

DECEMBER 2021

# NORTH LINDEN ELEMENTARY SCHOOL

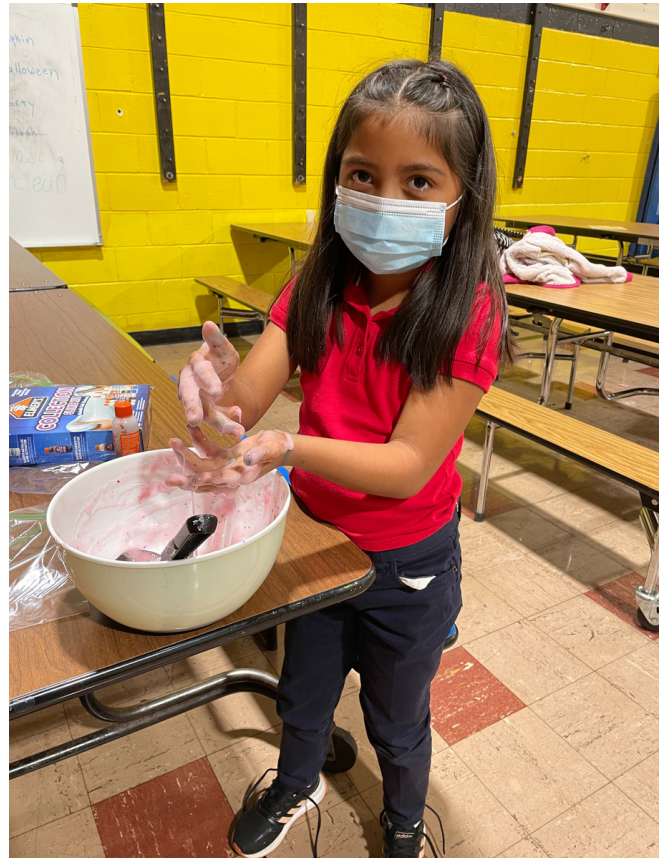

## A Look at Fall Programming at ESL Afterschool Communities

### BACK TO AFTERSCHOOL

This past fall at North Linden our students have been exercising their minds and bodies with homework help, educational enrichment, and creative and fun opportunities for developing art, social studies, and science skills! Students enjoy daily outdoor time to run and play, yummy meals, and focused academic time to learn and grow!

We celebrated our return to school this year with several special events as well. Through our partnership with Seeds of Caring, we have been crafting with a purpose and learning about helping others. We attended the North Linden Fall Literacy Festival with parents and we held our own fall party with games, crafts and science! We even held a Minute to Win-It Game Night, where students raced the clock to complete engaging Minute to Win-It challenges.
