversion (A, W) **4 credits**
 This course provides a study of digital imagesetting, the technique and procedures of exposure calibration, tonal manipulation, and films used in the printing industry. The course also includes an in-depth study of densitometry, colorimetry, and the basics of color management including ICC profiles.
 Lecture: 2 hours – Lab: 4 hours
 Prerequisite: GRPH 110
 Lab fee: \$25.00

GRPH 243 Computer Graphic Illustration (A, SU) **4 credits**
 The use of software for technical illustration and typographic manipulations is studied. Special emphasis is placed on its use to generate and create professional quality technical drawings and business graphics. Adobe Illustrator, 7.0 software for the Macintosh is applied in the course. Individual and team projects are emphasized.
 Lecture: 2 hours – Lab: 4 hours
 Prerequisite: GRPH 112.
 Lab fee: \$20.00.

GRPH 244 Quality Control in Graphic Communications (W) **4 credits**
 An introduction to the Deming philosophy of management and its implementation in the printing process through the use of statistical process control. Techniques used to identify, measure, and reduce variability are examined with the goal of ensuring quality in both the press and the pre-press production areas.
 Lecture: 3 hours – Lab: 3 hours
 Prerequisite: GRPH 110, and MATH 102.
 Lab fee: \$5.00

GRPH 251 Electronic Imaging (W, SP) **5 credits**
 This course combines the fundamental skills introduced in preliminary courses with the new technologies of desktop scanning and separation. The course incorporates such topics as color separation and color proofing for print production. The student works with Adobe Photoshop 4.0 software.
 Lecture: 3 hours – Lab: 4 hours
 Prerequisite: GRPH 112
 Lab fee: \$20.00

GRPH 260 Graphics Practicum (A, W, SP, SU) **4 credits**
 Supervised on-the-job application of knowledge and skills acquired in the classroom.
 Lecture: 0 hours – Practicum: 28 clock hours for 4 credits
 Prerequisites: Graphic Communications major with the GPA of at least 2.5. Completion of 12 hours in technology or permission of instructor.
 Concurrent: GRPH 261
 Lab fee: \$3.00

GRPH 261 Graphics Seminar **2 credits**
 Supervised application of graphic communications knowledge to specific area of internship.
 Lecture: 2 hours – Lab: 0 hours
 Concurrent: GRPH 260
 Lab fee: \$3.00

GRPH 270 Advanced Black and White Photography (W, SU) **4 credits**
 This course works with small format (35mm) black-and-white film, with emphasis on problem solving and visual communication. This course exposes the student to more extensive use of lighting, filters, films and printing papers. It is required that each student have a 35mm camera with variable shutter speed and aperture as well as a light meter.
 Lecture: 2 hours – Lab: 4 hours
 Prerequisite: GRPH 111
 Lab fee: \$28.00

GRPH 271 Studio Photography (W,SU) 3 credits
This course revolves around the techniques of black-and-white photography under both studio and location conditions using medium and large format cameras. Emphasis is placed on lighting, subject treatment, and camera manipulation.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: GRPH 111 and GRPH 270
Lab fee: \$28.00

GRPH 273 Design II (W) 3 credits
Designed as a follow-up to GRPH 131, this course builds upon basic principles of design and place emphasis on synthesizing solutions drawn from these principles.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: GRPH 131 or permission of instructor
Lab fee: \$10.00

GRPH 278 Photo Lab (A,W,SP,SU) 1 credit
The photo lab provides students currently enrolled in other photography courses the opportunity to enhance their film processing and printing technique skills.
Lecture: 0 hours – Lab: 3 hours
Concurrent: GRPH 111, GRPH 270, GRPH 271 or GRPH 281
Lab fee: \$28.00

GRPH 279 Estimating II (On Demand) 3 credits
A continuation of the study of cost estimating for lithographic printing while introducing work with multi-color presses, signature work, and prepress operations. Provides an understanding of accurate estimating procedures and the opportunity to apply these procedures in a laboratory situation. The use of computer-assisted software is included.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: GRPH 241
Lab fee: \$10.00

GRPH 280 Color Slide Photography (On Demand) 3 credits
This course provides an introduction to the principles of color slide photography with an emphasis on critical control of composition, exposure, and color. Students will not process their film.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: GRPH 111
Lab fee: \$5.00

GRPH 281 Color Photography (A, SP) 3 credits
An introduction to color photography with emphasis on camera work and color printing. Students will examine color theory, color vision, light and color, filtration, color correcting and color balance. Through reading, practice and class discussion, students will learn elements unique to color photography.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: GRPH 111 and GRPH 270
Lab fee: \$28.00

GRPH 282 Electronic Publishing II (SP) 5 credits
This course will provide the student with a comprehensive view of electronic pre-press practices. The class will deal with issues that give the student an understanding of the processes involved when producing high-end graphic publications. The student will receive hands-on training and in a “service bureau” atmosphere.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: GRPH 112, GRPH 122, GRPH 243 and GRPH 251
Lab fee: \$20.00

GRPH 284 Presentation Production (SP) 4 credits
This course provides the student with advanced graphic design and presentation production practices. The student will learn how to produce projects in two- and three-dimensional form. Presentation production

guidelines and production tips will be taught from the view of the designer as well as the person viewing the presentation. Two formal presentations will be required for the completion of this course.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: GRPH 122, and either GRPH 243 or GRPH 251
Lab fee: \$15.00

GRPH 285 Printing Production Management (SP) 4 credits
This course provides an introduction to production management using Hagen OA management information system software. Organizational theory, plant layout, inventory control, wage policies, equipment purchase, control procedures, production standards, hourly rates .
Lecture: 2 hours – Lab: 4 hours
Prerequisite: GRPH 241 and BMGT 111
Lab fee: \$5.00

GRPH 286 Digital Photography 3 credits
This course introduces students to the applications of digital photography. Students will capture images on either digital or film-based cameras, import to a computer, create picture files, manipulate images, and produce prints. Students will learn techniques of enhancing or restoring images with Aldus Photoshop software on a Windows platform.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: GRPH 111 or permission of instructor
Lab fee: \$5.00

GRPH 297, 298, 299 Special Topics in Graphic Communication (On Demand) 1-3 credits
Detailed examination of a selected topic in graphic communications.
Lecture: 1 to 3 hours – Lab: 0 hours

Health Information Management Technology (HIMT)

HIMT 111 Introduction to Health Information Management Tech (A) 2 credits
The student will be introduced to the various roles of the health information management technician within the health care system and professional organizations in which the health information management technician is affiliated. The student will explore the various functions performed under the auspices of health information management and the technology used to perform these functions.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Acceptance into the HIMT program
Concurrent: HIMT 135
Lab fee: \$10.00

HIMT 112 Internet Applications in Health Care (SU - DL) 2 credits
This course will provide the student with hands-on experience navigating on the Internet, using electronic mail, posting resumes electronically, and searching data bases and other library resources on the Internet. The student will also use the Internet as a tool for locating information from professional associations/organizations.
Lecture: 1 hour – Lab: 2 hours
Lab fee: \$15.00

HIMT 113 Managed Care Trends (SU - DL) 2 credits
This course will provide students with an understanding of various issues regarding managed care that have been instrumental in the redesign and remodeling of patient care delivery. Topics discussed include: types of plans, analysis of data to determine effects of managed care, evaluation

of managed care plans, rules and regulations affecting managed care, implementation of plans, and clinical outcomes management.

Lecture: 2 hours – Lab: 0 hours

Lab fee: \$10.00

HIMT 121 Advanced Medical Terminology (A,W,SP,SU - DL)

3 credits

The student will study medical terminology with emphasis placed on anatomic, diagnostic, symptomatic, and pathologic terminology as used in the context of medical documents.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$10.00

HIMT 132 Introduction to Medical Transcription (SP, AU)

2 credits

The student will be introduced to word processing equipment used in the transcription of medical reports. The student will begin to master medical transcription using authentic physician dictations to transcribe various medical reports. Practice in English dictation with an emphasis on accuracy. Strongly suggest typing ability of 35 words per minutes.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: MCT 106, HIMT 121, and HIMT 141

Lab fee: \$35.00

HIMT 133 Legal Aspects of the Health Record (SP) 3 credits

The student will study the policies and procedures for processing health records for legal purposes. The importance of the maintenance of confidentiality of health information (both paper and electronic records and databases), the proper handling of requests for, and the transfer of health information will be discussed.

Lecture: 2 hours – Lab: 2 hours

Lab fee: \$10.00

HIMT 135 Health Data Management (A) 3 credits

The student will be introduced to filing systems as well as the computer-based patient record (CPR). The student will study the policies and procedures required to collect, analyze, interpret, report, and maintain health care data. The student will perform clinical pertinence chart reviews and also be introduced to the internal and external requirements for establishing, operating, and maintaining various registers and registries.

Lecture: 2 hours – Lab: 2 hours

Concurrent: HIMT 111

Lab fee: \$15.00

HIMT 141 Pharmacology for HIMT (W, SU) 3 credits

This course will survey the major classifications of drugs. The indications and contraindications for use will be presented. Emphasis will be placed on the correlation between drug therapy and disease. The student will be required to use various desk references efficiently.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: BIO 121 or (BIO 161 and BIO 169) and HIMT 121

Concurrent: BIO 122 or BIO 170

HIMT 243 Ancillary Health Facilities (SP) 3 credits

The student will study health information systems in non-hospital health care facilities along with the sources of data for these systems and their uses and users. The appropriate technical aspects and functions within these various systems will be discussed along with the various reporting and accrediting requirements for each of the specific health care facilities discussed. Field trips to various health care facilities will be scheduled.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: HIMT 111 and HIMT 135

Lab fee: \$10.00

HIMT 245 ICD-9-CM Coding (A,SP) 5 credits

The student will be introduced to the nomenclature and major classification and indexing systems in ICD-9-CM utilized in coding medical infor-

mation. Laboratory experiences will emphasize the application of the related skills with accuracy and completeness. Other coding systems will be discussed.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: BIO 122 or (BIO 161, BIO 169, and BIO 170) and HIMT 121

Lab fee: \$35.00

HIM1 245 ICD-9-CM Coding- Intro to ICD-9-CM Coding, Module 1 (A,SP) 1 credit

HIM1 245 is the first module of HIMT 245. Combined with subsequent modules, HIM2 245, HIM3 245, and HIM4 245, it is the equivalent of HIMT 245. In this module, students are introduced to basic ICD-9-CM coding guidelines and conventions. Students will be introduced to the Uniform Hospital Discharge Data Set (UHDDS) and use of the medical record as a source document.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: BIO 122 or (BIO 161, BIO 169, and BIO 170) and HIMT 121

Lab fee: \$5.00

HIM2 245 ICD-9-CM Coding – Coding Principles

Part I, Module 2 (A,SP)

1.5 credits

HIM2 245 is the second module of HIMT 245. Combined with HIM1 245 and subsequent modules HIM3 245 and HIM4 245, it is the equivalent of HIMT 245. In this module, students will code from the following areas: V and E codes; symptoms, signs and ill-defined conditions; infectious and parasitic diseases; endocrine, nutritional and metabolic diseases and immunity disorders; mental disorders; diseases of the nervous system and sense organs, respiratory system, digestive system, genitourinary system, and skin and subcutaneous tissue.

Lecture: 1 hour – Lab: 1 hour

Prerequisite: HIM1 245

Lab fee: \$10.00

HIM3 245 ICD-9-CM Coding – Coding Principles

Part II, Module 3 (A,SP)

1.5 credits

HIM3 245 is the third module of HIMT 245. Combined with HIM1 245 and HIM2 245 and the subsequent module HIM4 245, it is the equivalent of HIMT 245. In this module, students will code from the following areas: musculoskeletal system and connective tissue; complications of pregnancy, childbirth, and the puerperium; abortion and ectopic pregnancy; congenital anomalies; perinatal conditions; circulatory system, and neoplasms.

Lecture: 1 hour – Lab: 1 hour

Prerequisite: HIM2 245

Lab fee: \$10.00

HIM4 245 ICD-9-CM Coding – Practical Applications, Module 4 (A,SP) 1 credit

HIM4 245 is the fourth module of HIMT 245. Combined with HIM1 245, HIM2 245, and HIM3 245, it is the equivalent of HIMT 245. In this module, students will gain practical experience coding from case studies and patient medical records.

Lecture: 0 hours – Lab: 2 hour

Prerequisite: HIM3 245

Lab fee: \$10.00

HIMT 255 CPT-4 Coding (W,SU) 5 credits

The student will be introduced to ambulatory coding and payment systems emphasizing CPT-4 coding. Laboratory experiences will emphasize the application of the related skills with accuracy and completeness.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: BIO 122 or (BIO 161, BIO 169, and BIO 170) and HIMT 121

Lab fee: \$35.00

HIM1 255 CPT-4 Coding – Intro to CPT-4 and Evaluation and Management, Module 1 (W,SU) 1.5 credits
HIM1 255 is the first module of HIMT 255. Combined with subsequent modules HIM2 255, HIM3 255, and HIM4 255, it is the equivalent of HIMT 255. In this module, students are introduced to basic CPT-4 coding guidelines and Evaluation and Management coding.
Lecture: 1 hour – Lab: 1 hour
Prerequisite: BIO 122 or (BIO 161, BIO 169, and BIO 170) and HIMT 121
Lab fee: \$10.00

HIM2 255 CPT-4 Coding – Surgical Coding, Module 2 (W,SU) 1.5 credits
HIM2 255 is the second module of HIMT 255. Combined with HIM1 255 and subsequent modules HIM3 255 and HIM4 255, it is the equivalent to HIMT 255. In this module, students are introduced to surgical coding.
Lecture: 1 hour – Lab: 1 hour
Prerequisite: HIM1 255
Lab fee: \$10.00

HIM3 255 CPT-4 Coding – Ancillary Coding/Modifiers, Module 3 (W,SU) 1 credit
HIM3 255 is the third module of HIMT 255. Combined with HIM1 255, HIM2 255 and subsequent module HIM4 255, it is the equivalent of HIMT 255. In this module, students are introduced to ancillary coding and modifiers.
Lecture: 1 hour – Lab: 0 hours
Prerequisite: HIM2 255
Lab fee: \$5.00

HIM4 255 CPT-4 Coding – Practical Applications, Module 4 (W,SU) 1 credit
HIM4 255 is the fourth module of HIMT 255. Combined with HIM1 255, HIM2 255, and HIM3 255, it is the equivalent of HIMT 255. In this module, students will gain practical experience from coding case studies and patient medical records.
Lecture: 0 hours – Lab: 2 hour
Prerequisite: HIM3 255
Lab fee: \$10.00

HIMT 256 Clinical Data Analysis (W) 3 credits
The student will apply clinical knowledge as it pertains to health care data management in coding for reimbursement of health care services, the evaluation of practice patterns, the assessment of clinical outcomes, and the analysis of cost-effectiveness of services provided.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: HIMT 121
Concurrent: BIO 122 or BIO 170 and HIMT 141

HIMT 257 Introduction to Health Statistics (SP) 3 credits
The student is introduced to procedures for properly collecting, organizing, displaying, and interpreting health care data to meet the needs of various users while complying with the standards of the health care facility. The users of data can include: the patient, medical staff, nursing and allied health staff, state and federal regulatory agencies, JCAHO, and insurance companies.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: MCT 106 and HIMT 135
Lab fee: \$5.00

HIMT 259 Quality and Resource Management (A) 3 credits
The student will be introduced to the internal and external requirements for establishing, operating, and maintaining quality improvement and utilization management programs. Methods used in bench marking, credentialing, critical pathways, monitoring and evaluation, occurrence

screening, peer review, and risk management will also be discussed.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: MCT 106 and HIMT 257
Lab fee: \$5.00

HIMT 265 Medical Reimbursement (A) 3 credits
Students are introduced to basic terminology regarding medical insurance and how coding systems used in outpatient and inpatient health care settings are used to obtain payment for health care services. A discussion of various third party payers will be presented as well as reimbursement methodologies used by these payers. Students are introduced to claims processing in the physicians' office setting. Topics discussed include: HCFA 1500, and office procedures for posting payments and claims follow-up.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$35.00

HIM1 265 Medical Reimbursement, Module 1 (A) 1 credit
HIM1 265 is the first module of HIMT 265. Combined with the subsequent module, HIM2 265, it is the equivalent of HIMT 265. In this module, students are introduced to basic terminology regarding medical insurance and how coding systems used in outpatient and inpatient health care settings are used to obtain payment for health care services. A discussion of various third party payers will be presented as well as reimbursement methodologies used by these payers.
Lecture: 1 hour – Lab: 0 hours
Lab fee: \$10.00

HIM2 265 Medical Reimbursement, Module 2 (A) 2 credits
HIM2 265 is the second module of HIMT 265. Combined with HIM1 265, it is the equivalent of HIMT 265. In this module, students are introduced to claims processing in the physicians' office setting. Topics discussed include: completion of the HCFA 1500, and office procedures for posting payments and claims follow-up.
Lecture: 1 hour – Lab: 2 hour
Prerequisite: HIM1 265
Lab fee: \$25.00

HIMT 267 Principles of Management (WI) 3 credits
The student will be introduced to the functions related to planning, organizing, controlling, and evaluating human resources and health information management services. Other topics include the direction and documentation necessary for the supervision of personnel.
Lecture: 3 hours – Lab: 0 hours

HIMT 270 Certified Case Manager (W -DL) 4 credits
This course is designed to provide a review for students enrolled in the HIMT or practicing health care professionals and administrators/managers who wish to become certified as a case managers through the Commission for Case Manager Certification. The five major areas of discussion include: coordination and service delivery, physical and psychological factors, benefit systems and cost benefits analysis, case management concepts, and community resources.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: HIMT 243 and HIMT 259 or permission from the instructor

HIMT 272 Advanced Medical Transcription Lab (SU) 4 credits
The student will receive extensive practice of transcribing operative reports, diagnostic procedures, surgical discharge summaries, radiology, and pathology reports along with other medical reports. Topics discussed include: equipment, home-based transcription, outsourcing, and other management issues relating to medical transcription.
Lecture: 1 hour – Lab: 6 hours
Prerequisite: HIMT 132
Lab fee: \$35.00

HIMT 273 Medical Transcription Practicum (AU) 2 credits
The student is assigned to a facility to gain practical experience in the area of medical transcription. The student will obtain exposure to actual working conditions and equipment at the assigned facility. Emphasis of the practicum will be the actual transcribing experience.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: Successful completion of the coursework in the Medical Transcription Certificate. Successful completion of pre-practicum competency examination.

HIMT 274 Issues in Health Information Management Technology (WI) 2 credits
This special topics course is designed to provide presentation of topics pertinent to current trends in the health information management field.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Varies with topic offered.

HIMT 275 Intermediate Coding (W) 2 credits
This course provides the students with continued experience in ICD-9-CM and CPT-4 Coding. An emphasis is placed on practical applications of professional coders. The students will code from case studies and patient medical records and participate in group discussions regarding code assignment and reimbursement issues.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: HIMT 245, HIMT 255, HIMT 256, and HIMT 265
Lab fee: \$35.00

HIMT 276 Medical Coding Practicum (W) 2 credits
The student is assigned to a facility to gain practical experience in the area of medical coding/reimbursement. The student will obtain exposure to actual working conditions at the assigned facility. Emphasis of the practicum will be the actual coding experience.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: HIMT 245, HIMT 255, and HIMT 265
Concurrent: HIMT 275

HIMT 291 Health Information Management Seminar (W) 3 credits
Group discussion of clinical experiences and analysis of the components of health information management services. Discussion of current trends, technology, and issues affecting the health information management profession. Preparation for the national certification exam.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: HIMT 111, HIMT 133, HIMT 135, HIMT 243, HIMT 245, HIMT 255, HIMT 256, HIMT 257, HIMT 259, HIMT 265, HIMT 267 or permission from the instructor.
Concurrent: HIMT 296
Lab fee: \$5.00

HIMT 292 Clinical Practicum I (SU) 2 credits
Students are assigned to area health care facilities to work under the supervision of facility personnel. Students will obtain exposure to actual working conditions and gain experience in various aspects of health information management services.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: MCT 106, HIMT 111, HIMT 133, HIMT 135, and completed health statement
Concurrent: HIMT 245 or HIMT 255

HIMT 294 Clinical Practicum II (A) 2 credits
Students are provided with practical applications of the knowledge and environment.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: HIMT 257 and HIMT 292
Concurrent: HIMT 259 and HIMT 245 or HIMT 255

HIMT 296 Clinical Practicum III (W) 2 credits
Continued clinical experience in health information services.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: HIMT 294

Heating Ventilating & Air Conditioning Technology (HAC)

HAC 141 Principles of Refrigeration (A,W,SU) 4 credits
A basic refrigeration cycle theory course covering heat thermodynamics, temperature - pressure relationships, mechanical operations of refrigeration equipment and representative application and selection data for class I refrigerants.
Lecture: 3 hours – Lab: 3 hours
Lab fee: \$10.00

HAC 152 Instrumentation/Combustion Process (A,SP,SU) 4 credits
A course about basic combustion processes using all the fossil fuels and psychrometric chart work to track the thermal heat transfer. The instruments used to test these processes will also be explained along with the fan laws and psychrometric chart procedures. Instruments used in energy auditing are then explained and preventative maintenance programs written.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$15.00

HAC 161 Hand Tools Laboratory (W,SP,SU) 4 credits
An entry-level course building elementary skills in brazing, soldering, threading, cutting, swaging, and other skills that relate to service, installation and maintenance processes in the HAC field. Basic hand tools and meters will be demonstrated and used in lab exercises.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$15.00

HAC 183 HAC Wiring Circuits I (A,W,SP) 4 credits
This course is designed to teach a new student how to read, draw, interpret and understand residential heating and cooling wiring diagram symbols, devices and wire size identification, basic circuit distribution concepts and schematic applications of same.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$10.00

HAC 222 Load Calculations I (A, W, SP,SU) 4 credits
This course is a comprehensive study of the fundamentals of environmental conditioning, energy consumption and operating cost analysis, the properties of air, insulation materials, heat loss and gain calculations, to include the methods of air-conditioning, heating and ventilation. Load calculations will be performed using the applicable ACCA manuals and the Right-J, Windows Version 2, computer software program.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: MATH 102
Lab fee: \$12.00

HAC 231 Load Calculations II (A,W) 4 credits
A course covering commercial heat gain/loss calculations, design of systems, and selection of equipment. The systems used in commercial applications will be discussed and compared, along with correct balancing procedures. The factor of sound as it applies to these types of systems will also be included. This course is one of six that prepares the student to take the HAC Contractor's License Exam.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: HAC 222
Lab fee: \$12.00

HAC 235 Field Co-Op Experience (SU) 4 credits
Off-campus work experience in construction, consulting engineering or construction related paid employment, that augments formal education received in the technology with actual work conditions and job experience. "N" credit will not be allowed for this course.
Lecture: 0 hours – Lab: 40 hours
Prerequisite: CMGT 290 and permission of instructor
Lab fee: \$15.00

HAC 242 HAC Mechanical Standards/Safety (W,SP) 3 credits
A basic introduction to HAC safety considerations, first aid, and CPR as well as emergency procedures for on-the-job accidents. An introduction to the various codes that effect the workplace and jobsite, such as OSHA, NFPA, state and local building codes. NEC, energy codes and ASHRAE standards will also be covered.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: ARCH 116, HAC 141 and HAC 152
Lab fee:\$12.00

HAC 243 Air Conditioning Systems (SP,SU) 4 credits
A course designed for the student with a fundamental knowledge of the refrigeration cycle. Previous training in refrigeration theory, wiring diagrams, control circuits, and tools used in the trade are necessary to enroll in this course. The course is designed around hands-on training and testing of the various component parts of a vapor compression split system.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: ARCH 116, HAC 141, HAC 161, HAC 183 and HAC 253
Lab fee: \$20.00

HAC 244 Heat Pump Systems (A,W,SP) 4 credits
A course designed for the student with a fundamental knowledge of the air conditioning and heating processes. Previous training in refrigeration cycle, wiring diagrams, control circuits, and tools used in the trade are necessary to enroll in this course. The course is structured around hands-on training on the various component parts of an air cycle heat pump system.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: ARCH 116, HAC 141, HAC 161, HAC 183 and HAC 253
Lab fee: \$20.00

HAC 253 Automatic Controls I (A,W) 3 credits
A course introducing HAC residential and light commercial control systems and the components that make up the systems. Emphasis will be placed on operators, sensors, controllers and various pneumatic and electrical devices used in modern control systems along with the logic used to develop their control sequences.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: HAC 141, HAC 152 and HAC 183
Lab fee: \$20.00

HAC 254 Heating Systems (A,W) 4 credits
A course designed for the student with a fundamental knowledge of heat transfer characteristics and air movement properties. The course is designed around hands-on training and testing of the various component parts and accessories that make up gas, electric and fuel oil type forced air furnaces, along with accessories such as humidifiers, air filtration systems, and set-back thermostats.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: HAC 152, HAC 161 and HAC 183
Lab fee: \$20.00

HAC 256 Automatic Controls II (W,SP) 3 credits
A hands-on laboratory course designed to build practical understanding of control circuit logic and sequence of operation theory. Representative circuits from major environmental control devices employing various

forms of energy will be included in the lab exercises.
Lecture: 1 hours – Lab: 5 hours
Prerequisite: HAC 253
Lab fee: \$15.00

HAC 258 Pneumatic Controls I (SP) 4 credits
This course is designed to take a senior level HAC student and teach him/her the fundamentals, installation practices and common application parameters of representative pneumatic controls systems.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: HAC 152
Lab fee: \$15.00

HAC 263 Energy Management (W,SP) 3 credits
An overview of the world energy supply with both renewable and nonrenewable types being investigated. Attention will be given to building energy control systems/equipment and survey/calculation techniques. Analysis and decision making of energy policy along with computer simulations, conservation measures and systems will be utilized to conserve energy. A glossary of EM terms will be assigned.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: HAC 152 and HAC 231
Lab fee: \$15.00

HAC 266 Advanced Problems (A,W,SP,SU) 4 credits
A simulation that will allow the student to use their educational knowledge in a problem or problems that emphasizes the design or practical service aspects of a heating and cooling system. The instructor will need to give prior approval of the project or projects to be completed by the student. A tutorial course form must be completed by the student.
Lecture: 0 hours – Lab: 8 hours
Prerequisite: Permission of instructor
Lab fee: \$8.00

HAC 284 HAC Wiring Circuits II (W,SP) 4 credits
This course will concentrate on lab experiments designed to teach a student how to properly wire up typical heating and cooling devices into working circuits. Devices such as motors, controllers, contactors, compressors and safety devices will be covered.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: HAC 183
Lab fee: \$15.00

HAC 285 HAC Electronic Controls I (A) 4 credits
This course uses basic electronic knowledge from EET 101 and EET 102, plus electrical knowledge from HAC 183 and HAC 284 to build a basic understanding of HAC solid state computer controls. This theory course will cover controllers, sensors, relays and HAC electronic operational devices.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: EET 102 and HAC 284
Lab fee: \$10.00

HAC 287 Boiler Systems (W) 4 credits
This course uses basic combustion knowledge from HAC 152 and piping system knowledge from ARCH 116, along with codes from course HAC 242 to build a basic understanding of boiler types, systems, safety procedures and codes that will prepare a person to take the High Pressure Boiler License Examination.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: ARCH 116, HAC 152 and HAC 253
Lab fee: \$10.00

HAC 288 Ammonia Systems (A) 4 credits
This course uses basic piping knowledge from ARCH 116, refrigeration cycle theory from HAC 141, codes from HAC 242 and control knowl-

edge from HAC 253 to build a basic understanding of the operational theory and safe operating practices for an industrial Class II ammonia refrigeration system. Entering students should have HAC 161 course content or proficiency credit before enrolling in this class

Lecture: 3 hours – Lab: 2 hours

Prerequisite: ARCH 116, HAC 141, HAC 242 and HAC 253

Lab fee: \$10.00

HAC 299 Special Topics in Heating and Air Conditioning (On Demand)

1 - 5 credits

A refresher maintenance training class covering refrigeration systems, mechanical tools and methods, heating and boilers, electrical, air handling and ventilation, controls and safety. Please see your advisor before scheduling for this course.

Lecture: varies hours – Lab: varies hours (depends upon topic)

History (HIST)

HIST 290 Capstone Experience in History (On Demand)

3 credits

A capstone course focusing on History. Students will work on developing techniques and methodologies in the field of History. Students will apply these techniques to a project of their own design, and participate in summative testing of their academic skills.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Open only to AA and AS students preparing to graduate within 2 academic quarters

Lab fee: \$10.00

Hospitality Management Technology

Dietetic Technician Major (DIET)

DIET 191 Dietetic Technician Practicum I (A)

1.5 credits

Practical application of information presented in the classroom from MLT 100, HOSP 102 and HOSP 122 to related healthcare facilities. Skills are developed through supervised learning situations to understand the organizational structure of healthcare facilities and the regulations that pertain, to define the roles of dietetic practitioners, and to maintain and evaluate standards of sanitation and safety.

Lecture: 1 hour – Lab: 3.5 hours

Concurrent: MLT 100, HOSP 102, and HOSP 122

Lab fee: \$55.00

DIET 192 Dietetic Technician Practicum II (W)

2 credits

Practical application of information presented in the classroom from HOSP 107 and HOSP 109 in related healthcare facilities. Skills are developed through supervised learning situations to operate and maintain foodservice equipment, to assist in food production and service, and to maintain food quality and portion control.

Lecture: 1 hour – Lab: 7 hours

Prerequisite: DIET 191 with a grade of “C” or higher

Concurrent: HOSP 107 and HOSP 109

Lab fee: \$20.00

DIET 193 Dietetic Technician Practicum III (SP)

2 credits

Practical application of information presented in the classroom from HOSP 121, HOSP 123 and HOSP 153 in related healthcare facilities. Skills are developed through supervised learning situations to procure and store

food, supplies, and equipment, to calculate food costs, to participate in quantity food production, to develop and/or test products, and to provide for the nutritional needs of customers.

Lecture: 1 hour – Lab: 7 hours

Prerequisite: DIET 192 with a grade of “C” or higher

Concurrent: HOSP 121, HOSP 123 and HOSP 153

Lab fee: \$15.00

DIET 265 Dietetic Technician Seminar (SP)

1 credit

An in-depth study of recent developments and areas of concern related to providing nutrition care. Each student will select a nutrition topic of current concern, write a research paper and present an oral report. Information about professional organizations and the ethical practice of dietetics will be discussed. A written exam to assess knowledge attained throughout the seven quarter program will be administered. A grade of “C” or higher is required for graduation.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: DIET 298

Concurrent: DIET 299 and HOSP 219

Lab fee: \$2.00

DIET 275 Medical Nutrition Therapy I (A)

5 credits

An introduction to the study of nutritional assessment, diet modification, and nutritional care plans. The rationale for nutritional intervention and related medical conditions and terminology is presented. Calorie controlled and consistency and nutrient modified diets for a variety of medical and/or lifecycle-related conditions are studied. The student will identify and utilize appropriate nutritional assessment tools and techniques for specific medical and/or lifecycle-related conditions. The student will plan, prepare and/or evaluate menus, meal plans, meals, and nutritional supplements related to these diet modifications.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: HOSP 153 with a grade of “C” or higher

Concurrent or prerequisite: BIO 169 or BIO 122

Lab fee: \$10.00

DIET 276 Medical Nutrition Therapy II (W)

5 credits

A continuation of the study of nutritional assessment, diet modification, and nutritional care plans. The rationale for nutritional intervention and related medical conditions and terminology is presented. Calorie and protein supplemented and nutrient modified diets for a variety of medical conditions are studied. The student will identify and utilize appropriate nutritional assessment tools and techniques for specific medical conditions. The student will plan, prepare and/or evaluate menus, meal plans, meals, and nutritional supplements related to these diet modifications.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: DIET 275 with a grade of “C” or higher

Lab fee: \$10.00

DIET 297 Dietetic Technician Practicum IV (A)

3 credits

Practical application of information presented in the classroom from HOSP 153 and DIET 275 in community health programs. Skills are developed through supervised learning situations to understand the services offered by community based organizations, to develop the ability to utilize their services, to meet and serve clients, to obtain and evaluate nutritional data from individuals, and to establish good working relationships with clients and other personnel.

Lecture: 2 hours – Lab: 7 hours

Prerequisite: DIET 193 with a grade of “C” or higher

Concurrent: DIET 275 and HOSP 225

Lab fee: \$45.00

DIET 298 Dietetic Technician Practicum V (W)

2 credits

Practical application of information presented in the classroom from HOSP 225, DIET 275 and DIET 276 to clients in related healthcare facilities. Skills are developed through supervised learning situations to interview clients, to evaluate nutritional data collected, to understand the rationale

for dietary modification for nutrient and consistency modification, to understand associated medical terminology and to assist in the planning, preparation and service of modified diet meals.

Lecture: 1 hour – Lab: 7 hours

Prerequisite: DIET 297 with a grade of “C” or higher

Concurrent: DIET 276

Lab fee: \$10.00

DIET 299 Dietetic Technician Practicum VI (SP)

2.5 credits

Practical application of information presented in the classroom from all technical courses to clients in related health care facilities. Opportunities are provided through supervised learning situations to demonstrate proficiency in client interviewing, to evaluate nutritional data, to understand associated medical terminology and the rationale for dietary intervention, and to assist in the planning, preparation and service of modified diet meals. A grade of “C” or higher is required for graduation.

Lecture: 1 hour – Lab: 10.5 hours

Prerequisite: DIET 276 and DIET 298 with a grade of “C” or higher

Lab fee: \$10.00

Dietary Manager (DMGR)

DMGR 101 Dietary Manager Seminar I (A) 4 credits

A study of the types of healthcare facilities, typical healthcare organizational structures, and roles of the dietary team members. Regulations and how they affect food service in healthcare facilities are examined. Foodservice safety and sanitation principles, utilization and care of equipment, and food preparation and purchasing are studied. A grade of “C” or higher is required.

Lecture: 4 hours - Lab: 0 hours

Concurrent: DMGR 194 and employment in a healthcare facility with a qualified preceptor on the staff

DMGR 102 Dietary Manager Seminar II (W) 4 credits

A study of the principles for planning menus to meet the nutritional needs of people in healthcare operations. Nutrient requirements, functions and sources of nutrients, and digestion and absorption of food are studied. Diet modification for a variety of health conditions is studied. Methods and records used to gather data, to determine food needs and preferences, to establish care plans and to do charting are presented.

Lecture: 4 hours - Lab: 0 hours

Prerequisite: DMGR 101 with a grade of “C” or higher

Concurrent: DMGR 195 and employment in a healthcare facility with a qualified preceptor on the staff

DMGR 103 Dietary Manager Seminar III (SP) 4 credits

An explanation of methods and records used in procurement, receiving, and storage of food and related items. Control measures for maintaining quality, quantity, and cost of food production are discussed. Management principles, employee development and supervisory characteristics are discussed. Facility evaluation and planning for improvements are presented.

Lecture: 4 hours - Lab: 0 hours

Prerequisite: DMGR 102 with a grade of “C” or higher

Concurrent: DMGR 196 and employment in a healthcare facility with a qualified preceptor on the staff

DMGR 194 Dietary Manager Cooperative Work Experience I (A) 2 credits

Supervised work related learning experiences to be performed on the job following material presented in the classroom from DMGR 101.

Lecture: 0 hours - Lab: 20 hours

Prerequisite: Employment in a healthcare facility with a qualified preceptor on the staff

Concurrent: DMGR 101

Lab fee: \$12.00

DMGR 195 Dietary Manager Cooperative Work

Experience II (W) 2 credits

Supervised work related learning experiences to be performed on the job following materials presented in the classroom from DMGR 102.

Lab: 20 hours

Prerequisite: DMGR 194 with a grade of “C” or higher, and employment in a healthcare facility with a qualified preceptor on the staff

Concurrent: DMGR 102

Lab fee: \$12.00

DMGR 196 Dietary Manager Cooperative Work

Experience III (SP) 2 credits

Supervised work related learning experiences to be performed on the job following materials presented in the classroom from DMGR 103.

Lab: 20 hours

Prerequisite: DMGR 195 with a grade of “C” or higher, and employment in a healthcare facility with a qualified preceptor on the staff

Concurrent: DMGR 103

Lab fee: \$12.00

Hospitality Management (HOSP)

HOSP 101 Survey of the Hospitality/Tourism

Industry (A,W,SP,SU) 3 credits

A comprehensive look at the fascinating and challenging related fields in the hospitality industry: travel and tourism, lodging, food service, meeting, conventions and expositions, leisure and recreation. Customer service is emphasized, while guest speakers, field trips, and study of trade publications provide information on industry trends and career opportunities.

Lecture: 3 hours - Lab: 0 hours

HOSP 102 Foodservice Equipment (A,W,SP) 2 credits

A laboratory course in which students will learn to operate, clean, and describe preventive maintenance of commercial foodservice equipment. Construction features required by the National Sanitation Foundation, and American Gas Association and Underwriter’s Laboratories requirements will be emphasized. Appropriate uses for equipment and general principles of equipment layout for safety, sanitation, and efficiency will be discussed.

Lecture: 1 hour – Lab: 2 hours

Lab fee: \$17.00

HOSP 106 Food Laboratory I (W,SU) 3 credits

A laboratory course for chef apprentices. The course includes introduction to basic laboratory skills and basic preparation of vegetables, salads, breakfast items, dairy products, fruits, meats, seafood and poultry. Students will develop recipes and requisition, prepare and evaluate foods.

Lecture: 1 hour – Lab: 4 hours

Prerequisite: HOSP 102, HOSP 107 and HOSP 122

Lab fee: \$60.00

HOSP 107 Food Principles (A,W,SP-DL) 5 credits

A course in basic food preparation including the terminology and definitions used and the scientific principles involved in preparing food products. The course includes a detailed study of the principles of preparation and selection criteria for all categories of foods served in foodservice operations.

Lecture: 5 hours- Lab: 0 hours

Lab fee: \$5.00

HOSP 109 Food Production (W) 3 credits

A laboratory course in which students will produce and serve marketable food products according to standardized recipes using food production equipment in a commercial kitchen environment. The products will be served in a cafeteria and in a dining room setting. The principles of sani-

tation and safety will be applied.
Lecture: 1 hour – Lab: 7 hours
Prerequisite: HOSP 102 and HOSP 122
Concurrent: HOSP 107
Lab fee: \$60.00

HOSP 121 Hospitality Industry Computer Applications (A,W,SP,SU) 2 credits
A course designed to apply the basic skills acquired in PC Applications I to hospitality operations. Hands-on lab experience expands the student's knowledge of basic business applications as they apply to hospitality operations using word processing, spreadsheet and data base management software, specialized application software packages, powerpoint, and internet sites.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: CPT 101 or permission of instructor
Lab fee: \$15.00

HOSP 122 Hospitality Safety and Sanitation (A,W,SP,SU) 3 credits
A detailed study of the HACCP (Hazard Analysis Critical Control Points) procedures which includes the control of bacteria, materials handling, and safety practices to maintain a safe and healthy environment for the consumer in the food and lodging industry. Examination of laws and regulations related to safety, fire, and sanitation and the role of the health department. Upon successful completion of an examination from the National Restaurant Association Educational Foundation, students will receive certificates from the Educational Foundation and the Ohio Department of Health.
Lecture: 3 hours - Lab: 0 hours
Lab fee: \$4.00

HOSP 123 Food Purchasing (A,SP) 3 credits
Provides a working knowledge of procurement methods and procedures and record keeping (manual methods and computer applications) when purchasing, receiving, and storing food, equipment and non-food supplies. Special emphasis is given to writing specifications, determining order quantities, evaluating product quality, and selecting suppliers. Field trips allow the student to see food processing operations and wholesale food markets.
Lecture: 3 hours - Lab: 0 hours
Prerequisite: HOSP 107 and placement in DEV 031
Lab fee: \$5.00

HOSP 143 Hospitality and Travel Law (A,SP) 3 credits
Provides a general knowledge of the law as it applies to the hospitality and tourism industry.
Lecture: 3 hours - Lab: 0 hours
Lab fee: \$3.00

HOSP 145 Lodging Operations (W,SP) 5 credits
This course provides students with a basic understanding of the lodging industry. It covers the activities of various hotel operating departments: front office, housekeeping, food and beverage, hotel purchasing, marketing, yield management, engineering, security, and hotel accounting. Emphasis will be placed on guest satisfaction.
Lecture: 4 hours – Lab: 2 hours
Lab fee: \$25.00

HOSP 153 Nutrition for a Healthy Lifestyle (A,W,SP,SU - DL) 5 credits
A study of the role of nutrition in establishing, promoting and maintaining good health. The composition and functions of foods, nutrition needs throughout the life cycle, and contemporary nutrition concerns are included in the course.
Lecture: 5 hours- Lab: 0 hours
Prerequisite: Placement into ENGL 101 and DEV 031
Lab fee: \$5.00

HOSP 154 Destination Geography (A, SP) 5 credits
Geographical and cultural study of all major regions of the world with emphasis on the most popular travel destinations. Includes lodging, points of interest, customer profile and transportation types for each destination.
Lecture: 5 hours- Lab: 0 hours
Lab fee: \$5.00

HOSP 157 Travel and Tourism Operations (,W, SP) 5 credits
This course provides students with a basic understanding of the travel and tourism industry. Travel agency operations are covered, with students using a variety of reference materials to develop air and rail itineraries, reserve cars and hotels, calculate fares, and create tours and cruises. Government agencies and organizations that affect the industry are described. Also included is a framework for the development of tourism in the community and region.
Lecture: 4 hours – Lab: 2 hours
Prerequisite: HOSP 154 or permission of instructor
Lab fee: \$25.00

HOSP 203 Beverage Management (,W,SU) 3 credits
Classification, history and control of beer, wines and spirits. Covers Ohio liquor and legal regulations, inventory control, liquor dispensing systems, cash control, drink merchandising and alcohol responsibility. The art of mixology and wine and food affinity.
Lecture: 3 hours - Lab: 0 hours
Lab fee: \$20.00

HOSP 205 Records and Cost Control (A,W,SU) 4 credits
Covers the principles and procedures involved in an effective system of food, beverage, labor and sales control. Emphasizes development and use of standards and calculation of actual costs.
Prerequisite: ACCT 106
Lecture: 4 hours

HOSP 216 Food Laboratory II (W,SP) 3 credits
A laboratory course to follow Food Laboratory I for chef apprentices. The course includes preparation of stocks, soups, sauces, vegetables, and fruits. Also includes butchery, fish fileting, and poultry de-boning. Students will develop recipes, plan menus, requisition food, and prepare and serve large quantity meal functions.
Lecture: 1 hour – Lab: 4 hours
Prerequisite: HOSP 106 and HOSP 107
Lab fee: \$60.00

HOSP 217 Garde Manger (A,SP) 3 credits
A laboratory course including preparation of cold food items commonly produced in a garde manger station. Students will prepare garnitures, appetizers, salads, pates, terrines, galantines and cold sauces as well as be introduced to specialty work in ice carving, tallow and salt dough. Buffet presentation and culinary show guidelines are covered.
Lecture: 1 hour – Lab: 4 hours
Prerequisite: Registered Chef Apprentice or permission of instructor
Lab fee: \$40.00

HOSP 218 Fundamentals of Baking (W,SU) 3 credits
Includes the fundamentals of baking and functions of ingredients with production of baked goods and dessert specialties. Proper use and care of equipment and hygenic work habits are emphasized.
Lecture: 1 hour – Lab: 4 hours
Prerequisite: Registered Chef Apprentice or permission of instructor
Lab fee: \$50.00

HOSP 219 Food Production Management (SP) 4 credits
A laboratory course in the final quarter of the student's curriculum in which application of foodservice management will occur in a simulated restaurant. Students will serve the public to gain experience in various managerial positions in the front and back of the house while supervising

student work groups. A grade of “C” or higher is required for graduation.
Lecture: 1 hour – Lab: 8 hours
Prerequisite: Final quarter or permission of instructor.
Lab fee: \$60.00

HOSP 224 Hospitality Supervision and Quality Management (W,SU) 5 credits

Supervisory techniques applied specifically to hospitality and travel operations. A study of organizational structure, performance standards, employee application forms, and interviewing techniques used for the selection of employees. Improving communication and job performance with the development of orientation and training programs, and employee appraisal techniques. A grade of “C” or higher is required for graduation.
Lecture: 5 hours - Lab: 0 hours
Prerequisite: BMGT 102
Lab fee: \$5.00

HOSP 225 Menu Development (A,SP) 3 credits

Principles of menu planning for a variety of foodservice operations. Includes merchandising techniques, layout and design, and pricing strategies. Consideration is given to food selection; nutritional requirements; food, labor, and other costs; equipment utilization, and computer applications.
Lecture: 3 hours - Lab: 0 hours
Prerequisite: HOSP 153 and HOSP 107
Lab fee: \$5.00

HOSP 246 Hospitality Sales and Marketing (A,SP) 3 credits

Covers selling theory, including all phases of the selling process, from initial contact to closing the sale in a variety of hospitality and tourism settings. Includes the basic knowledge and skills necessary to work within a hospitality or tourism organization’s marketing plan.
Lecture: 3 hours - Lab: 0 hours
Lab fee: \$5.00

HOSP 257 Computer Reservations Systems (A, SP) 3 credits

This course is designed to combine student reading materials with hands-on computer experience. Students will develop skills in the utilization of airline computer reservation systems (namely, American Airlines’ SABRE CRS) to make car, lodging, and airline reservations.
Lecture: 1 hour – Lab: 5 hours
Prerequisite: HOSP 157 and OADM 131 or equivalent competence
Lab fee: \$75.00

HOSP 271 Meeting Planning & Catering Services (W,SU) 3 credits

Principles of and practice experiences in meeting planning and catered functions. Students will plan, organize, execute and evaluate meeting and catering functions to meet the needs of clients and guests. Emphasis is placed on how customer satisfaction is measured.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: HOSP 122 and ENGL 101
Lab fee: \$20.00

HOSP 286 Apprenticeship Final Project (SU,W) 2 credits

A capstone course required for students registered in the three year American Culinary Federation National Apprenticeship Training Program. Preparation for and completion of national practical and written examinations. Evaluation of 6000 hours on-the-job training and documentation of completion of all required training objectives.
Lecture: 2 hours - Lab: 0 hours
Prerequisite: HOSP 295
Lab fee: \$50.00

HOSP 293 Hospitality Cooperative Work Experience I (A,W,SP,SU) 3 credits
Work experience in the hospitality/tourism industry. A minimum of 200 hours will be spent in cooperative work experience, with one classroom hour per week in an on-campus seminar.
Lecture: 1 hour – Lab: 20 hours
Lab fee: \$10.00

HOSP 294 Hospitality Cooperative Work Experience II (A,W,SP,SU) 3 credits
A continuation of HOSP 293. Work experience in the hospitality/tourism industry. A minimum of 200 hours will be spent in cooperative work experience, with one classroom hour per week in an on-campus seminar.
Lecture: 1 hour – Lab: 20 hours
Prerequisite: HOSP 293 or concurrent
Lab fee: \$10.00

HOSP 295 Hospitality Cooperative Work Experience III (A,SP) 3 credits
A continuation of HOSP 293 and HOSP 294 required for third year chef apprentices. On-the-job training in the foodservice industry following guidelines of the American Culinary Federation National Apprenticeship Training Program for Cooks. One classroom hour per week will be spent in an on-campus seminar.
Lecture: 1 hour – Lab: 20 hours
Prerequisite: HOSP 294 and Chef Apprenticeship major
Lab fee: \$70.00

Human Resources Management Technology (HRM)

HRM 121 Human Resources Management (A,W,SP,SU - DL) 4 credits
An introductory course in Human Resources Management, including the philosophy, principles, and legal aspects of human resources management; and the roles of the manager and the human resources professional/department in this management function. The course focuses on the laws governing policy making, recruiting, selection, training, evaluation, wage and salary administration, benefit programs, representation and safety; and the employer’s obligations and the employee’s rights under these laws. Students use the Internet to research human resources issues. *Distance Learning Students* Course content is provided on rental audio lecture tapes obtained from the ERC with paid fee receipt. Other course materials are provided in a packet mailed prior to the beginning of the quarter, and graded assignments are returned via mail. The fees for the rental audio tapes and course mailings are included in the Distance Learning Lab fee.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: BMGT 111 or LAWE 252 (Law Enforcement students only) or BMGT 218 (Logistics students only), and ENGL 102.
Lab fee: \$10.00
Distance Learning Lab fee: \$40.00

HRM 122 Human Resource Policy and Procedure Writing (W,SU) 4 credits
The course provides an in-depth study of employment law, the recruiting process, and the selection process; a review of business grammar through the use of a programmed learning text; a transition from “term paper writing” to formal policy writing; and the application of employment law, business grammar, and policy writing skills through the development of an employment policy, procedure, and an employee handbook summary of the policy. The course is offered at night Winter Quarters and during

the day Summer Quarters.

Lecture: 2 hours – Lab: 5 hours

Prerequisite: HRM 121, MCT 106, and ENGL 102.

Lab fee: \$10.00

HRM 124 Personnel Interviewing (A,W,SP,SU) 4 credits

The course provides an in-depth study of the legal aspects of interviewing, the various types of interviews conducted in business, and interviewing techniques. Students participate, as both an interviewer and an interviewee, in selection, counseling, disciplinary, exit, and performance appraisal interview simulations. Interviewing techniques and skills are evaluated using videotape playback.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: HRM 121 (BMGT and HRM Technology students only) and COMM 105 or COMM 110.

Lab fee: \$10.00

HRM 220 Labor Relations (A,W,SP,SU - DL) 5 credits

The course provides a study of labor relations including: the history of the labor movement, the legislative history, and in-depth study of the four major pieces of private sector collective bargaining legislation; a discussion of the State of Ohio collective bargaining law; and the union organizing process and management responses, the collective bargaining process, the grievance process, the arbitration process, and the differences in these processes in the public and private sectors. Students participate, as members of labor and management teams, in contract negotiations, third step grievance meeting, and grievance arbitration simulations. *Distance Learning Students* Course content is provided on rental audio lecture tapes obtained from the ERC with paid fee receipt. Other course materials are provided in a packet mailed prior to the beginning of the quarter, and graded assignments are returned via mail. The fees for the rental audio tapes and course mailings are included in the Distance Learning Lab fee.

Lecture: 3 hours – Lab 4 hours

Prerequisite: HRM 122 and MATH 101 or MATH 103.

Lab fee: \$10.00

Distance Learning Lab fee: \$40.00

HRM 221 Staffing Under the Law (A,SP) 5 credits

The course provides an in-depth study of the laws governing discrimination in employment, affirmative action, sexual harassment, discipline, termination, and safety, and the application of these laws through the development of employer policies, procedures, rules, regulations, and summary postings. The course is offered in the afternoon during Autumn Quarters and at night during Spring Quarters.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: HRM 121, HRM 122, MCT 106, and MATH 135.

Lab fee: \$10.00

HRM 222 Monetary Compensation (A,SP) 4 credits

The course provides an in-depth study of the history, principles and theories of a compensation package; the laws governing monetary compensation, and the application of these principles, theories and laws through the development of internal and external equity in monetary compensation, and the development of monetary compensation policies and procedures. The course is offered in the afternoon during Autumn Quarters and at night during Spring Quarters.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: HRM 121, HRM 122, MCT 106, MATH 135.

Concurrent: HRM 223.

Lab fee: \$10.00

HRM 223 Benefits/Non-Monetary Compensation (A,SP) 4 credits

The course provides an in-depth study of the history, principles, and theories of benefits and non-monetary compensation; the development of ex-

ternal equity in benefit packages, the value of benefit programs to an organization; and the laws governing benefits. Students learn the application of these principles, theories, and laws through the development of plan descriptions for benefit programs such as health, life, disability, pension/retirement, pay for time not worked, and policies and procedures for the implementation of benefits required by law. The course is offered in the afternoon during Autumn Quarters and at night during Spring Quarters.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: HRM 121, HRM 122, MCT 106, and MATH 135.

Concurrent: HRM 222.

Lab fee: \$10.00

HRM 224 Human Resources Information Systems (W,SU) 3 credits

The course provides an in-depth study of the records governing the employment relationship required by the federal and state laws and the legal aspects of those records; the relationships between data, information, records, employees, managers, and the human resources department; approaches to developing manual and automated records and information management systems that meet the professional and industry standards. Students are required to demonstrate skills through the development and/or design of both manual and automated systems. The course is offered at night Winter Quarters and during the day Summer Quarters..

Lecture: 2 hours – Lab: 3 hours

Prerequisite: HRM 121, HRM 122, and MCT 106.

Lab fee: \$10.00

HRM 225 Alcohol and Drugs in the Workplace (W,SU) 4 credits

The course provides the student in the Human Resources Management technology with an overview of alcohol and drugs as they relate to historical and contemporary workplace issues. Students explore the impact of drugs of abuse on the individual, family and society; models to define chemical dependency; signs and symptoms indicative of alcohol and drug use and abuse; resources available to persons with chemical dependency and their families. There is emphasis on the Drug Free Workplace Act and the Americans with Disabilities Act, and developing a Drug Free Workplace Policy. Employee Assistance Programs are discussed as well as drug testing and the legal and ethical issues involved. The course is offered at night Winter Quarters and during the day Summer Quarters.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: HRM 121 and HRM 122.

Lab fee: \$4.00

HRM 240 Administration of Human Resources Management (W,SU) 5 credits

As a course in the capstone sequence for the Human Resources Management Technology, the course provides a hands-on application laboratory wherein students serve as a "Board of Directors," developing the full range of human resources policies, procedures, and programs. To demonstrate the depth and breadth of their knowledge, understanding, and skill, students are assigned two to four individual projects, in the major topic areas (employment, compensation, benefits, performance appraisal, discipline, safety, and training), in the form of presentations, the development of policies and/or procedures as appropriate to the presentation, and the development/securing of documents as appropriate to the presentation. As a group students review, revise, and approve or reject policy, procedure, and program recommendations made by the presenter. The course is offered only at night both Winter and Summer Quarters.

Lecture: 0 hours – Lab: 10 hours

Prerequisite: HRM 124, HRM 220, HRM 221, HRM 222, HRM 223, HRM 224, HRM 225, and MCT 211.

Lab fee: \$5.00

HRM 242 Human Resources Management

Practicum (A,W,SP,SU)

4 credits

As a course in the capstone sequence for the Human Resources Management Technology, the course provides a guided work experience in a human resources office or work environment providing human resources services. Exact duties are determined by the student and the employer/ placement site supervisor. Students are responsible for securing their own practicum position.

Lecture: 0 hours – Lab: 28 hours

Prerequisite: HRM 124, HRM 220, HRM 221, HRM 222, HRM 223, HRM 224, HRM 225, MCT 211, and permission of the HRM Technology, Program Coordinator **requested 2 QUARTERS in advance.**

Concurrent: HRM 243.

Lab fee: \$2.00

HRM 243 Human Resources Management

Practicum Seminar (A,W,SP,SU)

2 credits

As a course in the capstone sequence for the Human Resources Management Technology, the course provides for a seminar discussion of the work experience; and demonstration of the ability to transfer program skills to a real world work environment through the development of work related projects and assignments.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: HRM 124, HRM 220, HRM 221, HRM 222, HRM 223, HRM 224, HRM 225, MCT 211, and permission of the HRM Technology, Program Coordinator **requested 2 QUARTERS in advance.**

Concurrent: HRM 242

Lab fee: \$1.00

Humanities (HUM)

STUDENTS WHO ENROLL IN HUMANITIES COURSES MUST HAVE PLACED IN ENGL 101 AND ARE ENCOURAGED TO EITHER HAVE COMPLETED ENGL 101 OR BE ENROLLED IN THAT COURSE WHEN SCHEDULING A HUMANITIES COURSE.

HUM 111 Civilization I (A,W,SP,SU - DL)

5 credits

A survey of the culture, ideas, and values of human civilization from their origins in the Ancient World through the 15th Century. Emphasis is on the intellectual and artistic achievements of the ancient Middle East, Classical Greece and Rome, the Christian and Arab/Islamic Middle Ages, and Renaissance Italy showing how culture reflects and influences economic, social and political development. Students are exposed to the creative process by reading from primary works of literature and philosophy and critically reviewing works of art, music, theater and dance, both in and out of class. Classes meet three hours per week in small groups for lecture and discussion and in combined sections for two hours per week for group cultural experiences.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$8.00

HUM 112 Civilization II (A,W,SP,SU - DL)

5 credits

A study of the development of the culture, ideas, and values of the early modern world. Emphasis is on the Protestant Reformation, initial contacts between Europe and other cultures, the rise of modern science, the Enlightenment, the American and French Revolutions, the Industrial Revolution, Baroque, Classical, and Romantic styles in art, music and literature and the revolutionary theories of Karl Marx. Students are exposed to the creative process by reading from primary works of literature and philosophy and critically reviewing works of art, music, theater and dance, both in and out of class. Classes meet three hours per week in small groups

for lecture and discussion and in combined sections for two hours per week for group cultural experiences.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$8.00

HUM 113 Civilization III (A,W,SP,SU - DL)

5 credits

A survey of the triumphs and failures of modern culture, ideas, and values from 1850 to the present. Emphasis is on the conflicts and contradictions between the prevailing spirit of Liberalism, Capitalism, Nationalism and Imperialism from the perspective of the European and non-European worlds, the crises of Western capitalism and democracy and the Fascist and Communist responses, and the major issues confronting world civilization at the turn of the 21st Century. Students are exposed to the creative process by reading from primary works of literature and philosophy and critically reviewing works of art, music, theater and dance, both in and out of class. Classes meet three hours per week for lecture and discussion and in combined sections for two hours per week for group cultural experiences.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$8.00

HUM 151 American Civilization to 1877 (A,W,SP,SU)

5 credits

A survey of American History from settlement through the Civil War and Reconstruction. The course places major emphasis on the relationship between historical events and the literature, art, music, major ideas and popular culture, which made up the American intellectual tradition. Students are exposed to the creative process by reading from primary works of literature and philosophy and critically reviewing works of art, music, theater and dance, both in and out of class.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$8.00

HUM 152 American Civilization Since 1877

(A,W,SP,SU)

5 credits

A survey of the development of the United States from a frontier society to an industrial world power in the 20th century. The course places major emphasis on the relationship between historical events and the literature, art, music, major ideas and popular culture, which have made up the American intellectual tradition. Students are exposed to the creative process by reading from primary works of literature and philosophy and critically reviewing works of art, music, theater and dance, both in and out of class.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$8.00

HUM 222 Classical Mythology (A, W, SP, SU - DL)

5 credits

An introduction to the world of mythology, the human and the supernatural, the real and the fantastic through a study of myths from Greece and Rome. The course explores some of the religious ideas, traditions and values that distinguish one civilization from another, while also indicating universally shared themes. Attention will be given to cultural expressions of mythical themes in literature and art.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$3.00

HUM 224 African-American History from Emancipation (On Demand)

5 credits

A survey of African-American History from the Civil War to present. Emphasis will be placed on the struggle for political, social and economic freedom as well as the contributions of African-Americans to the music, art, and literature of the United States. Meets Humanities requirement for AAS students.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

HUM 245 Music and Art Since 1945 (On Demand) 5 credits
A survey of the styles and subject matter of important contemporary works of music and visual art. Students will examine the wide spectrum of aural and visual expression that has developed since the Second World War such as aleatoric music, electronic music, abstract expressionism, performance art, pop and op art, minimalism, etc. Students will also examine the major intellectual and social issues of the day and the relationship between these issues and the styles and expressive content of contemporary music and art.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

HUM 251 Latin American Civilization (On Demand) 5 credits
A general introduction to the history and cultures of Latin America through the study of literature, film and primary historical texts. The course will employ an interdisciplinary approach to explore the relationship between culture and the major historical, political, and socio-economic developments in Latin America from 1492 to the present.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

HUM 252 The Islamic World and the Middle East (On Demand) 5 credits
A survey of Islamic civilization from the birth of Mohammad to the destruction of the Ottoman Empire in the 20th century. Emphasis is placed on developing an understanding of the nature and diversity of the Islamic religion, an appreciation of the great cultural achievements of medieval Islam, and an awareness of the complexities of the problems of the contemporary Middle East. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in history, social sciences, and non-western studies.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

HUM 253 History of China and Japan (On Demand) 5 credits
A survey of the economic, social, political, and cultural development of China and Japan from earliest times to present. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in history, social sciences, and non-western studies.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$2.00

HUM 254 Introduction to African Literature (On Demand) 5 credits
A general survey of sub-Saharan African literature including the oral traditions that formed its background. Students will examine traditional African artistic expressions such as dance, drama, poetry and short story as well as novels produced by European-educated writers. Students will read literary texts originally written in English or in English translation.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

HUM 270 Comparative Religions (A, W, SP, SU) 5 credits
Introduction to the study of religion through a historical overview and comparison of the major world religions of Judaism, Christianity, Islam, Buddhism, and Hinduism through readings in their sacred texts in translation. Attention will be focused on the concepts, categories, theories,

and methods used by the various religious disciplines and how each of them addresses basic issues of the human condition. Also included will be an examination of Sectarianism and contemporary sects in America and the World. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in comparative studies, religion, and philosophy.

Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

HUM 290 Capstone Experience in the Humanities (On Demand) 3 credits
A capstone course focusing on synthesis among the disciplines of the Humanities, including but not limited to, history, classics, art history, music history and philosophy. Students will work on developing research techniques and methodologies and will apply these techniques to a project of their own design.

Lecture: 2 hours – Lab: 2 hours
Prerequisite: Open only to AA and AS students preparing to graduate within 2 academic quarters.
Lab fee: \$10.00

HUM 299 Special Topics in Humanities (On Demand) 1 to 5 credits
Special topics from the Humanities discipline designed to meet specific needs.

Lecture: variable hours – Lab: 0 hours
Lab fee: \$2.00

Interactive Multimedia Technology (MMPT)

MMPT 101 The World of Multimedia (A,W,SP,SU) 4 credits
This is the first of the two course series introducing students to the products, tools, and environment of the interactive multimedia profession. This first course covers elements of communication, marketing, the Internet, web development, digital media and graphic design. This course relies on industry web sites to bring state-of-the-art information directly to the student in a timely manner.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: CPT 101 or permission of instructor
Lab fee: \$25.00

MMPT 111 The Digital Revolution (A,W,SP,SU) 4 credits
The second of two course series that expands on the required disciplines needed to function in the interactive multimedia profession. Primary focus in this course centers on the design, software and scripting of the multimedia project. This course details how these disciplines are related to professional job responsibilities and the other team members.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: CPT 101 and MMPT 101
Lab fee: \$25.00

MMPT 211 Advanced Scripting (A, SU) 4 credits
Scripting is an accessible and powerful form of computer programming that designers and multimedia developers can use to increase the level of interactivity, optimize, and enhance their multimedia web projects. The purpose of the course is to teach the core concepts of scripting as it applies to multimedia and web development. The course will use Javascript and HTML to illustrate these concepts. Using XML, DTHML, Lingo, CGI Scripting, and SQL students will learn how to develop visually intriguing interactive sites, and how to create HTML forms and write CGI scripts.

Lecture: 2 hours – Lab: 4 hours
Prerequisites: MMPT 101 and MMPT 111
Lab fee: \$40.00

MMPT 216 Dynamic Graphics (A,W,SP,SU) 4 credits
Image input, storage and retrieval using the industry standard Adobe Photoshop/Image Ready are the focus of this course. Each electronic photograph must be handled from digitization, through augmentation and final storage or utilization phases. Files will be transported over the internet utilizing industry-standard file compression and transmission technologies.

Lecture: 2 hours – Lab: 4 hours
Prerequisite: MMPT 101, MMPT 111, GRPH 112, GRPH 251
Lab fee: \$25.00

MMPT 217 Video Graphics Editing (W, SU) 4 credits
The basic principles of digital video are presented. Course covers the standards and methods for recording/editing and the interconnection of digital video. Concepts of digital conversation, video coding and processing, and digital audio with video are presented.

Lecture: 2 hours – Lab: 4 hours
Prerequisite: MMPT 101, MMPT 111
Lab fee: \$25.00

MMPT 231 Creating Vector Graphics (A, SP,SU) 4 credits
This course presents students with content and application for the vector graphic areas in multimedia. Specifically, instruction, demonstration and student projects will focus on such illustration software applications as Macromedia Freehand for creation of two dimensional vector illustrations.

Lecture: 2 hours – Lab: 4 hours
Prerequisite, MMPT 101, MMPT 111, ART 122, GRPH 112
Lab fee: \$25.00

MMPT 236 Designing in 3d Dimension (W,SP) 4 credits
This course provides students with an overview of how to model, render, light, and animate in 3D environments. Topics covered include environment navigation, primitive geometry construction, basic lofting, modifier based editing, parametric editing, texture creation, basic texture mapping, basic lighting, particle systems, and basic keyframe animation. Web design and 2D editing tools are also integrated in the course material.

Lecture: 2 hours – Lab: 4 hours
Prerequisite: MMPT 101 and MMPT 111
Lab fee: \$40.00

MMPT 237 Web Animation (A,W) 4 credits
This course provides the students with an overview of how to begin, storyboard, create and design a fully functional Flash Website. This course surveys the major sources of businesses that use the software Macromedia Flash 4. Topics covered include becoming familiar with the palettes and tool box, new design, and drawing techniques, using Flash as an authoring tool and understanding and applying Flash's expanded actions and scripting capabilities.

Lecture: 2 hours – Lab: 4 hours
Prerequisite: MMPT 101, MMPT 111, MMPT 216, MMPT 231, GRPH 131
Lab fee: \$40.00

MMPT 251 Multimedia Practicum (A,W, SP, SU) 4 credits
Supervised on-the-job application of knowledge and skills acquired in the classroom. Internship applications must be filed with the Department at least 2 months prior to internship start date.

Lecture: 0 hours – Lab: 28 hours
Prerequisite: MMPT 101, MMPT 111, MMPT 216, MMPT 231, MMPT 236, MMPT 237, MMPT 211, MMPT 261, GRPH 131, GRPH 125
Concurrent: MMPT 252.
Lab fee: \$3.00

MMPT 252 Seminar on Multimedia Production (A,W, SP, SU) 2 credits
Application of business knowledge to specific areas of on-the-job practicum experience. Internship applications must be filed with the Department at least 2 months prior to internship start date

Lecture: 0 hours – Lab: 4 hours
Prerequisite: MMPT 101, MMPT 111, MMPT 216, MMPT 231, MMPT 236, MMPT 237, MMPT 211, MMPT 261, GRPH 131, GRPH 125
Concurrent: MMPT 251
Lab fee: \$3.00

MMPT 261 Controlling Web Page Layout (A,W,SP) 4 credits
Students will be introduced to multimedia authoring and design for delivery on the Internet. Components include using Microsoft FrontPage, practical applications, Internet Service Providers, browser page construction and related issues. Students will be able to apply their knowledge in these areas through the use of their own "homepage" assignments.

Lecture: 2 hours – Lab: 4 hours
Prerequisite: MMPT 101, MMPT 111, MMPT 216, MMPT 231, GRPH 131
Lab fee: \$25.00

MMPT 262 Building Hierarchical Websites (W,SP,SU) 4 credits
This course provides the student with an overview of how to begin, storyboard, create and design a fully functional website. The software Macromedia Dreamweaver is a professional authoring tool for creating and managing web pages. Topics covered include becoming familiar with the palettes and tool box, design techniques, using Dreamweaver as an Authoring tool, understanding and applying Dreamweaver's expanded scripting capabilities.

Lecture: 2 hours – Lab: 4 hours
Prerequisite: MMPT 101, MMPT 111, MMPT 211, MMPT 216, MMPT 231, MMPT 236, MMPT 237, MMPT 261
Lab fee: \$25.00

MMPT 271 Interactive CD Development (AU,SP) 4 credits
Macromedia Director, the industry standard for multimedia, is used to create many of today's top-selling interactive titles. The information and exercises takes students from beginner status to authoring their own Interactive CD resume for external use in locating a professional job.

Lecture: 2 hours – Lab 4 hours
Prerequisite: MMPT 101, MMPT 111, MMPT 216, MMPT 231, MMPT 236, MMPT 237, MMPT 211, MMPT 261, GRPH 131, GRPH 251
Lab fee: \$25.00

MMPT 280 Flash Fundamentals 2 credits
Flash 4 is used to create beautiful, resizable, and extremely small and compact navigation interfaces, technical illustrations, long-form animations, and other effects for Web sites and other Web-enabled devices (such as Web TV). Flash graphics and animations are created using the drawings tools in Flash or by importing artwork from vector illustration tools, such as Macromedia FreeHand. Course covers how to create artwork with Macromedia Flash, how to animate artwork, and how to make interactive movies. This course cannot be substituted for required technical courses in the Interactive Multimedia degree but may be used to fulfill a technical elective.

Lecture: 2 hours – Lab – 0
Prerequisite: Permission of Instructor

MMPT 281 Flash Advanced 2 credits
This Macromedia authorized training curriculum is designed for the Flash developer who has already achieved an intermediate level of proficiency in Flash (recommended.). The 12-hour (2 day) curriculum contains 9 Units to help developers master the powerful programming elements of Flash. This course cannot be substituted for required technical courses in

the Interactive Multimedia degree but may be used to fulfill a technical elective.

Lecture: 2 hours – Lab – 0

Prerequisite: Permission of Instructor

MMPT 282 Fireworks 2 credits

In this twelve-UNIT (2 day) Macromedia authorized training course students will learn how to use fireworks 3 to create graphics with both vector and bitmap images, apply special effects, build buttons, add rollovers, and create an animated GIF. They will learn to optimize images and to use the Export Preview for comparing formats and palette choices before making the final output decision. Students will learn how to create two types of image maps: a conventional image map where areas of a graphic become hotspots for linking to Web pages, and a disjointed image map where another portion of the graphic swaps out when the user rolls over a Hotspot.

This course cannot be substituted for required technical courses in the Interactive Multimedia degree but may be used to fulfill a technical elective.

Lecture: 2 hours – Lab – 0

Prerequisite: Permission of Instructor

MMPT 283 Dreamweaver 3 Fundamentals 2 credits

This Macromedia-authorized training course introduces students to Dreamweaver 3 by guiding them step by step through the development of sample web projects. In this 16-hour (2 day) curriculum, students will learn to create basic HTML pages by formatting text, inserting images, and setting links, and learn to use high-end features such as Dynamic HTML, Cascading Style Sheets, XML, etc. This course cannot be substituted for required technical courses in the Interactive Multimedia degree but may be used to fulfill a technical elective

Lecture: 2 hours – Lab – 0

Prerequisite: Permission of Instructor

MMPT 284 Dreamweaver 3 Advanced 2 credits

The 12-14 hour (2-day) curriculum is designed to help developers master the powerful Web design capabilities of Dreamweaver.

This course cannot be substituted for required technical courses in the Interactive Multimedia degree but may be used to fulfill a technical elective.

Lecture: 2 hours – Lab – 0

Prerequisite: Permission of Instructor

Interpreting /ASL Education (ITT)

ITT 110 Introduction to Interpreting/Transliterating (A) 3 credits

This course is designed to provide students with an overview of the field of interpreting. Topics of study include a historical overview, terminology, interpreter's role, ethics, and career options.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Interview with ITT coordinator and application process

Concurrent: ITT 141

Lab fee: \$5.00

ITT 111 Introduction to the Deaf Community (A) 5 credits

This course is designed to provide students with an overview of the D/deaf community. It focuses on the following areas: social, cultural and education experiences. This course also examines employment, local services available to the D/deaf community, and majority culture's myths and misconceptions of the D/deaf community.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$5.00

ITT 120 English for the Interpreter (SP) 3 credits

This course focuses on the grammar errors made during the voicing process and ways to remedy these errors. It also focuses on English vocabulary expansion and sign vocabulary expansion.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ITT 110 with a grade of "C" or better

Concurrent: ITT 143 and ITT 201

Lab fee: \$5.00

ITT 121 Legal and Ethical Aspects of Interpreting/Transliterating (SP) 3 credits

This course looks at applying the RID Code of Ethics to the interpreting situation. Analysis of professional ethics, confidentiality vs. privilege, legal liability, and the role of the interpreter are all covered.

Lecture: 3 hours – Lab: 0 hours

Concurrent: ITT 150 and ITT 204

Lab fee: \$5.00

ITT 123 Specialized Interpreting/Transliterating (A) 4 credits

This course introduces the student to special vocabulary, skills, and knowledge needed to interpret in special situations. It looks at ethical considerations of these settings as well. Some of these situations include artistic interpreting, interpreting for deaf/blind persons, interpreting in medical settings, and oral interpreting.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: ITT 202 and 211

Concurrent: ITT 145

Lab fee: \$5.00

ITT 130 Fingerspelling (W) 2 credits

This course offers students the opportunity to work on expressive and receptive fingerspelling. The emphasis of this course is on using fingerspelling in context. Opportunities are provided for the students to work with videotaped materials as well as live models.

Lecture: 1 hours – Lab: 2 hours

Prerequisite: ITT 110 with a grade of "C" or better

Concurrent: ITT 142

Lab fee: \$5.00

ITT 141 American Sign Language I (A,SP) 5 credits

This course begins with a series of visual readiness activities as a way of introducing the students to and preparing them for a language in a visual modality. The course utilizes a practical approach to teaching vocabulary, grammar, and the cultural aspects through "real life" conversational experiences. The student is further acclimated to the new modality of this language via classroom experiences conducted without voice. Additional information about the Deaf Community is introduced via outside readings and class discussion.

Lecture: 4 hours – Lab: 2 hours

Lab fee: \$10.00

ITT 142 American Sign Language II (W,SU) 5 credits

ASL II, as a continuation of ITT 141, further acclimates the students to the visual/gestural modality of this language. The course utilizes a practical approach to teaching vocabulary, grammar, and cultural aspects through "real life" conversational experiences. More attention is given to the student's production of the language than in ITT 141, while receptive / comprehension skills continue to be emphasized. Additional information about the Deaf Community is introduced via outside readings and class discussions.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: ITT 141 with a grade of "C" or better

Lab fee: \$10.00

ITT 143 American Sign Language III (A,SP) 5 credits
ASL III provides the students with additional opportunities to expand their ability to produce and comprehend the language as used in everyday conversational settings. Students continue to recognize the fact that communication is governed by culturally-bound rules as they continue to study the culture of the Deaf Community.
Lecture: 4 hours – Lab: 2 hours
Prerequisite: ITT 142 with a grade of “C” or better
Lab fee: \$10.00

ITT 144 American Sign Language IV (W,SU) 5 credits
In ASL IV, students’ production and comprehension skills continue to develop qualitatively and quantitatively as they are exposed to a greater variety of interaction activities. Whereas these activities are based on cultural values of the Deaf Community, the students’ knowledge of this unique community is expanded.
Lecture: 4 hours – Lab: 2 hours
Prerequisite: ITT 143 with a grade of “C” or better
Lab fee: \$10.00

ITT 145 American Sign Language V (A,SP) 5 credits
As the final course in this five (5) course series, ITT 145 provides students with opportunities to expand their production and comprehension skills with American Sign Language. Communication activities focus on advanced functions of language usage. Study of the cultural aspects of the Deaf Community is continued.
Lecture 4 hours – Lab: 2 hours
Prerequisite: ITT 144 with a grade of “C” or better
Lab fee: \$10.00

ITT 150 Linguistics of American Sign Language (ASL) (SP) 3 credits
This course offers an introduction to general linguistics, as well as providing an in-depth analysis of the major grammatical features of American Sign Language. Comparisons are made between English and American Sign Language, noting how grammatical functions are performed differently in the two languages.
Lecture: 2 hours – Lab: 2 hours
Concurrent: ITT 143
Lab fee: \$5.00

ITT 201 Interpreting I (SP) 3 credits
This course is a theoretical and practical “hands-on” approach to the process of sign language interpreting. The student will be actively learning how to render a signed message in ASL into spoken English, as well as render a spoken message in English into ASL.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: ITT 110 with a grade of “C” or better
Concurrent: ITT 120 and 143
Lab fee: \$10.00

ITT 202 Interpreting II (SU) 3 credits
This course is a continuation of ITT 201. As such, the students continue the process of actively learning how to render a signed message in ASL into spoken English, as well as how to render a spoken message into ASL. This course places more emphasis on the practical “hands-on” dialogue setting; and increasing the speed, accuracy, and complexity of the interpreting process.
Lecture: 1 hours – Lab: 5 hours
Prerequisite: ITT 201 with a grade of “C” or better
Concurrent: ITT 144
Lab fee: \$10.00

ITT 203 Interpreting III (W) 3 credits
This course continues to increase students’ knowledge and skills in ASL/English interpretation process. Increased focus is placed on “real life”

situational experiences involving complex interpreting settings.
Lecture: 1 hours – Lab: 5 hours
Prerequisite: ITT 202 and ITT 145 with a grade of “C” or better
Concurrent: ITT 220
Lab fee: \$10.00

ITT 204 Interpreting IV (SP) 3 credits
As the final course in the four course interpreting sequence, this course continues to increase students’ knowledge and skills in ASL/English interpretation process. Increased focus is placed on “real life” situational experiences involving complex interpreting settings.
Lecture: 1 hours – Lab: 5 hours
Prerequisite: ITT 203 and ITT 212 with a grade of “C” or better
Concurrent: ITT 121
Lab fee: \$10.00

ITT 211 Transliterating I (SU) 3 credits
This course is a theoretical and practical “hands-on” approach to the process of sign language transliterating. Students will be actively learning how to render contact varieties and signed English messages into spoken English, as well as render a spoken message in English into contact varieties and signed English.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: ITT 120 and ITT 201
Concurrent: ITT 144
Lab fee: \$10.00

ITT 212 Transliterating II (A) 3 credits
This course is a continuation of ITT 211. As such, the students continue the process of actively learning how to render a signed message in a contact variety and signed English into spoken English, as well as how to render a spoken message into a contact variety and signed English. This course places more emphasis on practical “hands-on” dialogue settings; and increasing the speed, accuracy, and complexity of the transliteration.
Lecture: 1 hours – Lab: 5 hours
Prerequisite: ITT 121 with a grade of “C” or better
Concurrent: ITT 145
Lab fee: \$10.00

ITT 220 Sign to Voice Interpreting/Transliterating (W) 4 credits
This course provides students with additional experience with the process of sign to voice interpreting and transliterating. Students will practice with a variety of deaf and hard of hearing individuals to enhance team and solo voicing skills.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: ITT 212
Concurrent: ITT 203
Lab fee: \$10.00

ITT 265 Special Topics in Interpreting,, ASL, Deaf Studies(On Demand) 1 –5 credits
This course is offered for interpreters who are employed, or are pre-practice interpreters, who have an issue or skill they would like to explore or further develop. Topics may include any issue or skill that is germane to the field of interpreting, ASL, and/or Deaf studies, and appropriate for a diverse student population.

ITT 290 Interpreting/Transliterating Practicum Seminar I (W,SU) 1 credit
This course supplements the practicum experience by providing opportunities for sharing experiences via recordings in journals and group discussions.
Lecture: 1 hours – Lab: 0 hours
Prerequisite: Complete all first through fifth quarter courses as per the ITT Plan of Study and ITT 145 with a grade of “C” or better
Concurrent: ITT 292

ITT 291 Interpreting/Transliterating Practicum Seminar II (A,SP) 1 credit
 This course continues to supplement the practicum experience. Applying theory to the daily work setting, applying for jobs, and additional educational opportunities are also discussed.
 Lecture: 1 hours – Lab: 0 hours
 Prerequisite: ITT 290 with a grade of “Satisfactory” and completion of all sixth quarter courses
 Concurrent: ITT 121 and ITT 293

ITT 292 Interpreting/Transliterating Practicum I (W,SU) 4 credits
 Students are provided opportunities to work in interpreting situations and apply the concepts learned in the classroom to the actual setting. Students are assigned to work in a variety of settings on a part-time basis and are supervised by staff interpreters.
 Lecture: 0 hours – Lab: 20 hours
 Prerequisite: 2.0 Tech. Average, completion of the first five quarters of the ITT Plan of Study
 Concurrent: ITT 290, ITT 220 and ITT 203

ITT 293 Interpreting/Transliterating Practicum II (A,SP) 4 credits
 Students are provided opportunities to work in different interpreting situations and apply the concepts learned in the classroom to the actual setting. Students are assigned to work in a variety of settings on a part-time basis and are supervised by staff interpreters.
 Lecture: 0 hours – Lab: 20 hours
 Prerequisite: ITT 292 with a grade of “Satisfactory” and 2.0 Tech. Average.
 Concurrent: ITT 291 and ITT 204

Italian (ITAL)

ITAL 101 Elementary Italian I (On Demand) 5 credits
 Italian language instruction through the use of texts, audio/visual, and other selected materials to actively and proficiently communicate in the targeted language. This course also operates on developing student’s historical, and cultural consciousness through the use of film, art, music and a wide range of cultural activities particular to the Italian culture. Encourages analytical thinking, individual and group participation and strengthens writing, reading and comprehension skills.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: Placement into ENGL 101
 Lab fee: \$6.00

ITAL 102 Elementary Italian II (On Demand) 5 credits
 Continuation of ITAL 101, with further development of listening, reading, speaking, and writing skills and further study of Italian culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ITAL 101 with a grade of “C” or better
 Lab fee: \$6.00

ITAL 103 Intermediate Italian I (On Demand) 5 credits
 Continued study of the Italian language and development of listening, reading, speaking and writing skills. Readings from contemporary Italian culture and literature. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ITAL 102 with a grade of “C” or better
 Lab fee: \$6.00

ITAL 104 Intermediate Italian II (On Demand) 5 credits
 Reading and discussion of Italian short stories, novels, plays, newspapers, and magazines, emphasizing literary appreciation and the development of Italian culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature programs.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: ITAL 103 with a grade of “C” or better
 Lab fee: \$6.00

ITAL 299 Special Topics in Italian (On Demand) 1-5 credits
 Detailed examination of selected topics in Italian.
 Prerequisite: vary
 Lab fee: \$2.00

Japanese (JAPN)

JAPN 101 Elementary Japanese I (A) 5 credits
 Elements of standard modern colloquial Japanese grammar, with emphasis on oral communications and culture. Students will learn to hear and reproduce the sounds of modern Japanese accurately; handle basic interactive skills such as greetings, invitations and apologies; learn about cultural factors that are reflected in the language.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: Placement into ENGL 101
 Lab fee: \$6.00

JAPN 102 Elementary Japanese II (W) 5 credits
 Continuation of JAPN 101.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: “C” or higher in JAPN 101
 Lab fee: \$6.00

JAPN 103 Elementary Japanese III (On Demand) 5 credits
 Continuation of JAPN 102.
 Prerequisite: “C” or higher in JAPN 102
 Lecture: 5 hours – Lab: 0 hours
 Lab fee: \$6.00

JAPN 104 Elementary Japanese IV (On Demand) 5 credits
 Continuation of JAPN 103.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: “C” or higher in JAPN 103
 Lab fee: \$6.00

JAPN 299 Special Topics in Japanese (On Demand) 1-5 credits
 Detailed examination of selected topics in Japanese
 Prerequisite: vary
 Lecture: 5 hours – Lab: 0 hours
 Lab fee: \$2.00

Landscape Design/Build (LAND)

LAND 100 The American Landscape (A,W, SP) 2 credits
 This course is an overview of the American Landscape movement with historical, environmental, design, horticultural and professional applications.
 Lecture: 2 hours - Lab: 0 hours
 Lab fee: \$10.00

LAND 101 Landscape Principles (A,W,SP,SU) 3 credits
Landscape principles will study the basic components of landscape design and those elements, that when combined together create such designs.
Lecture: 2 hours – Lab: 3 hours

LAND 102 Residential Landscape Design (A,W,SU) 4 credits
This course will study the application of landscape design principles to construction situations, design vs. style, perform site inventory and analysis and draft basic projects.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: ARCH 111 and LAND 101
Lab fee: \$20.00

LAND 103 Plant Science (A, W) 4 credits
This course will study the basic physiology of plant material for the commercial and residential landscape. Plant growth and propagation will also be covered. Graduates in this program need a physiology-based course in order to better prepare them for the challenges of the profession.
Lecture: 3 hours – Lab: 2 hours
Lab fee: \$20.00

LAND 104 Specialty Gardens (W) 3 credits
This course will study the history, development and basic design of gardens including Estate, Victorian, Colonial, Patio, Water, etc. The class will combine both in-class and field experience.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: LAND 102
Lab fee: \$ 15.00

LAND 105 Spring Landscape Plants (SP,SU) 4 credits
This course will study the identification parameters, landscape features and growing conditions of trees and shrubs of the midwest climate zone. This class will combine both in-class and field experience.
Lecture: 3 hours – Lab: 3 hours

LAND 107 Landscape Maintenance (W,SP) 3 credits
Basic landscape maintenance principles will be discussed with an emphasis on procedures best suited to promote optimum growth and aesthetic qualities of landscape plants. Other areas include soil structure, amendments, pruning and fertilization.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$10.00

LAND 108 Herbaceous Plants (W, SP,SU) 3 credits
This course will study the identification parameters, landscape features and growing conditions of herbaceous flowering plants such as annuals, perennials, bulbs and herbs. Design of perennial gardens will also be covered.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$15.00

LAND 109 Landscape Arboriculture (A,W) 3 credits
This course introduces the basic principles of tree biology and care. Arboricultural practices will be discussed and performed.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: LAND 205
Lab fee: \$15.00

LAND 110 Landscape Computer Applications 3 credits
This course will explore current computer applications as they relate to the landscape industry.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: LAND 102 and CPT 101 or permission of instructor
Lab fee: \$10.00

LAND 111 Survey of the Landscape Industry 2 credits
This course introduces the student to career possibilities in the green industry.
Lab: 4 hours - Lab: 0 hours

LAND 152 Site Planning (A,SP) 4 credits
This course identifies the elements of a site and influences, methods and examples of site planning for environmental design projects. Emphasis on interdisciplinary nature of site planning. Regulatory and technical requirements. Creation and evaluation of prototypical site planning projects.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: LAND 102 or ARCH 161 or SURV 141 or permission of instructor
Lab fee: \$20.00

LAND 200 Landscape Laboratory(SU) 4 credits
Students will be exposed to many working methods of the landscape industry. Through actual hands-on experience the following areas will be taught: skid steer operation, maintenance equipment operation, irrigation line assembly, paver construction, wood construction, retaining wall construction and trencher operation.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$40.00

LAND 201 Landscape Pest Control (A,SU) 3 credits
This course will study basic control methods as they apply to insects, fungi, bacteria, biotic and other pests in the landscape. Identification of pests as well as mechanical, cultural, biological and chemical controls will be discussed.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: LAND 105 or LAND 205 or permission of instructor
Lab fee: \$5.00

LAND 202 Planting Design (W,SP) 4 credits
This course builds on skills learned in LAND 102 and emphasizes graphic representations of plant materials and landscape structures.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: LAND 152, LAND 206 and LAND 105 and/or LAND 205
Lab fee: \$20.00

LAND 203 Landscape Irrigation (A,W) 3 credits
This course will study the design principles of landscape irrigation systems. Cost/ estimation factors will also be discussed.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: LAND 102 and MATH 104 or permission of instructor.
Lab fee: \$12.00

LAND 204 Turfgrass Management (A,W) 3 credits
Students will learn the basic principles of turfgrass science and culture, specifically turfgrass identification, turf disease diagnosis, turf insect pest control, turf weed control and specific turfgrass cultural and management practices.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: LAND 101, LAND 201 and BIO 125 or LAND 107 or permission of instructor.
Lab fee: \$10.00

LAND 205 Autumn Landscape Plants (A,SU) 4 credits
The plants in this course are not the same as those covered in LAND 105. This course will study the identification parameters, landscape features and growing conditions of trees and shrubs of the midwest climate zone. This class will combine both in-class and field experience.
Lecture: 3 hours – Lab: 3 hours

LAND 206 Landscape Graphics (A,SP) 4 credits
This course will study the graphic symbols used to create landscape drawings. Included will be such information as color renderings, graphic representation of trees and shrubs, and shadowing.
Lecture: 2 hours – Lab: 4 hours
Lab fee: \$15.00

LAND 207 Landscape Structures (SP,SU) 3 credits
This course will study the design and construction principles of landscape decks, patios, site fixtures etc., and design projects of each will be created.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: LAND 102
Lab fee: \$15.00

LAND 208 Interior Plants (W,SU) 3 credits
This course will study the features and growing conditions of indoor plant materials and maintenance procedures for same.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$10.00

LAND 210 Evergreen Landscape Plants (W) 4 credits
This course will study the identification parameters, landscape features and growing conditions of evergreen trees and shrubs of the midwest climate zone.
Lecture: 3 hours – Lab: 3 hours

LAND 214 Landscape Lighting (SP,SU) 2 credits
This course will cover landscape lighting design concepts. The student will be able to size wire and electrical circuits, install, maintain, and trouble shoot systems.
Lecture: 1 hours – Lab: 2 hours

LAND 217 Landscape Construction Laboratory 2 credits
This course will expose the student to the practices and application of landscape construction practices.
Lab: 4 hours
Lab fee \$20.00

LAND 222 Landscape Operations (W,SP) 4 credits
This is a capstone course in the Landscape Major; students will receive an overview of the technical operations of a landscape design/build firm. Students will work on group and individual class projects simulating the day to day business operations of a landscape firm.
Lecture: 3 hours – Lab: 3 hours
Prerequisite: LAND 202, LAND 203 and LAND 207
Lab fee: \$15.00

LAND 291 Landscape Co-op Experience (SU) 4 credits
Off-campus work experience in the landscape industry. Co-op experience reinforces formal education received in the landscape program, with actual work conditions and job experience. “N” credit will not be allowed for this course.
Lecture: 0 hours – Lab: 40 hours
Prerequisite: permission of instructor
Lab fee:\$15.00

LAND 295, 296, 297 Special Topics 1-5 credits
These courses allow for landscape special topics to be offered in a timely and responsive way.
Lecture and/or Lab hours: Varies
Prerequisite: Permission of instructor.

Latin (LATN)

LATN 101 Elementary Latin I (On Demand) 5 credits
Introduction to the fundamentals of Latin with practice in reading and writing. Includes selected studies in culture. Meets elective requirements in the Associate of Arts and Associate of Sciences Degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00

LATN 102 Elementary Latin II (On Demand) 5 credits
Continuation of LATN 101 with further development of reading and writing skills and further study of culture. Meets elective requirements in the Associate of Arts and Associate of Sciences Degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: LATN 101 with a grade of “C” or better
Lab fee: \$6.00

LATN 103 Intermediate Latin I (On Demand) 5 credits
Continuation of LATN 102. Meets elective requirements in the Associate of Arts and Associate of Sciences Degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: LATN 102 with a grade of “C” or better
Lab fee: \$6.00

LATN 104 Intermediate Latin II (On Demand) 5 credits
Continuation of LATN 103. Meets elective requirements in the Associate of Arts and Associate of Sciences Degree programs and transfer requirements in foreign languages and literature.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: LATN 103 with grade of “C” or better
Lab fee: \$6.00

Law Enforcement (LAWE)

LAWE 101 Introduction to Criminal Justice (A,SP) 3 credits
This course examines the development of law, and the systems and procedures developed by society for dealing with law violations. Emphasis will be placed on the three major components of the system: the police, courts, and corrections.
Lecture: 3 hours – Lab: 0 hours

LAWE 102 Patrol Procedures (A,SP) 3 credits
This course covers the basic concepts of police patrol. The purpose of patrol and various patrol strategies will be examined. Calls for service and response tactics as well as arrest techniques, vehicle stops, and prisoner booking and handling are covered.
Lecture: 2 hours – Lab: 2 hours

LAWE 103 Academy Orientation (W,SU) 2 credits
This course will serve as an orientation to the law enforcement profession and the Columbus State Police Academy.
Lecture: 2 hours – Lab: 0 hours

LAWE 104 Government and the Law (A,W, SP, SU) 3 credits
The role of local government in the community; its structure, organization, and responsibility. Local government politics and the community. Urban, suburban, rural and community structure will be discussed in relationship to delivery of services.
Lecture: 3 hours – Lab: 0 hours

LAWE 110 Criminal Investigation I (A,SP) 4 credits
Principles and techniques of criminal investigation, including those techniques and skills used in the investigation of major crimes such as: homicide, burglary, robbery, auto theft, arson and sex offenses.
Lecture: 3 hours – Lab: 2 hours
Lab fee: \$5.00

LAWE 111 Criminalistics I (A,SP) 3 credits
An introduction to criminalistics laboratory techniques: includes the recognition, collection, and preservation of evidence and its preparation for court presentation. An introduction to fingerprint comparison.
Lecture: 1 hours – Lab: 4 hours
Lab fee: \$10.00

LAWE 112 Criminal Investigation II (W,SU) 4 credits
A continuation of LAWE 110. Emphasis will be placed on the scientific analysis of evidence and proper methods for collection and preservation of trace evidence.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: LAWE 110
Lab fee: \$5.00

LAWE 113 Criminalistics II (W,SU) 2 credits
Advanced study of criminalistics laboratory techniques: includes examination techniques for blood, hair and fiber, fire-arms identification, toolmark comparison, latent fingerprints, questioned document examination and trace evidence.
Lecture: 0 hours – Lab: 4 hours
Lab fee: \$10.00

LAWE 115 Community and Personal Relations (W,SU) 3 credits
This course examines the complex relationship between the police and the public they serve. Areas of potential problems will be discussed and programs and procedures for enhancing the relationship will be presented.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$5.00

LAWE 120 Criminology (A,SP) 3 credits
An exploration of the crime problem in the United States. Theories of the causation of crime will be analyzed and critiqued.
Lecture: 3 hours – Lab: 0 hours

LAWE 121 Juvenile Delinquency (SP) 3 credits
A study of the nature and causes of delinquent activity by juveniles. Though the development of an understanding of causative factors, appropriate criminal justice responses to such activity can be planned.
Lecture: 3 hours – Lab: 0 hours

LAWE 122 Criminal Law (On Demand) 3 credits
A study of the development of criminal law in the United States. The common law theories upon which law in this country is based will be explored. Specific topics will include: parties to crime, capacity to commit crimes; and defenses, and the laws defining specific crimes.
Lecture: 2 hours – Lab: 2 hours

LAWE 124 Penology (A,SP) 3 credits
An introduction to the field of corrections. The history and goals of corrections will be explored, as well as an overview of the processing of offenders from arrest through final release.
Lecture: 3 hours – Lab: 0 hours

LAWE 125 Traffic Accident Investigation (A,SP) 3 credits
An in-depth study of the procedure and objectives in accident investigations. Gathering facts from road, vehicle and witnesses, hit and run investigation, measurements and diagrams, utilization of skid mark evidence, proper methods of recording accident data, use of accident tem-

plate and a practical application of the recommended method of submitting the Ohio state traffic crash report.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$3.00

LAWE 128 Special Category Offenders 3 credits
This course will focus on six subject areas; treatment of sex offenders, mentally disordered offenders, mentally retarded offenders, inmates with Aids, inmates with disabilities and the substance abuse offender. Further attention will be directed to correctional personnel, impact of political influences, perceptions, training, problems and corrective actions.
Lecture: 3 hours – Lab: 0 hours

LAWE 145 Self Defense for Women (TBA) 2 credits
Students will learn to recognize threatening behavior, situations, and appropriate responses. Simple to learn, basic physical defense techniques are taught. In addition, defensive devices will be discussed and demonstrated.
Lecture: 1 hour – Lab: 2 hours

LAWE 150 The Administration of Justice (A) 3 credits
The major institutions and processes in the administration of justice will be covered. The role and function of the courts, the progress of criminal and civil cases and methods for development of cooperative arrangements with other criminal justice professionals are discussed.
Lecture: 3 hours – Lab: 0 hours

LAWE 153 Civil Liability in Law Enforcement (SP) 4 credits
Coverage of potential areas of liability such as: tort law, vicarious liability, and civil rights legislation.
Lecture: 4 hours – Lab: 0 hours

LAWE 155 Managing Police Operations (W) 4 credits
Managing police operational units such as: investigations, patrol, internal investigations and traffic.
Lecture: 4 hours – Lab: 0 hours

LAWE 204 Juvenile Procedures (A,SP) 3 credits
Organization, functions, and jurisdiction of juvenile agencies. Processing and detention of juveniles. Statutes and court procedures relating to juveniles. Police services for juveniles and neglected children. Rights and liabilities of minors and their parents.
Lecture: 2 hours – Lab: 2 hours

LAWE 208 Community Based Corrections (W) 3 credits
This course will investigate alternative models of corrections in place of institutionalizing the offender. Various alternatives, and the benefits that will derive from the placing of the offender back in the community rather than in an institution will be discussed.
Lecture: 3 hours – Lab: 0 hours

LAWE 210 Crisis Intervention (A,SP) 3 credits
This course provides the student with intervention strategies for dealing with persons in crises. The areas of domestic disputes, suicide prevention, and the special problems of crime victims will be emphasized.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$10.00

LAWE 211 Institutional Corrections (A) 3 credits
An exploration of the development and the purposes of correctional institutions. Emphasis will be placed on major correctional facilities at the state and federal levels. Operation of such facilities and the care and treatment of prisoners will be examined.
Lecture: 3 hours – Lab: 0 hours

LAWE 212 Ohio Criminal Code (A,SP) **4 credits**
The study of the statutes of Ohio that apply to crime and criminal procedures. With emphasis on the specific elements necessary to constitute individual crimes.
Lecture: 3 hours – Lab: 2 hours

LAWE 214 Intrduction to Cyberlaw (W) **3 credits**
The technological advancements associated with computers and the world wide web have led to increased criminal activity involving such technology. In addition laws regulating computer usage, the web, and intellectual property issues have become very complex. This course examines these issues and the difficulties associated with investigating such activities.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: CPT 101

LAWE 218 Supervision of Public Service Personnel (A,SP) **3 credits**
Supervision techniques applied to public service personnel. The study of the need for job descriptions and job procedures, civil service requirements, reports, oral and written directions, work evaluation, and conference leadership. Methods of instruction effective in teaching and motivating personnel.
Lecture: 3 hours – Lab: 0 hours

LAWE 219 Correctional Law (W) **4 credits**
This course will cover the various supreme court rulings that deal with the care and treatment of prisoners confined in institutions. It will include the use of force, the right to have visitors, receive mail, attend religious functions, and the right to treatment. The course will also cover due process of law.
Lecture: 4 hours – Lab: 0 hours

LAWE 220 Constitutional Law (A,SP) **3 credits**
A study of federal and state constitutional law and the Bill of Rights with emphasis on: due process of law, equal protection of the law, jury trial, and assistance of counsel. Interpretation of the constitution by the United States Supreme Court as given in their decisions.
Lecture: 3 hours – Lab: 2 hours

LAWE 221 Counseling - Probation and Parole (SP) **4 credits**
This course covers the responsibilities and duties of the correctional counselor and case worker. Emphasis is placed upon the application of professional standards of casework in the correctional setting. Emphasis is also placed on the functions of the parole and probation officers.
Lecture: 4 hours – Lab: 0 hours

LAWE 223 Correctional Administration (SP) **3 credits**
This course will cover the various phases of administration as they relate to corrections. Three basic stages are covered; executive, mid-management and line operations. Each of these levels will be discussed as they relate to institutions, community-based institutions, and operation of probation and parole. The problems and possible solutions to them will be covered for each division of corrections.
Lecture: 3 hours – Lab: 0 hours

LAWE 231 Criminal Justice Planning and Analysis (W) **3 credits**
Decision making and analysis, using research, police resource allocation, project management.
Lecture: 2 hours – Lab: 2 hours

LAWE 232 Task Force/Major Case Management (A) **3 credits**
The management of groups of people in concentrated effort to effectively handle all facets of a major case or in dealing with emergencies.
Lecture: 2 hours – Lab: 2 hours

LAWE 241 Correctional Internship I (TBA) **1 credit**
On-the-job training in the field of corrections. The student will work in a correctional agency. The course will include the interviewing of convicted felons, verification of the information received, and various other duties connected with probation and parole.
Lecture: 0 hours – Lab: 10 hours
Prerequisite: LAW 205
Concurrent: LAW 249

LAWE 242 Community Policing (SP) **4 credits**
Contemporary community policing issues such as crime prevention, community education, and police deployment strategies will be explored. Internal departmental changes and methods of obtaining cooperation and commitment by department personnel will also be examined.
Lecture: 4 hours – Lab: 0 hours

LAWE 243 Forensic Science for Law Enforcement Managers (TBA) **3 credits**
Managing a forensic laboratory and/or crime scene search unit. Advanced forensic techniques will be explored.
Lecture: 2 hours – Lab: 2 hours

LAWE 244 Budgeting and Grant Writing for Criminal Justice Admin. (TBA) **3 credits**
This course examines the various frameworks for budgeting and budget management in criminal justice agencies. Students will learn a process for obtaining and managing state, federal, or foundation grants. A sample grant application will be developed.
Lecture: 2 hours – Lab: 2 hours

LAWE 245 Media and the Police (TBA) **3 credits**
This course will examine the difficult relationship of the media to the police. The development of a departmental media policy, and the utilization of the media for departmental advantage will be explored.
Lecture: 3 hours – Lab: 0 hours

LAWE 249 Corrections Seminar I (TBA) **1 credit**
This seminar will cover the pre-sentence investigation report, the purpose and how they are compiled. Members of the internship program will be able to discuss the problems and events that they have encountered during their work at the probation office with each other and the instructor.
Lecture: 1 hours – Lab: 0 hours
Prerequisite: LAW 205
Concurrent: LAW 241

LAWE 252 Police Administration (A) **3 credits**
The contemporary local law enforcement agency, its functions, structure, and operational techniques. Principles of organization, staffing, budgeting, controlling, coordination, planning and research. The development and maintenance of liaison between agencies.
Lecture: 3 hours – Lab: 0 hours

LAWE 253 Criminal Procedure (W,SU) **3 credits**
A study of the rules of procedures as they apply to criminal cases and affect the ability of the officer to have the evidence he/she collects or prepares presented in court.
Lecture: 2 hours – Lab: 2 hours

LAWE 254 Correctional Internship II (TBA) **1 credit**
On-the-job training in the corrections setting. The student will work in a correctional agency. The course will consist of making background investigations for parole board, checking of inmates at various halfway houses, and interviewing persons on parole.
Lecture: 0 hours – Lab: 10 hours
Prerequisite: LAW 241
Concurrent: LAW 255

LAWE 255 Corrections Seminar II (TBA) **1 credit**
This course is a discussion of what has occurred during the student's internship and clarification of problems. Assignment of project and explanation of reason for the project.
Lecture: 1 hours – Lab: 0 hours
Prerequisite: LAWE 249
Concurrent: LAWE 254

LAWE 256 Law Enforcement Practicum I (A,W,SP,SU) **2 credits**
A guided work experience in a law enforcement agency. Students will observe and participate in a variety of law enforcement functions. Exact duties will be decided on by agreement of the student and the law enforcement agency.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: Permission of the chairperson.
Concurrent: LAWE 257

LAWE 257 Law Enforcement Practicum Seminar I (A,W,SP,SU) **1 credit**
Seminar discussions of work experience, and development strategies to improve work performance. Prerequisite: Permission of the chairperson.
Lecture: 1 hours – Lab: 0 hours
Concurrent: LAWE 256

LAWE 258 Law Enforcement Practicum II (On Demand) **2 credits**
A guided work experience in a law enforcement agency. Students will observe and participate in a variety of law enforcement functions. Exact duties will be decided upon by agreement of the student and the law enforcement agency.
Lecture: 0 hours – Lab: 14 hours
Prerequisite: Permission of the chairperson.
Concurrent: LAWE 259

LAWE 259 Law Enforcement Practicum Seminar II (On Demand) **1 credit**
Seminar discussions of work experience, and development of strategies to improve work performance. Prerequisite: Permission of the chairperson.
Lecture: 1 hours – Lab: 0 hours
Concurrent: LAWE 258
Lab fee: \$5.00

LAWE 260 Criminal Evidence and Trial (A,SP) **3 credits**
In this course the student will study the rules of evidence as they relate to the introduction of evidence at trial. In addition to the study of rules, students will participate in a mock trial in which evidence they have collected, preserved and processed will be presented.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$5.00

LAWE 261 Defensive Driving and Emergency Response (SP) **2 credits**
Defensive driving is driving to prevent accidents from occurring in spite of the actions of others or the presence of adverse conditions. Students will learn recommended driving principles and practices through vehicle operation. The student will also learn the skills necessary to administer emergency aid until assistance can be obtained.
Lecture: 0 hours – Lab: 4 hours
Lab fee: \$25.00

LAWE 263 Arrest and Control (SU) **4 credits**
The student will learn: the basic principles and tactics of unarmed self-defense, how to defend against physical attack, and control of aggressive behavior in effecting an arrest using minimum force.
Lecture: 1 hours – Lab: 6 hours
Prerequisite: LAWE 102

LAWE 264 Police Firearms (SU) **3 credits**
Students will learn to safely use police firearms including pistol and shotgun. Shooting decisions and alternatives to firearm use are covered. Successful completion of the course requires compliance with current Ohio Peace Officers Training Council qualification standards.
Lecture: 0 hours – Lab: 6 hours
Lab fee: \$25.00

LAWE 265 Police Physical Fitness (A) **3 credits**
This course will utilize the proven methods developed by the Aerobic Institute in measuring and attaining fitness. A baseline of fitness will be established for each student and an individual exercise program will be decided upon. Class activities may include aerobics, jogging, and if needed, weight training.
Lecture: 1 hours – Lab: 4 hours

LAWE 266 High Rise Safety (A) **2 credits**
Discussions of the particular problems related to the fire safety in high rise buildings. Students will research and establish life-safety plans for a building. Information gained from previous incidents in high rise buildings will be utilized.
Lecture: 1 hours – Lab: 2 hours
Lab fee: \$5.00

LAWE 268 Hazardous Materials I (A) **3 credits**
An introduction to the properties and behaviors of hazardous chemicals in our environment. A study of the physical and chemical characteristics of toxic, flammable, and reactive substances in the forms of solids, liquids, and gases combined with overview of methods for safely responding to emergencies involving such materials. Emphasis will be placed on safe approach to incident scenes, positive identification of materials, and accurate analysis of the hazards presented by hazardous materials.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$6.00

LAWE 271 Contemporary Issues in Law Enforcement (SP, A) **3 credits**
A review of important facts in modern law enforcement along with an examination of current topics and trends.
Lecture: 3 hours – Lab: 0 hours

LAWE 273 Legal Computing **2 credits**
Course is designed to focus on legal style microcomputing for law enforcement and legal assisting personnel. Emphasis is on the legal history, copyright, computer crimes, computer security and legal computer systems.
Lecture: 2 hours – Lab: 1 hours
Prerequisite: CPT 101/ Optional LEGL 251

LAWE 275 Police Management Assessment (SP) **4 credits**
A capstone course in which students participate in typical assessment center evaluation techniques. These techniques include: in-basket/out-basket, written problem solving, structured oral exercise, leaderless group, and subordinate counseling.
Lecture: 3 hours – Lab: 2 hours

LAWE 299 Special Topics in Law Enforcement **3 credits**
Special Topics in Law Enforcement is a course that utilizes a variety of instructional techniques to meet the needs of the constantly changing law enforcement, corrections, and legal community. The course will be designed with the advice of the particular group requesting the course and/or the Law Enforcement faculty, and Department Chairperson.
Lecture: 3 hours – Lab: 0 hours

Legal Assisting (LEGL)

LEGL 101 Introduction to Legal Assisting (A, W, SP, SU)

4 credits

The role of the legal assistant, ethical responsibilities, and legal restrictions are the main focus of this course. Students will also be introduced to the function of statutes, case law, administrative regulations and constitutions within the legal system.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: ENGL 101 or placement into ENGL 101

Lab fee: \$5.00

LEGL 102 The Legal System (A, W, SP, SU)

2 credits

This course explores the federal and state civil law systems, federal and state criminal law systems, appellate process and such concepts as jurisdiction and venue.

Lecture: 2 hours – Lab: 0 hours

Lab fee: \$5.00

LEGL 103 Law Office Procedures and Management (A, W, SP, SU)

3 credits

This course is an introduction to the day to day operation of a law office. Emphasis will be placed on the development of accurate records keeping skills and developing an understanding of office management procedures unique to law offices, including computerized time keeping and billing programs.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$5.00

LEGL 111 Legal Research and Writing I (A, W, SP, SU)

4 credits

An introduction to conducting legal research and the proper methods of preparing briefs, pleadings and memorandum of law. Locating, analyzing and checking of case law is emphasized. Students will learn proper citation methods, and legal writing style, as well as becoming familiar with the Ohio and Federal Rules of appellate procedure.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 112 Legal Research and Writing II (A, W, SP, SU)

4 credits

A continuation of LEGL 111, developing advanced research skills with an emphasis on preparing legal documents. Students will be familiar with primary and secondary sources, computer assisted research and a variety of legal documents. The student will also participate in a brief writing competition.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: LEGL 111

LEGL 113 Legal Research and Writing III (On Demand)

5 credits

This course is an intense production-oriented research and writing course designed to prepare the student to function under the requirement of rapid completion of research and writing assignments commonly made in law offices, and other legal environments. The student will encounter a variety of opportunities including motions, pleadings and briefs the production of which will require both speed and accuracy, and incorporate both printed and computer-based research strategies.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: LEGL 112 and LEGL 251

Lab fee: \$5.00

LEGL 114 Family Law (W, SU)

3 credits

Domestic relations matters including: marriage, divorce, dissolution, child custody and support, visitation and adoptions. The law regulating such

matters and the drafting of appropriate documents will be emphasized.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 119 Real Estate Transactions (A, SP)

3 credits

A study of the law governing real property, its ownership, sale, lease or other conveyance. The instruments utilized in conveyance or lease of such property will be examined and drafted. Title searching and abstracts of title are included.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 201 General Practice (A, SP)

4 credits

This course will acquaint the student with a variety of matters that may be encountered in a law practice. The basic elements of torts and contracts will be covered as well as judgments and civil collection actions.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 205 Litigation Practice and Procedure I (A, SP)

3 credits

A study of the Ohio Rules of Civil Procedure, the Federal Rules of Civil Procedure, and Federal and State Rules of Evidence. The basic elements of a tort claim will be discussed and the initial phases of an action, the complaint pleadings and discovery and pre-trial phases will be examined.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 210 Criminal Law and Procedure (A, SP)

3 credits

The Ohio Criminal Code and Rules of Criminal Procedure will be the foundation of this examination of the pre-trial and post-trial procedures in a criminal case. Students will be exposed to the criminal justice system from the elements of offenses through post-conviction remedies. The drafting of motions and other documents associated with criminal matters will be included.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 215 L.A. Practicum I (A, W, SP, SU)

2 credits

A guided work experience in an office or agency providing legal services. Exact duties are decided upon by agreement of the student and administrators of the placement site.

Lecture: 0 hours – Lab: 14 hours

Prerequisite: Permission of instructor

LEGL 216 L.A. Practicum Seminar I (A, W, SP, SU)

1 credit

Seminar discussion of work experiences and the development of strategies to improve work performance.

Lecture: 1 hours – Lab: 0 hours

Prerequisite: Permission of instructor

LEGL 220 Business Organizations (A, SP)

3 credits

The fundamentals of the formation of business entities including sole proprietorships, partnerships, and corporations. Students will prepare documents regarding the formation of such organizations.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 224 Probate Law and Practice I (A, SP)

3 credits

The law of wills, estates and estate administration including estate taxation. Testate and intestate estates, law of descent and distribution, estate

planning and other probate processes will be discussed.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 226 Administrative Law (A, SP) 3 credits

Statutory law, case law, and administrative rules will be utilized to develop an understanding of the role and authority of administrative agencies. Particular attention will be paid to social security and workers compensation claims.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 227 L.A. Practicum II (A, W, SP, SU) 2 credits

Further work experience in an office or agency providing legal services. Exact duties will be decided upon by the student and administrators of the placement site.

Lecture: 0 hours – Lab: 14 hours

Prerequisite: Permission of instructor

LEGL 228 L.A. Practicum Seminar II (A, W, SP, SU) 1 credit

Seminar discussion of current work experiences and the development of further strategies for improvement.

Lecture: 1 hours – Lab: 0 hours

Prerequisite: Permission of instructor

LEGL 229 Certified Legal Assistants Exam Review (On Demand) 2 credits

This course is designed as a review course for the student/graduate wishing to take the Certified Legal Assistant Exam. It will examine all areas of procedural and substantive law included on the CLA exam as well as the ethics section of the test. Students taking the course must successfully pass a mock CLA exam to complete the course.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: LEGL 228

Lab fee: \$10.00

LEGL 230 Special Problems in Legal Assisting (On Demand) 2 credits

This course is a special topics course designed to allow the student to research and develop an understanding of legal assisting issues unique to the interests of the student and for which there is no other course available, the content of which will address such issues. This course is offered on an independent study basis only.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: Permission of Chairperson

LEGL 232 Taxation (W, SP) 3 credits

Fundamentals of state, local and federal tax laws. The agencies and tribunals involved in tax matters will be examined. Specific research strategies and document preparation relative to tax issues are explored.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 234 Litigation II (W) 3 credits

Building on the knowledge gained in Litigation I, students will examine the role of the attorney in the trial process, case preparation and organization of materials for trial. Students will prepare a hypothetical case for trial.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: LEGL 205

Lab fee: \$5.00

LEGL 236 Probate Law II (On Demand) 3 credits

The law of guardianship and trusts with emphasis on guardianship administration, land sales and trust accounting.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 224

Lab fee: \$5.00

LEGL 238 Insurance Law (W, SU) 3 credits

An introduction to insurance law. The course will include principles of indemnity, interests protected, the transfer of risk and claims processes.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 101

Lab fee: \$5.00

LEGL 240 Professional Malpractice (W) 3 credits

An examination of the law of malpractice with an emphasis on malpractice in health professions and an examination of risk management methods in health care. The course will focus on informed consent, vicarious liability of health professionals and health care facilities, negligence, the doctrine of res ipsa loquitur, mandatory arbitration, defenses, and medicolegal ethics.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 201

Lab fee: \$5.00

LEGL 243 Alternative Dispute Resolution Issues Seminar (A, SP, SU) 3 credits

This course is designed to examine legal, ethical, and policy issues that arise in the use of mediation, arbitration, minitrials, summary jury trial and conciliation and to help you develop mediation skills.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 205

Lab fee: \$5.00

LEGL 244 Creditor Debtor Relations (W, SU) 3 credits

Insure that the student is aware of the respective rights of creditors and debtors. An introduction to the pre-legal and legal procedures of debt collection.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 220

Lab fee: \$5.00

LEGL 248 Searching and Closing the Real Estate Title (On Demand) 4 credits

This course is designed to examine the process of real estate title searches, and to prepare the student, in detail, to perform commercial and residential real estate title closings.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 250 Intellectual Property (On Demand) 4 credits

Because businesses spend millions of dollars to build consumer confidence in their product names and logos, this course explores the world of patents, trademarks, copyrights, trade secrets, registration and protection of these business assets. The course includes a review of federal laws and case law that cover these areas. It also includes issues relating to cyber law and the internet. The student will consider the future implications for the business owner and the consumer regarding these very contemporary topics.

Lecture: 4 hours – Lab: 0 hours

LEGL 251 Computer Assisted Legal Research (A, W, SP, SU) 3 credits

A course designed to give the Legal Assisting student exposure to the ever expanding and utilized area of computer assisted research, an alter-

native to traditional, manual legal research. The student will be required to complete a series of projects within the different libraries of LEXIS in which the student will become proficient with the various uses and functions of electronic legal information retrieval.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: LEGL 111

Lab fee: \$25.00

LEGL 252 Survey of Advanced Legal Technology

(W, SU)

2 credits

The course will introduce and provide the student with computer training in document management, litigation support, billing, the Internet and Advanced computer assisted legal research. The student will be acquainted with Internet user groups where questions are asked and answered via e-mail and list servs. Legal software that supports legal administration, case management and internal network applications will be emphasized. The course will use cd-roms, extensive computer lab sessions and each student will manage a complete case on an automated platform. The goals of the course will be to provide the student with certain computer competencies that go beyond the basics and allow them to be proactive in the use of technology while at the same time utilizing creative thinking skills.

Lecture: 2 hours – Lab: 1 hours

Prerequisite: LEGL 112, LEGL 251 or by permission of Chairperson

Lab fee: \$25.00

LEGL 253 Intellectual Property (W)

4 credits

The course is a comprehensive examination of the law related to the field of intellectual property, federal and state statutes and regulations, and the registration and protection process for intellectual property.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: ENGL 101, CPT 101

LEGL 255 Introduction to Workers' Compensation Law

(A,SP)

4 credits

This course is an introduction to the Bureau of Workers' Compensation. The focus of the course is the structure of the Bureau, with an emphasis on the purpose of the agency, the hierarchy, the authority under which it operates, and basic concepts of Workers' Compensation benefits.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of instructor

Lab fee: \$5.00

LEGL 256 Introduction to BWC Claims Processing

(A,SP)

4 credits

This course is designed to acquaint the student with how the Bureau of Workers' Compensation process claims made including self-insured of state fund (BWC) claims, the calculation of wages and compensation, payment of medical bills, authorization of medical treatment, as well as how the Bureau addresses motions made, application to reactivate, and permanent partial disability settlements, from injury to resolution.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of instructor

Lab fee: \$5.00

LEGL 257 Workers' Compensation Adjudication (A,SP) 4 credits

This course is designed to acquaint the student with how to deal with state agencies, in particular the Bureau of Workers' Compensation from the claimant position. The emphasis of this course is how to acquire information available through state files and computer systems. Violations of specific safety requirements, applications for permanent total disability and the hearing process will be examined.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of instructor

Lab fee: \$5.00

LEGL 258 Workers' Compensation Rating System

(W,SU)

4 credits

This course is designed to acquaint the student with the different rating plans available through the Bureau of Workers' Compensation to establish appropriate premiums. The emphasis is on the underwriting process of the Bureau.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of instructor

Lab fee: \$5.00

LEGL 259 Workers' Compensation Practice and Procedure (W,SU)

4 credits

This course is designed to acquaint the student with the procedures to complete the hearing process in a claim against the Bureau of Workers' Compensation from both the Bureau and claimant perspective.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of instructor

Lab fee: \$5.00

LEGL 261 Business Law I (A,W,SP,SU - DL)

3 credits

Survey of the legal framework of business, the nature of legal systems and the law, including contracts, criminal, and the law of torts.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$1.00

LEGL 262 Business Law II (A,W,SP,SU - DL)

3 credits

A continuation of LEGL 261. Exploring the law of agency, corporation, partnerships, and property.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 261

Lab fee: \$1.00

LEGL 263 Business Law III (On Demand)

3 credits

An advanced examination of law as it pertains to business with emphasis on specialty areas of the law designed for the protection of business assets including the law of sales, commercial paper and secured transactions under the Uniform Commercial Code; debtor/creditor rights under the laws of bankruptcy; and the use of wills, trusts and estate planning techniques for the protection and transfer of business interest.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LEGL 262

Lab fee: \$1.00

LEGL 264 Legal Environment of Business

(A, W, SP, SU - DL)

4 credits

An overview of the American legal system with an introduction to the legal concepts and principles that form its foundation. The course will examine the judicial system and methods of dispute resolution, while focusing on business crimes and torts, including product liability, ethics, contract formation and enforcement, consumer protection, employment law, environmental regulations, business organizations, particularly sole proprietorship, partnerships, and corporations. Students will be able to understand the legal ramifications of their business decisions.

Lecture: 4 hours – Lab: 0 hours

Lab fee: \$2.00

LEGL 265 Business Law for Accountants

(A, W, SP, SU)

5 credits

An in-depth examination of business law as it applies to the accounting discipline with an emphasis on those topics directly relating to the Business Law section of the Certified Public Accountants Examination, including Professional Responsibility of the C.P.A.

Lecture: 4 hours – Lab: 2 hours

Lab fee: \$5.00

LEGL 266 Liability Issues in Health Occupations**(On Demand)****3 credits**

An examination of liability concerns in health occupations; examination of risk management methods in health care. The course will focus on informed consent, medical malpractice and vicarious liability issues.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: ENGL 101

Lab fee: \$5.00

LEGL 269 Consumer Law (On Demand)**4 credits**

This course is an examination of the various state and federal statutes and regulations that govern the relationship of debtor and creditor. Statutes discussed include, but are not limited to the Fair Debt Collection Act, Uniform Consumer Credit Code (UCCC) and Article 9 of the Uniform Commercial Code (UCC).

Lecture: 4 hours – Lab: 0 hours

Concurrent: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 272 Mediation (W, SU)**4 credits**

This course is an intensive overview of the mediation process. Students will study, in-depth, both statutory and private mediation processes. Students will review domestic relations mediation, employment fact-finding and labor mediation processes. Additionally, the student will learn the different models of mediation with particular emphasis on the Seven Step model. Each student will be involved in preparing and conducting several mediation role playing sessions as both mediator and participants. The fundamentals of researching Arbitration decisions and legal resources in arbitration will be examined with special emphasis on Internet resources. Each student will conduct a mediation in class and prepare a mediation notebook as a final project.

Lecture: 4 hours – Lab: 4 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 275 Overview of Bankruptcy Law and Practice**(On Demand)****4 credits**

This course is designed to acquaint the student with the statutory and regulatory structure, location and jurisdiction of bankruptcy law and bankruptcy courts and their non-judicial officers. Parties and proceedings will be discussed as well as an overview of the bankruptcy chapters.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 281 Social Security Practice and Procedure**(On Demand)****4 credits**

This course is designed to introduce the student to the origination of Social Security, its jurisdiction and regulation, and the practice and procedure within the Social Security Administration.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 285 Estate Administration (On Demand)**4 credits**

This course is designed to familiarize the student with the various methods of estate administration including full administration of testate and intestate estates and the process of completing the same, including introduction to tax forms, and relief from administration.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 287 Wills, Trusts and Powers of Attorney**(On Demand)****5 credits**

This course is an in-depth examination of the law relating to wills, trusts, and powers of attorney, the development and execution of the same, and

the application of these probate tools to development and protection of estates.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

LEGL 291 Arbitration (On Demand)**4 credits**

The course is an intensive overview of the Arbitration Process. Students will study in-depth both court annexed arbitration and private arbitration processes. The fundamentals of researching Arbitration decisions and legal resources in arbitration will be examined with special emphasis on Internet resources. Each student will conduct an arbitration in class and prepare an arbitration notebook as a final project.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: LEGL 228 or by permission of Chairperson

Lab fee: \$5.00

Logistics (LOGI)**LOGI 100 Principles of Logistics (A,W,SP,SU)****5 credits**

A study of the basic concepts included in the field of logistics with particular emphasis on the economic significance of distribution to business and the U.S. economy. The interrelationship between logistics and other areas of business will be covered with particular emphasis on how logistics can significantly impact customer loyalty by adding value. Knowledge of basic algebraic concepts is strongly recommended.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$3.00

LOGI 110 Transportation & Traffic Management (W) 3 credits

Introduction to traffic management function including mode and carrier selection.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LOGI 100.

Lab fee: \$3.00

LOGI 151 Purchasing Principles I (A, SP)**3 credits**

This course is designed to teach the basics of purchasing management to the newly appointed buyer or non-purchasing personnel looking to broaden their business knowledge. Topics covered include: the challenge of purchasing and materials management, objectives and organization, function, specification, quality control and inspection, computerization, and quality considerations.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$3.00

LOGI 152 Purchasing Principles II (W)**3 credits**

This course is a continuation of Purchasing Principles I and focuses on how the basics of good buying can be used effectively to meet the challenges and responsibilities of the constantly changing business climate. Topics include: forward buying, international purchasing, buying capital assets and purchasing transportation services.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LOGI 151

Lab fee: \$3.00

LOGI 205 Freight Claims (W)**3 credits**

A study of freight loss, damage claims, and adjustment of claims in various modes of transportation including carrier and shipper liability, transportation documentation, and claim filing procedures.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: LOGI 100.

Lab fee: \$3.00

LOGI 208 Production (A) **4 credits**
A study of production issues as they relate to manufacturing and service firms. Lot sizing and order management techniques will be studied.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: LOGI 100, MATH 135 or permission of instructor.
Lab fee: \$3.00

LOGI 209 Quantitative Methods for Logistics (SU) **5 credits**
A study of quantitative tools helpful to the logistics professional. This course is recommended for the advanced student or the working professional.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: LOGI 100 and permission of instructor
Lab fee: \$13.00

LOGI 210 Warehouse Management (A, SP) **3 credits**
Analysis of warehousing functions and management. Topics covered include facility location and operation, labor relations, financial analysis and productivity improvement and measurement.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: LOGI 100
Lab fee: \$3.00

LOGI 211 Inventory Control (W) **4 credits**
A study of inventory control problems and methods. Topics covered include demand forecasting, independent demand inventory systems, inventory models and aggregate planning.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: LOGI 100, MATH 103, MATH 135 or permission of instructor.
Lab fee: \$3.00

LOGI 225 Export/Import (SP) **3 credits**
A study of global logistics with emphasis on the requirements for importing and exporting. Laws, regulations, paperwork and international billing terms will be discussed.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: LOGI 100
Lab fee: \$3.00

LOGI 240 Transportation Law/Regulations (SU) **2 credits**
A study of transportation law and regulation with emphasis on shipper responsibilities. Claims, undercharge avoidance, contracting, and the shipper's bill of lading are discussed.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: LOGI 100
Lab fee: \$3.00

LOGI 241 Logistics Practicum I (A,W,SP) **4 credits**
Supervised on-the-job application of knowledge and skills acquired in the classroom. Open to Logistics Management Technology students only. Internship applications must be filed with the Department at least 2 months prior to the internship start date.
Lecture: 0 hours – Lab: 28 hours
Prerequisite: Advisor approval required
Concurrent: LOGI 242
Lab fee: \$3.00

LOGI 242 Logistics Seminar I (A,W,SP) **2 credits**
Application of logistics knowledge to specific areas of on-the-job experience. Open to Logistics Management Technology students only. Internship applications must be filed with the Department at least 2 months prior to the internship start date
Lecture: 0 hours – Lab: 4 hours
Prerequisite: Advisor approval required
Concurrent: LOGI 241
Lab fee: \$3.00

LOGI 245 Transportation Rates & Pricing (AU) **2 credits**
Transportation rates and pricing, including carrier cost structures and industry economics. Emphasis will be on negotiation of favorable rates from carriers and proper preparation for same.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: LOGI 100
Lab fee: \$3.00

LOGI 246 Purchasing Negotiation (SP) **3 credits**
Skills required to prepare for and conduct purchasing negotiations.
Lecture: 3 hours - Lab: 0 hours
Prerequisite: LOGI 151 or permission of instructor
Lab fee: \$3.00

LOGI 256 Advanced Purchasing Seminar (SP) **3 credits**
A capstone course designed for the Purchasing major. A comprehensive case study approach will be used to understand purchasing as the primary materials procurement activity while integrating purchasing with other materials management activities. Topics covered include: legal considerations, public purchasing, the planning process, and control functions such as inventory control, budgeting, and production.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: LOGI 152
Lab fee: \$3.00

LOGI 271 Advanced Logistics (SP) **5 credits**
A capstone course designed to develop an overall appreciation of the logistics function and its relationship to business strategy.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Completion of at least 12 credit hours in logistics or advisor approval and MATH 135.
Lab fee: \$3.00

LOGI 297 Special Topics in Logistics (On Demand) **1-3 credits**
Detailed examination of special topics of interest in logistics. Topics vary.
Lecture: 1 hours – Lab: 3 hours
Lab fee: \$3.00

Marketing (MKTG)

MKTG 111 Marketing Principles (A,W,SP,SU - DL) **5 credits**
The fundamentals of product planning, pricing, promotion and distribution of goods and services with emphasis on the impact of a global economy and technology on marketing activities. Additional attention is given to consumer behavior, market research and market strategies.
Lecture: 5 hours – Lab: 0 hours
Lab fee: \$3.00

MKTG 122 Business & the Internet (A,SP) **3 credits**
An overview of how to use the Internet to gather and evaluate primary and secondary sources of business information for product development, market research, sales, advertising and promotion, and customer service/retention.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$13.00

MKTG 131 Market Research Principles (A,SU) **3 credits**
An introduction to the field of market research with particular emphasis on how to use research data to make better marketing decisions. Topics covered include the market research process, research design and data sources, data collection and the analysis of marketing research data.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 and MATH 101 or instructor approval.
Lab fee: \$3.00

MKTG 140 Advertising and Promotion (A,SP) 5 credits
An introduction to the critical role that advertising and promotion play in marketing activities. Topics covered include promotional program development and analysis, the communications process and evaluating an integrated marketing communications program.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval
Lab fee: \$3.00

MKTG 150 Introduction to E-Commerce (A, SP) 3 credits
This course provides an overview of the technical and marketing aspects of e-commerce. Students are introduced to basic network concepts and protocols; how various markets (consumer, business- to-business, and government) make use of e-commerce; the four fundamental marketing considerations of product, price, distribution/place and promotion as informed by interactive media; and, a brief overview of the design, financial and ethical aspects of e-commerce.
Lecture: 2 hours – Lab: 2 hours
Lab fee: \$10.00

MKTG 221 Consumer Behavior (WI, SU) 3 credits
Consumer behavior is designed to assist the student in developing a fuller understanding of the influences, both internal and external, that determine consumer behavior.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval.
Lab fee: \$3.00

MKTG 223 Sales (A,SP) 3 credits
Practical application of selling theory in a variety of personal selling situations. All phases of the selling process (from initial contact to the close of the sale) are taught.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval
Lab fee: \$3.00

MKTG 224 Public Relations (A) 3 credits
Public relations examines both the theoretical and practical factors that contribute to a firm's image among its many publics. The emphasis is on public relations as a function of management as well as an adjunct of promotion.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval
Lab fee: \$3.00

MKTG 226 Customer Service Principles (A,W,SP,SU) 3 credits
A study of customer service principles used in business. Concepts and key elements will be explored. Techniques will be developed for small business applications. Topics include customer service overview, key elements of customer service, trends, industry examples, business impact and legal implications.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval.
Lab fee: \$3.00

MKTG 227 Customer Service Case Studies (SP) 3 credits
A study of the process for achieving excellence in customer service. Key quality characteristics will be explored and techniques will be developed for measuring and delivering excellent service.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 226 or instructor approval.
Lab fee: \$3.00

MKTG 228 Advanced Sales (W) 3 credits
This course is designed to help students understand the thought processes, motives and attitudes that impact the selling process. Topics covered in-

clude the 'system' used by sellers and buyers, the visual perception of behavior, the success triangle and self management. Case studies, role playing and team projects are an integral part of this course.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 223 or instructor approval
Lab fee: \$3.00

MKTG 229 Business-to-Business Marketing (A,SP) 3 credits
A comprehensive overview of the marketing principles and practices utilized in business-to-business marketing. An empirical approach is taken to analyzing marketing strategy in business to business environments. Additional emphasis is placed on organizational marketing, future trends and the impact of technology on business-to-business marketing.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval
Lab fee: \$3.00

MKTG 236 Direct Marketing (SP) 3 credits
A survey of the direct marketing process including the theory and practice of direct marketing, its function and organization. Topics covered include direct response television/ radio, database marketing, list selection and evaluation, direct marketing media and planning. Special emphasis is placed on how to integrate direct marketing into the overall marketing mix.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MKTG 111 or instructor approval
Lab fee: \$3.00

MKTG 237 Database Marketing (W) 3 credits
An overview of the use of databases in consumer and business-to-business marketing to both acquire and retain customers. Particular emphasis is placed on developing in-house databases, purchasing lists and managing a marketing database.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: instructor approval
Lab fee: \$3.00

MKTG 241 Marketing Practicum I (A,W,SP,SU) 4 credits
Supervised on-the-job application of knowledge and skills acquired in the classroom. Internship applications must be filed with the Department at least 2 months prior to the internship start date.
Lecture: 0 hours – Lab: 28 hours
Prerequisite: 12 hours in technology or permission of instructor.
Concurrent: MKTG 242.
Lab fee: \$3.00

MKTG 242 Marketing Seminar I (A,W,SP,SU) 2 credits
Application of marketing knowledge to specific areas of on-the-job internship. Internship applications must be filed with the Department at least 2 months prior to the internship start date.
Lecture: 0 hours – Lab: 4 hours
Prerequisite: Open to Marketing Technology students only, permission of instructor.
Concurrent: MKTG 241.
Lab fee: \$3.00

MKTG 251 Marketing Practicum II (A,W,SP,SU) 4 credits
Continuation of MKTG 241. Open to Marketing Technology students only. Internship applications must be filed with the Department at least 2 months prior to the internship start date.
Lecture: 0 hours – Lab: 28 hours
Prerequisite: MKTG 241 and advisor approval required the quarter before the student actually begins the internship
Concurrent: MKTG 252.
Lab fee: \$3.00

MKTG 252 Marketing Seminar II (A,W,SP,SU) 2 credits
 Application of marketing knowledge to specific areas of on-the-job internship. Internship applications must be filed with the Department at least 2 months prior to the internship start date.
 Lecture: 0 hours – Lab: 4 hours
 Prerequisite: MKTG 242. Open to Marketing Technology students only.
 Concurrent: MKTG 251
 Lab fee: \$3.00

MKTG 261 Financial Analysis of Direct Marketing Results (SU) 2 credits
 Overview of the bases and uses of financial and decision-making methods in consumer and business-to-business direct marketing. Particular emphasis on list database acquisition and maintenance costs, costs of creative and production, and overall assessment of program using ROI.
 Lecture: 2 hours – Lab: 0 hours
 Prerequisite: MKTG 236 or permission of instructor.
 Lab fee: \$3.00

MKTG 263 Direct Marketing Creative (A) 2 credits
 Overview of how to create and evaluate effective direct response materials. Topics covered include: establishing a “unique selling proposition,” copywriting guidelines, how to use graphic support, offer development, and the inclusion of token/stamps to increase audience interaction. Special attention is given to how to select appropriate formats including computerized letters, self-mailers, broadsides, and brochures.
 Lecture: 2 hours – Lab: 0 hours
 Prerequisite: MKTG 236 or permission of instructor.
 Lab fee: \$3.00

MKTG 264 Call Center Operations (SP) 3 credits
 Introduction to the concepts and skills needed to be an effective telephone call service center supervisor. Topics covered include call center theory, impact of technology on operations, interpersonal communications, telecommunications techniques and supervisor techniques.
 Lecture: 3 hours – Lab: 0 hours
 Prerequisite: MKTG 227 or permission of instructor.
 Lab fee: \$3.00

MKTG 265 Understanding Interactive Users (W) 3 credits
 This course provides a comprehensive model for understanding consumer decision making in an interactive environment. Emphasis is placed on the differences and similarities between classic research techniques and traditional consumer behavior models and their interactive complements. Particular emphasis is placed on the techniques and trends used to conduct online research, including how to leverage existing sources, online chat-based sessions, email feedback, and online focus groups.
 Lecture: 2 hours – Lab: 2 hours
 Prerequisites: MKTG 150
 Lab fee: \$10.00

MKTG 266 Marketing Communications on the Web (SP) 3 credits
 The course provides students an overview of the marketing communications opportunities and challenges facing web marketers. Topics covered include developing an online marketing strategy, online selling, Web-based promotion, customer service and publicity. Special emphasis is placed on emerging e-commerce strategies, such as auditing effective of online advertising, permission marketing, affiliate programs and e-mail strategies.
 Lecture: 2 hours – Lab: 2 hours
 Prerequisites: MKTG 150
 Lab fee: \$10.00

MKTG 267 Electronic Payment Systems (SU) 3 credits
 This course explores the financial fundamentals of setting up an electronic business and the day-to-day money operations of an E Business.

Covered are: capital budgeting, and diversification, risk and return, capital structure, e credit card transactions, payment gateways, cyberscash, electronic banking, billing servers, e cash, secure check, negotiable electronic instruments and future electronic payment technologies. Students will select an electronic paymentsystem for their website.
 Lecture: 2 hours – Lab: 2 hours
 Prerequisites: MKTG 150
 Lab fee: \$10.00

MKTG 270 International Business Practice Firm (A,W,SP) 4 credits
 Designed to give students an international business experience through the use of a “Simulated Company.” The company will function within a network of national international “Simulated Companies.” Students will act as employees of the company and will work as team members to perform various business functions (i.e. marketing, purchasing, and accounting) in a technology based environment. As employees of the firm, students will transact business with students in other simulated companies in the U.S. and in other countries.
 Lecture: 2 hours – Lab: 4 hours
 Prerequisite: 12 hours of Marketing courses, CPT 101, FMGT 201 or ACCT 106, and permission of instructor

MKTG 271 Advanced Marketing (W,SU) 5 credits
 A capstone course designed to develop a broader understanding of the marketing function and its relationship to business strategy. Students will use the case method to determine appropriate marketing strategies and plans for existing organizations.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: Completion of at least 12 credit hours in technology and ACCT 106 or advisor approval.
 Lab fee: \$3.00

MKTG 281 Advanced Direct Marketing (SP) 5 credits
 A capstone course for direct marketing majors designed to provide a comprehensive understanding of direct marketing activities. Students will use the case method to determine appropriate direct marketing strategies and plans for various existing organizations.
 Lecture: 5 hours – Lab: 0 hours
 Prerequisite: Completion of at least 12 credits in technology. Open to Direct Marketing majors only.
 Lab fee: \$3.00

MKTG 285 Advertising & Promotion on the Web (AU, SP) 1 credit
 This course provides the student with an overview of how the Internet can be used as a part of an organization’s advertising and promotion strategy. The focus is on the Internet as another means of communicating with an organization’s various target markets.
 Lecture: 1 hours – Lab: 0 hours
 Lab fee: \$3.00

MKTG 286 Customer Service on the Web (AU, SP) 1 credit
 This course provides the student an opportunity to see how the Internet can be used to improve the basic delivery of customer service and improve customer relations for business organizations.
 Lecture: 1 hours – Lab: 0 hours
 Lab fee: \$3.00

MKTG 287 Public Relations on the Web (AU, SP) 1 credit
 The focus is on the real world use of the Internet in developing organizational objectives. Students will use the Internet to examine trends, basic concepts and current practices in public relations.
 Lecture: 1 hours – Lab: 0 hours
 Lab fee: \$3.00

MKTG 288 Marketing Research on the Web (AU, SP) 1 credit
Students will use the Internet to gather information on customers, business organizations, and non-profit institutions. Attention will be given to using the Internet as a tool to find the best sources of information to solve real-world marketing problems.
Lecture: 1 hours – Lab: 0 hours
Lab fee: \$3.00

MKTG 289 Direct Marketing on the Web (AU, SP) 1 credit
Students will use the Internet as a tool in the direct marketing process. The focus is on using the Internet as a vehicle to create databases and as a direct response mechanism for target markets.
Lecture: 1 hours – Lab: 0 hours
Lab fee: \$3.00

MKTG 291 Advanced Customer Service (SP) 5 credits
A capstone course for customer service majors designed to provide a comprehensive understanding of customer service and consumer affairs, particularly as they impact corporate goals and strategies. Students will use the case method to determine appropriate customer service strategies and plans for various organizations.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Completion of at least 12 credits in technology. Open to Customer Service majors only.
Lab fee: \$3.00

MKTG 297-298 Special Topics in Marketing (On Demand) 1 - 3 credits
Detailed examination of various topics in marketing. Prerequisites vary.
Lecture: 1 to 3 hours – Lab: 0 hours

Massage Therapy (MASS)

MASS 236 Medical Ethics for Massage Therapists (A, SP) 3 credits
An introduction to the professional practice of health care including the role of the practitioner, relationships with other health care providers, privacy and confidentiality, the concepts of liability, malpractice and negligence.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$5.00

MASS 261 Massage Technique I (A,SP) 6 credits
Introduction to the professional practice of massage therapy including hygiene, touch, stroking, friction, kneading, vibration, and percussion.
Lecture: 3 hours – Lab: 6 hours
Prerequisite: Acceptance into the program
Concurrent: MASS 271
Lab fee: \$50.00

MASS 262 Massage Technique II (W, SU) 6 credits
Introduction to the professional practice of massage therapy including the effects, indications, and contraindications of massage upon various body systems.
Lecture: 3 hours – Lab: 6 hours
Prerequisite: MASS 261
Concurrent: MASS 272
Lab fee: \$50.00

MASS 271 Massage Anatomy & Physiology I (A, SP) 5 credits
Investigation of the various human body systems, their structure and function as required by the Ohio State Medical Board for licensure as a Massage Therapist.

Lecture: 4 hours – Lab: 3 hours
Prerequisite: Acceptance into the program
Concurrent: MASS 261
Lab fee: \$50.00

MASS 272 Massage Anatomy & Physiology II (W, SU) 5 credits
Investigation of the various human body systems, their structure and function as required by the Ohio State Medical Board for licensure as a Massage Therapist.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: MASS 271
Lab fee: \$50.00

MASS 273 Massage Anatomy & Physiology III (AU, SP) 5 credits
Investigation of the various human body systems, their structure and function as required by the Ohio State Medical Board for licensure as a Massage Therapist.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: MASS 272
Lab fee: \$50.00

MASS 298 Special Topics in Massage (SU) 3 credits
This course serves to bring together concepts discussed in previous program courses. Topics of discussion will revolve around massage therapy techniques other than Swedish Massage. Topics may include but are not limited to Trigger Point Therapy, Sports Massage, Positional Release Techniques and Orthopedic Assessment techniques. Development and modification of institutional programming based on individual and group needs.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MASS 262 and SFMT 292
Lab fee: \$50.00

Mathematics (MATH)

MATH 100 Calculations and Dosages (A,W,SP,SU) 2 credits
A review of the fundamental operations of arithmetic with fractions and decimal fractions; ratio and proportion calculations; an introduction to the metric and apothecary systems of measures; metric-apothecary conversions; strengths of solutions; and calculating medication dosages; children's dosages; intravenous calculations. Meets degree requirement for the Veterinary and Medical Assisting Technologies.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: DEV 030 with a grade of "C" or higher
Lab fee: \$1.00

MATH 101 Business Mathematics (A,W,SP,SU - DL) 5 credits
Percents and the percent formula; gross earning; FICA and withholding; trade discounts; mark-up and mark-down; simple and compound interest and present value; simple discount notes; annuities and loan amortization; depreciation schedules. An introduction to descriptive statistics: mean, median, mode, and graphs. Applications labs using LOTUS. Meets degree requirement for the AAS degree in Business Management and several other technologies.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: DEV 031 with a grade of "C" or higher, or by placement
Lab fee: \$5.00

MATH 102 Beginning Algebra I (A,W,SP,SU) 4 credits
This course is a remedial preparatory course designed to improve the student's algebra and problem solving abilities. The course includes: the real number system; order of operations; simplifying expressions; solving linear equations and inequalities in one variable; applications and modeling; overview of graphing in two variables; and relations and functions. These topics are taught using an approach that integrates algebra

braic, graphic and numeric methods whenever possible. . Not open to students with credit for MATH 103 or above. A TI-82/83 graphing calculator is required. Computer-based learning: Some sections of MATH 102 will be taught each quarter providing a multimedia learning opportunity, with coursework offered on a computer.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: DEV 031 with a grade of “C” or higher, or by placement

Lab fee: \$3.00

MATH 103 Beginning Algebra II (A,W,SP,SU) 4 credits

This course is a continuation of MATH 102. This course is a remedial preparatory course designed to improve the student’s algebra and problem solving abilities. The course includes: functions; systems of equations in two variables; applications and modeling; properties of exponents; scientific notation; polynomial arithmetic, factoring and equation solving; rational expression arithmetic and simplification; and complex fraction simplification. These topics are taught using an approach that integrates algebraic, graphic and numeric methods whenever possible. Not open to students with credit for MATH 104 or above. A TI-82/83 graphing calculator is required. Computer-based learning: Some sections of MATH 103 will be taught each quarter providing a multimedia learning opportunity, with coursework offered on a computer.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MATH 102 with a grade of “C” of higher, or by placement

Lab fee: \$3.00

MATH 104 Intermediate Algebra (A,W,SP,SU) 5 credits

Interval notation; function notation and evaluation; absolute value, rational, radical and quadratic equations; analytical and graphical approaches to solving equations; linear inequalities and systems of inequalities in two variables; double and compound inequalities in one variable; operations with rational and irrational expressions; introduction to non-real numbers; applications using inequalities, rational models, and quadratic models. Not open to students with credit for MATH 110, 111, 112, 113, 125, 130, or 148 and above. A TI-82/83 graphing calculator is required. Computer-based learning: Some sections of MATH 104 will be taught each quarter providing a multimedia learning opportunity, with coursework offered on a computer.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 103 with a grade of “C” or higher, or by placement

Lab fee: \$3.00

MATH 105 Mathematics for Elementary Teachers I (A,SP) 5 credits

Development of basic concepts of arithmetic and algebra as appropriate for elementary school teachers. Instruction will focus on the development of these concepts through the use of hands on manipulatives, calculators, computers and computer software programs. The role of technology in the teaching and learning mathematics will be demonstrated.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 104 or MATH 110 with a grade of “C” or higher, or by placement

Lab fee: \$2.00

MATH 106 Mathematics for Elementary Teachers II (W,SU) 5 credits

A continuation of MATH 105. Development of basic concepts of geometry and statistics as appropriate for elementary school teachers. Instruction will focus on the development of these concepts through the use of hands on manipulatives, calculators, computers, and computer software programs. The role of technology in the teaching and learning of mathematics will be demonstrated.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 105 with a grade of “C” or higher

Lab fee: \$2.00

MATH 107 Condensed Algebra I (A,W,SP,SU) 5 credits

This course is intended for those students who need a quicker review of algebra than what is provided in MATH 102 and 103. A brief review of the Real Number System; interval notation; simplifying algebraic expressions; properties of integer exponent; the coordinate plane; function notation and evaluation; solving linear equations and inequalities; applications of linear equations and inequalities; compound inequalities; absolute value equations and inequalities and their applications; properties of linear functions: slope, ex- and y-intercepts; equations of lines: slope-intercept and point-slope; special equations of horizontal and vertical lines. Not open to students with credit for MATH 110, 111, 112, 113, 125, 130 or 148 and above. A TI-82/83 graphing calculator is required.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: By COMPASS placement or department chairperson approval

Lab fee: \$3.00

MATH 110 Condensed Algebra II (A,W,SP,SU) 5 credits

This course is intended for those students who need a quicker review of algebra than what is provided in MATH 103 and 104. Systems of linear equations and inequalities; operations on polynomials; factoring polynomials; solving quadratic equations using the zero-factor property, completing the square method, and the quadratic formula; solving rational and radical equations; simplifying rational and radical expressions; properties of radicals and rational exponents; applications of quadratic and rational equations; complex fractions; introduction to the Complex Number System; solving equations in quadratic form; quadratic functions. Not open to students with credit for MATH 111, 112, 113, 125, 130 or 148 or above. A TI-82/83 graphing calculator is required.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 107 with a grade of “C” or higher, or by placement

Lab fee: \$3.00

MATH 111 Technical Mathematics I (A,SP) 4 credits

A brief review of scientific notation and other algebraic concepts; dimensional analysis; significant digits; solutions to quadratic equations; solving formulas; ratio-proportion; direct and inverse variation; algebraic functions and rectangular coordinates; solutions to 2 x 2 and 3 x 3 linear systems, including Cramer’s Rule; and right triangle solutions. A TI-85/86 graphing calculator is required. Meets degree requirement for several technical programs.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: MATH 103 with a grade of “C” or higher, or by placement

Lab fee: \$2.00

MATH 112 Technical Mathematics II (W,SU) 4 credits

Periodic functions with emphasis on graphing the Sine and Cosine curves; sequences, series, and summation notation; exponential and logarithm functions; complex numbers, including DeMoivre’s Theorem; vectors and oblique triangles using the Law of Sines and the Law of Cosines. A TI-85/86 graphing calculator is required. Not open to students with credit for MATH 150. Meets degree requirement for technical programs.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: MATH 111 with a grade of “C” or higher

Lab fee: \$2.00

MATH 113 Technical Mathematics III (A,SP) 4 credits

Solving quadratic form equations; higher-degree equations, synthetic division, remainder and factor theorems; linear, quadratic, absolute value, and rational inequalities; trigonometric identities and equations; the straight line, circle, parabola, ellipse, hyperbola, and translation of axes; an introduction to descriptive statistics, including frequency distributions, measures of central tendency and dispersion, and the Normal Distribution. A TI-85/86 graphing calculator is required. Not open to students with credit

for MATH 150. Meets degree requirement for Electronic Engineering Technology and Mechanical Engineering Technology.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: MATH 112 with a grade of “C” or higher
Lab fee: \$2.00

MATH 121 Mathematics for Computer Technology (A,W,SP,SU) 5 credits

A study of fixed and floating-point real numbers, significant digits, scientific and normalized notations; a look at algorithm, flowchart, and pseudocode forms; a comparison of decimal, binary, octal, and hexadecimal numeration systems, conversions, and arithmetic in those systems; definitions, symbols, and operations in set theory; logical operators with truth tables and flowcharts and Boolean Algebra. Meets degree requirement for the Computer Programming Technology, the Computer Electronics major of the Electronic Engineering Technology, and the EDP Auditing major in Accounting.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 103 with a grade of “C” or higher, or by placement
Lab fee: \$2.00

MATH 125 Mathematics in a Modern World (A,W,SP,SU) 5 credits

Mathematics will be used to examine real world data. Topics will include linear, quadratic, exponential, and logarithmic functions, and their inverses, systems of equations, matrices, and right triangle trigonometry. Problems from a variety of disciplines will be studied through mathematical modeling. A TI-82/83 graphing calculator is required. This course is designed for the student who does not intend to take additional courses in mathematics. Meets the general education requirement for the AA degree. Not open to students with credit for MATH 130 or 148 or above.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 104, MATH 110, or MATH 111 with a grade of “C” or higher, or by placement
Lab fee: \$2.00

MATH 130 Mathematical Analysis for Business I (A,W,SP,SU) 5 credits

A review of algebra fundamentals including rational expressions, exponential rules, factoring, solving linear and quadratic equations, and solving linear inequalities. Function notation; symmetry, translations, and reflections of graphs of functions. An introduction to modeling of linear, quadratic, exponential, and logarithmic functions. The mathematics of finance including compound interest, annuities, amortization and sinking funds. Business applications throughout. A TI-82/83 graphing calculator is required. Not open to students with credit for MATH 148 or MATH 150. Meets general education requirement for the AA degree for a student planning to transfer to a business college at a four-year university.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 104 or MATH 110 with a grade of “C” or higher, or by placement
Lab fee: \$2.00

MATH 131 Mathematical Analysis for Business II (A,W,SP,SU) 5 credits

An introduction to finite mathematics; matrices; determinants; Cramer’s Rule; linear programming; simplex method; interpretation of graphs; applications. An introduction to sets, permutations, and combinations. An introduction to the fundamentals of calculus. A TI-82/83 graphing calculator is required. Meets general education requirement for the AA degree for a student planning to transfer to a business college at a four-year university.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 130 or MATH 148 with a grade of “C” or higher, or department chairperson approval
Lab fee: \$2.00

MATH 132 Business Calculus (A,W,SP,SU) 5 credits
An introduction to differential and integral calculus: Limits, continuity, derivatives, curve sketching, anti-differentiation, definite integrals, the Fundamental Theorem of Calculus, area, and calculus applications for business and economics. A TI-82/83 graphing calculator is required. Meets general education requirement for the AA degree for a student planning to transfer to a business college at a four-year university. Not open to students with credit for MATH 151 or MATH 152.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 131 with a grade of “C” or higher
Lab fee: \$2.00

MATH 135 Elementary Statistics (A,W,SP,SU) 5 credits
Descriptive statistics; percentiles and z-scores; probability; binomial and normal distributions; Central Limit Theorem; sampling statistics; statistical inference, estimation; testing hypothesis; linear correlation and regression. Microcomputers will be used. A TI-82/83 graphing calculator is required. Not open to students with credit for MATH 233. Meets basic related requirements for several AAS Degree technical programs. MATH 135 may be available as an honors class.
Lecture: 5 hours – Lab: 1 hour
Prerequisite: MATH 103 with a grade of “C” or higher, or by placement
Lab fee: \$6.00

MATH 147 Trigonometry Module (On Demand) 1.2 credits
Right triangle and unit circle trigonometry is studied along with related trigonometric applications. A TI-82/83 graphing calculator is required. Calculators that can do symbolic manipulations are not allowed. This module is intended to prepare students who have an adequate algebra background but lack the necessary trigonometry to succeed in Physics 117, Physics 181, or Physics 183.
Lecture: 1.2 hours – Lab: 0 hours
Prerequisite: Permission from the Mathematics Department Chairperson
Lab fee: \$0

MATH 148 College Algebra (A,W,SP,SU) 5 credits
The concept of function is used to analyze quadratic, higher degree polynomial, and rational functions. The function concept is applied to solving related equations and inequalities. Right triangle and unit circle trigonometry is included, along with related triangle applications. Conic sections are defined and analyzed. A TI-82/83 graphing calculator is required. Calculators that can do symbolic manipulations are not allowed. Meets general education requirement for AA degree. Not open to students with credit for MATH 150 and above. MATH 148 may be available as an honors class or as an honors contract.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 104, MATH 110, or MATH 111 with a grade of “C” or higher, or by placement
Lab fee: \$2.00

MATH 150 PreCalculus (A,W,SP,SU) 5 credits
A continuation of the study of functions, including the exponential, logarithmic, and trigonometric functions; triangle trigonometry, analytic trigonometry; applications of trigonometry; the trigonometric form of complex numbers; vectors; parametric equations; and polar coordinates. A TI-82/83 graphing calculator is required. Calculators that can do symbolic manipulations are not allowed. Meets general education requirement for AA degree. Not open to students with credit for MATH 151 or above.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: MATH 148 with a grade of “C” or higher
Lab fee: \$2.00

MATH 151 Calculus and Analytic Geometry I (A,W,SP,SU) 5 credits
An introduction to differential calculus: functions; limits, continuity, derivatives, differentiation rules, derivatives of the trigonometric and tran-

scendental functions, related rates, extrema, curve sketching, optimization.; applications to problems in science and engineering. Meets general education requirement for AS and AA degrees. MATH 151 may be available as an honors class or as an honors contract.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 113 or MATH 150 with a grade of “C” or higher, or by placement

Lab fee: \$1.00

MATH 152 Calculus and Analytic Geometry II

(A,W,SP,SU)

5 credits

An introduction to integral calculus: antiderivatives, definite integral, area under a curve, Fundamental Theorem of Calculus, integration of exponential, logarithmic, trigonometric, and inverse trigonometric functions; volume and surface area of solids of revolution, arc-length, and methods of integration. Applications to problems in science and engineering. Meets general education requirement for AS and AA degrees.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 151 with a grade of “C” or higher

Lab fee: \$1.00

MATH 153 Calculus and Analytic Geometry III

(A,W,SP,SU)

5 credits

Continuation of differential and integral calculus: L'Hopital's Rule and indeterminate limits, improper integrals, infinite sequences and series, conic sections, plane curves and polar coordinates, vectors in the plane and in space, and analytic geometry in space. Applications to problems in science and engineering. Meets general education requirement for AS and AA degrees.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 152 with a grade of “C” or higher

Lab fee: \$1.00

MATH 233 Statistics for Business (A,W,SP,SU)

(A,W,SP,SU)

5 credits

Numerical and graphical descriptions of sample data; measures of central tendency and dispersion; probability; Bayes' Theorem; the binomial, Poisson, uniform, exponential, and normal distributions; sampling distributions, the Central Limit Theorem. Applications to the business sciences. Microcomputers will be used. Meets general education requirement for AS and AA degrees.

Lecture: 5 hours – Lab: 1 hour

Prerequisite: MATH 132 or MATH 152 with a grade of “C” or higher

Lab fee: \$6.00

MATH 254 Multivariable Calculus (A,W,SP,SU)

(A,W,SP,SU)

5 credits

Introduction to multivariable calculus; vector valued functions and motion in the plane and in space, functions of several variables, partial derivatives, directional derivatives, gradients, extrema, multiple integrals, line integrals and Green's Theorem; applications to problems in science and engineering. Meets general education requirement for the AS and AA degrees.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 153 with a grade of “C” or higher

Lab fee: \$1.00

MATH 255 Elementary Differential Equations (W,SP)

(W,SP)

5 credits

A study of the basic concepts and methods of solving ordinary differential equations, first and second order, higher order linear equations, Laplace transform methods, series solutions, and numerical solutions of differential equations. Applications to the physical sciences and engineering. Meets general education requirements for AS and AA degrees.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 254 with a grade of “C” or higher

Lab fee: \$1.00

MATH 266 Discrete Mathematical Structures

(W,SP,SU)

5 credits

Mathematical formalization and reasoning; logic; Boolean algebra; sets, relations, and functions; recursive definitions; mathematical induction; probability theory and counting principles. Meets general education requirements for the AS and AA degrees.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 152 with a grade of “C” or higher

Lab fee: \$1.00

MATH 268 Elementary Linear Algebra (SP,SU)

(SP,SU)

5 credits

Linear systems, matrices, and determinants; vector spaces, \mathbb{R}^n and its subspaces; Eigenvalues, Eigenvectors, and applications; orthogonal matrices; linear transformations; and complex scalars; with applications. Meets general education requirement for the AS and AA degrees.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 254 with a grade of “C” or higher, or department chairperson approval

Lab fee: \$1.00

MATH 277 Probability and Statistics I (W)

(W)

5 credits

Introduction to probability, discrete and continuous random variables, probability distributions, expected value, sampling distributions, and point estimation. Applications to problems in science, engineering, computer science, and related areas. The MATH 277-278 sequence is intended primarily for students majoring in science, engineering, mathematics, or computer science, or for any student needing a calculus-based sequence in probability and statistics.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 254 with a grade of “C” or higher

Lab fee: \$1.00

MATH 278 Probability and Statistics II (SP)

(SP)

5 credits

Continuation of MATH 277; One and two sample estimation; one and two sample hypothesis tests for proportions, means, variances; goodness-of-fit; simple linear regression and correlation; non-parametric statistics; statistical quality control. Applications to problems in science, engineering, computer science, and related areas. The MATH 277-278 is intended primarily for students majoring in science, engineering, mathematics, or computer science, or for any student needing a calculus-based sequence in probability and statistics.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: MATH 277 with a grade of “C” or higher

Lab fee: \$1.00

MATH 285 Ordinary and Partial Differential Equations (W,SP)

(W,SP)

6 credits

Ordinary and partial linear and nonlinear differential equations; Fourier series; boundary value problems. Applications to engineering and the physical sciences. Lab fee: \$1.00. Prerequisite: MATH 254 with a grade of “C” or higher, or permission of the Mathematics Department. Not open to students with credit for MATH 255. Meets general education requirement for the AS and AA degrees.

Lecture: 6 hours – Lab: 0 hours

Prerequisite: MATH 254 with a grade of “C” or higher, or department chairperson approval

Lab fee: \$1.00

MATH 290 Capstone in Mathematics (On Demand)

(On Demand)

3 credits

A capstone course focusing on mathematics. This course is intended to provide the student with an introduction to a baccalaureate major in the mathematical sciences. Topics include the historical and philosophical developments of mathematics and how they affect the advancements of mathematics; the interdependence of science, technology, and mathematics; mathematical methods and how they are used in modeling problems in science and engineering; majoring in mathematics and professional

career opportunities. The laboratory utilizes a scholarly approach to reviewing research in mathematics or the history of mathematics, taking students through the process of identifying a research topic, conducting a literature review, writing a paper, and presenting the results. This course is required of all students in the AA or AS degree program preparing for a major in one of the mathematical sciences.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: MATH 152 with a grade of “C” or higher

Lab fee: \$10.00

Mechanical Engineering Technology (MECH)

MECH 110 Introduction to Manufacturing Technology (A,SU)

3 credits

This course is designed to introduce the beginning student to Engineering Technology and the Engineering Technology Department of Columbus State. Topics such as blueprint reading, engineering procedures and calculations, and engineering terminology are covered. In addition, current manufacturing trends, manufacturing organizations, and professional societies are examined.

Lecture: 2 hours – Lab: 3 hours

MECH 111 Manufacturing Processes (A,SU)

4 credits

This course is designed to be an introduction to primary processing and the six main secondary manufacturing processes—casting and molding, separating, hot and cold forming, conditioning, assembling, and finishing.

Lecture: 3 hours – Lab: 2 hours

Lab fee: \$5.00

MECH 112 Computer Applications in Manufacturing (A,SP)

3 credits

An introductory level computer course for Engineering Technology students. The course introduces computer technology critical to the subsequent success in studies of CAD, CAM, Numerical Control Machining and Computer Programming for Technicians. Students will complete assignments in Microsoft Office as well as cover DOS commands and applications, Windows, the web and the basic hardware of the computer.

Lecture: 2 hours – Lab: 3 hours

Lab fee: \$10.00

MECH 120 Mechanical Drafting I (W,SU)

3 credits

This course is designed to instruct students in the principles of orthographic and isometric projection and dimensioning. Additional topics covered include section views, auxiliary views, fasteners and assembly drawings. The course focus is on producing working detail drawings.

Lecture: 1 hour – Lab: 5 hours

Prerequisite: MECH 110

Lab fee: \$10.00

MECH 130 Statics (A,SP)

3 credits

This course deals with the principles of trusses, frames, machines and machine components. The course will offer the student experience in dealing with coplanar load systems that are concurrent, parallel and noncoplanar.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: PHYS 181

Lab fee: \$15.00

MECH 131 Hydraulics (SP,SU)

3 credits

This is a course designed to instruct students in the basics of fluid flow and power transmission in hydraulically controlled machines. The principles of system design and practical uses of hydraulic systems for industrial, agricultural, and off-road applications are emphasized. Hands-on laboratory experiences are used to demonstrate basic operating principles including piping, pumps, cylinders, and motors.

Lecture: 2 hours – Lab: 3 hours

Lab fee: \$10.00

MECH 240 Machine Tools (A,SU)

4 credits

This course features hands-on operation of mills, lathes, shapers, and grinders in addition to instruction on safety practices and related theory needed for operating these machines. Additional instruction will be given on cutting tool materials and geometry, feeds and speeds, and associated bench practices.

Lecture: 2 hours – Lab: 6 hours

Lab fee: \$30.00

MECH 242 Strength of Materials (W,SU)

3 credits

This course is a study of the application of external loads to rigid bodies and the analysis of the resulting stresses produced within those bodies. Study will be devoted to thermal expansion, bolted, and welded joints, thin walled pressure vessels, beam stresses and deflection, beam design, column stresses, and column design.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MECH 130

Lab fee: \$15.00

MECH 243 Robotics (A)

3 credits

This course presents robotic operations and system configurations. Students are required to flowchart, code, compile, and debug programs using the Fanuc Karel programming language. Hands on experience with robotic systems is gained through teaching and executing the programs on an articulated 6 axis Fanuc S-6 robot.

Lecture: 2 hours – Lab: 3 hours

Prerequisites: MECH 112

Lab fee: \$10.00

MECH 244 Statistical Process Control (W,SU)

3 credits

This course provides a broad overview of statistical process control practices commonly found in business and industry. This course includes presentation of the philosophy and practices of modern quality control principles, basic probability, control chart applications, acceptance sampling, frequency distributions, and process capability studies.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: Placement into MATH 103 or higher

MECH 250 Materials Science (SP,A)

3 credits

This is a course that will acquaint the engineering technician with the nature, properties, performance, characteristics and practical uses of various engineering materials. Materials such as ferrous and nonferrous metals as well as plastics, and selected organic materials will be covered. Non-destructive and destructive testing practices commonly found in industry today will be presented.

Lecture: 2 hours – Lab: 3 hours

Lab fee: \$15.00

MECH 251 Computer Aided Drafting I (A,W)

3 credits

Introduces students to the basic terminology and fundamental concepts of computer aided drafting. Commands and functions presented are applicable to other CAD systems. Students apply this knowledge to generate orthographic and other two-dimensional mechanical drawings using AutoCAD software.

Lecture: 1 hour – Lab: 5 hours

Prerequisites: MECH 112 and MECH 120

Lab fee: \$20.00

MECH 252 Computer Programming for Technicians (W) 3 credits

A course designed to instruct students in the use of QBasic in solving engineering problems. Students will design, flowchart, code, compile, and debug programs in this course. Hands-on experience is gained through interfacing digital I/O boards to QBASIC.

Lecture: 1 hour – Lab: 5 hours

Prerequisites: MECH 112 and placement into MATH 103 or higher

Lab fee: \$10.00

MECH 253 Numerical Control (W) 3 credits

This course is designed for the beginning student and covers manual computer numerical control programming. Each student will prepare numerical control programs in both absolute and incremental positioning systems using standard industrial G and M codes. Students will program for state-of-the-art computerized numerical control equipment including mills and lathes. Each student will prepare and debug programs and setup and operate computer numerical controlled equipment in the lab.

Lecture: 1 hour - Lab: 5 hours

Prerequisites: MATH 112 and MECH 240

Lab fee: \$25.00

MECH 260 Basic Mechanisms (SP,SU) 4 credits

A graphical and mathematical study of the displacement, velocity, and acceleration of typical industrial mechanisms such as linkages, cams, and gears. Additional topics such as bearings and lubrication are also discussed.

Lecture: 2 hours – Lab: 4 hours

Prerequisite: MECH 120

Lab fee: \$6.00

MECH 261 Machine Design (SP,SU) 4 credits

This course is designed as a capstone experience for Mechanical Engineering Technology students. Students are required to demonstrate their ability to solve engineering problems using skills and knowledge gained through their course work. The class, as a team, will participate in designing and prototyping a machine or mechanism related to the field.

Lecture: 2 hours – Lab: 6 hours

Prerequisites: MECH 131, MECH 242 and EET 102

Lab fee: \$25.00

MECH 262 Computer Aided Drafting II (W,) 3 credits

This course is an extension of MECH 251. Course includes the study of practical applications of computer graphics with isometric and three dimensional drawings including wireframe and solid modeling techniques to produce mechanical and production type drawings using AutoCAD software

Lecture: 1 hour – Lab: 5 hours

Prerequisite: MECH 251

Lab fee: \$20.00

MECH 263 Computer Aided Manufacturing (SP) 4 credits

This course provides the manual numerical control programmer with an understanding of computer aided manufacturing including instruction in Feature-Cam computer aided manufacturing language

Lecture: 2 hours – Lab: 6 hours

Prerequisites: MECH 251 and MECH 253

Lab fee: \$30.00

MECH 264 Computer Aided Drafting III (SP) 3 credits

An advanced course in 3D design and production oriented information. Students will create production drawings and documentation required to take a product from concept to design, sales, prototyping, production, and final assembly. Students will be utilizing AutoCAD 2000 and Mechanical Desktop and additional software operating in conjunction with AutoCAD.

Lecture: 1 hour– Lab: 5 hours

Prerequisite: MECH 262

Lab fee: \$20.00

Medical Assisting (MAT)**MAT 100 Introduction to Medical Assisting (A,SP) 2 credits**

This course provides an overview of the medical assisting profession. Topics to be presented include the roles and responsibilities of a medical assistant in different environments, medical-legal issues, and professional organizations.

Lecture: 1 hours – Lab: 2 hours

Prerequisite: Acceptance into program

Concurrent: BIO 101 and MULT 101

Lab fee: \$25.00

MAT 110 Clinical Procedures (W,SU) 4 credits

This course introduces the student to common clinical procedures routinely performed in physician's offices.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MAT 100

Concurrent: MAT 112, MULT 102, HIMT 121

Lab fee: \$25.00

MAT 112 Diseases of the Human Body (W,SU) 3 credits

This course focuses on human diseases that are frequently first diagnosed or treated in the medical office or clinical setting. Consideration as to what disease is, how the physician might diagnose and treat disease, and the likely consequences of the disease for the person experiencing it are included. Specific areas discussed are disease process, infectious diseases, neoplasms, and congenital diseases, the coverage of major conditions as organized by body system.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: BIO 101

MAT 120 Office Procedures (A,SP) 4 credits

This course introduces the student to the administrative aspects of the medical office through both theoretical and practical presentations. Topics to be covered include: communications, computer concepts, medical records management, screening and processing mail, scheduling and monitoring appointments, operating office equipment and managing practice finances.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MAT 100, MULT 101, CPT 101

Concurrent: None

Lab fee: \$25.00

MAT 230 Pharmacology (A,SP) 4 credits

This course is an introduction to the pharmacology of commonly used drugs. Topics to be covered include procedures for administering drugs, components of a prescription and drug actions and uses. The laboratory section will include demonstration, technique and theory of administration of medications in the medical office setting; included will be intradermal, subcutaneous, and intramuscular routes as well as oral, topicality, sublingual, vaginal and rectal administration. The principals of recording medications in the medical record are also covered.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MATH 100, MAT 100

MAT 135 Computer Applications in the Medical Office (A,SP) 4 credits

This course introduces the student to the medical office computer systems. The students will learn to produce day-to-day office simulations, create a physician's database, prepare patient demographics and daily appointment schedules, and prepare daily, monthly and yearly billing cycles through hands-on experiences with medical computer packages.

Lecture: 3 hours – Lab: 3 hours

MAT 240 Physician's Office Laboratory (A,SP) 5 credits

This course is designed to provide the student with an overview of the procedures utilized to collect and process specimens in a physician's office setting. Emphasis is placed on methods of collections, processing of specimens and quality control. Additionally, the student is introduced to the microscope, the techniques of capillary puncture and venipuncture (vacutainer method), urinalysis, blood typing, microbiology procedures and understanding the normal ranges and the various laboratory reports.

Lecture: 3 hours – Lab: hours

Prerequisite: MAT 110 and MAT 112

Concurrent: HIMT 255

Lab fee: \$25.00

MAT 250 Advanced Clinical Procedures (A,SP) 3 credits

This course will instruct the advanced medical assistant student in the skills beyond the basic entry-level. These advanced skills will include: electrocardiography, minor surgery in the medical office, rehabilitation and physical therapy care, radiology in the medical office, nutrition and diet therapy and the importance of accurate patient education. An overview of supervisory skills in the medical office will also be studied.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: MAT 110 and MAT 112

Concurrent: MAT 230, HIMT 255

MAT 260 Ethical and Professional Principles in the Medical Office (W, Su or On Demand) 2 credits

An examination of the medical ethical, legal and bioethical issues in today's medical office. The course will focus on legal/ethical aspects of medicine. Additional focus will be placed on current legislative statutes that affect the practicing medical assistant.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: MAT 240 and MAT 250

Concurrent: MAT 290, MAT 295 or permission of instructor

MAT 290 Practicum (W,SU) 3 credits

Practical experience in a physician's office combining the administrative and clinical aspects of patient care under the supervision of a licensed physician or certified medical assistant. Students will be placed into various health care facilities serving 210 unpaid externship hours.

Lecture: 0 hours – Lab: 21 hours

Prerequisite: MAT 250

Concurrent: MAT 295 and MAT 260

Lab fee: \$25.00

MAT 295 Seminar 2 credits

Group discussion of topics related to practicum experiences as well as current trends and topics in the medical assisting profession. Students will also be responsible for projects and simulations of daily medical office activities.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: MAT 250

Concurrent: MAT 290 and MAT 160

Medical Laboratory Technology (MLT)

MLT 100 Introduction to Health Care (A,W,SP,SU) 3 credits

This course is designed to provide the student with an overview of the structure and organization of the current health care system and their role as a future health care practitioner in an integrated system. Students interested in health care as a profession and/or consumers will benefit from this course. The student will utilize numerous campus and community resources, including computer search systems and the Internet, to access a variety of information pertaining to health care issues as well as to in-

vestigate various health care professions. Each student will have the opportunity to visit clinical settings and network with practicing professionals in their area of interest. Legal and ethical issues, professional standards of behavior, communication skills and safety issues will be addressed.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Placement into ENGL 100

Lab fee: \$15.00

MLT 120 Role and Responsibility of the MLT (W) 2 credits

This course will provide an in-depth examination of the role and responsibilities of the MLT as an important professional in the delivery of quality health care. Discussions will include such topics as professionalism, the general organization and operational activities of a clinical laboratory, and career opportunities for MLT graduates. Students will be exposed to actual clinical settings and meet with practicing laboratory personnel. In addition, students will be introduced to basic laboratory equipment, specimen processing techniques, the application of laboratory math, and the techniques of phlebotomy.

Lecture: 1 hours – Lab: 2 hours

Prerequisite: MLT 100 and MLT 141

MLT 130 Immunology (W,SU) 5 credits

This course provides a study of the immune system, the nature of immune responses, and the application of immunological reactions to a variety of laboratory procedures. Emphasis is placed on the commonly performed serological tests. Also included are discussions of the etiology and diagnosis of immunologically mediated diseases. Upon successful completion of this course the student will be able to perform the routine serological tests during the clinical practicum.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: MLT 141

Concurrent: MLT 120

Lab fee: \$80.00

MLT 141 Hematology I (A) 6 credits

An introduction to basic laboratory skills, and the origin, formation, and differentiation of blood formed elements. Included are techniques in counting red cells, white cells, platelets (by both manual and automated methods), reticulocytes, eosinophils, and the preparation and study of normal blood smears.

Lecture: 3 hours – Lab: 9 hours

Prerequisite: Admission to Program

Lab fee: \$80.00

MLT 180 Special Topics in Medical Laboratory (A,W,SP,SU) 1 credit

An independent study of advanced topics in laboratory management, instrumentation, computerization, hematology, immunology, immunochemistry, microbiology, clinical chemistry, urinalysis, coagulation or phlebotomy.

Lecture: 1 hours – Lab: 0 hours

Prerequisite: Permission of Coordinator

MLT 181 Special Topics in Medical Laboratory (A,W,SP,SU) 2 credits

An independent study of advanced topics in laboratory management, instrumentation, computerization, hematology, immunology, immunochemistry, microbiology, clinical chemistry, urinalysis, coagulation or phlebotomy.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: Permission of Coordinator

MLT 182 Special Topics in Medical Laboratory (A,W,SP,SU) 3 credits

An independent study of advanced topics in laboratory management, in-

strumentation, computerization, hematology, immunology, immuno-hematology, microbiology, clinical chemistry, urinalysis, coagulation or phlebotomy.

Prerequisite: Permission of Coordinator

MLT 220 Immunoematology (A) 7 credits

This course is designed to teach students to perform, according to American Association of Blood Banks (AABB) standards, the routine serological procedures used in any transfusion service or blood bank. Stress is placed on the performance of pretransfusion testing and the recognition of the presence of serological incompatibilities in a patient's specimen. Students will be introduced to the techniques used in the resolution of the most commonly encountered serological difficulties. Class discussions will also include donor blood collection and processing for component therapy, blood transfusion practices, adverse affects of blood transfusion, investigation of transfusion reactions, and fetal -maternal blood incompatibilities. Upon successful completion of this course, the students will be able to perform the routine pretransfusion procedures during the clinical practicum.

Lecture: 4 hours – Lab: 9 hours

Prerequisite: MLT 130 or permission of Coordinator. Open to Medical Laboratory Technology students only.

Lab fee: \$80.00

MLT 240 Hematology II (W) 6 credits

This course builds on the routine Hematology procedures covered in Hematology I. Blood smears are prepared and studied for the identification of blood cells which aid in the diagnosis of anemias, leukemias, hemoglobinopathies, and other disease states. Also included is the study of coagulation and the routine procedures used to evaluate hemostasis. Upon completion of this course the student will be able to perform routine hematology procedures during clinical experience.

Lecture: 3 hours – Lab: 6 hours

Prerequisite: MLT 141 and previous technical courses

Concurrent: MLT 242.

Lab fee: \$80.00

MLT 242 Body Fluids (W) 4 credits

The physical, chemical, and microscopic evaluation of urine and other nonblood body fluids will be studied.

Lecture: 2 hours – Lab: 4 hours

Prerequisite: Previous technical courses

Concurrent: MLT 240

MLT 244 Medical Laboratory Case Studies (W) 2 credits

This course provides students with the opportunity to review major technical areas of the curriculum. It is a capstone course in which students demonstrate their abilities to complete work assignments and examinations in each of the major laboratory sections. Students take examinations similar to the Registry Exam and must meet minimum scores.

Lecture: 1 hours – Lab: 3 hours

Prerequisite: All technical courses.

MLT 250 Clinical Microbiology (SU) 8 credits

A practical introduction to the laboratory identification of microbial agents associated with disease in man. Students will be instructed in the techniques necessary to isolate, identify, and evaluate the presence of clinically significant microorganisms. The course also includes a brief introduction into medical mycology and parasitology. Students who successfully complete this course will be able to perform routine clinical microbiology procedures and evaluate test results in clinical experience.

Lecture: 4 hours – Lab: 12 hours

Prerequisite: BIO 115 and previous technical courses

Lab fee: \$80.00

MLT 260 Clinical Chemistry (SP) 6 credits

This course is a study of the application of biochemistry to laboratory medicine and the understanding of the human in health and disease. Analytical procedures utilized to determine chemical constituents in blood, urine and other body fluids will be presented. The chemical principles of the methods will be discussed as well as the correlation of test results as indicators of presence or absence of disease. Students who successfully complete clinical chemistry will be able to perform routine clinical chemistry procedures and evaluate test results in clinical experience.

Lecture: 3 hours – Lab: 9 hours

Prerequisite: CHEM 113 or CHEM 111 and previous technical courses.

Lab fee: \$80.00

MLT 270 Clinical Practicum (SP, SU, A, W) 5 credits

Practical experience in area health care facilities in which students are given the opportunity to practice in a laboratory setting under the guidance of laboratory professionals. Students will be placed in one of several clinical affiliates within an approximate 60 mile radius of Columbus. Students will be required to provide their own transportation.

Lecture: 0 hours – Lab: 35 hours

Prerequisite: all technical courses

Concurrent: MLT 271

Lab fee: \$45.00

MLT 271 Clinical Seminar (SP) 2 credits

This course is an informal seminar that provides the students with an opportunity to meet and share selected case studies and other problem solving experiences they have encountered during their practicum. In addition, guest speakers are provided to help students better prepare for the credentialing examinations and other anticipated postgraduate activities such as employment selection and further education.

Lecture: 2 hours – Lab: 0 hours

Concurrent: MLT 270.

Mental Health / Chemical Dependency /Mental Retardation (MHCR)

MHCR 111 Introduction to Mental Health (A,W,SP,SU) 4 credits

This entry level course provides the student with a comprehensive overview of the mental health field as it relates to: historical and contemporary issues impacting the mental health field, mental health service delivery provisions, providing clinical base mental health skills, and assessing familial, environmental, and community adjustment needs for the mentally ill consumer.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: DEV 031

Concurrent: ENGL 101 and PSY 100.

Lab fee: \$4.00

MHCR 112 Introduction Mental Retardation (A,W,SP,SU) 3 credits

This entry level course provides the student with a comprehensive overview of the mental retardation field as is relates to: sociocultural, psychosocial, political and economic variables that impact the field of mental retardation and its overall service delivery to the mentally retarded and/or individuals with disabilities and their families.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: DEV 031

Concurrent: ENGL 101 and PSY 100.

Lab fee: \$4.00

MHCR 114 Introduction to Chemical Dependency**(A,W,SP,SU)****4 credits**

This entry level course provides the student with a comprehensive overview of the chemical dependency field as it relates to: historical and contemporary issues impacting the chemical dependency field, state and local, public and private service delivery systems, the impact of drugs of abuse on the individual, family, and society, models to define chemical dependency, signs and symptoms indicative of chemical dependency and resources available to persons with chemical dependency and their families

Lecture: 4 hours – Lab: 0 hours

Prerequisite: DEV 031

Concurrent: ENGL 101 and PSY 100.

Lab fee: \$ 4.00

MHCR 115 Introduction to Counseling**(A,W,SP,SU)****3 credits**

This introductory course focuses on the development of basic interviewing, rapport building and active listening skills for the beginning student. The student will gain a beginning understanding of the process and principles in establishing effective helping relationships using observation and behavioral writing.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Prerequisite: DEV 031

Concurrent: ENGL 101 and PSY 100

Lab fee: \$4.00

MHCR 117 Introduction to Documentation Skills**(A,W,SP,SU)****2 credits**

This core course focuses on the use of behavioral observations and writing to document client interactions and behavior. Students will learn beginning skills needed to maintain records necessary for rendering professional services to clients.

Lecture: 2 hours – Lab: 0 hours

Prerequisite or concurrent: MHCR 111, MHCR 112, MHCR 114 and MHCR 115

Lab fee: \$4.00

MHCR 135 Intervention Strategies (A,W,SP,SU)**3 credits**

This core course focuses on understanding client behavior. Students will learn to apply positive intervention skills with a varied client population.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: MHCR 111, MHCR 112, MHCR 114, MHCR 115 and MHCR 117

Concurrent: MHCR 191

Lab fee: \$4.00

MHCR 191 Fundamentals in Human Service Practice 8 credits

This is a core course which focuses on the planning process used to deliver service to clients. The steps studied in the helping process are data collection, assessment, treatment planning, implementation, and evaluation. The student will become knowledgeable in specific methods to collect data, assess and prioritize client needs, develop treatment plans, implement the treatment plan, and evaluate the effectiveness of the plan. The student will observe and participate in the delivery of service to clients at any agency which provides a range of services. The students will also practice basic skills under close supervision.

Lecture: 6 hours – Lab: 14 hours

Prerequisite: MHCR 111, MHCR 112, MHCR 114, MHCR 115 and MHCR 117

Lab fee: \$22.00

MHCR 241 Counseling Skills (A and On Demand)**4 credits**

This core course focuses on theoretical and practical aspects of effective helping through the counseling relationship. Skills which form the foundation of effective communication using a microtraining model are emphasized. Critical thought and creativity is stressed. Course emphasizes

practicing skills in small study groups, and in role play/simulations.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MHCR 191, ENGL 102 and PSY 240

Lab fee: \$4.00

MHCR 245 Chemical Dependency I (A)**4 credits**

This course offered as part of the Chemical Dependency Track only. Course content includes historical/cultural overview and various philosophies and approaches to treatment of addictions. Physical, mental, emotional and social impact of drugs of abuse. Assessment procedures, developing a diagnostic impression, identifying levels of care and referral procedures, issues with families and special populations. Students will develop and demonstrate a didactic presentation. Legal and ethical issues in the field will be explored.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MHCR 191

Concurrent: MHCR 241 and MHCR 293

Lab fee: \$4.00

MHCR 247 Teaching and Supporting People with Disability (A)**4 credits**

This advanced course provides the student a comprehensive overview of the principles and techniques for teaching and supporting people with disabilities. Skills related to job coaching and habilitation programming are practiced. Particular attention is paid to the concepts of person centered planning and inclusion

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MHCR 191

Concurrent: MHCR 291

Lab fee: \$4.00

MHCR 251 Social Policy and Programs**4 credits**

Social policy and its relationship to the work of the human services professional. An overview of U.S. social welfare institutions: family, church, government, and economical institutions is presented. This second level course examines social welfare policies/programs at national, state, and local levels in areas of housing, health care, and income maintenance. Agency analysis and an ecological model for social change is emphasized.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MHCR 191 and ENGL 102

Lab fee: \$5.00

MHCR 253 Therapeutic Group Work Skills (W,SP)**4 credits**

This course offered as a part of all three tracks in the technology, is focused on knowledge and experiential learning using group as the unit of attention. Course content includes process, stages of development, leadership skills, therapeutic factors and problematic issues of groups for mentally ill, mentally retarded, chemically dependent and dually diagnosed clients. The student will participate as a member in a peer group to compliment classroom theoretical constructs.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MHCR 241 and ENGL 102

Concurrent: MHCR 295

Lab fee: \$ 4.00

MHCR 258 Service Coordination/Case Management (SP)**4 credits**

This advanced course provides the human service student with a comprehensive overview as well as an in-depth investigation and assessment of newly defined skills, treatment approaches and contemporary issues impacting the service coordination/case management field.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: MHCR 191

Concurrent: MHCR 298

Lab fee: \$4.00

MHCR 265 Chemical Dependency II (SP) **4 credits**
This is an advanced course offered as part of the Chemical Dependency track only. Course content includes specialized settings and services and approaches to treatment of addictions. Motivation for recovery and service/recovery resistance issues. Developing a diagnostic summary from an assessment and developing a comprehensive treatment plan. Issues with dual diagnosis and relapse. Exploration of patterns of behavior in the workplace and prevention of burnout for helping professionals. Legal and ethical issues in the field will be explored as well as the credentialing process for chemical dependency counselors.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: MHCR 241
Concurrent: MHCR 296
Lab fee: \$4.00

MHCR 272 CCDC Certification Preparation (A,W,SP,SU) **1 credit**
(Chemical Dependency Students)
This course will assist students (and community members) as a review for the National ICRC Written Examination.
This course reviews all content areas as well as describing preparation and studying strategies. This course is also open to all community members who are in the process of preparing for the CCDC Credential.
Lecture: 1 hour – Lab: 0 hours
Lab fee: \$4.00

MHCR 274 and 284 Special Studies in MH/CD/MR (On Demand) **4 credits**
These two courses are designed to meet specific needs of students who wish to pursue in-depth training in the MH/CD/MR/DD field. Typical subject areas may include theory and skills in helping chemically dependent, severely mentally disabled, 'dual diagnosed', or persons with mental retardation/developmental disabilities. Instructional methods may include clinical experience, seminar format, field placement, lecture, research, videotape and role play.
Lecture 4 hours – Lab: 0 hours
Lab fee: \$11.00

MHCR 280 Special Topics in Chemical Dependency (On Demand) **2 credits**
This course familiarizes the student with the cultural perceptions and substance abuse issues of client populations, as well as treatment needs for each. The topics will include: African American Persons; The Appalachian Community; People Living with HIV-AIDS; Adolescents; The Criminal Offenders Population; Gay, Lesbian, Bisexual and Transgendered Persons; Homeless Individuals; Persons with Dual Multi-Diagnosis.
Lecture 2 hours – Lab 0 hours
Lab fee: \$4.00

MHC1 280 Special Topics in Chemical Dependency – African Americans (On Demand) **0.4 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses the African American population.
Lecture 4 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC2 280 Special Topics in Chemical Dependency – Appalachian Community (On Demand) **0.2 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses the Appalachian Community population.
Lecture 2 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC3 280 Special Topics in Chemical Dependency – People Living with HIV/AIDS (On Demand) **0.2 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses the People Living with HIV/AIDS population.
Lecture 2 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC4 280 Special Topics in Chemical Dependency – Adolescents (On Demand) **0.2 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses the Adolescent population.
Lecture 2 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC5 280 Special Topics in Chemical Dependency – Criminal Offenders (On Demand) **0.2 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses the Criminal Offender population.
Lecture 2 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC6 280 Special Topics in Chemical Dependency – Gay, Lesbian, Bisexual & Transgendered Persons (On Demand) **0.2 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses the Gay, Lesbian, Bisexual and Transgendered population.
Lecture 2 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC7 280 Special Topics in Chemical Dependency – Homeless Individuals (On Demand) **0.2 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses Homeless Individuals.
Lecture 2 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHC8 280 Special Topics in Chemical Dependency – Persons with Dual/ Multi-Diagnosis (On Demand) **0.4 credits**
This module familiarizes the student with the cultural perceptions and substance abuse issues of specific client populations, as well as treatment needs. This module topic addresses Dual/ Multi Diagnosed Individuals.
Lecture 4 hours / quarter – Lab: 0 hours.
Lab fee: \$2.00

MHCR 285 Special Topics in MH/CD/MR: HIV/AIDS in Human Service Practice **4 credits**
This course covers HIV/AIDS as an epidemic, its origins, disease progression, medical information, drugs and treatment, psychosocial factors affecting the patient, caregivers, drugs and treatment, psychosocial factors affecting the patient, caregivers and professionals, ethical and legal considerations impacting the patient and others, and the role of human service professionals in helping clients and families. Students will be exposed to cultural sensitivity issues of race, ethnicity and sexual orientation. Psychosocial stages of the disease will be explored with the focus on the role of the human service worker.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$4.00

MHCR 291 Field Practicum in Teaching and Supporting**People w/Disabilities 4 credits**

A clinical experience for the student specializing in the Mental Health/Mental Retardation track which takes place in a community agency matching the students interest and training needs. The student will practice the skills needed to teach and support people in a variety of settings, vocational residential and community with an emphasis on inclusion. The student is expected to assume the role of service provider and is responsible for professional conduct and acceptable work habits.

Lecture: 2 hours – Lab: 14 hours

Prerequisite: MHCR 191

Concurrent: MHCR 247

Lab fee: \$22.00

MHCR 293 Field Practicum in Chemical**Dependency I (A) 4 credits**

This is a required clinical experience for the student majoring in Chemical Dependency. The training needs of the student are matched to the community agency. The student has had training in the fundamental skills requisite to being an effective helper. The student plans an extended placement of two consecutive quarters in a setting which provides chemical dependency treatment and becomes involved in assessments and on-going work with clients when applicable. The student is expected to assume the role of service provider and is responsible for professional conduct and regular work habits.

Lecture: 2 hours – Lab: 14 hours

Prerequisite: MHCR 191

Concurrent: MHCR 245

Lab fee: \$22.00

MHCR 295 Field Practicum in Group Work (W,SP) 4 credits

This is a clinical experience for the student in all three tracks in the MH/CD/MR department. The student will lead and/or co-lead a group using skills learned in the classroom. The student will assume the role of service provider and demonstrate professional conduct.

Lecture: 2 hours – Lab: 14 hours

Prerequisite: MHCR 241 and MHCR 293

Concurrent: MHCR 253

Lab fee: \$33.00

MHCR 296 Field Practicum in Chemical**Dependency II (SP) 4 credits**

This is an advanced clinical experience for the student who has chosen to work in the alcohol/drug dependency field. The student will be responsible for collecting data, making assessments and developing treatment plans, facilitating groups, and making referrals. Emphasis on dual-diagnosis and relapse prevention throughout the field experience.

Lecture: 2 hours – Lab: 14 hours

Prerequisite: MHCR 253

Concurrent: MHCR 265

Lab fee: \$22.00

MHCR 298 Field Practicum in Service Coordination/**Case Management (SP) 4 credits**

A clinical experience for the Mental Health/Mental student specializing in the field of Mental Health/Mental Retardation and Chemical Dependency tracks which takes place in a community agency matching the students interest, skill level and training needs. The mental health student will practice case management skills in order to deliver effective services. The mental health student is expected to assume the role of service provider and is responsible for professional conduct and acceptable work habits.

Lecture: 2 hours – Lab: 14 hours

Prerequisite: MHCR 191

Concurrent: MHCR 258

Lab fee: \$22.00

MHCR 299 Portfolio Completion Capstone Course**in MH/CD/MR (A,W,SP,SU) 1 credit**

This course will provide the student with the opportunity to assemble, edit, and ready for presentation in portfolio format the collected assignments from each course in the major. Feedback regarding each course will be solicited from the student. In addition, the content areas of ethical concerns in human services, effective team participation and avoiding “burnout” will be addressed.

Lecture: 1 hours – Lab: 0 hours

Prerequisite: Completion of / or concurrent with MHCR 191 and one set of the following:

CD TRACK

MHCR 245 and 293

MR TRACK

MHCR 247 and 291

MH TRACK

MHCR 247 and 291

MHCR 265 and 296

MHCR 258 and 298

MHCR 258 and 298

MHCR 253 and 296

MHCR 253 and 295

MHCR 253 and 295

Concurrent: fourth and last technical course paired with clinical practicum.

Lab fee: \$3.00

Microcomputing Technology (MCT)**MCT 089 Introduction to FrontPage (A,W,SP,SU) 1 credit**

This course introduces the student to Microsoft FrontPage. The student will create a simple homepage.

Lecture: 0 hours – Lab: 2 hours

Lab fee: \$10.00

MCT 091 Computer Concepts (A,W,SP,SU) 1 credit

This one-credit-hour course provides students with an introduction to computer technology, computer hardware and software, and relates how computers can be used to produce meaningful information.

Lecture: 0 hours – Lab: 2 hours

Lab fee: \$10.00

MCT 092 Introduction to HTML (A,W,SP,SU) 1 credit

Learn the most important topics of HTML, including creating an HTML document; viewing an HTML file in a WEB browser; working with tag text elements; inserting special characters, lines, and graphics; creating hypertext links; working with color and images; creating text and graphical tables; using tables to enhance page design; creating and working with frames; and controlling the behavior of hyperlinks on a page with frames.

Lecture: 0 hours – Lab: 2 hours

Prerequisite: MCT 095 or MCT 121 or MCT 231 or CPT 101

Lab fee: \$10.00

MCT 093 Introduction to MS Project (A,W,SP,SU) 1 credit

Learn to develop, plan, schedule, and chart project information, and balance workloads for people working on several projects at once, tracking all phases of the project to meet deadlines and stay on budget. Uses Microsoft approved text.

Lecture: 0 hours – Lab: 2 hours

Prerequisite: MCT 095 or MCT 231 or CPT 101

Lab fee: \$10.00

MCT 094 Internet Fundamentals (A,W,SP,SU) 1 credit

This one-credit-hour course provides students with an introduction to the Internet. Students will learn how to find information and explore the World Wide Web using Netscape Navigator. An e-mail account is required. Not open to students who have taken MCT 231.

Lecture: 0 hours – Lab: 2 hours

Lab fee: \$10.00

MCT 095 Introduction to Windows 98 (A,W,SP,SU) 1 credit
 This one-credit-hour course is an introductory course on the Windows 98 operating system. The objective of the course is to teach fundamental skills in working with the Desktop, Drives, Folders, Files, and Applications. Not open to students who have taken MCT 121.
 Lecture: 0 hours – Lab: 2 hours
 Lab fee: \$10.00

MCT 096 Introduction to Information Presentation (A,W,SP,SU) 1 credit
 This one-credit-hour course is an introductory course teaching the fundamentals of creating and enhancing a presentation using PowerPoint. Uses Microsoft approved text.
 Lecture: 0 hours – Lab: 2 hours
 Lab fee: \$10.00

MCT 097 Introduction to Database (A,W,SP,SU) 1 credit
 This one-credit-hour course introduces the student to creating, modifying, and enhancing a database using Access. Uses Microsoft approved text. Not open to students who have taken CPT 101.
 Lecture: 0 hours – Lab: 2 hours
 Lab fee: \$10.00

MCT 098 Introduction to Spreadsheets (A,W,SP,SU) 1 credit
 This one-credit-hour course teaches the student how to create a worksheet, modify a worksheet and work with charts using Excel. Uses Microsoft approved text. Covers skill set for Microsoft Excel proficiency certification. Not open to students who have taken CPT 101.
 Lecture: 0 hours – Lab: 2 hours
 Lab fee: \$10.00

MCT 099 Introduction of Word Processing (A,W,SP,SU) 1 credit
 This one-credit-hour course gets the student started with Word for Windows creating and editing a document, formatting a document, and arranging text and graphics. Uses Microsoft approved text. Covers skill set for Microsoft Word proficiency certification. Not open to students who have taken CPT 101.
 Lecture: 0 hours – Lab: 2 hours
 Lab fee: \$10.00

MCT 106 PC Applications 2 (A,W,SP,SU - DL) 3 credits
 A course designed to be taken in sequence with CPT 101. This course covers advanced concepts and techniques used in word processing, spreadsheet, database, and presentation graphics software. Microsoft has approved the textbooks used in CPT 101 and MCT 106, when used in a two-quarter sequence, as courseware for the Microsoft Office User Specialist certification.
 Lecture: 2 hours – Lab: 2 hours
 Prerequisite: CPT 101
 Lab fee: \$20.00

MCT 121 PC Operating Systems (A,W,SP,SU) 3 credits
 This course covers in depth DOS functions and Windows operating systems.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: CPT 101, MATH 102
 Lab fee: \$25.00

MCT 122 Workstation Operations (A, W, SP, SU) 3 credits
 This course provides students with the necessary skills and knowledge to identify and perform the tasks involved in supporting networks... The course is designed to prepare students to perform essential network administration tasks in MS Windows 2000.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: MCT 121
 Lab fee: \$30.00

MCT 131 Expert Excel (A,W,SP,SU - DL) 3 credits
 A continuation of spreadsheets from MCT 106. Advanced features and formats are presented. Uses Microsoft approved text. Covers skill set for Microsoft Expert certification.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: CPT 101, MCT 106 and MATH 102
 Lab fee: \$25.00

MCT 141 Expert Access (A,W,SP,SU - DL) 3 credits
 A continuation of database from MCT 106. This course presents databasesoftware, including file creation, screen and report generators. Not open to students in Computer Programming Technology. Computer Programming Technology students should take CPT 221 and CPT 225 instead. . Uses Microsoft approved text. Covers skill sets for Access Expert certification.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: CPT 101 and MCT 106
 Lab fee: \$25.00

MCT 205 E Publishing (A,W,SP,SU) 3 credits
 Learn to create effective, high-impact publications and Web sites. Activities create awareness of professional layouts by developing brochures, newsletters, flyers, business forms, business cards, logos, and more using Microsoft Publisher and related software.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: CPT 101
 Lab fee: \$25.00

MCT 211 Advanced Information Presentation (A,W,SP,SU) 3 credits
 A continuation of information presentation from MCT 106. This course presents how computer graphics are used to communicate information effectively. Computer lab assignments include chart format and data content. Students will learn how to create effective business presentations complete with graphs, organization charts, graphics, sound, movies, and web links.. Students will research a topic and develop a presentation. The student will integrate these skills into a computerized slide show. Uses Microsoft approved text. Covers skill set for PowerPoint Expert certification.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: CPT 101
 Lab fee: \$25.00

MCT 215 PC Maintenance (A,W,SP,SU) 3 credits
 This is the capstone course for the PC Hardware/Software Installation & Maintenance Certificate which focuses on maintaining, troubleshooting, and upgrading PCs. Discussion is focused on emphasizing the analysis and design of PC systems as well as installation of expansion cards, hard drives, video cards, memory upgrades, loading drivers, disk maintenance, and loading application and system software.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: MCT 121
 Lab fee: \$25.00

MCT 221 Local Area Network (LAN) (A,W,SP,SU) 3 credits
 An introductory course to Local Area Networks (LANs). This course will explore the current technology available for LANs including both hardware and software.
 Lecture: 2 hours – Lab: 3 hours
 Prerequisite: MCT 121 for Microcomputing Technology students, CPT 101 for Computer Programming Technology students.
 Lab fee: \$25.00

MCT 223 Server Administration I (A,W,SP,SU) 5 credits
 Students will learn how to perform administration tasks using MS Windows 2000 networks. Elements include management of data storage, monitoring event logs, designing and administering Windows NT secu-

rity model and designing and developing a security needs analysis. The student will also utilize the client and server technologies used in designing and implementing Web services such as network address translators, proxy servers, firewalls, and Internet Information Services.

Lecture: 4 hours – Lab: 6 hours

Prerequisite: MCT 221

Lab fee: \$25.00

MCT 224 Server Administration II (A,W,SP,SU) 5 credits

Course will provide students with the necessary skills to install, configure, manage, and support a network infrastructure using MS Windows 2000 server. The course will prepare students to take certain MS Certified Professional Exams.

Lecture: 4 hours – Lab: 6 hours

Prerequisite: MCT 223

Lab fee: \$40.00

MCT 231 Web Essentials (A,W,SP,SU - DL) 3 credits

Students will learn the dynamics of the Web environment., explore World Wide Web (WWW) sites, transfer files, and create a simple home page. Hands-on experience using the Internet will be emphasized. An Internet email account is required. The course is taken entirely on the Internet with one exception, which is to take the final examination in the Testing Center at Columbus State. This course does not fulfill any requirements for the MMPT program.

Lecture: 2 hours – Lab: 3 hours

Prerequisite CPT 101 or understanding of Windows File Management

Lab fee: \$10.00

MCT 235 Web Publishing (A,W,SP, SU - DL) 3 credits

This course offers Web page layout, implementation, maintenance, and creation of a recognized presence on the Internet. Hands-on lab experience using the IBM PC and Microsoft FrontPage software is emphasized. Uses Microsoft approved text. This course does not fulfill any requirements for the MMPT program.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 231

Lab fee: \$25.00

MCT 236 HTML (A,W,SP, SU,-DL) 3 credits

This course provides an in-depth study of HTML and its use in Web pages. This course does not fulfill any requirements for the MMPT program.

Lecture: 2 hours—Lab: 3 hours

Prerequisite: MCT 235

Lab fee: \$25.00

MCT 241 Groupware (A,W,SP,SU) 3 credits

This course provides students with knowledge on the automation of office functions. The student will receive practical experience in document management (word processing and document filing/retrieving); electronic transfer of data (graphs & documents); and administrative support (time management, calendars, schedules, directory management and reminders). An e-mail account is required.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 121 and CPT 101

Lab fee: \$25.00

MCT 251 Introduction to Systems Analysis (A,W,SP,SU) 3 credits

Covers basic concepts of systems analysis and design with an emphasis on small business systems. Not open to students in the Computer Programming Technology. Computer Programming students should take CPT 211 and CPT 212 instead.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 131, MCT 141

Lab fee: \$25.00

MCT 255 Database Administration/SQL (A,W,SP,SU) 3 credits

This course provides the student with the necessary skills and knowledge to identify and perform the tasks involved in implementing and managing databases on MS SQL Server.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 141

Lab fee: \$10.00

MCT 256 Data Modeling and Relational Database Design (A, W, SP, SU) 3 credits

This course provides students with the necessary skills and knowledge to design and develop relational databases.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 255

Lab fee: \$30.00

MCT 261 Introduction to Visual BASIC (A,W,SP,SU,-DL) 3 credits

Emphasizes building graphical user interfaces (GUI) from a microcomputing aspect. Students will use macros to call objects relating to business applications and integrate Excel and Access applications with Visual Basic.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 121, MCT 141

Lab fee: \$25.00

MCT 262 Java Script Fundamentals (A,W,SP,SU) 3 credits

The course provides an in-depth study of JavaScript and other scripting languages that add interactivity to Web sites. JavaScript is an extension to HyperText Markup Language (HTML) that enables one to get data stored in Web Page forms. With JavaScript, one may make intelligent Web pages that verify input, calculate it, and make presentation decisions based on it. Students will be introduced to programming concepts, including flowcharting and pseudocode to provide planning logic for programs. This course does not fulfill any requirements for the MMPT program.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 236

Lab fee: \$40.00

MCT 263 Advanced Web Programming (A,W,SP,SU) 5 credits

This course focuses on using the Common Gateway Interface (CGI) and Active Server Pages (ASP) to create dynamic, interactive web content. Both Perl and VBScript are taught in this course. Although no prior experience with either programming language is required, students are expected to understand basic programming concepts. Practical, real-world lab exercises provide students with hands-on experience, including working with the Apache web server and Microsoft Personal Web Server. This course does not fulfill any requirements for the MMPT program.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: MCT 262

Lab fee: \$40.00

MCT 271 Introduction to Java Programming (A, W, SP, SU) 3 credits

This course is an introduction to the art of computer programming in Java. Included are features needed to construct Java Applets, Java Applications, control structures, methods, arrays, character and string manipulation, graphics, and object-oriented programming.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: MCT 262 or CPT 111 or CPT 112 or CPT 155 or CPT 201 or CPT 245

Lab fee: \$30.00

MCT 281 Final Project (A,W,SP,SU)**5 credits**

This is the capstone course for the Microcomputing Technology. Students will work in small groups or individually to design and develop a typical business system. Not open to students in Computer Programming Technology. Computer Programming students should take CPT 281.

Lecture: 2 hours – Lab: 8 hours

Prerequisite: MCT 251

Lab fee: \$40.00

Multi-Competency Health (MULT)**MULT 101 Medical Terminology (A,W,SP,SU-DL) 2 credits**

This course is offered in two instructional formats. The traditional classroom version includes the presentation of 350 medical terms using the Dean Vaughn system. Students are taught to spell, pronounce and define using an audionym technique. This version is available on main campus and most off campus sites. The distant learning (web) version of this course is not the Dean Vaughn System and is probably best suited for the highly motivated self-learner.

Lecture: 2 hours – Lab: 0 hours

Lab fee: \$10.00.

MULT 102 Cardiopulmonary Resuscitation (CPR)**(A,W,SP,SU)****1 credit**

Cardiopulmonary resuscitation for adults, pediatrics and infants including early warning signs of heart attacks, airway blockage, and stroke are taught. Students completing the course will be eligible for American Heart Association Basic Life Support Certification. Offered as flexibly scheduled course in one weekend. This course is available on main, Dublin and Westerville campuses. This course meets the required CPR Certification for healthcare providers and includes the new 2000 guidelines from the American Heart Association.

Lecture: 1 hours – Lab: 0 hours

Lab fee: \$15.00.

MULT 103 Responding to Emergencies (A,W,SP,SU) 2 credits

Requirements for Red Cross Certification including artificial respiration, bleeding control, treatment of shock, and care of fractures are presented. This course includes MULT 102, American Heart Association CPR-Basic Life Support.

Lecture: 1 hours – Lab: 2 hours

Lab fee: \$23.00.

MULT 104 Adult and Pediatric CPR (for Non-Healthcare Providers) (A,W,SP,SU)**1 credit**

This course is based on the combined guidelines and standards set forth by the American Heart Association (AHA) in Basic Life Support-Heartsaver and Pediatric Cardiopulmonary Resuscitation and First Aid for Choking. Guidelines 2000 for CPR and Emergency Cardiovascular Care are presented and practiced by the student who is *not* a health care provider. *This course does not fulfill the required CPR certification for healthcare providers.* This is a flexibly scheduled course offered in one weekend. Available on main, Dublin and Westerville campuses.

Lecture: 1 hour – Lab: 0 hours

Lab fee: \$15.00.

MULT 110 Basic Electrocardiography (EKG) (A,SP) 6 credits

This course is designed to provide basic entry-level skills in cardiovascular technology. The course covers an introduction to health care, anatomy and physiology of the heart, operation of the electrocardiograph and recording of EKG's, cardiac pathology and basic cardiac rhythm recognition skills. Completion of the course qualifies the student to function as an EKG technician, a skill ordinarily utilized in an acute health care set-

ting or physician's office. This course includes 24 hours of clinical experience.

Lecture: 5 hours – Lab: 2 hours

Prerequisite: Placement into ENGL 101. Completion of a health record.

Lab fee: \$38.00

MULT 114 Phlebotomy Practicum II (A,W,SP)**1 credits**

This course is designed to be a continuation of MULT 115 by providing an additional 50 hours clinical phlebotomy experience and requiring an additional 50 successful collections. Phlebotomy Practicum II is designed for students who intend to be a professional phlebotomist and will be arranged individually during the first five weeks of the quarter. MULT 114 and MULT 115 completes the NAACLS approved program

Lecture: 0 hours – Lab: 5 hours

Prerequisite: Completed health record. Completion of MULT 115.

Lab fee: \$10.00

MULT 115 Phlebotomy (A,W,SU)**6 credits**

Blood collection by both venipuncture and capillary puncture techniques, using various equipment are performed in class and in the hospital. Professional ethics and liability, composition and appearance of blood, safety, anticoagulants and clinical relevance of laboratory tests are studied. Problems encountered in phlebotomy, in addition to special specimen collection for transfusion services, blood cultures, coagulation tests, timed tests and the nursery are also reviewed. This course includes a 60 hour clinical experience in a Central Ohio health care facility.

Lecture: 3 hours – Lab: 9 hours

Prerequisite: Completed health record.

Lab fee: \$55.00

MULT 116 Venipuncture for Health Care Providers**2 credits**

Basic blood collection techniques using vacuum tubes and syringes will be covered and practiced in a laboratory and clinical setting. Emphasis is on basic skills, safety and infection control. Not open to students who have credit for MULT 114 and MULT 115. This course includes a 30 hour clinical experience.

Lecture: 1 hour – Lab: 4 hours

Prerequisite: Completed health record and be enrolled in Medical Laboratory Technology

Lab fee: \$28.00

MULT 120 Nurse Aide Training Program (A,W,SP,SU) 5 credits

The Nurse Aide Training Program (NATP) is designed to instruct prospective long-term care nurse aides in preparation for State of Ohio testing. The 76 hour NATP course includes 60 hours of classroom and 16 hours of clinical preparation, which meets the requirements for nurse aide training in Ohio.

Lecture: 2 hours – Lab: 6 hours

Prerequisite: Completed health record

Lab fee: \$38.00

MULT 121 Nurse Aide to Home Health Aide (A,W,SP,SU)**2 credits**

This course will prepare students who have taken the nurse aide training program to transition into home care.

Lecture: 2 – Lab: 0

Prerequisite: State tested nurse aide or eligible

Lab fee: \$30.00

MULT 126 Patient Care Skills I (A,W,SP,SU)**4 credits**

Presentation of skills commonly used by patient care technicians in an acute care setting, utilizing both lecture and laboratory. Major topics include: wound care, specimen collection, airway care, oxygen administration, enteral tubes and elimination assistance.

Lecture: 2 hours – Lab: 6 hours

Prerequisite: MULT 120

Lab fee: \$35.00

MULT 127 Patient Care Assistant (A,W,SP,SU) 5 credits
This is a workforce training course for employees of health care systems who have entered into a partnership with CSCC. Students gain knowledge and skills to function as a patient care assistants.
Lecture: 3 hours – Lab: 3 hours
Prerequisite: Employee of health care system who has partnership with CSCC
Lab fee: \$30.00

MULT 128 Introduction to Patient Care Assistant (A,W,SP,SU) 5 credits
This is a workforce training course for employees of health care systems who have entered into a partnership with CSCC. The student learns nurse aide training skills (basic patient care skills such as bathing, feeding, etc) in order to work with patients prior to taking the Basic PCA/MSP training.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: Employee of health care system who has a partnership with CSCC
Lab fee: \$30.00

MULT 129 Patient Care Skill: Restorative Technique (A,SP) 4 credits
This course provides information and skills using safe, effective techniques in the care of mobility-impaired patients. Discusses the role of the physical therapy and nursing staffs use of therapeutic modalities, patient positioning, patient transfer techniques, exercise, ambulation, and utilization of assistive and adaptive equipment for patients with impaired mobility.
Lecture: 3 hours – Lab: 3 hours
Prerequisite: MULT 120 or MULT 122
Lab fee: \$11.00

MULT 135 Basic PCA/MSP Training (A,W,SP,SU) 4 credits
This is a workforce training course for employees of health care facilities who have entered into a partnership with CSCC. In classroom, laboratory and clinical settings, students learn sterile technique and patient care skills.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: NATP or MULT 128 and employee of health care facility who has a partnership with CSCC

MULT 136 Advanced Patient Care Assistant (A,W,SP,SU) 2 credits
This is a workforce training program for employees of health care facilities who have entered into a partnership with CSCC. In classroom, laboratory, and clinical settings, students learn advanced patient care skills such as tracheostomy care
Lecture: 1 hour – Lab: 1 hour
Prerequisite: MULT 135 and employee of health care facility who has a partnership with CSCC

MULT 137 Phlebotomy Training (A,W,SP,SU) 4 credits
This is a workforce training program for employees of health care facilities who have entered into a partnership with CSCC. In classroom, laboratory and clinical settings, students learn the skills of drawing blood.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: MULT 135 or permission of instructor and employee of health care facility who has a partnership with CSCC

MULT 138 EKG Training (A,W,SP,SU) 2 credits
This is a workforce training program for employees of health care facilities who have entered into a partnership with CSCC. In classroom, laboratory and clinical settings, students learn the skill of performing electrocardiograms.
Lecture: 0 hours – Lab: 2 hours
Prerequisite: MULT 135 or permission of instructor and employee of facility who has a partnership with CSCC

MULT 139 Basic PCA Training (A,W,SP,SU) 4 credits
This is a workforce training program for employees of health care facilities who have entered into a partnership with CSCC. In classroom and laboratory settings, students learn basic patient care skills.
Lecture: 2 hours – Lab: 4 hours
Prerequisite: Employee of facility who has a partnership with CSCC

MULT 140 Patient Care Technician Training (A,W,SP,SU) 3 credits
This is a workforce training program for employees of health care facilities who have entered into a partnership with CSCC. In classroom and laboratory settings, students learn sterile technique and advanced patient care skills.
Lecture: 1 hour – Lab: 4 hours
Prerequisite: MULT 139 or permission of instructor and employee of health care facility who has partnership with CSCC

MULT 153 Point-of-Care Testing 1 credit
Point-of-care testing or bedside testing, is intended to provide more rapid test results than is routinely possible with traditional laboratory settings. Application is particularly important in ICUs, emergency rooms, bedside in hospitals, home care, hospices and physician office laboratory where rapid treatment decisions must be made or for added convenience to the patients. This course provides performance of frequently ordered analyses and an overview of regulatory considerations, instrumentation and quality assurance requirements Flexibly scheduled in 2 days.
Lecture: 0 hours – Lab: 2 hours
Prerequisite: Permission of instructor
Lab fee: \$45.00

MULT 160 Tissue Identification (A) 3 credits
A modern day study of histology involves the study of cell and tissue structure in relation to function. Consequently the emphasis of this course will be twofold. The first emphasis will be on learning to recognize various cellular structures and arrangements and applying them to the identification of different tissue sources. The second emphasis will be correlating the tissue identification with function. Study will begin with the single cell then progress through the four basic tissue types, organ structure, and organ systems. Students will spend considerable time examining already prepared tissue sections. This examination will include macroscopic observation with emphasis on microscopic study using the light microscope. Prepared slide examination will be supplemented with other visual aides whenever possible.
Lecture: 1 hour – Lab: 6 hours
Prerequisite: MULT 169 or permission of program director.
Lab fee: \$8.00

MULT 161 Chemistry of Stains I (A) 3 credits
Fixation, processing and staining of tissue is discussed. The theory behind each process and the purpose of each process is defined with specific technical details related to the staining of each type of tissue.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MULT 169 or permission of program director
Concurrent: MULT 163
Lab fee: \$8.00

MULT 162 Chemistry of Stains II (W) 2 credits
Continuation of MULT 161. First term.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: MULT 161 or permission of program director.
Concurrent: MULT 164
Lab fee: \$3.00

MULT 163 Basic Histology Techniques I (A) 4 credits
This course provides laboratory practice in all phases of the practice of histology.

Lecture: 0 hours – Lab: 12 hours
Prerequisite: MULT 169 or permission of program director
Concurrent: MULT 161
Lab fee: \$73.00

MULT 164 Basic Histology Techniques II (W) 3 credits

Continuation of MULT 163. First term
Lecture: 0 hours – Lab: 9 hours
Prerequisite: MULT 163 or permission of program director
Concurrent: MULT 162
Lab fee: \$48.00

MULT 165-166 Case Study Review and Seminar (W,SP) 3 credits each

These courses are concurrent with the clinical experience and includes instruction on preparation for employment, taking the registry and preparation of specimens for the registry exam. Case studies are presented and prepared by the student to demonstrate the total histological process.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MULT 161 and MULT 163.
Concurrent: MULT 167 and 168
Lab fee: \$3.00

MULT 167 Histology Clinical Experience I (W) 4 credits

The student will attend three (3) different clinical facilities 32 hours per week for 17 weeks including two weeks at Battelle Research Institute. During this time, the student will perform all functions in the clinical site as a histology technician.
Lecture: 0 hours – Lab: 16 hours
Prerequisite: MULT 162 or permission of program director
Concurrent: MULT 165
Lab fee: \$8.00

MULT 168 Histology Clinical Experience II (SP) 8 credits

Continuation of MULT 167.
Lecture: hours – Lab: 32 hours
Prerequisite: MULT 167 or permission of program director
Concurrent: MULT 166
Lab fee: \$18.00

MULT 169 Introduction to Histology (SU) 2 credits

The student will be introduced into the laboratory environment and histology profession. The major areas of study will include instrumentation, laboratory safety (including state and federal regulations), and laboratory mathematics as they apply to reagent preparation in the histology laboratory.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: Completed health record. Acceptance into the program.
Lab fee: \$65.00

MULT 170 Cancer Prevention, Diagnosis & Treatment (W) (2nd term) 1 credit

The course will present an overview of the prevention, diagnosis and treatment of a variety of cancers. These will include breast cancer, cancers associated with smoking (cancer of the mouth, throat, voice region, lung and bladder), skin cancer (including skin carcinoma and melanoma), cancers affecting men (including prostate and testicular malignancies), and cancers affecting women (including uterine, cervical, endometrial and ovarian cancers). Presentation will be provided through photomicrographs of cancer biopsies, photographs of x-rays, and clinical and histological laboratory results and will emphasize the role of various health care professionals. This course is open to everyone in the community.
Lecture: 1 hour – Lab: 1 hour

MULT 171 Current Issues: HIV Infection (A,W,SP,SU) 1 credit

Introductory course covering the psycho social, legal, epidemiologic issues surrounding HIV infection. Offered as a term course
Lecture: 1hour – Lab: 0 hours
Lab fee: : \$9.00

MULT 174 Personal Health 3 credits

The study of health issues which affect Americans today and in the future; to establish a basis for positive health and efficiency through consideration of various factors which affect health.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$5.00.

MULT 175 Principles of Homeopathy (A,W,SP,SU) 4 credits

This course is designed to introduce students to the principles and theories behind the use of homeopathic preparations to treat most disease and disorders.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$5.00

MULT 176 Fundamentals of Herbology (A,W,SP,SU) 4 credits

This course outlines the uses of herbs in the healing process from ancient history to present day. Herbs will be discussed in relation to both flowers and in cooking. Emphasis will be on therapeutic self-care first aide.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$5.00

MULT 177 Holistic Healing Methods (A,W,SP,SU) 4 credits

This course offers an introduction to the fundamentals of holistic healing which includes philosophical and theoretical foundations, alternative methods and their uses for health maintenance and development of personal healing capacities.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$5.00

MULT 178 Animals and Nature - Therapeutic Programs (SP) 3 credits

The Animal-Assisted Therapy and Education Certificate Program is designed to meet the Delta Society's standards for accreditation. The Delta Society is an international organization devoted to research and service in the area of human-animal relationships and is the leading resource center on the interactions of people, animals and the environment. The program will include the Delta Society's Pet Partners home-study course and its two-day course on temperament testing.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: MULT 179. Admission to a Health and Human Services Technology

MULT 179 Companion Animals and Health (W) 2 credits

This course will review the recent scientific evidence which confirms the ancient wisdom that our living environment - our pets, gardens, parks, rural landscapes and wild and domestic animals - have important, positive effects on health and well-being of humans. Topics to be covered include the cognitive, emotional, behavioral, and physiological effects of contact with animals and nature; Biophilia, our natural affinity for life that binds us to all living species; the psychobiology of nurturing; the ecology of pets, gardens and natural places.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: MULT 181

MULT 180 Professionalism for Health Care Providers 2 credits

The Code of Ethics for each of the technologies is reviewed. Concepts of death and dying, patient as consumer, professional standards of behavior and team work are addressed.

Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to a Health and Human Services Technology Placement into ENGL 101.
Lab fee: \$7.00

MULT 181 Introduction to the Human-Animal Interaction (A) **2 credits**

This course will investigate the origins, nature and application of the human-animal bond. The course content is designed to promote understanding of the mutually nurturing relationship between people and animals and to explore services by animals to aid people with health difficulties and physical and emotional challenges.

Lecture: 2 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101.
Lab fee: \$8.00

MULT 183 Introduction to Inpatient Coding (A,W,SP,SU) **1 credit**

Students will be introduced to the application of ICD-9-CM coding as it relates to payment of health services. This course is flexibly scheduled in 2 days.

Lecture: 1 hour – Lab: 0 hours
Lab fee: \$3.00

MULT 184 Introduction to Ambulatory Coding (A,W,SP,SU) **1 credit**

Students will be introduced to the application of CPT coding as it relates to payment of health services. This course is flexibly scheduled in 2 days.

Lecture: 1 hour – Lab: 0 hours
Lab fee: \$3.00

MULT 185 Introduction to Third-Party Reimbursement (A,W,SP,SU) **1 credit**

Students will receive an overview of how coding systems are used in outpatient and inpatient health care settings for the purpose of reimbursement to the providers of health care services. This course is flexibly scheduled in 2 days.

Lecture: 1 hour – Lab: 0 hours
Lab fee: \$3.00

MULT 190 Radiation Protection for General Machine Operator (A,W,SP,SU) **2 credits**

This course is designed to prepare non-radiographers with a specific background in radiation protection and radiation biology necessary to be eligible to apply for the State of Ohio, Radiologic Technology Division, General Machine Operator examination. Areas of instruction include radiation physics, radiographic technique, darkroom processing and film handling, radiation health, safety and protection, and radiation biology. Basic radiographic positioning skills and terminology are also presented.

Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to College
Lab fee: \$3.00

MULT 191 Radiographic Positioning for General Machine Operators (A,W,SP,SU) **2 credits**

This course is a continuation of MULT 190. It provides an environment to apply the concepts of technique selection, radiographic accessories, exposure and processing, and radiation protection in an energized laboratory setting. Radiographic anatomy, patient care skills, body mechanics, and radiographic positioning skills will be emphasized. This competency based course will include positioning of the chest, abdomen, extremities and spine.

Lecture: 1 hour – Lab: 3 hours
Prerequisite: MULT 190 or permission of the instructor.
Lab fee: \$30.00

MULT 245 RN First Assistant Program (A,SP) **5 credits**

This is an intensive training program which is designed to provide the experienced perioperative nurse with the advanced preparation and study necessary to assume the role of first assistant. The course is based on AORN's

official statement of the RNFA role.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Current RN Licensure; two years current perioperative experience; CNOR certified or eligible; current ACLS or CPR; liability insurance; two letters of recommendation

Lab fee: \$8.00

MULT 246 RNFA Experiences in the Operating Room (W, SU) **4 credits**

This course provides the student with continued practicum for completion of the RN First Assistant Program.

Lecture: 2 hours – Lab: 14 hours

Prerequisite: MULT 245

Lab fee: \$8.00

MULT 250 N.A.T.P. Train the Trainer (A,W,SP,SU) **3 credits**

This course prepares qualified nurses to teach, coordinate, and supervise a Nurse Aid Training Program. Federal and State of Ohio requirements are met.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Current RN/LPN licensed in Ohio; minimum of two years experience in caring for elderly or chronically ill.

Lab fee: \$25.00

MULT 270 Human Resource Management for Health Services **4 credits**

The focus of this course is the application, analysis, synthesis, and evaluation of human resource management principles and practices for health care managers. Practical application to past and current life/work experience is provided and emphasized. Case studies are used as simulations to provide future application in the real work setting.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: ENGL 101, and BMGT 218 or permission of the coordinator

Lab fee: \$5.00

MULT 272 Health Care Resource Management **4 credits**

This course is designed to provide management approaches to health care resources (budget, equipment, supplies, etc.). It is intended for health care managers with limited financial skills.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: ENGL 101, and BMGT 218 or permission of the coordinator

Lab fee: \$5.00

MULT 274 TQM/UM/Accreditation **4 credits**

This course prepares health care professionals to apply, analyze, synthesize, and evaluate principles and practices of Total Quality Management (TQM), Utilization Management (UM), and Accreditation. TQM focuses on methods and systems to identify and resolve problems that interfere with optimal care and explore continuous quality improvement processes. UM enlightens the health care manager to their essential involvement in the review process and examines the meaning of utilization review to institutional performance. Accreditation process is presented in a practical manner to approach a very complex concern of health care managers. Health care managers will be more knowledgeable of and compliant with external accreditation processes.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: ENGL 101, and BMGT 218 or permission of the coordinator

Lab fee: \$5.00

MULT 275 Advanced Homeopathic Theories (A,W,SP,S) 4 credits
This course will discuss homotoxicology and details of homeopathic care in acute and chronic conditions as they relate to self-care. Referral protocols will also be addressed.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: MULT 175 or permission of instructor
Lab fee: \$5.00

MULT 276 Legal Aspects and Risk Management 3 credits
This course is designed to provide the student with an overview of the legal aspects and risk management of the health care system. It is intended for health care practitioners preparing to enter supervisory positions
Lecture: 3 hours – Lab: 0 hours
Prerequisite: ENGL 101, and BMGT 218 or permission of the coordinator
Lab fee: \$5.00

MULT 290 Special Topics in Health Care (A,W,SP,SU) 1–5 credits
This is a workforce training course for employees of health care facilities who have entered into a partnership with CSCC. Various current and timely topics will be offered to give students an opportunity to expand their knowledge and/or skill level in a special area of interest.
Lecture: 1— 5 hours (maximum of 10)– Lab: 0 hours
Prerequisite: Permission of instructor and employee of facility who has partnership with CSCC

MULT 291 Special Topics in Health Care Facilities (A, W, SP, SU) 1-5 credits
This is a workforce training program for employees of health care facilities who have entered into a partnership with CSCC. Students will discuss various current and timely topics related to patient care.
Lecture: 1-5hours maximum of 10)– Lab: 0 hours
Prerequisite: Permission of instructor and employee of facility who has partnership with CSCC

Music (MUS)

MUS 101 History of Western Music (A,W,SP,SU) 5 credits
A survey of Western music from earliest times to the present including the development of notation in music, the development and limitations of standard instruments, the role of patronage in musical developments, the relationship of changes in music to changes in society, and a consideration of the attributes of “great” music in any time or age. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs and distributive transfer requirements in History, Humanities and the Arts.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$3.00

MUS 102 Introduction to Vocal Technique (A,W,SP,SU) 1 credit
An introduction to vocal technique intended for non-music majors. This class will develop basic skills for both solo and group singing through the use of traditional song materials. Repeatable for 2 total credits.
Lecture: hours – Lab: 2 hours
Lab fee: \$5.00

MUS 103 Vocal Technique II (A,W,SP,SU) 1 credit
Continuation of MUS 102: continued development of skills for solo and group singing through traditional song material. Repeatable for 2 total credits.
Lecture: hours – Lab: 2 hours
Prerequisite: Admission by Audition
Lab fee: \$5.00

MUS 110 Basic Keyboard and Music Fundamentals I 2 credits
Basic applied keyboard combined with the development of music reading and basic aural skills. This course is for those without prior musical experience.
Lecture: 1 hours – Lab: 2 hours
Lab fee: \$6.00

MUS 111 Basic Keyboard and Music Fundamentals II 2 credits
Continued development of keyboard technique and basic musical theory.
Lecture: 1 hours – Lab: 2 hours
Prerequisite: MUS 110 or permission of instructor
Lab fee: \$6.00

MUS 120 Introduction to Electronic Music (On Demand) 3 credits
This course will introduce students to the fundamentals of synthesized music. The origin, development, and present day applications of computerized sound manipulations will be studied. Prototypical synthesizing, MIDI sequencing, and digital sampling will be discussed, demonstrated, and used in class. Instruction is through a combination of lecture and hands-on experience.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MUS 110 or permission of instructor
Lab fee: \$3.00

MUS 121 Fundamentals of Music Theory (On Demand) 5 credits
An introduction to the elements of music for non-music majors, including notation, composition, and the basic skills necessary for listening and performance. The class is designed to introduce the students to the elements and procedures necessary for the composition and performance of music.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$5.00

MUS 130 Electronic Music Lab (On Demand) 3 credits
A continuation of MUS 120. The emphasis in this course is more on hands-on studio experience.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: MUS 120 or permission of instructor.
Lab fee: \$3.00

MUS 140 World Music (On Demand) 5 credits
A survey of nonwestern musical traditions, including forms of music, instrumental development and function, and the role of music and the musician in society. Meets elective requirements in the Associate of Arts and Associate of Science Degree programs and distributive transfer requirements in History, Humanities and the Arts.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$6.00

MUS 160 Concert Band (A,W,SP) 1 credit
Admission by audition. Preparation of a variety of wind literature for performance. Prior experience in instrumental music expected. Elective credit for AA/AS degrees. Repeatable for a total of 6 credits.
Lecture: 0 hours – Lab: 2 hours
Lab fee: \$5.00

MUS 165 Small Instrumental Ensemble (A,W,SP) 1 credit
Placement by audition. Specialized ensemble to concentrate on specific instrumental techniques or to explore specialized musical literature. Prior experience in instrumental music expected. Elective credit for AA/AS degree. Repeatable for a total of 6 credits.
Lecture: 0 hours – Lab: 2 hours
Lab fee: \$5.00

MUS 180 Vocal Ensemble (A,W,SP) 1 credit
Admission by audition. Preparation for performance in concert of a variety of music. Music reading ability helpful but not required. It is suggested that a new Ensemble member take MUS 102 concurrently. Repeatable for a total of 6 credits.
Lecture: 0 hours – Lab: 2 hours
Lab fee: \$5.00

MUS 221 Musicianship I (A) 5 credits
Elements of music and musical notation; analytical concepts and terminology; major and minor scales; fundamentals of harmony and melody as well as development of basic aural skills: sight singing and dictation. For students intending to major in music or those with strong interest in music.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: Mus 121 or permission of instructor
Lab fee: \$6.00

MUS 222 Musicianship II (W) 5 credits
Principles of diatonic harmony and non-chordal melodic technique; introduction to chord structures; continued development of aural skills.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: MUS 221 or permission of instructor
Lab fee: \$6.00

MUS 223 Musicianship III (SP) 5 credits
Continued study of diatonic modulation and secondary dominants, modal and pentatonic harmonic patterns and pentatonic and blues scales. Continued development of aural skills.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: MUS 222 or permission of instructor
Lab fee: \$6.00

MUS 241 Music History I (A) 3 credits
A survey of the development of music from earliest times to the 18th Century. Student ability to read music is assumed.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: Placement into ENGL 101
Lab fee: \$10.00

MUS 242 Music History II (W) 3 credits
A survey of music from the rococo through the early romantic (1850) periods. Student ability to read music is assumed.
Lecture: 3 hours – Lab: hours
Prerequisite: Placement into ENGL 101
Lab fee: \$10.00

MUS 243 Music History III (SP) 3 credits
A survey of music from the late romantic period to the present. Student ability to read music is assumed.
Lecture: 3 hours – Lab: hours
Prerequisite: Placement into ENGL 101
Lab fee: \$10.00

MUS 290 Capstone Experience in Music (On Demand) 3 credits
A capstone course focusing on Music. Students will work on developing techniques and methodologies in the field of music. Students will apply these techniques to a project of their own design, and participate in summative testing of their academic skills.

Lecture: 2 hours – Lab: 2 hours
Prerequisite: Open only to AA and AS students preparing to graduate within 2 academic quarters.
Lab fee: \$10.00

MUS 299 Special Topics in Music (On Demand) 1 to 5 credits
Detailed examination of selected topics in music.
Lecture: variable hours – Lab: hours
Prerequisite: Permission of instructor
Lab fee: \$2.00

Natural Science (NSCI)

A mandatory safety lesson (normally given in the laboratory) must be completed before the student is admitted to certain natural science laboratory sessions. Approved safety goggles are required for some laboratory sessions and may be purchased through the Bookstore. Attendance during the first week of class is mandatory and may affect a student's continued enrollment in these classes. Students must complete 60% of the laboratories in the course to receive credit.

NSCI 101 Natural Science I (A,W,SP,SU - DL) 5 credits
This course covers the evolution of the physical and biological sciences from antiquity to the modern era. Topics include early ideas of the physical world, the principles of mechanics and optics, microscopy and its role in the development of cell and germ theory, germ theory, the atomic nature of matter, and the classification and bonding of the elements. Related laboratory and demonstrations. Safety training and goggles are required for the laboratory. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: Placement into ENGL 101 and placement into MATH 102 or higher or completion of DEV 031.
Lab fee: \$19.00

NSCI 102 Natural Science II (A,W,SP,SU -DL) 5 credits
A continuation of NSCI 101. Topics include the laws of chemical combination, chemical reactions, evolution and natural selection, the diversity of life and ecology, the concept of energy, heat and thermodynamics, kinetic theory, electricity and magnetism, the nature of light, and quantum mechanics. Related laboratory and demonstrations. Safety training and goggles are required for the laboratory. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.
Lecture: 4 hours – Lab: 3 hours
Prerequisite: NSCI 101 or equivalent
Lab fee: \$ 19.00

NSCI 103 Natural Science III (A,W,SP,SU -DL) 5 credits
This course integrates the study of chemistry and biology with an emphasis on topics which have had an impact on the development of science in the twentieth century. Topics include the ways scientists communicate information, the modern advances of organic chemistry and biochemistry, protein synthesis, the processes of mitosis and meiosis, and genetics. Discussions cover scientific information as well as any ethical and moral implications of scientific advances. Related laboratory and demonstrations. Safety training and goggles are required for the laboratory. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and

laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: NSCI 102, equivalent, or permission of instructor

Lab fee: \$19.00

Nursing (NURS)

NURS 109 Student Transition (A,W,SP,SU) 1 credit

This course is designed to assist the student who has life experience credit for one or more designated nursing courses with transition into the nursing sequence. The components of the course include socialization into the Associate Degree Nursing student role at Columbus State, nursing process, communications skills, and selected psychomotor skills.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: acceptance into Nursing via LPN route or transfer student route.

NURS 110 Introduction to Nursing (A,SP) 3 credits

The student will examine the historic and current role of the nurse in the health care delivery system. The nursing process is introduced as a method for planning care and self-care activities that promote, maintain, and restore health in adult and geriatric clients. Communication techniques, teaching/learning principles, and computer skills used by the nurse in delivery of care will be discussed. The student will examine the economics and services available within the health care delivery system. Ethical and legal issues as they relate to the practice of nursing are introduced. Safe implementation of technical skills with a holistic approach and attention to cultural consideration is stressed. Beginning principles of critical thinking are discussed. Clinical experiences are provided in a variety of community settings 4 hours each week. Lab hours include the total number of hours for clinical and seminar.

Lecture: 1 hour – Lab: 6 hours

Prerequisite: Admission to nursing

Concurrent: BIO 161, PSY, 100, ENGL 101, and NURS 120

Lab fee: \$34.00

NURS 111 Health Promotion of Women and Families (W,SU) 4 credits

The student will focus on the role of the nurse as a provider of care in the promotion of health for women and families. The influence of cultural diversity and health care economics on women and families will be included. The student will use the nursing process in providing care and promoting self-care activities. Emphasis will be placed on the teaching / learning process. Concepts of mental and spiritual health will be introduced. Community resources available to women and families will be examined. Clinical experiences will be provided in a variety of community settings 7 hours each week. The student will begin application of critical thinking principles. Lab hours include the total number of hours for clinical and seminar.

Lecture: 1 hour – Lab: 9 hours

Prerequisite: NURS 110, NURS 120, BIO 161, PSY 100 and ENGL 101

Concurrent: BIO 169, PSY 240, NURS 121, and NURS 130

Lab fee: \$34.00

NURS 112 Introduction to Nursing Concepts of Health Maintenance and Restoration (A,SP) 6 credits

The student will focus on the role of the nurse as a provider of care for persons in need of maintenance and/or restoration of health. The student will study the impact of developmental levels and the effect of acute, chronic or terminal conditions as they relate to the ability of the person and family to care for themselves. The physical, psychological, and spiri-

tual well being of the person and family during the dying and death process will be emphasized. The concepts studied include perioperative nursing, pain management, infectious processes, cancer, fluid and electrolyte imbalances, and altered nutrition. A variety of community settings for adults and children will be utilized for the clinical experience scheduled 10 hours each week. Lab hours include the total number of hours for clinical and seminar.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: NURS 111, NURS 121, NURS 130, BIO 169, and PSY 240

Concurrent: BIO 170, NURS 131, and NURS 113

Lab fee: \$49.00

NURS 113 Nursing Skills (A, W, SP, SU, DL) 2 credits

Principles and concepts underlying the performance of select nursing skills as well as the technical aspects necessary in performing those skills will be discussed. Critical thinking and communication techniques, which are integral components of the application of these skills in nursing practice, are included. As a provider of care the nurse implements nursing skills with consideration to the developmental level of the person and to the venue in which they practice. In each unit of instruction the legal, ethical and economic issues related to the skills will be presented.

Lecture: 1 hour – Lab: 3 hours

Prerequisite: NURS 110, NURS 130, or permission of instructor

Lab fee: \$51.00

NURS 120 Health Assessment in Nursing I (A,SP) 2 credits

Nursing assessment of the person is presented in two courses. In the first course the student is introduced to techniques of physical assessment. The student will be involved in holistic assessments of adults with consideration to ethnic variations. Developmental considerations in the geriatric client will be discussed. Legal ramifications of nursing assessment will be presented.

Lecture: 1 hour – Lab: 3 hours

Prerequisite: Admission to Nursing or permission of instructor

Concurrent: BIO 161

Lab fee: \$25.00

NURS 121 Health Assessment in Nursing II (W,SU) 2 credits

This is the second of two nursing assessment courses. The focus will be on holistic assessments of the childbearing, newborn, and pediatric client. Assessment of mental health status and family relations will also be included. Consideration will be given to ethnic and developmental variations. The assessment of community resources available to promote, maintain, and restore health will be explored.

Lecture: 1 hour – Lab: 3 hours

Prerequisite: NURS 120

Concurrent: BIO 169 and PSY 240

Lab fee: \$30.00

NURS 130 Concepts of Pharmacology I (W,SU) 3 credits

The student is introduced to the general principles of pharmacology. This is the first of two courses where the focus will be on the nurse's role in drug administration to person's of all ages. Drug classifications and their relationship to promotion, maintenance and restoration of health will be presented. Safe administration and documentation of oral, topical, and injected medication is presented in the laboratory component. Calculations of medications for each administration form will be taught.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: NURS 120 or permission of instructor

Concurrent: BIO 169

Lab fee: \$37.00

NURS 131 Concepts of Pharmacology II (A,SP) 3 credits

This is the second of two courses where the focus will be on the nurse's role in drug administration to persons of all ages. Drug classifications and their relationship in promotion, maintenance and restoration of health

will be presented. Safe administration of enteric, intravenous and inhalation medications is presented in the laboratory component. Calculations of medications for each administration form will be taught.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: NURS 130
Concurrent: NURS 113
Lab fee: \$41.00

NURS 190 Holistic Interventions for Health Care Practitioners(A,SP,) 2 credits

The student will be introduced to various healing modalities and complementary therapies that are used by health care practitioners to provide holistic care to a patient. Included will be an overview of the body/mind paradigm and a survey of commonly used techniques such as guided imagery, meditation and therapeutic touch. This course may be used to fulfill the elective requirement for nursing.

Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to a health technology or permission of instructor
Lab fee \$5.00

NURS 191 Basics of Gerontological Nursing (A,W,SP,SU,DL) 2 credits

The student is introduced to the basic concepts of gerontological nursing. The focus is on meeting the needs of the elderly. Assessment, maintenance and restoration of health is presented for those over the age of 65. The nursing process is used as the framework for the development of thinking skills. Content will reflect on the influence of the legal, ethical, cultural and economic issues related to the health care needs of the elderly. This course may be used to fulfill the elective requirement for nursing.

Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to a health technology or permission of instructor
Lab fee: \$5.00

NURS 192 Introduction to Community Nursing (W) 3 credits

The course is designed to introduce students to the basic concepts of Community Health Nursing. The focus of this course is exploration of the major concepts and conceptual issues underlying the specialty of Community Health Nursing. The course is intended to assist students to clarify conceptual issues in the specialty and to begin to develop positions on critical issues related to access to care and analysis of existing delivery systems. The course will also provide the tools of practice necessary for the Registered Nurse already working in a community setting. Assessment, promotion, maintenance and restoration of health are presented for families, communities and common community health problems. The nursing process is used as the framework for critical thinking skills. This course may be used to fulfill the elective requirement for nursing.

Lecture: 3 hours – Lab: 0 hours
Prerequisite: NURS 112 or permission of instructor
Lab fee: \$5.00

NURS 193 End of Life Care (A,W,SP,SU) 2 credits

The student will be introduced to various nursing interventions appropriate at the end of life. Included will be an overview of commonly experienced problems. Nine critical areas including palliative care, quality of life, pain symptom management, communication needs of caregivers, the dying process, ethics and bereavement will be explored. This course may be used to fulfill the elective requirement for nursing.

Lecture: 2 hours—Lab: 0 hours
Prerequisite: Admission to a Health Technology or permission of the instructor.
Lab fee: \$5.00

NURS 194 Using Advanced Nursing Skills to Manage the Care of Critically Ill Adult Patients (A,W,SP,SU) 3 credits

The student will be exposed to the advanced theory and skills needed to manage the care of individuals in a variety of critical care areas. The focus will be on identifying critical situations and potential problems and selecting and implementing the appropriate interventions. Students will apply theory and skills to case studies and clinical situations. Students will be exposed to such advanced skills as cardiac monitoring, hemodynamic monitoring, ventilator support, critical care drugs, emergent and code situations using case studies and simulated patient care situations. This course may be used to fulfill the elective requirement for nursing.

Lecture: 2 hours – Lab: 3 hours
Prerequisite: NURS 210, graduate of an RN program or permission of instructor
Lab fee: \$25.00

NURS 195 Nursing Concepts Enhancement I (A, W, SP, SU) 1 credit

The course is designed to assist the student to meet the outcomes of the nursing curriculum through enhanced test-taking skills. Students will apply nursing concepts to formulating responses in testing situations. This course may NOT be used to fulfill the elective requirement for nursing.

Lecture: 1 hours – Lab: 0 hours
Prerequisite: NURS 112 and Nursing Outcome Exam I completed
Lab fee: \$34.00

NURS 196 Nursing Concepts Enhancement II (A, W, SP, SU) 3 credits

The course is designed to assist the student to meet the outcomes of the nursing curriculum through enhanced test-taking skills. Students will apply nursing concepts to formulating responses in testing situations. This course may NOT be used to fulfill the elective requirement for nursing.

Lecture: 1 hour -Lab: 4 hours
Prerequisite: NURS 212 and exit Nursing Outcome exam completed
Lab fee: \$26.00

NURS 197 Current Trends in Pediatric Nursing (W, SU) 3 credits

The course is designed to build on the foundation of nursing from previous nursing courses. The focus of the course is to explore the health care needs of pediatric patients and their families. The nursing process will be the framework to study the physical, psychological and social aspects of pediatric nursing care. The course will provide students with the opportunity to apply knowledge and skills by using simulated pediatric care situations. This course may be used to fulfill the elective requirement for nursing.

Lecture: 3 hours-Lab: 0
Prerequisite: NURS 111
Lab fee: \$5.00

NURS 210 Nursing Concepts of Health Maintenance and Restoration (W,SU) 6 credits

The student is introduced to the concepts of care management while continuing to function as a provider of care and promoter of health for pediatric and adult clients. The focus is on meeting the holistic needs of the client. Maintenance and restoration of health are presented in relation to the integumentary, gastrointestinal, urinary, sensory, and endocrine systems. The nursing process is the framework for continued development of critical thinking skills. Each unit of instruction will contain content on the influence of legal, ethical, cultural, and economic issues related to health care. In the clinical component of the course, which meets 10 hours each week and is conducted in a variety of community settings, the student is accountable for his nursing practice. The nursing outcome exam covering the first three quarters of nursing will be given during the initial

weeks of the quarter. Lab hours include the total number of hours for clinical and seminar.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: NURS 112, NURS 113, NURS 131, and BIO 170

Concurrent: BIO 115 and ENGL 102

Lab fee: \$34.00

NURS 211 Nursing Concepts of Health Maintenance and Restoration II (A,SP) 6 credits

The student continues to develop the role of manager of care while providing care and promoting health of pediatric and adult clients. The focus is on meeting the holistic needs of clients. Maintenance and restoration of health are presented in relation to the respiratory, cardiovascular, hematological, and reproductive systems. The nursing process is the framework for continued development of critical thinking skills. Each unit of instruction will contain content on the influence of legal, ethical, cultural, and economic issues related to health care. In the clinical component of the course, which meets 10 hours each week and is conducted in a variety of community settings, the student is accountable for his nursing practice. Lab hours include the total number of hours for clinical and seminar.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: NURS 210, a passing score on Nursing Outcome Exam I, and BIO 115

Lab fee: \$34.00

NURS 212 Nursing Concepts of Health Maintenance and Restoration III (W,SU) 6 credits

The student continues to develop the role of manager of care while providing care and promoting health of pediatric and adult clients. The focus is on meeting the holistic needs of clients. Maintenance and restoration of health are presented in relation to mental health, and the neurological, musculoskeletal, and immune systems. The nursing process is the framework for continued development of critical thinking skills. Each unit of instruction will contain content on the influence of legal, ethical, cultural, and economic issues related to health care. In the clinical component of the course, which meets 10 hours each week and is conducted in a variety of community settings, the student is accountable for his nursing practice. Lab hours include the total number of hours for clinical and seminar.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: NURS 211

Concurrent: MATH 135

Lab fee: \$34.00

NURS 213 Concepts of Nursing Management (A,SP) 8 credits

The student will synthesize concepts of care management to develop leadership skills inherent in the profession of nursing. The student will assume the roles of provider of care, manager of care, and member within the discipline of nursing. Ethical, legal, political, and economic issues as they relate to professional nursing will be presented. Current trends in nursing practice are analyzed. The student will focus on holistic care of groups of clients and their families in the promotion of self-care activities. The clinical experience will be conducted in a variety of community settings 16 hours each week. The nursing outcome exam covering the previous six quarters in nursing will be given the beginning of the quarter. Students must achieve a minimum percentile score on this outcome exam in order to graduate. Lab hours include the total number of hours for clinical and seminar.

Lecture: 2 hours – Lab: 18 hours

Prerequisite: NURS 212 and MATH 135

Lab fee: \$34.00

Office Administration (OADM)

OADM 101 Business Grammar (A,W,SP,SU - DL) 3 credits

This course is a structured program reviewing all eight parts of speech in detail. In addition, it is designed to assist the student to become skillful in sentence analysis, word choice, punctuation, vocabulary, capitalization, number expression, and spelling.

Lecture: 2 hours – Lab: 3 hours

OADM 102 Editing Business Documents (W,SP) 3 credits

Editing Business Documents is a course that has application for anyone who writes, edits, or prepares final copy for distribution or publication. Includes basic rules regarding grammar usage and aspects of style, as well as techniques and procedures for producing many different kinds of written communications. In addition to editing and proofreading at the computer, letters, memos, and reports will be formatted.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: OADM 101 with “C” grade or higher and OADM 132, or permission of instructor.

Lab fee: \$3.00

OADM 111 Accounting Basics (A,W,SP,SU) 4 credits

This course is designed to provide students with a basic understanding of accounting principles and procedures including analysis of business transactions, journalizing, posting, adjusting and closing entries, and financial statement preparation. Also included are transactions involving payroll accounting, bank accounts, and cash funds.

Lecture: 3 hours – Lab: 2 hours

OADM 112 Computerized Accounting Using QuickBooks (A,W) 1 credit

Students will learn how to keep a set of computerized books for small businesses using QuickBooks.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: OADM 111 or permission of instructor.

Lab fee: \$1.00

OADM 121 Records Management (A,W,SP) 3 credits

This course is designed to provide knowledge of efficient handling of business records, ARMA filing methods and systems, and principles for the selection of records systems and supplies.

Lecture: 2 hours – Lab: 3 hours

OADM 131 Keyboarding I (A,W,SP,SU - DL) 3 credits

An introductory interactive system of keyboarding by touch and applications using microcomputers and software; development of basic keyboarding skills measured in words per minute and accuracy of one error per minute. To receive credit for this course, students must (a) complete all keyboarding lessons in assigned text, and (b) be able to type at least two different two-minute timings, each demonstrating minimum speed of 25 words a minute with accuracy of two errors or less.

Lecture: 2 hours – Lab: 3 hours

Lab fee: \$3.00

OADM 132 Keyboarding II (A,W,SP,SU - DL) 3 credits

An intermediate interactive system of reinforcing keyboarding skills by touch and applications using microcomputers and Microsoft Word designed to teach formats for business correspondence, tabulations, and manuscripts with emphasis on correct techniques, proofreading, decision-making skills, and accuracy; further development of keyboarding speed measured in words per minute and accuracy of one error per minute on three-minute timings. To receive credit for this course, students must demonstrate assigned formatting skills and be able to type at least two different three-minute timings, each demonstrating minimum speed of 35 words a minute with accuracy of three errors or less.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: OADM 131 or proficiency test.

Lab fee: \$3.00

OADM 133 Keyboarding III (W,SP,SU - DL) 3 credits
An advanced interactive system of reinforcing keyboarding skills by touch and applications using microcomputers and Microsoft Word software designed to teach business correspondence, tabulations, manuscripts, reports, and various business forms with emphasis on correct techniques, proofreading, decision-making skills, and accuracy; further development of keyboarding speed measured in words per minute and accuracy of one error per minute on five-minute timings. To receive credit for this course, students must demonstrate assigned formatting skills and be able to type at least two different five-minute timings, each demonstrating minimum speed of 45 words per minute with accuracy of five errors or less.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: OADM 132 or proficiency test.
Lab fee: \$3.00

OADM 134 Keyboarding IV (SP,SU) 3 credits
The focus in this course is in three areas of learning: developing keyboarding speed and accuracy, building production-level mastery on a wide variety of business documents, and using word processing functions and features to streamline the creation of professional-looking documents. To receive credit for this course, students must demonstrate assigned formatting skills and be able to type at least two different five-minute timings at 50 words per minute with accuracy of five errors or less.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: OADM 133
Lab fee: \$5.00

OADM 139 Keyboarding Improvement (A,W,SP,SU - DL) 3 credits
This elective course is designed to provide students with increased skills in the operation of the keyboard. Greater speed and accuracy are the goals. The emphasis is on speed and accuracy using straight-copy material.
Lecture: 1 hour – Lab: 4 hours
Prerequisite: OADM 131
Lab fee: \$3.00

OADM 144 Notetaking Using SuperWrite (W,SP) 3 credits
This course introduces the basics of SuperWrite, an abbreviated writing system based on the longhand alphabet and secondarily on phonetics. Practice is stressed for speed and accuracy.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$5.00

OADM 151 Machine Transcription (SP,SU) 4 credits
This course is designed to develop skill in the use of machine transcription equipment. Mailable copy is the goal in transcribing machine dictation of business correspondence, technical reports, drafts, and other business communications in a broad range of business formats. Emphasis on the fundamentals of English in grammar, spelling, and vocabulary will reinforce transcription skills.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: OADM 132
Concurrent: OADM 133
Lab fee: \$3.00

OADM 164 WordPerfect I (W, SU) 3 credits
Provides a solid foundation for this word processing software. Covers basic to advanced features including the use of icons, the ruler bar, line and page formatting, tabs, headers, footers, footnotes, endnotes, merging, tools, and file management. A keyboarding skill of 35 wpm is recommended.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$5.00

OADM 165 WordPerfect II (A) 3 credits
Covers such special features as using multiple windows, merging, macros, envelopes and labels, sorting and selecting, columns, tables, desktop publishing, style sheets, and manuscripts.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: OADM 164
Lab fee: \$5.00

OADM 167 Desktop Publishing Using PageMaker (A,W,SP,SU) 3 credits
Principles of design and hands-on experience with PageMaker. Requirements: 35 wpm typing skill and knowledge of a personal computer in general, Windows, and word processing.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$5.00

OADM 172 Excel (A,W,SP,SU) 3 credits
This is a foundation course in spreadsheets for office workers. Covers major spreadsheet features of the program including spreadsheet design, formulas, functions, and charts. Applications investigate Excel's powerful features in business situations.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 101 or permission of instructor.
Lab fee: \$5.00

OADM 191 Word I (A,W,SP,SU - DL) 3 credits
Provides a solid foundation for this word processing software. Covers basic to intermediate features including creating, editing, printing documents, using icons, rulers, and the file manager. A keyboarding skill of 35 wpm is recommended.
Lecture: 2 hours – Lab: 3 hours
Lab fee: \$5.00

OADM 192 Word II (A,W,SP,SU) 3 credits
Advanced features of Microsoft Word are presented including creating charts, formatting text into columns, formatting with styles, merging documents, sorting, creating tables and indexes.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: OADM 191 or MCT 106
Lab fee: \$5.00

OADM 224 Office Field Experience I (W, SP) 2 credits
The student is employed for approximately 24 hours a week in an office position that will provide application of as many of the theories taught in the office administration program as is practical for each individual. The on-the-job field experience is supervised by a field experience coordinator to aid in the student's growth and development.
Lecture: 0 hours – Lab: 24 hours
Prerequisite: OADM 134 and OADM 261

OADM 261 Electronic Office Procedures (A) 4 credits
This upper-level course is designed for second-year students who are preparing to enter an Office Administration position or who are currently working in an office. The student will prepare for a job search, consider topics such as incoming and outgoing communications, reprographics, travel arrangements, meetings and conferences, preparing presentations and meeting minutes, as well as other advanced topics.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: OADM 134 and OADM 192 or permission of instructor.
Lab fee: \$5.00

OADM 297 Special Topics in Office Administration (On Demand) 3 credits
Detailed examination of selected topics of interest in office administration.
Lecture: 0 hours – Lab: 1 hour
Prerequisite: vary.
Lab fee: \$20.00

Philosophy (PHIL)

PHIL 101 Introduction to Philosophy (A,W,SP,SU - DL)

5 credits

An introduction to the problems, methods, and terminology of philosophy, the types of questions addressed by philosophers, and the pivotal thinkers and systems of Western civilization from the Greeks to the 20th century. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in philosophy and humanities.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$3.00

PHIL 130 Ethics (A,W,SP,SU)

5 credits

An introduction to moral reasoning, examining theories of right and wrong, good and bad, justice and injustice as they have been viewed in the past and as they shed light on contemporary ethical issues. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in philosophy and humanities.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$3.00

PHIL 150 Introduction to Logic (A,W,SP,SU - DL)

5 credits

An introduction to critical thinking and the methods of inductive, deductive and symbolic logic. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in philosophy, humanities, and, in some instances, mathematics and science. Check with your academic advisor.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$3.00

PHIL 250 Symbolic Logic (On Demand)

5 credits

A presentation of deductive logic focused on propositional logic, natural deduction and predicate logic. This course develops in greater detail principles of deductive logic covered in PHIL 150. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and distributive transfer requirements in philosophy, humanities, and in some cases, mathematics and sciences. Check with your academic advisor.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$2.00

PHIL 270 Philosophy of Religion (On Demand)

5 credits

An introduction to the major issues in the philosophy of religion including the existence of God, faith and reason, the problem of evil, miracles, death and immortality, and God and morality. Meets elective requirements in the Associate of Arts and Associate of Science programs.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$2.00

PHIL 290 Capstone Experience in Philosophy (On Demand)

3 credits

A capstone course focusing on philosophy. Paradigms and their underlying assumptions will be explored. Students will work on developing research techniques and methodologies. Students will apply these techniques to a project of their own design, and participate in summative testing of their academic skills.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Open only to AA and AS students preparing to graduate within 2 academic quarters.

Lab fee: \$10.00

PHIL 299 Special Topics in Philosophy

1 to 5 credits

Detailed examination of selected topics in philosophy.

Lecture: variable hours – Lab: 0 hours

Prerequisite: Permission of instructor

Lab fee: \$2.00

Physics (PHYS)

Students must complete 60% of the laboratories to receive course credit. Courses in this area may require additional hours outside of the scheduled class time.

PHYS 100 Introduction to Physics (A,W,SP,SU -DL)

4 credits

A survey of the basic concepts of physics with emphasis on energy and its various forms. Topics include mechanics, heat, electricity, and waves. Related laboratory and demonstrations. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MATH 102 or equivalent, and placement into ENGL 100. Not open to students with credit for PHYS 117, PHYS 118, PHYS 177, PHYS 178, PHYS 181, PHYS 182, PHYS 183, or PHYS 185

Lab fee: \$10.00

PHYS 117 College Physics (Mechanics and Heat) (A,W,SP,SU)

5 credits

A study of classical mechanics, including statics and kinematics, Newton's laws of motion, linear and angular momentum, work and energy, and properties of solids and fluids. Elementary concepts of heat are introduced, including temperature and thermal expansion, the ideal gas law, calorimetry, and heat transfer. Related laboratory and demonstrations. This course and PHYS 118 provide a two-quarter sequence in physical science that will fulfill the elective requirement for the Associate of Science Degree.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: MATH 148 or MATH 111 or equivalent, placement into ENGL 101. Not open to students with credit for PHYS 177 or PHYS 178

Lab fee: \$11.00

PHYS 118 College Physics (Electricity, Magnetism, and Light) (A,W,SP,SU)

5 credits

A continuation of PHYS 117. Topics in classical electricity and magnetism include electric potential, current and resistance, dc circuits, magnetic forces and fields, and electromagnetic induction. The nature of light is introduced and the principles of geometrical and physical optics, including optical instruments, are treated. Related laboratory and demonstrations.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: PHYS 117, and MATH 150 or MATH 112 or equivalent. Not open to students with credit for PHYS 177, PHYS 178 or PHYS 179

Lab fee: \$10.00

PHYS 119 College Physics (Modern Physics) (A,W,SP)

5 credits

A continuation of PHYS 118. Topics include alternating current, electromagnetic waves, kinetic theory of gases, thermodynamics, and modern physics. The major emphasis of the course is on topics in modern physics, including special relativity, quantum mechanics, atomic and nuclear physics, nuclear radiation, and nuclear energy. Related laboratory and demonstrations.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: PHYS 118. Not open to students with credit for PHYS 177, PHYS 178 or PHYS 179

Lab fee: \$10.00

PHYS 177 General Physics I (A,W,SP,SU -DL) 5 credits

A course in the fundamental principles of mechanics for physics majors and engineers. Topics treated include vectors, equilibrium, kinematics and dynamics of a particle, energy, momentum, rotation, elasticity, simple harmonic motion, and the behavior of fluids. Related laboratory and demonstrations. This course and PHYS 178 provide a two-quarter sequence in physical science that will fulfill the elective requirement for the Associate of Science Degree. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: MATH 151, high school physics or PHYS 100 recommended and placement into ENGL 101

Lab fee: \$ 11.00

PHYS 178 General Physics II (A,W,SP,SU - DL) 5 credits

A continuation of PHYS 177, topics covered include Coulomb's law, electric fields and potentials, capacitors and dielectrics, current and resistance, dc circuits. Magnetic fields and forces, electromagnetic properties of matter, ac circuits. Related laboratory and demonstrations. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: PHYS 177 and MATH 152.

Lab fee: \$10.00

PHYS 179 General Physics III (A,W,SP,SU -DL) 5 credits

A continuation of PHYS 178. Topics include mechanical waves, sound, electromagnetic waves, light, mirrors, lenses, interference, diffraction, polarization, relativity, photons, structure of atoms, nuclei, and solids. Related laboratory and demonstrations. Students enrolled in distance versions of this course will be required to come to campus for an orientation meeting, completion of certain exams and laboratories. Laboratories are generally done on an every other week basis on campus.

Lecture: 4 hours – Lab: 3 hours

Prerequisite: PHYS 178 and MATH 153

Lab fee: \$10.00.

PHYS 181 Technical Physics (Mechanics) (A,W,SP,SU) 4 credits

A course in the basic principles of mechanics. Major topics include equilibrium or rigid bodies, particle motion, Newton's laws of motion, work and energy, conservation principles, and rotational motion. Related laboratory and demonstrations.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MATH 111 or MATH 148 or equivalent, and placement into ENGL 100. Not open to students with credit for PHYS 117 or PHYS 177

Lab fee: \$10.00

PHYS 183 Technical Physics (Properties of Matter) (W,SU) 4 credits

A course in the basic principles associated with the mechanical and thermal properties of matter. Major topics include elasticity, fluid mechanics, heat and temperature, energy transformations, heat transfer, ideal and real gases, thermodynamics, vibrations and wave motion. Related laboratory and demonstrations.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MATH 111 or MATH 148 or equivalent, and placement into ENGL 100. Not open to students with credit for PHYS 117 or PHYS 177

Lab fee: \$ 10.00

PHYS 185 Technical Physics (Heat, Light, Sound) (A,W,SP,SU) 4 credits

A course in the basic principles associated with heat, light, and acoustic phenomena. Major topics include temperature and heat, heat transfer, wave and particle nature of light, atomic theory, solid-state theory, electronics,

and acoustics. Related laboratory and demonstrations.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: MATH 112 or equivalent, and placement into ENGL 100.

Not open to students with credit for PHYS 117 or PHYS 177

Lab fee: \$12.00

PHYS 290 Capstone Experience in Physics (On Demand) 3 credits

An integrated science course blending elements of chemistry, physics and biology. Topics include the historical development of the sciences, ethical issues in science and how they affect the advancement of scientific thought, and the scientific method as it relates to experimental design and interpretation of scientific results. The laboratory utilizes an investigative approach taking students through the process of identifying a research problem, conducting a literature review, writing a research proposal, collecting and analyzing data, writing a scientific paper and presenting results. This course is required for all physics majors seeking either the Associate of Arts or Associate of Science degree.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: 75 hours or more of course work completed with a minimum of 20 credit hours within the sciences.

Lab fee: \$18.00

PHYS 293 Independent Study in Physics (On Demand) 1 to 5 credits

Detailed examination of selected topics of interest in physics.

Lecture: 1 to 5 hours – Lab: 0 to 6 hours

Prerequisite: Permission of instructor

Lab fee: varies

PHYS 299 Special Topics in Physics (On Demand) 1 to 5 credits

Detailed examination of selected topics of interest in physics.

Lecture: 1 to 5 hours – Lab: 0 to 6 hours

Prerequisite: Permission of the instructor

Lab fee: varies

Political Science (POLS)**POLS 101 Introduction to American Government (A,W,SP,SU - DL) 5 credits**

This course introduces students to the nature, purpose and structure of the American political system. Attention is given to the institutions and processes that create public policy. The strengths and weaknesses of the American political system are discussed, along with the role of citizens in a democracy.

A distance-learning version of Introduction to American Government is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

POLS 165 Introduction to Politics (A,W,SP,SU) 5 credits

This course introduces students to the basic concepts and issues in the study of politics. The course compares various political institutions, ideologies, and economic systems; examines political socialization and culture; explores methods of resolving international conflict, and explains the impact of modern bureaucracies on policy-making.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

POLS 290 Capstone Experience in Political Science**(On Demand)****3 credits**

This course is for students completing the two-year Associate of Arts or Associate of Science degree who have special interest in continuing a baccalaureate degree program in political science. Course requirements include the completion and presentation of a research project that relates to the students' academic interests after reviewing research methodologies and findings in political science; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Completion of AA/AS core requirements and at least 75 hours toward the degree with five credit hours in political science

Lab fee: \$10.00

POLS 293 Independent Study in Political Science**(On Demand)****1 - 5 credits**

An individual, student-structured course that examines a selected topic in political science through intensive reading or research. The independent study elective permits a student to pursue his/her interest within the context of a faculty-guided program.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Permission of the Instructor, the Chairperson, and one course in Political Science

Lab fee: \$6.00

POLS 299 Special Topics in Political Science**(On Demand)****1 - 5 credits**

A detailed examination of selected topics of interest in political science.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Vary

Lab fee: \$6.00

Psychology (PSY)**PSY 100 Introduction to Psychology (A,W,SP,SU - DL) 5 credits**

This introductory course provides an overview of the origins, growth, content and applications of psychology, including the application of the scientific method to the following topics: research methodology; beginning statistics; theories of physical, cognitive, moral and emotional development; sensation; perception; learning; motivation; intelligence; memory; personality; coping processes; abnormality; adjustment; and the individual in small groups and a pluralistic society.

Two distance-learning versions of Introduction to Psychology are available. Students have the option of taking a web-based version or a video-based version (telecourse) of the course in addition to traditional classes. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Students who elect to take the video-based version (telecourse) may view the one-half hour video segments of the course on PBS or rent copies of the videotapes from the College library. Course content in distance learning courses is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

Telecourse lab fee: \$25.00

PSY 200 Educational Psychology (A,W,SP,SU)**5 credits**

This course explores the concepts and factors affecting application of psychological principles to the education process. Topics include theories of learning, motivation, classroom management, planning, teaching, and student evaluation in relationship to developmental stages.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: PSY 100 and placement into ENGL 101

Lab fee: \$7.00

PSY 201 Field Based Experience in Educational**Psychology (On Demand)****1 to 5 credits**

A field-based experience designed to teach the relationship between psychological principles and the education process. The supervised field experience emphasizes appropriate teaching strategies for different age groups and settings. Practical experiences are related to classroom organization, management, and learning activities. The field-based course consists of 12 hours per academic credit hour in an educational or community setting.

Lecture: 0 hours – Lab: 0 hours - Field experience: 12 hours per credit hour

Prerequisite: PSY 100 and placement into ENGL 101

Concurrent: PSY 200

Lab fee: \$7.00

PSY 230 Abnormal Psychology (A,W,SP,SU - DL)**3 credits**

Abnormal Psychology presents the basic concepts of abnormalities as defined by the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders (DSM-IV). The course focuses on classification schemes of diagnoses and looks at descriptive terms and symptoms. Research, major perspectives, and myths in the field of mental health are examined.

A distance-learning version of Abnormal Psychology is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: PSY 100 and placement into ENGL 101

Lab fee: \$7.00

PSY 235 Psychology of Adjustment (A,W,SP,SU)**3 credits**

This course examines psychological factors that influence individual growth, development, and behavior. Current theoretical approaches to understanding and achieving self-awareness, application of conditioning and motivation techniques to behavior modification, group dynamics, methods of self-help, and methods of improving interpersonal communications and relationships are investigated.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: PSY 100 and placement into ENGL 101

Lab fee: \$7.00

PSY 240 Human Growth and Development Through the Life Span (A,W,SP,SU)**4 credits**

This course surveys developmental change from conception to death. The following stages of human growth and development are covered: conception and prenatal growth, infancy, childhood, adolescence, young adulthood, middle age, old age, and death. This course focuses on physical, social, emotional and cognitive development.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: PSY 100 and placement into ENGL 101

Lab fee: \$7.00

PSY 261 Introduction to Child Development**(A,W,SP,SU)****5 credits**

This course examines the nature, nurture, and development of children from conception through eight years of age. The traditional child development approach is used with emphasis upon physical, cognitive, social, emotional, and language development. Observation of children is an integral part of the course.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: PSY 100 and placement into ENGL 101

Lab fee: \$7.00

PSY 267 Social Psychology (A,W,SP,SU)**5 credits**

This course provides an overview of the origins, growth, content, and interaction of individuals in social settings, including the application of the scientific method and cultural influence to the following topics: attitudes and attitude change, attribution, social identity (self and gender), social perception (understanding others), social cognition (thinking about others and their social environment), prejudice and discrimination, non-verbal communication, obedience to authority, conformity, aggression, prosocial behavior, interpersonal attraction, and behavior in groups.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: PSY 100 and placement into ENGL 101

Lab fee: \$7.00

PSY 290 Capstone Experience in Psychology**(On Demand)****3 credits**

This course is for students completing the two-year Associate of Arts or Associate of Science degree who have a special interest in continuing a baccalaureate degree program in psychology. Course requirements include the completion and presentation of a research project that relates to the students' academic interests after reviewing research methodologies and findings in psychology; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Completion of AA/AS core requirements and at least 75 hours toward the degree with five credit hours in psychology

Lab fee: \$10.00

PSY 293 Independent Study in Psychology**(On Demand)****1 - 5 credits**

An individual, student-structured course that examines a selected topic in psychology through intensive reading or research. The independent study elective permits a student to pursue his/her interests within the context of a faculty-guided program.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Permission of the Instructor, the Chairperson, and one course in Psychology

Lab fee: \$6.00

PSY 299 Special Topics in Psychology (On Demand) 1 to -5 credits

A detailed examination of selected topics of interest in psychology.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Vary

Lab fee: \$6.00

Quality Assurance Technology (QUAL)

For Statistical Process Control, see MECH 244 in the Mechanical Engineering Technology course descriptions. For other related course descriptions, see Electronic Engineering Technology and Mechanical Engineering Technology.

QUAL 150 Quality Transformation (A,SU)**4 credits**

This course focuses on teamwork and the applications of Total Quality Transformation tools. Teams of students and employees from business and industry solve existing quality problems in their organization with careful direction.

Lecture: 3 hours – Lab: 2 hours

QUAL 240 Total Quality Management (A,W)**3 credits**

This course is a study and practice of the major elements and concepts of total quality management, including principles and styles of quality management, systems thinking, continuous improvement, management by data, and historic influences of leaders in quality management.

Lecture: 2 hours – Lab: 2 hours

QUAL 250 Metrology (SP)**3 credits**

Making precise measurements is an important part of producing quality products for the customer. This introductory course covers the correct procedures for the linear and angular measures of features or attributes on machine components. Traceability to standards is also presented and instrument capability discussed. Students use a variety of instruments and systems to make precision measurements.

Lecture: 2 hours – Lab: 2 hours

Lab fee: \$10.00

QUAL 251 Value Engineering (W)**3 credits**

Value engineering is the systematic application of recognized techniques which identify the function of a product or service, establish a monetary value for that function, and provide the necessary function reliably at the lower overall cost. Students will be introduced to value engineering concepts and applications for the practitioner.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: MECH 244

QUAL 260 Reliability and Systems Maintainability**(SP)****3 credits**

This course is an examination of the basic methods that companies use to ensure the reliability of their products. Students learn statistical methods used to determine reliability, the effectiveness of data analysis, use of simulations, and ways to improve system performance.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: MECH 244

QUAL 261 Technical Project Management (SP)**3 credits**

Course provides an integration of the elements involved in planning, developing, and managing a successful and efficient technical project. Several methods are used including current software and Gantt charts.

Lecture: 2 hours – Lab: 2 hours

Radiography (RAD)**RAD 111 Introduction to Radiologic Technology (SU)****3 credits**

Basic introduction to radiologic principles and clinical radiography. Areas of emphasis include fundamentals of radiobiologic concepts, medical ethics, body mechanics, patient care skills, and clinical observation. This course is a prerequisite for all other radiologic technology courses.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Completed health record, acceptance into program.

RAD 113 Radiologic Science (W)**5 credits**

The course begins with a review of basic concepts of electricity, electromagnetism, and electrical circuits. The student is then introduced to the theory of x-ray production, x-ray emissions, and x-ray interactions. Applications of equipment are discussed to include special x-ray equipment

such as tomography, stereoradiography, mammography, and fluoroscopy.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: RAD 111

RAD 118 Radiographic Exposure and Processing (SP) 5 credits

This course consists of a study of film processing through analysis of radiographic film characteristics, film processing, film storage and handling, and silver recovery methods. Photographic and geometric properties necessary to the production of a quality radiograph are discussed, as well as technical conversions necessary to maintain film density.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: RAD 113

Lab fee: \$44.00

RAD 123 Advanced Exposure and Processing (W) 4 credits

This advanced course analyzes factors which affect the diagnostic quality of the radiograph. Technique charts are developed. The importance of a quality assurance program is emphasized and quality control testing is presented. Students are required to conduct quality control testing and troubleshooting of radiographic equipment.

Lecture: 3 hours – Lab: 2 hours

Prerequisite: RAD 118

Lab fee: \$49.00

RAD 126 Radiation Biology and Protection (A) 3 credits

This advanced science course examines human responses to ionizing radiation. Early and late effects of radiation exposure are discussed, as well as an in-depth analysis of radiation protection standards and practices.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: RAD 113

Lab fee: \$30.00

RAD 141 Radiographic Procedures I (SU) 4 credits

The student is introduced to radiologic terms specific to imaging, equipment operation, and patient positioning. Specific areas of study include physician assisting, and radiographic anatomy to include gastrointestinal system, upper and lower extremities, chest, abdomen, and basic urography. Lab provides the opportunity for practice and demonstration of proficiency.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: Acceptance into the program

Lab fee: \$81.00

RAD 142 Radiographic Procedures II (A) 4 credits

This course serves as a continuation of RAD 141, with progression through the positioning categories and radiographic anatomy. Course topics include basic fluoroscopic procedures, the vertebral column, bony thorax, specialized biliary and urographic studies, and tomography.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: RAD 141

Lab fee: \$81.00

RAD 143 Radiographic Procedures III (SP) 4 credits

This course serves as the final of a series of three, with progression through the remaining categories of positioning and radiographic anatomy. Course topics include specialized fluoroscopic and radiographic studies, skull and facial bones, operative radiography, and trauma radiography.

Lecture: 3 hours – Lab: 3 hours

Prerequisite: RAD 142

Lab fee: \$81.00

RAD 148 Special Radiographic Procedures (SP) 3 credits

This course provides a detailed examination of cardiovascular, neurologic, interventional radiologic studies and common specialized procedures. The course begins with discussion of specialized equipment and materials. Emphasis is placed on pertinent anatomy, diagnostic value and/

or therapeutic value of each examination.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: RAD 143

Lab fee: \$5.00

RAD 203 Mammography Essentials I (AU, DL) 1 credit

This is a web-based distance learning course. This one-hour course discusses in detail the human breast anatomy, physiology and pathology, in preparation for identifying anatomical landmarks, physiological processes and pathological processes in mammogram films.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: Graduate of a JRCRTE-approved Radiography program OR current student in the Radiography program.

RAD 204 Mammography Essentials II (AU, DL) 1 credit

This is a web-based distance learning course. This one-hour course discusses in detail the elements required in a patient medical history, the various positioning views required for both a routine screening mammogram and a diagnostic mammogram, and the introductory elements of positioning.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: Graduate of a JRCRTE-approved Radiography program OR current student in the Radiography program.

RAD 205 Mammographic Physics and Quality Assessment (WI, DL) 3 credits

This is a web-based distance learning course. This three-hour course discusses in detail the various elements of quality assurance in the mammography laboratory, including daily, weekly, monthly, quarterly, semi-annual, and yearly procedures.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Graduate of a JRCRTE-approved Radiography program OR current student in the Radiography program.

RAD 206 Mammography Essentials III (AU, DL) 2 credits

This is a web-based distance learning course. This two-hour course discusses in detail the various diagnostic positioning views required for a diagnostic mammogram.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: Graduate of a JRCRTE-approved Radiography program OR current student in the Radiography program.

RAD 207 Clinical Experience in Mammography (WI, SP, DL) 1 credit

This is a web-based distance learning course. This one-credit hour course provides the capstone experience of the mammography program and is the clinical unit. The student will complete screening and diagnostic mammograms on patients in the clinical setting, under the supervision of a certified mammographer. This course is repeatable to a total of 4 CR.

Lecture: 0 hours – Lab: 3 hours

Prerequisite: RAD 203, RAD 204, RAD 205, RAD 206 and RAD 208

RAD 208 Mammographic Physics and Quality Assessment Laboratory (WI, DL) 1 credit

This is a web-based distance learning course. This one credit-hour course is the laboratory practice section of mammography quality assurance.

Lecture: 0 hours – Lab: 2 hours

Prerequisite: RAD 205 (or concurrently enrolled in RAD 205)

Lab fee: \$31.00

RAD 211 Sectional Anatomy (A) 1 credit

Sectional anatomy is introduced. Emphasis on head, chest, abdomen and pelvis. Students will be required to give a presentation demonstrating correlations between different sectional imaging modalities.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: RAD 143

Lab fee: \$3.00

RAD 222 Computerized Imaging (A) **1 credit**
This course presents a survey of computerized modalities related to radiography to include an introduction to computers in medical imaging, digital radiography, computed tomography, magnetic resonance imaging, positron emission tomography and Picture Archival and Communication Systems (PACS).
Lecture: 1 hour – Lab: 0 hours
Prerequisite: RAD 113
Lab fee: \$3.00

RAD 231 Radiographic Pathology (W) **3 credits**
The course begins with a review of common terms relating to pathology. Using a survey approach, this course continues with a study of various disease processes and their effect on body systems as they relate to radiography and allied imaging modalities. Students are required to write a term paper on a specific pathologic process.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: RAD 148
Lab fee: \$3.00

RAD 254 Seminar I (SU) **1 credit**
Evaluation and review of radiography cases and discussion of current issues in the radiologic sciences.
Lecture: 1 hour – Lab: 0 hours
Concurrent: RAD 264

RAD 255 Seminar II (A) **1 credit**
Evaluation and review of radiography cases and discussion of current issues in the radiologic sciences.
Lecture: 1 hour – Lab: 0 hours
Concurrent: RAD 265

RAD 256 Seminar III (W) **1 credit**
Evaluation and review of radiography cases and discussion of current issues in the radiologic sciences.
Lecture: 1 hour – Lab: 0 hours
Concurrent: RAD 266

RAD 257 Seminar IV (SP) **1 credit**
Evaluation and review of radiography cases and discussion of current issues in the radiologic sciences. This summative course also reviews all program requirements. (Elective course.)
Lecture: 1 hour – Lab: 0 hours

RAD 261 Clinical I (A) **2 credits**
Clinical provides the opportunity for the student to become familiar with the care and positioning of the patient. Proficiency requirements are completed using a competency-based educational format over the course material presented in Radiologic Procedures I. Film Critique is incorporated to provide a correlation of all factors that comprise a finished radiograph to include an analysis of anatomic structures, patient positioning, radiation protection, and fundamental exposure techniques.
Lecture: 1 hour – Lab: 16 hours
Prerequisite: RAD 111
Lab fee: \$18.00

RAD 262 Clinical II (W) **2 credits**
Clinical II provides the practical experience necessary to function as a radiographer and is designed to enhance and compliment didactic studies. Clinical experience is gained in the general diagnostic and fluoroscopic areas, the emergency department, and on portable radiography rotations. Film critique is continued to provide a correlation of all factors that comprise a finished radiograph. Case presentations are introduced.
Lecture: 1 hour – Lab: 16 hours
Prerequisite: RAD 261
Lab fee: \$18.00

RAD 263 Clinical III (SP) **2 credits**
A continuation of Clinical II. Clinical III provides the practical experience necessary to function as a radiographer and is designed to complement and enhance the didactic studies. Clinical experience is gained in the general diagnostic and fluoroscopic areas, the emergency department, the operating room, tomography, portable radiography, and digital imaging. Film critique and case presentations are continued.
Lecture: 1 hour – Lab: 16 hours
Prerequisite: RAD 262
Lab fee: \$18.00

RAD 264 Clinical IV (SU) **3 credits**
A continuation of Clinical III. Clinical IV provides the practical experience necessary to function as a radiographer and is designed to enhance and compliment the didactic studies. Clinical experience is gained in the general diagnostic and fluoroscopic areas, the emergency department, the operating room, tomography, portable radiography, the computed tomographic area, to include an evening rotation. In addition, each student is required to observe a radiologist during film reading and dictation. Film critique and case presentations are continued.
Lecture: 1 hour – Lab: 24 hours
Prerequisite: RAD 263
Concurrent: RAD 254
Lab fee: \$18.00

RAD 265 Clinical V (A) **3 credits**
A continuation of Clinical IV. Clinical V provides the practical experience necessary to function as a radiographer and is designed to enhance and compliment didactic studies. Clinical experience is gained in the general radiographic and fluoroscopic areas, emergency department, operating room, portable radiography, tomography, computed tomography, cardiovascular and interventional radiology, digital imaging and special area (one day) rotations in nuclear medicine, radiation oncology, diagnostic medical sonography, cardiac catheterization laboratory, and extra-corporeal shock wave lithotripsy. Film critique and case presentations are continued.
Lecture: 1 hour – Lab: 24 hours
Prerequisite: RAD 264
Concurrent: RAD 255
Lab fee: \$18.00

RAD 266 Clinical VI (W) **3 credits**
A continuation of Clinical V. Clinical VI provides the practical experience necessary to function as a radiographer. Clinical experience is obtained in general radiographic and fluoroscopic areas, the emergency room, the operating room, tomography, mammography, portable radiography, digital imaging, computed tomography, and magnetic resonance imaging. Film critique and case presentations are continued.
Lecture: 1 hour – Lab: 24 hours
Prerequisite: RAD 265
Concurrent: RAD 256
Lab fee: \$18.00

RAD 267 Clinical VII (SP) **3 credits**
A continuation of Clinical VI. Students are required to complete the Final Competency Examination during this quarter. Clinical rotations are scheduled in the general radiographic and fluoroscopic areas, the operating room, the emergency room, mammography, and computed tomography. Once the Final Competency Examination has been satisfactorily completed, the student may custom design their own specific clinical rotations. Critique and case presentations are continued.
Lecture: 1 hour – Lab: 24 hours
Prerequisite: RAD 266
Concurrent: RAD 257
Lab fee: \$18.00

RAD 268 Clinical IV-B (SU) **4 credits**
A continuation of Clinical III. Clinical IV-B description is the same as RAD 264 (Clinical IV). This course is an elective, which gives program students an opportunity to increase the clinical contact hours while in the program.
Lecture: 0 hours – Lab: 24 hours
Prerequisite: RAD 263
Concurrent: RAD 254
Lab fee: \$18.00

Real Estate (REAL)

REAL 101 Real Estate Principles and Practices (A,W,SP,SU) **4 credits**
An introduction to the language of real estate, the economics of the real estate business and the general practices performed in the listing and selling of real estate. Provides a basic knowledge of the real estate business. Course covers the physical, legal, locational and economic characteristics of real estate, real estate markets, regional and local economic influences on real estate values, evaluation, financing, licensing and professional ethics. Meets all state requirements for licensing.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 102 Real Estate Law (A,W,SP,SU) **4 credits**
Real estate law includes all of the areas of law of common concern to the typical real estate practitioner and investor-consumer. Among topics covered are the law of agency as applied to real estate brokers and salespersons, law of fixtures, freehold and leasehold, estates, conveyance of real estate, real estate managers, licensure laws of Ohio, zoning, cooperatives and condominiums. Meets state requirements for licensing.
Lecture: 4 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 111 Real Estate Finance (A,W,SP,SU) **2 credits**
Covers four major concerns of real estate financing: 1) financing instruments and creative financing techniques; 2) in-depth mortgage payment patterns and concepts, economic characteristics and standards, and financing of single and income-producing properties; 3) sources and availability of mortgage money and credit and the impact of various factors on the mortgage market; and 4) special government activities having an impact on real estate financing. Meets requirements for licensing.
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 112 Real Estate Appraisal (A,W,SP,SU) **2 credits**
Stresses the methodology of appraising the single-family residential property and the theory underlying appraisal techniques. The three basic techniques of appraising; market comparison; penalized cost of replacement; and income approach (GMRM) are covered. A term appraisal project is assigned to give the student practical experience in applying these techniques. Meets state requirements for licensing.
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 121 Residential Sales Practices (SP) **3 credits**
A “how to” course providing a step-by-step approach for success as a real estate professional based on sound principles and acceptable techniques. Course sets forth basic fundamentals which must be mastered by real estate practitioners regardless of their specialization or type of property involved. Underlying theme is communication. Course may meet continuing education requirement (see advisor).
Lecture: 3 hours – Lab: 0 hours
Prerequisite: REAL 101 and REAL 102 or Real Estate License.
Lab fee: \$3.00

REAL 202 Real Estate Commercial Investment (A) **5 credits**
The practical application of real estate investment concepts used in daily real estate practice. A step-by-step approach through a typical case study involving a typical client beginning with investment in general, yield analysis, taxation, then continuing through property analysis, tax deferred exchange, the installment sale and alternative investments. Course may meet continuing education requirement (see advisor).
Lecture: 5 hours – Lab: 0 hours
Prerequisite: REAL 101
Lab fee: \$3.00

REAL 212 Income Property Appraisal (W) **3 credits**
A selective research into specific income-producing property for applying appropriate analytical techniques. Studies the principles of anticipation and use of the capitalization process, and translates income projection into a present capital value indication. A term appraisal project is required. Course may meet continuing education requirement (see advisor).
Lecture: 3 hours – Lab: 0 hours
Prerequisite: REAL 112 or Real Estate License
Lab fee: \$3.00

REAL 213 Advanced Real Estate Investment Analysis (W) **3 credits**
An overview of the scope and nature of real estate investments. Discusses advantages and disadvantages, individual versus group forms of realty ownership, financing investments, tax ramifications and mathematical analysis. Different types of opportunities are discussed from vacant lots to land, houses, apartments, shopping centers, industrial developments and government sponsored projects. Course may meet continuing education requirement (see advisor).
Lecture: 3 hours – Lab: 0 hours
Prerequisite: REAL 212 or instructor permission
Lab fee: \$3.00

REAL 214 Marketing Investment Analysis for Real Estate (SP) **3 credits**
An analysis and guide for investigating real estate opportunities, covering the problems of residential, office and retail properties. Details of conducting market and feasibility studies, analyzing materials and data collected and evaluating the relevancy of the studies are studied. A term project is to prepare a detailed market investment analysis for a user-client. Course may meet continuing education requirement (see advisor).
Lecture: 3 hours – Lab: 0 hours
Prerequisite: REAL 213
Lab fee: \$3.00

REAL 221 Professional Property Management (SP) **3 credits**
A course studying decision-making as it affects management of residential, commercial and industrial property. The emphasis shall be on the practical application of theory to actual management problems. Specific topics include Ohio Tenant Landlord Act, forcible entry and detainer, typical leases, office management, hiring, merchandising, advertising, collection problems, taxes, insurance and maintenance. Course may meet continuing education requirement (see advisor).
Lecture: 3 hours – Lab: 0 hours
Prerequisite: REAL 101
Lab fee: \$3.00

REAL 233 Practical Financial Analysis (On Demand) **3 credits**
Emphasis is on hand-held calculators as a tool to analyze the many financial problems that realtors encounter in the conduct of their practice. Deals with financial calculators such as the HP-12c and TI financial I and II calculators. Course may meet continuing education requirement (see advisor).
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 236 Real Estate Development (A) **3 credits**
An overview of the entire field of real estate development including its methodology, history, marketing, and specific operations of planning, analysis, feasibility studies, negotiation techniques, and property management.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: REAL 101, REAL 102, REAL 111 and REAL 112 or permission of instructor.
Lab fee: \$3.00

REAL 238 Technical Professional Applications **3 credits**
A course designed to meet the challenges of technology in the practice of real estate. Covers traditional technology such as the fax machine, cell phone, and computer. Additional areas of concentration include digital photography, web page design, and multimedia presentation. Student will have hands-on experience using the technology necessary to be successful in the real estate profession.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 240 Introduction to Entrepreneurship (A,W,SP,SU) (DL) **3 credits**
This course represents the state-of-the-art in next-generation education using national business experts and timely documentary footage to create a course rich in content and compelling presentation. Its documentary case studies range from international franchising operations and high-technology companies to smaller, niche-oriented ventures and fledgling businesses still trying to raise start-up capital.
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 281 Real Estate Today Seminar I (on Demand) **1 credit**
A specially designed course which offers to meet the needs of the constantly changing real estate community, industry and the student population. Creative seminar topics are relative to today's market, and will provide flexibility in meeting a variety of needs.
Lecture: 1 hour – Lab: 0 hours
Lab fee: \$3.00

REAL 282 Real Estate Today Seminar II (on Demand) **2 credits**
Continuation of REAL 281.
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 283 Real Estate Today Seminar III (on Demand) **3 credits**
Lecture: 3 hours – Lab: 0 hours
Lab fee: \$3.00

REAL 284 Uniform Standards of Professional Appraisal Practice (On Demand) **2 credits**
Capstone course for the Ohio appraisal certification. Course user to apply the standards of the industry to the instruments of appraisal process.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: REAL 112, REAL 212, equivalent experience, or permission of instructor
Lab fee: \$3.00

REAL 290 Post Licensure Sales Course (once each quarter) **1 credit**
Mandatory 10-hour Post Licensure course for Real Estate Salespersons. Course covers the following topics: the housing market today; future trends impacting real estate markets; license law matters; legal matters; environmental concerns; real estate specialties; the image of real estate licensees; and finance, taxes, and legislation.
Lecture: 1 hour – Lab: 0 hours
Lab fee: \$3.00

REAL 291 Post Licensure Brokers Course (offered twice per year) **1 credit**
Mandatory 10-hour Post Licensure course for Real Estate Brokers. Course covers the following topics: the housing market today; future trends impacting real estate markets; license law matters; legal matters; environmental concerns; real estate specialties; the image of real estate licensees; and finance, taxes, and legislation.
Lecture: 1 hour – Lab: 0 hours
Lab fee: \$3.00

Respiratory Care (RESP)

RESP 100 Introduction to Respiratory Care (A) **5 credits**
This course presents an integrated introduction to the care of pulmonary patients. Course content will focus on the skills required and the methods used to manage cardiopulmonary problems.
Lecture: 3 hours – Lab: 4 hours
Prerequisite: Acceptance into the program
Lab fee: \$35.00

RESP 114 Introduction to Pulmonary Disease (W) **4 credits**
This course provides an integrated approach to the anatomy, physiology and pathology of the cardiopulmonary system. Normal and abnormal function will be compared. Emphasis will be placed on cardiopulmonary functions that are frequently measured to monitor patient status.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: RESP 100 or permission of instructor
Concurrent: RESP 150

RESP 130 Patient Assessment I (SP) **2 credits**
This course presents a holistic approach to assessment of adult and pediatric patient in the subacute/homecare setting. Special emphasis will be placed on assessment of the cardiopulmonary function.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: RESP 114, RESP 150, or permission of instructor
Concurrent: RESP 152 AND RESP 196

RESP 132 Patient Assessment II (SU) **2 credits**
This course presents a holistic approach to assessment of adult and pediatric patients in the acute care setting. Special emphasis will be placed on assessment of the cardiopulmonary system.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: RESP 130
Concurrent: RESP 154 AND RESP 198

RESP 150 Introduction to Pharmacology (W) **2 credits**
This course provides an introduction to the basic principles of therapeutic drug administration. Classification of drugs will be included. Special emphasis will be directed to safety issues, sources of drug information, and application to respiratory care practice.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: RESP 100 or permission of instructor
Concurrent: RESP 114

RESP 152 Case Management I (SP) **2 credits**
This course presents a holistic approach to the management of adult and pediatric patients in the subacute settings. Special emphasis will be placed on the management of the cardiopulmonary problems.
Lecture: 1 hour – Lab: 2 hours
Prerequisite: RESP 114, RESP 150 or permission of instructor
Concurrent: RESP 130 AND RESP 196

RESP 154 Case Management II (SU) **2 credits**
This course presents a holistic approach to the management of adult and pediatric patients in the acute care setting. Special emphasis will be placed

on the management of the cardiopulmonary problems.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: RESP 152 or permission of instructor

Concurrent: RESP 132 and RESP 198

RESP 170 Mechanical Ventilators (On demand) 1 credit

Students will learn operational characteristics of critical care, home care, transport, and neonatal ventilators.

Lecture: 0 hours – Lab: 2 hours

Prerequisite: or permission of instructor

RESP 196 Clinical Practice/Therapeutic Procedures I (SP) 8 credits

This course is focused on conducting respiratory care procedures in the subacute setting.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: RESP 150 or permission of instructor

Concurrent: RESP 150 and RESP 152

Lab fee: \$35.00

RESP 198 Clinical Practice/Therapeutic Procedures II (SU) 8 credits

This course is focused on conducting respiratory care procedures in the acute care setting.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: RESP 196 or permission of instructor

Concurrent: RESP 132 and 154

Lab fee: \$35.00

RESP 230 Patient Assessment III (A) 2 credits

This course presents a holistic approach to the assessment of adult and pediatric patient in the critical care setting. Special emphasis will be placed on assessment of the cardiopulmonary system.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: RESP 132 or permission of instructor

Concurrent: RESP 256 and RESP 290

RESP 232 Neonatal and Pediatric Respiratory Care (W) 3 credits

A study of the management and treatment of neonatal and respiratory diseases. Special emphasis is placed on the therapeutic procedures of respiratory care which are associated with pediatric and neonatal patients.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Permission of instructor

Lab fee: \$20.00

RESP 238 Pulmonary Function (On Demand) 3 credits

A study of the equipment and the techniques utilized in pulmonary function testing and blood gas analysis. This course examines the types of analyzers used in performing lung volume tests, lung flow tests, and gas analysis test with a discussion of the advantages and disadvantages of such systems. Procedures used in each test are discussed including patient instruction and calculation of the data.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Permission of instructor

RESP 251 Respiratory Rehabilitation Home Care Techniques (On Demand) 3 credits

This course provides the student with the appropriate adaptations of skills and concepts traditionally used in the hospital to alternate care settings in order to educate the patient and caregiver to maintain the highest possible functional capacity. Included are: medication regimens, smoking cessation, breathing retraining, bronchial hygiene, and other self-care techniques. Other topics include monitoring the patient's disease and servicing the equipment needs of the patient.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Permission of instructor

Lab fee: \$15.00

RESP 252 Patient Management in Respiratory Rehabilitation (On Demand) 3 credits

The study of the patient's adaptation to chronic pulmonary disease. Emphasis will be placed on problem identification, appropriate interventions, and referral to community resources using a multidisciplinary approach in coordinating the various systems of care.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: RN, LPN, RRT, CRTT, or permission of instructor

RESP 253 Respiratory Rehabilitation Home Care Administration (On Demand) 4 credits

This course concentrates on the management of a respiratory rehabilitation or home care organization. Topics include the development of policies and procedures for respiratory rehab home care services, the preparation of the certificate of medical necessity, and the documentation necessary for reimbursement, accreditation, regulatory requirements, and quality assurance. Other topics include marketing strategies and community health promotion.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: RN, LPN, RRT, CRTT, or permission of instructor

RESP 256 Case Management III (A) 2 credits

This course presents a holistic approach to the management of adult and pediatric patients in the critical care setting. Special emphasis will be placed on the management of the cardiopulmonary problems.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: RESP 154 or permission of instructor

Concurrent: RESP 230 and RESP 290

RESP 260 Respiratory Care Seminar 2 (SP) 2 credits

A course dealing with general management concepts as they relate to the administrative duties in a respiratory care department. A portion of the course is devoted to preparing for the national credentialing exams.

Lecture: 2 hours – Lab: 0 hours

Lab fee: \$60.00

RESP 270 Current Issues in Respiratory Care (A,W,SP,SU) 2 credits

This course is intended to be focused on current trends in the care of patient's with cardiopulmonary problems. Course content will change as current issues change.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: RESP 256

Concurrent: RESP 292

RESP 290 Clinical Practice/Therapeutic Procedures III (A) 8 credits

This course focuses on conducting respiratory care procedures in the critical care setting.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: RESP 198 or permission of instructor

Concurrent: RESP 232 or RESP 256

Lab fee: \$35.00

RESP 292 Clinical Practice/Therapeutic Procedures IV (W) 8 credits

This course allows students to select a specialty area for additional clinical practice.

Lecture: 2 hours – Lab: 12 hours

Prerequisite: RESP 290 or permission of instructor

Concurrent: RESP 270

Lab fee: \$55.00

RESP 295 Clinical Experience (SP) **4 credits**
In the Clinical Practicum students apply skills that they have learned in the previous four quarters. Students spend 24 hours per week practicing respiratory care with a clinical affiliate.
Lecture: 1 hour – Lab: 24 hours
Prerequisite: RESP 292 or permission of instructor
Lab fee: \$30.00

RESP 221 Introduction to Sleep Problems (A) **2 credits**
This introductory course will provide an overview of the physiology and architecture of sleep, common sleep disorders, their prevalence in the population, causes and treatment, the factors related to risk and risk management for shift workers, and the role of the polysomnography laboratory in monitoring and recording physiologic data during sleep.
Prerequisite: This course is open to any interested student
Lecture: 2 hours – Lab: 0 hours
Lab fee: \$3.00

RESP 223 Level I Polysomnography Technician (W) **2 credits**
This course will prepare the student for performing Level I polysomnographic technician responsibilities in the clinical area, and will provide an introduction to polysomnography.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: RESP 221 or permission of RESP program coordinator
Lab fee: \$3.00

RESP 224 Level I Polysomnography Technician Clinical (W) **2 credits**
This course will prepare the student for performing Level I polysomnographic technician responsibilities in the clinical area. The student will complete a supervised clinical experience in a sleep lab under the guidance of a clinical preceptor. The course focuses on preparing the equipment and instrumentation used in the sleep lab, as well as patient preparation.
Lecture: 0 hours – Lab: 4 hours
Prerequisite: RESP 221 or permission of RESP program coordinator
Lab fee: \$3.00

RESP 225 Level II Polysomnography Technician (SP) **2 credits**
The Level II Technician course is designed for nurses, respiratory therapists, paramedics and other health care practitioners who are interested in polysomnography. This course focuses on scoring of polysomnography tracings, applying and titrating CPAP/BiLevel therapy, and patient education.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: RESP 223, RESP 224 or permission of RESP program coordinator
Lab fee: \$3.00

RESP 226 Level II Polysomnography Technician-Clinical (SP) **2 credits**
The Level II Technician clinical course is designed to provide clinical practice for skills covered in the RESP 225.
Lecture: 0 hours – Lab: 4 hours
Prerequisite: RESP 223, RESP 224 or permission of RESP program coordinator.
Lab fee: \$3.00

RESP 228 Polysomnography Current topics (On Demand) **2 credits**
This course will examine current changes in the field of polysomnography. Changes may include new techniques in instrumentation or diagnosis, and new approaches to sleep disorders or assessment.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: RESP 225, RESP 226 or permission of RESP program coordinator
Lab fee: \$3.00

Retail Management (RETL)

RETL 101 Introduction to Retailing (A,W,SP,SU) **5 credits**
Principles and methods of retail management, including organization policy making, and a survey of the functions of merchandising, sales promotion, finance and control, store operations and personnel.
Lecture: 5 hours – Lab: 0 hours
Lab fee: \$3.00

RETL 205 Quantitative Methods for Retailing (A) **5 credits**
This course provides the student with an overview of the impact of merchandising strategies on the fiscal management of store operations. Special emphasis is given to the mathematical tools that aid in merchandising planning, selection, and pricing. Students will use basic math formulas that are used by buyers, department managers and store owners in order to operate their businesses, stores or departments profitably.
Lecture: 5 hours – Lab: 0 hours
Prerequisite: RETL 101
Lab fee: \$3.00

RETL 213 Retail Buying (SP) **3 credits**
An in-depth review of the many different duties of a buyer and the role the buyer plays in assuring profitability. Topics covered include the buyer's role in risk management, inventory shortage control, people management, promotion and the legal environment that impacts retailing.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: RETL 101
Lab fee: \$3.00

RETL 271 Retail Store Operations and Control (SU) **4 credits**
This course is designed to deal with the management and operations of the major functions of a retail establishment including location selection, distribution, customer service, merchandising, inventory control, human resource management, and financial strategies for retail success.
Lecture: 4 hours – Lab: 0 hours
Prerequisite: RETL 101 and ACCT 106
Lab fee: \$5.00

RETL 281 Retail Internship I (A,W,SP,SU) **4 credits**
Supervised on-the-job application of knowledge and skills acquired in the classroom. Focus of the internship will be on retail sales. Open to Retail Management Technology majors only.
Internship Applications must be filed with the Department at least 2 months prior the internship start date.
Lecture: 0 hours – Lab: 40 hours
Prerequisite: MATH 101, RETL 101, BMGT 111, MKTG 111 and permission of advisor two quarters in advance.
Concurrent: RETL 285.
Lab fee: \$3.00

RETL 282 Retail Internship II (A,W,SP,SU) **4 credits**
Supervised on-the-job application of knowledge and skills acquired in the classroom. Focus of the internship will be on store operations and management. Open to Retail Management students only.
Internship Applications must be filed with the Department at least 2 months prior the internship start date.
Lecture: 0 hours – Lab: 40 hours
Prerequisite: RETL 281 and permission of instructor
Concurrent: RETL 286
Lab fee: \$3.00

RETL 283 Retail Internship III (A,W,SP,SU) **4 credits**
Supervised on-the-job application of knowledge and skills acquired in the classroom. Focus of internship will be determined by student career interests. Open to Retail Management students only.

Internship Applications must be filed with the Department at least 2 months prior the internship start date.

Lecture: 0 hours – Lab: 40 hours

Prerequisite: RETL 282 or permission of instructor

Concurrent: RETL 287

Lab fee: \$3.00

RETL 285 Special Problems in Retailing I

(A,W,SP,SU)

2 credits

Application of theoretical knowledge to analyze and recommend solutions to specific problems encountered during the retail internship.

Internship Applications must be filed with the Department at least 2 months prior the internship start date.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: MATH 101, RETL 101, BMGT 111, MKTG 111 or permission of instructor

Concurrent: RETL 281

Lab fee: \$3.00

RETL 286 Special Problems in Retailing II

(A,W,SP,SU)

2 credits

Application of theoretical knowledge to analyze and recommend solutions to specific problems encountered during the retail internship.

Internship Applications must be filed with the Department at least 2 months prior the internship start date.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: RETL 285

Concurrent: RETL 282

Lab fee: \$3.00

RETL 287 Special Problems in Retailing III

(A,W,SP,SU)

2 credits

Application of theoretical knowledge to analyze and recommend solutions to specific problems encountered during the retail internship.

Internship Applications must be filed with the Department at least 2 months prior the internship start date.

Lecture: 0 hours – Lab: 4 hours

Prerequisite: RETL 286 or permission of instructor

Concurrent: RETL 283

Lab fee: \$3.00.

RETL 288 Merchandising (W)

4 credits

An overview of merchandising principles and practices. The focus is on merchandising strategies, target market identification, pricing, assortment, styling and timing in the apparel industry.

Lecture: 4 hours – Lab: 0 hours

Prerequisite: RETL 101, ACCT 106.

Lab fee: \$3.00

RETL 297 Special Topics in Retailing (On Demand) 1 - 3 credits

Detailed examination of special topics of interest in Retail. Topics vary.

Lecture: 1 to 3 hours – Lab: 0 hours

Lab fee: \$3.00

Social Sciences (SSCI)

SSCI 101 Cultural Diversity (A,W,SP,SU - DL)

5 credits

An interdisciplinary course that focuses on the anthropological, psychological, sociological, political, and economic diversity among various groups. Topics include the ways individual beliefs, social values, political, and economic systems affect our perspectives and life-styles. Students explore the effects of social inequity on groups within society and, through the use of team projects, participate in interactive group work. The course emphasizes the development of critical thinking skills as applied to social science research and diversity issues that students may

encounter in their lives. A general education core course.

A distance-learning version of Cultural Diversity is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Group projects are maintained via virtual meetings and distance-learning students are required to take the final examination at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SSCI 102 America in Transition (A,W,SP,SU - DL)

5 credits

An interdisciplinary course that focuses on the major changes (or transitions) in the social, economic, political, and global arenas and their impact on the United States. Students identify the causes and consequences of these changes, through selected readings, written assignments, and group projects. Possible ways to respond to and meet the challenges posed by this transitional era are addressed. A general education core course.

A distance-learning version of America in Transition is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SSCI 103 Social Problems (A,W,SP,SU - DL)

5 credits

An interdisciplinary course that examines how various conditions within society come to be defined as social problems. Individual, social, cultural, economic, and political causes and consequences of such problems are analyzed with contemporary social science research (i.e., studies in the fields of anthropology, economics, political science, psychology, and sociology). Possible intervention strategies are also assessed. Problems covered include: health and well being; social and interpersonal violence; conformity and deviance; social and economic inequality associated with poverty, minority status, aging, and sex roles; institutional change; and future issues and trends. A general education core course.

A distance-learning version of Social Problems is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SSCI 104 World Economic Geography

(A,W,SP,SU - DL)

5 credits

An interdisciplinary course that provides a geographical examination of the world economy. Students research the factors affecting a country's socioeconomic development and present findings from a policy maker's perspective. Factors to be covered include: location; demographic trends; resource availability and use patterns; industrialization; political and cultural forces; and global interdependence. A general education core course. A distance-learning version of World Economic Geography is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SSCI 290 Capstone Experience in Social Sciences

(On Demand)

3 credits

This course is for students completing the two-year Associate of Arts or Associate of Science degree who have a special interest in continuing in a baccalaureate degree program in the social sciences. Course requirements include the completion and presentation of a research project that relates to the students' academic interest after reviewing research methodologies and findings in social science; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Completion of AA/AS core requirements and at least 75 hours toward the degree

Lab fee: \$10.00

SSCI 293 Independent Study in the Social Sciences

(On Demand)

1 - 5 credits

An individual, student-structured course that examines a selected topic in the social sciences through intensive reading or research. The independent study elective permits a student to pursue his/her interests within the context of a faculty-guided program.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Permission of the Instructor, the Chairperson, and one course in the Social Sciences

Lab fee: \$6.00

SSCI 299 Special Topics in the Social Sciences

(On Demand)

1 - 5 credits

A detailed examination of selected topics of interest in the social sciences.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Vary

Lab fee: \$6.00

Sociology (SOC)

SOC 101 Introduction to Sociology (A,W,SP,SU - DL) 5 credits

This course introduces the basic concepts, methods, and findings of sociology as a scientific discipline. The sociological perspective, emphasizing social interaction and structure, is used to explore the following topics: culture; socialization; social groups, including organizations; deviance; various types of social inequality; major social institutions; collective behavior, social movement and social change.

A distance-learning version of Introduction to Sociology is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SOC 210 Sociology of Deviance (A,W,SP,SU) 5 credits

This course explores the major sociological perspectives and theories of deviance. This introductory course includes the study of the definition, identification, treatment, and management of types of deviance, such as crime, mental illness, alcoholism, and other pathologies.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SOC 230 Marriage and Family Relations (A,W,SP,SU) 5 credits

This course examines the impact of modern society upon the family as it relates to courtship, size of family, member relationships, economic problems, and marital stability. This course compares alternative life styles and marriage and family relations throughout the life span.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SOC 280 American Race and Ethnic Relations

(A,W,SP,SU – DL)

5 credits

This introductory course explores racial and ethnic relations in the United States. The current and past experiences of selected American racial and ethnic groups are examined with respect to theories and patterns of intergroup relations and issues of prejudice and discrimination (both individual and institutional). Possible future trends in American intergroup relationships are addressed.

A distance-learning version of American Race and Ethnic Relations is available. Students taking the web-based version of the course must be familiar with computers, have an e-mail address, and access to the Internet. Course content is identical to that presented in a traditional classroom setting. Examinations for distance-learning courses are administered at the Student Testing Center on the main campus.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$7.00

SOC 290 Capstone Experience in Sociology

(On Demand)

3 credits

This course is for students completing the two-year Associate of Arts or Associate of Science degree who have a special interest in continuing in a baccalaureate degree program in sociology. Course requirements include the completion and presentation of a research project that relates to the students' academic interest after reviewing research methodologies and findings in sociology; assembly of a portfolio that covers their academic career at Columbus State Community College; and participation in summative testing of their academic skills. Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: Completion of AA/AS core requirements and at least 75 hours toward the degree with five credit hours in sociology

Lab fee: \$10.00

SOC 293 Independent Study in Sociology

(On Demand)

1 - 5 credits

An individual, student-structured course that examines a selected topic in sociology through intensive reading or research. The independent study elective permits a student to pursue his/her interests within the context of a faculty-guided program.

Lecture: 1 to 5 hours – Lab: 0 hours

Prerequisite: Permission of the Instructor, the Chairperson, and one course in Sociology

Lab fee: \$6.00

SOC 299 Special Topics in Sociology (On Demand) 1 - 5 credits

A detailed examination of selected topics of interest in sociology.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Vary

Lab fee: \$6.00

Spanish (SPAN)

SPAN 101 Elementary Spanish I (A,W,SP,SU - DL) 5 credits

Introduction to the fundamentals of the Spanish language with practice in listening, reading, speaking, and writing. Includes selected studies in Hispanic culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

SPN1 101 Elementary Spanish I, Module 1 (A,W,SP,SU) 2.5 credits

SPN1101 is the first module of Spanish 101. Combined with the subsequent module, SPN2 101, it is the equivalent of Spanish 101. In this module, students learn the basic rules for pronunciation and spelling, the number system in Spanish, how to tell time, and how to talk about their schedules. They master the basic grammar structures normally taught in Spanish 101 (agreement of nouns, articles, and adjectives; present tense of regular and irregular verbs; uses of “ser”, “estar”, and “hay”; common prepositions; asking questions; infinitive complements; reflexive verbs).

Lecture: 2.5 hours – Lab: 0 hours

Prerequisite: Placement into ENGL 101

Lab fee: \$3.00

SPN2 101 Elementary Spanish I, Module 2 (A,W,SP,SU) 2.5 credits

SPN2 101 is the second module of Spanish 101. Combined with the previous module, SPN1 101, it is the equivalent of Spanish 101. The content of this module is basic survival Spanish for traveling in a Spanish-speaking country. The lesson sequence follows a story line based on the experience of an American businessman traveling in Venezuela. Grammar is taught and reinforced inductively in this module.

Lecture: 2.5 hours – Lab: 0 hours

Prerequisite: SPN1 101 with a grade of “C” or better or by placement exam

Lab fee: \$3.00

SPAN 102 Elementary Spanish II (A,W,SP,SU - DL) 5 credits

Continuation of SPAN 101 with further development of listening, reading, speaking, and writing skills and further study of Hispanic culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: SPAN 101 with a grade of “C” or better or by placement exam

Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

SPN1 102 Elementary Spanish II, Module 1 (A,W,SP,SU) 2.5 credits

SPN1 102 is the first module of Spanish 102. Combined with the subsequent module, SPN2 102, it is the equivalent of Spanish 102. The content of this module is basic survival Spanish for traveling in a Spanish-speaking country. The lesson sequence follows a story line based on the experience of an American businessman traveling in Venezuela. Grammar is taught and reinforced inductively in this module.

Lecture: 2.5 hours – Lab: 0 hours

Prerequisite: SPN1 101 must be completed before taking this class or by placement exam into 102. It is recommended, as well, that a student complete SPN2 101 before taking this course. However, it is possible to take SPN2 101 and SPN1 102 simultaneously

Lab fee: \$3.00

SPN2 102 Elementary Spanish II, Module 2 (A,W,SP,SU) 2.5 credits

SPN2 102 is the second module of Spanish 102. Combined with the previous module, SPN1 102, it is the equivalent of Spanish 102. In this module, the student “looks back” at the material studied in the previous two modules in order to learn to talk about what has gone on in those sequences. Basically, this means learning to make shifts from: 1. direct discourse to indirect discourse, 2. present tense to past tense, 3. direct commands to past or present subjunctive. Students will also learn how to make shortcuts using pronouns.

Lecture: 2.5 hours – Lab: 0 hours

Prerequisite: SPN2 101 and SPN1 102 must be completed before taking this course

Lab fee: \$3.00

SPAN 103 Intermediate Spanish I (A,W,SP,SU - DL) 5 credits

Continued study of the Spanish language and development of listening, reading, speaking, and writing skills. Readings from contemporary Hispanic culture and literature. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: SPAN 102 or SPN2 102 with a grade of “C” or better or by placement exam

Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

SPAN 104 Intermediate Spanish II (A,W,SP,SU - DL) 5 credits

Reading and discussion of Spanish and Latin American short stories, novels, plays, newspapers, and magazines, emphasizing literary appreciation and the development of Hispanic culture. Meets elective requirements in the Associate of Arts and Associate of Science degree programs and transfer requirements in foreign languages and literature.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: SPAN 103 with a grade of “C” or better or by placement exam

Lab fee: \$6.00. [Video-based (Telecourse) fee: \$29.00]

SPAN 290 Capstone Experience in Spanish (On Demand) 3 credits

A capstone course focusing on Spanish. Paradigms and their underlying assumptions will be explored. Students will work on developing research techniques and methodologies. Students will apply these techniques to a project of their own design, complete a personal portfolio covering their studies at Columbus State, and participate in summative testing of their academic skills.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Open only to Associate of Arts or Associate of Science students preparing to graduate within two academic quarters

Lab fee: \$5.00

SPAN 299 Special Topics in Spanish (On Demand) 1-5 credits

Detailed examination of special topics in Spanish.

Prerequisite: vary

Lab fee: \$2.00

Sports & Fitness Management (SFMT)

SFMT 100 Personal Fitness Concepts (A, W, SP, SU) 3 credits

This course of study focuses on fitness issues which affect Americans today and in the future. Emphasis is placed on establishing a basis for positive fitness through consideration of the various factors which influence fitness. Personal fitness concepts will focus attention on the need for each person to arrive at informed conclusions about how to take responsibility for his or her personal fitness.

Lecture: 3 hours – Lab: 0 hours

Lab fee: \$10.00

SFMT 101 Introduction to Sport & Fitness Management (W, SU)

3 credits

A survey of the health and fitness arena both private and public, to include the study of facilities, recreational options for the client, client profiles, daily operations, legal aspects, personnel issues, and program administration.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Acceptance into the program

Lab fee: \$2.00

SFMT 113 Aquatics Management (SP, SU, AU)

2 credits

A survey of the recreational aquatics environment. Hands on training in the filtration systems and their general operation, an understanding of Federal and State guidelines for licensure for pool operation and maintenance. Legal aspects of the aquatics area. Staffing requirements and training of aquatics personnel for indoor and outdoor facilities. Students also will complete the American Red Cross Life-guarding Certification as a part of this course.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 101 or permission of instructor.

Lab fee: \$15.00

SFMT 114 Aerobic & Group Fitness (A,W,SP,SU)

2 credits

Introduction into the methods of teaching participation in a fitness program, to include a thorough understanding of the fundamental techniques of the sport. The history and the value of dance for the client, the basic movements of dance, and the interpretation of music and language for dance and aerobic conditioning. Students will demonstrate fundamental techniques of a fitness program including safety, motivation, goal setting, and variations of aerobic and group fitness.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 100

Lab fee: \$10.00

SFMT 115 Introduction to Weight Training (AU,W,SP, SU)

2 credits

Analysis of the weight training field to include types of equipment used, training methods for the client, proper lifting techniques for the various equipment, assessment of the beginning client for appropriate weight program. Risk management aspects of the weight area and proper care and maintenance of equipment.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 101 or permission of instructor

Lab fee: \$20.00

SFMT 116 Golf Management (A,SP,SU)

2 credits

An in-depth analysis of the game of golf. To include the historical study of the game, the rules which apply to the playing of the game, and a perspective of the growth and increasing significance of the game inside and out of our industry. A study of the management of the golf facility, turf and environmental issues, employment options and the instruction of the game.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 101 or permission of instructor

Lab fee: \$50.00

SFMT 117 Introduction to Tae Kwon Do (A,W,SP,SU)

2 credits

Introduction in the coaching and participating in the activity, to include a thorough understanding of the rules and sport strategy. History of the art form, self defense strategies, and concepts of tournament sparring and tournament implementation.

Lecture: 1 hours – Lab: 2 hours

Prerequisite: SFMT 100 or permission of instructor

Lab fee: \$20.00

SFMT 213 Aquatic Programming for Individuals with Disabilities (On Demand)

3 credits

The adaptive aquatic course content will provide utilization of specialized instructional technology to maximize learning and participation of individuals with disabilities in aquatic activities. The inclusive or community setting will be emphasized since acquisition of skills and water safety knowledge should occur in as normalized a manner as possible. Practicum opportunities with diverse populations will highlight the learning experiences.

Lecture: 2 hours – Lab: 2 hours

:Lab fee: \$20.00

SFMT 214 Advanced Dance Exercise (On Demand)

2 credits

Instruction in the methods of teaching and participation in group fitness activities to include a thorough understanding of the skills and the fundamental techniques of fitness instruction. The value of dance exercise and variations for the client, the movements and techniques of dance exercise, and the principles and legalities that guide fitness instructors.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 114

Lab fee: \$10.00

SFMT 215 Advanced Weight Training (SP)

3 credits

This class will be a continued study of systems of physical conditioning. Including discussion of progressive resistance exercise through super sets, pyramiding, split routines, plyometrics and isokinetics. Program development including interval, continuous, and circuit training. Nontraditional training including partner resistance training. Other topics will include discussion of advantages and disadvantages of commercial exercise equipment in developing cardiorespiratory fitness and muscular strength. Musculoskeletal risk factor identification and programming for post injury rehabilitate fitness will also be included.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: SFMT 115

Lab fee: \$20.00

SFMT 222 Court Sports I (Tennis) (SU)

2 credits

Instruction in the coaching and participation in the activity, to include a thorough understanding of the rules and sport strategy. History of the sport and coaching techniques for the client, tournament set up and implementation for the facility.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 101 or permission of instructor

Lab fee: \$20.00

SFMT 224 Sport Management Foundations (W,SU)

5 credits

An advanced study of the facilities required for the recreational environment. An analysis of indoor and outdoor designs and utilization. An overview of the personnel process, staffing requirements, and staff development procedures. A study of activity programming for the club environment, to include class structure, tournament procedures, proper selection of activities, and equipment needed as well as proper care and storage.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: SFMT 101

Lab fee: \$10.00

SFMT 225 Athlete Intervention (On Demand)

3 credits

This course will be a video based instructional program facilitated by a faculty member. It is designed to train sport managers to help athletes avoid or deal with the challenges of alcohol, drugs, and illegal drug use. The program allows sport managers to develop rules and expectations about drug and alcohol use, communication with parents and guardians, and behavior monitoring skills. Lessons on development of policies related to athlete usage and consequence and/or infraction guidelines.

Lecture: 3 hour – Lab: 0 hours

Prerequisite: SFMT 100 or permission of instruction

Lab fee: \$5.00

SFMT 226 Care and Prevention of Athletic Injuries (W,SU)

3 credits

Recognition, treatment, management, and prevention of basic injuries sustained while participating in athletic activities. Basic taping and treatment procedures to be introduced and applied in the athletic environment.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: SFMT 231 or permission of instruction

Lab fee: \$10.00

SFMT 230 Fitness Concepts for Special Populations (A,SP)

3 credits

A survey of the response of children, seniors, and physically challenged persons to exercise. Emphasis to be placed on choosing appropriate and challenging activities that will result in a positive physiological response while accommodating the social, developmental and physical needs of the potential clients.

Lecture: 3 hour – Lab: 0 hours

Prerequisite: SFMT 101

Concurrent: SFMT 231

Lab fee: \$3.00

SFMT 231 Exercise Physiology (A,SP)

5 credits

Instruction in the testing processes used for the individual evaluation to include proper techniques used for body fat, analysis, aerobic and anaerobic capabilities, muscle mass, flexibility, and program development for the athlete.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: BIO 121 and SFMT 115

Concurrent: SFMT 230

Lab fee: \$15.00

SFMT 232 Court Sports II (Racquetball) (W)

2 credits

Instruction in the coaching and participation in the three activities, to include a thorough understanding of the rules and sport strategy, history of the sport and coaching techniques for the clients, tournament set up and implementation for the facility.

Lecture: 1 hour – Lab: 2 hours

Prerequisite: SFMT 101 or instructor's permission

Lab fee: \$20.00

SFMT 233 Outdoor Community Recreation (A,W,SP,SU)

3 credits

A survey of the outdoor recreational market and it's application through corporate America. Review outdoor recreational opportunities, basic activities, skills, and necessary equipment. Present safety, liability, and associated programming issues. Examine the business, career, and recreational applications.

Lecture: 2 hours – Lab: 2 hours

Prerequisite: SFMT 101

Lab fee: \$50.00

SFMT 234 Sport Marketing (A,SP)

5 credits

An advanced study of sports marketing strategies for the club both internal and external. Promotional guidelines and discussion of concepts of promotional activity. Study of the budgetary process, differentiation of budget styles, and implementation of the budgetary process in both the private or public sector.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: SFMT 224 or permission of instructor

Lab fee: \$3.00

SFMT 235 Sport Law (A,W,SP,SU)

3 credits

Survey of the legal framework of the athletic environment. The nature of the legal system and the law pertaining to sports, to include tort law, contractual agreements, and civil law.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: SFMT 101

Lab fee: \$2.00

SFMT 237 Corporate Health (On Demand)

3 credits

An assessment and analysis of current health and wellness issues related to the worksite environment. Course work will emphasize the major wellness components of fitness, nutrition, safety, and behavior modification and how these components can be introduced into the worksite. This course will also focus on the financial and administrative issues associated with worksite health promotion.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: SFMT 101 or permission of instructor

Lab fee: \$3.00

SFMT 241 Kinesiology (On Demand)

5 credits

Introduction to the fundamentals of kinesiology and biomechanics with discussion of both anatomical and mechanical principles. These concepts will be applied in the analysis of a wide variety of basic motor skills, exercise, and sport activities.

Lecture: 3 hours – Lab: 4 hours

Prerequisite: SFMT 231 or instructor's permission

Lab fee: \$15.00

SFMT 280 History of Sport in the United States: 1840-Present (On Demand)

3 credits

An in-depth analysis of the history of sport, athletics, and recreation in the United States of America. Lecture and related activities will explore the role of sport in the lives of Americans since 1840 and assess the economic, political, social, and psychological impact sport has played as a part of the larger historical framework of the nation.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: SFMT 101 or instructor's permission

Lab fee: \$3.00

SFMT 292 Practicum I (A, SP)

3 credits

Practical training in general operation of a fitness club to include activity preparation, personnel evaluation, and budget analysis. This course also includes an on campus Seminar to discuss issues relating to the profession. Summative assessment will include a combination of objective tests, performance checklists, and evaluation by the on-site supervisor.

Lecture: 1 hour – Lab: 14 hours

Prerequisite: SFMT 224 or permission of instructor.

Lab fee: \$3.00

SFMT 294 Practicum II (W,SU)

3 credits

Continuation of SFMT 292. Working in conjunction with a current fitness manager to gain insight on program and facility operation, budgetary implementation, and assist in the daily operation of a fitness facility. This course also includes an on campus seminar to discuss issues relating to the profession. Summative assessment will include a combination of objective tests, performance checklists, and evaluations by the on-site supervisor.

Lecture: 1 hour – Lab: 14 hours

Prerequisite: SFMT 292 or permission of instructor

Lab fee: \$3.00

SFMT 298 Special Topics in Sport (On Demand)

3 credits

This course serves to bring together concepts discussed in previous program courses. Topics of discussion will revolve around exercise prescription for special populations including some disease states. Development and modification of institutional programming based on individual and group needs. Resources, content and delivery of health promotion programs will also be discussed.

Lecture: 3 hours – Lab: 0 hours

Prerequisite: Permission of instructor

Lab fee: \$3.00

Surgical Technology (SURG)

SURG 110 Surgical Technology I (A)

6 credits

This course will provide an in-depth introduction of the role and responsibilities of the Surgical Technologist and Surgical Nurse as an important professional in the delivery of surgical services. Introduction to the Surgical Environment will include professional responsibilities, legal and ethical considerations, interpersonal relationships, communication skills, and basic surgical workplace safety. Introduction to the Principles of Aseptic Technique to include surgical asepsis, scrubbing, gowning, gloving, sterilization, disinfection, and operations room sanitation are explored. Patient Care Peri Operative interventions to include positioning, prepping, draping techniques, and related procedures. The surgical use of instrumentation, sutures, needles, sponges, syringes, and hypodermic needles are investigated while exploring the Division of Duties for the Surgical Technologist and Surgical Nurse. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based surgery units.

Lecture: 3 hours – Lab: 6 hours

Prerequisite: Completion of all Admission Criteria for the Surgical Technology Program

Lab fee: \$50.00

SURG 120 Surgical Technology II (W)

6 credits

This course continues to build upon Principles of Aseptic Technique while further defining the duties of the Surgical Technologist and Surgical Nurse. Introduction to Diagnostic procedures and Introduction to Surgical procedures general to a variety of surgical specialty areas are researched. Anesthesia and Pharmacological considerations for patient surgical care are investigated. Surgical Wound Healing considerations are researched with an ongoing investigation into the use of instrumentation, sutures, needles, dressings, packings, and drainage tubes/systems. Patient Care Peri Operative interventions on positioning, prepping, and draping techniques continue to be explored. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based surgery units. \$50.00.

Lecture: 3 hours – Lab: 6 hours

Prerequisite: SURG 110

Lab fee: \$50.00

SURG 130 Surgical Technology III (SP)

7 credits

The Principles of Asepsis and the Patient Care concepts of positioning, prepping, draping, and procedural techniques are directly applied to the investigation of General (GEN), Gastrointestinal (GI), Obstetrics (OB), Gynecological (GYN), and Genitourinary (GU) surgical services. The role and responsibilities of the Surgical Technologist as the “scrub” member and the Surgical Nurse as the “circulator” member of the surgical team will focus on maintaining the integrity, safety, and efficiency of the sterile and non-sterile areas throughout various surgical procedures. Investigation of instrumentation, sutures, needles, dressings, packings, and drainage tubes/ systems will continue with a focus on endoscopy use and selected auto stapling devices for use in GEN, GI, OB, GYN, and GU surgical services. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based surgery units.

Lecture: 4 hours – Lab: 16 hours

Prerequisite: SURG 120

Lab fee: \$50.00

SURG 210 Surgical Technology IV (SU)

7 credits

The Principles of Asepsis and the Patient Care concepts of positioning, prepping, draping, and procedural techniques are directly applied to the investigation of Orthopedic (Ortho) and Neurosurgery (Neuro) surgical

services. The role of the Surgical Technologist as the “scrub” member and the Surgical Nurse as the “circulator” member of the surgical team continues to focus on maintaining the integrity, safety, and efficiency of the sterile and non-sterile areas throughout various surgical procedures. Investigation of instrumentation, sutures, needles, dressings, packings, and drainage tubes/systems will continue with a focus on selected internal and external fracture stabilization devices, cast immobilization, spinal fixation implants, and neurosurgical shunts. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based surgery units.

Lecture: 4 hours – Lab: 16 hours

Prerequisite: SURG 130

Lab fee: \$50.00

SURG 220 Surgical Technology V (A)

8 credits

The Principles of Asepsis and the Patient Care concepts of positioning, prepping, draping, and procedural techniques are directly applied to the investigation of Plastic and Reconstructive, Otorhinolaryngology and Throat (EENT), and Ophthalmic surgical services. The role of the Surgical Technologist as the “scrub” member and the Surgical Nurse as the “circulator” member of the surgical team continues to be explored throughout various surgical procedures. Investigation of instrumentation, sutures, needles, dressings, packings, and drainage tubes/systems will continue with a focus on ocular implants, microscopic use, skin grafting techniques, liposuction use, mammoplasty implants, inner ear shunts, and tracheotomy tubes. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based and ambulatory surgery centers.

Lecture: 4 hours – Lab: 20 hours

Prerequisite: SURG 210

Lab fee: \$50.00

SURG 230 Surgical Technology VI (W)

8 credits

The Principles of Asepsis and the Patient Care concepts of positioning, prepping, draping, and procedural techniques are directly applied to the investigation of Thoracic, Peripheral Vascular (PV), and Cardiovascular (CV) surgical services. The role of the Surgical Technologist as the “scrub” member and the Surgical Nurse as the “circulator” member of the surgical team continues to be explored throughout various surgical procedures. Investigation of instrumentation, sutures, needles, dressings, packings, and drainage tubes/ systems will continue with a focus on endoscopy use, chest tubes, cardiopulmonary bypass, vascular autografts and allografts, intra aortic balloon pumps, and vascular shunts. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based and ambulatory surgery units.

Lecture: 4 hours – Lab: 20 hours

Prerequisite: SURG 220

Lab fee: \$50.00

SURG 239 Advanced Surgical Special Topics (A)

2 credits

This course will provide the Surgical Technology student with an in-depth analysis, recognition, and medical/surgical treatment for a variety of Advanced Surgical specialty areas. These areas include: Orthopedic Total Joint Replacement, Laser Therapy, Endoscopy, Ophthalmic, Oncology, Obstetrics, Cardiovascular, Ambulatory Surgery, and Organ Procurement. Additional surgical specialty areas of interest will be investigated and offered to students, alumni, and surgical health care professionals as they become available. Students will be exposed to lecture, discussion, seminar, and recitation educational experiences all in support of direct patient care laboratory, practicum, and clinical applications in a variety of hospital-based and ambulatory surgery units.

Lecture: 1 hours – Lab: 2 hours

Prerequisite: SURG 210 or equivalent surgical experience

Surveying (SURV)

Also see **Civil Engineering Technology (CIVL)**

SURV 141 Basic Surveying (A,SP,SU) 4 Credits
A comprehensive study in performing measurements for the collection of data and for construction layout. The course elements include application of the English and metric (SI) measurement systems in performing angular and distance measurements by traditional methods and by total station for the purpose of traversing and location of property corners, topographic mapping and construction staking. Elements of differential leveling are used for establishing the elevations of new bench marks, topographic mapping by grid method and cut/fill calculations to finish floor elevations of proposed structures. Data manipulation includes taping corrections, precision and accuracy determination, traverse closures, level circuit reductions, radial building staking notes and boundary line determination by inverse coordinates.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: MATH 104 or MATH 112
Lab fee: \$15.00

SURV 241 Route Surveying (A,SP,SU) 4 Credits
A comprehensive study of the elements of route alignment including horizontal circular and spiral curves, combinations of circular and spiral curves, vertical curves, centerline and offset staking for rough and finished grade. The course includes the application of all elements of route design, construction staking and earthwork volume determination in a comprehensive integrated project format
Lecture: 2 hours – Lab: 6 hours
Prerequisite: MATH 104 and CMGT 123
Concurrent or prerequisite SURV 141
Lab fee: \$15.00

SURV 243 Heavy Construction Standards (W,SU) 4 Credits
Elements of route location, construction materials, methods and procedures. Relation of design standards to topography and prospective traffic, earthwork measurement, physical design standards, and financing.
Lecture: 3 hours – Lab: 2 hours
Prerequisite: SURV 241, CMGT 121 and CMGT 105
Lab fee: \$15.00

SURV 245 Survey Law (W,SU) 3 Credits
A study of statute and common law as pertains to land surveying and real property rights and the methods to describe real property.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: SURV 141
Lab fee: \$15.00

SURV 247 Townsite/Urban Development (A,SP) 3 Credits
Analysis of data and related inventory methods needed to logically plan development of all land use types. Study the forces and actions by public agencies and private interests that create the urban form. Review methods of resolving conflicts and understanding the applicable land use regulations or standards that govern area development:
Lecture: 1 hours – Lab: 5 hours
Prerequisite: ARCH 112 and SURV 241
Lab fee: \$15.00

SURV 248 Advanced Surveying Systems (SP) 4 Credits
Planning and execution of control surveying, cadastral surveying, network adjustment and topographic surveying using total stations and data collections, satellite positioning (Global Position Systems) and photogrammetric (aerial mapping) systems
Lecture: 2 hours – Lab: 6 hours
Prerequisite: ARCH 112 or CIVL 112, MATH 148, SURV 141, SURV 245 and SURV 249 or concurrent.
Lab fee: \$15.00

SURV 249 Land Subdivision Systems (A,SP) 3 Credits
Advanced surveying including section and subdivision lines and residential property lines. Reestablishment of property boundaries and legal considerations for boundary descriptions, including local municipal records searching. Lecture: 2 hours – Lab: 3 hours
Prerequisite: ARCH 112, SURV 241 and SURV 245
Concurrent:
Lab fee: \$15.00

Technical Communication (TCO)

TCO 101 Careers in Technical Communication (A,SP) 2 credits
In this course, students are required to interview with Technical Communication professionals, research the field of Technical Communication, and deliver an oral presentation of the findings. Discussions of career goals, including the preparation of an initial resume and employment data file will also be required. The requirements of this course must be met within the first two quarters of entering the Technical Communication degree program.
Lecture: 1 hours – Lab: 2 hours
Lab fee: \$20.00

TCO 102 Tools and Techniques for Technical Communicators (W,SU) 3 credits
This course will introduce students to the software tools and basic techniques required of entry-level technical communicators. Students will learn about the various hardware and software tools technical communicators use on a daily basis. Lectures on general principles will be followed by exercises selected to simulate employer expectations. Mastery of techniques needed to complete daily technical communication tasks will be emphasized.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 101, TCO 101 or concurrent enrollment
Lab fee: \$8.00

TCO 203 Introduction to Technical Communication (W,SU) 3 credits
In this course, students learn the project documentation cycle used by technical communicators in business, industry, and government by selecting an authentic problem-solving project from their technical cognate fields, and writing and formatting a series of reports in support of that project. Students learn the principles of modern technical communication and time/project management and practice them individually and in small groups throughout the documentation cycle.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: CPT 101 and ENGL 102 with a grade of “C” or higher.
Lab fee: \$5.00

TCO 204 Introduction to Technical Editing (A,SP) 3 credits
In this course, students will practice editorial skills needed for revising scientific/technical writing by checking grammar, sentence structure, clarity and style in personal, peer, and professional writings. Students will practice hard copy and online editing and proofreading and analyze editorial style books and other technical resource materials. Various editorial approaches and the editor/author relationship will be covered.
Lecture: 2 hours – Lab: 3 hours
Prerequisite: ENGL 102 with a grade of “C” or higher and OADM 101.
Lab fee: \$5.00

TCO 214 Document Design & Delivery Methods (W,SU) 3 credits
This course will introduce students to learning theory as applied to the design and delivery of technical documents. It will integrate current tech-

nical communication theory in document design and delivery with the capabilities of various software packages and delivery methods. Students will develop skills in applying design theory to technical documents and in selecting appropriate delivery methods for technical documents

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 203

Lab fee: \$8.00

TCO 215 Online Documentation (A,SP) 3 credits

This course will introduce students to all aspects of creating online documentation. Students will learn about the five phases involved in creating online documentation: planning online documentation, designing and modifying information for online presentation, testing and redesigning online documentation. Students will develop actual online documentation for a software package during the course.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 203 and TCO 214

Lab fee: \$8.00

TCO 221 Proposal Development (A) 3 credits

Students will learn how to develop proposals which offer to solve problems for a reader or groups of readers by providing specified services at a specified cost. The units involved in the learning process will include understanding the bidding process, defining the request for a proposal, planning and developing a proposal document and practicing the methods of formatting, writing, editing and presenting a formal business proposal.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 203

Lab fee: \$5.00

TCO 222 Developing Software Documentation (W) 3 credits

In this course students are prepared as software documentation specialists to work with software users and developers. Students will prepare software documentation, conduct document usability testing, and perform documentation development tasks, such as preparing user specifications, task lists, style guides, project schedules, instruction sets, and problem reports, as well as conducting interviews, reviews, and walk throughs.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 203

Lab fee: \$5.00

TCO 223 Advanced Technical Communication (W,SU) 3 credits

In this course, students focus on current research and theory in scientific and technical writing and apply that research to practical situations. Students produce a proposal for funding, a full-length, portfolio quality manual or report, and various other writing assignments. They also lead class discussions on such topics as readability theory, writing style, documentation methods, text processing, manual formatting, and integrating graphics and text.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 203

Lab fee: \$5.00

TCO 224 Advanced Technical Editing (A,SP) 3 credits

In this course, students are prepared as editors to work with other publications specialists. Students will edit manuscripts, prepare style books or manuals, and perform special editorial tasks such as preparing abstracts, indexes, and bibliographies with line-by-line precision and accuracy.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 203 and TCO 204

Lab fee: \$5.00

TCO 230 Technical Presentations (W,SP) 3 credits

In this course, students learn to prepare and present various types of information ranging from press releases, annual reports, and statistical analyses to proposals for projects, systematic evaluations, and revisions of existing documents. Various types of audiences will be targeted, and stu-

dents will be required to use computer graphics, hypermedia, desktop publishing, and multimedia approaches to supplement oral presentations.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 223

Lab fee: \$5.00

TCO 235 Instructional Design (A,SP) 2 credits

Students will study the phases of an Instructional Design Project. They will conduct a needs assessment and define the skill and knowledge requirement of a job assignment. They will learn the typical training development cycle.

Lecture: 1 hours – Lab: 3 hours

Prerequisite: TCO 230 or current enrollment

Lab fee: \$5.00

TCO 236 Computer-Based Training (W,SU) 3 credits

Students will study instructional design as it applies to developing Computer-based Training (CBT) modules. They will learn the typical CBT development cycle and design CBT screens, incorporating multimedia effects and maximum interactivity.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 235

Lab fee: \$8.00

TCO 237 Digital Video Production for the Workplace (A) 3 credits

Digital Video Production for the Workplace is an introduction to basic and advanced techniques for creating and using digital video in the workplace. During the course, students will storyboard and write scripts, shoot and acquire clips, edit electronically, work collaboratively, and present video segments appropriate for a workplace environment. Students will critique examples and work on individual and group projects to produce a final product. This course is intended for Technical Communication students.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: TCO 235

Lab fee: \$20.00

TCO 245 HTML-Based Online Documentation (W,SU) 5 credits

This course introduces students to all aspects of creating HTML-based online documentation without the use of an HTML authoring tool. Students will learn about the various phases of creating HTML-based online documentation: planning, designing, organizing, developing, publishing, testing and redesigning.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: TCO 214

Lab fee: \$5.00

TCO 250 Capstone in Technical Communication (A,W,SP,SU) 3 credits

In this course, students will be required to demonstrate both the overall competency and quality workmanship expected of professionals in the technical communication field. Students will work individually and in collaboration to solve problems of technical writing, editing, and presentations, and on the study and implementation of projects normally assigned to entry-level technical communicators. The course can only be taken during the final quarter, prior to graduation.

Lecture: 2 hours – Lab: 3 hours

Prerequisite: Permission of instructor

Lab fee: \$5.00

TCO 260 Career Development (A,SP) 1 Credit

In this course, students prepare a professional portfolio, including a resume developed from the student's previous academic work experience. Students are required to review their portfolios informally and through formal oral presentations. Students will learn how to carry out company research and apply that research to targeted resumes, letters of application, and interview situations. This course must be completed within the

final four quarters of the student's program.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: Permission of instructor

Lab fee: \$5.00

TCO 290 Industry Internship (A,W,SP,SU) 1-4 credits

In this course, students are engaged in work specifically related to the Technical Communication field as employees in business or industry. Students are responsible for arranging the internship and must submit a written proposal to the Technical Communication Program Coordinator for approval no later than two quarters prior to becoming an intern. During the internship, the student must keep a written record of job responsibilities and projects. A formal written report must be accompanied by a written evaluation of the student's performance by his/her supervisor. One credit hour is equal to one hundred (100) clock hours on the job. The four credits may be spread over more than one quarter.

Prerequisite: TCO 101, TCO 203, TCO 204, and permission from the Program Coordinator of the Technical Communication Program. A GPA of "B" or higher in TCO courses

Lab fee: \$5.00

TCO 297, 298, 299 Special Topics in Technical Communication (On Demand) 1-5 credits

Special topics in technical communication designed to meet specific needs.

Lecture: 5 hours – Lab: 0 hours

Lab fee: \$5.00

Theater (THEA)

THEA 100 Introduction to the Theater (A,SP) 5 credits

The course is designed to help students bring critical thinking skills into their experience as theatergoers. Students will be introduced to the theater arts - acting, directing, and design. Students will survey the history of Western theater, focusing on the art as a reflection of society's changing social and cultural values. Plays representing several genres and historical periods will be read and discussed. Writing assignments include critical reviews of plays attended.

Lecture: 5 hours – Lab: 0 hours

Prerequisite: ENGL 101 or ENGL 111

Lab fee: \$5.00

THEA 180 Theater Practicum (A,W,SP,SU) 3 credits

Supervised practical experience in two or more of the following areas - acting, lighting, set, sound, costuming, house management, stage managing, or directing. Enrollment is limited to students who have been cast in a theater production on campus or who have been selected to work on technical areas of the production. With the advanced approval of the instructor, credit can be earned by working on off-campus theater productions. Repeatable to nine credits.

Lecture: 0 hours – Lab: 9 hours

Prerequisite: THEA 100 (COMM 130) and permission of instructor

Lab fee: \$5.00

THEA 210 Technical Production Fundamentals: Stage Lighting (SP) 3 credits

An introduction to the basic principles and functions of stage lighting. Experience in creating a lighting design, hanging and focusing lighting instruments, and executing the design with the Status 24/48 control board. Brief overview of the work of other members of the production staff with whom a lighting designer collaborates.

Lecture: 1 hours – Lab: 4 hours

Prerequisite: THEA 100 (COMM130) or permission of instructor

Lab fee: \$ 3.00

THEA 231 Literature for the Theater I (W) 3 credits

A survey of selected world drama from the classical Greek period through the mid-nineteenth century. The focus is on the plays as potential theater.

Lecture: 3 hours – Lab: 0 hours

Prerequisite or concurrent: ENGL 101 or 111

Lab fee: \$3.00

THEA 232 Literature for the Theater II (SP) 3 credits

A survey of selected western drama from the eighteenth century through the mid-nineteenth century. The focus is on the plays as potential theater.

Lecture: 3 hours – Lab: 0 hours

Prerequisite or concurrent: ENGL 101 or 111

Lab fee: \$ 3.00

THEA 233 Literature for the Theater III (SU) 3 credits

A survey of selected western drama from the mid-nineteenth century to the present. The focus is on the plays as potential theater.

Lecture: 3 hours – Lab: 0 hours

Prerequisite or concurrent: ENGL 101 or ENGL 111, THEA 100 or COMM 130

Lab fee: \$3.00

THEA 280 Fundamentals of Acting (W) 3 credits

Introduction to the basic principles of stage acting with a focus on practical experience. Areas of emphasis include stage movement, vocal delivery, body language, concentration techniques and basic script analysis and scoring.

Lecture: 1 hours – Lab: 4 hours

Prerequisite: THEA 100 (COMM 130) or permission of instructor.

Lab fee: \$3.00

THEA Writing Plays (SP) 5 credits
(See ENGL 283)

THEA 290 Capstone Experience in Theater (SU) 3 credits

Fulfills the capstone requirement for Associate of Arts and Associate of Science degree students at Columbus State. Students will carry out and present a major project in theater - in performance, technical theater, or research. Students will complete a personal portfolio covering their studies in theater and related areas.

Lecture: 0 hours – Lab: 6 hours

Prerequisite: Prerequisite: 75 credits toward the Associate of Arts or Associate of Science degree, including at least 12 credits in THEA beyond THEA 100 (COMM 130)

Lab fee: \$10.00

THEA 297- 298-299 Special Topics in Theater (On Demand) 1-5 credits

Special Topics in Theater is designed to meet specific needs.

Prerequisites:

Lecture: 1 hours – Lab: 0 hours

Prerequisite: vary, see instructor

Veterinary Technology (VET)

VET 111 Veterinary Technology I (A) 5 credits

This is an introductory course that focuses on veterinary medical terminology, basic nutrition and husbandry for the dog, cat, horse ruminant and various laboratory animal species. Laboratory animal management, including restraint and handling, sexing and common diseases are discussed. Ethics, jurisprudence and duties of the veterinary technician are also discussed.

Lecture: 4 hours – Lab: 2 hours

Prerequisite: Admission to the program

Lab fee: \$75.00

VET 114 Client Relations (A) **2 credits**
This course will familiarize the student with common business procedures used in veterinary practices, including fundamental record-keeping and medicolegal requirements. The role of the veterinary technician as a member of the veterinary health care team and client educator is addressed. Veterinary practice management, methods for improved client communication, and dealing with difficult clients are explored. The student will learn basic animal training methods and how to assist clients with the resolution of common animal behavior problems.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: Admission to program
Concurrent: VET 111

VET 122 Veterinary Parasitology (W) **3 credits**
An introduction to the common internal and external parasites of domestic animals, including scientific nomenclature, life cycles, common methods of identification and the treatment and/or prevention of these parasites.
Lecture: 2 hours – Lab: 2 hours
Prerequisite: VET 111

VET 124 Principles of Veterinary Radiology (W,SP) **2 credits**
In this course, students learn the basic principles of x-ray production, radiographic positioning, x-ray machine operation, radiographic technique and film processing. Radiation safety and proper use of protective equipment is emphasized. Special radiographic procedures and technique evaluation are covered.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: BIO 161

VET 126 Principles of Veterinary Anesthesia (W) **3 credits**
An introduction to veterinary anesthesia with a basic understanding of animal physiology as it pertains to anesthesia. Students will learn patient pre-anesthetic evaluation, properties and uses of preanesthetic and general anesthetic agents, pain recognition and management, principles of fluid therapy and dosage calculations. Patient monitoring, safe anesthetic equipment utilization and handling anesthetic emergencies will also be emphasized.
Lecture: 3 hours – Lab: 0 hours
Concurrent: BIO 169

VET 131 Veterinary Anatomy and Physiology (SP) **3 credits**
This course will provide a clinically relevant systems approach to the comparative anatomy and physiology of the canine, bovine, equine and feline species, including the circulatory, respiratory, digestive, muscular, skeletal, nervous, endocrine, exocrine and urogenital systems. A brief presentation of avian anatomy and physiology is included.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: BIO 161, BIO 169

VET 133 Clinical Application I (SP,SU) **3 credits**
Laboratory exercises for VET 138, VET 124 and VET 126. In this course, students learn how to perform fundamental techniques commonly used in small animal veterinary practices, including physical examination, surgical preparation, anesthesia, radiology, venipuncture, dental prophylaxis, bandaging and splint application, administration of medical treatments and record-keeping.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: VET 124 and VET 126
Concurrent: VET 138
Lab fee: \$75.00

VET 135 Veterinary Hematology (SP,SU) **5 credits**
This course is designed to acquaint students with the equipment and techniques required to utilize blood as a diagnostic tool. Students will perform complete blood counts on a variety of domestic animal species. Blood smears are prepared and studied for the identification of blood cells that

aid in the diagnosis of anemias and various other disease states. Recognition of normal versus abnormal cell morphology will be stressed. Students who successfully complete this course should be able to perform complete blood counts in a veterinary clinical setting.
Lecture: 2 hours – Lab: 6 hours
Prerequisite: BIO 169
Lab fee: \$75.00

VET 136 Animal Health and Disease I (SP,SU) **3 credits**
Using a systems approach, the student will learn the more frequently encountered diseases of dogs and cats, including the disease name, etiology and pathogenesis, history and clinical signs, diagnosis and treatment, prevention and zoonotic potential. Vaccination protocols commonly used in small animal veterinary practices will be covered.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: VET 111, VET 114 and BIO 169

VET 138 Veterinary Surgical Techniques (SP,SU) **3 credits**
In this course, students learn the fundamentals of routine veterinary surgical procedures, including patient preparation, identification of instruments, preparation of surgical packs, methods of sterilization, suture materials and suture patterns. Preanesthetic laboratory testing, postoperative patient care and client follow-up instructions are discussed.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: VET 111, BIO 161

VET 254 Clinical Seminar I (SU,A) **2 credits**
This course focuses on issues related to the students' clinical experiences, including pet loss, client grief, euthanasia, problem solving models and change strategies. Companion animals as family members and the importance of the human-companion animal bond are explored.
Lecture: 2 hours – Lab: 0 hours
Prerequisite: All 100 level VET courses
Concurrent: VET 291

VET 262 Veterinary Pharmacology (A,W) **3 credits**
This course will provide an overview of veterinary pharmacology and therapeutics, including a basic understanding of pharmacokinetics, terminology, prescription writing, drug classifications, indications for use and methods of administration. Pharmacy management, controlled substance use and regulations and ethical behavior when handling medications will be stressed.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: MATH 100 and VET 136

VET 263 Clinical Application II (A,W,SU) **3 credits**
This is a capstone course designed for students to perform technical skills commonly used in small animal veterinary clinics, including medical record maintenance, physical examination, administration of fluids and medications, preanesthetic evaluation, general anesthetic administration and recovery, surgical preparation, splint application, dental prophylaxis, radiographic procedures and laboratory techniques.
Lecture: 0 hours – Lab: 6 hours
Prerequisite: VET 133 and VET 291
Lab fee: \$75.00

VET 266 Animal Health and Disease II (A,W,SP,SU) **3 credits**
This course familiarizes the student with the most common disease of horses, food animals and camelid species. Husbandry, vaccination protocols, nutrition, breeding and management for preventive health care are also covered.
Lecture: 3 hours – Lab: 0 hours
Prerequisite: VET 136
Concurrent: OSU internship (day program only)

VET 267 Veterinary Urinalysis and Clinical Chemistry (A, W) 4 credits

An introduction to the physical, chemical and microscopic evaluation of urine and blood serum. Students will perform routine veterinary urinalysis and clinical chemistry procedures on a variety of animal species and determine normal versus abnormal constituents. Students will become familiar with the general indications for performing various blood chemistries and understand the significance of elevated values in pathological specimens.

Lecture: 2 hours – Lab: 4 hours

Prerequisite: VET 135

VET 269 Veterinary Microbiology (A,W) 5 credits

This course is a practical introduction to the laboratory identification of microbial agents associated with diseases in various animal species. Students perform techniques necessary to isolate, identify and evaluate the presence of clinically significant microorganisms.

Lecture: 2 hours – Lab: 6 hours

Prerequisite: VET 135 and VET 136

VET 274 Clinical Seminar II (W,SP) 2 credits

A continuation of VET 254, that addresses issues emanating from the students' clinical experiences. Students are prepared for employment as a veterinary technician through simulated job interviews, resume preparation and discussion of employment strategies. Students will also present an animal bite prevention program to elementary school aged children. Applications for registration with the Ohio Veterinary Medical Board are distributed and the Veterinary Practice Act pertaining to veterinary technicians is discussed.

Lecture: 2 hours – Lab: 0 hours

Prerequisite: VET291

Concurrent: VET293

VET 275 Seminar A (A) 1 credit

This course focuses on issues related to the students' clinical experiences, including pet loss, client grief, euthanasia, and client assistance during pet loss. Companion animals as family members and the importance of the human-companion animal bond are explored. Special topics in veterinary medicine are discussed.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: VET 133; evening program registration

Concurrent: VET 294

VET 276 Seminar B (W) 1 credit

A continuation of VET 275.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: VET 275; evening program registration

Concurrent: VET 295

VET 277 Seminar C (SP) 1 credit

This course addresses issues emanating from the students' clinical experiences. Students are prepared for employment as a veterinary technician through simulated job interviews, resume preparation and discussion of employment strategies. The role of the veterinary technician in the community is explored. Applications for registration with the Ohio Veterinary Medical Board are distributed and the Veterinary Practice Act pertaining to veterinary technicians is examined.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: VET 276

Concurrent: VET 296

VET 278 Seminar D (SU) 1 credit

A continuation of VET 277.

Lecture: 1 hour – Lab: 0 hours

Prerequisite: VET 277; evening program registration

Concurrent: VET 297

VET 291 Clinical Experience I (SU,A) 6 credits

Observation and practical application of techniques used in veterinary medicine. Students are assigned to various veterinary facilities, including The Ohio State University Veterinary Teaching Hospital, private veterinary practices, veterinary emergency hospitals, research centers, diagnostic laboratories and zoos.

Lecture: 0 hours – Lab: 30 hours

Prerequisite: All 100 level VET courses

Lab fee: \$75.00

VET 293 Clinical Experience II (W,SP) 6 credits

A continuation of VET 291.

Lecture: 0 hours – Lab: 30 hours

Prerequisite: All VET courses

Lab fee: \$75.00

VET 294 Clinical Experience A (A) 3 credits

Observation and practical application of techniques used in veterinary medicine, designed for the evening veterinary technology program. Students are assigned to various veterinary facilities, including The Ohio State University Veterinary Teaching Hospital, private veterinary practices, veterinary emergency hospitals, research centers, and diagnostic laboratories.

Lecture: 0 hours – Lab: 15 hours

Prerequisite: All 100 level VET courses; evening program registration

Lab fee: \$37.00

VET 295 Clinical Experience B (W) 3 credits

A continuation of VET 294, designed for the evening program student.

Lecture: 0 hours – Lab: 15 hours

Prerequisite: VET 294; evening program registration

Lab fee: \$38.00

VET 296 Clinical Experience C (SP) 3 credits

A continuation of VET 295, designed for the evening program student.

Lecture: 0 hours – Lab: 15 hours

Prerequisite: VET 295; evening program registration

Lab fee: \$37.00

VET 297 Clinical Experience D (SU) 3 credits

A continuation of VET 296, designed for the evening program student.

Lecture: 0 hours – Lab: 15 hours

Prerequisite: VET 296; evening program registration

Lab fee: \$38.00

Glossary of Terms

Ability to Benefit - Ability to Benefit states that students who do not have a GED or high school diploma can take a federally authorized test and pass all sections to determine their eligibility for federal aid.

ACT/SAT - College Entrance Exams recommended or required for admission to some colleges

ADA - Americans with Disabilities Act

Aging Services - Synonymous with Gerontology, the study of the process of aging

Alumni - Graduates of a college or school.

American Sign Language (ASL) - Language for communicating with the deaf, with its own grammatical structure different from English.

Apply to Columbus State Community College - Submit a completed admission application form and pay \$10.00 application fee.

Articulation - A specific agreement between two schools that guarantees the transfer of a degree from one school to another, for example, Columbus State A.A. or A.S. degree to Ohio State B.A. and B.S. degree.

Associate Degree - the degree awarded if you successfully complete an associate degree program at Columbus State; also known as a two-year degree.

ASSET (Ford) - Two year cooperative training program (automotive related) sponsored by Ford Motor Company.

ASSIST Restriction (for students in Academic Difficulty) - Restriction placed on students file who has been dismissed from the college due to unsatisfactory academic progress.

ATS Degree (Associate of Technical Studies) - ATS degree enables a student to design an individualized program of study to fulfill a unique career goal. Student can select courses from up to four different technical programs.

Audit a Class - Process by which a student may take and pay for a class for information instruction only, no grade or credit received for the course.

Book Buybacks - The Bookstore buys back used books during finals week of each quarter.

Bursar's Office - Another term used for the cashier's office.

Business & Industry - Division at CSCC that assists local businesses with on site or on-campus consulting services and training programs.

C.A.D. - Computer Aided Drafting produces computer assisted drawings for architecture or engineering related projects.

Cashier - Location where students can pay fees, parking fines, purchase discount tickets and other cash related functions. The Cashiers Office is located on first floor in Rhodes Hall.

C.A.T.S. - Computer Automated Touch/Tone System allows students to register for classes using the touch-tone option.

CET (Computer Enrichment Training) - Computer training program offered through Business & Industry Division.

Certificate - Document testifying that one has fulfilled requirements of either a course or series of courses.

CLEP - The College Level Exam Program that allows students to earn college credit for what they already know.

College Work Study - Provides part-time employment on campus to assist with college expenses for students with financial need.

Commencement - the graduation ceremony held four times a year at the close of each academic quarter.

COMPASS (Placement Tests) - Computerized placement testing for new students to identify the appropriate starting level for reading, writing and math courses.

Contact hour - an hour of in-class time.

Continuing Education - Educational options available through non-credit courses and seminars designed to meet the licensing and certification needs of professionals in the community.

Contract Training - Providing training and consulting services to companies.

Cooperative Education (Co-Op) - Work-related opportunity for students to bridge the student's program of study with career-related work experience.

Cougar Mail/Cougar Net - The free e-mail program for enrolled students/ The Internet Service Provider available to students for a quarterly fee.

Course description - a written statement that explains what will be taught in a class.

CPE - Continuing Professional Education courses offered at Columbus State Community College through non-credit coursework designed to meet licensing or certification needs.

Credit - recognition by the college that you have successfully completed a course requirement leading to a degree or certificate.

Credit Bank Hours - This is an agreement between an employer and the college that allows for an exchange of the use of credit hours and internship hours.

Credit hour - the unit of measurement for college work that applies to a degree or certificate.

Curriculum - a series of courses that leads to a degree or certificate. The same as a program of study.

dBase - Data Base courses offered through the Computer Programming Technology at Columbus State Community College.

Distance Learning - classes delivered by video, on cable tv, PBS, or via the Internet or by teleconference.

Deferment (Student Loans) - Authorized period of time granted by the lender that a student does not need to make regular monthly payments toward their student loan.

Degree Audit - Advising tool that provides a written report of courses in progress, courses completed and courses remaining for completion of program or degree requirements.

Developmental Education Courses - Courses provided to improve or refresh a student's skills in reading, writing and mathematics.

Diploma (Replacement Diploma) - Official record of graduation from or of a degree conferred by a school or college. Replacement Diploma can be obtained by submitting a written request attesting that the original diploma has been lost or destroyed.

DISCOVER - Computer based assessment tool that surveys abilities, values, experiences and interests.

DPEC Courses - Non-credit web based continuing education courses in professional and technical areas that may enhance employment skills.

Drop a class - Process by which you withdraw from a class.

Duplicate Fee receipt - A second copy of a student's original paid fee receipt.

Duplicate Schedule/Fee Statement - A second copy of a student's original schedule and fee statement.

EDP Auditing - Courses offered at Columbus State Community College that include accounting training with an emphasis toward systems analysis and programming.

Educable (Cable courses) - Cable channel that allows students to view televised classes.

Elective - A course that is not required in a degree or certificate program but that is counted in total hours required.

ERC - Educational Resources Center, also known as the Library or Columbus Hall.

Evening Classes - Defined as classes that are offered during the week and begin at 5:00 p.m. or later.

Exam Credit (Proficiency Credit) - Students who believe they possess the knowledge contained in a course, may request of the academic department to take a proficiency exam.

Faculty - the college's instructors.

Fee Payment - Students fees may include one or all of the following: quarterly academic fees, lab fees and or matriculation fees. Fees can be paid in the cashier office, over the telephone or by mail. All fees need to be paid by posted deadlines.

Fee Refund Appeal - If a student feels that the refund they received is not accurate, the student may fill out a tuition refund appeal from which is available in Records and Registration Dept. in Madison Hall.

Fee Refund - Refund of fees sent for student -initiated withdrawals in accordance to the refund schedule for full quarter classes. The dates for refund guidelines can be found on the student class schedule and in the front of the quarter schedule

Financial Aid - Available in four forms: grants, scholarships, loans, part time employment and Supplemental Educational Opportunity Grant (SEOG).

Fresh Start Rule - This is a rule that is intended to help students who were unsuccessful in their previous academic attempts.

Full-time student - a student who is taking 12 credit hours or more during the quarter

General Education - courses that give the student an introduction to the liberal arts and can be tailored to meet the student's interests and requirement of specific degree programs.

General Education Diploma Test (GED) - The GED is equivalent to a high school diploma and is accepted by most colleges and universities, and military recruiters.

Gerontology - Also Aging Services -The scientific study of the characteristics associated with old age and aging.

Going the Distance - Complete degrees in Associate of Arts and Associate of Applied Science in Business Management are offered through distance learning by combining video-based and on-line courses.

Good As Gold Program - This is a free tuition program that is offered to senior citizens who are 60 years old or older and fully retired.

Grade-point average - a mathematical way of computing academic performance by giving a value to each grade, multiplying the credit hours by the points, and dividing that total by the number of credit hours attempted.

Graduation Requirements - the courses and competencies in the program of study that you have to complete successfully in order to qualify for a degree or certificate.

Grades/Grade Letters - At the close of the term and upon the completion of a course the instructor reports a letter grade indicating the quality of a student's work.

Grants - This is a type of financial assistance that is available to students who meet the eligibility criteria based on a federal formula.

Harassment - This can be defined as general misconduct, which may result in penalties up to, and including dismissal from the college.

Health Insurance (Student) - All full-time students registered for credit and attending classes at Columbus State Community College are eligible for low cost group accident and sickness health care coverage.

Health Record (Health Care Students) - Students in certain health care technologies will be required to have a physician's examination and might be required to have immunizations and laboratory blood studies completed prior to being accepted into health related technology coursework.

HECC - The Higher Education Council of Columbus is an association of colleges and universities in Central Ohio.

Honors - formal recognition of academic achievement.

Housing for Students - Columbus State Community College does not provide on campus housing options for its students. Information regarding off campus housing options may be found in the Student Activities office in Nestor Hall.

Identification Cards - ID cards are required in order to use many campus related services or activities. These ID cards may be purchased at the Cashier's office for a one time fee of \$4.00. - issued by the Public Safety Office.**Immigrant students** - Students who have immigrated to the United States

International students - a student from another country who is enrolled at CSCC.

Internship - approved on-the-job training in a work setting in which you earn credit hours towards graduation.

Intramural sports - on-campus, non-varsity or intercollegiate, sports.

Job Hot Line - a phone number to call for full or part-time employment while in college.

K-12 programs - CSCC programs that work with students in Kindergarten through 12 grade.

Laboratory; Lab hours - the time in the instructional plan that you spend applying the theories presented in the lecture portion of your class.

Late Payment of fees - paying your fees after the designated date; incurs a late fee.

Library - located in Columbus Hall, is sometimes referred to as the Educational Resources Center, or ERC.

Life Experience Credit - college credit that can be earned for life or career experience; determined by testing.

Loan - financial aid that must be repaid with predetermined terms.

Loan Deferment - when the loan repayment is “put off” a certain amount of time.

M.L.T. program - Medical Laboratory Technology.

Miami 2+2 program - A degree program offered by Columbus State and Miami University, which pairs an associate degree with two more years of study to earn a bachelor’s degree.

Modular courses - courses that are offered in shorter, self-contained units.

Multi-Competency Health - a degree program that offers courses in a variety of health-related areas.

Non-credit courses - courses that do not offer college credit.

Non-traditional credit - college credit earned through means other than traditional classroom or distance learning.

Nurses Office - the College Health Office, located in Union Hall.

Orientation - a formal or informal meeting for new students to become acquainted with the campus and student services at Columbus State.

O.N.O.W. - Ohio Non-Traditional Occupations for Women program, offered by the Transitional Workforce Office at Columbus State.

Out-of-State status - A student whose permanent residence is outside the state of Ohio, or who has not maintained residency in Ohio for 12 months.

Parking Ticket - given for parking violations at Columbus State. Must be paid prior to registration each quarter, and prior to graduation.

Part-time student - a student who is taking less than 12 credit hours of classes during a quarter.

Payment of Fees - Can be accomplished in a variety of ways such as in person, my mail, or by phone. There is a deadline each quarter for payment without a late penalty.

Peer Tutoring - a free service offered by the Developmental Education department, where students can be tutored by other students.

Phi Theta Kappa - a national student honorary society for two year college students.

Placement Tests - A test given to students to determine the level of courses they are required to take in subjects such as writing, math and reading.

Vision and Values

We see Columbus State Community College as a dynamic and diverse institution offering accessible, affordable, lifelong learning opportunities to meet the educational, employment, and enrichment needs of our community as it participates in the global economy.

We Value Being . . .

- An integral, respected, trusted partner in our community.
- A dynamic, evolving institution.
- An outstanding learning environment.
- An accessible educational institution.
- A diverse learning community.
- A results-oriented organization.
- Accountable.

Mission Statement

The mission of Columbus State Community College is to provide quality educational programs that meet the life-long learning needs of its community. Through its dynamic curriculum and commitment to diverse learners, the college will serve as a catalyst for creating and fostering linkages among the community, business and educational institutions. The college will proactively respond to the changing needs of our community and its role in the global economy through the use of instructional and emerging technologies.

Institutional Goals

- To recognize, develop, and support excellence in both learning and teaching.
- To provide a learner-centered environment that provides the support services which assure that learners attain their educational goals.
- To provide relevant, thorough, state-of-the-art technical education that prepares students to prosper in the world of work.
- To provide course work leading to an associate degree and/or lower-division preparation for college/university transfer.
- To provide educational, cultural, economic, social, recreational, or aesthetic programs and services to meet the changing needs of individuals in a multicultural community.
- To provide lifelong educational programming for personal and professional growth, cultural and recreational enrichment and international education.
- To foster an environment that values an understanding and appreciation of diversity.

- To develop and strengthen partnerships with industry, primary and secondary education, business, labor, community organizations and government to enhance the economic development of our service community.
- To broaden learning opportunities through the creation of a strong community outreach program.
- To collaborate with our community to understand and satisfy its needs and expectations to provide quality educational services within available resources.
- To encourage management policies that demonstrate institutional integrity and effectiveness.
- To enhance learning opportunities for students, faculty, staff, and administrators through the effective use of technology.
