

# Student Chapter News

## *Mentorship Extraordinaire.*

The CSI Columbus Chapter loves the contact with the students at Columbus State Community College. We have worked closely with the Construction Management Department for over 10 years now. 5 Years ago, the Chapter decided to add another Scholarship for our students that attend Columbus State and support our parent Chapter in so many ways.

Dean Bortz was instrumental in opening doors and getting things started when Thad Goodman and Jeff Calcumuggio made the initial call. Dean has worked tirelessly to bring CSI into his classroom. He has helped our chapter navigate Welcome Back booths for the students, and teaches our CDT preparatory materials in his curriculum. Dean attends meetings, brings updates on all things student related and is our overall secret weapon to get the attention of the next generation of CSI Parent Chapter Members. Naming our Scholarship for CSCC was an easy choice.
